Issued August 1998

Augusta, Maine

PHONE: (207) 287-2271 (Voice)

The Maine Department of Labor is an equal opportunity employer. Auxiliary aids and services are available upon request to individuals with disabilities. Telephone (207) 287-2271 - FAX (207) 287-2947 - TTY 1-800-794-1110

#### **PREFACE**

We are grateful to all employers who responded to the 1996 Occupational Employment Statistics (OES) survey. This publication would not have been possible without their cooperation.

The Occupational Employment Statistics survey is a federal-state cooperative program funded by the U.S. Bureau of Labor Statistics (BLS). Partial financial support for this report was also provided by the Maine Occupational Information Coordinating Committee (MOICC).

All 50 states, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands participate in the program. OES has served as the source of Maine occupational wage rates since 1991. This was not the case for most states until 1996, at which time the OES survey became the source of occupational wage rates nationwide. This report contains 1996 wage rates for Maine aggregated at the statewide level, and for the Metropolitan Statistical Areas (MSAs). We have also provided a table displaying national level wage rates. Two Balance of State Areas have been developed as a supplement to this report.

A comparison of Maine wage rates with those of other states is available on the Bureau of Labor Statistics internet site. For the first time, it is possible to compare occupational wage rates from state to state using a standardized methodology. Also available at the BLS Internet site are technical notes on the OES survey and occupational definitions. The address of the BLS Internet home page is:

#### http://stats.bls.gov

To obtain additional labor market information for Maine, our office maintains an Internet homepage at:

#### http://ecuvax.cis.ecu.edu/~mainelmi/maine.html

If you have any questions regarding Maine labor market information or products available through our office, please call (207) 287-2271. If your question is specific to occupational wage rates or this publication, please contact Merrill Huhtala at (207) 287-6300.

Raynold A. Fongemie, Director Labor Market Information Services

#### INTRODUCTION

The information published in the following tables was collected during the 1996 Occupational Employment Statistics (OES) survey. Wage rates are provided for every occupation meeting Bureau of Labor Statistics (BLS) standards for statistical validity.

Statistics provided include the mean, median, first and third quartiles, and (percent) relative error. The mean represents the mathematical, weighted average for all workers reported in the subject occupation. The median is the actual mid-point, or the point at which half of the workers earn more and half earn less than the posted figure. Following this logic, the first and third quartiles represent the 25th and 75th percentiles, which make up the lower and upper boundaries of the mid-range. The earnings of fifty percent of those reported in a given occupation fall within this range. Earnings of twenty five percent fall below the first quartile, and above the third quartile. In addition, the national and statewide tables contain a column listing the estimated employment for each occupation published.

Wages collected by the OES program represent straight-time wage rates, which are total earnings before payroll deductions, and exclude premium pay for overtime or for work on weekends, holidays, and late shifts. Also excluded are performance bonuses and lump-sum payments such as profit sharing, attendance bonuses, holiday, year-end bonuses, and other non-production based payments. As of 1996, tips are also excluded. Payments which are included are cost-of-living allowances, longevity pay, and incentive payments which result from commissions, piecework, or production bonuses.

The data provided in this publication were developed from a sample of employers. The resulting figures are estimates with some level of sampling error associated with them. Sampling errors are expressed as a percentage in the column labeled Relative Error. This figure represents the percentage in which the true mean might differ from the published mean. For example, a relative error of 6.590 would indicate that the true mean could vary from the published mean by up to 6.59 percent, higher or lower, at a 68 percent confidence level.

The data provided in this publication are for informational and research purposes, and not to be used for developing prevailing wage determinations associated with Alien Labor Certification (ALC). Alien Labor Certification programs are administered by the Employment and Training Administration (ETA) under guidelines that require wage rates based on experience level. The tables in this publication do not contain the necessary data elements to establish prevailing wage rates, and as such, are unsuitable for that purpose.

#### OCCUPATIONAL DEFINITIONS

Occupations contained in the tables are sorted by occupational code. This may appear awkward at first, but sorting the tables in this fashion allows users to easily compare earnings of related occupations. The OES coding structure groups occupations based on related functions or duties, as follows:

#### 10000-19999 Managerial and Administrative Occupations

This division includes top-level managers, administrators, and executives whose primary duties are policy making, planning, staffing, directing, or controlling the activities of industrial, commercial, governmental, or other establishments in which an intermediate level of supervision exists between managers and workers. Only managers and administrators whose salaries are exempt from the minimum wage and overtime provision of the Fair Labor Standards Act are included. EXCLUDED are first-line managers and supervisors with first-line duties.

