PREFACE

The primary purpose of this handbook is to help meet the economic information needs of businesses, labor organizations, educational institutions, public/private researchers, governments, and others interested in labor market information for Maine.

Each month, and routinely during other times of the year, the Division of Economic Analysis and Research prepares and disseminates a variety of economic reports and publications. This handbook serves as a ready reference source by making available--in a single volume--detailed employment, earnings, and related information regarding selected economic activities of the state and its substate areas.

Many of the statistics contained in this handbook were prepared with the assistance and methodologies provided by the Employment and Training Administration and the Bureau of Labor Statistics of the U.S. Department of Labor. Certain tables, such as the nonfarm wage and salary section, were prepared entirely from computer files using state-of-the art automation technology and required no retyping or other manual processing.

Questions or comments regarding this handbook should be directed to the Maine Department of Labor, Bureau of Employment Security, Division of Economic Analysis and Research, 20 Union Street, Augusta, Maine 04330, telephone (207) 289-2271.

INTRODUCTION

INTRODUCTION

The tables presented in this report are grouped as follows: Section I--Labor Force Statistics; Section II--Nonfarm Wage and Salary Employment; Section III--Hours and Earnings; Section IV--Covered Employment, Wages and Contributions; and Section V--Unemployment Insurance Program. A list of definitions is provided in Appendix A to explain the terms used in each Section. Appendices B and C describe the geographical and industrial classification systems used in tabulating the data.

Section I

The civilian labor force statistics presented in this section are developed on a monthly and annual basis for the state, counties, and labor market areas. Statistics are also available on a quarterly and annual basis for over 500 minor civil divisions. All estimates are final and are not seasonally adjusted. The methodology used to compile these estimates was developed by the U.S. Department of Labor, Bureau of Labor Statistics.

The statistics pertain to the civilian labor force which excludes members of the armed forces. The civilian labor force is comprised of the employed and the unemployed (refer to Appendix A for precise definitions). Also provided is the unemployed as a percent of the civilian labor force, or as it is more commonly known, the "unemployment rate."

Civilian labor force statistics have many uses. The unemployment rate and other components of the labor force are the most prominent measures of the economy and receive wide coverage in the press and on radio and television. Changes in the labor force are of vital concern to all levels of government as well as to businesses, universities, and research institutions.

Billions of dollars are distributed to state and local governments through a variety of education, training, employment, and economic development programs based on civilian labor force statistics.

Section II

This section consists of the nonfarm wage and salary employment figures by industrial classification for the state and substate areas.

The nonfarm wage and salary employment figures, except those for the federal government, refer to persons on nonfarm establishment payrolls who received pay for any part of the pay period which includes the 12th of the month. For federal government establishments, employment figures represent the number of persons who occupied positions on the last day of the calendar month. Intermittent workers are counted if they performed any service during the month.

The data exclude proprietors, the self-employed, unpaid family workers, farm workers, and domestic workers in households. Salaried officers of corporations are included. Government employment covers only civilian employees; military personnel are excluded. Employees of the Central Intelligence and National Security Agencies are also excluded.

Persons on establishment payrolls who are on paid sick leave (when pay is received directly from the firm), on paid holiday, on paid vacation, or who work during a part of the pay period even though they are unemployed or on strike during the rest of the period are counted as employed. Not counted as employed are persons who are on layoff, on leave without pay, on strike for the entire period, or who were hired but have not yet reported during the period.

The nonfarm wage and salary tables in this section have been developed with the objective of providing the lowest level of industry employment possible. Consequently, because of this detailed level of reporting, the nonfarm wage and salary tables in the report may not agree precisely with other separate official employment estimates developed for the state and for the standard metropolitan statistical areas (SMSAs) of Lewiston-Auburn and Portland. Nonetheless, the data reported serves many useful purposes and are widely regarded as a leading barometer of the economic health of an area. The statistics have been used in guiding business decisions on plant locations, sales, and purchases; detecting and planning for swings in the business cycle; and in providing for industry-wide employment comparisons.

Section III

Included in this section are the average workweek and average hourly earnings of production workers employed in manufacturing industries. Statistics are produced on an annual basis as well as by month for the state and for the standard metropolitan statistical areas (SMSAs) of Lewiston-Auburn and Portland.

Average hours and earnings estimates are derived from a representative sample of manufacturing establishments who report payrolls and hours worked. The reports are for production workers only which include all nonsupervisory personnel and working supervisors who are directly engaged in the manufacture of the product(s) of the establishment and other closely-related activities.

