STATE OF  
MAINE

FINANCIAL  
REPORT

For Period  
July 1, 1944 to June 30, 1945

Maine. DEPARTMENT OF FINANCE  
Bureau of Accounts and Control

J. J. ALLEN, STATE CONTROLLER

98111

J. J. ALLEN  
STATE CONTROLLER

State of Maine  
Department of Finance  
Bureau of Accounts and Control  
Augusta

December 10, 1945

To Governor Horace Hildreth and  
Members of the Executive Council

Gentlemen:

We submit herewith the annual report of the State Controller showing the financial condition of the several funds of the State of Maine as of June 30, 1945, and their financial operations for the year ended June 30, 1945.

It is hoped that the charts and graphic illustrations will contribute much to making the report more readable and understandable.

*J. J. Allen*  
State Controller

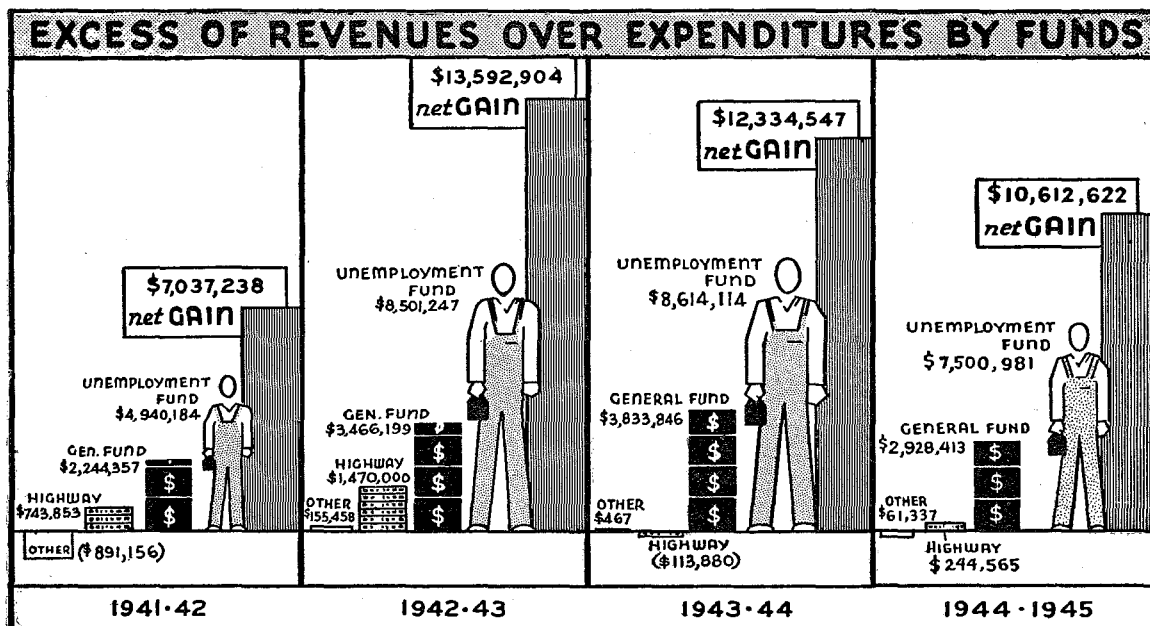

# GENERAL COMMENTS ON MAINE'S OPERATING FUNDS

## Summary

The wartime pattern of revenues and expenditures which became apparent two years ago continued in the year just ended. The war economy brought abnormally high revenues, particularly from liquor and the employer's tax for unemployment compensation and abnormally low expenditures particularly for highways, unemployment compensation and general relief. The net profits from liquor and beer of approximately \$6,700,000 were slightly in excess of last year's record earnings. Although, due to the experience rating law which became effective on July 1, 1943 and a general decline in payrolls, revenue from the employer's tax for unemployment compensation dropped over \$1,000,000 from the previous year, it remained at a high level and continued to be the largest single source of revenue. Grants from the Federal Government decreased approximately \$400,000, largely reflecting the curtailment of the highway construction program. Cigarette tax revenue declined approximately \$230,000 from last year reflecting the wartime shortage of cigarettes. The gasoline tax and motor vehicle registrations showed unexpected increases of approximately \$330,000 and \$95,000 respectively.

The increases in expenditures were fairly general, the largest increases being in General Administration in the amount of \$267,757 reflecting the expenditures for the legislative session and Health, Welfare and Charities in the amount of \$749,423, largely reflecting increased expenditures for Old Age Assistance. Unemployment compensation payments increased \$245,152. The largest decrease in expenditures was \$375,000 in Debt Retirement.

The excess of revenues over expenditures was \$7,500,891 in the Unemployment Compensation Fund; \$2,928,413 in the General Fund; \$244,565 in the Highway Fund; and \$103,839 in Other Special Revenue Funds. Deficits of toll bridges and the Kennebec Bridge Sinking Fund are discussed under Public Service Enterprises.

In the case of the General Fund, the excess of revenues over expenditures in the amount of \$2,928,413 increased the Unappropriated Surplus at June 30, 1945 to \$5,767,455, the largest it has been for many years. Effective as of July 1, 1945, the Legislature has set aside \$990,000 of this amount to increase the Post War Public Works Reserve to \$1,940,000 and has made appropriations totaling \$1,854,476 for capital or other non-recurring expenditures which will reduce this surplus, as of July 1, 1945, to \$2,922,979.

### State Indebtedness

There were no temporary loans during the year and no bonds were issued. \$1,939,000 of bonds outstanding were retired, cutting the outstanding bonded indebtedness to \$19,052,500 at June 30, 1945, the lowest amount at any year end since 1928. In the past four years, the bonded debt of the State has been reduced \$9,056,000 or approximately 32%. During the past year, the ninety-second Legislature authorized the reissue, during the current biennium ending June 30, 1947, of \$3,453,000 of highway and bridge bonds for the purpose of raising funds to match Federal aid funds for the construction of State highways and bridges. The amount authorized for reissue equals the amount of bonds maturing during the biennium.

Under legislation passed by the ninety-first Legislature, the State can invest in short term U. S. Government bonds cash not needed to meet current obligations. At the year end, \$9,150,000 had been invested in U. S. Government bonds having a maturity of less than one year. This investment produced an income of \$82,464 during the year which these funds would not otherwise have had. In addition, \$2,960,150 of Trust Fund investments are in longer term War Bonds. The State has thus been able to assist substantially in war financing as well as to make profitable use of funds temporarily not needed.

