MAINE
Occupational
Injury and Illness
Incidence Rates

1974

Introduction

The Occupational Safety and Health Act of 1970 charged the U. S. Department of Labor with the responsibility of establishing and enforcing safety standards and for developing and maintaining an effective program of collection, compilation, and analysis of occupational safety and health statistics. The Bureau of Labor Statistics was then assigned the responsibility for establishing a system for the recordkeeping and reporting of occupational injuries and illnesses.

The Maine Department of Manpower Affairs, Bureau of Labor, Research and Statistics Division, under a cooperative Federal/State grant program, collects, compiles and analyses the injury and illness data for the State of Maine. Data are collected by use of a survey form mailed to a sample of employers selected by the Bureau of Labor Statistics.

Results

Of an estimated 27,546 recordable injuries and illnesses reported in Maine during 1974, 10,385 were lost workday cases accounting for 177,449 lost work days or approximately 710 man years of lost time. The incidence rate for the private sector was 10.9 for 100 man years worked. Meaning about one out of nine employees experience a work-related injury or illness during the year. Although this was a drop from the 11.4 of 1973, the rate of lost workday cases was 4.1 for both 1973 and 1974 indicating no change in the frequency of the more serious injuries and illnesses.

MAINE
INCIDENCE RATES
1974 & 1973

Private Sector Division	All Injuries and Illnesses		Incidence Rates		Non-Fatal Cases W/O	
			Lost Workday Cases		Lost Workdays	
	1974	1973	1974	1973	1974	1973
	10.9	11.4	4.1	4.1	6.8	7.4
Contract Construction	17.3	18.7	6.4	7.4	10.8	11.4
Manufacturing	15.4	15.9	5.9	5.9	9.5	10.1
Transportation & Public Utilities	7.2	8.7	3.4	2.9	3.7	5.7
Wholesale and Retail Trade	7.7	8.2	2.5	2.5	5.2	5.7
Finance, Insurance and Real Estate	1.7	1.4	0.8	0.8	0.9	0.7
Services	5.6	5.5	1.9	1.7	3.7	3.8

A more detailed analysis of the data indicates that nine of the ten industries with the highest incidence rates were from the Construction and Manufacturing divisions. In construction, the entire three subordinate industry groups, General Building Contractors, Heavy Construction Contractors, and Special Trade Contractors were included in the group of industries with the highest rates. In Manufacturing, the Lumber and Wood Products industry continues to be a high-hazard industry, with Food, Machinery, Fabricated Metals, Textiles, and Leather also included. The only industry outside of these two divisions in this high-incidence group was the Trucking and Warehousing industry.

INDUSTRIES
WITH
HIGHEST INCIDENCE RATES
1974 & 1973

Industry	All Injuries and Illnesses		Incidence Rates		Non-Fatal Cases W/O	
			Lost Workday Cases		Lost Workdays	
	1974	1973	1974	1973	1974	1973
Lumber and Wood Products	25.9	26.2	12.6	13.1	13.3	13.1
Food and Kindred Products	20.7	21.6	7.9	9.1	12.8	12.5
General Building Contractors	20.4	20.5	6.5	7.8	14.0	12.7
Machinery, Except Electrical	20.1	20.1	6.0	5.0	14.1	15.1
Fabricated Metal Products	17.7	19.7	7.3	8.0	10.3	11.7
Heavy Construction Contractors	16.0	18.9	7.9	9.0	8.0	9.8
Special Trade Contractors	15.3	17.2	5.7	6.2	9.6	11.0
Textile Mill Products	13.9	15.4	5.8	6.0	8.1	9.4
Trucking and Warehousing	13.8	15.2	6.4	6.1	7.3	9.0
Leather and Leather Products	12.6	14.4	3.7	4.1	9.0	10.3

The relationship of the incidence rate of lost workday cases to non-fatal cases without lost workdays shows the relative frequency of the more severe injuries and illnesses. The private sector incidence rate of 10.9 breaks down into two components, 4.1 for lost workday cases and 6.8 for non-fatal cases without lost workdays, or 62% of the recordable injuries and illnesses resulted in no lost days and 38% resulted in lost workdays.

The lost workday incidence rate gives us a statistic to compare the severity of injury and illnesses, and in 1974 this rate was 70.1 lost workdays per 100 man years, down from 71.8 in 1973.

