Programs and Services

FY 2017

Mission and Vision Statement

The Finance Authority of Maine's mission is to provide innovative financial solutions to help Maine citizens pursue business and educational opportunities. FAME's vision is to help lead the creation of good paying jobs for Maine citizens by working at the nexus between economic and workforce development.

Business Division Programs and Services

Credit Enhancement

Risk Reduction

Commercial Loan Insurance Program: Loan insurance helps cover a bank's credit risk. For a business, it may mean the difference between obtaining a loan, going out of business, or never getting the opportunity to start a business. Loan insurance is available for almost any prudent business activity, and insures up to 90 percent (100 percent for veterans) of a loan to a maximum FAME insurance exposure of \$5 million. This maximum insurance amount is set at least annually in accordance with FAME's Direct Loan and Loan Insurance Credit Policy.

In FY 2017, FAME provided approximately \$40 million in loan insurance to lending institutions for loans to 235 Maine businesses, leveraging approximately \$68 million in financing. This helped to create and retain approximately 3,000 Maine jobs. In FY 2017, FAME made a total of \$1,442,553 in payments on its loan insurance obligations for thirteen separate insurance claim payments. This constituted 0.67 percent of FAME's total insurance obligations.

Major Business Expansion Program: Long-term credit-enhanced (through loan insurance) financing of up to \$25 million per project at taxable bond rates for businesses creating or retaining a minimum of fifty jobs. In FY 2017, FAME closed no loans through this program.

Rate Reduction

Linked Investment Programs for Agricultural Enterprises: This program enables a qualified borrower to obtain a 2 percent interest rate reduction on bank loans up to \$200,000 for agricultural businesses. In FY 2017, this program experienced no activity.

Linked Investment for Commercial Enterprises: This program enables a qualified borrower to obtain a 2 percent interest rate reduction on bank loans up to

\$200,000 for non-agricultural businesses. In FY 2017, this program experienced no activity.

Direct Loans

General Purpose

The FAME Direct Loan (f/k/a Economic Recovery Loan Program): Provides subordinate or gap financing to businesses affected by their current economic situation. In FY 2017, FAME provided loans to twenty Maine businesses totaling approximately \$5.1 million. This helped to create and retain 351 Maine jobs.

State Small Business Credit Initiatives (SSBCI): Funded by the federal government through the Small Business Jobs Act of 2010, this program provides financing through the FAME Direct Loan program (f/k/a Economic Recovery Loan Program), the Maine Venture Fund, and the Regional Economic Development Revolving Loan Program. Businesses applying for SSBCI funding through one of the above programs must meet the standard eligibility requirements of the respective program. As of June 30, 2017, FAME received the state's total allocation of \$13,168,350 from the U.S. Department of Treasury. In FY 17, the following loans and investments occurred through the program: \$321,500 for the FAME Direct Loan Program; \$1,384,443 for the Regional Economic Development Revolving Loan Program (REDRLP), which is administered by FAME in conjunction with participating regional economic development agencies; and \$1,008,333 for the Maine Venture Fund.

Focused Purpose

Nutrient Management Program: Provides 2 percent fixed rate loans up to 100 percent of an eligible project up to \$450,000 for various agricultural non-point source pollution abatement projects, such as diversion, irrigation, anaerobic digesters, composting or treatment facilities in the state of Maine. Projects must be deemed eligible by the Maine Department of Agriculture, Conservation and Forestry. Approximately \$6 million is available through this program. In FY 2017, FAME provided no loans through this program.

Oil Storage Facility and Tank Replacement Program: Provides businesses with low-interest fixed rate loans for removal, replacement and disposal of above-ground and underground commercial oil storage tanks and associated piping. Also available to companies purchasing and installing vapor recovery systems. In FY 2017, this program provided two loans in the amount of \$700,000.00. The fund is nearly depleted, however, and FAME is working with the Department of Environmental Protection and the Maine Municipal Bond Bank to secure new funding.

Regional Economic Development Revolving Loan Fund Program for Day Care: Provides quality childcare projects with loans up to \$100,000 for physical site

improvements. In FY 2017, this program provided one loan to a business for \$300,000.

Partner-Focused Purpose (FAME provides services to other entities such as: contractor management, loan underwriting and servicing, fund management, as well as board administrative support):

Maine Department of Agriculture, Conservation and Forestry - Agricultural Marketing Loan Fund (AMLF): Provides 5 percent fixed-rate loans to natural resource-based businesses that employ new and innovative technologies and processes in order to improve, expand, and enhance the manufacturing, marketability, and production of Maine-made agricultural products. Funds may be used for the design, construction or improvement of facilities such as commodity storage buildings and packing and marketing facilities. Funds may also be used to purchase or retrofit machinery and equipment. In FY 2017, AMLF provided loans to two projects totaling \$121,000.

Maine Department of Agriculture, Conservation and Forestry - Potato Marketing Improvement Fund Program (PMIF): Provides 5 percent fixed-rate loans to businesses for the construction and/or retro-fitting of potato packing and storage facilities. Funds may be used for new construction or improvements to storage and/or centralized packing facilities, as well as for the acquisition of packing, sizing, washing and drying equipment. In addition, PMIF funds may be used to fund programs that improve the economic viability of the potato industry. Such improvements may include irrigation equipment and water source development projects. Pursuant to legislation enacted during the 126th Maine Legislature, control of program funds has been transferred to the Maine Potato Board, and the program is now being administered by this body in conjunction with the Commissioner of the Department of Agriculture, Conservation and Forestry. In FY 2017, PMIF provided one loan for \$415,000 through this program.

mPower - Kim Wallace Adaptive Equipment Loan Program Fund: Provides individuals and businesses with flexible term loans up to \$100,000. This program provides assistance to individuals and businesses for the purchase, construction or installation of any product or equipment that allows an individual to become more independent within the community; provides mobility; promotes productivity; or improves quality of life. Businesses may use loan funds to facilitate compliance with the Americans with Disabilities Act (ADA). In FY 2017, mPower provided thirty-four loans to consumers totaling \$359,675. No commercial loans were made during the period, however.

The Maine Rural Development Authority (MRDA): FAME provides underwriting and administrative services to the Maine Rural Development Authority (MRDA). The MRDA was established by the Maine Legislature in 2002 to provide financial assistance to communities and their development partners to help develop speculative commercial and industrial buildings and to help develop/redevelop underutilized commercial industrial properties. The primary focus of the MRDA's activities is in the rural areas of Maine that have traditionally not experienced the same level of economic development success regions as other parts of the state or

have experienced major economic losses, such as plant closings and downsizings or are economically distressed. In FY 2017, the MRDA provided two loans to customers totaling \$558,383.

Revenue Bonds

Revenue Obligation Securities Program: Provides an opportunity for manufacturing businesses to access the tax-exempt bond market for funds to build and/or acquire real estate or machinery and equipment using tax-exempt Industrial Revenue Bonds issued by FAME. In FY 17, the program provided \$159.2 million in bonds for various non-profit organizations.

Equity Capital

Maine Economic Development Venture Capital Revolving Investment Program: Allows FAME to invest as an equal partner with others in eligible private venture capital funds to support emerging and early-growth businesses in Maine and elsewhere. Over the life of the program (since March 2001), VRIP has made approximately \$3.5 million in investments in seven different funds and, as a result, has realized returns totaling \$2 million thus far.

Maine Seed Capital Tax Credit Program: The Maine Seed Capital Tax Credit Program is designed to encourage equity and near-equity investments in eligible Maine businesses, directly and through private venture capital funds. FAME may authorize state income tax credits or re-fundable tax credits to investors for 50 percent of the cash equity they provide to eligible Maine businesses. Investments may be used for fixed assets, research or working capital. Between January 1 and December 31, 2016, FAME issued \$4,994,952 in tax credits out of the \$5 million that was available under law.

Maine New Markets Capital Investment Tax Credit Program: Modeled after the federal tax credit, this state program is designed to attract investment in economically distressed areas of Maine. An allocation of tax credits may be provided for businesses that invest in “qualified community development entities.” The credit is equal to 39 percent of the qualified amount invested, and is spread over a seven-year period, with 7 percent allowed in year three and 8 percent in each of years four through seven. The credit may not be taken in the first two years after investment. One-day loans are now prohibited pursuant to rule. The maximum aggregate amount of tax credit authority is set forth at \$250 million, and the amount of tax credits claimed per fiscal year limited to \$20 million. In FY 17, FAME issued \$1.8 million in tax credits through this program.

Cooperative Programs

Regional Economic Development Revolving Loan Program: Provides subordinate and/or gap financing up to \$350,000. The program is offered through the various regional economic development agencies throughout the state. In calendar year 2016, REDRLP agencies lent approximately \$4.4 million as part of sixty-seven loans to Maine businesses, leveraging an additional \$22 million of investment. This activity resulted in the creation and retention of 1,341 Maine jobs.

Municipal Securities Approval Program: Provides an opportunity for municipalities to issue tax-exempt Industrial Revenue Bonds for non-profits or manufacturing borrowers wishing to develop and/or acquire real estate or machinery and equipment. In FY 17, bonds issued for a non-profit entity by municipalities with FAME assistance totaled \$4 million.

Natural Resource Based Business Outreach

FAME annually engages in a variety of natural resource-based business outreach efforts. As in the past, FAME helped to staff a booth at the annual Agricultural Products Trades Show in Augusta in January. We also assisted the Department of Agriculture, Conservation and Forestry with two Agricultural Marketing Loan Fund (AMLF) loans totaling \$121,000. Additionally, one Potato Marketing Improvement Fund (PMIF) project was funded in the amount of \$415,000. FAME continues to support the Potato Board and the Department by administering the program.

Also, through FAME's direct loans and loan insurance, we helped to provide forty-eight loans to thirty-nine natural resource companies, of which FAME's insurance portion was approximately \$5.3 million. The total bank balance for these loans was approximately \$7.5 million. Included in these projects were five loans to Dropping Springs Lobster and Bait Companies totaling \$420,188 of FAME exposure on loans made in partnership with Farm Credit East in the total amount of \$672,951. Also in conjunction with Farm Credit East, FAME insured \$374,400 on two loans totaling \$650,000 to Out On a Limb Maple Farm, LLC, which is a sugar bush operation in Jackman.

Under the FAME Direct Loan Program, FAME lent \$775,000 to Moon Tide Springs, a company located in Peru that produces, bottles, and markets natural spring water. Another natural resources company supported by FAME this past fiscal year was a \$50,000 loan in partnership with Machias Savings Bank (FAME's portion was \$37,500) to Matthew Moraisey to support his eel harvesting operation.

Recap of Past Year and Projected Activities for Ensuing Year

FAME continues to evaluate the suggestions of Maine's community lending institutions for improving existing services and creating new ones through its Lenders' Advisory Group. Representing lending institutions of all sizes, geographic locations, and levels of FAME usage, the Lenders' Advisory Group continues to be helpful in FAME's efforts to develop and adapt

programs to assist lenders in providing loans to their customers. FAME consults periodically with this group and also utilizes focus groups to ensure that it is providing required resources for Maine businesses of all types. If gaps are revealed, FAME then utilizes its FAME Direct Loan program and/or its Commercial Loan Insurance Program creatively to meet those needs.

During the past year, FAME continued to evaluate its product and program offerings and, based on comments received through many of our “Voice of the Customer” interviews conducted in the recent past, and in conjunction with the Lenders’ Advisory Group, recently implemented several new services through our Online Answer (OLA) Program. First and foremost among these is allowing our lending partners to avail themselves of Leveraged Insurance through OLA. Several lending institutions have requested this service and, we are pleased to announce that as of April the service is up and running. Additionally, FAME now offers up to 60% insurance for up to \$750,000 of FAME exposure (up from \$350,000 at 75% coverage). Moreover, and as a result of input from our lending partners, FAME now offers one-time, up-front fees along with three or five-year exposure for term loans, as well as three-year terms for lines of credit. As previously stated, these fees will actually be a discount from what the institutions would have paid over the cost of annual fees, and the five-year term will actually cost the same as four years of annual fees. FAME decided to keep these fees competitive, and will not be establishing a “portfolio” fee for our lending partners as does the SBA presently. Finally, in an effort to meet the needs of our cohort, FAME has incorporated a continuing program called New Product Development and Launch (NPDL) through which we are planning for the future with new product offerings. At our initial meeting to help determine potential additional FAME programs, staff brainstormed an initial list of possible new products totaling eighty.

Successful FAME-related legislative initiatives during the First Session of the 128th Maine Legislature included: LD 1037, *An Act to Provide for the 2017 and 2018 Allocations of the State Ceiling on Private Activity Bonds*; LD 1498, *An Act to Clarify the Applicability of the Records Preservation Surcharge Within County Registries of Deeds*; and LD 1503, *An Act to Amend the Criteria for Issuing a Certificate of Approval for Certain Projects Under the Finance Authority of Maine Act*. Additionally, the biennial budget, LD 390, provided \$800,000 in additional funding for the Doctors for Maine’s Future Scholarship Program. Two bond bills that could affect FAME were carried over to the Second Session: LD 1163, which relates to student debt relief; and LD 1613, a commercialization bond that would provide \$10 million to FAME’s Direct Loan Program.

We are continually revising our three-year strategic plan, and are considering a further expansion of our products as outlined above to meet the ever-changing economic environment. We recently partnered with the City of Portland and the Greater Portland Council of Governments (GPCOG) to establish a program named “Local Food, Local Funding.” Through this new program, local food entrepreneurs will be able to receive up to a \$50,000 loan shared by the three participating organizations through one application and one billing statement. FAME itself has reserved up to \$250,000 for this effort.

