Characteristics of Work-Related Injuries and Illnesses in Maine 1978

Introduction

The tabulations presented in this publication are the results of the Supplementary Data System. The data are obtained from the first reports of occupational injury or illness submitted to the Maine Workers' Compensation Commission. Data were collected by the Maine Department of Manpower Affairs, Bureau of Labor, Research and Statistics Division. The S.D.S. Program is a Federal/State cooperative effort in conjunction with the U. S. Department of Labor, Bureau of Labor Statistics. Detailed tables and special studies are available from the Bureau of Labor (see Appendix C).

Summary

There were 46,444 reports submitted to the Workers' Compensation Commission during 1978 1/2. Strains and Sprains (24.2%), Cuts, Lacerations and Punctures (22.7%) and Contusions and Bruises (19.3%) were the most prevalent Natures of Injury or Illness reported. Only four percent were for occupational diseases 2/2. Over one-third of the incidents involved the upper extremities. As the Part of Body Affected the Fingers were cited in over 20% of the reports. Source of Injury or Illness named varied greatly. The largest single category was working surfaces with just over 10%, followed by Machines and Metal Items with 9.4%. The Type of Accident or Exposure most often reported was Struck By (22.4%), although Struck Against and Overexertion (both with over 15%) were major problems.

[/] Received by April 14, 1979

^{2/} See Appendix B for list of inclusions

Individuals involved were most likely to be employed in an <u>Industry</u> from the Manufacturing Division (47.8%). About one in five of the affected employees were women. In over one-quarter of the cases, the injured or ill person's <u>Occupation</u> was classified as an Operative, although Craftsmen (21.4%) and Laborers (19.5%) also rank high. Most of the incidents (37.4%) occurred within one year of beginning employment with over 70% of those happening in the first six months. Overall, 36.6% of the cases were disabling; that is, they resulted in at least one lost workday.

Nature of Injury or Illness (Table 1)

This classification identifies the injury or illness in terms of its principal physical characteristics. As noted in the Summary, Cuts, Lacerations and Punctures, and Strains and Sprains made up the bulk of the Natures. Other important Natures were Contusions and Bruises (18.2%), Fractures (5.3%), and Scratches and Abrasions (4.5%).

Text Table A-1

Nature of Injury or Illness by Number and Percent Distribution

| Total, All Natures 46,444 100.0% Strain, Sprain 11,246 24.2 |
|---|
| |
| |
| Cut, Laceration 10,550 22.7 |
| Contusion, Bruise 8,960 19.3 |
| Scratch, Abrasion 4,243 9.1 |
| Fracture 2,306 5.0 |
| Occupational Illnesses $\frac{1}{2}$ 1,966 4.2 |
| Other Occupational Injuries 7,173 15.4 |

^{1/} See Appendix B

Fractures, although fewer in number, are more likely to involve lost workdays than any other major category. Strains and Sprains also resulted in disabling

^{2/} Including Nonclassifiable

injuries in more than half of the cases. Occupational Illnesses had a rate of disabling cases (40.4%) that was slightly higher than the overall rate.

Text Table A-2 Nature of Injury or Illness by Severity

| Nature | % Disabling | % Non-Disabling |
|--------------------------------|-------------|-----------------|
| Total, All Natures | 36.6% | 63.3% |
| Strain, Sprain | 51.9 | 48.1 |
| Cut, Laceration | 24.6 | 75.4 |
| Contusion, Bruise | 29.6 | 70.4 |
| Scratch, Abrasion | 17.0 | 83.0 |
| Fracture | 64.7 | 35.3 |
| Occupational Illnesses 1/2/ | 40.4 | 59.2 |
| Other Occupational Injuries 2/ | 40.1 | 59.6 |

^{1/} See Appendix B

NOTE: Percentages may not total exactly 100% due to rounding off or the presence of fatalities

Part of Body Affected (Table 2)

This set of codes identifies the part of the person's body affected by the previously coded Nature. While the largest number of reports involved the Upper Extremities, the Head, Trunk and Lower Extremities were each named as the affected part in more than 14% of the cases. As with the Upper Extremities, the Head and Trunk had specific members which were problem areas. The Eyes were named in 10.1% of all cases and in over two-thirds of injuries or illnesses affecting the Head, while the Back was affected in nearly 13% of the total cases and over 60% of the reports involving the Trunk.

^{2/} Including Nonclassifiable

Text Table B-1

Part of Body Affected by Number and Percent Distribution

| Part | Number | Percent Distribution |
|-------------------|---------|-------------------------|
| Total, All Parts | 46,444 | 100.0% |
| Upper Extremities | 16,961 | 36.5 |
| Finger(s) | (9,571) | (20.6) |
| Trunk | 9,750 | 21.0 |
| Back | (5,920) | (12.7) |
| Lower Extremities | 7,990 | 17.2 |
| Head | 7,281 | 15.7 |
| Eye(s) | (4,704) | (10.0) |
| Multiple Parts | 2,237 | 4.8 |
| Other 1/ | 2,225 | 4.7 |

1/ Including Nonclassifiable

In terms of severity, only the Trunk, particularly the Back, reported more disabling than non-disabling injuries. Likewise, problems affecting the Lower Extremities had a higher percentage of cases involving lost workdays than the overall rate. On the other hand, injuries and illnesses of the Upper Extremities had a higher percentage of cases involving lost workdays than the overall rate. Injuries and illnesses of the Upper Extremities, despite their large numbers, showed an incidence of disabling cases (28.6%) lower than the rate for all cases (36.6%).

