Labor Standards

Fatal Occupational Injuries in Maine 2001

Fatal Occupational Injuries in Maine, 2001

- ✓ 23 work-related fatalities occurred in 2001
- ✓ 23 worked for private sector employers
- ✓ 12 worked for wages or salary, 9 were self-employed
- ✓ 20 were male
- ✓ 3 were female

Industries

- ✓ 8 occurred in Wholesale/Retail Trade
- ✓ 7 occurred in Agriculture, Forestry, and Fishing
- ✓ 4 occurred in Construction
- ✓ 4 occurred in some other industry

Occupations

- ✓ 7 occurred in the Farming, Forestry, and Fishing Occupations
- ✓ 7 occurred in the Operator, Fabricator, and Laborer Occupations
- ✓ 4 occurred in the Technical, Sales, and Administrative Support Occupations M
- ✓ 5 occurred in other occupations

Part of Body

- ✓ 7 involved the entire internal body system
- ✓ 4 involved multiple parts of the body
- ✓ 6 involved the trunk
- ✓ 4 involved the head
- ✓ 2 other

Event

- ✓ 10 involved transportation accidents
- ✓ 5 involved falls
- ✓ 3 involved contact with objects and equipment
- ✓ 5 involved other events/exposure

Introduction

The Census of Fatal Occupational Injuries (CFOI) program is a Federal/State cooperative program, created in 1990 by the U.S. Department of Labor, Bureau of Labor Statistics. All 50 states and the District of Columbia participate in the program. The CFOI program was established to determine a true count of work-related fatal injuries in the United States. Prior to CFOI, estimates of work-related fatalities varied because of differing definitions and reporting sources. The CFOI program collects and compiles workplace fatality data based on guidelines established by the U.S. Bureau of Labor Statistics which are consistent for all states.

The CFOI program provides data on all fatal workplace injuries in all industries and for all ages. To be included in CFOI, a fatality must be the result of an incident that occurs while the employee is in work status.

For questions regarding the data in this publication please contact:

Scope of Fatality Data

All deaths due to work-related injuries in 2001 are included in the Census of Fatal Occupational Injuries (CFOI). A case is considered work-related if an event or exposure resulted in a fatality while an employee is in work status, whether at an on-site or off-site location.

Fatalities must be confirmed by two independent sources before inclusion in CFOI. Sources include death certificates, first reports of injury for workers' compensation, medical examiner's reports, Department of Marine Resources reports, Maine State Police reports, Department of Motor Vehicles fatality records, Coast Guard reports, OSHA reports, and news media.

Fatal occupational illnesses are excluded from this report since many fatalities due to an illness or disease may not be diagnosed until years later or the work relationship may not be known.

Heart attacks and strokes are generally considered illnesses and are excluded from the count. However, heart attacks and strokes are considered

injuries if a traumatic work injury was listed as a contributing or underlying cause of death on the death certificate or other medical report.

Injuries that occurred in international waters or airspace surrounding the U.S. are in-scope if a U.S. death certificate was issued and the case meets the CFOI criteria for work relationship. Injuries that occurred in another country are out-of-scope even if a U.S. death certificate was issued. For example, a death in the U.S. that occurred from an injury sustained in Canada would be considered out-of-scope. A state will be responsible for compiling data for an out of state death, if the incident occurred in its own state.

Each fatality is coded according to the Bureau of Labor Statistics Occupational Injury and Illness Classification System. Each fatality is classified in seven categories: **Nature**, **Part**, **Source**, **Secondary Source** (if applicable), **Event** or **Exposure**, **Activity**, and **Location** of the incident.

Employee Characteristics

Employee Characteristics

Table 1 lists the general characteristics of the 23 employees who were fatally injured in Maine in 2001. The list includes the employer, employment status, gender and race.

Table 1. Fatal Occupational Injuries by Characteristic, Maine, 2001

<u>Characteristic</u>	<u>Number</u>	<u>Percent</u>
<u>Total</u>	23	100.0
<u>Employer</u>		
Private Industry	23	100.0
<u>Employment Status</u>		
Working for Wage or Salary	12	52.2
Self-Employed	9	39.1
Other	2	8.7
<u>Gender</u>		
Male	20	87.0
Female	3	13.0
<u>Race</u>		
White	22	95.7
Other	1	4.3

Note: Numbers with 2 or fewer are not publishable.

Industry

Table 2 lists the number and percent distribution of fatal workplace injuries by the industry in which the employee was working when the incident occurred (See Figure 1).

Table 2. Fatal Occupational Injuries by Industry, Maine, 2001

<u>Industry</u>	<u>Number</u>	<u>Percent</u>
<u>Total</u>	23	100.0
<u>Wholesale/Retail Trade</u>	8	34.8
<u>Agriculture, Forestry, and Fishing</u>	7	30.4
Commercial Fishing	5	21.7
Other	2	8.7
<u>Construction</u>	4	17.4
<u>Other</u>	4	17.4

Figure 1. Fatal Occupational Injuries by Industry, Maine, 2001

Occupation

Table 3 lists the number and percent distribution of fatal workplace injuries by the employee's occupation when the incident occurred (See Figure 2).