The average hourly earnings are on a "gross" basis and reflect not only changes in basic hourly incentive wage rates but also such variable factors as premium pay for overtime and shift work differentials. Averages of hourly earnings differ from wage rates. Earnings are the actual return to the worker for a stated period of time; rates are the amount stipulated for a given unit of work or time.

The workweek information relates to the average hours for which pay was received, and differs from standard or scheduled hours. Such factors as absenteeism, labor turnover, part-time work, and stoppages cause average weekly hours to be lower than scheduled hours of work for an establishment.

Because the average hours and earnings data are developed in exactly the same manner in all states, these statistics provide benchmarks against which individual employers can compare their performance with that of the same industry within the state or across the nation. The data can also be used in salary setting, including collective bargaining and other labor-management negotiations. These statistics have broad application in assessing economic conditions, particularly with regard to determining wage trends. The information available on average workweek is an important leading indicator of changes in business cycles since, traditionally, employers tend to reduce workers' hours prior to actual job layoffs. Numerous other uses of these statistics are made by government officials, businesses, trade associations, labor unions, educational institutions, and research organizations.

Section IV

All statistics compiled in this Section are tabulated from the quarterly tax reports submitted by employers subject to the Maine Employment Security Law. Also included in certain tables are similar reports for employees of federal government installations within the state.

Employment coverage under the Law has undergone various changes over the years. From January 1, 1972 to December 31, 1977, coverage applied to firms with one or more workers in each of 20 or more weeks of the year, or with a payroll of at least \$1,500 in any calendar quarter. Also in 1972, employees of state hospitals and state institutions of higher education were included, as were certain nonprofit organizations employing four or more workers in each of 20 or more weeks in a year. Effective January 1, 1978, coverage was expanded to include the following: (1) agricultural labor for employers with 10 or more workers in each of 20 weeks or who paid \$20,000 or more in wages in any calendar quarter; (2) domestic workers of employers who paid \$1,000 or more in any calendar quarter; (3) most employees of state and local governments, except elected officials; and (4) employees of nonprofit elementary and secondary schools. Aside from the above restrictions, the primary groups excluded from coverage after January 1, 1978 are nonprofit organizations with fewer than four employees; the self-employed; unpaid family members; railroad workers; and certain farm and domestic workers.

Covered employment data represent the number of workers earning wages during the pay period including the 12th of the month. The data include all corporation officials, executives, supervisory personnel, wage earners, piece workers, and part-time workers. Excluded are persons who earned no wages because of strikes or work stoppages, temporary layoffs, illnesses, or unpaid vacations.

Covered employment and wage data are distributed on an area basis, insofar as is possible, from information furnished by employers. Multi-area employers having fewer than six persons employed within a county may assign such workers to the county in which they have their largest number of employees. Information pertaining to workers who regularly perform services in more than one county is included in the "inter-county" category, as is data reported by employers who fail to show the area in which they operate.

Although the statistics presented in this Section have broad economic significance in evaluating labor market trends and industry developments, a more complete analysis is possible utilizing the nonfarm wage and salary tables contained in Section II.

Perhaps the most significant use of the covered employment and wage statistics is in administering the employment security programs of the Department. These data accurately reflect the extent of coverage of the state Unemployment Insurance program and are used to measure revenues, disbursements, and total and taxable wage trends. The tables are a primary source of data for actuarial studies, determinations of experience ratings, tax rates, insured unemployment rates, and maximum benefit levels. The data are also used in the preparation of workload forecasts and budget estimates.

Caution should be exercised in using average weekly wage data developed from these statistics. Average weekly wages are computed by dividing 1/52 of total wages for the year by average monthly employment. This procedure presupposes that wages are evenly distributed throughout each week of the year. It also assumes that average monthly employment is approximately the same as in an average week. These assumptions do not consider such variables as bonus or retroactive payments, strikes, and different payroll periods within each quarter. Average wages may also be affected by the influx of workers in various industries during seasonal periods, labor turnover, short-term jobs, job-sharing, overtime, and persons paid on a commission basis. More extensive data on average wages can be obtained from other sources of per capita earnings and special wage surveys.

A more accurate picture of average wages is available in Section III--Hours and Earnings.

Section V

The Unemployment Insurance program provides short-term financial assistance to individuals who lose their jobs and are able to work, available for work, and actively seeking work. A worker's monetary eligibility for Unemployment Insurance benefits is based upon wages earned during a predefined prior period of employment covered under the Maine Employment Security Law.