The average lost workdays per case was 17 in 1974 down one workday per case from the 18 for 1973.

Lost Workday Incidence Rates

8

Average Lost Workdays per Lost Workday Case

	Incidence Rate Lost Workdays		Average Lost Workdays per Case

TABLE 1

Incidence Rates of Recordable Occupational Injuries and Illnesses by Type and Industry, State of Maine, 1974

- 1/ Industry division and group totals include data for industries not shown separately.
- 2/ Standard Industrial Classification Manual, 1967 Edition.
- 3/ Annual average employment is estimated from the Employment, Wages and Contributions Survey conducted by the Maine Department of Manpower Affairs, Economic Analysis and Research Division, in cooperation with the Bureau of Labor Statistics unless otherwise noted. All employment figures are expressed in thousands.
- 4/ The incidence rates represent the number of injuries and/or illnesses or lost workdays per 100 full-time employees and were calculated as:

$$N/EH \times 200,000,$$

where: N = number of injuries and/or illnesses or lost workdays

EH = total hours worked by all employees during calendar 1974

200,000 = base for 100 full-time equivalent workers (working 40 hours per week, 50 weeks per year)

- 5/ Because of rounding, the sum of the rates for lost workday cases and non-fatal cases without lost workdays may not equal the total. In addition, the difference between the total and the sum of the components shown may not reflect the fatality rate.
- 6/ Annual average employment estimated from the Current Employment Statistics Program conducted by the Maine Department of Manpower Affairs, Economic Analysis and Research Division in cooperation with the Bureau of Labor Statistics.
- 7/ Annual average employment from U. S. Department of Agriculture, Crop Reporting Board estimates of hired workers on farms.

NOTES: DASHES indicate no data reported

ASTERISKS indicate incidence rates less than .05 per 100 full-time workers

N.E.C. = not elsewhere classified.

TABLE 2

Incidence Rates of Recordable Occupational Injuries by Type and Industry, State of Maine, 1974

- 1/ Industry division and group totals include data for industries not shown separately.
- 2/ Standard Industrial Classification Manual, 1967 Edition.
- 3/ Annual average employment is estimated from the Employment, Wages and Contributions Survey conducted by the Maine Department of Manpower Affairs, Economic Analysis and Research Division, in cooperation with the Bureau of Labor Statistics unless otherwise noted. All employment figures are expressed in thousands.
- 4/ The incidence rates represent the number of injuries and/or illnesses or lost workdays per 100 full-time employees and were calculated as:

$$N/EH \times 200,000,$$

where: N = number of injuries and/or illnesses or lost workdays

EH = total hours worked by all employees during calendar 1974

200,000 = base for 100 full-time equivalent workers (working 40 hours per week, 50 weeks per year)

- 5/ Because of rounding, the sum of the rates for lost workday cases and non-fatal cases without lost workdays may not equal the total. In addition, the difference between the total and the sum of the components shown may not reflect the fatality rate.
- 6/ Annual average employment estimated from the Current Employment Statistics Program conducted by the Maine Department of Manpower Affairs, Economic Analysis and Research Division in cooperation with the Bureau of Labor Statistics.
- 7/ Annual average employment from U. S. Department of Agriculture, Crop Reporting Board estimates of hired workers on farms.

NOTES: DASHES indicate no data reported

ASTERISKS indicate incidence rates less than .05 per 100 full-time workers

N.E.C. = not elsewhere classified.

TABLE 4

Number of Recordable Occupational Injuries and Illnesses by Type and Industry, State of Maine, 1974

- 1/ Industry division and group totals include data for industries not shown separately.
- 2/ Standard Industrial Classification Manual, 1967 Edition.
- 3/ Annual average employment is estimated from the Employment, Wages and Contributions Survey conducted by the Maine Department of Manpower Affairs, Economic Analysis and Research Division, in cooperation with the Bureau of Labor Statistics unless otherwise noted. All employment figures are expressed in thousands.
- 4/ Includes fatalities, in addition to lost workday cases and non fatal cases without lost workdays.
- 5/ Annual average employment estimated from the Current Employment Statistics Program conducted by the Maine Department of Manpower Affairs, Economic Analysis and Research Division in cooperation with the Bureau of Labor Statistics.
- 6/ Annual average employment from U. S. Department of Agriculture, Crop Reporting Board estimates of hired workers on farms.

