# Annual Report Maine Municipal Bond Bank

2017

The Honorable Paul R. LePage Governor of the State of Maine State House Station #1 Augusta, ME 04333

Dear Governor LePage:

On behalf of the Commissioners and staff of the Maine Municipal Bond Bank, I am pleased to provide you with our 2017 year-end Annual Report.

The Maine Municipal Bond Bank was established by the legislature in 1972. Since its inception the Bond Bank has issued in excess of \$4 billion for funding to meet the needs of Maine's municipalities. During its forty-five year history the Bond Bank has never experienced a default.

Within the 2017 fiscal year, the Bond Bank sold \$143,650,000 under its General Bond Resolution Program. Those sales provided towns, cities, school systems, and utility districts with lower cost capital funding to meet their municipal needs.

The Bank and the Department of Education have successfully committed \$7,799,851 from the State Revolving Loan Fund for school renovation projects.

The Maine Clean Water Revolving Loan Fund and the Maine Drinking Water Revolving Fund provided loans totaling \$49,744,632 to finance 44 projects in fiscal year 2017.

The Transportation Grant Anticipation Fund issued \$44,105,000 in GARVEE bonds in fiscal year 2017.

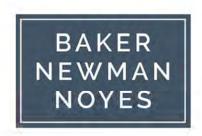

The Transportation Infrastructure Fund did not issued TRANSCAP refunding bonds in fiscal year 2017.

We are proud of our accomplishments within fiscal year 2017 and look forward to continuing our commitment of providing a service that benefits the growing needs of the State of Maine.

Sincerely,

Stephen R. Crockett

Chairman

## INDEPENDENT AUDITORS' REPORT

Board of Commissioners Maine Municipal Bond Bank

We have audited the accompanying financial statements, consisting of the General Operating Account, General Tax-Exempt Fund Group, Grant Anticipation Fund Group, Transportation Infrastructure Fund Group, Qualified School Construction Fund Group, Liquor Operation Revenue Fund Group, Clean Water and Drinking Water Revolving Loan Fund Groups and Operating Fund Group and the School Facilities Fund Group of Maine Municipal Bond Bank (the Bond Bank), which comprise the statements of net position as of June 30, 2017, and the related statements of revenues, expenses and changes in net position, and cash flows for the year then ended, and the related notes to the financial statements. The Bond Bank is a component unit of the State of Maine.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Commissioners Maine Municipal Bond Bank

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Bond Bank, as well as the individual fund groups referred to above, as of June 30, 2017, and the respective changes in net position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matter

Required Supplementary Information

Baker Newman & Noyes LLC

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Portland, Maine August 30, 2017

## MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2017

As financial management of the Maine Municipal Bond Bank (the "Bond Bank"), we offer readers of these financial statements this narrative, overview and analysis of the financial activities of the Bond Bank for the fiscal year ended June 30, 2017. This discussion and analysis is designed to assist the reader in focusing on the significant financial issues and activities of the Bond Bank and to identify any significant changes in financial position. Readers should consider the information presented here only in conjunction with the basic financial statements as a whole.

## **Financial Highlights**

- Revenues for the Bond Bank's General Operating Account were \$707,382 for fiscal year 2017, a decrease of \$67,070 or 8.7% from fiscal year 2016. This was primarily attributed to a decrease in total net investment income of approximately \$44,000.
- Net position in the Bond Bank's General Operating Account increased \$161,208 in fiscal year 2017. This increase is the net result of Operating Revenues totaling \$707,382, Operating Transfers totaling \$767,870 and Operating Expenses totaling \$1,314,044. Operating Transfers from the General Tax-Exempt Fund Group are mandated by the Bond Bank's annual operating budget. At June 30, 2017, the Bond Bank's General Operating Account had a total net position of \$28,608,748.
- The Bond Bank's gross principal amount of bonds outstanding at June 30, 2017 of \$1,496,380,839 represents a net increase of \$51,096,484 from the balance at June 30, 2016. This increase was the net result of the General Tax Exempt Resolution issuing Series 2016C, 2017A, and 2017B bonds, totaling \$143,650,000, and the Grant Anticipation Fund Group issuing 2016A bonds totaling \$44,105,000, less the scheduled debt service principal payments of \$136,658,516. Refer to note 4 to the financial statements for a detail of bonds payable activity in 2017.
- The Bond Bank committed loans to local governmental units during fiscal year 2017 totaling \$217,154,906, which was a 66.3% increase from the loans committed in fiscal year 2016. The Bond Bank also provided borrowers participating in the Drinking Water Revolving Loan Fund Program, the Clean Water Revolving Loan Fund Program, and the School Facilities Revolving Loan Fund Program \$6,576,532 in potential loan forgiveness in fiscal year 2017, which was a 35.0% increase over fiscal year 2016.

#### Overview of the Bond Bank

The Bond Bank was created in 1972 by an Act of the Maine Legislature, as a public body corporate and politic and is constituted as an instrumentality, exercising public and essential governmental functions of the State. The Bond Bank was initially established to issue bonds for the purpose, among other things, of providing funds to enable it to lend money to counties, cities, towns, school administrative districts, community school districts or other quasi-municipal corporations (the "governmental units") within the State of Maine. The provision of funds is accomplished by the direct purchase from such governmental units of their bonds, notes or evidence of debt payable from taxes, charges for services or assessments.

For financial statement reporting purposes, the Bond Bank is considered a component unit of the State of Maine. However, the Bond Bank does not receive any State appropriations for its operations. The Bond Bank does receive grant monies from the State to fund the revolving loan funds for clean water, drinking water and school facilities fund groups. The Bond Bank may also administer pass-through grants from time-to-time for various state agencies within its General Operating Account. The Bond Bank periodically receives allocations of the State's tax-exempt bond cap and is a member of the State's Tax Cap Allocation Committee.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

The Bond Bank administers the Grant Anticipation Fund Group under which the Bond Bank issues bonds or notes for the purpose of making advances to finance qualified transportation projects approved by the State of Maine Department of Transportation. These bonds or notes are repaid from future federal highway grant monies received by the State of Maine.

The Bond Bank administers the Transportation Infrastructure Fund Group under which the Bond Bank issues bonds or notes for the purpose of making advances to finance qualified transportation projects approved by the State of Maine Department of Transportation. These bonds or notes are repaid from a portion of allocated fees and taxes (i.e., motor fuel taxes, title fees, registration fees, excise fuel taxes, vanity license plate fees, etc.) collected by the State of Maine, and paid to the Bond Bank monthly or quarterly.

The Bond Bank administers the Qualified School Construction Fund Group Resolution under which the Bond Bank issues bonds which are exempt from State of Maine income taxes (but not federal income taxes) and makes loans to qualified governmental units for the construction, rehabilitation, or repair of a public school facility, or for the acquisition of land on which such a facility is to be constructed. Interest payments are made semi-annually by the borrowers and are net of any federal subsidy payments that are received from the US Department of the Treasury. Principal payments are made annually to the Bond Bank by the borrowers and are deposited into a sinking fund. The sinking fund will be used to pay off the bonds on the final maturity date.

The Bond Bank administers the Liquor Operations Fund Group under which the Bond Bank issues bonds which are exempt from State of Maine income taxes (but not federal income taxes) for the purpose of making advances to the State of Maine to make payments to health care providers for services provided prior to December 1, 2012 under the MaineCare program. The bonds are repaid from a portion of future liquor revenues collected by the State Bureau of Alcoholic Beverages and Lottery Operations, and paid to the Bond Bank monthly.