| | | |

Part of Body Affected by Severity

| Part | % Disabling | % Non-disabling |
|-------------------|-------------|-----------------|
| Total, All Parts | 36.6% | 63.3% |
| Upper Extremities | 28.6 | 71.3 |
| Finger(s) | (25.7) | (74,3) |
| Trunk | 53.8 | 46.1 |
| Back | (58.2) | (41.8) |
| Lower Extremities | 45.6 | 54.4 |
| Head | 19.7 | 80.2 |
| Eye(s) | (18.2) | (81.7) |
| Multiple Parts | 45.9 | 53.9 |
| Other 1/ | 33.7 | 64.9 |

^{1/} Including Nonclassifiable

NOTE: Percentages may not total exactly 100% due to rounding off or the presence of fatalities

Source of Injury or Illness (Table 3)

The Source also relates directly to the previously selected Nature and identifies the object, substance, exposure or bodily motion which produced or inflicted the injury or illness. Only one Source was identified in more than 10% of the cases. Working Surfaces, although the total for Hand Tools, Powered and Hand Tools, Non-powered was also in excess of this figure. Additionally, five other categories, Containers, Machines, Metal Items, Vehicles and Wood Items were listed as the Source in more than two thousand cases each.

Text Table C-1

Source of Injury or Illness by Number and Percent Distribution

| Source | Number | Percent Distribution |
|---|--|--|
| Total, All Sources | 46,444 | 100.0% |
| Working Surfaces Floors Other Working Surfaces Metal Items Machines Containers Hand Tools, Not Powered Vehicles Wood Items Bodily Motion Hand Tools, Powered Other 1/ | 4,843 (2,287) (2,556) 4,362 4,353 4,142 3,675 3,311 2,761 1,868 1,101 16,028 | 10.4 (4.9) (5.5) 9.4 9.4 8.9 7.9 7.1 5.9 4.0 2.4 |

1/ Including Nonclassifiable

Not only were the various Working Surfaces the leading Source, they had a rate of lost workday incidents significantly higher than the overall rate. This was especially true of Working Surfaces other than Floors. Bodily Motion, Containers, Powered Hand Tools, and Vehicles yielded disabling injuries or illnesses in more than 40% of the cases in which they were the Source.

Text Table C-2

Source of Injury or Illness by Severity

| Source | % Disabling | % Non-disabling |
|-------------------------|-------------|-----------------|
| Total, All Sources | 36.6% | 63.3% |
| Working Surfaces | 48.8 | 51.1 |
| Floors | (43.4) | (56.5) |
| Other Working Surfaces | (53.6) | (46.4) |
| Metal Items | 26.4 | 73.6 |
| Machines | 36.6 | 63.4 |
| Containers | 42.3 | 57.7 |
| Hand Tools, Not Powered | 26.1 | 73.9 |
| Vehicles | 40.9 | 58.9 |
| Wood Items | 39.7 | 60.3 |
| Bodily Motion | 51.0 | 49.0 |
| Hand Tools, Powered | 51.6 | 48.4 |
| Other $\underline{1}/$ | 32.5 | 67.4 |

^{1/} Including Nonclassifiable

NOTE: Percentages may not total exactly 100% due to rounding off or the presence of fatalities

Type of Accident or Exposure (Table 4)

The object of this classification is to identify the event which directly resulted in the injury or illness. As noted in the Summary, over half of the cases involved the injured person being Struck By an object, Struck Against an object, or there was indication of Overexertion in some form. Falls, either from elevation or on the same level, were significant contributors with a combined total of over 13%. The Caught In, Under or Between, and the Rubbed or Abraded categories also had significant numbers.

Text Table D-1

Type of Accident or Exposure by Number and Percent Distribution

| Type | Number | Percent Distribution |
|------------------------------|--------|-------------------------|
| Total | 46,444 | 100.0% |
| Struck By | 10,415 | 22.4 |
| Struck Against | 7,399 | 15.9 |
| Overexertion | 7,141 | 15.4 |
| Rubbed or Abraded | 4,445 | 9.6 |
| Fall on Same Level | 3,739 | 8.1 |
| Caught In, Under, Between | 2,848 | 6.1 |
| Fall From Elevation | 2,393 | 5.2 |
| Contact With Radiation, Etc. | 2,253 | 4.9 |
| Bodily Reaction | 1,860 | 4.0 |
| Other <u>1</u> / | 3,951 | 8.5 |

1/ Including Nonclassifiable

Falls from Elevation, Bodily Reaction, and Overexertion resulted in lost work-days in over half of the cases in which they occurred, while Falls on the Same Level and Caught In, Under or Between were disabling around 40% of the time. Struck Against and Rubbed or Abraded were disabling in only one quarter of the cases or less.

| Text Table D-2 | Type of Accident or Exposure |
|----------------|------------------------------|
| | by Severity |

| Type | % Disabling | % Non-disabling |
|------------------------------|-------------|-----------------|
| Total | 36.6% | 63.3% |
| Struck By | 32,4 | 67.5 |
| Struck Against | 25.3 | 74.7 |
| Overexertion | 54.0 | 46.0 |
| Rubbed or Abraded | 18.0 | 82.0 |
| Fall on Same Level | 41.6 | 58.4 |
| Caught In, Under, Between | 39.1 | 60.7 |
| Fall From Elevation | 55.0 | 44.9 |
| Contact With Radiation, Etc. | 30.1 | 69.9 |
| Bodily Reaction | 50.9 | 49.1 |
| Other <u>1</u> / | 37.1 | 62.4 |

1/ Including Nonclassifiable

NOTE: Percentages may not total exactly 100% due to rounding off or the presence of fatalities

Industry (Table 5)

Aside from Manufacturing, there were four other Industry Divisions that had a substantial number of occurrences of injuries or illnesses. These were State and Local Government, Retail Trade, Services, and Construction. Of these five divisions, only Manufacturing and Construction had a percentage of reports nearly double their share of the work force. Wholesale Trade equaled its percentage of employment.