### Earmarked Revenues

Past years' reports discussed the earmarking of revenues and recommended that legislation be directed toward the elimination of earmarking specific revenues for special purposes. The ninety-second Legislature unearmarked several revenues so that they now credit directly to the General Fund to be available for general use. The larger revenues unearmarked were those formerly earmarked for the Department of Education and the Cigarette Tax.

### Accounting Principles

This report is prepared on a modified accrual basis of accounting. The revenues, except interest, of all funds are accounted for on an accrual basis; expenditures include all invoices applicable to the year's operations received through July 19. Known major commitments are provided for through the Reserve for Authorized Expenditures. Interest revenues and expenditures are recorded as received or paid. Inventories and fixed assets are not recorded except in certain Public Service Enterprises and Working Capital Funds.

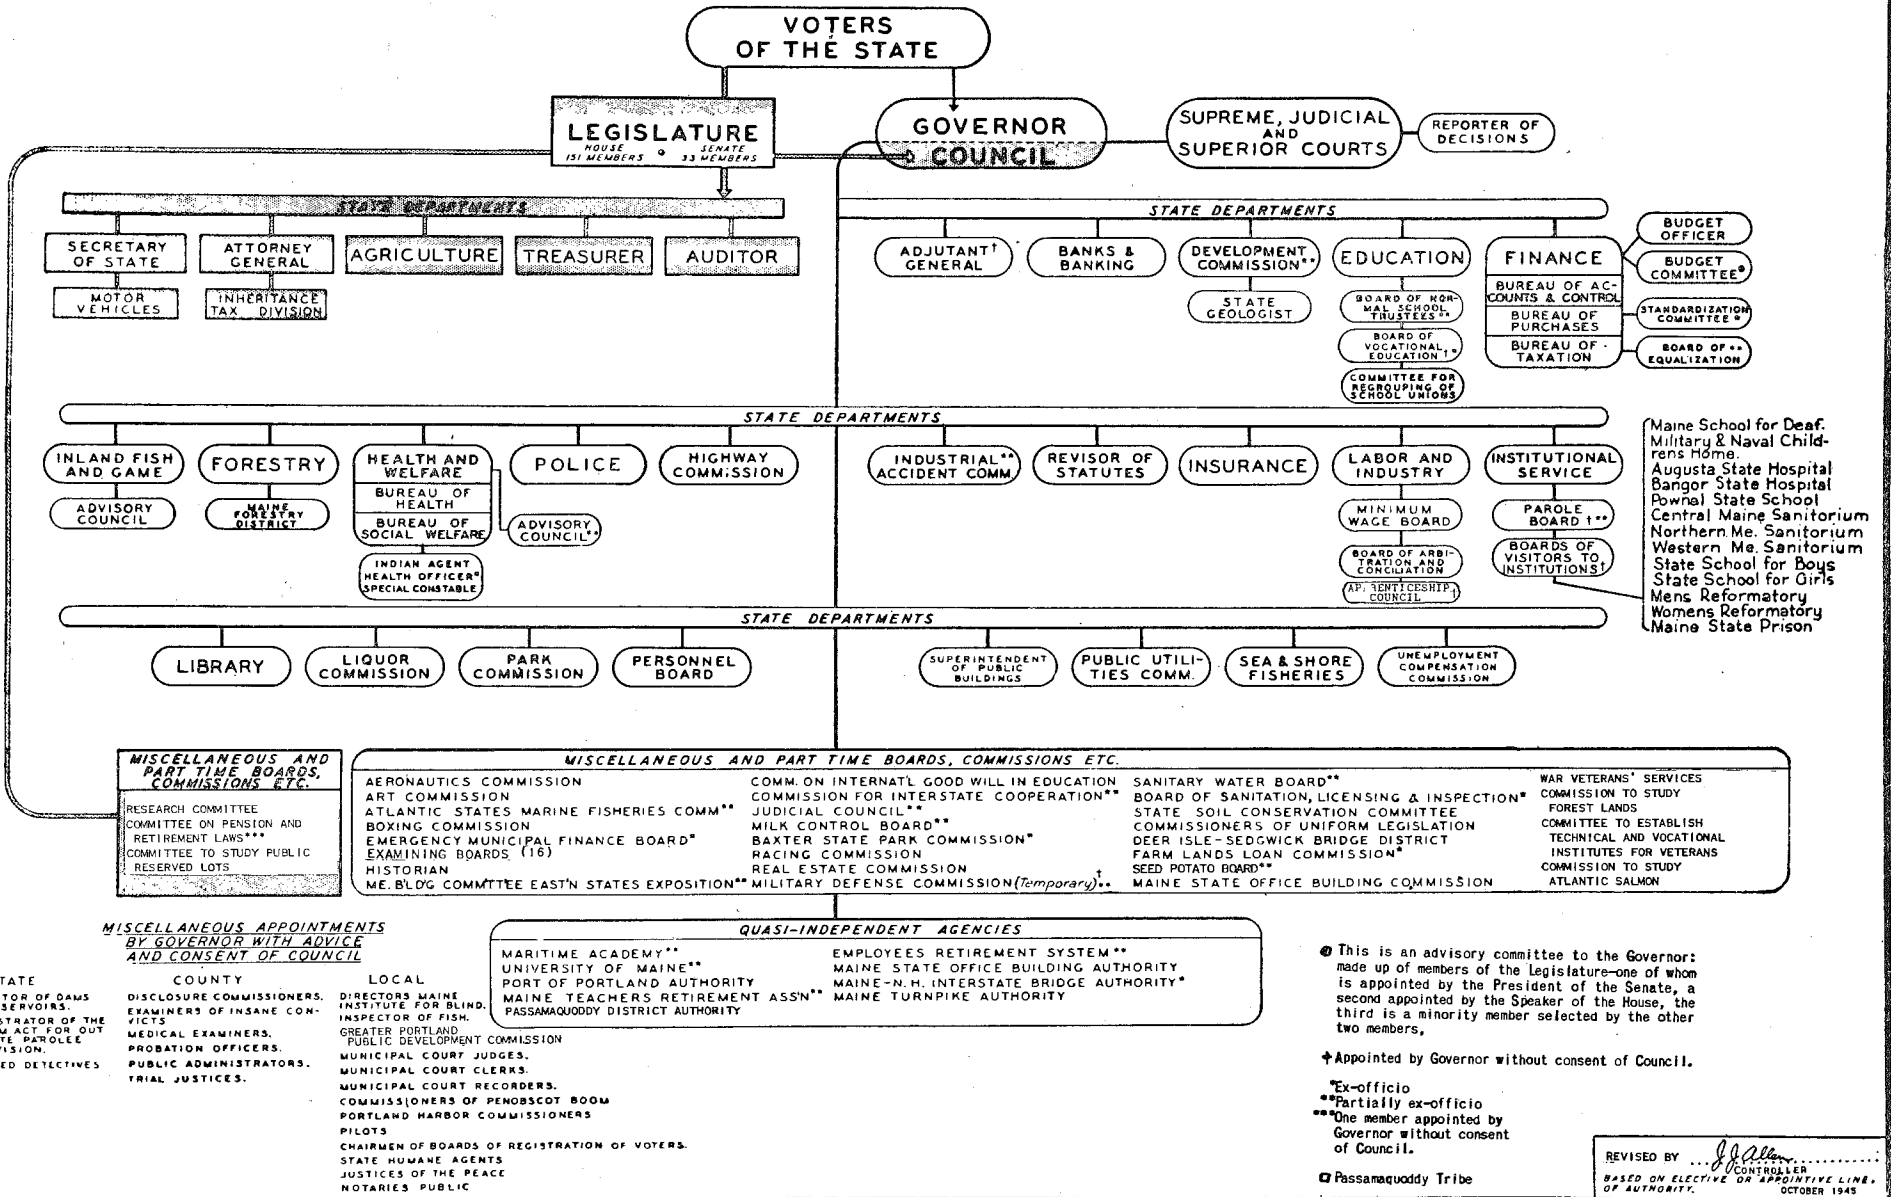

While many improvements have already been made in State accounting and reporting, there are several major items still to be completed. The ninety-second Legislature has wisely provided for inventorying and recording the fixed assets of the State in a continuing property record and for the installation of institutional cost accounting. Specialized personnel required for these jobs have not yet been obtained but it is expected that they will be found in the near future. Provision should be made for recording encumbrances at the time the obligations are incurred. Highway Department accounting should be revised to reduce the detail, avoid duplication and provide adequate operating information. Some progress has been made in this direction which will be continued during the biennium.

### Individual Funds

Further details regarding the year's operations are discussed by individual funds.

---

The Maine State Office Building Authority and Maine Turnpike Authority have been authorized to issue bonds in unspecified amounts. These bonds will not be liabilities of the State and will be paid from rent paid by the State of Maine and from toll revenues, respectively.

The Private and Special Laws of 1945 authorized the reissue, during the biennium ending June 30, 1947, of \$3,453,000 in Highway and Bridge Bonds for the purpose of raising funds to match Federal Aid Funds.