NOTES: DASHES indicate no data reported
N.E.C. = not elsewhere classified.

TABLE 6

Number of Recordable Occupational Illnesses by Type and Industry, State of Maine, 1974

- 1/ Industry division and group totals include data for industries not shown separately.
- 2/ Standard Industrial Classification Manual, 1967 Edition.
- 3/ Annual average employment is estimated from the Employment, Wages and Contributions Survey conducted by the Maine Department of Manpower Affairs, Economic Analysis and Research Division, in cooperation with the Bureau of Labor Statistics unless otherwise noted. All employment figures are expressed in thousands.
- 4/ Includes fatalities, in addition to lost workday cases and non fatal cases without lost workdays.
- 5/ Annual average employment estimated from the Current Employment Statistics Program conducted by the Maine Department of Manpower Affairs, Economic Analysis and Research Division in cooperation with the Bureau of Labor Statistics.
- 6/ Annual average employment from U. S. Department of Agriculture, Crop Reporting Board estimates of hired workers on farms.

NOTES: DASHES indicate no data reported
N.E.C. = not elsewhere classified.

Disorders associated with repeated trauma	61	28	33	773
All other occupational illnesses	21	16	5	842

1/ No fatalities due to recordable occupational illnesses estimated for calendar 1974.

Scope of the Survey

Scope of Survey

The survey relates to employers in the following industries in the State of Maine: agriculture, forestry and fisheries, SIC 01, 07-09; contract construction, SIC 15-17; manufacturing, SIC 19-39; transportation and public utilities, SIC 41-49; wholesale and retail trade, SIC 50-59; finance, insurance, and real estate, SIC 60-67; and services, SIC 70-89; except SIC 88. All employees, e.g., part-time, full-time, casual, etc., in these industries are covered. Excluded were self-employed individuals; railroad employers; employers covered by the Coal Mine Health and Safety Act and the Metallic and Nonmetallic Mine Safety Act; and Federal, State, and Local government units.

Questionnaires were mailed to 5,622 sample units. A relatively small proportion of these were excluded because they were no longer in operation, were not within the scope of the survey, were included in the report for another location, received duplicate survey forms for the same location, or the survey form was not mailable because of an inadequate address. Original and follow-up mailings and telephone calls resulted in 4,869 usable questionnaires of a possible 5,140 for a 94.7% usable response rate.

Technical Notes

Estimating Procedures

Estimates of injury and illness data were obtained for each sampled industry by weighting the data of each reporting unit by the inverse of the sampling ratio for the cell in each industry employment size group (i.e., sampling cell). Each of these sampling cells was adjusted for nonresponse. The aggregate data for the industry were then adjusted for births in the industry by benchmarking, a form of ratio estimation.

Industrial Classification

Reporting units are classified into industries on the basis of their principal product or activity determined by information entered in Section V (Nature of Business) of the survey questionnaire. For a reporting unit making more than one product or engaging in more than one activity, data for the unit are included in the industry indicated by the more important product or activity.

THIS REPORT IS MANDATORY UNDER PUBLIC LAW 91-596
1974 OCCUPATIONAL INJURIES AND ILLNESSES SURVEY
(covering calendar year 1974)

OSHA No. 103
U. S. DEPARTMENT OF LABOR
Bureau of Labor Statistics
for the Occupational Safety
and Health Administration
Washington, D. C. 20212

OMB APPROVAL NO. 44-R1492
Approval Expires December 1975

COMPLETE THIS REPORT WHETHER OR
NOT THERE WERE ANY RECORDABLE
OCCUPATIONAL INJURIES OR ILLNESSES.

READ INSTRUCTIONS BEFORE
COMPLETING THIS FORM.
Complete and return **only THIS**
FORM within 3 weeks.

REPORT WILL BE USED ONLY FOR ADMINISTRATIVE AND STATISTICAL PURPOSES

**I. ESTABLISHMENTS INCLUDED
IN THIS REPORT**

This report should include only those establishments located in, or identified by, the Report Location or Identification which appears below your mailing address on this form. Enter the number of establishments (see definition on page 1) included in this report.