FAME also continues to partner with regional economic development agencies throughout the state. Over the past several years, FAME has worked closely with these agencies and continues to partner with them by utilizing an ability to “participate” a loan among a number of agencies to fund and track loans to mutual customers using one set of documents, having one closing, and making one payment that will then be applied to the various loans comprising the borrower’s financing package. Through many of these regional economic development agencies, the Maine Venture Fund (MVF), and in conjunction with the utilization of the FAME Direct Loan program, FAME has successfully attracted the final tranche of \$4,477,240 under the State Small Business Credit Initiative sponsored by the federal government. The total amount brought to the state through the SSBCI is \$13,168,350, which will remain available for assistance to small businesses in the future.

FAME is committed to ensuring that the state’s resources are used most effectively for Maine businesses, and utilizes customer reviews and evaluations to improve its services to the citizens of Maine. FAME will continue to work closely with other departments and agencies, such as the Department of Economic and Community Development and the Department of Agriculture, Conservation and Forestry, to provide its expertise and assistance in commercial finance.

<p style="text-align: center;">Higher Education Finance Programs and Services</p>
--

State Funded/Supported Programs: Information regarding awards made in FY 2017 is located at Tab 4.

Maine State Grant Program (MSGP)

- This is the state's basic need-based undergraduate grant program awarded to approximately 12,000 Maine students annually
- Students apply using the *Free Application for Federal Student Aid (FAFSA)*
- Award levels for academic year 2016-17:
 - \$1,700 for full-time study at Maine institutions (public and private)
 - \$850 for part-time study at Maine institutions (public and private)
 - \$1,700 for full-time study under a New England Board of Higher Education (NEBHE) program at an eligible institution
 - \$850 for part-time study under a NEBHE program at an eligible institution

Tuition Waiver Program (Foster Care) and Tuition Waiver Program (Public Servant)

- Thirty new tuition waivers each year are available to students who were foster children under the custody of the Maine Department of Health and Human Services and for adopted persons whose adoptive parent(s) received a subsidy from the Department when they graduated from high school.
- Tuition waivers are available for children and spouses of firefighters, law enforcement officers, and emergency medical services personnel who have been killed in the line of duty, or who died as a result of injuries received during the performance of their duties. Individuals who apply for a waiver in the Public Servant Program are funded by request
- Recipients must be Maine residents attending a school within the University of Maine System, the Maine Community College System, or Maine Maritime Academy.

Educators for Maine

- Merit-based forgivable loans for Maine students pursuing initial certification as a teacher, including speech pathology or a career in child development.
- Students may receive \$3,000/year for a total of up to \$12,000 for undergraduate and \$2,000/year for a total of up to \$8,000 for graduate studies.
- Loans are forgiven if the recipient is an educator or speech pathologist in an eligible elementary or secondary school or a quality child care program in the state of Maine. Loan recipients who are Jobs for Maine's Graduates specialists may also be eligible for forgiveness in this program.

Maine Health Professions Programs

- The Maine Health Professions Loan Program is a need-based loan of up to \$25,000/year for Maine residents pursuing post-graduate medical, dental, or veterinary education. The program offers tiered interest rate loans depending on the type of return service rendered.

- Loans made under the Maine Health Professions Loan Program prior to January 1, 2011, provided a loan forgiveness option for physicians who practiced primary care in Maine.

Maine Veterinary Medicine Loan Program

- This is a need-based forgivable loan for students enrolled in a program leading to a Doctor of Veterinary Medicine degree.
- Loans in the amount of \$25,000 annually are available to students.

Maine Dental Education Loan and Loan Repayment Program

- The Maine Dental Education Loan provides a forgivable loan to Maine residents who are pursuing a postgraduate degree in dentistry. The Maine Dental Loan Repayment Program provides practicing dentists loan repayment. Under both programs, the dentist must provide dental services to Mainers living in underserved population areas without regard to their ability to pay.

Doctors for Maine's Future Medical Scholarship Program

- Provides a \$25,000 scholarship annually for up to four years to Maine residents attending medical school at either University of New England College of Medicine or at Tufts University School of Medicine-Maine Medical Center Program (Maine Track Program)
- Schools must provide an equal number (match) of \$25,000 scholarships to Maine resident students attending the school.

Federal Family Education Loan Program (FFELP)

- FAME is the state's designated guaranty agency for the Federal Family Education Loan Program.
- Pursuant to federal legislation, no new loans were originated in this program after July 1, 2010.
- FAME's portfolio of outstanding federal student loans for which it provides a guarantee as of June 30, 2017 was \$385,734,641.

NextGen College Investing Plan®

- NextGen® is Maine's Section 529 college savings plan, providing an opportunity for Maine residents to save and invest for higher education expenses while realizing tax advantages
- Earnings grow and withdrawals are federal and Maine state income tax-free when used for qualified higher education expenses
- Accounts can be set up for any child or grandchild, friend or relative regardless of income, residency or the age of the beneficiary
- Assets can be used at eligible U.S. accredited postsecondary institutions, including graduate schools, trade schools and some foreign institutions
- FAME administers the program in conjunction with the State Treasurer, who also chairs the Advisory Committee on College Savings. Merrill Lynch, Pierce, Fenner & Smith, Inc. is the current Program Manager
- The Harold Alfond College Challenge provides a \$500 grant to eligible Maine resident babies to be used for future higher education expenses

- As of September 30, 2017, there are 34,440 babies born as Maine residents who have a NextGen account opened using the \$500 Alfond Grant. A total of 77,854 Alfond Grants have been awarded for Maine children
- FAME provides a \$200 Initial Matching Grant to eligible Maine families when they open a NextGen account
- FAME provides a fifty percent match of eligible contributions made to Maine accounts, up to a \$300 grant per calendar year per beneficiary
- FAME provides a one-time \$100 grant to Maine account owners who make six qualifying automatic contributions to their accounts directly from a bank account or via payroll deduction
- NextGen is offered to self-directed investors or through Maine-based financial advisors and institutions

The Maine Loan

- Provides a low, fixed interest rate loan option for Maine students and families who need to borrow for undergraduate or graduate education expenses. The loan is a credit-based program; therefore, students and/or co-borrowers need to meet established credit criteria in order to qualify for the loan.
- Students apply for the loan annually and may borrow up to the entire cost of attendance for their academic program less any financial aid received from their college or university.
- FAME began administering the program in FY 16. It previously was administered by the former Maine Education Loan Authority, which the Legislature abolished in 2015.

Maine Medical Loan

- Provides a low, fixed interest rate loan option for Maine students pursuing medical education and who need to borrow for their education expenses. The loan is a credit-based program, therefore students and/or co-borrowers need to meet established credit criteria in order to qualify for the loan.
- Students apply for the loan annually and may borrow up to the entire cost of attendance for their medical school program less any financial aid received from their school.
- FAME began administering the program in FY 16. It previously was administered by the former Maine Education Loan Authority, which the Legislature abolished in 2015.

Student Loan Insurance (In-school and Refinance)

- Provides Maine-based lending options for Maine students pursuing higher education or Maine student loan borrowers in repayment who would like to refinance/consolidate all or part of their existing student loans.
- FAME provides a loan guarantee (insurance) on loans made by participating Maine lenders. Loans are credit-based, therefore borrowers and/or co-borrowers need to meet established credit criteria in order to qualify for the loan and in order for the lender to receive the loan guarantee. Interest rates and fees are set by the Maine-based lender in conjunction with FAME.
- FAME administers the guarantee fund, insurance claims for defaulted loans and facilitates the relationship between Maine-based lenders and loan origination as well as loan servicing vendors.

Alfond Leaders Program

- This is a privately funded program administered by FAME on behalf of the Harold Alfond Foundation. This student debt reduction program provides loan repayment assistance to people who

live and work in Maine in a Science, Technology, Engineering and Math (STEM) - designated occupation at a Maine-based employer. Alfond Leaders may qualify for loan repayment up to half of their outstanding student loan balance at the time of application to the program, not to exceed \$60,000.

- In September 2017, the Harold Alfond Foundation and FAME announced the first class of Alfond Leader awardees, who collectively will be awarded up to \$685,000 in student loan debt relief. A second application cycle also is being launched, with applications due by November 15, 2017.
- During the first round, over 400 applications were reviewed and twenty awardees were chosen.

Maine Medical Education Loan

- This is a privately funded program administered by FAME on behalf of the Maine Medical Foundation/Maine Medical Association.
- Established in 1959 by the Maine Medical Association (MMA) to make loans available to Maine residents enrolled in or accepted to approved medical schools.
- Loans range from \$2,000 to the full cost of an education. These loans can be used to fill the gap between federal loan programs and the full cost of education.
- Over the past 50 years, over \$5 million has been loaned to deserving medical students.

Educational Opportunity Tax Credit Marketing

- The \$22,000 in annual “pass-through” money is used for marketing this tax credit, which is also known as “Opportunity Maine,” the organization that initially spearheaded its creation.
- The credit is designed to help cover the repayment of student loans for eligible Maine students who work and pay taxes in the state after they graduate from higher education.
- FAME administers marketing funds only; the overall program is administered by Maine Revenue Services
- FAME is directed by the Legislature to contract with a private, nonprofit entity to help market the underutilized tax credit. In August 2016, FAME entered into a second one-year contract with the Maine Development Foundation and Live and Work in Maine, LLC, to help publicize the program.

College Access and Financial Education (CAFÉ)

FAME’s College Access and Financial Education (CAFÉ) Team provides comprehensive college access and financial education services to students and schools throughout the state of Maine. FAME offers students, families, counselors and advisors a variety of college access, financial aid, financial education and education debt management services that support higher education aspirations and attainment in Maine.

In September of 2015, President Obama announced two significant changes to the 2017-2018 Free Application for Federal Student Aid (FAFSA) which affect the financial aid process:

1. The 2017–18 FAFSA will be available earlier, beginning on October 1, 2016, rather than January 1, 2017; and
2. An earlier year of income and tax information will now be required. For example, the 2017–18 FAFSA will require 2015 income and tax information, rather than 2016 income and tax information.

The CAFÉ team undertook a major campaign to communicate and explain the impact of these changes to school counselors, access partners, Adult Education professionals, financial aid administrators, students, and

parents. These exciting changes will simplify the FAFSA completion process and allow students and parents more time to make critical decisions related to college selection and financing.

Outreach Events

In FY16, FAME's CAFÉ Team coordinated and participated in:

- 267 financial aid information sessions and workshops for 9,216 Maine students and families
- 31 training workshops for 1,259 counselors and advisors
- 52 workshops to help 470 students complete the Free Application for Federal Student Aid (FAFSA)
- 237 financial literacy workshops for 5,337 students
- 37 college and careers fairs attended by 14,228 students

FAFSA Completion Efforts

- In January and February of 2016, FAME's CAFÉ Team offered 52 FAME FAFSA completion events at various locations across Maine, with a total attendance of 1,125
- In January of 2016, FAME's FAFSA Completion Portal was developed and made available to Maine high schools. Schools that signed a Data Use Agreement with FAME were granted access to the FAFSA completion status of their students. This information allowed schools to follow up with students who had not yet completed the FAFSA. As of the end of FY 16, 73 schools had signed agreements and were granted access to FAFSA completion information.

Financial Education and Debt Management

In FY 2017, FAME's College Access and Financial Education (CAFÉ) Team conducted 202 financial education events serving 4,039 attendees. The team also presented 99 Claim Your Future® sessions throughout Maine to 2,046 students. In addition to FAME's outreach efforts, the following financial education initiatives were delivered:

SALT® Financial Education and Education Debt Program

- In FY17, FAME continued its partnership with American Student Assistance (ASA) to provide all Maine colleges and universities with access to SALT, a national, industry-leading financial education and debt management program created by ASA. SALT's interactive money management lessons, scholarship search tools, and financial aid resources provide a valuable complement to FAME's efforts in assisting Maine students and families as they pursue higher education. Through this unique partnership, the SALT program is also made available to all Maine high school students and Maine's adult learner population. In FY17, FAME partnered with ASA and the University of Maine System to expand its outreach and support to UMS employees. Employees received information about loan repayment, public service loan forgiveness, and the Educational Opportunity Tax Credit.

- During FY17, Maine continued to lead the nation in student activations, with 6,715 new users registering for SALT. There were 20,799 visits to the site and 290,788 page views. In addition, 4,697 SALT Courses were completed.
- SALT's proactive education debt management efforts experienced another successful year, with 5,557 total delinquencies resolved.

Claim Your Future®

Claim Your Future is an interactive game that encourages exploration into education after high school, future careers, and money management. The objective of the game is to teach learners several important money management lessons, including understanding “wants” versus “needs” and the impact of making choices. Through FAME, free game kits are made available to all Maine schools and students can also play the game online at ClaimYourFuture.com. In FY17, Claim Your Future reached an important milestone, reaching 1 million page views. In addition, 20,813 individuals from 65 countries played the game online. FAME also provided 74 free game kits to Maine schools.

iGrad® Financial Literacy

In 2017, FAME continued its partnership with iGrad to provide financial education to borrowers participating in the Maine Private Education Loan Program, the Maine Loan and the student loan refinance program. In FY17, 2,185 borrowers completed private loan counseling, with an average knowledge gain of 13%. In addition, 82 borrowers completed at least one optional financial education module with an average knowledge gain of 46% and 296 borrowers completed the loan refinance module with an average knowledge gain 19%.

VISTA Financial Capability Project

In FY17, FAME continued the work of its VISTA program in partnership with Goodwill Industries of Northern New England, Goodwill VISTA Partnership. FAME's VISTA program is focused on supporting statewide financial education programs, with a specific focus on teacher training. In addition, FAME's VISTA assists in fostering communication and statewide partnerships, and works to raise awareness of available financial education programs through the Maine Financial Education Clearinghouse.