Text Table E-1

Industry Division by Annual Average Employment and Number of Cases

| Industry, Nonclassifiabl | e | | 2 | * | |

^{1/} Department of Manpower Affairs, Employment Security Commission, Manpower Research Division

Text Table E-2 shows data for ten Major Industry Groups with the largest number of reports. This higher level of detail parallels the Industry Divisions with respect to the industry employment/report frequency relationship. Industry groups within the Construction and Manufacturing Divisions have a higher percentage of injuries and illnesses than employment, while the other industries show the reverse.

^{*} Less than 0.5 percent

Text Table E-2

Selected Major Industry Groups by Annual Average Employment and Number of Cases

| | | Employme | ent 1/ | Reported Cases | | |
|--------------------|--------------------------------|-----------|-------------------------|--------------------|-------------------------|--|
| SIC Major Industry | | Avg. Emp. | Percent Distribution | Number of Cases | Percent Distribution | |
| 15 | General Building Contr. | 6.7 | 1.7% | 1,436 | 3.1% | |
| 17 | Special Trades Contr. | 9.1 | 2.3 | 1,749 | 3.8 | |

| | Local Government 2/ | 42.8 | 10.7 | 3,693 | 8.0 | |

^{1/} Department of Manpower Affairs, Employment Security Commission, Manpower Research Division

In terms of the percentage of disabling injuries, there are only minor differences among the Industry Divisions mentioned above with large numbers of cases. All of them tend to group around the overall rate. The ten selected Major Industries also have this tendency. The exceptions are Lumber and Wood Products which approaches fifty percent disabling and General Building and Special Trades Contracting with greater than forty percent.

^{2/} As determined by ownership rather than Standard Industrial Classification

Text Table E-3

Industry Division and Selected Major Industry Groups by Severity

| Division/Industry (SIC) | % Disabling | % Non-disabling |
|---------------------------|-------------|-----------------|
| Total, All Industries | 36.6% | 63.3% |

| Health Services (80) | (31.1) | (68.9) |
| State & Local Government | 34.8 | 65.1 |
| State Government | (32.4) | (67.4) |
| Local Government | (35.0) | (64.0) |

NOTE: Percentages may not total exactly 100% due to rounding off or the presence of fatalities

Occupation and Age (Tables 6, 7, & 8)

Operatives (except Transportation Operatives), Craftsmen and Kindred Workers, and Laborers (except Farm Laborers) combined account for over two-thirds of the reported cases. Only two other occupational groups, Service Workers and Transportation Equipment Operatives, had more than 2,000 occurrences of injuries or illnesses.

The ages of the individuals involved ranged from 10 to 84 with a median age of 29. The median age of each occupation falls in the 25-34 years range. With no one exception, this was also the largest age group in each major occupational category. For Laborers, the largest group was 20-24 years.

Text Table F-1

Occupation by Age

| Occupation | Total1/ | Under 20 | 20-24 | 25-34 | 35-44 | 45-54 | Over 55 |
|-------------------------|---------|----------|--------|--------|-------|-------|---------|
| Total | 46,444 | 5,281 | 10,040 | 12,929 | 6,964 | 5,391 | 3,594 |
| Operatives (Ex. Trans.) | 13,301 | 1,585 | 3,330 | 3,525 | 1,829 | 1,460 | 950 |
| Craftsmen | 9,982 | 407 | 1,690 | 3,143 | 1,942 | 1,402 | 897 |
| Laborers (Ex. Farm) | 9,076 | 1,608 | 2,454 | 2,283 | 1,025 | 720 | 454 |
| Service Workers | 6,315 | 1,092 | 1,159 | 1,638 | 830 | 750 | 585 |
| Transport Operatives | 2,551 | 136 | 476 | 793 | 504 | 365 | 172 |
| Professional, Tech. | 1,505 | 54 | 253 | 573 | 234 | 202 | 136 |
| Clerical | 1,385 | 169 | 305 | 330 | 198 | 187 | 155 |
| Other 2/ | 2,329 | 230 | 373 | 644 | 402 | 305 | 245 |

 $[\]underline{1}/$ Cases where no age was determined are not listed separately but are included in the total column

Six out of the nine occupational groups were in the 30-37% range in terms of percentage of disabling incidents. Two exceptions were Transportation Equipment Operatives and Laborers, both having over 40% lost workday cases. Craftsmen, the next to the largest group, had a less than average rate of disabling incidents while the Professional, Technical occupations were less than 30% disabling.

| Text | Table | F-2 | 000 | cupation |
|------|-------|-----|-----|----------|
| | | | by | Severity |

| Occupation | % Disabling | % Non-disabling |
|-------------------------|-------------|-----------------|

1/ Including Nonclassifiable

When the Manufacturing Division is broken down into Major Industries, there is a definite pattern. The largest Occupational group is Operatives with nearly half the cases followed by Laborers, Craftsmen and Transportation Equipment Operatives. A major exception is Lumber and Wood where the largest group is Laborers with Operatives running a close second. Another significant item is in Leather, where the Operative category amounts to over three-fourths of the incidents.