**II. AVERAGE EMPLOYMENT IN
1974**

Enter the average number of employees during calendar year 1974. Count all classes of employees, including seasonal, temporary, part-time, etc. See instructions for examples of computing your average employment.

(Round to the nearest whole number)

**III. TOTAL HOURS WORKED IN
1974**

Enter the total number of hours actually worked by all employees during 1974. DO NOT include any non-work time even though paid, such as vacations, sick leave, holidays, etc.

(Round to the nearest whole number)

**IV. SUPPORT ACTIVITIES PERFORMED FOR
OTHER ESTABLISHMENTS OF YOUR COM-
PANY**

Does this report include any establishment(s) whose primary function is to provide support activities or services exclusively for other establishments of your company?

(1) ☐ No (2) ☐ Yes

If "yes," indicate the primary type of service or support provided (check as many as apply).

- (1) ☐ Central administrative office
(2) ☐ Research, development, or testing
(3) ☐ Storage (warehouse)
(4) ☐ Other — Specify _____

V. NATURE OF BUSINESS FOR 1974

1. Indicate the general type of activity performed during 1974 by the establishment(s) included in this report i.e., manufacturing, wholesale trade, retail trade, construction, services, finance, etc.

2. Enter in order of importance the principal products manufactured, lines of trade, specific services, or other description of specific activities for 1974

For each entry, also include the approximate percent of total 1974 annual value of production, sales or receipts.

- | | |
|-----------|---------|
| (1) _____ | _____ % |
| (2) _____ | _____ % |
| (3) _____ | _____ % |
| (4) _____ | _____ % |
| (5) _____ | _____ % |
| (6) _____ | _____ % |

**VI. RECORDABLE INJURIES AND ILL-
NESSES**

Did you have any recordable injuries or illnesses during calendar year 1974?

(Check one)

- (1) ☐ No — complete Section VII, Part B and Section IX
(2) ☐ Yes — complete Sections VII, VIII and IX.

**VII. MONTHLY DATA OF RECORDABLE
INJURIES AND ILLNESSES**

A. Of the Total Recordable Occupational Injuries and Illnesses (Section VIII, Line 31 columns 3, 4, and 7), how many occurred in the following months?

Calendar Year 1974

Jan. _____	July _____
Feb. _____	Aug. _____
Mar. _____	Sept. _____
Apr. _____	Oct. _____
May _____	Nov. _____
June _____	Dec. _____

B. If your establishment(s) had an OSHA compliance inspection during calendar year 1974, please enter the month of inspection _____

VIII. INJURY AND ILLNESS SUMMARY (covering calendar 1974)

- INSTRUCTIONS:**
- This section may be completed by **copying** data from OSHA Form No. 102 "Summary, Occupational Injuries and Illnesses" which you are required to **complete and post** in your establishment.
 - Leave Section VIII blank if there were no recordable injuries or illnesses during 1974.
 - Code 30 — Add all Occupational **Illnesses** (Code 21+22+23+24+25+26+29) and enter on this line for each column (3) through (8).
 - Code 31 — Add total Occupational **Injuries** (Code 10) and total Occupational **Illnesses** (Code 30) and enter on this line for each column (3) through (8).

		FATALITIES (deaths)	LOST WORKDAY CASES			NONFATAL CASES WITHOUT LOST WORKDAYS*	
Code (1)	Category (2)		Number of Cases (4)	Number of Cases Involving Permanent Transfer to Another Job or Termination of Employment (5)	Number of Lost Workdays (6)	Number of Cases (7)	Number of Cases Involving Transfer to Another Job or Termination of Employment (8)
10	OCCUPATIONAL INJURIES						
21	O C C U P A T I O N A L I L L N E S S E S	Occupational Skin Diseases or Disorders					
22		Dust Diseases of the Lungs (Pneumoconioses)					
23		Respiratory Conditions Due To Toxic Agents					
24		Poisoning (Systemic Effects of Toxic Materials)					
25		Disorders Due to Physical Agents (Other Than Toxic Materials)					
26		Disorders Due to Repeated Trauma					
29		All Other Occupational Illnesses					
30		SUM OF ALL OCCUPATIONAL ILLNESSES (Add Codes 21 thru 29)					
31	TOTAL OF ALL OCCUPATIONAL INJURIES AND ILLNESSES (Add Codes 10+30)						

*Nonfatal Cases Without Lost Workdays — Cases resulting in: Medical treatment beyond first aid, diagnosis of occupational illness, loss of consciousness, restriction of work or motion, or transfer to another job (without lost workdays).

