ABSTRACT

Potato Marketing Improvement Fund

In 1981, the 110th Maine Legislature authorized the creation of the Potato Marketing Improvement Fund (PMIF), and after approval by Maine voters in November of that same year, a \$5 million general obligation bond was issued to capitalize the new program. *

PMIF provides direct, fixed rate loans to growers and packers for the construction and retrofit of modern potato storages, packing facilities, and the acquisition and installation of packing equipment.

Modern ventilated and humidified storage facilities maintain potato quality after harvest. By providing a controlled warehouse environment, growers are able to deliver field-fresh product throughout the year. This is extremely important to both processors and consumers. Modern packing sheds and state-of-the-art equipment are also used to pack potatoes according to specific customer needs and preferences.

Program staff are available for site visits, assistance with project planning, design, and the PMIF loan application process. For further information, please contact the staff listed on the final page of this report.

*Maine voters subsequently approved \$1 million of bond proceeds in 2002 and \$500,000 in 2003 to re-capitalize the PMIF program.

STATE OF MAINE
DEPARTMENT OF AGRICULTURE, CONSERVATION AND FORESTRY
OFFICE OF THE COMMISSIONER
22 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0022

Paul R. LePage
GOVERNOR

Walter E. Whitcomb
COMMISSIONER

COMMISSIONER'S REPORT

To the Honorable Paul R. LePage, Governor; the Honorable Justin Alford, President of the Senate; the Honorable Mark Eves, Speaker of the House; Members of the Maine State Legislature; and Citizens of the State of Maine:

From the time of initial authorization in 1981 through the 2013 fiscal year, the Maine Department of Agriculture, Conservation and Forestry had administered the Potato Marketing Improvement Fund (PMIF), provided PMIF staff, and coordinated loan activities with the Finance Authority of Maine.

During the previous fiscal year, the performance of the Potato Marketing Improvement Fund (PMIF) has once again resulted in significant investment in Maine's potato industry. Over the twelve-month period ending June 30, 2013, the Department of Agriculture, Conservation and Forestry approved 100 percent of the applications reviewed and funded three projects totaling \$532,015 in loan proceeds. This, in combination with \$655,250 in bank financing and \$447,735 of owner equity, has resulted in more than \$1,635,000 being invested in Maine's potato industry.

This is the type of success this program returns to the Maine economy year after year. Since inception, PMIF has invested over \$27,210,784 in 347 projects. This investment, in conjunction with \$22,849,814 in lender financing and more than \$12,406,046 in owner equity, has resulted in an aggregate injection of over \$62,466,644 into the infrastructure of Maine's potato industry. PMIF's accomplishments are a direct result of the strength of its partnerships with participating lenders, borrowers, and the community. Ultimately, it is the teamwork of strong private and public support that continues to build this vitally important agricultural industry.

In 2013 the Legislature transferred the Potato Marketing Improvement Fund staff and administration responsibility to the Maine Potato Board headquartered in Presque Isle. We know that the Potato Marketing Improvement Fund will remain a key component for investment in structural improvements critical for the continued success of the Maine potato industry.

Agriculture, Conservation and Forestry Department staff remain committed to our partnership role in the financial success of growers, processors and all other components responsible for Maine's largest agricultural crop – quality Maine potatoes.

Respectfully Submitted,

Walter E. Whitcomb
Commissioner

PROGRAM OVERVIEW

The Potato Marketing Improvement Fund provides direct loans to growers and packers to help finance the construction and retrofit of modern storages, packing facilities and the acquisition and installation of state-of-the-art packing equipment. The program participates with private lenders to provide customized, cost-effective financing packages for these capital projects.

Since the program's inception, PMIF has invested a total of \$27,210,784 in support of Maine's potato industry. This investment continues to help finance projects and assist farmers in storage, as well as overall capacity.

PORTFOLIO SUMMARY

	1983-2012	Fiscal Year 2013	Total Program Activity
Number of Projects	344	3	347
PMIF Financing	\$26,678,769	\$532,015	\$27,210,784
Participating Lender Financing	\$22,194,564	\$655,250	\$22,849,814
Equity	\$11,958,311	\$447,735	\$12,406,046
Total Investments	\$60,831,644	\$1,635,000	62,466,644
Storage Capacity (cwt)	12,742,810	75,000	12,817,810

The Potato Marketing Improvement Fund can be disbursed through any one of three mechanisms defined in its enabling legislation. These are (1) the New Facilities Fund, (2) the Storage Retrofit Fund, and (3) the Grant Fund.

NEW FACILITIES FUND

The New Facilities Fund may be used to finance the construction of storages, packing facilities and packing equipment with total project cost exceeding \$50,000. It may also be used for the acquisition of an existing storage when the project includes renovation of the storage to meet PMIF technical standards. Loans made under this fund may be assumed by subsequent eligible purchasers.

Eligible Applicant: Any individual or entity storing or packing Maine potatoes.

Use of Loan Proceeds: Building acquisition and improvements, new construction or expansion, and purchase and installation of equipment.

PMIF Financing: For projects with a total cost up to \$750,000, PMIF proceeds may be used to fund 45% of the total project expenses. However, PMIF may finance 50% of the project costs in cases where two or more growers own the project. On any portion of total project costs above \$750,000, PMIF may only finance 25% of those costs.

Interest Rate: Fixed at 5% for the term of loan.

Term: Typically 15-20 years.

Fees: Origination fee of 1% of the PMIF loan amount is due upon closing. The borrower is also responsible for all legal costs associated with loan closing.

STORAGE RETROFIT FUND

The Storage Retrofit Fund is used to finance the renovation of existing storage facilities. Renovations may include new insulation, ventilation and other energy efficient and climate control equipment. The intent is to upgrade existing storage units to modern technical standards. This fund may also be used to finance improvements to packing facilities and the acquisition of packing equipment.

Eligible Applicant: Any grower or other entity storing or packing Maine potatoes.

Use of Loan Proceeds: Real estate improvements, purchases, and installation of machinery and equipment.

PMIF Financing: For projects with total cost of \$50,000 or less, 55% of total project costs.

Interest Rate: Fixed at 5% for the term of loan.

Term: Up to 10 years.

Fees: The borrower is responsible for all legal costs associated with the loan.

GRANT FUND

Provisions under the governing statute and program rule for the operation of the Potato Marketing Improvement Fund allow the Commissioner to make grants from interest earned on the cash balance of the Fund to individuals, firms, corporations or other organizations for research on potato storage and handling technologies and other purposes. During fiscal year 2012/2013, the Commissioner made three grants totaling \$110,500 to the Maine Potato Board for potato industry infrastructure improvements and one humidifier project grant in the amount of \$15,000.