Table 3. Fatal Occupational Injuries by Occupation, Maine, 2001

<u>Occupation</u>	<u>Number</u>	<u>Percent</u>
<u>Total</u>	23	100.0
<u>Farming, Forestry, and Fishing</u>	7	30.4
<u>Operators, Fabricators, and Laborers</u>	7	30.4
<u>Technical, Sales, and Administrative Support</u>	4	17.4
<u>Other</u>	5	21.7

Figure 2. Fatal Occupational Injuries by Occupation, Maine, 2001

Incident Characteristics

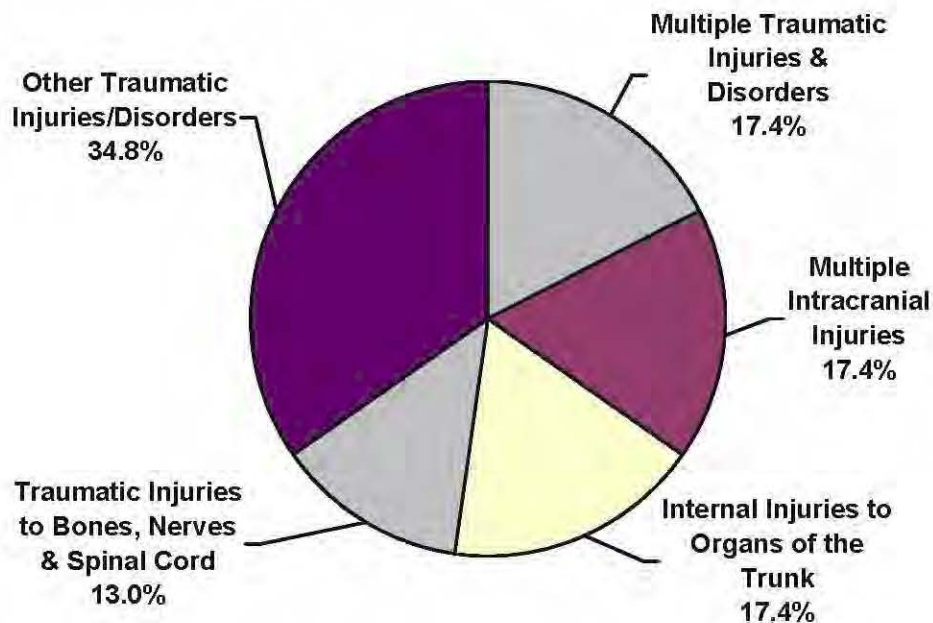

Nature

The Nature identifies the initial injury which led to the fatality. If an injury led to further complications, the initial injury is coded as the nature (e.g., for a cut leading to infection, the cut is the nature of the injury). Table 4 lists the number and percent distribution of the fatal injuries by the Nature of injury that resulted in the fatality.

Table 4. Fatal Occupational Injuries by Nature, Maine, 2001

<u>Nature</u>	<u>Number</u>	<u>Percent</u>
<u>Total</u>	23	100.0
Multiple Traumatic Injuries and Disorders	4	17.4
Multiple Intracranial Injuries	4	17.4
Internal Injuries to Organs and Blood Vessels of the Trunk	4	17.4
Traumatic Injuries to Bones, Nerves, Spinal Cord	3	13.0
Other Traumatic Injuries and Disorders	8	34.8

Figure 3. Fatal Occupational Injuries by Nature, Maine, 2001

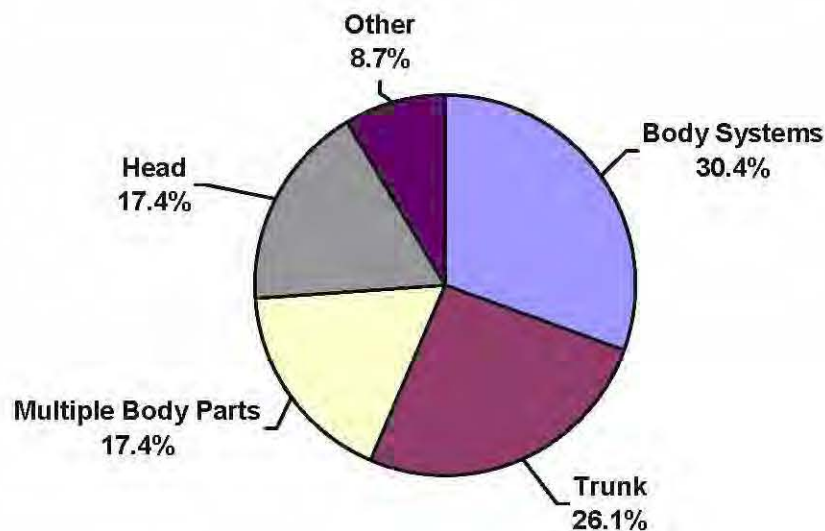

Part of Body

The Part of Body identifies the injured person's body part directly affected by the injury. Table 5 lists the number and percent distribution of the fatal injuries by the body part directly affected by the injury which led to the fatality.