Cohort Default Rate (Federal Family Education

Despite the fact that there were fewer defaulted borrowers (46 in FY 2014 compared to 105 in FY 2013), FAME experienced a slight increase in its three-year Cohort Default Rate for FAME-guaranteed loans. According to data released by the U.S. Department of Education, FAME's FY 2014 official three-year cohort default rate was 7.6 percent of borrowers, compared with 6.7 percent the previous year. By comparison, the federal default rate for the same period was 11.5%, so Maine compares favorably. The three-year Cohort Default Rate measures loans that entered repayment during FY 2014 (October 1, 2013 – September 30, 2014) and defaulted prior to September 30, 2016. FAME's increased rate was largely due to portfolio runoff and a subsequent reduction in the overall repayment base.

INDEPENDENT AUDITORS' REPORT

The Board of Directors
Finance Authority of Maine

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Finance Authority of Maine (the Authority), a component unit of the State of Maine, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Authority's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of NextGen College Investing Plan, which represent 99.5 percent, 100 percent, and 99.8 percent, respectively, of the assets, fund balance/net position, and additions/revenues of the aggregate remaining fund information. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for NextGen College Investing Plan, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based upon our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Authority, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The Combining Schedule of Net Position – Agency Funds, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, the Combining Schedule of Net Position – Agency Funds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Board of Directors
Finance Authority of Maine

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 19, 2017 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

FINANCE AUTHORITY OF MAINE

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2017

As Management of the Finance Authority of Maine (FAME or the Authority), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2017. As required, the Authority's financial statements are presented in the manner prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34 – *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* (GASB 34), as amended. Under GASB 34, the Authority's funds are identified as Proprietary, or Business-type funds, Governmental funds, and Fiduciary funds. The Authority's funds are generally created by federal or state statute.

Four of the Authority's funds are combined as Proprietary or Business-type: the Mortgage Insurance Program Fund, the NextGen Administration Fund, the Maine Loan Program Fund, and the Educational Loan Fund in the basic financial statements. The remaining funds, with the exception of the Fiduciary funds, are classified as Governmental Funds, which combine the Authority's governmental business finance-related funds with its education finance-related funds. In addition, the Authority manages funds, the Fiduciary funds, for other boards or entities either pursuant to statute or contract. Additionally, the Authority serves as administrator for the NextGen College Investing Plan. These are included in the Statement of Net Position-Fiduciary Funds.

Significant Highlights for the Year Ended June 30, 2017

- In challenging economic periods, the demand for the Authority's commercial loan insurance increases as financial institutions seek to mitigate risk by requiring the Authority's insurance protection. As a result, the Authority typically experiences a decrease in the insured commercial loan portfolio in an improving economy. However, the Authority has been able to negate this cyclical contraction because of the popularity of the On-Line Answer (OLA) program.

The insured commercial loan portfolio showed stable growth year over year, increasing 2.7% from \$111,983,000, at June 30, 2016, to \$114,969,000 at June 30, 2017. The allowance for insured commercial loan losses totaled \$16,106,000 and \$13,810,000, and represented 14% and 12% of insured commercial loans at June 30, 2016 and June 30, 2017, respectively. The allowance for insured commercial loan losses and associated provision reflect: the net growth in the insured loan portfolio; the economic conditions present; the inherent credit quality of the underlying insured loan portfolio; probable losses on insured loans; and the amount of claims paid, net of recoveries. The Authority recorded a net recovery for losses on insured loans of \$268,000 and \$870,000 during the year ended June 30, 2016 and June 30, 2017, respectively, which represent the Authority's current assessment based upon the improved credit quality and risks in the portfolio. During fiscal year 2016, the Authority paid claims, net of recoveries, totaling \$678,000, compared to net claims paid totaling \$1,426,000 in fiscal year 2017.

- The Authority administers the NextGen College Investing Plan, a Qualified Tuition Program under Section 529 of the Internal Revenue Code. Primarily due to favorable investment market conditions during the year, the value of Program investments increased by \$0.9 billion compared to prior year, with a market value of \$9.4 billion at June 30, 2017. These investments are owned by or credited to accountholders who have opened a college investing account. The NextGen College Investing Plan balance reflects accountholder contributions, in excess of withdrawals, as well as market value movements and earned income on account balances.

FINANCE AUTHORITY OF MAINE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

The assets of the Program are included in the Authority's financial statements. They are identified as a Private-Purpose Trust fund, a fiduciary fund. The Authority contracts with Merrill Lynch, Pierce, Fenner & Smith Incorporated (Merrill Lynch) to provide management services to the NextGen College Investing Plan.

Program administration revenues and expenses are accounted for in the NextGen Administration Fund. The Authority earns fees for its administration services based on the daily net asset values of the Program investments. NextGen administration fees, included in fee and other income on the statement of revenues, expenses and changes in net position, totaled \$8,621,000 in fiscal year 2016, compared to \$9,043,000 in fiscal year 2017.

- Federal legislation in 2009 eliminated new student loan originations in the Federal Family Education Loan Program (FFELP) as of July 1, 2010, effectively creating a phase-out period of the Program as existing loans in the Program's portfolio amortize over their repayment periods. The Authority serves as the guarantor of these loans in Maine, which were originated by financial institutions participating in the Program, and manages the FFELP for the U. S. Department of Education (DE). At fiscal year-end 2017, the Authority guaranteed approximately \$385.7 million of student loans in the Program.

As a result of continued repayment of guaranteed student loans, the Authority expects to realize a declining revenue stream from the existing guaranteed portfolio as the loans amortize. Administrative revenues, net of loan serving costs, associated with the FFELP totaled \$645,000 for the fiscal year 2017, compared to \$707,000 during fiscal 2016. Administrative fees earned by serving as Maine's guarantor have historically provided a source of funding for Authority activities such as outreach, financial education, default prevention services, and assistance to financial aid officers at college.

- During fiscal year 2013, the Authority received legislative approval to create a program to insure student loans issued by private lenders, with the program insuring its first loans under the Student Loan Insurance product during fiscal year 2014. During fiscal year 2016 the Authority developed an additional loan product within the program targeted specifically for the refinancing of student loan debt, capitalizing the program with a \$1,800,000 transfer from the Federal Guaranty Agency Operating Fund. As of June 30, 2017, the insured portfolio balance for the Student Loan and Student Loan Refinance insurance products was \$4.9 million and \$2.3 million, respectively.
- The Authority's net position increased by \$2,198,000 or 5.0%, to \$46,493,000 for the year ended June 30, 2017. This increase reflects the stable growth within the NextGen College Investing Plan generating increased fee revenue, the improved credit quality and risks in the insured commercial loan portfolio, as well as the receipt of a \$1,000,000 reserve fund transfer from the State of Maine, partially offset by operating costs, scholarships, and grants in excess of revenues.

FINANCE AUTHORITY OF MAINE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

Overview of the Authority

The Finance Authority of Maine was created in 1983 by an Act of the Maine Legislature (the Act), as a body corporate and politic, and is a public instrumentality of the State of Maine. The Authority's purpose at that time was to provide business-related finance programs. In 1989, the Act was amended to authorize the Authority to administer certain education-related finance programs. The Authority offers financing and loan insurance to Maine businesses, and also offers various educational grant, loan, and loan guaranty programs that assist students in attending institutions of higher education.

The Authority is considered a component unit of the State of Maine, and as such, its financial statements are reflected in the State of Maine general-purpose financial statements. The Authority is a quasi-governmental agency and not a department of the State of Maine. The Authority receives an appropriation from the State of Maine for loan, loan repayment and grant disbursements to education customers. A small portion of the appropriation is used for the administration of state programs.

Overview of Financial Statements

This Discussion and Analysis is intended to serve as an introduction to the Authority's basic financial statements. The basic financial statements include Authority-wide financial statements, fund financial statements, and notes to the financial statements. GASB 34 requires the categorization of funds into Proprietary, or Business-type, funds and Governmental Funds, which are then combined into the Authority-wide financial statements. Note 1 of the footnotes to the financial statements describes the arrangement of the funds in greater detail.

Authority-Wide Financial Statements

The Authority-wide financial statements are designed to provide readers with a broad overview of the Authority's finances. The Statement of Net Position presents information on all of the Authority's assets, deferred outflow of resources, liabilities, and net position, except for those funds that are classified as Fiduciary funds. The Fiduciary funds are presented in the Statement of Net Position-Fiduciary Funds. The Statement of Activities presents information showing functional areas of the Authority and their respective revenues and expenses. The statements are presented on an accrual basis.

The Authority-wide financial statements combine the business-type activities with the governmental activities. Under GASB 34, business-type activities include funds that are intended to recover all or a significant portion of their costs through customer fees and charges. Governmental activities include funds that are supported primarily with intergovernmental revenues such as appropriations or payment of fees by the Federal government.

Fund Financial Statements

The fund financial statements provide more detailed information about the Authority's most significant funds and not the Authority as a whole. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority's funds can be divided into two categories: Proprietary Funds and Governmental Funds.

Proprietary Funds – The Authority identifies four funds as Proprietary. They include the Mortgage Insurance Program Fund, the NextGen Administration Fund, the Maine Loan Program Fund, and the Educational Loan Fund in the basic financial statements. These funds rely on customer fees to cover a significant portion of the operational expenses of the funds.

Governmental Funds – The remainder of the Authority's funds, with the exception of the Fiduciary funds, are grouped into this area. These funds are primarily supported by intergovernmental revenues such as State of Maine appropriations and payments by the Federal government to operate the Federal student loan guaranty program.

Fiduciary Funds – The Authority maintains two different types of fiduciary funds. The Private-Purpose Trust fund is used to report resources held for participants in the NextGen College Investing Plan, a Qualified Tuition Program under Section 529 of the Internal Revenue Code, administered by the Authority. The Agency fund reports resources held by the Authority in a custodial capacity for other governmental organizations. All of these funds are listed in Note 1 to the financial statements.

FINANCE AUTHORITY OF MAINE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

The Authority's total assets decreased \$2,022,000, or 0.9%, while total liabilities decreased by \$4,284,000, or 2.4%; the total change in net position during the year was an increase of \$2,198,000, or 5.0%, from the beginning to the end of the fiscal year. Some of the changes in the individual line items are described below:

Cash and Investments

Cash and investments increased by \$7,633,000, or 7.2%, during the year, due to the \$2,198,000 improvement in the Authority's net position, as well as the increased funding received for the US Treasury's State Small Business Credit Initiative (SSBCI). During December of fiscal 2017 the Authority received the 3rd and final tranche of funding for the SSBCI program in the amount of \$4,300,000, of which a portion was disbursed by fiscal year-end.

Notes & Education Loans Receivable, Net

Notes & education loans receivable decreased by \$9,839,000, or 8.6%, during the year, primarily due to a reduction in the outstanding loan portfolio for the Maine Loan program as a result of increased repayment activity. During the year, the Authority disbursed \$7.1 million in new loans for the program, offset by \$18.3 million in loan repayments.

Unearned Grant and Scholarship Funds

Undisbursed grant and scholarship funds decreased by \$523,000, or 5.8%, due to the continued disbursement of SSBCI & Regional Economic Development Revolving Loan Program (REDRLP) funds. During the year, the Authority received the 3rd and final SSBCI funding tranche in the amount of \$4.3 million, which offset the majority of the disbursement activity during the year.

Allowance for Insured Loan Losses

The allowance for insured loan losses decreased \$2,230,000, or 13.8%, primarily due to improvement in the credit quality of the insured commercial loan portfolio within the Mortgage Insurance Program Fund.

Long-Term Liabilities – Program Funds

The Authority receives State appropriations and funds from the issuance of State of Maine bonds to provide loans under revolving loan programs. The amounts held could be returned to the State of Maine if the State required the return of that funding as a result of program termination or modification. The obligation to return the funds is identified on the balance sheet as a long-term liability, as the return of funds is not anticipated within the next year. These program funds increased by \$3,139,000, or 7.7%, during the fiscal year.

Net Position

The Authority's mission is to provide access to innovative financial solutions to help Maine citizens pursue business and higher education opportunities. When the economy is performing well the Authority usually builds its balance sheet. In difficult economic climates, the Authority may continue to provide student and business funding even when net position may decline. A strong balance sheet allows the Authority to continue to serve its customers particularly when they need help the most. Alternatively, the Authority could reduce student grants and be more selective in financing Maine businesses to prevent a reduction in net position. The Authority tries to maintain its balance sheet to permit funding customers at the highest level possible.

FINANCE AUTHORITY OF MAINE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

For the year, the Authority's net position increased by \$2,198,000 or 5.0%. This increase reflects the impact of favorable market conditions on the NextGen College Investing Plan generating increased fee revenue, the improved credit quality and risks in the insured commercial loan portfolio, as well as the receipt of a \$1,000,000 reserve fund transfer from the State of Maine, partially offset by operating costs, scholarships, and grants in excess of revenues. Further details are discussed below as part of the Statements of Revenues, Expenses/Expenditures and Changes in Net Position/Fund Balance for the Authority's proprietary and governmental funds. The results of operations for both the Authority's proprietary and governmental funds are presented below:

FINANCE AUTHORITY OF MAINE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

The proprietary funds include the Mortgage Insurance Program Fund, the NextGen Administration Fund, the Maine Loan Program Fund, and the Educational Loan Fund in the basic financial statements. Because these programs are classified as business-type funds, non-Program investment income and state appropriations are categorized as non-operating revenue as required by GASB 34. In the governmental funds, these items are listed as revenues. The Mortgage Insurance Program relies on fee revenue and investment income to provide most of its funding for operations. The NextGen Administration Fund and Educational Loan Fund rely on fee revenue to cover operating expenses. The Maine Loan Program Fund relies on interest income from outstanding student loans to fund operating expenses. Net Position in the Mortgage Insurance Program Fund is used by the Authority to provide additional support for commercial loan insurance claims, in excess of the allowance for insured commercial loan losses. Net Position in the NextGen Administration Fund is used to fund student benefit programs, such as grants, scholarships, matching contributions and fee rebates for those who qualify for the programs. Effective October 9, 2013 the net position in the NextGen Administration Fund may also be used to fund financial education activities. Net Position in the Educational Loan Fund is used to fund higher education financing initiatives and outreach activities. Net Position in the Maine Loan Program Fund is used to provide new educational loans to students as well as support debt service on outstanding bonds payable.