The Bond Bank administers the Federal Clean Water Act and Drinking Water Act Revolving Loan Funds. Each of the Revolving Loan Funds periodically receives capitalization grants from the Environmental Protection Agency and matching funds from the State of Maine. Additionally, both of the revolving loan funds received American Recovery and Reinvestment Act of 2009 (ARRA) grant awards in 2009. The State of Maine Department of Environmental Protection approves low interest revolving loans to eligible borrowers, under the Clean Water Act Fund, that may be comprised of bond proceeds and federal and state equity monies or solely equity monies. The Drinking Water Revolving Loan Fund operates similar to the Clean Water Revolving Loan Fund whereby the Maine Department of Human Services (Office of Drinking Water) approves low interest revolving loans, under the Drinking Water Act, to eligible borrowers that may be comprised of bond proceeds and federal and state equity monies or solely equity monies. Under the base Clean Water and Drinking Water Revolving Loan Program, a portion of each federal capitalization grant may be provided to borrowers as loan forgiveness. Beginning in fiscal year 2010 federal grants, the programs have provided a maximum of 30% of the federal grants awarded as additional subsidies, which includes loan forgiveness, to eligible borrowers.

The Bond Bank administers the School Facilities Revolving Loan Fund, which is capitalized by monies received from the State of Maine. The Department of Education approves qualified projects that are eligible for interest-free revolving loans, subject to the Bond Bank's approval, to school administrative units for renovation and maintenance of school facilities. Borrowers are eligible to receive a minimum of 30% and a maximum of 70% loan forgiveness.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

As the result of the Bond Bank issuing tax-exempt debt, it is required to prepare arbitrage rebate calculations for each series of tax-exempt bonds outstanding and remit payment to the Internal Revenue Service every five years. The Bond Bank contracts with an arbitrage consultant to maintain and prepare all rebate calculations that will be filed with the Internal Revenue Service.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Bond Bank's financial statements, which is comprised of the basic financial statements, notes to the financial statements, and required supplementary information. Since the Bond Bank operates under separate resolutions, the financial statements reflect individual fund activity.

#### **Basic Financial Statements**

The basic financial statements are designed to provide readers with a broad overview of the Bond Bank's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Bond Bank's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Bond Bank is improving or deteriorating. Net position increases when revenues exceed expenses.

The statement of revenues, expenses and changes in net position presents information showing how the Bond Bank's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods.

## **Notes to the Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

## **Supplementary Information**

In addition to the financial statements and the accompanying notes, this report also presents certain required supplementary information, as listed in the table of contents, to provide readers with a broader insight into the financial standing of the Bond Bank.

## **Financial Analysis**

Net position may serve, over time, as a useful indicator of a government's financial position. In the case of the Bond Bank, net position totaled \$706,525,216 at June 30, 2017. This represents an increase of \$12,727,565 or 1.8% over the previous fiscal year. Most of this increase is due to revenues exceeding expenses in the Sewer and Water Fund Groups as federal and state matching grants are received to fund revolving loans to eligible borrowers. Restricted net position totals \$633,831,139 and unrestricted net position totals \$72,283,777 and net investment in capital assets totals \$410,300 at June 30, 2017. The largest portion of the Bond Bank's net position is its investment in loans to governmental units and investments held by trustee included in the Sewer and Water Fund Group (provided by grants).

# MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

The Bond Bank's financial position and operations for the past two years are summarized below based on information included in the basic financial statements.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

Total short and long-term investments held by trustee at June 30, 2017 decreased \$5,929,867 or 1.3% from June 30, 2016. Investments had a net decrease in fair value of \$8,053,106 in 2017, as compared to a net increase of \$4,263,745 in 2016. The Bond Bank's investment portfolio is comprised of cash and cash equivalents, U.S. Government obligations (including treasury bills, notes, and bonds), U.S. Government-sponsored enterprises securities (i.e. FNMA, FMLMC), U.S. Treasury and U.S. Government-sponsored enterprise strips, guaranteed investment contracts and certificates of deposit. The Bond Bank's investments are carried at fair value. Unrealized gains and losses (primarily due to fluctuations in market interest rates) are recognized in the statements of revenues, expenses and changes in net position. A significant amount of the Bond Bank's investments are scheduled to mature to meet operating or debt service requirements and are normally held until maturity.

Loans (bond and equity) receivable from governmental units at June 30, 2017 increased \$58,184,437 or 4.2% from June 30, 2016. The current year increase is attributed to new loans provided by governmental units in excess of scheduled repayments, which was in large part attributed to the loans made with proceeds from the 2016C, 2017A and 2017B bonds. A total new loan commitment in 2017 of approximately \$217,155,000 was an increase of 66.3% from the 2016 commitments of approximately \$130,558,000.

Unamortized refunding benefits rebated to governmental units decreased \$186,304 or 52.2% from 2016. Unamortized deferred loss on refundings decreased \$6,194,822 or 15.2% from 2016. The decreases are due to current year amortization.

Undisbursed federal letter of credit payments decreased \$4,059,947 or 23.5% from fiscal year 2016. This decrease was the result of the Federal Environmental Protection Agency requiring that the States accelerate the spend down of the federal grants in prior fiscal years. The Bond Bank has achieved this goal and returned to a normal spend down pattern in fiscal year 2017, resulting in the decrease.

Undisbursed loans at June 30, 2017, decreased \$17,135,801 or 35.0% over fiscal 2016. This decrease is primarily a timing issue between when grants are awarded, loans are committed and related funds are disbursed.

Accrued interest rebate payable to the U.S. Government increased \$219,758 or 21.8% from fiscal 2016 primarily as a result of an increase in the investment return within the restricted reserve funds.

Due to State of Maine had a net decrease of approximately \$9,204,000 or 15.2% from 2016 to 2017. This decrease is the net result of an increase in undisbursed liquor revenues in the Liquor Operation Revenue Fund Group of \$3,483,000 and a decrease in undisbursed fees and taxes collected in the Transportation Infrastructure Fund Group of \$12,687,000 at June 30, 2017.

Accrued pension and other post-employment benefit liabilities increased \$526,391 or 49.7% in fiscal year 2017. A majority of the net increase is related to an increase of \$483,954 in the pension liability in 2017.

The Bond Bank's financial position improved as net assets increased 1.8% in fiscal year 2017. The Bond Bank continued to maintain a positive spread of income from investments, interest on loans to governmental units, fee revenue from State of Maine and grants over bond interest and operating expenses.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2017

The General Tax-Exempt Fund Group reimburses the Operating Fund for the annual budget approved by the Board of Commissioners.

Interest income from investments in 2017 decreased 13.2% from 2016. This decrease was primarily the result of a declining short-term interest rate environment for several years that resulted in the purchase of lower yield investments that has resulted in less interest earned, a decrease in average investment balances, and an increase in arbitrage rebate expense over fiscal 2016.

Program revenue from the State of Maine increased \$1,815,053 in fiscal year 2017 from fiscal year 2016 or 11.9% as a result of an increase of fees and taxes recognized in the Transportation Infrastructure Fund Group and Liquor Operation Revenue Fund Group that were used to make interest payments to the bond holders and reimburse the Bond Bank for proportionate share of operating expenses in 2017.