Text Table F-4 Occupation
by Manufacturing Industry

| Occupation | <u>Total</u> | Food | Textiles | Lumber & Wood | Paper | Leather | Other |
|-------------------------------------|-----------------|--------------|--------------|------------------|--------------|--------------|--------------|
| Total | 22,244 | 2,815 | 2,306 | 4,818 | 3,270 | 3,000 | 6,035 |
| Operatives (Ex. Trans.) Laborers | 11,693 4,505 | 1,237 774 | 1,575 318 | 1,642 1,979 | 1,559 577 | 2,356 249 | 3,324 608 |

^{1/} Including Nonclassifiable

Duration of Employment (Table 9)

Over one-third of the cases for which the length of service was determined involved employees who had worked less than six months for that employer. Those with five years experience or less accounted for 75% of the cases with a known duration of employment.

| Text Table G-1 | Duration of Employment |
|----------------|-------------------------|
| | by Percent Distribution |

| Duration | All Cases | % Distribution (All Cases) | % Distribution (Known Duration) |
|--|---|--------------------------------------|--------------------------------------|
| Total, All Cases | 46,444 | 100.0% | |
| Total, Known Duration | 37,313 | 80.3 | 100.0% |
| Less Than 6 Months 6 Months to 1 Year 2 Years to 5 Years 6 Years to 10 Years Over 10 Years | 12,615 4,766 10,588 4,669 4,675 | 27.2 10.3 22.7 10.1 10.0 | 33.8 12.8 28.4 12.5 12.5 |
| Duration Unknown | 9,131 | 19.7 | |

Almost all of the groups exhibited a distribution of disabling injuries or illnesses similar to the rate for cases with a known duration of employment. Workers in the Less Than 6 Months employment groups had a rate of disabling injuries or illnesses that was significantly higher than the average. The Unknown group has a large percentage of non-disabling reports, but this may be because these reports tend to be less complete.

Text Table G-2 Duration of Employment by Severity

| Duration | <pre>% Disabling</pre> | % Non-disabling |
|--|--------------------------------------|--------------------------------------|
| Total, All Cases | 36.6% | 63.3% |
| Total, Known Duration | 40.1 | 59.8 |
| Less Than 6 Months 6 Months to 1 Year 2 Years to 5 Years 6 Years to 10 Years Over 10 Years | 43.2 38.0 38.7 39.1 38.3 | 56.7 62.0 61.2 60.8 61.6 |
| Duration Unknown | 22.2 | 77.7 |
| | | |

NOTE: Percentages may not total exactly 100% due to rounding off or the presence of fatalities

Cross-Tabulation of Characteristics (Tables 10, 11, 12, & 13)

A tabulation of the Nature with the Part of Body shows that Strains and Sprains are most likely to list the Back as the Part affected in over 45% of the incidents. The Lower Extremities were named in 20% of the Strain or Sprain cases. The majority of Cuts and Lacerations were to the Fingers; this was the largest Nature/Part category with over 12% of the total cases. Nearly one—third of the Fractures occurred to the Fingers, followed closely by the Lower Extremities (almost 30%).

Text Table H-1

Nature of Injury or Illness by Part of Body Affected

| Nature | Total | Fingers | Lower Extremities | Upper Extremities | M Back | Eyes | Other |
|----------------------|--------|---------|----------------------|----------------------|--------|-------|--------|
| Total | 46,444 | 9,571 | 7,990 | 7,390 | 5,920 | 4,704 | 10,869 |
| Strain, Sprain | 11,246 | 409 | 2,272 | 1,098 | 5,037 | 1 | 2,429 |
| Cut, Laceration | 10,550 | 5,766 | 1,307 | 2,203 | 15 | 66 | 1,193 |
| Cont., Bruise | 8,960 | 1,611 | 2,661 | 1,854 | 449 | 164 | 2,221 |

| Fracture 2/ | 2,306 | 719 | 686 | 341 | 21 | | 539 |
| Other Inj. & Ill. 2/ | 9,139 | 895 | 940 | 1,699 | 384 | 852 | 4,369 |

^{1/} Excluding Fingers

The most common Type of Accident that resulted in a Strain or Sprain was Over-exertion which occurred in over 58% of the Strain cases. The largest Nature/Type category was Struck By or Against causing a Cut or Laceration. The 8,650 incidents amount to 82% of the Laceration cases and nearly 19% of the total cases reported. The Type Struck By or Against was also a major contributor to the Contusion and Bruise (59%) and the Fracture (47%) categories.

^{2/} Including Nonclassifiable

Text Table H-2

Nature of Injury or Illness by Type of Accident or Exposure

| Nature | Total | Struck By or Against | Over- Exertion | Fall | Rubbed or Abraded | Caught | Other |
|----------------------|--------|-------------------------|-------------------|-------|----------------------|--------|-------|
| Total | 46,444 | 17,814 | 7,141 | 6,132 | 4,445 | 2,828 | 8,084 |
| Strain, Sprain | 11,246 | | 6,531 | 1,531 | 60 | 141 | 2,161 |

1/ Including Nonclassifiable

Given the large number of Sources cited, there is no single category that stands out. But certain patterns that were developed in the other tables are solidified here. One of the most noticeable is the large number of Strains and Sprains involving Containers and the equally large number of cases where the Nature was a Cut or Laceration with the Source of Hand Tools, Not Powered.