#### 20000-39999 Professional, Paraprofessional, and Technical Occupations

This division includes workers concerned with the theoretical or practical aspects of such fields as science, art, education, law, and business relations where substantial postsecondary educational preparation, or equivalent on-the-job training or experience is required. This division includes accountants, buyers, cost estimators, engineers, architects, physical and life scientists and technologists, systems analysts and computer programmers, psychologists, lawyers, teachers, instructors, health professionals, veterinarians, writers and editors, announcers, artists, designers, photographers, and others. Unlike the other occupational divisions, first-line managers and supervisors of professionals, paraprofessionals, and technicians are INCLUDED among the workers they supervise.

#### 40000-49999 Sales and Related Occupations

This division includes persons selling goods or services and others directly related to sales. Included in this division are sales agents, travel agents, sales engineers, wholesale representatives for scientific products and services, nontechnical sales representatives, retail salespersons, counter and rental clerks, sales floor stock clerks, cashiers, and telemarketing representatives. Managers of smaller establishments are also included in this division. These managers have first-line duties supervising and coordinating the activities of marketing, sales, and related workers. They engage in the same activities as those they supervise, and may also perform management functions (budgeting, accounting, marketing, personnel work) in addition to their supervisory duties.

#### 50000-59999 Clerical and Administrative Support Occupations

Included in this division are persons performing office and plant clerical tasks, such as word processing, filing, bookkeeping, computer operation, record keeping, or mail preparation and distribution. Also included in this category are bank tellers, procurement/purchasing clerks, customer service representatives, hotel desk clerks, data entry clerks, receptionists, messengers, dispatchers, expediting clerks, warehouse stock clerks, and shipping/traffic clerks. Manager/Supervisors of smaller establishments, who are classified as First Line Supervisors, perform management functions but may also engage in the same clerical work as those they supervise.

#### 60000-69999 Service Occupations

The Service Occupations division includes occupations relating to protective service, food service, health assisting service, cleaning and building service, and personal service. Included are police officers, firefighters, security guards, cooks, food servers, dishwashers, nursing aides, maids and janitors, hairdressers and cosmetologists, and child care workers. First-line Supervisors and Manager/Supervisors in smaller establishments perform both supervisory and management functions, along with performing some of the same functions of those they supervise.

#### 70000-79999 Agricultural, Fishing, Forestry, and Related Occupations

This division includes workers involved with agricultural production, forestry, animal caretaking, and grounds keeping. Coded into this division are loggers, graders and sorters of agricultural products, nursery and greenhouse workers, animal breeders and trainers, lawn maintenance workers, and veterinary assistants. First-line Supervisors and Manager/Supervisors in smaller establishments perform both management and supervisory functions, and may spend up to 20 percent of their time performing the same functions as those they supervise.

### 80000-99999 Production, Construction, Operating, Maintenance, and Material Handling Occupations

This division includes all skilled, semiskilled, and unskilled workers performing machine, hand working, and manual tasks involving the above operations. Because this is the largest and most diverse OES division, we have provided a more detailed description of the ten major occupational groups, organized by function.

#### 81000-81099 First-Line Supervisors and Manager/Supervisors

These workers directly supervise and coordinate the activities of their subordinates and are identified by the function of the employees they supervise, such as mechanics, installers, and repairers; construction trades and extractive workers; production and operating workers; transportation and material moving machine and vehicle occupations; helpers, laborers, and manual material movers.

#### 83000-83099 Inspectors and Related Occupations

Workers such as quality control technicians and those who perform precision and production testing, grading, sampling, or weighing of nonagricultural raw materials, parts, products, or equipment before, during, or after processing, are included in this group.

#### 85000-85999 Mechanics, Installers, Repairers

Workers coded into this group maintain, repair, and adjust motor vehicles, equipment, machines and tools, either on or off premises. They install equipment and machinery and perform routine machinery maintenance. Included are millwrights, general utility maintenance repairers, automotive mechanics, small engine specialists, data processing equipment repairers, locksmiths, furnace installers, and garment and linen menders.

#### 87000-87999 Construction Trades and Extractive Occupations

This occupational group includes workers who construct, alter, and maintain buildings and other structures. Included would be carpenters, masons, concrete and terrazzo finishers, electricians, painters, plumbers, septic tank servicers, carpet installers, roofers, paving equipment operators, highway maintenance workers, quarry rock splitters, blasters and explosives workers, and drillers.

#### 89000-89999 Precision Production Occupations

Workers in this group are those whose work requires a high degree of precision and usually the ability to interpret detailed specifications and instructions along with the independent use of judgement and knowledge gained through experience and training. The work may be performed by hand, hand-held tools, or by using various types of machinery. Normally classroom or on-the-job training of six months to several years or more is required to reach the "journey" level. Some examples of precision production occupations are tool and die makers, machinists, silversmiths, model makers, cabinetmakers, custom tailors, paste-up workers, photoengravers, bookbinders, manufacturing bakers, or food batch makers.