# GENERAL FUND

The General Fund is used to account for all revenues not allocated to specific purposes by law. From the revenues accruing to the General Fund, appropriations are made by the Legislature for all governmental activities not financed by revenues received either from the Federal Government or from special groups and dedicated for specific purposes. Some of the appropriations are supplemented by revenues earmarked for specific purposes but in no case are these revenues sufficient to completely support the activity.

# GENERAL FUND

## Summary

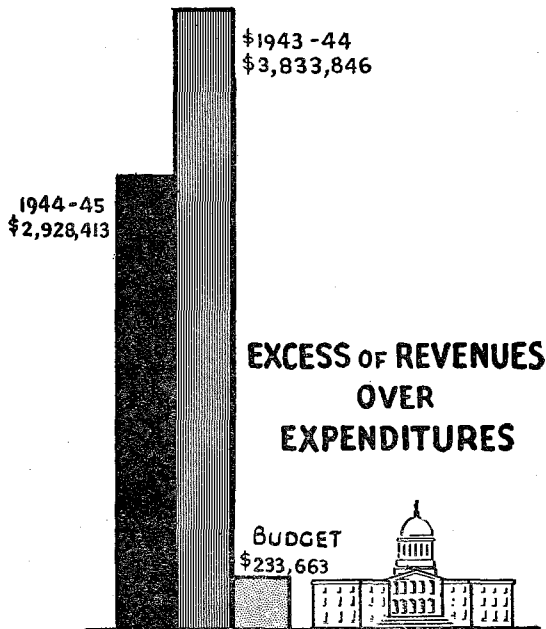

The year's operations of the General Fund resulted in an excess of revenues over expenditures of \$2,928,413 (See Schedule IV for analysis) a decrease of \$905,433 from last year but \$2,694,750 more than the budget. This excess of revenues over expenditures increased the Unappropriated Surplus at June 30, 1945 to \$5,767,455, the largest it has been for many years. Effective as of July 1, 1945, the Legislature set aside \$990,000 of this amount to increase the Post War Public Works Reserve to \$1,940,000 and made appropriations totaling \$1,854,476 for capital or other non-recurring expenditures, which will reduce this surplus as of July 1, 1945 to \$2,922,979. Before the next session of the Legislature outstanding bonds totaling \$1,500,000 become callable. Should these bonds be

called, the remaining surplus would approximate the amount required for working capital leaving no substantial amount available for other purposes.

During the year \$500,000 was invested in short term U. S. Government bonds bringing the total investment to \$4,450,000 which produced an income of \$41,011.

## Revenues

Revenues of the General Fund totaled \$22,369,805 (See Schedule VI) of which \$16,352,808 was available for appropriation and \$6,016,997 was earmarked for departments. These revenues were \$191,846 more than last year and \$3,019,051 more than the budget estimate; of the latter increase, \$2,953,381 applied to revenues available for appropriation. Net revenue from liquor and beer continued on a high level and again produced the largest single General Fund revenue. The substantial expansion of liquor sales and revenues in the past three years is shown on page 99.