Text Table H-3

Source of Injury or Illness by Nature of Injury or Illness

| Source | Total | Strain, Sprain | Cut & Lacer. | Cont., Bruise | Scratch, Abras. | Fracture | Other 1/ |
|--------------------|--------------|-------------------|-----------------|------------------|--------------------|----------|----------|
| Total | 46,444 | 11,246 | 10,550 | 8,960 | 4,243 | 2,306 | 9,139 |
| Work Surfaces | 4,843 | 1,499 | 133 | 1,542 | 84 | 537 | 1,048 |
| Metal Items | 4,362 | 557 | 1,693 | 613 | 912 | 180 | 407 |
| Machine | 4,353 | 446 | 1,891 | 1,160 | 141 | 267 | 448 |
| Container | 4,142 | 2,089 | 767 | 677 | 66 | 140 | 403 |
| Hand Tools (Not Po | wered) 3,675 | 462 | 2,393 | 434 | 45 | 127 | 214 |

| Wood Items | 2,761 | 665 | 459 | 762 | 417 | 202 | 256 |
| Other $\frac{1}{}$ | 18,997 | 4,741 | 2,695 | 2,606 | 2,508 | 592 | 4,795 |
| | | | | | | | - |

1/ Including Nonclassifiable

The relationships shown above are further borne out by the cross-tabulation of Source by Type. The number of Cases involving Containers with a Type of Accident of Overexertion is virtually the same as those with a Nature of Strain or Sprain.

And likewise the number of incidents where the Source was Hand Tools, Not

Powered and the Type of Accident was Struck By or Against is similar to those
with the same Source and Nature of Cut or Laceration.

Text Table H-4

Source of Injury or Illness by Type of Accident or Exposure

| Source | Total | Struck By or Against | Over- Exertion | Fall | Rubbed or Abraded | Caught | Other 1/ |
|--------------------------|--------|-------------------------|-------------------|-------|----------------------|--------|----------|

Occupational Illnesses (Table 14)

As noted above, only 1,966 or 4% of the reports were for Occupational Illnesses.

Over 60% of these were from Manufacturing Industries followed by State and Local

Government with only 11%. Dermatitis (42%) was the most common Nature of Illness
reported, with nearly 70% in Manufacturing.

Text Table I-1

Occupational Illness by Industry Division

| Industry | <u>Total</u> | Dermatitis | Poisoning, Systemic | Inflam. | Radiation Effects | Other 1/ |

Fatalities

Forty-four cases were reviewed for the 1978 calendar year compared to 35 for 1977. All of the workers involved were male, as was the case in the previous year. There were two incidents reported that resulted in multiple deaths (see Appendix D). One was a sand bank collapse which killed two landscape gardeners. The other, an airplane crash in which four airline employees died. A large number of fatalities occurred in Construction, Manufacturing (especially in Lumber and Wood Products) and the Public Sector (especially Local Government).

Text Table I-2 Fatalities: Industry by Year, 1977-78

| | Υe | ear |
|---|------------------------|-------------------------|
| Industry (SIC) | 1977 | 1978 |
| TOTAL, ALL INDUSTRIES | 35 | 44 |

APPENDIX A

TECHNICAL NOTES

Under the Maine Workmen's Compensation $\operatorname{Act}^{\frac{1}{2}}$ and the Occupational Disease $\operatorname{Law}^{\frac{2}{3}}$ employers $\operatorname{S}^{\frac{3}{2}}$ must file a First Report of Occupational Injury or Occupational Illness (ME Form 21) or its equivalent within seven days for each incident which resulted in the loss of at least one day's work or which required the services of a physician. Also, a significant number of voluntary reports are filed that do not meet these conditions but are submitted to protect the rights of both parties in case of later complications. As the reports are received, they are assigned a number which serves as a unique identifier of that particular case.

The First Reports are then coded by the staff of the Research and Statistics Division, Bureau of Labor for the fifteen data elements shown in the table below:

| ELEMENT | SOURCE | REMARKS |
|--------------------|--|--|
| Case Number | Maine Workers Compensation Commission | Assigned sequentially by the W. C. C. |
| Employer Number | Maine Employment Security Commission | Unemployment Insurance account number assigned by M. E. S. C. |
| Industry/Ownership | U. S. Office of Management & Budget, Standard Industrial Classification Manual | In most cases, the SIC assigned by M. E. S. C. is used. In cases where the employer is not covered by Unemployment Insurance an SIC is assigned by the R & S Division based on information on the First Report. An ownership code is also assigned to show whether the employer is in private industry or state or local government. |
| County | State Planning Office, Georgraphic Coding System | Code is assigned based on the county in which the incident occurred. |
| Insurance Carrier | Maine Bureau of Insurance | The Bureau of Insurance identification number of the employers insurance carrier is assigned. A special code is used for self-insured and uninsured employers. |

| ELEMENT | SOURCE | REMARKS |
|--------------------------------|---|--|
| Sex | | Self-evident |
| Age | 44 | Self-evident. (Optional) |
| Date | - | The date of occurence is used if applicable. In the case of illnesses, the date of diagnosis is used. |
| Time of Accident | | The nearest whole hour is coded using the 24-hour system. (Optional) |
| Length of Service | | Months coded if less than one year's service. Years used otherwise. All fractions rounded upward. (Optional). |
| Occupation | U. S. Bureau of Census Occupational Classification System | Codes assigned based on occupations listed on First Report, coded to the 3-digit level. |
| Nature of Injury or Illness | American National Standards Institute Al6.2 System | ANSI Z16.2 as modified (see Appendix B) is used. All coding done to the 3-digit level. |
| Part of Body Affected | As above | As above, coding done to the 3-digit level. |
| Source of Injury or Illness | As above | As above, coding done to the 4-digit level. |
| Type of Accident or Exposure | As above | As above, coding done to the 3-digit level. |
| Severity Code | | Three levels of severity are coded: 1. fatality 2. disabling (at least one lost workday) 3. non-disabling (all other cases) |

^{1/} Title 39 M.R.S.A. \$1-180

4/ 8106

^{2/} Title 39 M.R.S.A. §181-195

^{3/} Exempted are employers hiring four or less farm laboreres provided they have liability insurance. Also, employees engaged in domestic service or as casual or seasonal labor in agriculture are exempted (§\$4, 21).