Operating revenue totaled \$23,306,000, an increase of 0.1% over prior year. Due to consistent portfolio growth within the NextGen Administration Fund, income from user fees increased \$791,000, or 5.8%, during the year. In addition, other income also increased \$284,000, or 16.8%, due to an increase in application fee revenue within the Mortgage Insurance Program Fund as a result of revenue obligation bond origination volume. Offsetting this revenue growth was a reduction in interest income on notes and educational loans receivable of \$1,045,000, or 13.3%, primarily due to a decline in the Maine Loan Program Fund portfolio balance.

Operating expenses decreased by \$1,927,000, or 8.0%, from the prior year due primarily to the recognition of a \$1,133,000 recovery in 2017 compared to a \$311,000 provision for losses on loans in 2016, as well as a \$338,000 decrease in financing expenses associated with the Maine Loan Program Fund.

Nonoperating revenues reflect the receipt of \$1.0 million in support of commercial insurance reserves from the State, as well as a \$573,000 decline in investment income due primarily to unrealized losses on investment securities as a result of the impact of rising market interest rates on the fair value of the investment portfolio.

Overall, the net position of the proprietary funds increased by \$2,345,000 or 6.3% to \$39,678,000.

June 30, 2017

Results of Operations - Governmental Funds

GASB 34 treats the presentation of the operating results differently in governmental funds. Revenue less expenditures is called Change in Fund Balance rather than Change in Net Position. Also, investment income and appropriations are classified under Revenue, not Nonoperating Revenue.

The Fund Balance of the Authority's governmental funds decreased by \$147,000, or 2.1%, from the prior year. The following table summarizes the Statement of Revenues, Expenditures and Changes in Fund Balance for the governmental funds for the years ended June 30, 2017 and 2016:

Finance Authority of Maine

FINANCE AUTHORITY OF MAINE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

The governmental funds include all of the Authority's business lending programs except for the Mortgage Insurance Program, which contains the commercial loan insurance programs. Most of these programs are direct revolving loan programs, including programs such as the Economic Recovery Loan Program and Oil Storage Facility and Tank Replacement Program. Also, the governmental funds include all of the education-related programs, except for the NextGen Administration Fund, the Maine Loan Program Fund, and the Educational Loan Fund. This group includes the Federal Family Education Loan Program (FFELP) Operating Fund and programs such as the Educators for Maine Loan Program, the Maine State Grant Program, and the Maine Health Professions Loan Program. These programs are classified as governmental funds because most of their revenue is derived from governmental sources and not from customer fees.

Revenues for the year were \$28,822,000, an increase from prior year of \$4,625,000, or 19.1%. This increase came primarily from a \$4,777,000, or 23.6% increase in grant and scholarship revenues as a result of an additional \$2,000,000 in funding received via State Appropriations for the purpose of increasing the Maine State Grant Program, as well as continued disbursement of funds associated with the REDRLP and SSBCI programs.

Expenditures for the year were \$28,969,000, which were \$4,757,000, or 19.6% higher than prior year. The increase came primarily from a \$4,777,000, or 23.6% increase in grant & scholarship expenses associated with the programs mentioned previously.

Overall, the fund balance of the governmental funds decreased by \$147,000, or 2.1%, to \$6,815,000, in fiscal 2017.

Debt Structure

The Authority's operating expenses are funded primarily through fees for services, investment earnings, interest income on notes and educational loans receivable, and appropriations or other governmental contributions.

The Authority is authorized to issue student loan revenue bonds to originate alternative educational loans to Maine residents for the purpose of higher education. As of June 30, 2017, the Authority had \$101,516,000 in net bonds payable outstanding. The Authority retired \$15,815,000 of the Series 2009, 2010, 2012 and 2014 bonds upon schedule maturity and mandatory redemptions, as well as issued \$10,000,000 (par) of Series 2017 bonds during fiscal 2017.

The Authority negotiated a funding agreement with the United States Department of Agriculture's Department of Rural Development (USDA) in a prior year whereby the Authority borrowed funds at a rate of interest of 1.0% per annum and can relend the money at a higher interest rate to qualified business borrowers. The proceeds from business borrowers are used to repay the USDA note and cover related operating expenses. The outstanding balance for the USDA note was approximately \$477,000 as of June 30, 2017.

FINANCE AUTHORITY OF MAINE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

The Authority also has a funding agreement from a prior year with the Maine Health Access Foundation, whereby the Authority borrowed funds at a rate of interest of 1.0% per annum and can relend the money at a higher interest rate to eligible medical offices for converting their medical records to an electronic format. The proceeds from borrowers are used to repay the Foundation note and cover related operating expenses. The outstanding balance for the Foundation note was \$34,000 as of June 30, 2017.

FINANCE AUTHORITY OF MAINE

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization and Significant Accounting Policies

Authorizing Legislation

The Finance Authority of Maine (FAME or the Authority) was created in 1983 by the *Finance Authority of Maine Act* (the Act), Title 10, Chapter 110, of the Maine Revised Statutes, as amended, as a body corporate and politic, and a public (tax exempt) instrumentality of the State of Maine. In 1989, the Act was amended to authorize the Authority's administration of educational finance programs found in Title 20-A, Chapters 417-E through 430-B (with the exceptions of Chapters 417-A and 418, which are not administered by the Authority, and 417E – 417F which are administered by the Authority and were enacted in 1998 and 2003, respectively). In June 2015, the State of Maine Legislature passed, and the Governor approved, S.P. 544-L.D. 1443, *An Act to Merge the Maine Educational Loan Authority with the Finance Authority of Maine* (the Act). The Act provided that FAME become successor to the Maine Educational Loan Authority (MELA). By law, FAME succeeded MELA under all existing contracts and other agreements, and thus gained the rights and benefits of, and assumed the obligations of MELA under all such agreements. The effective date of the Act was October 15, 2015. These financial statements include all of the operations conducted by the Authority. In addition, the Authority's financial statements reflect the assets of the NextGen College Investing Plan as a private purpose trust fund.

The Authority provides commercial financing and loan insurance to Maine businesses. Also, the Authority is authorized to carry out various programs to provide financial and other assistance to Maine students and their parents to finance costs of attendance at institutions of higher education.

For financial reporting purposes, the Authority is considered a component unit of the State of Maine and as such, the Authority's financial statements are reflected in the State of Maine's general-purpose financial statements. The Authority is a quasi-independent agency and not a department of the State of Maine.

The financial statements also include the accounts and activities of FAME Opportunities, Inc., a separate 501(c)(3) organization formed and controlled by the Authority. The operations of FAME Opportunities, Inc. are immaterial.

Basis of Presentation – Government-Wide Financial Statements

Separate government-wide and fund financial statements, which are prepared using the economic resources measurement focus and the accrual basis of accounting, are presented, as they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the Authority's proprietary funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Basis of Accounting

The financial statements are prepared in accordance with statements promulgated by the GASB.

The Authority follows the economic resources measurement focus and the accrual basis of accounting for the proprietary funds and, accordingly, recognizes revenue as earned and expenses as incurred. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis and revenues are recorded when they become available and measurable and expenses when incurred. Revenues from grants and programs are generally considered "available" if received within three months of the balance sheet date. There are no significant differences between the modified accrual basis and the accrual basis for the governmental funds. The private-purpose trust fund and agency funds are reported using the accrual basis of accounting.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization and Significant Accounting Policies (Continued)

Separate fund financial statements are provided for proprietary and governmental funds. The fund financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to governmental entities, which provides that accounting systems be organized by funds to account for specific activities consistent with legal and operating requirements. Major individual governmental funds and proprietary funds and fund groups are reported as separate columns in the fund financial statements.

Fund Structure

The following business-type activities of the Authority are classified as proprietary funds:

Mortgage Insurance Program Fund

This fund consists of activities primarily relating to providing capital to a broad range of commercial borrowers that may be denied commercial credit without the provision of the Authority's loan insurance to financial institutions. The Authority receives loan insurance fees from the financial institutions (which may pass the cost to the ultimate borrower).

NextGen Administration Fund

This fund accounts for activities related to the administration of the Maine College Savings Program, also known as the NextGen College Investing Plan or NextGen, a qualified tuition program pursuant to Section 529 of the Internal Revenue Code to encourage families to invest for the qualified higher education expenses of a designated beneficiary. The Authority is the administrator of the Program. Included in the fund are the administrative fees received by the Authority from some participants based on the net asset value of accounts (Maine Administration Fee).

Maine College Savings Program Fund

The NextGen College Investing Plan (the Program) was established in accordance with Chapter 417-E of Title 20-A of the *Maine Revised Statutes Annotated of 1964*, as amended (the Act), to encourage the investment of funds to be used for qualified education expenses at eligible education institutions. The Program is designed to comply with the requirements for treatment as a qualified tuition program under Section 529 of the Internal Revenue Code of 1986, as amended (a 529 Savings Plan). The Act authorizes the Authority to administer the Program and act as administrator of the Maine College Savings Program Fund (the Program Fund). The Program Fund is held by the Authority, and is invested under the direction of and with the advice of a seven member Advisory Committee on College Savings, which is chaired by the Treasurer of the State of Maine (the Treasurer).

The Authority has entered into a management agreement with Merrill Lynch, Pierce, Fenner & Smith Incorporated (Program Manager) to manage the Program and invest the Fund. As the primary consideration for its administrative duties, the Authority receives a monthly fee at an annual rate up to 0.11% of the average daily net asset value of certain Program assets. The administrative fees earned were approximately \$9,042,800 in fiscal year 2017, and are recorded as fee and other income in the NextGen Administration Fund.

FINANCE AUTHORITY OF MAINE

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. **Organization and Significant Accounting Policies (Continued)**

Administrative fees are used to provide benefits as set forth in the Act and the Program rule. Program benefits to Maine accounts (accounts owned by Maine residents or designated beneficiaries who are Maine residents) include fee rebates and matching grants. Program benefits also include scholarships to Maine students. Program benefit expenses recorded in the NextGen Administration Fund were approximately \$8,218,700 in fiscal year 2017. After matching grants are awarded, they are deposited in the Maine College Savings Program Fund. Matching grants, including earnings thereon, are not the property of account participants or designated beneficiaries unless and until withdrawn for qualified higher education expenses of designated beneficiaries.

Maine Loan Program Fund

Under this fund, the Authority provides education loans primarily using funds acquired through the issuance of long-term debt. The Authority earns interest on the loans at variable and fixed rates.

Educational Loan Fund

The following proprietary activities of the Authority are included in the Educational Loan fund:

Not-for-Profit Loan Servicing Program

This fund consists of activities related to servicing federal student loans in the Federal Direct Loan Program. In an agreement with the U.S. Department of Education (DE), the Authority was allocated 100,000 federal student loans on which to provide loan servicing activities. The Authority has contracted EdFinancial to perform the actual servicing activities while the Authority provides oversight. The Authority receives servicing fees from the DE.

Student Loan Insurance Program

This program, which began operations in 2014, provides loan insurance on direct educational loans made by participating financial institutions in the Maine Private Education Loan Network. In fiscal year 2017, the program was expanded to include consolidations of existing student loans. Qualifying loans fall into three credit tiers with varying guarantee fees. These fees may be absorbed by the lending partners or passed through to the student borrowers. In addition to the upfront guarantee fees, an annual servicing fee is charged to the lending institutions based on outstanding loan balances.

The following governmental activities of the Authority are classified as governmental funds:

Federal Guarantee Agency Operating Fund

This fund accounts for the activities under the Federal Family Education Loan Program (FFELP). The Authority, in conjunction with the DE, made educational related federal loan guarantees to eligible Maine students and their families to attend post-secondary schools. The Authority received revenue in fiscal year 2017 from the U.S. Department of Education for managing the Maine FFELP portfolio.

On March 30, 2010, H.R.4872, *The Health Care and Education Reconciliation Act of 2010* (HCERA), was signed into law. HCERA provides that after June 30, 2010, all subsidized and unsubsidized Stafford Loans, PLUS loans and Consolidation loans can only be made under the government's Federal Direct Loan Program. As a consequence, the Authority no longer receives revenue for the origination of FFELP loans. Additionally, as the principal balance of outstanding FFELP loans is amortized, the portfolio will decrease as will revenue associated with maintenance of the FFELP portfolio.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization and Significant Accounting Policies (Continued)

Educational Grant Fund

This fund accounts for the activities relating to providing grants to eligible undergraduate Maine students who have the greatest financial need and who attend private or public post-secondary institutions of higher learning. The funding for this program is received directly from the State of Maine on an annual basis.