LABOR

The program is financed solely by employer contributions which are paid into the Unemployment Trust Fund in amounts determined by an employer's contribution rate applied against taxable wages. Some classes of employers are allowed to make payments based on actual benefits paid under the direct reimbursable provisions of the Law. Explanations of these provisions are contained in the list of Definitions (Appendix A).

Besides providing financial assistance to unemployed persons, the program acts as a stabilizer for the economy during times of high unemployment by offsetting to some extent the lost purchasing power resulting from joblessness.

The statistics on Unemployment Insurance have many uses: budgetary and administrative planning; program volumes, costs, and evaluations; extent of protection; and benefit adequacy. The data are also used in calculating insured unemployment rates at both the state and federal levels, and in making certain required reports to Congress.

1/ DATA PRESENTED EXCLUDE DOMESTICS IN PRIVATE HOUSEHOLDS, SELF-EMPLOYED, AND UNPAID FAMILY WORKERS. EMPLOYMENT FIGURES RELATE TO FULL- AND PART-TIME WAGE AND SALARY WORKERS IN PAY PERIODS INCLUDING THE 12TH OF THE MONTH. FIGURES ARE ROUNDED TO THE NEAREST TEN; CONSEQUENTLY, DETAIL MAY NOT ADD TO TOTAL. ESTIMATES ARE BASED ON THE 1972 STANDARD INDUSTRIAL CLASSIFICATION (SIC). AN ASTERISK (*) IN THE EMPLOYMENT FIELD INDICATES DATA IS NOT DISCLOSEABLE AT THAT SIC LEVEL.

APPENDICES

APPENDIX A. DEFINITIONS

APPEAL

A written request for a hearing to be held by an appeals authority regarding a decision, or a request for a higher authority on a decision made by a lower authority.

LOWER AUTHORITY: The first of two administrative authorities provided to review benefit decisions.

HIGHER AUTHORITY: The second of two administrative authorities provided to review lower authority benefit decisions (as well as certain employer determinations which are not included in this report).

AVERAGE ACTUAL DURATION

The total number of weeks of unemployment compensated during a year divided by the number of first payments for the same period.

AVERAGE CONTRIBUTION AMOUNT COLLECTED PER EMPLOYEE

The result obtained by dividing total contributions due for the year by average monthly employment.

AVERAGE WEEKLY BENEFIT AMOUNT (AWBA)

AWBA--TOTAL: The amount of compensation paid for total unemployment during a year divided by the corresponding number of weeks for which compensation for total unemployment was paid.

AWBA--PARTIAL: The amount of compensation paid for less than total unemployment during a year divided by the corresponding number of weeks for which less than total compensation was paid.

AWBA--ALL: The amount of compensation paid for total and partial unemployment during a year divided by the corresponding number of weeks for which total and partial unemployment was paid.

AVERAGE WEEKLY WAGES

The result obtained by dividing 1/52nd of total wages for the year by average monthly employment. See Section IV for limitations of data.

BENEFITS PAID (EXCLUDING DIRECT REIMBURSABLE)

REGULAR: The amount of compensation paid during a year which is not recoverable by reimbursement from another source such as employer direct reimbursement or federal share of extended benefits.

EXTENDED (STATE SHARE): The amount of compensation paid during a year under the extended benefits program for which the state is liable (generally 50 percent of total extended benefits). Extended benefits is a federal-state program which provides compensation to certain claimants who have no rights to regular benefits during periods of high unemployment.

CIVILIAN LABOR FORCE

The number of persons by place of residence who were either employed or unemployed during the survey week which includes the 12th of the month. Labor force data and its components, employed and unemployed, are for civilians only.

CLAIMS

INITIAL CLAIM: A notice of unemployment filed: (1) to request a determination of entitlement to and eligibility for compensation; or (2) to begin a second or subsequent period of unemployment within a benefit year or period of eligibility.

CONTINUED CLAIM: A notice filed by mail or in person for waiting period credit or payment for one or more weeks of unemployment.

CONTRIBUTION RATE

The tax rate assigned to each employer under provisions of the Maine Employment Security Law. Rates are usually in effect for a calendar year and are applied to taxable wages to determine contributions due. An employer's contribution rate is generally based upon the specific rate schedule in effect and the firm's experience with unemployment. This experience is measured in terms of the benefits paid and contributions credited associated with the employer in relation to his average taxable payroll. Rates are also calculated based on total wages but these are for analytical purposes only and have no statutory basis.