Portions of the loans made to eligible borrowers under the Drinking Water and Clean Water Revolving Loan Fund Programs may be forgiven if certain continuing criteria are met as the borrowers repay the loans. The total amount forgiven under these programs in 2017 was \$2,009,290 and \$1,275,578 within the Drinking Water and Clean Water Revolving Loan Fund Program, respectively. Also, portions of the loans made to school administrative units under the School Facilities Fund Group are forgiven at the time the loans are disbursed to the units. The amount forgiven within the School Facilities Fund Group in 2017 was \$2,972,320. Forgiveness expense will vary from year to year depending upon repayment and drawdown activity within the respective programs, and the amount of potential forgiveness loans that are made each year.

# **Requests for Information**

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

## 1. Organization

The Maine Municipal Bond Bank (the Bond Bank) is constituted as an instrumentality and a component unit of the State of Maine, organized and existing under and pursuant to M.R.S.A., Article 30-A, Title 5901 (the Act), as amended.

Under the Act, the Bond Bank is authorized to issue bonds for the purpose, among other things, of providing funds to enable it to lend money to counties, cities, towns, school administrative districts, community school districts, other quasi-municipal corporations or other eligible borrowers as designated by the Legislature (the governmental units) within the State of Maine. The provision of funds is accomplished by the direct purchase from such governmental units of their bonds, notes or evidence of debt payable from taxes, charges for services, grants or assessments. The Bond Bank is also authorized by the Legislature to issue bonds on behalf of the State of Maine to finance qualified transportation projects and payments to healthcare providers, to be repaid by taxes, fees and grant and liquor revenues.

The Bond Bank has an arrangement with related parties, Maine Health and Higher Educational Facilities Authority (MHHEFA) and Maine Governmental Facilities Authority (MGFA), whereby the Bond Bank allocates payroll and general overhead expenses from its operations to each Authority. The arrangement is approved annually by the Board of Commissioners through the budgetary approval process. At June 30, 2017, the General Operating Account has approximately \$55,000 of amounts due from these related parties, which is included in other assets in the accompanying statements of net position.

The General Operating Account consists of the operating revenues and expenses incurred by the Bond Bank in administering each of the resolutions under which it is operating. The funds and accounts of these resolutions have been grouped within each of the resolutions and fund groups as described below.

The General Operating Account also administers various loan and grant programs in conjunction with the State of Maine. Additionally, the General Operating Account from time-to-time will provide loans to municipalities (governmental units) experiencing financial difficulties. At June 30, 2017, there were no such loans outstanding.

General Tax-Exempt Fund Group: This fund group consists of funds and accounts established under the Bond Bank's General Bond Resolution adopted July 11, 1973, as amended and supplemented by the First Supplemental Resolution adopted September 20, 1977, the Second Supplemental Resolution adopted July 18, 1984, the Third Supplemental Resolution adopted May 7, 1993, the Fourth Supplemental Resolution adopted June 25, 1993 and the Fifth Supplemental Resolution adopted September 18, 2003. Under these resolutions, the Bond Bank issues bonds on which the interest is exempt from State of Maine income taxes and either exempt or non-exempt from federal income taxes. The proceeds on the bonds are used to make loans to local governmental units. In addition, the Bond Bank issues taxable bonds that receive a federal interest subsidy payment on each debt service payment date. The total federal interest subsidy received in 2017 was approximately \$920,100, and is included in interest on loans receivable from governmental units in the statement of revenues, expenses and changes in net position.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 1. Organization (Continued)

Transportation Fund Groups: These fund groups consist of funds and accounts established under the Bond Bank's Grant Anticipation General Bond Resolution adopted December 10, 2004 and the Bond Bank's Transportation Infrastructure General Bond Resolution adopted September 24, 2008. Under these resolutions, the Bond Bank issues bonds or notes exempt from Federal and State of Maine income taxes for the purpose of making advances to the State of Maine Department of Transportation to finance qualified transportation projects. The Grant Anticipation bonds or notes are to be repaid from future federal highway grant monies received by the State of Maine and the Transportation Infrastructure bonds or notes are to be repaid from a portion of future fees and taxes collected by the State of Maine, which are paid to the Bond Bank monthly or quarterly. In addition, the Bond Bank issues taxable bonds that receive a federal interest subsidy payment on each debt service payment date. The total federal interest subsidy received in 2017 was approximately \$385,200 and is included in program revenue from State of Maine in the Grant Anticipation Fund Group statement of revenues, expenses and changes in net position.

Qualified School Construction Fund Group: This fund group consists of funds and accounts established under the Bond Bank's General Bond Resolution adopted November 18, 2010. Under this resolution, the Bond Bank issues bonds which are exempt from State of Maine income taxes (but not federal income taxes) and makes loans to qualified governmental units. The bonds issued in this fund group receive a federal interest subsidy payment on each debt service payment date. The total federal interest subsidy received in 2017 was approximately \$1,553,800 and is included in interest on loans receivable from governmental units in the statement of revenues, expenses and changes in net position.

<u>Liquor Operation Revenue Fund Group</u>: This fund group consists of funds and accounts established under the Bond Bank's State Liquor Operation Revenue Bonds Resolution adopted August 21, 2013. Under this resolution, the Bond Bank issues bonds which are exempt from State of Maine income taxes (but not federal income taxes) for the purpose of making advances to the State of Maine to make payments to health care providers for services provided prior to December 1, 2012 under the MaineCare program. The bonds are to be repaid from a portion of future liquor revenues collected by the State Bureau of Alcoholic Beverages and Lottery Operations and transferred to the Bond Bank monthly.

Sewer and Water Fund Groups: These fund groups consist of funds and accounts established under the Bond Bank's Sewer and Water General Bond Resolution adopted February 7, 1990, as amended and supplemented by the First Supplemental Resolution adopted March 6, 1991, by the Second Supplemental Resolution adopted August 21, 1998, and by the Third Supplemental Resolution adopted March 14, 2003. Under this resolution, the Bond Bank issues bonds exempt from federal and State of Maine income taxes for the purpose of making revolving loans to governmental units to finance wastewater collection, treatment system or water supply system projects. Under the Drinking Water Fund Group, eligible borrowers consist of public water systems, which include municipalities, districts, private for-profit and non-profit water systems. Some of these projects may be financed by grants from the Environmental Protection Agency and the State of Maine under the State Revolving Fund Program and the Drinking Water State Revolving Loan Fund Program. The Operating Fund Group collects fees paid by eligible borrowers of the Sewer and Water Fund Groups and pays administrative expenses to the Bond Bank and other expenses permitted within the resolution that are not covered under the Sewer and Water Revolving Fund Groups. The fees earned are recorded in other income on the statement of revenues, expenses and changes in net position.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 1. Organization (Continued)

<u>School Facilities Fund Group</u>: This fund group consists of funds and accounts established under the Maine School Facilities Finance Program. Under this program, the Bond Bank receives appropriations from the State of Maine for the purpose of making loans to school administrative units for school repair and renovation. This fund group is not a part of any bond resolution.

## 2. Significant Accounting Policies

<u>Proprietary Fund Accounting</u>: As the Bond Bank's operations are financed and operated in a manner similar to private business enterprise, where the intent of the governing body is that the costs of providing goods or services is financed through user charges, it meets the criteria for an enterprise fund and, therefore, is accounted for under the accrual basis of accounting.