APPENDIX B

AMERICAN NATIONAL STANDARDS INSTITUTE

Z16.2 SYSTEM (MODIFIED)

Injury and illness characteristics are coded using the ANSI Z16.2 "Method of Recording Basic Facts Relating to the Nature and Occurrence of Work Injuries." A number of changes have been made to this system to either allow for more detail or to meet special needs of the S.D.S. program. The list of tables that follows notes these changes. The meaning of each notation is show below.

New: A new category created specifically for S.D.S.

Expanded: 3 or 4-digit codes created to allow more detailed

coding or where 3 or 4-digit codes have been added

do existing codes.

Modified: Content or definition change

Occupational Illness

The category, Occupational Illness, show in various tables throughout this publication, is identical to a similarly titled category created by the Bureau of Labor Statistics for use in the detail tables listed in Appendix C. The list below shows the codes and general titles of the specific natures used in this category.

| Code(s) | <u>Title</u> |
|--------------|---|
| 151-157, 159 | Infective or parasitic disease |
| 181-184, 189 | Dermatitis |
| 220 | Freezing, Frostbite, and other effects of exposure to low temperature |
| 240 | Heat stroke, sunstroke, heat cramps, heat exhaustion, and other effects of environmental heat |
| 260 | Inflammation of joints, tendons or muscles |
| 271-276, 279 | Poisoning, systemic |
| 281-287, 289 | Pneumoconiosis |
| 291-295 | Radiation effects |
| 320 | Hemorrhoids |
| 500 | Effects of changes in atmospheric pressure |

| 510 | Cerebrovascular and other conditions of the circulatory system, NEC |
|---------|---|
| 521-522 | Complications peculiar to medical care |
| 530 | Eye, other diseases of the eye |
| 540 | Mental disorders |
| 551-552 | Neoplasm, tumor |
| 561-562 | Nervous system, conditions of (non-toxic) |
| 571-572 | Respiratory system, conditions of (non-toxic) |
| 990 | Occupational disease, NEC |
| 991 | Heart Attack (non-toxic) |

NATURE OF INJURY OR ILLNESS

Definition:

The nature classification identifies the injury or illness in terms of its principal physical characteristics.

| CODE | | TITLE |
|------|--------|---|
| 150 | Infect | cive or parasitic disease (Expanded) |
| | 151 | Amebiasis |
| | 152 | Anthrax |
| | 153 | Brucellosis |
| | 154 | Conjunctivitis and ophthalmia (non-toxic) |
| | 155 | Infective hepatitis |
| | 156 | Tetanus |
| | 157 | Tuberculosis |
| | 159 | Other infective or parasitic |
| | | disease (includes septicemia) |
| 180 | | citis Rash, skin or tissue inflammation, ling boils, etc. (Expanded) |
| | 181 | Contact dermatitis (to include skin infections) |
| | 182 | Allergenic dermatitis (secondary to dermatitis) |
| | 183 | Primary infections of the skin such as boils, |
| | | carbuncles, cellulitis, abscess, lymphadenitis, |
| | | impetigo, pyoderma |
| | 184 | Other skin conditions such as toxic erythema, |
| | | lichen, pruritus |
| | 189 | Skin condition, not specified |
| 270 | Poisor | ning, systemic (Expanded) |
| | 271 | Systemic effects due to toxic materials |
| | 272 | Diseases of the blood and blood forming organs; |
| | | e.g., anemia, purpura |
| | 273 | Rhinitis, pharygitis, sinusitis and other upper |
| | | respiratory conditions, including hay fever |
| | 274 | Influenza, pneumonia, bronchitis, asthma, |
| | | pneumonitis, emphysema |
| | 275 | Toxic hepatitis |
| | 276 | Other diseases of the gastro-intestinal tract |
| | | such as gingivitis, gastro-enteritis, colitis |
| | 279 | Other toxic effects of one system only |
| 280 | Pneumo | oconiosis (Expanded) |
| | 281 | Aluminosis |
| | 282 | Anthracosis |
| | 283 | Asbestosis |
| | 284 | Byssinosis |
| | 285 | Siderosis |
| | 286 | Silicosis |
| | 287 | Other pneumoconiosis and related diseases |
| | 289 | Pneumoconiosis with tuberculosis |