CONTRIBUTIONS DUE

The state unemployment taxes assessed to covered employers for payments to be made for deposit in the Unemployment Trust Fund. Contributions are based on a tax rate schedule that is applied to taxable wages. Contributions are due on or before the last day of the month following the close of each calendar quarter. Contributions due for a year are usually received during that same year except in the case of the October-December quarter when they are received in the following year.

CONTRIBUTIONS RECEIVED

That portion of state unemployment taxes due which is actually paid by employers during a calendar year. Not included as contributions are payments made in lieu of contributions by employers under the direct reimbursable provisions of the Maine Employment Security Law.

COVERED EMPLOYMENT

The number of workers of those employers subject to the Maine Employment Security Law. The data relating to covered employment are for weekly pay periods which include the 12th of each month. Included are all corporation officials, executives, supervisory personnel, wage earners, piece workers, part-time workers, as well as persons on the payroll but on paid vacations. Similar employment data for federal government installations within the state are also included. See Section IV for further explanation.

DEPENDENTS' ALLOWANCES

The supplemental amount payable for a week of total or partial unemployment to individuals with dependents.

DIRECT REIMBURSABLE PROVISIONS

Refers to a method of financing benefit payments. Certain nonprofit employers or governmental entities are permitted, in lieu of paying contributions, the option of reimbursing the Unemployment Trust Fund on a dollar-for-dollar basis for benefits paid to their former workers.

FINAL PAYMENTS

The last unemployment insurance check paid to a claimant which exhausts the individual's maximum potential benefit entitlement under a specific program.

FIRST PAYMENTS

The first unemployment insurance check paid under a specific program to a claimant during the individual's benefit year.

FUND BALANCE (EXCLUDING LOANS)

The year-end reserves (excluding federal loans) available in the Unemployment Trust Fund, benefit fund, and clearing account to be used for the payment of unemployment insurance benefits.

INDUSTRIAL CLASSIFICATION

The Standard Industrial Classification code assigned to each employer. Establishments are classified into industries on the basis of their principal product or activity. If a firm in private industry or a government agency conducts different activities at its various establishments or installations, separate industry codes are assigned to each activity to the extent possible. Industry coding is in accordance with the Standard Industrial Classification (SIC) Manual. The SIC Manual currently used is the 1972 edition which has been in effect since January 1, 1975. Previously, the 1967 edition was used from January 1, 1968 through 1974.

INTEREST EARNED

The amount credited to the state's Unemployment Trust Fund during a year resulting from earnings on its monies deposited in the U.S. Treasury.

LABOR MARKET AREA (LMA)

A central city or cities and the surrounding territory within commuting distance. It is an economically integrated geographical unit within which workers may readily change jobs without changing their place of residence.

LOANS

Activities concerning amounts advanced to and repaid by the state under provisions of the Federal Unemployment Tax Act (FUTA).

LOANS RECEIVED: The amount of loans received (both during the year and cumulative) by the state from the federal unemployment account.

LOAN REPAYMENT ACTIVITIES: The amount of loans repaid either through the FUTA process or from Unemployment Trust Fund reserves. Under the FUTA process, repayments are made by employers via a federal tax of 0.3 percent of taxable wages for the first year loans are due. The federal tax rate increases by 0.3 percent each year until the loan is repaid in full.

MONETARY ELIGIBILITY REQUIREMENTS

The employment and wage requirements necessary to establish entitlement to compensation under the unemployment insurance program.

BASE PERIOD WAGES: The minimum amount of wages that must be earned during a four consecutive calendar quarter period for benefit entitlement.

HIGH QUARTER WAGES: The minimum amount of wages that must be earned during at least two of the four consecutive calendar quarter period for benefit entitlement.

NONFARM WAGE AND SALARY EMPLOYMENT

All persons on nonfarm establishment payrolls who received pay for any part of the pay period which includes the 12th of the month. It does not include proprietors, the self-employed, or unpaid family workers, farm workers, and domestic workers in households. See Section II for further explanation.

NONMONETARY DETERMINATION

A written decision regarding a claimant's entitlement to benefits for a week of unemployment for other than monetary reasons.

DISQUALIFICATIONS: Denials of benefits for other than monetary reasons.

PERCENT OF CIVILIAN LABOR FORCE

The number unemployed as a percent of the civilian labor force.

PRODUCTION WORKERS IN MANUFACTURING INDUSTRIES

The category of workers which includes nonsupervisory workers (and working supervisors) who are directly engaged in the manufacture of the product(s) of the establishment and other closely-related activities.