\$22,369,805 in General Fund REVENUES	
THIS YEAR	\$22,369,805
LAST YEAR	\$22,177,959
BUDGET	\$19,350,754

**LARGEST GAINS over the Budget**

Other major revenue increases over the budget were recorded in the taxes on public utilities and hunting and fishing licenses. Taxes on public utilities exceeded budget estimates by \$192,210. This increase was largely in the tax on telephone companies reflecting their larger than anticipated wartime traffic. Revenues from hunting and fishing licenses exceeded estimates by \$253,696. Taxes on insurance companies exceeded estimates by \$105,664 reflecting the increase in the premium tax on local insurance companies from 1% to 2%. The inheritance and estate taxes exceeded estimates by \$92,476. The increase in the amount of money wagered in pari mutuel pools is reflected in the increase in the revenue from racing which exceeded estimates by \$81,555. The war time shortage of cigarettes caused the cigarette tax to fall below estimates by \$99,634. Federal grants were \$143,264 less than the budget.

**Expenditures**

<b>THIS YEAR</b>	<b>\$19,441,392</b>
<b>LAST YEAR</b>	<b>\$18,344,113</b>
<b>BUDGET</b>	<b>\$19,117,091</b>

Total expenditures of the General Fund of \$19,441,392 were \$1,097,279 more than last year and \$324,301 more than the budget.

Breakdowns of expenditures by departments and by objects are included in Schedules IX and X.

### General Fund Expenditures Classified by Character

### Grants, Subsidies and Pensions Expenditures

The effect of the wartime economy on State expenditures, which was apparent in the past two years, has continued through the year ended June 30, 1945. Expenditures classified by character and object, after eliminating inter-departmental expenditures, reveal that increases over budget estimates for personal services, other current expenditures and capital outlays in the total amount of \$683,324 are partly offset by decreases of \$284,023 in grants, subsidies and pensions and \$75,000 in debt retirement for a net increase over the budget of \$324,301. There is a general increase over last year's expenditures with the exception of decreases of \$14,359 in capital expenditures and \$75,000 in debt retirement. The largest increases over last year are \$539,343 in Grants to Individuals for Old Age Assistance reflecting the larger individual grants required by increased living costs, \$299,835 in Personal Services, and \$136,271 in Grants to Cities and Towns. \$198,926 of the increase in personal services is in legislative expenditures due to this being a year in which the Legislature was in session. A comparative schedule showing the basis of the Grants to Cities and Towns is shown here.

SCHEDULE A  
GRANTS TO CITIES AND TOWNS

	Year Ended June 30	
	1945	1944
For Education:		
Tuition .....	\$ 150,803	\$ 149,599
Teaching Positions .....	1,024,273	1,031,734
Conveyance in Lieu of Teaching Positions ..	116,365	105,672
School Census .....	697,099	471,655
Temporary Residents' Conveyance .....	1,152	717
Equalization of Educational Opportunities ...	353,534	427,844
Equalization of Special Projects .....	2,126	575
Industrial Education .....	111,075	113,907
Vocational Education .....	9,596	5,607
Physical Education .....	28,615	34,467
Miscellaneous .....	9,517	11,100
Total Education .....	2,504,155	2,352,877
Miscellaneous:		
Grade Crossing Warning Signals .....	247	111
Control of White Pine Blister Rust .....	3,951	3,907
District Health Centers .....	4,981	4,683
Health and Welfare (Emergency Aid) .....	—	15,680
Library Service .....	8,978	8,783
Total Miscellaneous .....	18,157	33,164
Total .....	\$2,522,312	\$2,386,041

When expenditures are grouped by departments, the same wartime increases are apparent. The increases in Old Age Assistance, World War Assistance and Aid to Dependent Children are illustrated on page 58. Although the number of active cases on the Old Age Assistance and the Aid to Dependent Children programs has continued to drop, the necessary increase in grants has caused an increase in total expenditures in excess of last year. Other large increases were \$252,021 in legislative expenditures due to this being a legislative year, and \$225,444 in educational grants based on the school census.

#### **Extraordinary and Non-recurring Expenditures**

Certain capital expenditures and other expenditures of an extraordinary and non-recurring nature were provided for by appropriations from Unappropriated Surplus. The expenditures of these appropriations are not included with the regular operating expenses but are shown on Schedule XVII.

#### **Future Outlook**

While there was a margin of approximately \$2,900,000 between General Fund revenues and expenditures in the past year, the budget for the current biennium estimates an excess of revenues over expenditures of only \$272,795 for the first year and only \$154,097 for the second year. The effect of post war conditions on General Fund revenues and expenditures probably will be most serious.

The pre-war level of liquor revenues, which during each of the past two war years were \$6,700,000 and are now being estimated for the current year at the same amount, were approximately \$4,000,000.

General relief (state pauper) expenditures, which last year were \$389,000, averaged over a million dollars a year for the seven year period ended June 30, 1942.

These two accounts alone are subject to sufficient variation to cause present surpluses to fade very rapidly into deficits.

New sources of revenue may well be needed in the near future to adequately finance the services demanded of State government.

Chapter 88, Private and Special Laws, 1943, provides \$100,000 for the fiscal year ending June 30, 1945 for an Institutional Emergency Fund. "There shall be transferred from the fund to any State institution such sums as may be deemed necessary to care for any emergency that may arise during the fiscal years ended June 30, 1944 and June 30, 1945. Such transfers shall be recommended by the Commissioner of Institutional Service and transferred by authority of the Governor and Council."

# PUBLIC ASSISTANCE STATISTICS

# HIGHWAY FUND

Revenues from the gasoline tax, registration of motor vehicles and certain other revenues are restricted by law to use for highway and bridge construction and maintenance. From these revenues the Legislature makes appropriations for various activities of the Highway Commission. Any revenues not appropriated by the Legislature are available for allocation by the Highway Commission for certain limited purposes. Some highway appropriations are supplemented by revenues earmarked for specific purposes.

# HIGHWAY FUND

For the third war year, Highway Fund operations were continued at a greatly reduced rate and the authority granted by the Legislature to the Highway Commission and the Governor and Council to curtail the legislative highway program was again used to keep expenditures on a level with estimated revenues. Practically all expenditures for new construction were eliminated as in the two previous war years. Such construction work as was done was almost entirely for military and defense purposes with 100% Federal financing.

The year's operations resulted in an excess of revenues over expenditures of \$244,565 compared with a net loss of \$113,880 in the previous year and a net loss of \$661,273 contemplated in the budget. This excess of revenues over expenditures plus a decrease of approximately \$100,000 in the reserve for authorized expenditures resulted in an increase of \$345,000 in unappropriated surplus. Total Revenues showed an increase of approximately \$125,000 over last year while curtailed expenditures were approximately \$231,000 less than last year, despite an increase of \$228,000 in expenditures for highway maintenance.