| 290 | Radiation effects Sunburn and all forms of damage to tissue, bones, or body fluids produced by exposure to radiations (Expanded) |
|-----|--|
| | Non-ionizing radiation Includes sunburn, ultraviolet burns (not welder's flash), but not heat stroke, exhaustion, microwave radiation effects, etc. 292 Microwave |
| | 293 Ionizing radiation X-ray 294 Ionizing radiation Isotopes 295 Welder's flash |
| 320 | Hemorrhoids (New) |
| 500 | Effects of changes in atmospheric pressure, e.g., aero-otitis media, caisson disease (New) |
| 510 | Cerebrovascular and other conditions of circulatory system, NEC, excluding heart and hemorrhoids (includes strokes, varicose veins). (non-toxic)(New) |
| 520 | Complications peculiar to medical care. (Toxic and non-toxic) (New) |
| | 521 Serum hepatitis 522 Other and unspecified complications peculiar to medical care |
| 530 | Eye, other diseases of the eye, e.g. chalazion (non-toxic) (New) |
| 540 | Mental disorders, e.g., acute anxiety, neurosis. (Toxic or Non-toxic) (New) |
| 550 | Neoplasm, tumor (Toxic or Non-Toxic) (New) |
| | 551 Malignant, e.g., cancer, leukemia 552 Benign and unspecified |
| 560 | Nervous system, conditions of (Non-toxic) (New) |
| | Diseases of the central nervous system, e.g., cerebral paralysis, migraine Bell's palsy and other diseases of the nerves and peripheral ganglia |
| 570 | Respiratory system, conditions of (Non-toxic) (New) |
| | 571 Upper respiratory, e.g., rhinitis 572 Influenza, pneumonia, bronchitis, asthma |
| 580 | Symptoms and ill-defined conditions (Non-toxic) nose bleed, non-toxic fainting (New) |
| 900 | No injury or illness (New) |

Damage to prosthetic devices (include eyeglasses, false teeth, etc.) (New)

Occupational disease, NEC

Heart attack (Non-toxic) (New)

NEC = Not Elsewhere Classified

PART OF BODY AFFECTED

Definition:

The part of body affected classification identifies the part of the injured person's body directly affected by the injury or illness previously identified.

NO CHANGES

SOURCE OF INJURY OR ILLNESS

Definition:

The source classification identifies the object, substance, exposure, or bodily motion which <u>directly produced or inflicted</u> the previously identified injury or illness.

CODE

TITLE

0600

BOXES, BARRELS, CONTAINERS, PACKAGES (empty or full) (Expanded)

0601 Barrels, kegs, drums

0630 Boxes, crates, cartons

0650 Bottles, jugs, flasks, etc.

0660 Bundles, bales (New) 0665 Reels, rolls (New)

0670 Tanks, bins, etc., (not pressurized)

0699 Containers, NEC

0700

BUILDING AND STRUCTURES (not floors, working surfaces, or walkways. See "working surfaces" classification)
(Expanded)

0701 Buildings, office, plant residential, etc.

0705 Doors, gates (New)

0708 Windows, window frames (New)

0710 Bridges

0720 Dams, locks, etc.

0730 Grandstands, stadia, etc.

0740 Scaffolds, staging, etc.

0750 Towers, poles, etc.

0755 Walls, fences (New)

0760 Wharfs, docks, etc.

0799 Buildings and structures, NEC

4100

METAL ITEMS (plates, rods, wire, shapes, bolts, etc. includes ingots and metal scrap, but not ores or other raw material.) (Expanded)

4110 Automobile parts metal

4115 Beams, bars

4120 Bullets

4125 Molds

4130 Molten metal

4135 Nails, spikes, etc.

4140 Pipe

4145 Screws, bolts, nuts

4199 Metal Items, NEC

5700

WOOD ITEMS (slabs, poles, chips, and wood products) (Expanded)

5710 Logs

5720 Lumber

5730 Skids, pallets

5749 Wood items, NEC

6000 PERSON (New)

6010 Person, injured (heart failure or no cause indicated)
6020 Person, other than injured

RECREATION AND ATHLETIC EQUIPMENT (New)

RUBBER PRODUCTS (New)

6210 Tires

6299 Rubber Products, NEC

NEC = Not Elsewhere Classified

TYPE OF ACCIDENT OR EXPOSURE

Definition:

The type classification identifies the event which directly resulted in the injury or illness

CODE

TITLE

200

TRANSPORTATION ACCIDENTS, OTHER THAN MOTOR VEHICLE (Code for type of vehicle in which injured was an occupant) (Modified)

201 Aircraft accident

205 Ship or boat accident

207 Streetcar or subway accident

211 Train accident

298 Transportation accident, other than motor vehicle, NEC

APPENDIX C

DETAIL TABLES

SPECIAL STUDIES

DETAIL TABLES

Data in this publication has been compiled from a series of tables produced for the Research and Statistics Division, Bureau of Labor, Department of Manpower Affairs, by the U. S. Bureau of Labor Statistics. A complete list of these tables follows. Copies of these tables are available upon written request to the Bureau Director. The Bureau of Labor reserves the right to charge reproduction costs at ten cents per page.

SPECIAL STUDIES

The Research and Statistics Division, Bureau of Labor has the facility to produce special tabulations, Requests for special studies should be made in writing to the Bureau Director. The ability to fill such requests is limited by current software, staff time, etc. so not all requests can be filled. In addition, there may be charges for reimbursement of costs.

Address

All requests should be addressed to:

Marvin Ewing, Bureau Director Maine Department of Manpower Affairs Bureau of Labor State Office Building Augusta, Maine 04333

APPENDIX D

FATALITY DESCRIPTIONS

AGRICULTURE, FORESTRY AND FISHING

Agricultural Services

-- Two landscape gardeners (ages 23 & 25) were suffocated when a sand bank collapsed, burying them. Early morning, October 28th.

CONSTRUCTION

Building Construction

- A job superintendent (56) died of a heart attack when shoveling snow off the roof of a building. Around noon, February 9th.
- -- An ironworker (57) died of a fractured skull when the ladder he was working on broke and he fell 20 feet, striking his head on a piece of steel lying on the floor. Two-thirty P.M., June 30th.
- -- A job superintendent (30) was electrocuted while holding the hook from a crane when the boom came in contact with power lines. Nine A.M., December 12th.