AVERAGE WORKWEEK: The average number of hours for which pay was received during the week including the 12th of the month. Workweek hours include regular hours worked, overtime hours, hours paid for standby or reporting time, and equivalent hours for which employees received pay directly from the employer for sick leave, holidays, vacations, and other leave.

AVERAGE HOURLY EARNINGS: The result derived by dividing payrolls by total hours worked for the week including the 12th of the month. Payrolls refer to pay before all of the normal payroll deductions such as insurance, taxes, etc. Payroll figures include, in addition to pay for regular hours worked, pay for overtime, shift premiums, holidays, vacations, and sick leave paid directly by the firm to the production workers for the pay period reported.

RESIDENT EMPLOYED

The number of persons by place of residence who:

- (1) Did any work for pay or profit; or
- (2) Did at least 15 hours of unpaid work in a family oriented enterprise; or
- (3) Were temporarily absent from their regular job because of illness, vacation, bad weather, industrial dispute, or various personal reasons.

STANDARD METROPOLITAN STATISTICAL AREA (SMSA)

A large population nucleus, together with adjacent communities which have a high degree of economic and social integration with that nucleus. In New England, SMSA's are composed of cities and towns rather than whole counties as in the rest of the United States. Each New England SMSA has one or more central cities containing the area's main population concentration (an urbanized area with at least 50,000 inhabitants), along with outlying cities and towns which qualify as part of the SMSA.

TAXABLE WAGE BASE

That part of total wages paid to an individual per year which is subject to the state unemployment tax provisions. From 1972 through 1977, the taxable wage base constituted the first \$4,200 of an employee's annual wage. Effective January 1, 1978, the taxable wage base is the first \$6,000 in annual wages (\$7,000 beginning January 1, 1983).

TAXABLE WAGES

That portion of total wages which is subject to the state unemployment tax provisions.

TOTAL WAGES

All wages paid to persons in covered employment including salaries, commissions, bonuses, gratuities, and the cash value of board, rent, housing, lodging, or similar remuneration.

UNEMPLOYED

The number of persons by place of residence who:

- (1) Did not have a job, made specific efforts to find a job in the prior four weeks, and were available for work during the survey week; or
- (2) Were not working and were waiting to be called back to a job from which they had been laid off; or
- (3) Were not working and were waiting to report to a new job within 30 days.

WEEKLY BENEFIT AMOUNT (WBA)

The amount payable to a claimant for a compensable week of total unemployment.

MINIMUM WBA: The lowest amount payable to a claimant for a compensable week of total unemployment.

MAXIMUM WBA: The highest amount payable to a claimant for compensable week of total unemployment.

WEEKS COMPENSATED

The number of weeks claimed for unemployment which is actually paid.

TOTAL UNEMPLOYMENT: A week in which an individual is eligible for the full benefit amount because of no earnings deductions.

PARTIAL UNEMPLOYMENT: A week in which an individual is eligible for less than the full benefit amount because of earnings in excess of the amount allowable for no deductions.

APPENDIX C. STANDARD INDUSTRIAL CLASSIFICATION

The 1972 edition of the Standard Industrial Classification (SIC) Manual was used to codify establishments on the basis of their principal product or activity. The following is a more complete description of the major industry groupings tabulated in the preceding tables. Note that not all industry groupings are listed, but only those pertinent to the state. For a more detailed explanation of the four-digit codes which appear at the end of some Nonfarm Wage and Salary tables, consult the 1972 SIC manual. Although government has been removed as an industry division from the 1972 SIC manual, for purposes of analysis, all government activities tabulated in these reports have been grouped as either federal, state, local, or noncovered state and local. This last category consists of state and local government activities which are not covered under the Maine Employment Security Law (see Section IV for further explanation).

Code	Title	Description
01-02, 07-09	Agriculture, Forestry, and Fishing	This division includes establishments primarily engaged in agricultural production, forestry, commercial fishing, hunting and trapping, and related services.
10-14	Mining	This division includes all establishments primarily engaged in mining. Mining is used here in the broad sense to include the extraction of minerals occurring naturally: solids, such as ores; liquids, such as crude petroleum; and gases, such as natural gas. The term "mining" is also used in the broad sense to include quarrying, well operation, milling (crushing, screening, washing, flotation, etc.), and other preparation customarily done at the mine site, or as a part of mining activity.
15	General Building Contractors	This major group includes general contractors and operative builders primarily engaged in the construction of residential, farm, industrial, commercial, or other buildings. General building contractors who combine a special trade with the contracting are included in this major group.