As discussed below, the Bond Bank complies with Governmental Accounting Standards Board (GASB) statements codified under GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidelines Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* (GASB 62).

The financial statements are prepared in accordance with GASB No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, No. 37, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus – an amendment of GASB Statement No. 21 and No. 34, and No. 38, Certain Financial Statement Note Disclosures.

<u>Accounting Method</u>: As stated above, the Bond Bank uses the accrual basis of accounting and, accordingly, recognizes revenues as earned and expenses as incurred.

<u>Federal Income Taxes</u>: It is the opinion of management that the Bond Bank is exempt from federal income taxes under Internal Revenue Code (IRC) Section 115, and that the Bond Bank has maintained its tax-exempt status and has no uncertain tax positions that require adjustment or disclosure in these financial statements. However, because the Bond Bank issues tax-exempt bonds, it is subject to the arbitrage rebate requirements of Section 148 of the IRC. Section 148 requires that any arbitrage profit earned on the proceeds of tax-exempt bonds issued after 1985 must be rebated to the federal government at least once every five years, with the balance rebated no later than 60 days after the retirement of the bonds.

Arbitrage rebate expense, which is presented as a reduction in the amount of interest income from investments, for the year ended June 30, 2017 was approximately \$856,800 in the General Tax-Exempt Fund Group. Arbitrage rebate expense in any other Fund Group for the year ended June 30, 2017 was not significant.

<u>Cash and Cash Equivalents</u>: The Bond Bank considers all checking and savings deposits and highly liquid investments with maturities of three months or less to be cash equivalents.

Cash includes funds held in interest bearing demand deposit and savings accounts, which, at times, may exceed amounts guaranteed by the Federal Deposit Insurance Corporation. The Bond Bank has not experienced any losses in such accounts and management believes the Bond Bank is not exposed to any significant risk of loss on cash.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 2. <u>Significant Accounting Policies (Continued)</u>

<u>Investments</u>: Investments are carried at fair value. See note 10. Changes in fair value are recorded as net increase or decrease in the fair value of investments on the statements of revenues, expenses and changes in net position. Interest earnings on long-term principal-only strips within the general tax-exempt fund group, transportation infrastructure fund group, clean water fund group, drinking water fund group and liquor operation revenue fund group of approximately \$3,487,400, \$216,900, \$37,400, \$2,600 and \$38,600, respectively, have been recorded as interest income from investments in 2017. Reserve fund investments that are not expected to be utilized to fund bond principal and interest payments until after June 30, 2018 have been classified as long-term.

<u>Undisbursed Federal Letter of Credit Payment</u>: The Bond Bank has received federal capitalization grants under the Sewer and Water Bond Resolution's State Revolving Fund Program. The grants have been made available in the form of letters of credit which can only be drawn upon when needed for administrative and actual construction related costs.

<u>Property and Equipment</u>: The building and equipment are recorded at cost less accumulated depreciation. The provision for depreciation has been computed using the straight-line method.

<u>Bond Discounts</u>, <u>Premiums and Issuance Costs</u>: Costs associated with issuing debt, which are generally paid by means of fees collected from governmental units, are expensed in the year incurred. Original issue discounts or premiums associated with bond issues are deferred and are being amortized to interest expense over the life of the bond using the bonds outstanding method. For each issue, bond discounts (premiums) are presented as a reduction of (increase to) the face amount of bonds payable (note 4).

<u>Deferred Outflows of Resources</u>: In addition to assets, the statement of net position will sometimes report a separate section for *deferred outflows of resources*. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Bond Bank has two significant items that qualify for reporting in this category. The first is a deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second deferred charge relates to recognition of the net pension liability and can include: the differences between expected and actual experience, change in assumptions, the net difference between projected and actual earnings on pension plan investments, and changes between the Bond Bank's contributions and proportionate share of contributions, and also Bond Bank contributions subsequent to the measurement date.

<u>Deferred Inflows of Resources</u>: In addition to liabilities, the statement of net position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The deferred inflows of resources recognized on the statement of net position and balance sheet relates to the net pension liability, which includes the net difference between projected and actual earnings on pension plan investments and changes in proportion and differences between the Bond Bank's contributions.

## NOTES TO FINANCIAL STATEMENTS

June 30, 2017

## 2. Significant Accounting Policies (Continued)

<u>Pension Plan</u>: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources, and pension expense, information about the fiduciary net position of the Participating Local District (PLD) Defined Benefit Plan and additions to/deductions from PLD's fiduciary net position have been determined on the same basis as they are reported by PLD. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Advanced Refundings: Advanced refundings are accounted for in accordance with the provisions of GASB Statement No. 23, Accounting and Financial Reporting for Refundings of Debt Reported by Proprietary Activities. In an advance refunding, the Bond Bank defeases bonds by placing cash received from the advanced refunding into an irrevocable escrow account to provide for all future debt service payments on defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Bond Bank's financial statements. Under GASB Statement No. 23, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense over the remaining life of the old debt, or the life of the new debt, whichever is shorter, using the bonds outstanding method. The unamortized portion of the deferred amount is reported as a deferred outflow of resources. Amortization for the year ended June 30, 2017 was approximately \$4,716,700, \$1,339,200, \$138,400 and \$600 for the General Tax Exempt Fund Group, Transportation Infrastructure Fund Group, Clean Water and Drinking Water Revolving Loan Fund Groups, respectively.

The Board of Commissioners determines what percentage, if any, of the gains, losses and economic benefits of advanced refundings gets passed on to the respective governmental units. Refunding benefits for governmental units are distributed to the governmental units as a one-time, upfront, rebate or as reduced debt service payments generally allocated over the remaining life of the refunded bonds. If the refunding benefits are distributed as a one-time, upfront, rebate, the refunding benefits are deferred and amortized over the life of the refunded bonds (which is equivalent to the life of the loans receivable) using a method which approximates the effective interest method. The gains, losses and economic benefits of advance refundings completed within the Transportation Fund Groups inure to the State of Maine and not the Bond Bank.

Construction Funds: The Transportation Fund Groups and Sewer and Water General Bond Resolution require bond proceeds to be deposited into construction funds. Upon deposit into the construction funds, advances receivable from the State of Maine or a loan receivable from the governmental unit is recorded and the construction funds are excluded from the statement of net position. The Bond Bank maintains control over disbursement of these funds until the project is complete. There are no bond proceeds held in Clean Water or Drinking Water Construction funds as of June 30, 2017. The Transportation Fund Groups has a balance of approximately \$50,000,000 of bond proceeds in construction funds as of June 30, 2017.

<u>Grant Revenue</u>: Grant revenue is recognized when the qualifying commitments have been made and all other grant requirements have been met.

<u>Interfund Transactions</u>: Quasi-external transactions are accounted for as revenues or expenses. Transactions that constitute reimbursements to a fund for expenses initially made from it that are properly applicable to another fund are recorded as expenses in the reimbursing fund and as reductions of expenses in the fund that is reimbursed.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

## 2. Significant Accounting Policies (Continued)

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

<u>Management Estimates</u>: The preparation of financial statements in conformity with generally accepted accounting principles requires the Bond Bank to make estimates and assumptions that affect the amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

<u>Total Columns</u>: The "total" columns contain the totals of the similar accounts of the various funds. Since the assets of the funds are restricted, the combination of the accounts, including assets therein, is for convenience only and does not indicate that the combined assets are available in any manner other than that provided for in the separate funds.