#### 91000-92998 Machine Setters, Set-up Operators, Operators, and Tenders

These workers set up, operate, or tend machinery (usually large production machinery). Those who set up or set up and operate machines are grouped separately from operators and tenders. Occupations are defined by the material being processed; metal and plastic, wood, printing and binding, textiles, and a miscellaneous category that includes other materials (film, tires, food) and their processing.

93000-93999 Hand Working Occupations, Including Assemblers and Fabricators
This category of worker performs hand assembly, fabrication, finishing, and a wide variety of
handwork, such as welding, cutting, molding, painting, grinding, and sewing, in production of
goods. Precision assemblers, whose work normally requires training as indicated in the
previous precision production section, are reported among these hand workers.

#### 95000-95099 Plant and System Occupations

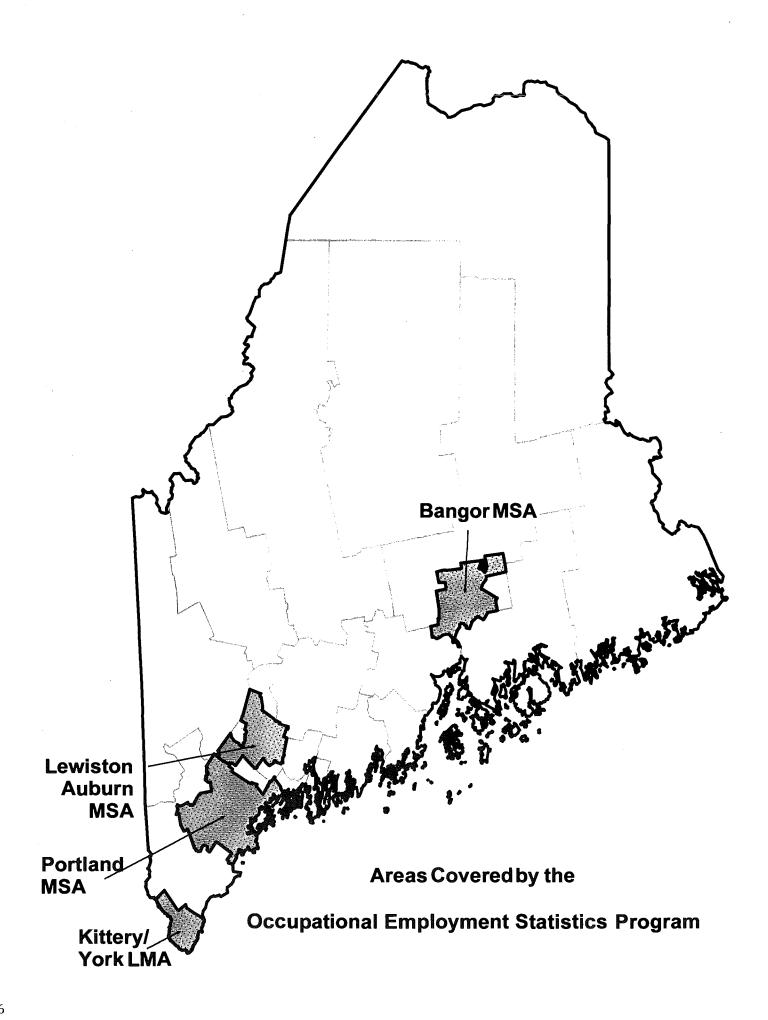

Plant and systems workers control or operate systems of machines or entire processes through the use of control panels or centralized controls, such as chemical or water treatment systems.

97000-97999 Transportation and Material Moving Machine and Vehicle Operators
These workers operate or control vehicles used to transport people or materials, as well as
transportation related workers. They operate trucks, buses, water vessels, aircraft, construction
and excavating equipment, and machinery such as hoists and winches, cranes and towers,
industrial trucks (fork lifts) and tractors, conveyors, and pumps. Also included are driver/sales
workers, service station attendants, and parking lot attendants.

#### 98000-98999 Helpers, Laborers, and Hand Material Movers

These workers perform non-machine tasks generally of a routine nature and requiring minimal training. This category of worker helps production, construction, operating and maintenance workers, but are not involved directly in the making of a product. They assist by machine feeding and off bearing, moving materials manually, loading or unloading, hand packing or packaging, and may also clean and wash vehicles and equipment.

Detailed occupational definitions are available by accessing the U.S. Bureau of Labor Statistics Internet site, at http://stats.bls.gov/oes/oes\_data.htm. In the event you do not have Internet access, you may contact the Division of Labor Market Information Services at (207) 287-2271.