Code	Title	Description
16	Heavy Construction Contractors	This major group includes general contractors engaged in heavy construction (including new work, additions, improvements, maintenance, and repair) such as highways and streets, bridges, sewers, railroads, irrigation projects, flood control projects and marine construction, and miscellaneous types of construction work other than buildings. General heavy construction contractors who combine a special trade with the contracting are included in this major group.
17	Special Trade Contractors	This major group includes contractors who undertake specialized activities such as plumbing, painting, plastering, carpentering, etc. Special trade contractors may work or subcontract from the general contractor, performing only part of the work covered by the general contract, or they may work directly for the owner.
20	Food and Kindred Products	This major group includes establishments manufacturing or processing foods and beverages for human consumption and certain related products, such as manufactured ice, chewing gum, vegetable and animal fats and oils, and prepared feeds for animals and fowls.
22	Textile Mill Products	This major group includes establishments engaged in performing any of the following operations: (1) preparation of fiber and subsequent manufacturing of yarn, thread braids, twine, and cordage; (2) manufacturing broad woven fabric, narrow woven fabric knit fabric, and carpets and rugs from yarn; (3) dyeing and finishing fiber, yarn, fabric, and knit apparel; (4) coating, waterproofing, or otherwise treating fabric; (5) the integrated manufacture of knit apparel and other finished articles from yarn; and (6) the manufacture of felt goods, lace goods, nonwoven fabrics, and miscellaneous textiles.

Code	Title	Description
23	Apparel and Other Textile Products	This major industry group, known as the cutting-up and needle trades, includes establishments producing clothing and fabricating products by cutting and sewing purchased woven or knit textile fabrics and related materials such as leather, rubberized fabrics, plastics, and furs.
24	Lumber and Wood Products	This major group includes logging camps engaged in cutting timber and pulpwood, merchant sawmills, lath mills, shingle mills, cooper-age stock mills, planing mills, and plywood mills and veneer mills engaged in producing lumber and wood basic materials; and establishments engaged in manufacturing finished articles made entirely or mainly of wood or wood substitutes.
25	Furniture and Fixtures	This major group includes establishments engaged in manufacturing household, office, public building, and restaurant furniture; and office and store fixtures.
26	Paper and Allied Products	This major group includes the manufacture of pulps from wood and other cellulose fibers, and from rags; the manufacture of paper and paperboard into converted products such as paper coated off the paper machine, paper bags, paper boxes, and envelopes.
27	Printing and Publishing	This major group includes establishments engaged in printing by one or more of the common processes, such as letterpress, lithography, gravure, or screen; and those establishments which perform services for the printing trade, such as bookbinding, typesetting, engraving, photoengraving, and electrotyping. This major group also includes establishments engaged in publishing newspapers, books, and periodicals, regardless of whether or not they do their own printing.

Code	Title	Description
28	Chemicals and Allied Products	This major group includes establishments producing basic chemicals, and establishments manufacturing products by predominantly chemical processes.
29	Petroleum and Coal Products	This major group includes establishments primarily engaged in manufacturing paving and roofing materials, and compounding lubricating oils and greases from purchased materials.
30	Rubber and Miscellaneous Plastics Products	This major group includes establishments manufacturing rubber products such as tires, rubber footwear, mechanical rubber goods, heels and soles, flooring, and rubber sundries from natural, synthetic, or reclaimed rubber, gutta, percha, balata, or gutta siak.
31	Leather and Leather Products	This major group includes establishments engaged in tanning, currying, and finishing hides and skins, and establishments manufacturing finished leather and artificial leather products, and some similar products made of other materials.
32	Stone, Clay, and Glass Products	This major group includes establishments engaged in manufacturing flat glass and other glass products, cement, structural clay products, pottery, concrete and gypsum products, cut stone, abrasive and asbestos products, etc., from materials taken principally from the earth in the form of stone, clay, and sand.
33	Primary Metal Industries	This major group includes establishments engaged in the smelting and refining of ferrous and nonferrous metals from ore, pig, or scrap; in the rolling, drawing, and alloying of metals; in the manufacture of castings and other basic products of metals; and in the manufacture of nails, spikes, and insulated wire and cable.

Code	Title	Description
34	Fabricated Metal Products	This major group includes establishments engaged in fabricating ferrous and nonferrous metal products such as metal cans, tinware, hand tools, cutlery, general hardware, nonelectric heating apparatus, fabricated structural metal products, metal forgings, metal stampings, and a variety of metal and wire products not elsewhere classified.