Recently Issued Accounting Pronouncements: In March 2016, GASB issued Statement No. 82, *Pension Issues* – an Amendment of GASB Statements No. 67, No. 68, and No. 73. The objective of this statement is to improve consistency in the application of pension accounting and financial reporting requirements by addressing certain issues that have been raised with respect to Statements No. 67, No. 68, and No. 73. The statement clarifies that for employers who provide pensions through pension plans administered through trusts that meet the criteria in GASB Statement 68, the measure of payroll that is required to be presented in schedules of supplementary information should be covered payroll. Covered payroll is the payroll on which contributions to a pension plan are based. The Statement also clarifies that a deviation from Actuarial Standards in determining the total pension liability is not in conformity with previous GASB Statements related to pensions. The Statement also clarifies how payments made by an employer to satisfy contribution requirements identified by pension plan terms as plan member contributions should be classified. The requirements of this statement are effective for financial statements for periods beginning after June 15, 2016. The Bond Bank adopted this statement in its fiscal year ended June 30, 2017. The adoption of this statement had no impact on the Bond Bank's 2017 financial statements.

In June 2015, GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The object of this statement is to improve accounting and financial reporting by governmental entities for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. The Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. It also identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to actuarial present value, and attribute present value to periods of employee service. The Statement also expands disclosures and required supplementary information about OPEB plans. The requirements of this statement are effective for financial statements for periods beginning after June 15, 2017, with early adoption permitted. The Bond Bank is currently evaluating the impact of the pending adoption on its financial statements.

## NOTES TO FINANCIAL STATEMENTS

The investments of the General Operating Account are to provide income to supplement administration of current programs, provide a source of capital for new programs and to reduce susceptibility to unanticipated expenditures or revenue shortfalls. Relative to the investment of bond funds, as a means of limiting its exposure to fair value losses arising from rising interest rates, the Bond Bank's investment policy provides that investment maturities be closely matched with future bond principal and interest requirements, which are the primary use of invested assets. Further, guaranteed investment contracts, which maturities are also closely matched with future bond principal and interest requirements, contain provisions that allow the Bond Bank to terminate individual contracts at par. The Bond Bank's general practice has been to hold most debt securities to their maturity, at which point the funds are needed to make required bond principal and interest payments for the respective resolutions. The following table provides information on future maturities of the Bond Bank's investments in guaranteed investment contracts, U.S. Government obligations, U.S. Government-sponsored enterprises, U.S. Treasury Strips, U.S. Government-sponsored enterprise strips and certificates of deposit as of June 30, 2017:

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Bond Bank will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Bond Bank's investments are primarily held by U.S. Bank and Bangor Savings Bank. Management of the Bond Bank is not aware of any issues with respect to custodial credit risk at either bank at June 30, 2017.

For an investment, credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Bond Bank. Credit risk is measured by the credit quality ratings of issuers as described by nationally recognized rating organizations. The Bond Bank's investment policy limits its investments to those with high credit quality, such as U.S. Treasury Obligations and U.S. Government-sponsored enterprises securities, as rated by rating agencies such as Moody's Investor Service or Standard and Poor's, or guaranteed investment contracts backed by high credit quality banks and insurance companies. The Bond Bank requires providers of guaranteed investment contracts to have and maintain a long-term unsecured debt obligation rating or claims paying ability equal to or greater than "AA" or "Aa". If the long-term rating falls below these thresholds, the provider must either (i) pledge additional collateral to restore the rating or (ii) permit the Bond Bank to withdraw the funds at par and without penalty.

At June 30, 2017, the rating for investments in U.S. Treasury Obligations and U.S. Government-sponsored enterprise securities (includes FHLMC, FHLB, FFCB, FNMA) was AA+. At June 30, 2017, the Bond Bank's guaranteed investment contracts within the General Tax Exempt Fund Group and Revolving Loan Fund Groups are primarily with three institutions, all of which are AA rated or better.

## NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 3. <u>Investments Held By Trustee and Operating Investments (Continued)</u>

The Bond Bank has invested some of its long-term funds in U.S. Treasury and U.S. Government-sponsored enterprise principal-only strips in order to maximize yields coincident with cash needs for operations, debt service, and arbitrage. These securities are similar to zero coupon bonds which are purchased deeply discounted, with the Bond Bank receiving its only repayment stream at maturity; therefore, they are sensitive to interest rate changes. These securities are reported at fair value in the statements of net position. The fair value of these investments is \$112,197,622 at June 30, 2017.

Trustee held cash equivalents at June 30, 2017 consist primarily of money market funds secured by short-term U.S. Treasury obligations.

The cash equivalents of the Bond Bank's General Operating Account at June 30, 2017 consist entirely of money market funds secured by short-term U.S. Treasury obligations.

# 4. Bonds Payable

Total General Tax-Exempt Fund Group Bonds payable, with original interest rates, consist of the following at June 30, 2017:

	Original <u>Maturity</u>	Original Amount <u>Issued</u>	Amount Outstanding June 30, 2017

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

## 4. Bonds Payable (Continued)

Some bonds contain provisions for prepayment at the Bond Bank's option. All bonds within the General Tax-Exempt Fund Group, Qualified School Construction Fund Group, and Sewer and Water Fund Groups are secured by the payment stream of loans receivable from governmental units.

Reserve funds are generally funded by selling additional bonds. The monies in the reserve funds shall be held and applied solely to the payment of the interest and principal of the reserve fund bonds as they become due and payable, ultimately resulting in the retirement of the reserve fund bonds. In the event of a deficiency in an interest and/or principal payment from the governmental units, transfers can be made from the general reserve funds, until they are depleted. In addition, the General Tax-Exempt Fund Group also has a supplemental reserve fund to cover shortfalls in excess of the available general reserve funds within the Fund Group. If this creates a deficiency in the required amount of the reserve funds, the State can annually appropriate and replenish the reserve funds. This feature is referred to as "Moral Obligation" and is only available to debt issued by the General Tax-Exempt Fund Group, Liquor Operation Revenue Fund Group, and Sewer and Water Fund Groups. Except for deficiencies between the Clean Water and Drinking Water Revolving Loan Fund Groups, reserve funds of one fund group cannot be used to cover deficiencies of another fund group. In order to recover any shortfall covered by the reserve, the Bond Bank has the ability to attach certain State funds due to the governmental units. Additionally, the Bond Bank has the option to utilize funds available within the General Operating Account as necessary.

## 5. Reserve Funds

Each of the following resolutions requires the Bond Bank to set up reserve funds as follows:

General Tax-Exempt Fund Group: The Bond Bank is required to maintain a debt service reserve which is equal to the maximum amount of principal installments and interest maturing and becoming due in any succeeding calendar year on all governmental unit loan obligations then outstanding as of such date of calculation. At June 30, 2017, the required debt service reserve was approximately \$117,793,000.