#### Areas Covered by the Occupational Employment Statistics Program

#### Maine Statewide

This table contains data elements provided by employers throughout Maine aggregated to the statewide level.

#### Maine Metropolitan Statistical Areas

The next four tables contain data aggregated to the Metropolitan Statistical Area (MSA) level, including the cities and towns listed, by area.

**Bangor** 

Bangor Glenburn Holden Brewer Hampden Kenduskeag Eddington Hermon Milford Orrington Winterport

Old Town
Penobscot Isl. Indian Res.

Orono Veazie

Lewiston-Auburn

#### Kittery-York Labor Market Area

The data contained in this table are actually that of the Portsmouth-Rochester, NH-ME PMSA, or Primary Metropolitan Statistical Area. Maine cities and towns included in this area are often referred to as the Kittery-York Labor Market Area, or LMA:

Berwick

Eliot

Kittery

South Berwick

York

#### **United States**

Data elements contained in the United States table were developed by the National Office of the U.S. Bureau of Labor Statistics. Wage rates are aggregated to the national level from data submitted by all 50 states, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands.

OES	Code and Occupational Title	Estimated Employment	Relative Error	Mean	1st Quartile	Median	3rd Quartile

#### INTRODUCTION

This Supplement to 1996 Maine Occupational Wages contains occupational wage rates for two Balance of State Areas of Maine, made up of cities, townships, and unorganized territories not included in the Metropolitan Statistical Areas. Data presented in these tables are the results of a survey conducted in cooperation with the U.S. Employment and Training Administration.

The occupational coding structure and definitions are standard, both in the report, 1996 Maine Occupational Wages, and in this supplement.

#### Maine Balance of State Areas

The Balance of State Areas consist of cities, towns, and unorganized territories not included in the Metropolitan Statistical Areas (MSA). Counties comprising the Balance of State Areas are listed below.

#### Northeast

Aroostook
Penobscot (Except Bangor MSA)

Somerset

Washington

Hancock

Piscataquis

Waldo (Except Bangor MSA)

#### Southwest

Androscoggin (Except Lewiston-Auburn MSA)

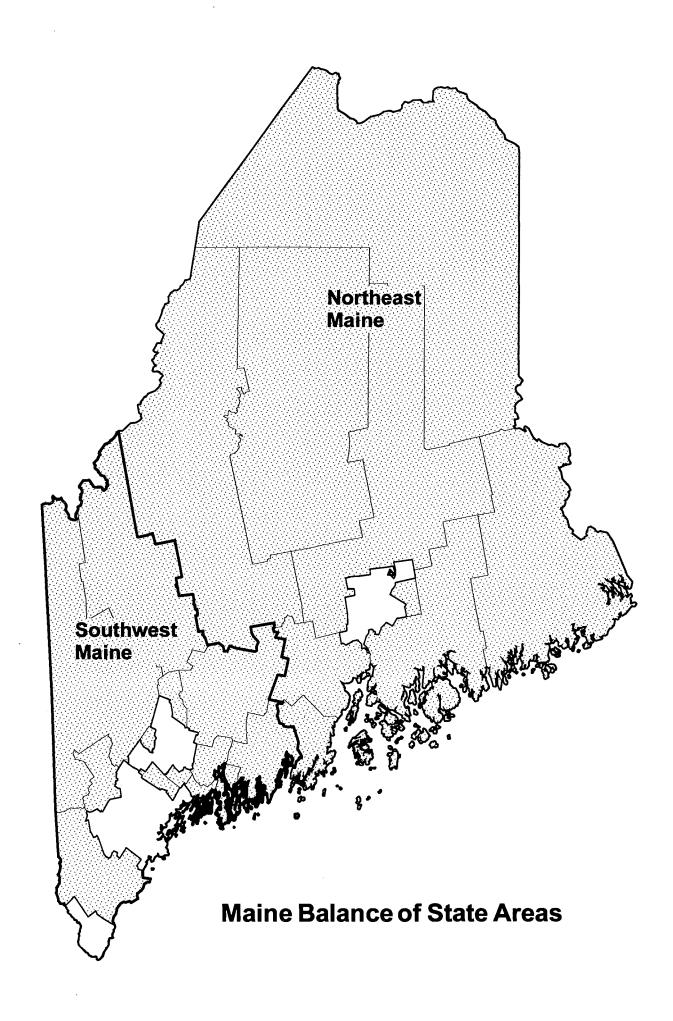

Franklin Knox

Oxford

York (Except Kittery-York Labor Market Area)

Cumberland (Except Portland MSA)

Kennebec Lincoln Sagadahoc