No highway bonds were issued during the year and \$1,774,000 of bonds were retired. No highway bonds outstanding are callable. The ninety-second Legislature authorized the reissue, during the biennium ending June 30, 1947, of \$3,453,000 of highway and bridge bonds for the purpose of raising funds to match Federal aid funds for the construction of State highways and bridges. This amount authorized for reissue equals the amount of bonds maturing during the biennium. Highway debt service requirements from 1934, the year of highest interest costs, until the debt is retired are shown below.

No Highway Bonds outstanding are callable.

**Revenues**

Revenues of the Highway Fund totaled \$9,698,450 of which \$8,423,275 was available for appropriation and \$1,275,175 was earmarked. (See Schedule V). These revenues were \$127,407 more than last year and \$3,542,248 more than the budget.

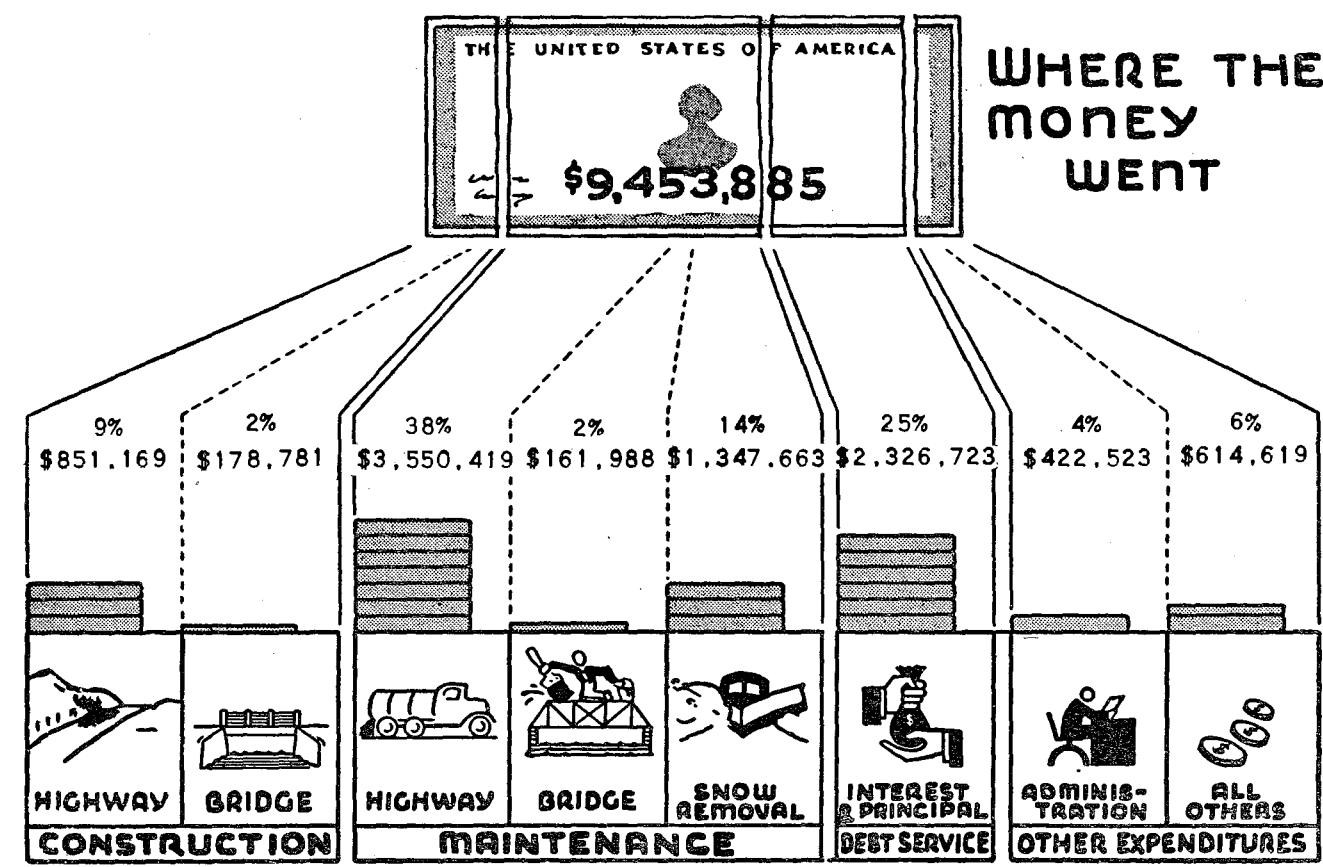

As compared with the previous year, gasoline tax revenue increased \$340,852 and motor vehicle registrations and drivers' licenses increased \$95,783 while grants from the Federal Government were down \$358,308. These three classes of revenue were all substantially in excess of estimates.

**Expenditures**

Total expenditures of the Highway Fund of \$9,453,885 were \$231,038 less than last year but \$2,706,056 more than the budget. (See Schedule IX). The excess over the budget is accounted for by construction from Federal funds which could not be budgeted in advance and by expenditures for maintenance, snow removal and sanding. The increase of \$228,047 in maintenance expenditures and \$163,647 in snow removal expenditures over the previous year were more than offset by a decrease of \$315,261 for highway construction and a decrease of \$363,773 in debt service requirements.

Automobile Registrations and Drivers' Licenses represent gross receipts while the revenues shown on Schedule I are net after refunds.

# UNEMPLOYMENT COMPENSATION FUND

Revenues accruing to the State from the tax on employers for Unemployment Compensation are credited to this fund. These revenues are for the purpose of paying benefits to eligible unemployed. Such current revenues as are not required for current benefits accumulate in a trust fund on deposit with the Federal Government to pay future benefits. This operation is closely co-ordinated with the Federal Government and the cost of administration is paid from Federal funds included in Other Special Revenue Funds section.

# UNEMPLOYMENT COMPENSATION FUND

The accumulation in the Unemployment Compensation Trust Fund continues as in the previous year, showing an increase this year over last year of \$7,483,263. The tax on employers decreased approximately \$1,020,000 over the previous year and benefit payments increased \$251,431. The decrease in revenue is due to the result of the experience rating which was effective July 1, 1943 and a general decline in payrolls throughout the State.