In addition, the Bond Bank maintains the Special Reserve Account balance of \$1,971,000 and the Supplemental Reserve Fund General Reserve Account principal balance of \$2,700,000. These reserves represent segregated net position and are pledged to the payment of the principal or interest on the outstanding bonds of the General Tax-Exempt Fund Group if a deficiency occurs. At June 30, 2017, the fair value of the reserve fund assets totaled approximately \$147,090,000, which exceeded the required reserves by approximately \$24,626,000.

<u>Transportation Infrastructure Fund Group</u>: The Bond Bank is required to maintain a capital reserve which is equal to 50% of the maximum amount of principal installments and interest maturing and becoming due in any succeeding fiscal year on all bonds payable within the fund group as of such date of calculation. At June 30, 2017, the required capital reserve was approximately \$10,135,000 and the fair value of the capital reserve assets totaled approximately \$11,170,000, which exceeded the required reserves by approximately \$1,035,000.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

## 5. Reserve Funds (Continued)

<u>Sewer and Water Fund Groups</u>: The Bond Bank is required to maintain a capital reserve which is equal to the maximum amount of principal installments and interest maturing and becoming due in any succeeding calendar year on all government unit loan obligations within the fund groups as of such date of calculation. At June 30, 2017, the required capital reserve was approximately \$3,636,000 and the fair value of the capital reserve assets totaled approximately \$3,738,000, which exceeded the required reserves by approximately \$102,000.

<u>Liquor Operation Revenue Fund Group</u>: The Bond Bank is required to maintain a capital reserve which is equal to the maximum amount of principal installments and interest maturing and becoming due in any succeeding fiscal year on all outstanding bonds within the fund group as of the date of calculation. At June 30, 2017, the required capital reserve was approximately \$26,844,000 and the fair value of the capital reserve assets totaled approximately \$30,238,000, which exceeded the required reserves by approximately \$3,394,000.

## 6. Sewer and Water Revolving Fund Group

Pursuant to the Sewer and Water General Bond Resolution adopted February 7, 1990, the Bond Bank receives capitalization grants from the Environmental Protection Agency which it is required to match with twenty percent matching funds, which primarily come from State of Maine grants. The funds are designated to be used for revolving loans to governmental units to finance wastewater collection, treatment systems, or water supply system projects. Federal law permits the state to match the federal grants with any combination of funding from state bonds, state appropriations, revenue bonds issued under the program, or from other state sources. State issued bonds and state general fund appropriations have been used to provide the majority of state matching funds for both the Clean Water and Drinking Water programs since inception. In addition to those funds, the Drinking Water program has utilized interest earnings on previously issued state matches (which qualifies as other state funding) in 2001, 2004 and 2012 to provide additional matching for the program. The total of all interest earnings on matches that have been deposited into the Drinking Water program since inception is \$563,010.

In 2009, the Bond Bank was awarded *American Recovery and Reinvestment Act* (ARRA) grants for use in its Sewer and Water Revolving Fund Group. ARRA grants were for purposes consistent with the intent of the Sewer and Water Revolving Fund Group, including construction of wastewater treatment facilities, drinking water facilities and associated infrastructure, green infrastructure, nonpoint source projects, estuary projects and program administration. The grants did not contain any State of Maine matching provisions.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 6. Sewer and Water Revolving Fund Group (Continued)

Net position consists of the following at June 30, 2017:

	Clean	Drinking
	Water	Water
Reserved for revolving loans:		
Grants received from Environmental Protection Agency		
under existing capitalization grant program	\$ 291,546,659	\$ 174,510,900
Grants received from Environmental Protection Agency		
under ARRA	30,336,800	19,500,000
Other administrative grants received from Environmental		
Protection Agency	1,347,010	132,030
Hardship grants received from Environmental Protection Agency	643,800	_
Grants received from State of Maine	58,363,362	34,339,170
Other amounts reserved (utilized) for program loans and costs	42,190,496	(44,827,191)
	424,428,127	183,654,909
Unreserved amounts available	124,348	267,490
Net position at June 30, 2017	\$ <u>424,552,475</u>	\$ <u>183,922,399</u>

Under the provisions of the grants from the Environmental Protection Agency (including ARRA grants), the Bond Bank is allowed administrative costs of up to 4% of the total grants awarded. In addition, the Bond Bank receives other grants from the Environmental Protection Agency that are used solely for administrative purposes. The total administrative costs allowed at June 30, 2017 are \$14,222,348 (clean water) and \$7,629,772 (drinking water), with \$14,098,000 and \$7,362,282, respectively, expended to date. The remaining amount of \$124,348 in the Clean Water Revolving Loan Fund Group and \$267,490 in the Drinking Water Revolving Loan Fund Group can be used for future administrative costs. The Bond Bank also charges annual administrative fees to borrowers that are used to administer the programs.

Portions of the loans made to eligible borrowers under the Drinking Water Revolving Loan Fund Program may be forgiven if certain continuing criteria are met, including that the borrower continues to make debt service payments, continues to operate the project in compliance with laws and regulations, and does not dispose of or discontinue the project. The Bond Bank has loaned approximately \$36,150,000 at June 30, 2017, that, upon fulfillment of these requirements by the borrowing unit, could be forgiven at some future point. For purposes of the basic financial statements, the Bond Bank recognizes forgiveness expense within these funds as the related loans are repaid. The total amount forgiven under these programs in 2017 was \$2,009,290.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

## 6. Sewer and Water Revolving Fund Group (Continued)

During fiscal 2009, the Bond Bank and the State of Maine Department of Environmental Protection implemented a joint rule change in the Clean Water Revolving Loan Fund program which allows the Bond Bank, after consultation with the State of Maine Department of Environmental Protection, to set interest rates at any level, including 0%. It also allows portions of loans made to eligible borrowers under the Clean Water Revolving Loan Fund Program to be forgiven if certain continuing criteria are met (similar to criteria in the Drinking Water Revolving Loan Fund Program). The Bond Bank has loaned approximately \$14,553,000 at June 30, 2017 under the Clean Water Revolving Loan Fund Program that, upon fulfillment of these requirements by the borrowing unit, could be forgiven at some future point. For purposes of the basic financial statements, the Bond Bank recognizes forgiveness expense within these funds as the related loans are repaid. The total amount forgiven under these programs in 2017 was \$1,275,578.

Within the Clean Water Revolving Loan Fund Group, the Bond Bank is participating in a linked deposit loan program with local banks to encourage environmentally sound logging practices. Under the program, local banks make loans to eligible borrowers, at their normal terms, to purchase equipment. The Bond Bank subsidizes the interest on the loans by investing in a certificate of deposit at the respective bank in the same amount as the loan, at a reduced interest rate which is the subsidy to the bank. The maximum that potentially could be passed on as a subsidy to the loan interest is 2%, which depends on the current market interest rate for the certificate of deposit. Any interest that is earned above the 2% subsidy would be returned to the Clean Water Revolving Loan Program.

## 7. School Facilities Fund Group

Pursuant to State law, the Bond Bank receives grants from the State of Maine which are designated to be used for interest-free revolving loans to school administrative units for the renovation and maintenance of school facilities. Net position consists of the following:

Reserved for revolving loans:	
Grants received from State of Maine	\$ 100,511,537
Loans forgiven	(86,383,306)
Other amounts reserved for program loans and costs	6,949,043
	21,077,274
Unreserved amounts available	1,236,577
Net position at June 30, 2017	\$ <u>22,313,851</u>

Under the provisions of the grants, the Bond Bank is allowed administrative costs up to 0.5% of the highest fund balance in any fiscal year. The total administrative costs allowed through June 30, 2017 are \$3,935,503, with \$2,698,926 expended to date. The remaining amount of \$1,236,577 can be used for future administrative costs.