Revolving Fund

This fund primarily consists of the funds relating to the Authority's administration of State of Maine revolving loan programs. These are State programs administered by the Authority, which provide either educational or commercial loans on a revolving basis. This fund records the aggregate activity of these programs. The program funding levels are derived from the State of Maine, except as follows: the Intermediary Relending Loan Program is a Federal program; a portion of the funds in the Dental Loan and Loan Repayment Fund are derived from a grant from Delta Dental; the Maine Health Access Foundation Loan program funds are derived from a loan from the Maine Health Access Foundation. Loans are granted with and without interest charges depending on the program and in some cases there is also loan forgiveness. This fund consists of funds of the following programs:

Underground Oil Storage Replacement Program
Economic Recovery Loan Program
Educators for Maine Program
Health Professionals Loan Program
Regional Economic Development Revolving Loan Program
Intermediary Relending Program
Waste Motor Oil Disposal Site Remediation Program
Maine Health Access Foundation Loan Program
Dental Loan and Loan Repayment Fund

State Small Business Credit Initiative Fund

The program was funded by the U.S. Department of the Treasury and initially awarded to the Department of Economic and Community Development (DECD) of the State of Maine. In addition, the Authority administers the program for the DECD.

Other Governmental Funds

The Authority administers various other governmental and educational related programs. This fund group records the aggregate activity and reflects the combination of these programs. The State of Maine provides program funding on an annual basis for the Higher Education Fund. FAME Opportunities, Inc. relies on private individuals and corporations for contributions. Doctors for Maine's Future was initially funded in fiscal years 2010 and 2011. The U.S. Department of Justice's Bureau of Justice Assistance funded the John R. Justice Program. The Gaining Early Awareness for Undergraduates Programs is funded by the U.S. Department of Education to the Maine Department of Education as grantee. FAME administers the scholarship in accordance with a memorandum of agreement with the Maine Department of Education. The funds are granted to qualifying students for attendance at college.

This fund group consists of the following:

Higher Education Fund
FAME Opportunities, Inc.
Doctors for Maine's Future
John R. Justice Grant Program
Gaining Early Awareness for Undergraduate Programs

FINANCE AUTHORITY OF MAINE

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. **Organization and Significant Accounting Policies (Continued)**

There are no legally adopted budgets for any of the Authority's funds.

The following fiduciary activities of the Authority are classified as Fiduciary Funds:

Private Purpose Trust Fund

NextGen College Investing Plan is the Maine College Savings Program. The program was established under Chapter 417-E of Title 20-A, to encourage the investment of funds to be used for Qualified Higher Education Expenses at institutions of higher education. The Plan consists of the investments made by participants in the State's Qualified State Tuition Program under Section 529 of the Internal Revenue Code.

The Authority Acts as administrator for this fund. The resources in this fund cannot be used to support the Authority's operations. The fund is reflected in the Statement of Net Position-Fiduciary Funds and the Statement of Changes in Net Position-Fiduciary Funds as the NextGen College Investing Plan.

Accounting policies of the Private Purpose Trust Fund are further described in note 16.

Agency Funds

Additionally, pursuant to a contract, the Authority provides administrative, financial services support and other services for the Kim Wallace Adaptive Equipment Loan Program Fund, the Nutrient Management Fund, the Payroll Processing Insurance Fund, the Northern Maine Transmission Corporation, the Department of Agriculture for the Agricultural Marketing Loan Fund and the Potato Marketing Improvement Fund, the Small Enterprise Growth Fund and the Maine Rural Development Authority. The Authority also holds and administers the State of Maine's portion of the U.S. Department of Education's Federal Student Loan Reserve Fund, which is the property of the Federal government.

The Authority acts in a custodian capacity for these Funds. The resources in these Funds cannot be used to support the Authority's operations. These Funds are combined in the Statement of Net Position-Fiduciary Funds and presented as Agency Funds.

Restriction on Net Position

The restricted net position of the Authority is restricted to a specific use by contract, federal or state statutes and regulations and bond indentures. Financial activities and resulting account balances that are not so restricted are presented in the Statement of Net Position as unrestricted net position. The Authority's unrestricted net position is generally intended for use for program-related activities.

Fund Balances

GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, requires the fund balance of governmental funds be classified based on a hierarchy of constraints imposed on the use of resources. The fund balances must be identified as nonspendable, restricted, committed, assigned or unassigned.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization and Significant Accounting Policies (Continued)

Restricted fund balances include amounts that can be spent only for the specific purposes stipulated by the constitution, external resource providers, or through enabling legislation. The assigned fund balance classification is intended to be used for specific purposes, but assigned fund balances do not meet the criteria to be classified as restricted.

There are no funds with fund balances classified as nonspendable, committed or unassigned. The Authority considers amounts to have been spent when an expenditure is incurred for both restricted and assigned fund balances. Assigned fund balances are reflected as unrestricted net position on the statement of net position.

The fund balance of the Authority's Federal Guaranty Agency Operating Fund, Intermediary Relending Program (Revolving Fund) and Maine Health Access Foundation Loan Program (Revolving Fund) are restricted. Pursuant to the *Higher Education Act*, the Authority may use the Operating Fund's balance only for guarantee agency-related activities, including student financial aid-related activities for the benefit of students. Pursuant to the governing agreement with the United States Department of Agriculture, and related regulatory instructions issued by the Department's Farmers Home Administration, the Intermediary Relending fund balance may be used only for program purposes, including administration costs, technical assistance to borrowers, bad debts, repayment of debt or lending to eligible borrowers. Pursuant to the governing agreement with the Maine Health Access Foundation, the Maine Health Access Foundation Loan Program's fund balance may be used only for program purposes, including the Authority's administrative and technical expenses.

Fund balances classified as assigned may be assigned by the CEO who has statutory power to supervise the Authority's administrative and technical affairs. To the extent such assignments are utilized in the budgeting process, they are approved by the Board of Directors. The appropriation that funds these programs generally gives guidance as to what the principal of the appropriation must be used for, but is generally silent as to the treatment of any earnings on such funds. It has been the Authority's policy to use these earnings for the programs funded by the principal of the appropriation, including administrative costs. The Authority first utilizes restricted or committed or assigned fund balances, if any, when an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management of the Authority to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant estimates utilized in the preparation of the financial statements of the Authority relate to the allowance for losses on insured loans and the allowance for loan losses on educational loans.

Cash and Cash Equivalents

For purposes of preparing the statement of cash flows for the proprietary funds, the Authority considers certain highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash equivalents include funds held in institutional money market funds.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization and Significant Accounting Policies (Continued)

Investments

Investments are carried at fair value; see note 5. Unrealized gains and losses due to changes in fair values of investments are included in investment income.

The Authority invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Notes Receivable

Notes receivable are carried at the principal amount outstanding less an allowance for losses. The allowance for losses on notes receivable is established through a provision for losses on notes receivable charged to operations. Notes receivable losses are charged against the allowance when management believes collectibility of the loan principal is unlikely. The allowance is an amount that management believes will be adequate to absorb losses based on an evaluation of collectibility and prior loss experience.

Losses on notes receivable in the revolving loan programs are recognized by charging the amount held under the revolving loan program liability accounts when the notes receivable are forgiven or charged off.

Losses on notes receivable in the agency funds are recognized by charging the amount held for State of Maine under revolving loan programs when the notes are forgiven or charged off.

Educational Loans

Educational loans within the Maine Loan Program Fund are stated at their unpaid principal balance, less an allowance for losses. Educational loans consist primarily of student loans, which are made to postsecondary students attending eligible educational institutions, and parental loans made to parents of dependent undergraduate students, graduate and professional students and independent undergraduate students attending eligible educational institutions.

The Authority assesses a guarantee fee of 4% of the loan amount added to the principal balance at the time of disbursement. The Authority recognized approximately \$199,200 in guaranty fee income in fiscal 2017.

Fees and costs related to the origination of student loans, including the guarantee fees, are recognized as revenue or expense when the loans are disbursed.

Interest on educational loans is recognized as revenue in the period earned and servicing costs are charged directly to expense as incurred.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization and Significant Accounting Policies (Continued)

Allowance for Loan Losses on Educational Loans

Management of the Authority has established an allowance for loan losses to provide for probable losses on educational loans. The amount of the allowance, which is established through a provision for losses on educational loans charged to expense, is based on management's estimation of the probable losses within the portfolio. In estimating the adequacy of the allowance for loan losses, management considers such factors as the nature and volume of the portfolio, delinquency trends, specific problem loans and current economic conditions that may affect the borrowers' ability to repay. Actual results could differ from those estimates. Past due loans greater than 180 days are automatically charged off.

Capital Assets

The Authority's capital assets are recorded at cost and depreciation is provided on the straight-line method over the estimated useful lives of the assets. Capital asset acquisitions that equal or exceed \$1,000 are capitalized. The Authority's capital assets are comprised primarily of a floor of a building owned in common and improvements thereon in Augusta, Maine and computer hardware and software. The estimated useful lives of capital assets are as follows:

Building and improvements	5 – 30 years
Computer and office equipment/furniture	3 – 15 years

Allowance for Losses on Insured Loans

The Authority has established an allowance to absorb probable losses on commercial loans it insures. This allowance is adjusted by provisions charged to operating expense and by recoveries on losses previously charged off. The amount of the allowance, which represents probable, but not actual losses, is determined by management's evaluation of the insured loan portfolio. Primary considerations in this evaluation are loss experience, the character and changes in the size of the portfolio, business and economic conditions, the value of the collateral and the maintenance of the allowance at a level adequate to absorb losses.

Discount, Premium and Issuance Costs on Bonds

Bond discount and premium are reflected as a component of bonds payable and are amortized by the effective interest method over the life of the bonds. Bond issuance costs are charged directly to expense when incurred. Amortization of bond discount and premium is accelerated for early repayment of bonds. Gains and losses on bond refundings are deferred and amortized as a component of interest expense over the life of the original or refunded bonds, whichever is shorter, and reflected as deferred outflow of resources.

Revolving Loan Programs

Funds received, including interest, for revolving loan programs are recorded as a liability in "amounts held under State revolving loan programs."

FINANCE AUTHORITY OF MAINE

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization and Significant Accounting Policies (Continued)

Grants and Scholarships

Unrestricted grants and scholarships are recorded as revenue when received. Restricted grants and scholarships are recorded as revenue upon compliance with the restrictions. Amounts received for grant and scholarship programs are recorded in “unearned grant and scholarship funds” until they are utilized; at that time revenues equal to the expenses are recognized since these grants and scholarships are expenditure-driven.

Mortgage Insurance Premiums

The Authority’s fee for insuring business loans may range from 1% to 2% per year of the outstanding insured portion of the principal balance of the business loan on the loan’s annual anniversary date. Such mortgage insurance fees received in advance of the insurance period, are deferred and are recognized as income over the insurance period.

Application and Commitment Fees

The Authority charges a fee for the review of applications for certain types of tax-exempt bonds and for the allocation of the state ceiling of tax-exempt bond cap. The Authority also charges an application and/or commitment fee on certain commercial loan insurance. Certain loans also require that a commitment fee be charged to the borrower. The fees are taken into income when they are no longer refundable or when the Authority has performed the service.

FFELP Support

The Authority receives a percentage of the amounts collected on defaulted loans, a portfolio maintenance fee and a default aversion fee from the DE as its primary support for the administration of the FFELP. These fees are recorded as administrative revenues when earned as the services are performed. An estimate of default aversion fees that will need to be repaid to DE is recorded as unearned fee income.

Administrative Expenses

Administrative expense are indirect costs associated with operating the Authority. These expenses are charged to the various funds based on the estimated time spent during the period on each program.

Operating Revenue and Expenses

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues in the Mortgage Insurance Fund include fees received from providing services, insurance premiums and interest income on notes receivable. Operating revenues in the NextGen Administration Fund and the Educational Loan Fund include fees received from providing services and related grants. Operating revenues in the Maine Loan Program include interest income on educational loans receivable and guarantee fee and other miscellaneous fee income.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization and Significant Accounting Policies (Continued)

Operating expenses in the Mortgage Insurance Fund and the NextGen Administration Fund include, as applicable, salaries and related benefits, other operating expenses, provision for losses on insured loans, scholarships, matching contributions and rebates. Operating expenses in the Maine Loan Program Fund are primarily for financing expenses, external loan servicing costs, provision for losses on educational loans, and also salaries and related benefits and other operating expenses. Operating expenses in the Educational Loan Fund are primarily for loan processing services and also salaries and related benefits and operating expenses. Operating expenses for all proprietary funds are the costs of providing the services and operating all programs. All revenues and expenses not categorized above are reported as nonoperating revenues and expenses.

Compensated Absences

It is the Authority's policy to permit employees to accumulate earned but unused vacation. All vacation pay is accrued when incurred in the government-wide, proprietary, and governmental fund financial statements.

2. Cash, Cash Equivalents and Investments

Cash and Cash Equivalents

The carrying amounts, which represent both fair value and cost, of cash and cash equivalents for the Authority at June 30, 2017 are presented below:

Cash held in demand deposit accounts and on hand	\$ 785,682
Money market accounts and repurchase agreements	<u>3,406,017</u>
Total carrying amount of deposits	4,191,699
Amounts restricted for bond obligations in Maine Loan Program Fund – money market funds	24,175,856
Amounts held in State of Maine Treasurer's Cash Pool (consisting of cash and cash equivalents, repurchase agreements, Certificates of Deposit, U.S. investments and corporate bonds)	<u>19,151,814</u>
	<u>\$47,519,369</u>

Of the total carrying amount of deposits of \$4,191,699 at June 30, 2017, the corresponding bank balances were \$4,259,145. The difference between the carrying amounts of deposits and bank balances consists primarily of checks issued but not cashed and deposits in transit. The amount of bank balances covered by Federal depository insurance was \$898,686 at June 30, 2017, leaving \$3,360,459 uninsured, of which \$427,164 was collateralized by Repurchase Agreements issued by Bangor Savings Bank in the Authority's name.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

2. Cash, Cash Equivalents and Investments (Continued)

At June 30, 2017, the money market funds were invested in Federated Government Obligations Fund and BBIF Money Fund. The Federated Government Obligations Fund invests primarily in short-term U.S. Treasury and government agency securities including repurchase agreements collateralized by U.S. Treasury and government agency securities. As of June 30, 2017, the fund was rated Aaa-mf by Moody's Investors Service, AAAM by Standard & Poor's, and AAAMmf by Fitch Ratings. The underlying assets were not held in the name of the Authority. The BBIF Money Fund invests primarily in cash, U.S. Treasury bills, notes and other obligations issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, and repurchase agreements secured by such obligations or cash.