Effective April 1, 1945, the Legislature increased the graduated scale of benefit payments and set the maximum payment at \$20.00 per week for a period of 20 weeks.

# OTHER SPECIAL REVENUE FUNDS

Under this caption are included many separate smaller funds, each of which operates from earmarked revenues which are available for no other purpose. All revenues credited to these funds are automatically available for expenditure for the purpose for which they are earmarked under the various governing statutes without specific appropriation by each session of the Legislature. They are, however, not available until allotted by the Governor and Council. The revenues of these funds are received principally from taxes or fees paid by special groups for activities carried on by the State for development or conservation of natural resources or protection of the public and from Federal grants for State-supervised projects.

# OTHER SPECIAL REVENUE FUNDS

Other Special Revenue Funds are a combination of many independent funds, each of which operates from earmarked revenues which are available for no other purpose. All revenues credited to these funds are automatically available for expenditures when allotted by the Governor and Council without specific appropriation by the Legislature.

During the last session of the Legislature, the law was amended to provide that funds received for care of patients in tuberculosis sanatoria shall be credited to the General Fund. The laws governing the disposition of fees derived from Loan Agency Inspection and Registration of Dealers in Securities were amended so that these fees also credit to the General Fund. The balances of these funds, as of June 30, 1945, were transferred to the General Fund Surplus. These activities will be financed by money appropriated from the General Fund by the Legislature and the revenues will accrue to the General Fund. As a result of this transfer, the reserve for authorized expenditures decreased over the previous year.

The Special Revenue Funds operated at a slightly lower level than last year with a decrease in revenues of approximately \$118,000 and a decrease in expenditures of approximately \$123,000. The major decreases in revenues were in the Potato Tax, \$23,727; Shipping Point Inspection, \$22,679; Certification of Seed, \$12,145; all reflecting a smaller potato crop; Federal Grants for Education, \$168,847, reflecting a curtailment of the war time training program. These decreases were partly offset by an increase of \$142,136 in Federal Grants for Public Health largely due to increased expenditures for Medical and Hospital Care of Wives of Military Men.

The major decreases in expenditures were \$171,917 in Education reflecting curtailment of war time training programs, \$16,203 in Emergency Tuberculosis Fund, and \$11,861 in Development and Conservation of Natural Resources, all partly offset by an increase of \$88,863 in expenditures for Care of Wives of Military Men.

# PROCEEDS OF GENERAL BOND ISSUES

Under this heading are grouped all expenditures financed solely by the proceeds of general bond issues. Bond funds are used only to handle the proceeds from the sale of bonds and have nothing whatever to do with bond retirements.

# PROCEEDS OF GENERAL BOND ISSUES

The programs financed by the \$2,000,000 issue of Maine War Bonds and the \$450,000 issue of Maine Agricultural Bonds are not yet completed. The Agricultural program has spent all funds that were available through the bond issue. At the last session of the Legislature, \$400,000 was made available from the General Fund for the continuation of this program.

## War Bonds

\$2,005,360 has been authorized for expenditures from the proceeds of the Maine War Bonds leaving \$13,427 which has been reserved for contingencies by the Military Defense Commission. Of the amount authorized for expenditure, together with such revenue as has been received, \$1,481,878 has been expended leaving a balance of \$523,482 committed but not yet expended.

Expenditures increased this year, being \$62,114 compared with \$16,133 last year and \$58,645 for the 1942-43 year. The expenditures authorized from this bond issue, after providing for administrative expenses, have financed the building of, or major repairs to, armories; have assisted cities and towns in their share of land costs for airports constructed by the Federal Government; and furnished equipment for armories and the State Guard.

## Maine Agricultural Bonds

The year just ended is the fourth complete fiscal year of the program for the eradication of Bangs' disease financed by Maine Agricultural bonds. The proceeds of the bonds were completely expended in May, 1945. The Legislature, by Chapter 109 of the Resolves of 1945, made available \$50,000 from the General Fund revenues and \$150,000 from General Fund Surplus on April 21, 1945. \$100,000 was also appropriated from the General Fund for each fiscal year of the current biennium, making in all a total of \$400,000 available for this program.

In addition to the expenditures of \$103,867, as shown on Schedule III, \$24,749 of the \$50,000 appropriation from General Fund revenues was spent at June 30, 1945 and is included in the expenditures of the Department of Agriculture in the General Fund. The balance of this appropriation of \$25,251 was carried forward.

Progress made is shown on the maps on the next page. The program is carried on in cooperation with the Federal government which supplies a portion of the indemnity money and furnishes personnel, while the State funds are used entirely for the payment of indemnities for condemned cattle.

Because of the nature of the work, speed is essential in keeping costs low. The manpower shortage has had the effect of increasing the costs of eradicating this disease. Another factor which has increased costs has been the high value of dairy cattle under wartime conditions. This has caused a substantial increase in indemnity payments. Now that the war is over, more veterinarians should be available to speed the completion of the program.

# PUBLIC SERVICE ENTERPRISES

Commercial enterprises of the State are classified under this fund. Such undertakings differ from the usual governmental functions in that they are business operations which are carried on by government only for the public good or as governmental revenue-producing agencies or a combination of both. This fund is made up of the following minor funds:

Liquor Commission	Deer Isle-Sedgwick Toll Bridge
Racing Commission	Kennebec (Carlton) Bridge Bonds
Augusta State Airport	Kennebec (Carlton) Bridge Sinking Fund
Waldo-Hancock Toll Bridge	Cigarette Tax
Richmond-Dresden Toll Bridge

# PUBLIC SERVICE ENTERPRISES

## Liquor Commission Operations

The transfer to General Fund of the results of operation of the liquor monopoly increased but \$5,897 over the previous year. The sales show an increase of over \$2,000,000 but this increase is due to the increased Federal tax on liquor. This tax increase of \$3.00 a proof gallon was effective April 1, 1944 and was reflected in last year's sales for only the last three months of the fiscal year, while in the 1944-45 year it was reflected in the entire twelve months. The gross profit on sales decreased over \$125,000 but this was more than offset by the increase in the Malt Beverage Excise Tax and License Fees. Store operating expense shows an increase of \$63,385 of which \$52,878 was in salaries. The inventory at June 30, 1945 was approximately \$400,000 more than the June 30, 1944 inventory. For the period July 1 through October 31, 1945 gross sales are approximately \$800,000 more than the corresponding period last year.