Portions of the loans made to school administrative units from the School Facilities Fund Group are forgiven. For purposes of the general purpose financial statements, the Bond Bank recognizes forgiveness expense within this fund at the time the loans are disbursed to the school administrative unit. This accounting treatment differs from the treatment within the Drinking Water and Clean Water Revolving Loan Funds due to the fact that there are no relevant continuing criteria that would require recognition of the forgiven amount as the related loans are repaid. The total amounts forgiven under this program in 2017 were \$2,972,320.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 8. <u>Cost Sharing Multiple-Employer Defined Benefit Pension Plan and Other Post-Employment</u> Benefits

# **Defined Benefit Pension Plan**

## General Information about the Pension Plan

Plan description – The Bond Bank participates in the Participating Local District Defined Benefit Plan (the PLD Plan), a multiple-employer cost sharing plan administered by the Maine Public Employees Retirement System (MEPERS). All full-time employees are eligible to participate in the PLD Plan.

The MEPERS is established and administered under the Maine State Retirement System Laws, Title 5 M.R.S.A., C. 421, 423 and 425. The MEPERS issues a publicly available financial report that includes financial statements and required supplementary information for the PLD Plan. That report may be obtained by writing to the Maine Public Employees Retirement System, 46 State House Station, Augusta, Maine 04333-0046

Benefits provided – Benefit terms are established in Maine statute; in the case of the PLD Plan, an advisory group, also established by statute, reviews the terms of the plan and periodically makes recommendations to the Legislature to amend the terms. The Plan provides defined retirement benefits based on members' average final compensation and service credit earned as of retirement. Vesting occurs upon the earning of five years of service credit. Members who retire at or after age 60 (normal retirement age) are entitled to an annual retirement benefit in an amount equal to 2% of the average of their highest three year earnings for each year of credited service. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below his/her normal retirement age at retirement. The Plan also provides disability and death benefits which are established by statute for state employee members and by contract with other participating employees under applicable statutory provisions.

Upon termination of membership, members' accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and membership rights. The annual rate of interest credited to members' accounts is set by MEPERS' Board of Trustees and is currently 5.0%.

Contributions – Retirement benefits are funded by contributions from members and employers and by earnings on investments. Disability and death benefits are funded by employer normal cost and by earnings on investments. In accordance with State statute, members were required to contribute 7.5% of their annual covered salary to the Plan in fiscal 2017. The Bond Bank's payroll for the year ended June 30, 2017 for employees covered by the Plan was approximately \$1,120,000, which was 100% of payroll. The Bond Bank is required to contribute at an actuarially determined rate that, when combined with the contributions of other reporting entities, will be adequate to fund the Plan.

The contribution rate is determined using an entry age normal actuarial funding method for retirement benefits and a term cost method for ancillary benefits. The Bond Bank may be required to make contributions to fund the Plan's pooled unfunded actuarial liability, if any. The contribution requirements of the PLD Plan members and the Bond Bank are established by and may be amended by the State legislature. The contributions made for the years ended June 30, 2017, 2016 and 2015 were \$106,367, \$101,538 and \$85,296 (employer) and \$89,572, \$85,566 and \$77,396 (employee), respectively.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 8. <u>Cost Sharing Multiple-Employer Defined Benefit Pension Plan and Other Post-Employment Benefits (Continued)</u>

# Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to the Pension Plan

At June 30, 2017, the Bond Bank reported a liability of \$1,149,720 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Bond Bank's proportionate share of the net position liability was based on a projection of the Bond Bank's long-term share of contributions to the pension plan relative to the projected contributions of all participating local districts, actuarially determined. At June 30, 2016, the Bond Bank's proportion was 0.22%, which was an increase of 0.01 from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, pension expense was approximately \$226,300 of which approximately \$145,200 was recorded within the General Operating Account, approximately \$50,300 was allocated to other funds and approximately \$30,800 was allocated to related parties (MHHEFA and MGFA). At June 30, 2017, the Bond Bank reported deferred outflows of resources and deferred inflows of resources related to the pension plan from the following sources:

	Deferred Outflows of <u>Resources</u>	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 13,938	\$ 73,949
Net difference between projected and actual earnings		
on pension plan investments	424,859	176,821
Changes in proportion and differences between Bond Bank		
contributions and proportionate share of contributions	48,259	1,064
Changes in assumptions	123,252	_
Bond Bank contributions subsequent to the measurement date	106,367	
Total	\$ <u>716,675</u>	\$ <u>251,834</u>

The above total of \$106,367 reported as deferred outflows of resources related to the pension plan resulting from Bond Bank contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the pension plan will be recognized as an increase in pension expense as follows:

#### Year Ended June 30

2018	\$ 85,622
2019	58,217
2020	148,371
2021	66,264

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 8. <u>Cost Sharing Multiple-Employer Defined Benefit Pension Plan and Other Post-Employment Benefits (Continued)</u>

## **Actuarial Methods and Assumptions**

The total pension liability in the June 30, 2016 actuarial valuation was determined using the following methods and assumptions, applied to all periods included in the measurement:

Actuarial Cost Method – The Entry Age Normal actuarial funding method is used to determine costs. Under this funding method, the total employer contribution rate consists of two elements, the normal cost rate and the unfunded actuarial liability (UAL) rate.

The individual entry age normal method is used to determine liabilities. Under the individual entry age normal method, a normal cost rate is calculated for each member. This rate is determined by taking the value, as of age at entry into the plan, of the member's projected future benefits, and dividing it by the value, also as of the member's entry age, of his/her expected future salary. The normal cost for each member is the product of his/her pay and his/her normal cost rate. The normal cost for the group is the sum of the normal costs for all members. Experience gains and losses, i.e., decreases or increases in liabilities and/or in assets when actual experience differs from the actuarial assumptions, affect the unfunded actuarial accrued liability.

Asset Valuation Method – The actuarial valuation employs a technique for determining the actuarial value of assets which dampens the swing in the market value. The specific technique adopted in this valuation recognizes in a given year one-third of the investment return that is different from the actuarial assumption for investment return.

Amortization – The net pension liability is amortized on a level percentage of payroll using a method where a separate twenty-year closed period is established annually for the gains or losses for that year.

Significant actuarial assumptions employed by the actuary for funding purposes as of June 30, 2016 and June 30, 2015 are as follows:

Investment Rate of Return -6.875% per annum for the year-ended June 30, 2016 and 7.125% for the year-ended June 30, 2015, compounded annually.

Salary Increases, Merit and Inflation – 2.75% to 9.0% per year for the year ended June 30, 2016 and 3.5% to 9.5% for the year ended June 30, 2015.

Mortality Rates – For active members and non-disabled retirees, the RP2014 Total Dataset Healthy Annuitant Mortality Tables were used for the year ended June 30, 2016 and the RP2000 Tables projected forward to 2015 using Scale AA are used for the year ended June 30, 2015.

Cost of Living Benefit Increases – 2.20% per annum for the year-ended June 30, 2016 and 2.55% per annum for the year-ended June 30, 2015.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 8. <u>Cost Sharing Multiple-Employer Defined Benefit Pension Plan and Other Post-Employment Benefits (Continued)</u>

The long-term expected rate of return on pension plan assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016 are summarized in the following table.