Construction Other than Building Construction

-- A field representative (38) had both hands amputated and subsequently died when the fuse-type blasting caps he was sorting exploded. Seven-thirty A.M., November 7th.

Special Trades Contractors

- -- A laborer (age unknown), working for a plumbing contractor, suffered a skull fracture when the planks placed on existing building steel slipped, and he fell 25 feet. Eight-thirty, June 8th.
- -- A bulldozer operator (62) died of multiple crushing injuries when he was drawn into the treads of his machine which he had left running unattended. August 1st.

MANUFACTURING

Food and Kindred Products

-- A freezer clean-up laborer (62) was killed when the roof of the freezer collapsed, and he suffered a crushed skull. Around 1 P.M., January 26th.

A truck driver (54) died. Circumstances unknown. Morning, September
 7th.

Lumber and Wood Products

- -- A logger (44) died of multiple injuries when struck by a falling tree. Eight-thirty A.M., January 10th.
- -- A truck driver for a logging contractor was killed when an accident with another truck caused the logs from the second vehicle to fall on the cab of his truck. January 17th.
- -- A planer (62) for a sawmill suffered internal injuries when struck by lumber thrown from the planer. April 5th,
- -- A logger (age unknown) died of a fractured skull when struck on the head by a falling tree. Eight A.M., June 21st.
- -- A skidder operator (34) was killed when a log he was twitching became stuck and the winch would not release, pulling the skidder over and pinning him under the machine, crushing his abdomen and hips. Three P.M., August 21st.
- -- A skidder operator (55) suffered a fatal heart attack while operating his machine. Two P.M., September 29th.
- -- A logger (56) died of internal chest injuries when struck by a falling tree. Nine-thirty A.M., October 11th.

Paper and Allied Products

- -- A grader operator (44) had a heart attack and died after operating a jackhammer. Around 2 P.M., June 21st.
- -- A process chemist (25) drowned while doing temperature checks on the effluent pond when the grating "let go" and he fell into the pond. Two P.M., August 8th.

Chemicals and Allied Products

-- A foreman (48) at a fertilizer plant suffocated when the pile of fertilizer he was drilling, preparatory to dynamiting, slid down on him. Nine-forty-five P.M., May 24th.

Rubber and Miscellaneous Plastics Products

-- A kettle operator (66) was killed in the explosion of a kettle which caused a fractured skull. Ten-forty-five A.M., February 27th.

Measuring, Analyzing and Controlling Instruments

-- A mechanic (65) was electrocuted when the aluminum ladder he was using contacted high tension wires. Nine-forty-five A.M., September 1st.

TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS AND SANITARY SERVICES

Motor Freight Transportation and Warehousing

-- A truck driver (43) died of a heart attack during a rest stop on the Maine Tunrpike. Late morning, November 11th.

Air Transportation

-- Four executive and management employees, the President (53), General Manager (27), Director of Operations (35) and the Assistant Chief Pilot (39), died when their aircraft crashed on the return from a business trip. Ten-ten A.M., May 16th.

Communication

-- The News Director (35) of a television station died of severe head injuries in an automobile accident. Nine-thirty A.M., November 14th.

WHOLESALE AND RETAIL TRADE

Wholesale Trade - Nondurable Goods

-- The Sales Supervisor (38) of a beer and wine wholesaler died of a heart attack. Around 7 A.M., July 12th.

Food Stores

-- A clerk (56) fell twice on the ice at the rear of the store, striking his head each time, and died of a cerebral hemorrhage. Six-thirty A.M., January 27th.

Gasoline Service Stations

-- A Wrecker Operator (36) was struck by an automobile and died of brain lacerations. Seven P.M., August 20th.

Furniture, Home Furnishings and Equipment Stores

-- A music store employee (26) died of crushing injuries to the chest in a single car accident. Eleven-thirty P.M., August 7th.

Fuel and Ice Dealers

-- The corporation President and Treasurer (74) was shot and killed during a robbery attempt. Six P.M., January 25th.

FINANCE, INSURANCE AND REAL ESTATE

Real Estate

-- A carpenter (20), renovating an apartment house, was electrocuted when the metal ladder he was moving touched a live wire. Seven-fifteen A.M., July 5th.

SERVICES

Automobile Repair, Services and Garages

-- An employee (52) of a truck rental firm died of a heart attack at home. Evening, December 5th.

Health Services

-- A doctor, serving as a hospital administrator, (53) suffered a heart attack while attending a seminar out of state. Ten A.M., January 9th.

PUBLIC SECTOR

State Government

- -- An employee (occupation and age unknown) of the Department of Educational and Cultural Services died of a heart attack. September 22nd.
- -- A State Police Officer (45) died of a heart attack during an investigation. Ten-thirty P.M., November 5th.
- -- A First Sergeant (53) with the Maine National Guard suffered a cerebral hemorrhage while on duty. Seven-thirty P.M., November 27th.

Local Government

- -- A dump attendant (73) at a municipal sanitary landfill fell into a fire when the banking he was standing on gave way. Cause of death was burns to most of his upper body. Five-thirty P.M., May 10th.
- -- A mechanic (age unknown) at a municipal garage died of a heart attack while working on a vehicle. Three-forty P.M., October 3rd.
- -- The director (40) of a regional vocational school died of a fractured vertebra suffered when his automobile collided with a train. Ten A.M., December 20th.

- -- A local police officer (21) died. Circumstances unknown. Early afternoon, December 22nd.
- -- A local police officer (22) suffered multiple gunshot wounds when responding to a complaint involving a domestic dispute. Four-thirty P.M., December 29th.