The Authority invests monies that are not needed for immediate use or not held in the Maine Loan Program Bond Indenture primarily with the State of Maine. The State of Maine sponsors an internal investment pool (the Treasurer's Cash Pool). The Authority's participation is voluntary. The State of Maine Treasurer's Cash Pool is primarily comprised of investment vehicles with short maturities and management of the Authority characterizes the investments within the pool as low risk. The State of Maine's Treasurer's Cash Pool is not rated by external rating agencies. The Authority is able to make withdrawals from the State of Maine investment pool at par with little advance notice and without penalty. The Authority's management considers this investment vehicle a money market instrument and generally carries the amounts in the pool at cost.

Included in cash and cash equivalents on the Statement of Net Position Fiduciary Funds – Agency Funds is \$11,429,878 held in the Authority's name in the State of Maine Treasurer's Cash Pool and \$712,892 held at other banks, all of which was either collateralized by a repurchase agreement issued by Bangor Savings Bank in the Authority's name or covered by Federal depository insurance.

At June 30, 2017, the Authority's management had reserved \$511,645 of cash to fund a moral obligation capital reserve for certain small business mortgage loans and the costs of property maintenance related to an acquired property (see note 7). The Authority's management has also designated \$511,645 of the Mortgage Insurance Program unrestricted net position as a reserve for these matters.

At June 30, 2017, the Authority held \$24,175,856 of money market funds within the Maine Loan Program Fund that are restricted for the repayment of bond obligations, and to satisfy certain reserve requirements specified by the bond indentures.

A summary of the fair values of investment securities as of June 30, 2017 is as follows:

Cash management funds	\$ 3,047,836
Commercial paper	6,583,149
U.S. Treasury obligations	25,345,276
U.S. Government-sponsored enterprise bonds	27,060,445
State and municipal bonds	3,976,930
Corporate bonds	<u>21,721,282</u>
	87,734,918
Less: investments recorded in Statement of Net Position- Fiduciary Funds-Agency Funds	<u>22,291,840</u>
Investments recorded in Statement of Net Position	<u>\$65,443,078</u>

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

2. Cash, Cash Equivalents and Investments (Continued)

The maturities or repricings of debt securities at June 30, 2017 are as follows:

	<u>2018</u>	<u>2019 – 2022</u>	<u>Total</u>
Commercial Paper	\$ 6,583,149	\$ –	\$ 6,583,149
U.S. Treasury obligations	1,818,229	23,527,047	25,345,276
U.S. Government-sponsored enterprises (FHLMC, FHLB, FNMA, etc.)	1,998,980	25,061,465	27,060,445
State and municipal bonds	1,998,500	1,978,430	3,976,930
Corporate bonds	<u>4,742,470</u>	<u>16,978,812</u>	<u>21,721,282</u>
	<u>\$17,141,328</u>	<u>\$67,545,754</u>	<u>\$84,687,082</u>

Actual maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties.

The scheduled maturities or repricings of debt securities which are callable at June 30, 2017 are as follows:

	<u>2018</u>
U.S. Government-sponsored enterprises (FHLB, FNMA, etc.)	<u>\$1,998,980</u>

The Authority is authorized to invest funds not needed currently to meet its obligations with the Treasurer of the State of Maine or in any such manner as provided for by law.

Included in investment income for the year ended June 30, 2017, is \$641,857 of net unrealized losses from the change in market value of investment securities.

Interest Rate Risk: The Authority manages interest rate risk according to its investment policy by generally prohibiting investments in securities maturing more than 10 years from the date of purchase. Specifically, a minimum of 25% of investable funds (including cash) will be invested in securities with a maturity of one year or less; a maximum of 75% will be invested in securities with a maturity of one to five years; and a maximum of 25% will be invested in securities with a maturity of five years to ten years.

The Authority places the vast majority of its investments in short-term investments such as those in the State Treasurers Cash Pool. U.S. Government-sponsored enterprise bond purchases are ladderred according to maturities in order to balance interest rate risk.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Authority. The Authority's investment policy limits its investments to those with high credit quality such as U.S. Treasury Obligations, U.S. Government-sponsored enterprises and corporate bonds, as rated by rating agencies such as Moody's (minimum rating of Aa3) or Standard and Poor's (minimum rating of AA-), guaranteed investment contracts backed by high credit quality insurance companies or letters of credit.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

2. Cash, Cash Equivalents and Investments (Continued)

At June 30, 2017, the ratings for investments in debt securities are summarized as follows. These ratings were as of June 30, 2017 and are not necessarily the ratings that existed at the time of purchase.

<u>Issuer</u>	<u>Rating</u>	<u>Fair Value</u>
Commercial paper	A-1	\$ 6,583,149
U.S. Treasury obligations	AA+	25,345,276
U.S. government-sponsored enterprises ⁽¹⁾	AA+	27,060,445
Corporate bonds	AAA	5,979,546
Corporate bonds	AA+	2,226,208
Corporate bonds	AA	1,007,680
Corporate bonds	AA-	7,400,766
Corporate bonds	A+	2,495,997
Corporate bonds	A	2,611,085
State and municipal bonds	AAA	2,970,800
State and municipal bonds	AA	<u>1,006,130</u>
		<u>\$84,687,082</u>

⁽¹⁾ Includes FHLMC, FHLB, FNMA

Concentration of Credit Risk: The Authority's investment policy restricts investments to prescribed categories and the Authority closely monitors its concentration to any one issuer through consultation with its investment advisor, which monitors the credit quality of the issuers.

In accordance with the investment policy, the investments in cash, cash equivalents and debt securities will not exceed the following maximum limits in each of the categories listed below as a percentage of the total portfolio.

	<u>Maximum of the Total Portfolio</u>
Maine State Treasurer's Cash Pool	100%
U.S. Treasury	100
Federal Agencies (GNMA only)	100
Federal Instrumentalities	85
Repurchase Agreements	85
Prime Commercial Paper	50
Money Market Mutual Funds	25
Certificates of Deposit	40
Tax Exempt Obligations	20
Corporate Bonds	40
Government Bond Funds	20
Asset-Backed Securities	40

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

2. Cash, Cash Equivalents and Investments (Continued)

In addition to the above, the combined total of prime commercial paper, asset-backed securities and corporate bonds may not exceed 50% of the total portfolio balance.

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank failure, or for investments the failure of a counterparty, the Authority's deposits or investments may not be returned to it. The Authority's policy to manage the custodial risk of its deposits is to have the underlying investments held by its agent in the nominee's name. The Authority's investments in fixed income securities are held by the Authority's agent in the agent's nominee's name. The Authority's investment advisor monitors the agent's credit quality.

For information on investment activity and risks related to the Private Purpose Trust Fund, refer to note 16.

3. Notes and Educational Loans Receivable

Maine Loan Program Educational Loans

Educational loans earn interest at variable and fixed rates. Most of the Authority's borrowers within the Maine Loan Program are located in the New England states, primarily the State of Maine. Educational loans are unsecured.

Educational loans in the Maine Loan Program are classified as being in "interim" status during the period from the date the loan is made until a student ceases to be enrolled at least on a half-time basis plus a grace period of six months, during which time no payments of principal or interest are required. Loans in an "interest only" status are loans in which only interest payments are due. "Repayment" loan status refers to loans which require principal and interest payments. "Forbearance" status is a period during the life of the loan when repayment is suspended for authorized purposes.

Educational loans receivable are summarized as follows at June 30, 2017:

Status:	
Interim	\$ 9,931,297
Interest only	9,976,310
Repayment	62,351,374
Forbearance	<u>312,668</u>
 Educational loans	 82,571,649
 Less allowance for loan losses	 <u>2,230,244</u>
 Total educational loans, net	 80,341,405
 Current portion	 <u>15,011,912</u>
 Noncurrent portion	 <u>\$65,329,493</u>

The educational loans are pledged for the repayment of bonds.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

3. Notes and Educational Loans Receivable (Continued)

Transactions in the allowance for loan losses on educational loans for the year ended June 30, 2017 are as follows:

Balance at July 1, 2016	\$2,658,875
Loans charged-off	(542,687)
Recoveries on loans	<u>449,056</u>
Net recoveries on loans	(93,631)
Recovery for losses on educational loans	<u>(335,000)</u>
Balance at June 30, 2017	<u>\$2,230,244</u>

At June 30, 2017, loans greater than 90 days delinquent or in claims or forbearance status approximated \$744,000.

Notes Receivable

The following is a summary of notes receivable at June 30, 2017:

Mortgage Insurance Program:	
6.0% note, due fiscal 2022	\$ 233,846
Various notes receivable	<u>3,434</u>
	237,280
Notes receivable in the Revolving Fund:	
Underground Oil Storage Replacement Program	1,262,952
Economic Recovery Program, net	12,456,500
Educators for Maine Program	1,761,869
Health Professions Loan Program	8,194,708
Regional Economic Development Revolving Loan Program	512,727
Maine Health Access Foundation Loan Program	<u>11,267</u>
	<u>24,200,023</u>
Total notes receivable, net	<u>\$24,437,303</u>

An allowance for losses on notes receivable has been established for the Economic Recovery Program Fund, to consider potential losses. The allowance is netted against the notes receivable balances for the program. As of June 30, 2017, the allowance had a balance of \$3,506,102. Because the Economic Recovery Program Fund is a state revolving loan program administered by the Authority, there is no effect on the Statement of Revenues, Expenditures and Changes in Fund Balances for the change in the allowance for losses for this Fund. The allowance account is offset against amounts held under revolving loan program accounts.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

3. Notes and Educational Loans Receivable (Continued)

Security on the Mortgage Insurance Program notes generally includes a mortgage on the underlying property or other tangible business assets. Notes receivable under the Underground Oil Storage Replacement, Economic Recovery Loan and Regional Economic Development Revolving Loan programs are secured by various property and equipment and in some cases, are unsecured. The other notes for educational purposes are unsecured. Notes receivable, other than those in the Mortgage Insurance Program, bear interest from 0% to 10.25%, and are due on various dates up to 2037.

Note receivable in the Agency Funds at June 30, 2017 are as follows:

Potato Marketing Improvement Fund, net	\$3,072,462
Agricultural Marketing Loan Fund	3,380,277
Nutrient Management Fund	47,476
Kim Wallace Adaptive Equipment Loan Program Fund, net	1,352,637
Maine Rural Development Authority, net	<u>1,649,470</u>
	<u>\$9,502,322</u>

An allowance for losses on notes receivable has been established for the Potato Marketing Improvement Fund (PMIF), Kim Wallace Adaptive Equipment Loan Program Fund (KWAELPF), and the Maine Rural Development Authority (MRDA) to consider potential losses. The allowance is netted against the notes receivable balances for the program. As of June 30, 2017, the allowance for the PMIF, KWAELPF, and MRDA was \$145,215, \$281,582, and \$97,800, respectively.

4. Allowance for Losses on Insured Loans

The Authority has established an allowance account to absorb probable losses on the loans it insures (see note 6). The amount of the allowance and the provision for losses is determined by management's evaluation of the insured portfolio. The following is the activity in the allowance for losses on insured loans during the year ended June 30, 2017:

	<u>Mortgage Insurance Program Fund</u>	<u>Education Loan Fund</u>
Beginning balance	\$16,106,088	\$ 82,360
Default payments	(1,442,556)	(6,830)
(Recovery) provision for losses	(869,603)	71,725
Recoveries on prior default payments	<u>16,437</u>	<u>800</u>
Ending balance	<u>\$13,810,366</u>	<u>\$148,055</u>

FINANCE AUTHORITY OF MAINE

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

5. Fair Value Measurements

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Authority has the ability to access.

Level 2 – Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Assets and liabilities measured at fair value are based on one or more of three valuation techniques. The three valuation techniques are as follows:

- *Market approach* – Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- *Cost approach* – Amount that would be required to replace the service capacity of an asset (i.e., replacement cost); and
- *Income approach* – Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques).

Each asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For the fiscal year ended June 30, 2017, the application of valuation techniques applied to similar assets has been consistent. Following is a description of the valuation methodologies used for assets measured at fair value.

Cash management funds: Fair value approximates the relative carrying values at June 30 as these financial instruments have short maturities.

Commercial paper, U.S. Treasury obligations, U.S. Government-sponsored enterprises bonds, state and municipal bonds and corporate bonds: Fair value is determined based on quoted prices in active markets, or by using broker or dealer quotations, external pricing providers, or alternative pricing sources with reasonable levels of price transparency.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

5. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Authority believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Authority's assets carried at fair value on a recurring basis as of June 30, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Cash management funds	\$3,047,836	\$ —	\$ —	\$ 3,047,836
Commercial paper	—	6,583,149	—	6,583,149
U.S. Treasury obligations	—	25,345,276	—	25,345,276
U.S. Government-sponsored enterprise bonds	—	27,060,445	—	27,060,445
State and municipal bonds	—	3,976,930	—	3,976,930
Corporate bonds	—	<u>21,721,282</u>	—	<u>21,721,282</u>
	<u>\$3,047,836</u>	<u>\$84,687,082</u>	<u>\$ —</u>	<u>\$87,734,918</u>

6. Off-Balance Sheet Financial Instruments, Commitments, Contingencies and Concentrations of Credit Risk

The Authority is insuring loans made by financial institutions to qualifying businesses under its various insurance programs. The Authority is contingently liable for the insured portion of payments due on these loans. At June 30, 2017, the Authority had insurance outstanding for commercial loans under the Loan Insurance Program totaling approximately \$114,969,000.