## Racing Commission

This is primarily a revenue producing agency rather than a public service enterprise but since the statutes provide that the expenses be deducted from the revenues, it is carried as a "public service enterprise" to simplify accounting. Net revenues are transferred to the General Fund. At the last session of Legislature, the statutes were amended and the revenues from July 1, 1945 will be credited direct to the General Fund. An appropriation was made by the Legislature for payment of expenses of the Commission.

Due to an increase in the amount of money wagered, the  $3\frac{1}{2}\%$  commission on total pari mutuel pools was \$128,686 this year, an increase of \$63,727 over last year.

## Augusta State Airport

The State Airport was leased to the U. S. Navy on May 3, 1944 for \$1.00 a year, thus reducing the operating expenses to \$3,108 compared to \$11,540 last year. Despite this large decrease, it was necessary to pay an operating deficit amounting to \$1,307 from the General Fund.

**Toll Bridges**

The effect of curtailed automobile travel, induced by gasoline rationing, continued to reflect in toll revenues although toll revenue from two of the three bridges was larger than last year.

However, the effect of the end of gasoline rationing is readily seen in the following tabulation showing toll revenues on three toll bridges for the months of July, August, and September from 1940 through 1945. In September of 1945 the tolls had increased to an amount close to the pre-war level of revenues.

	Waldo-Hancock Bridge			Richmond-Dresden Bridge			Deer Isle-Sedgwick Bridge		
	July	August	September	July	Aug.	Sept.	July	August	September
1940	\$18,812	\$28,786	\$13,623	\$749	\$982	\$696	\$5,603	\$6,377	\$4,135
1941 *	15,454	20,129	9,619	803	921	651	5,614	6,781	4,073
1942	3,714	3,823	4,012	390	639	540	2,877	3,707	2,967
1943	2,163	4,314	3,478	467	937	529	1,795	3,903	3,692
1944	3,557	3,691	4,327	545	565	554	3,051	3,097	3,572
1945	5,618	7,935	7,873	815	910	793	4,039	5,025	4,735

\* Rates reduced March 29, 1941.

The increase in revenues of the Waldo-Hancock Bridge of \$4,076 and the decrease of \$8,229 in maintenance and operating costs combined to reduce the loss from operations from \$35,513 to \$22,408. The balance of \$80,663 in unappropriated surplus at the year end should be sufficient to meet all charges including bond maturities and interest until revenues improve.

The revenues of the Richmond-Dresden bridge have never been sufficient to meet operating expenses. The revenues this year of \$8,107 were more than last year but still were less than expenses. The transfer of \$3,000 from the Highway Fund offset the beginning deficit of \$1,623 and the operating loss for the year of \$642 and left a surplus of \$735 at June 30, 1945.

Major repairs on the Deer Isle-Sedgwick Bridge, which have been in progress during the last two years caused the operating deficit of \$61,429 even after a transfer of \$12,000 from the Highway Fund. Total advances to date for this repair work, estimated to cost \$75,000, from the Highway Fund have been \$72,360. This money is to be repaid from future tolls.

The Carlton Bridge, which operates toll free, has still outstanding \$1,500,000 of bonds, the principal and interest of which are intended to be retired from payments to the State by the Maine Central Railroad Company. As was stated in our last year's report, in order to provide an adequate sinking fund, the State must earn 4% on all amounts set aside in the sinking fund. As it is impossible at present to earn this rate of interest, the sinking fund shows an accumulated deficit at the year end of \$5,495, which may be expected to increase from year to year. \$1,000,000 of these bonds are callable June 1, 1947 and the balance in 1952. If present favorable interest rates exist at the call date, June 1, 1947, refunding of these bonds at that time at a rate less than 4% could eliminate the deficit in this fund.

**Cigarette Tax**

The Cigarette Tax Division of the Bureau of Taxation is primarily a revenue producing agency rather than a public service enterprise but, since the statutes provide the expenses be deducted from the revenues, it is treated as a "public service enterprise" to simplify the accounting. Net revenues are transferred to General Fund to the credit of Old Age Assistance. At the last session of the Legislature, the statutes were amended to provide that revenues from the tax on cigarettes shall credit to the General Fund. The administrative expenses of the Cigarette Tax Division will be paid out of General Fund from monies appropriated for this purpose by the Legislature. Due to the cigarette shortage, the net revenue transferred to Old Age Assistance decreased \$229,927 to \$1,371,515 this year compared with \$1,601,443 last year. Cigarette tax revenue from July through September, 1945 was \$63,610 in excess of revenue for the same period last year.

# WORKING CAPITAL FUNDS

This account combines several similar funds, sometimes called revolving funds, representing non-profit but self-reimbursing activities conducted by the State either as service agencies for departments of the State or as financing agencies (similar to petty cash accounts) for activities authorized by law. This fund is made up of the following minor funds:

Prison Industries  
Highway Garage  
Departmental Garage  
Departmental Supplies  
Post Office  
Home Industries Fund

## Contents

V	Departmental Supplies and Post Office—Comparative Statement of Operations .....	114

## WORKING CAPITAL FUNDS

The various working capital funds were established to segregate activities of a manufacturing or service nature primarily carried on for the purpose of furnishing services or materials to State departments at cost.

Prison industries show sales of over \$95,000 (of which over one-third were to State departments) which returned a profit of \$18,172. Sales to State departments were made at cost.

The highway garage had revenues, principally from rentals of machinery and equipment, of approximately \$490,000. The operations for the year showed a profit of \$58,360 compared with a loss of \$38,398 last year.

The departmental garage received rentals for use of cars by State departments totaling \$59,355 for 1,360,300 miles at 3½ cents per mile and 293,577 miles at 4 cents per mile. The cars were operated for an average per mile cost of .0345 and the resulting profit was prorated in August to State departments on the basis of rentals paid.

The fund for departmental supplies, which maintains an inventory of office supplies which are billed to State departments at cost, and the post office fund, which controls meter postage machines and bills the departments for postage used, handled volumes of business approximating \$21,000 and \$68,000 respectively. Operating expenses of these two activities are paid from appropriations from the General Fund.