INSTRUCTIONS FOR COMPLETING FORM OSHA NO. 103

1974 OCCUPATIONAL INJURIES AND ILLNESSES SURVEY
(covering calendar year 1974)

SURVEY REPORTING REGULATIONS

Title 29, Part 1904.20-22 of the Code of Federal Regulations requires that: each employer shall return the completed survey form, OSHA No. 103, within 3 weeks of receipt in accordance with the instructions shown below.

FAILURE TO COMPLY WITH THE REPORTING REQUIREMENTS MAY RESULT IN THE ISSUANCE OF CITATIONS AND ASSESSMENTS OF PENALTIES.

Change of Ownership — When there has been a change of ownership during the report period, the records of the current owner and the preserved records of the previous owner are to be incorporated in the report. Explain fully under "Comments."

Partial-Year Reporting — For establishments which were not in existence for the entire report year, the report should cover the portion of the period during which the establishment(s) was in existence. Explain fully under "Comments."

SECTION I — ESTABLISHMENTS INCLUDED IN THIS REPORT

This report should include only those establishments located in, or identified by, the Report Location or Identification designation which appears below your mailing address. This designation may be a geographical area, usually a county or city, or it could be a brief description of your operation within a geographical area. If you have any question concerning the coverage of this report, please contact the agency identified on the OSHA No. 103 report form. Enter in Section I the number of establishments (as defined below) included in this report.

DEFINITION OF ESTABLISHMENT

An **ESTABLISHMENT** is defined as — a single physical location where business is conducted or where services or industrial operations are performed. (For example: a factory, mill, store, hotel, restaurant, movie theater, farm, ranch, bank, sales office, warehouse, or central administrative office.)

For firms engaged in activities such as construction, transportation, communication, and electric, gas and sanitary services, which may be physically dispersed, reports should cover the place to which employees normally report each day.

Reports for personnel who do not primarily report or work at a single establishment, such as traveling salesmen, technicians, engineers, etc., should cover the location from which they are paid or the base from which personnel operate to carry out their activities.

SECTION II — AVERAGE EMPLOYMENT IN 1974

Enter in Section II the **average** of full and part-time employees you had during calendar year 1974 in the establishment(s) included in this report. Count all classes of employees, including seasonal, temporary, administrative, supervisory, clerical, professional, technical, sales, delivery, installation, construction, and service personnel, as well as operating and related workers.

Average employment should be computed by summing the employment from all payroll periods during 1974 and then dividing that sum by the number of such payroll periods. For example, if you have monthly payroll periods, add the employment for the 12 periods and divide this sum by 12 to derive your **average** employment for 1974.

SECTION III — TOTAL HOURS WORKED IN 1974

Enter in Section III the **total** number of hours actually **worked** by all classes of employees during 1974. Be sure to include **ONLY** time on duty. **DO NOT** include any non-work time even though paid, such as vacations, sick leave, holidays, etc. The hours worked figure should be obtained from payroll or other time records wherever possible; if **hours worked** are not maintained separately from **hours paid**, please enter your best estimate. If actual hours worked are not available for employees paid on commission, salary, by the mile, etc., hours worked may be estimated on the basis of scheduled hours or 8 hours per workday. (Example — If a group of 10 salaried employees worked an average of 8 hours per day, 5 days a week, for 50 weeks of the report period, the total hours worked for this group would be $10 \times 8 \times 5 \times 50 = 20,000$ hours for the report period.)

SECTION IV — SUPPORT ACTIVITIES PERFORMED FOR OTHER ESTABLISHMENTS OF YOUR COMPANY

It is necessary to know whether this report includes any establishment(s) whose **primary** function is to provide supporting **services** to other establishments of **your** company. The more important examples include central administrative (headquarters or district) offices; research, development, or testing facilities; and storage (warehouses).

Answer "No" if a) services are not the primary function of any establishment(s) included in this report or b) if services are provided but only on a **contract or fee basis** for the general public or for other business firms.