At June 30, 2017, the Authority was insuring commercial loans with an aggregate outstanding principal balance approximating \$3,458,000 which were ninety or more days delinquent. The aggregate insured balance of these loans was approximately \$2,318,000 at June 30, 2017.

The Authority's exposure to credit loss in the event of nonperformance by the other parties is equal to the amount insured including the Authority's share of expenses and any accrued interest. The amount and nature of collateral held varies but may include accounts receivable, inventory, and property, plant and equipment. Insurance is extended after a review of the subject's creditworthiness, among other considerations.

In addition, the Authority has entered into commitments to insure commercial loans at some future date. At June 30, 2017, these commitments under the Loan Insurance Program were approximately \$7,419,000.

Substantially all of the Authority's loan customers and commercial loan insurance participants are located in the State of Maine. The only significant concentrations of credit risk in the Authority's loan portfolio at June 30, 2017, are for the forest products industry and for geographical concentration.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

6. Off-Balance Sheet Financial Instruments, Commitments, Contingencies and Concentrations of Credit Risk (Continued)

The Authority provides loan insurance on direct educational loans and consolidation loans made by participating financial institutions in the Maine Private Education Loan Network. At June 30, 2017, approximately \$7,149,000 of loans were insured under this program. Such loans are unsecured.

The Authority has legislative authority to incur Full Faith and Credit Obligations and Moral Obligations of the State of Maine in an aggregate amount not to exceed \$1,065,000,000 at June 30, 2017. The State has not paid, nor does the Authority expect it to pay, any amounts as a result of this authorization as of June 30, 2017. Such insurance obligations are detailed below:

	<u>Authorized</u>	<u>Outstanding</u>
Full Faith and Credit of the State of Maine:		
Commercial Insurance Authority	\$ 90,000,000	\$ 82,904,438
Veterans Mortgage Insurance Authority	4,000,000	2,644,062
Higher Education Bonds	4,000,000	—
Moral Obligation of the State of Maine:		
Commercial Loan Insurance	150,000,000	29,420,924
Major Business Expansion Projects	120,000,000	4,000,000
Educational Bonds	225,000,000	102,000,000
Workers Compensation Residual Market Projects	57,000,000	—
Solid Waste Bonds	50,000,000	—
Supplemental Student Loan Program	50,000,000	—
Transmission Facilities Projects	100,000,000	—
Waste Motor Oil Revenue Fund	35,000,000	9,670,000
Natural Gas Pipeline and Energy Distribution Projects *	<u>180,000,000</u>	<u>—</u>
Total Moral Obligation	<u>967,000,000</u>	<u>145,090,924</u>
Total authorized and outstanding	<u>\$1,065,000,000</u>	<u>\$ 230,639,424</u>

* Consists of not more than \$150,000,000 for loans and up to \$30,000,000 for use of bond proceeds to fund capital reserve funds for revenue obligations securities.

The Authority carries insurance to cover its exposure to various risks of loss excluding losses on loan insurance. There were no significant uninsured losses during 2017.

The Authority participates in federally-funded programs. The programs are subject to financial and compliance audits and resolution of identified questioned costs. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time.

At June 30, 2017, the Authority had commitments to extend credit for educational loans within the Maine Loan Program of approximately \$91,000. Commitments to extend credit are agreements to lend to a borrower as long as there is no violation of any condition established in the commitment agreement. Commitments generally have fixed expiration dates or other termination clauses. The Authority uses the same credit policies in making commitments as it does for educational loans receivable.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

7. Acquired Property

The Authority holds title to land that it acquired in the course of a bankruptcy proceeding. The property is carried at no value in the Authority's Statement of Net Position. The land was previously owned by a company that operated a tannery and apparently used the land as a site for disposal of its industrial waste. The Authority takes the position that it is not liable for clean-up costs at the site because it acquired title to the property involuntarily. However, it has entered into a Memorandum of Understanding with the Maine Department of Environmental Protection and the Federal Environmental Protection Agency (EPA) pursuant to which it has or will pay a portion of the past and future cleanup costs on the site and has undertaken ongoing site maintenance responsibilities. The EPA has formally de-listed the site so that it is no longer considered an active *Comprehensive Environmental Response, Clean-up and Liability Act* (CERCLA) site, but the site remains under the oversight of the Maine Department of Environmental Protection (MEDEP).

Included in accounts payable and accrued liabilities at June 30, 2017, is \$112,000 accrued by management of the Authority to record potential costs associated with site protection and monitoring functions for which the Authority may be held liable. The Authority may be liable for additional payments if there is an extraordinary event on the property. The Authority's legal counsel is unable to estimate an amount or range of possible liability at this time.

The MEDEP has informally notified the Authority that if contaminants migrate onto and contaminate adjacent residential water supplies, the Authority should assume mitigation costs. The mitigation costs are undetermined at this time. The Authority continues to assert that it is not liable. The Authority's legal counsel is unable to estimate an amount or range of a satisfactory settlement at this time for these matters.

8. Notes Payable

Notes payable consists of the following at June 30, 2017:

Note payable ⁽¹⁾ , interest fixed at 1.0%, principal and interest payments due until 2025.	
Assets of the Intermediary Relending Loan Program are pledged to secure the note.	\$476,877
Note payable ⁽²⁾ , interest only payments fixed at 1.0%, principal and interest due at the option of the lender. Assets of the Maine Health Access Foundation Loan Program are pledged to secure the note.	<u>34,000</u>
	510,877
Less: current portion of notes payable	<u>92,906</u>
Noncurrent portion of notes payable	<u>\$417,971</u>

The proceeds from the note payable⁽¹⁾ are required to be used to originate notes receivable in the Intermediary Relending Loan Program, which is included in the Revolving Fund and is a governmental type fund. The proceeds from the note payable⁽²⁾ are required to be used to originate notes receivable in the Maine Health Access Foundation Loan Program, which is included in the Revolving Fund and is a governmental type fund. Since these notes payable are directly related to the programs' lending activities, they are reflected within the respective revolving loan fund.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

8. Notes Payable (Continued)

The debt service requirements for notes payable through 2022 and in five-year increments thereafter to maturity for the Authority, are as follows:

<u>Fiscal Year(s)</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 92,906	\$ 4,939	\$ 97,845
2019	59,495	4,180	63,675
2020	60,090	3,585	63,675
2021	60,691	2,984	63,675
2022	61,298	2,377	63,675
2023 – 2025	<u>176,397</u>	<u>3,428</u>	<u>179,825</u>
	<u>\$510,877</u>	<u>\$21,493</u>	<u>\$532,370</u>

The above debt schedule assumes repayment of the \$34,000 note in 2018.

The following summarizes the notes payable activity for the Authority for the year ended June 30, 2017:

	<u>Notes Payable</u>
Balance at beginning of year	\$ 885,200
Principal reductions	<u>(374,323)</u>
Balance at end of year	<u>\$ 510,877</u>

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

9. Bonds Payable

The following bonds within the Maine Loan Program Fund have been issued to finance the purchase and origination of educational loans:

	<u>Amount Outstanding</u>
<u>Educational Loan Revenue Bonds</u>	
2009 series due in annual installments on December 1, 2017 through 2039; interest fixed at rates ranging from 4.25% to 5.875%	\$ 61,625,000
2010 series due in annual installments on December 1, 2017 through 2025; interest fixed at rates ranging from 3.00% to 4.45%	10,710,000
2012 series due in annual installments on December 1, 2017 through 2027; interest fixed at rates ranging from 3.10% to 5.05%	9,965,000
2014 series due in annual installments on December 1, 2017 through 2031; interest fixed at rates ranging from 3.50% to 5.00%	9,700,000
2017 series due in annual installments on December 1, 2020 through 2034, interest fixed at rates ranging from 3.75% to 5.00%	<u>10,000,000</u>
	102,000,000
Less:	
Net unaccreted bond discount/premium	<u>483,652</u>
Bonds payable, net	101,516,348
Current portion, net of discount/premium	<u>10,448,401</u>
Non-current portion	\$ <u>91,067,947</u>
Unaccreted deferred loss on refunding	\$ <u>764,749</u>

The Authority accreted \$64,035 for the year ended June 30, 2017 of the deferred loss on refunding.

The bonds are not a debt or liability of the State of Maine but are payable solely as provided in the bond indentures. The bonds are secured by cash, cash equivalents, investments and a first lien on the educational loans originated and acquired with the proceeds.

The bonds are subject to early redemption at par, in whole or in part, from unused bond proceeds and investment income thereon, to the extent that the funds will not be used to originate eligible loans. The bonds are subject to mandatory redemption under provisions outlined in the bond indentures.

Investments made and educational loans originated with the proceeds of the bonds, and the net revenues thereon are held in trust. As additional security for the bonds, the Authority has established cash reserve funds totaling \$2,581,450 at June 30, 2017, to be used to replenish any deficiency in funds required to pay principal or interest due on the bonds. In addition to the cash reserve funds, the Authority also has a reserve fund insurance policy (surety bond) available in an amount up to the maximum annual debt service in any given year, less the cash reserve funds.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

9. Bonds Payable (Continued)

On June 22, 2011, the State of Maine approved legislation extending the ability of the Authority to create or establish capital reserve funds which will benefit from a “moral obligation” from the State of Maine to June 30, 2017. The maximum amount of bonds that the Authority can have outstanding with a capital reserve fund which will benefit from a “moral obligation” of the State of Maine is \$225,000,000.

The debt service requirements through June 30, 2022 and in five-year increments thereafter to maturity for the Authority, are as follows:

<u>Fiscal Year(s)</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 10,460,000	\$ 5,061,366	\$ 15,521,366
2019	5,885,000	4,528,058	10,413,058
2020	6,025,000	4,260,157	10,285,157
2021	3,115,000	4,059,586	7,174,586
2022	3,425,000	3,927,496	7,352,496
2023 – 2027	21,095,000	16,274,520	37,369,520
2028 – 2032	36,270,000	9,192,603	45,462,603
2033 – 2037	9,975,000	2,055,750	12,030,750
2038 – 2039	<u>5,750,000</u>	<u>844,531</u>	<u>6,594,531</u>
	<u>\$ 102,000,000</u>	<u>\$50,204,067</u>	<u>\$ 152,204,067</u>

The actual maturities and interest may differ due to redemption provisions or other factors.

The following summarizes the bond activity for the Authority for the year ended June 30, 2017:

Balance at beginning of year	\$ 106,903,239
Issuance	10,403,060
Redemption of bonds	(15,815,000)
Net accretion/amortization	<u>25,049</u>
Balance at end of year	<u>\$ 101,516,348</u>

10. Arbitrage

The bonds issued in the Maine Loan Program are subject to Internal Revenue Service regulations which limit the amount of income which may be earned on certain cash equivalents, investments and educational loans acquired with bond proceeds. Any excess earnings are to be refunded to the Federal government. The estimated arbitrage liability related to excess earnings on educational loans was \$2,109,797 at June 30, 2017. No payments were required in 2017. The Authority does not anticipate that any payments will be due through June 30, 2018.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

11. Capital Assets

Capital assets activity for the year ended June 30, 2017, was as follows:

	<u>June 30,</u> <u>2016</u>	<u>Additions</u>	<u>Disposals</u>	<u>June 30,</u> <u>2017</u>
Building and improvements	\$ 2,113,846	\$ 46,712	\$ (4,486)	\$ 2,156,072
Computer and office equipment	<u>1,676,732</u>	<u>186,283</u>	<u>(129,699)</u>	<u>1,733,316</u>
	3,790,578	232,995	(134,185)	3,889,388
Less accumulated depreciation for:				
Building and improvements	(1,130,497)	(80,227)	4,486	(1,206,238)
Computer and office equipment	<u>(1,168,765)</u>	<u>(238,881)</u>	<u>129,699</u>	<u>(1,277,947)</u>
Total accumulated depreciation	<u>(2,299,262)</u>	<u>(319,108)</u>	<u>134,185</u>	<u>(2,484,185)</u>
	<u>\$ 1,491,316</u>	<u>\$ (86,113)</u>	<u>\$ —</u>	<u>\$ 1,405,203</u>

12. Transactions with the State of Maine

Amounts received in governmental and business-type activities from the State of Maine for the year ended June 30, 2017, are summarized below:

Received for grant programs	\$19,555,394
Received for loan programs	862,740
General State of Maine appropriations	600,000
Reserve fund transfers	1,000,000
Bond repayment	3,011,422

The Authority received a \$1,000,000 reserve fund transfer from the State of Maine. The Maine Revised Statutes provide that, if certain conditions are met, the State will transfer to the Authority funds, as available, from the State's Loan Insurance Reserves, up to \$1,000,000 per fiscal year. The amounts received for bond repayment were from the State of Maine's Waste Motor Oil Revenue Fund. Such amounts were used to pay principal and interest on the Waste Motor Oil Revenue Bonds and eligible costs associated with the Waste Motor Oil Disposal Site Remediation Program (see note 13).

As part of the Authority's administration of the Maine State Grant Program, the Authority received \$16,445,394 of funds reflected in the table above from the State of Maine.