Table 5. Fatal Occupational Injuries by Part of Body, Maine, 2001

<u>Part of Body</u>	<u>Number</u>	<u>Percent</u>
<u>Total</u>	23	100.0
<u>Body Systems</u>	7	30.4
<u>Trunk</u>	6	26.1
<u>Multiple Body Parts</u>	4	17.4
<u>Head</u>	4	17.4
<u>Other</u>	2	8.7

Figure 4. Fatal Occupational Injuries by Part of Body, Maine, 2001

Source

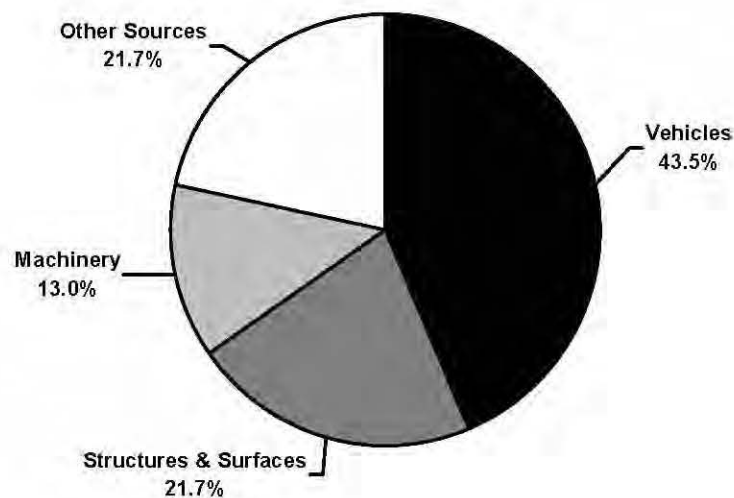

The Source of the injury identifies the object, substance, exposure, or bodily motion which directly produced the injury. Table 6 lists the number and percent distribution of the fatal injuries by the Source of the injury which led to the fatality.

Table 6. Fatal Occupational Injuries by Source, Maine, 2001

<u>Source</u>	<u>Number</u>	<u>Percent</u>
<u>Total</u>	23	100.0
<u>Vehicles</u>	10	43.5
<u>Structures and Surfaces</u>	5	21.7
<u>Machinery</u>	3	13.0
<u>Other Sources</u>	5	21.7

Note: Percentages may not add to totals because of rounding.

Figure 5. Fatal Occupational Injuries by Source, Maine, 2001

Event/Exposure

The Event/Exposure identifies the actual event which directly led to the fatality. Table 7 lists the number and percent distribution of the fatal injuries by the Event/Exposure.

Table 7. Fatal Occupational Injuries by Event/Exposure, Maine, 2001

<u>Event/Exposure</u>	<u>Number</u>	<u>Percent</u>
<u>Total</u>	23	100.0
<u>Transportation Accidents</u>	10	43.5
Highway Accident	3	13.0
Other Transportation Accidents	7	30.4
<u>Contact with Objects and Equipment</u>	3	13.0
<u>Falls</u>	5	21.7
<u>Other Event /Exposure</u>	5	21.7

Note: Percentages may not add to totals because of rounding.

Secondary Source

The Secondary Source identifies the object, substance, or person that generated the source of the injury or contributed to the event or exposure. Table 8 lists the number and percent distribution of the fatal injuries by the Secondary Source.

Table 8. Fatal Occupational Injuries by Secondary Source, Maine, 2001

<u>Secondary Source</u>	<u>Number</u>	<u>Percent</u>
<u>Total</u>	**17	100.0
<u>Vehicles</u>	7	41.2
<u>Other Sources</u>	10	58.8

** A fatal event may or may not involve a secondary source. In 2001, 17 fatal events involved a secondary source.

Work Activity

The Work Activity describes what the employee was doing at the time of an incident. Table 9 lists the number and percent distribution of the fatal injuries by the Work Activity.

Table 9. Fatal Occupational Injuries by Work Activity, Maine, 2001

<u>Work Activity</u>	<u>Total</u>	<u>Percent</u>
<u>Total</u>	23	100.0
Tending a Retail Establishment	4	17.4
Other Activities	19	82.6

Work Location

The Work Location describes where the employee was working at the time of an incident. Table 10 lists the number and percent distribution of the fatal injuries by the Work Location.

Table 10. Fatal Occupational Injuries by Work Location, Maine, 2001

<u>Location</u>	<u>Total</u>	<u>Percent</u>
<u>Total</u>	23	100.0
Sea	5	21.7
Local Road or Street	3	13.0
Other Locations	15	65.3

The state fatal work injury rate per 100,000 workers was calculated as follows: $(N / W) \times 100,000$. N = number of civilian worker fatalities, age 16 and older, 2000. W = number of employed civilians, age 16 and older, 2000. The employed worker figures used in the rate calculations are annual average estimates from the Current Population Survey (CPS), 2000. Forestry and Fishing is included in Services. Individual state rates exclude self-employed and family workers but are included in the All States rate. Government excludes military personnel. -- indicates non publishable data.

NOTE * Totals for industries are not available.