Answer "Yes" **only** if supporting services are provided to other establishments of **your** company. Also, indicate the primary type of service or support provided by checking as many boxes as apply. For example, if one separate establishment is a central administrative office and another is a warehouse, check both (1) and (3). If several supporting services are performed in one establishment at a single location, check the one box which best describes the primary activity.

SECTION V — NATURE OF BUSINESS IN 1974

In order to assign the appropriate nature of business code, we must have information about the specific economic activity carried on by the establishment(s) included in your report during calendar year 1974. NOTE: If more than one establishment is included (as indicated in Section I), information in Section V should reflect the combined activities of all such establishments. One code will be assigned which best indicates the nature of business of the group of establishments as a whole.

Item 1: General Activity — Enter the principal activity during 1974 in general terms such as manufacturing, construction, trade, finance, services, etc.

Item 2: Specific Activity — List in order of importance the specific products, lines of trade, types of services, or other economic activities. Provide as much detail as possible. Opposite each entry, please enter the approximate percentage of 1974 annual dollar value of production, sales receipts, etc., as appropriate. Reliable estimates are acceptable.

SECTION VI — RECORDABLE INJURIES AND ILLNESSES

Check the appropriate box. If you checked "Yes," complete the remainder of the questionnaire. If you checked "No" complete Section VII, Part B and Section IX.

SECTION VII — MONTHLY DATA OF RECORDABLE INJURIES AND ILLNESSES

Part A: To complete this part, count the number of cases recorded on the LOG OF OCCUPATIONAL INJURIES AND ILLNESSES (OSHA No. 100) keeping the total separate by month. This information can be compiled by reviewing the dates entered in column 2 of the Log.

Part B: Enter the first month in 1974 in which your establishment(s) had an OSHA compliance inspection. Include inspections under the Occupational Safety and Health Act by Federal or State inspectors and other inspections which provide penalties for violation of safety standards. Do not include inspections limited to elevators or boilers.

SECTION VIII — INJURY AND ILLNESS SUMMARY

This section can be completed quickly and easily by copying the data already entered on your form Summary of Occupational Injuries and Illnesses (OSHA No. 102) for 1974 which you should already have completed for each establishment. NOTE: If this report includes more than one establishment, the separate OSHA No. 102 summaries for each must be added and the sums entered in Section VIII. However, you should first make sure that each OSHA No. 102 form has been correctly prepared. The OSHA No. 102 form is the summary of cases which have been entered on the Log of Occupational Injuries and Illnesses (OSHA No. 100) during calendar year 1974. Please review the Log to make sure that all entries are correct and complete. Each case should be included in only one of the three types: Fatalities (Log column 8); Lost Workday Case (Log columns 9 and 10); or Nonfatal cases Without Lost Workdays (Log columns 11 and 12). The Summary (OSHA No. 102) should have been completed by summarizing, separately, occupational injuries (code 10) and the seven categories of occupational illnesses (code 21 through 29) according to instructions on the back of the summary form.

Please remember that, if an employee's loss of workdays is still continuing at the time the summary is completed, you should estimate the number of future workdays he will lose and add this estimate to the actual workdays already lost.

SECTION IX

Please complete all parts, including telephone number. Then return the OSHA No. 103 form (but NOT your file copy) in the self-addressed envelope.

Appendix E

In reply, please refer
to: OSHA 103

Gentlemen:

The Williams-Steiger Occupational Safety and Health Act of 1970 requires the Secretary of Labor to collect, compile, and analyze statistics on occupational injuries and illnesses. This is accomplished through a joint, Federal-State survey program with States that have received Federal grants for collecting and compiling statistics. Establishments are selected for this survey on a sample basis with varying probabilities depending upon size.

You have been selected to participate in the nationwide Occupational Injuries and Illnesses Survey for 1974. Under the Occupational Safety and Health Act, your report is mandatory.

The following items are enclosed for your use: (1) Instructions for completing the form; (2) Form OSHA No. 103 and a copy for your files; and (3) An addressed return envelope. Please complete Form OSHA No. 103 and return it within three weeks in the envelope provided.

If you have any questions about this survey, contact the survey collection agency indicated on Form OSHA No. 103.

Thank you for your cooperation with this important survey.

Sincerely,

JOHN H. STENDER
Assistant Secretary of Labor