<u>Asset Class</u>	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
U.S. equities	20%	5.7%
Non-U.S. equities	20	5.5
Private equity	10	7.6
Real assets:		
Real estate	10	5.2
Infrastructure	10	5.3
Hard assets	5	5.0
Fixed income	25	2.9

Discount Rate - The discount rate used to measure the collective total pension liability was 6.875% for 2016 (7.125% was used for 2015). The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following table shows how the Bond Bank's proportionate share of the net pension liability as of June 30, 2016 would change if the discount rate used was one percentage point lower or one percentage point higher than the current rate.

	Current				
	1% Decrease	Discount Rate	1% Increase		
Bond Bank's proportionate share of the					
net pension liability	\$1,908,328	\$1,149,720	\$435,518		

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 8. <u>Cost Sharing Multiple-Employer Defined Benefit Pension Plan and Other Post-Employment Benefits (Continued)</u>

Changes in net pension liability are recognized in pension expense for the year ended June 30, 2017 with the following exceptions:

Differences between expected and actual experience – The difference between expected and actual experience with regard to economic or demographic factors were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. For the 2016 and 2015 actuarial valuation, this was four years.

Differences between Projected and Actual Investment Earnings — Differences between projected and actual investment earnings were recognized in pension expense using a straight-line amortization method over a closed five-year period. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

Changes in Assumptions – Differences due to changes in assumptions about future economic or demographic factors or other inputs were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members. The actuarial assumptions for the year ended June 30, 2016 valuation were based on the results of an actuarial experience study for the period of June 30, 2012 through June 30, 2015. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions — Differences resulting from a change in proportionate share of contributions and differences between total employer contributions and the employer's proportionate share of contributions were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members. Differences between total employer contributions and the employer's proportionate share of contributions may arise when an employer has a contribution requirement for an employer specific liability. This is not applicable to the Bond Bank.

## Other Post-Employment Benefits (OPEB)

*Plan Description*: The Bond Bank sponsors a post-retirement health care benefit plan (the Plan). The Plan provides supplemental health care benefits to any full-time employee with ten or more years of employment who retires from the Bond Bank and has reached the age of 65 (Medicare eligible retirement age). The Bond Bank is a member of the Maine Municipal Association and participates in an agent multiple-employer postemployment healthcare plan administered by the Maine Municipal Employees Health Trust. The Bond Bank may terminate the Plan at its option.

Funding Policy: The post-employment healthcare benefits are currently being funded on a pay-as-you-go basis (the Bond Bank paid approximately \$14,000 in 2017). No assets have been segregated and restricted to provide post-employment benefits.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 8. <u>Cost Sharing Multiple-Employer Defined Benefit Pension Plan and Other Post-Employment Benefits (Continued)</u>

Annual OPEB Cost: For 2017, the Bond Bank's annual OPEB cost (expense) of \$56,367 for the Plan approximated the Annual Required Contribution (ARC). The Bond Bank's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2017, 2016 and 2015 were as follows:

Fiscal		Percentage of	Net
Year	Annual	Annual OPEB	OPEB
<u>Ended</u>	OPEB Cost	Cost Contributed	<u>Obligation</u>
6/30/17	\$56,367	0%	\$434,942
6/30/16	39,929	0	392,507
6/30/15	39,852	0	366,297

Funded Status and Funding Progress:

For the year-end June 30, 2017, the Bond Bank's OPEB funding progress is as follows:

Actuarial	Actuarial	Actuarial	Unfunded			UALL as a
Valuation	Value	Accrued	ALL	Funded	Covered	Percentage of
Date	of Assets	Liability (AAL)	(UAAL)	Ratio	<u>Payroll</u>	Covered Payroll
1/1/2017	\$ -	\$743,249	\$743,249	0%	\$1,120,000	66.4%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions: Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2017 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 4.0 percent discount rate and an annual healthcare cost trend rate of 8.5 percent initially, reduced by decrements to an ultimate rate of 4.0 percent after fifteen years. Mortality rates are based on 104% and 120% of the RP-2014 Total Dataset Healthy Annuitant Mortality Table, respectively, for males and females, using the RP-2014 Total Dataset Employee Mortality Table for ages prior to start of the Healthy Annuitant Mortality Table, both projected from the 2006 base rates using the RPEC-2015 model, with an ultimate rate of 0.85% for ages 20-85 grading down to an ultimate rate of 0.00% for ages 111-120, and convergence to the ultimate rate in the year 2020. As prescribed by the Trust, revised termination rates were taken from the assumptions for the Maine State Retirement Consolidated Plan for Participating Local Districts at June 30, 2016. The Plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open or rolling amortization period.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

# 9. Refunding Issues

In periods of declining interest rates, the Bond Bank has refunded certain of its bond obligations, reducing aggregate debt service. Where allowed, the Bond Bank retires outstanding bonds prior to their contractual maturity. In other cases, the proceeds of the refunding bonds are principally used to purchase U.S. Treasury obligations, the principal and interest on which will be sufficient to pay the principal and interest, when due, of the in-substance defeased bonds. The U.S. Treasury obligations are deposited with the trustees of the in-substance defeased bonds. The Bond Bank accounts for these transactions by removing the U.S. Treasury obligations and liabilities for the in-substance defeased bonds from its records, and records a deferred amount on refunding.

At June 30, 2017, the remaining balances of the General Tax-Exempt Fund Group in-substance defeased bonds total approximately \$196,675,000.

At June 30, 2017, the remaining balances of the Transportation Infrastructure Fund Group in-substance defeased bonds total approximately \$56,770,000.

## 10. Fair Value Measurements

The Bond Bank generally holds investments until maturity to pay reserve fund bonds as they become due, so fluctuations in the fair value of the investments have a minimal long-term effect. The Bond Bank categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Bond Bank has the ability to access.

Level 2 – Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2017

## 10. Fair Value Measurements (Continued)

Assets and liabilities measured at fair value are based on one or more of three valuation techniques. The three valuation techniques are as follows:

- *Market approach* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- Cost approach Amount that would be required to replace the service capacity of an asset (i.e., replacement cost); and
- *Income approach* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques).

Each asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Cash equivalents: Fair value approximates the relative book values at June 30 as these financial instruments have short maturities.

Guaranteed Investment Contracts: Fair value is based on the discounted value of contractual cash flows. The discount rate is estimated using rates currently offered for similar instruments with comparable maturities and creditworthiness of the issuer.

*Certificates of deposit:* Fair value is based on the discounted value of contractual cash flows. The discount rate is estimated using rates currently offered for similar maturities.

U.S. Government obligations, U.S. Treasury strips, U.S. Government-sponsored enterprises and U.S. Government-sponsored enterprises strips: Fair value is determined based on quoted prices in active markets, or by using broker or dealer quotations, external pricing providers, or alternative pricing sources with reasonable levels of price transparency.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Bond Bank believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Bond Bank's assets at fair value as of June 30, 2017:

General Operating Account		Level 1		Level 2	Level 3		<u>Total</u>
Cash equivalents U.S. Government-sponsored enterprises	\$_	1,172,522	\$_		\$ _ 	\$_	1,172,522 22,808,846