Chapter 153 of the Public Laws of 1945 created a Seed Potato Board to establish a program of production, distribution and sales of foundation seed potatoes to the potato growers of Maine. This act provided a revolving fund of \$100,000 from General Fund Unappropriated Surplus which is to be repaid in annual installments in ten years.

Home industries revolving fund was liquidated during the year and the working capital advance of \$28,421 was returned to the General Fund.

# TRUST AND AGENCY FUNDS

These funds include many minor independent funds not directly associated with governmental functions, as listed below:

## EXPENDABLE FUNDS

### Public Trusts

- Pension or Retirement Funds
  - Maine Teachers Retirement Assn.
  - Employees Retirement System
- Revenue Receipts of Non Expendable Trusts

### Private Trusts

- Guaranty Deposits
- Public Administrators Funds
- Receivers Funds for Defunct Banks
- Financial Responsibility Deposits
- Trustees, Cities and Towns

### Agency Funds

- Due Other Governmental Units
  - Tax on Bank Stock
  - Dog Licenses
  - County Taxes
  - Road Repair Taxes

## NON EXPENDABLE FUNDS

### Public Trusts

- Lands Reserved for Public Uses
- Permanent School Fund
- Other Trust Funds

Trust funds are composed of money held by the State as trustee or custodian, invested as endowment funds to produce revenues supplementing appropriations for specified governmental purposes, for the benefit of cities and towns of the State or other purposes. Agency funds are either temporary deposits to guarantee meeting of obligations to the State or the public, or amounts collected by or deposited with the State for the benefit of the general public or cities, counties and towns of the State.

IV Analysis of Changes in Reserve for Ex- pendable Trusts .....	120-121

## TRUST AND AGENCY FUNDS

The principal of the Trust and Agency Funds totaled \$7,165,160 at June 30, 1945, an increase of approximately \$1,045,000 over the previous year. This increase, principally in the Employees' Retirement System and the Teachers' Retirement Association, represents a normal accumulation of reserves for future pensions. In Private Trusts, there were two bequests, one for \$40,000 to the Farmington Teachers' College and the other for \$10,000 to the Augusta State Hospital—the principal to be invested and the income used for the benefit of the students or inmates.

Assets and liabilities of the Trust and Agency Funds are entirely segregated from other State assets except for a small amount of operating cash which is definitely earmarked.

In most of the trust accounts, the amount paid to the various beneficiaries is the actual amount earned by each trust. There are a few for which the rate of payment is set by statute, making it necessary the State to appropriate for the difference between earnings and required payments to bring the payments up to the amount fixed by law.

At the last session of Legislature, a law was passed providing that all the permanent funds held in trust by the State, with the exception of the two retirement systems and funds arising from the lands reserved for public uses, may be invested in a lump sum and the interest received on those investments pro-rated according to the principal amount of each of the several trust funds. This will result in all trust funds earning the same rate of interest. Those funds, which according to law shall pay at a specific rate, will require a contribution from the General Fund to make up the difference between earnings and the statutory rate.

A complete detail of investments of Trust Funds is published in the biennial report of the State Treasurer.

# QUASI-INDEPENDENT AGENCIES

These agencies were created under the laws of the State of Maine. They differ from State departments in that they are independent corporate entities which maintain their own records and are more independent than regular State departments. Their principal relation to State Government is that the trustees are usually appointed by the Governor and certain of these agencies are subsidized by State funds. The assets and liabilities of these agencies are not considered assets or liabilities of the State. Such statements as are presented herewith have been adopted from reports furnished to us by these agencies, for the accuracy of which neither the State Controller nor the State Auditor assumes any responsibility. Following is a list of these agencies and the data presented:

QUASI-INDEPENDENT AGENCIES  
MAINE STATE OFFICE BUILDING AUTHORITY

The Maine State Office Building Authority was created by Chapter 76, Private and Special Laws of Maine, 1941. The Building Authority was created for the purpose of acquiring land and erecting thereon such an office building or buildings or addition to the State House as will provide ample, convenient and fireproof quarters for the various departments of the State government and records and documents thereof.

The Building Authority is authorized and empowered to borrow money and issue therefor notes, bonds or other evidences of indebtedness.

Upon completion of the construction of the office building, the Building Authority shall execute a lease to the State of Maine at such annual rental as shall provide for payment of interest on and retirement of the bonds, notes or other evidences of indebtedness. Upon retirement of the debt, the title of the entire property shall be conveyed to the State of Maine.

By Council Order No. 41, dated February 22, 1945, the State Controller was authorized to advance from the General Fund such amounts as may be authorized by the Building Authority not to exceed \$10,000. Under this authorization, \$5,375.75 has been advanced. Since these expenditures, which were made for professional services in connection with the preparation of plans and specifications, represent the only financial transactions of the Building Authority, no financial statements are presented.

## QUASI-INDEPENDENT AGENCIES MAINE TURNPIKE AUTHORITY

The Maine Turnpike Authority was created by Chapter 69, Private and Special Laws of Maine, 1941. The Turnpike Authority was authorized and empowered to construct, operate and maintain a turnpike at such location as shall be approved by the State Highway Commission from a point at or near Kittery to a point at or near Fort Kent and to issue turnpike revenue bonds payable solely from tolls to pay the cost of such construction.

All such bonds shall contain a statement on their face that the State of Maine shall not be obligated to pay the same or the interest thereon except from tolls and that the faith and credit of the State of Maine shall not be pledged to the principal or interest of such bonds.

When all the bonds and interest thereon shall have been paid or provided for, the authority shall be dissolved and the turnpike shall become the property of the State of Maine and all revenue therefrom become payable to the Treasurer of the State of Maine as a part of the highway funds. The turnpike shall be maintained and operated by the highway commission and all machinery and equipment belonging to the authority appertaining to the operation of the turnpike shall be vested in the highway commission.

All expenses incurred by the authority in the interim between its creation and the date money is received from grants, bonds or revenue shall be a charge upon highway funds in an amount not exceeding \$10,000. There shall be made available to the authority the engineering and advisory service of the highway commission, but such engineering and advisory service shall be charged to the authority as a part of the cost of the turnpike. Expenditures of \$6,104.09 for plans and surveys have been charged against the above mentioned \$10,000. Since these expenditures represent the only financial transactions of the Turnpike Authority, no financial statements are presented.