FINANCE AUTHORITY OF MAINE

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

13. Revenue Bonds

In accordance with the Act, the Authority is authorized to assist, review and approve the issuance of Revenue Obligation Securities, which enable applicants, public or private, to finance projects through the issuance of tax exempt securities by the Authority or municipalities. Occasionally, the Authority insures the repayment of a portion of the mortgage loans securing these bonds.

Each series of these bonds are limited obligations of the Authority, separately secured by a pledge of the revenues and collateral derived in connection with the mortgage loan financed from the proceeds of such series (conduit debt). All costs of originating the bonds, including underwriter's discount, are paid by the borrowers. The principal and interest paid by each borrower is at an amount equal to the amount of principal and interest due to the bondholders. Because the bonds represent only a contingent liability to the Authority, in that the Authority is not responsible for payment of the bonds unless the insured borrower defaults on an insured bond, the amount of bonds payable, the related mortgages receivable and the cash held in trust have not been recorded on the Authority's Statement of Net Position.

In fiscal 2010, the Authority, on behalf of the State of Maine, issued Waste Motor Oil Revenue Bonds to provide for certain response costs related to a waste motor oil disposal site. These bonds are special limited obligations of the Authority, payable solely from revenues accumulated in the State of Maine Waste Motor Oil Revenue Fund. Amounts in the Waste Motor Oil Revenue Fund are expected to be derived principally from payments of a premium on the purchase within the State of Maine of specified motor vehicle oil. The bonds do not constitute a debt or pledge of faith and credit of the Authority or the State, and accordingly, have not been reported in the accompanying financial statements. At June 30, 2017, Waste Motor Oil Revenue Bonds outstanding totaled \$9,670,000.

14. Deferred Compensation and Pension Plans

The Authority offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all Authority employees, permits the employees to defer a portion of their salary until future years. The Authority does not match any deferred compensation under this plan. The deferred compensation is not available to employees until termination, retirement, death or an unforeseeable emergency. The Authority has established a trust for the exclusive benefit of the participants and their beneficiaries. As a result, the plan assets and corresponding liability are not presented in the Authority's Statement of Net Position at June 30, 2017.

Currently, the Authority offers a Simplified Employee Pension Plan, a defined contribution plan, to its employees. All contributions made by the Authority go into this plan at 8% of eligible compensation. Pension expense was approximately \$274,000 in fiscal year 2017.

15. Federal Student Loan Reserve Fund

The Authority holds and administers the Federal Student Loan Reserve Fund for the DE. The *Higher Education Amendments of 1998* (the Amendments) required the creation of a Federal Student Loan Reserve Fund (the Federal Fund) and a Guarantee Agency Operating Fund (the Operating Fund). Under this legislation, substantially all existing reserve funds, securities and other liquid assets were deposited and transferred into the Federal Student Loan Reserve Fund. Ongoing deposits into the Federal Student Loan Reserve Fund include reinsurance payments, the complement of reinsurance on default collections, insurance premiums charged to borrowers and interest income. According to the Amendments, the Federal Student Loan Reserve Fund is the property of the Federal government (the DE) and can only be used to pay lender claims and a default aversion fee to the Operating Fund. The Federal Student Loan Reserve Fund is treated as an agency fund within the Authority's Statement of Net Position-Fiduciary Funds.

The Amendments also created a Guarantee Agency Operating Fund, which is the sole property of the Authority. This fund is used to account for the activities of the FFELP that are outside the Federal Fund. The fund can be used for the administration of the programs authorized by the Act, as amended, and other related activities under the statute. Prior to July 1, 2010, deposits into this fund included a processing fee paid by DE on new loans disbursed (origination fee). Currently a portfolio maintenance fee is paid by DE on all outstanding loans, a default aversion fee is paid from the Federal Student Loan Reserve Fund and collections on defaulted loans after subtracting amounts to be paid to DE are deposited into this fund. The Federal Guarantee Agency Operating Fund is a governmental fund of the Authority.

Total outstanding guarantees issued under the FFELP approximated \$385,735,000 at June 30, 2017. A portion of defaults on FFELP loan guarantees are paid by DE through the Federal Student Loan Reserve Fund. At June 30, 2017, the reserve level was approximately \$2,989,000.

16. Private Purpose Trust Fund

A summary of investments by asset class is as follows:

<u>Investment Type</u>	<u>NextGen Totals</u>	
	<u>Amount</u>	<u>%</u>
Domestic Equity Funds	\$ 3,541,969,674	37.5%
International Equity Funds	1,347,835,534	14.3
Alternative Investment Funds	21,281,305	0.2
Investment Grade Fixed Income Funds	2,307,131,243	24.4
Non-Investment Grade Fixed Income Funds	400,802,123	4.2
Mixed Asset Funds	1,014,024,822	10.7
Cash Allocation Account	432,321,788	4.6
Guaranteed Interest Account	304,520,886	3.2
Bank Deposit Account	81,076,574	0.9
Total	<u>\$ 9,450,963,949</u>	<u>100.0%</u>

Significant Accounting Policies

Investments

Investments are generally measured at fair value, except as described in the paragraphs that follow. Accounting standards categorize fair value measurements according to a hierarchy that is based on the valuation inputs that are used to measure fair value. Level 1 inputs are quoted prices for identical assets in active markets that can be accessed at the measurement date. Level 2 inputs are inputs other than quoted prices that are observable for an asset, either directly or indirectly. Level 3 inputs are unobservable.

Most of the Portfolios invest directly in mutual funds. The mutual funds are reported at fair value, determined based on the net asset value per share as of the close of the New York Stock Exchange on the reporting date (Level 1 inputs). Net realized and unrealized gains and losses are reported as “net appreciation (depreciation) in value of investments” on the Statement of Changes in Net Position. Purchases and sales are recorded on a trade date basis. Dividend and capital gain distributions are recorded on the ex-dividend date.

The Cash Allocation Account is a separate account in which certain Portfolios are invested. The underlying assets of the Cash Allocation Account include certificates of deposit, commercial paper, corporate notes, obligations of the U.S. Treasury and government sponsored entities and municipal variable rate demand notes, all with short maturities (generally one year or less at the date of purchase). BlackRock Capital Management, Inc. is responsible for management of the assets in the Cash Allocation Account, and State Street Bank and Trust Company (State Street) is custodian of all investments held in the Cash Allocation Account. Each Portfolio’s investment in the Cash Allocation Account is evidenced by units of participation in the separate account and is reported at net asset value per unit, which is determined based on the net book value of the investments held in the Cash Allocation Account, plus accrued interest and any other assets, less accrued expenses and any other liabilities divided by the total number of units outstanding. Due to the short maturities of the investments held in the Cash Allocation Account, net book value approximates fair value.

The Guaranteed Interest Account (GIA), issued by New York Life is a non-participating, unallocated insurance contract and is reported at contract value, which is equal to contributions, plus interest credited at a guaranteed rate (may be adjusted periodically), less any applicable premium taxes and withdrawals. The GIA is guaranteed as to principal, accumulated interest and future interest rates.

The NextGen Savings Portfolio invests exclusively in interest-bearing omnibus negotiable order of withdrawal (NOW) accounts currently at Bank of America, N.A. (the Bank Deposit Accounts). The Bank Deposit Accounts are reported as the cumulative sum of contributions to the Bank Deposit Accounts, plus interest credited, less withdrawals.

Fees and Expenses

Fees and expenses reported on the Statement of Changes in Net Position reflect the fees and expenses of each Portfolio paid from Program Fund assets and do not include any expenses associated with the underlying investments. Each Portfolio indirectly bears its proportional share of the expenses of the underlying investments in which it invests. Accordingly, each Portfolio’s investment return will be net of the expenses of the underlying investments and the fees and expenses attributable to that Portfolio.

16. Private Purpose Trust Fund (Continued)

Federal Income Tax

The Program has been designed to comply with the requirements for treatment as a qualified tuition program under Section 529 of the Internal Revenue Code of 1986, as amended. Therefore, no federal income tax provision is required. The earnings portion of non-qualified withdrawals may be subject to a 10% federal tax in addition to applicable federal and state income tax. It is the participant's responsibility to determine whether or not a withdrawal is for qualified higher education expenses and to calculate and report on his or her personal income tax return the taxable amount of non-qualified withdrawals, if any.

Contributions

Individuals and certain types of entities may establish one or more accounts to which cash contributions may be made, subject to minimum contribution requirements, limitations on the aggregate account balance and other terms and limitations defined in the Program Description and Participation Agreement between the participant and the Program. Participants may elect to invest their contributions in one or more Portfolios offered through the Direct or Select Series. In addition, the Select Series Portfolios offer different unit classes, each having a different expense structure. Although participants can select the Portfolio(s) into which their contributions are invested, they cannot direct the selection or allocation of the underlying investments composing each Portfolio. Contributions are generally reported on the Statement of Changes in Net Position as increases in fiduciary net position on the business day after the business day they are received, and are net of any applicable sales charges. Contributions are generally invested in units of the selected Portfolio on the next business day following the credit of the contribution to the participant's account.

Withdrawals

Withdrawals are based on the net asset value calculated for such Portfolio on the business day following the day on which the Program Manager accepts and processes the withdrawal request. Withdrawals are generally recorded as deductions from fiduciary net position on the business day after the request is processed. Withdrawals presented on the Statement of Changes in Net Position include any applicable sales charges.

Investment Risk Disclosures

The Program's investments are exposed to various risks, such as interest rate, market and credit risk. It is at least reasonably possible that changes in fair values could occur in the near term, and such changes could materially affect participant balances and amounts reported in the Program's Basic Financial Statements. GASB Statement No. 3, *Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements*, GASB Statement No. 40, *Deposit and Investment Risk Disclosures* and GASB Statement No. 59, *Financial Instruments Omnibus*, require that certain disclosures be made related to the Program's investment policy and its exposure to credit risk, interest rate risk and foreign currency risk, which are included in the paragraphs that follow.

FINANCE AUTHORITY OF MAINE

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

16. Private Purpose Trust Fund (Continued)

Investment Policy

The Program's investment objectives and performance monitoring requirements are set forth in the *Investment Policy and Monitoring Guidelines*. Generally, the Program's objectives include providing diverse investment options through the Direct and Select Series, structured for different levels of risk tolerance, time horizons and investment management preferences, while maintaining asset based fees at a competitive level. While the *Investment Policy and Monitoring Guidelines* do not specify permissible investments for the Program or address credit risk, interest rate risk, concentrations of credit risk or foreign currency risk, the assets of each Portfolio are invested according to an allocation strategy recommended by Merrill Lynch and the Portfolio's Sub-Advisor and approved by the Authority. Any changes to the investment strategy must be approved by the Authority.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Portfolios' investments in mutual funds and ETFs which invest in fixed income securities, the Principal Plus Portfolio and the Cash Allocation Account may be exposed to credit risk. None of the mutual funds or ETFs in which the Portfolios invest are rated by a nationally recognized statistical rating organization (NRSRO) except for the iShares 1-3 Year Treasury Bond ETF, the iShares Core U.S. Aggregate Bond ETF, the iShares iBoxx \$ High Yield Corporate Bond ETF and the iShares Short Treasury Bond ETF, which carry ratings of AAf, Af, B-f and AAAf, respectively, at June 30, 2017. The GIA has not been rated.

Custodial Credit Risk

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government and are held by either the counterparty or the counterparty's trust department or agent but not in the government's name. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and they are uncollateralized or collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. The Program's investments in mutual funds and ETFs are not subject to custodial credit risk disclosure requirements. In addition, the GIA is considered a contractual investment, rather than investment security, and is not exposed to custodial credit risk. While the GIA is not rated by any nationally recognized statistical rating organization, its respective issuer is rated AA+ by Standard and Poor's.

The Cash Allocation Account's investments are registered in the name of State Street as custodian and held in a separate account in the name of the Cash Allocation Account. The Cash Allocation Account may invest in bank deposit products, and these balances are not covered by depository insurance.

Account balances invested in the Bank Deposit Account are covered by depository insurance at the individual account level, to the extent applicable under FDIC regulations.

FINANCE AUTHORITY OF MAINE
NOTES TO FINANCIAL STATEMENTS

June 30, 2017

16. Private Purpose Trust Fund (Continued)

Concentration of Credit Risk

A concentration of credit risk is the risk of loss attributed to the magnitude of the Program's investments in a single issuer. Investments in mutual funds, ETFs or securities that are issued or explicitly guaranteed by the U.S. government are not subject to concentration of credit risk disclosure requirements. There are no investments in the Cash Allocation Account that represent 5% or more of the total investments of the Cash Allocation Account.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Certain Portfolios invest in mutual funds and ETFs that are exposed to interest rate risk due to underlying debt securities. In general, the value of a debt security will increase when interest rates decline and decrease when interest rates increase. Prices of longer term securities generally change more in response to interest rate changes than the prices of shorter term securities. Average maturity is a measure of sensitivity to interest rate risk. Average maturity is the average length of time until fixed income securities held by a fund reach maturity and will be repaid, taking into consideration the possibility that the issuer may call the security before its maturity date. In general, the longer the average maturity, the more a fund's value will fluctuate in response to changes in interest rates. As of June 30, 2017, the average maturities of the bond mutual funds and ETFs in which the Portfolios invest ranged from 0.47 years to 9.27 years.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. Due to the nature of the Program's investments, the Program does not have any direct exposure to foreign currency risk. Certain mutual funds and ETFs in which the Portfolios invest include foreign securities in their underlying asset holdings, and these mutual funds and ETFs may indirectly expose the Program to foreign currency risk. There are certain additional risks involved when investing in foreign securities that are not inherent to investments in domestic securities. These risks may include foreign currency exchange rate fluctuations, adverse political and economic developments and the possible prevention of currency exchange or other foreign governmental laws or restrictions.
