STATE OF MAINE
AUGUSTA, MAINE

STATE OF MAINE

FINANCIAL REPORT

For Period
July 1, 1975 to June 30, 1976

DEPARTMENT OF FINANCE & ADMINISTRATION
Bureau of Accounts and Control

RICHARD A. DIEFFENBACH, CPA
STATE CONTROLLER

HJ
11
.M221
1976

The State of Maine Financial Report is published annually by the State Controller in accordance with Title 5, section 1547 of the Maine Revised Statutes Annotated. Printed under appropriation 1031.1

STATE OF MAINE

DEPARTMENT OF FINANCE AND ADMINISTRATION
BUREAU OF ACCOUNTS AND CONTROL

January 25, 1977

Governor James B. Longley,
Members of the Legislature
and other citizens of Maine

The accompanying statements present the financial position of the various funds of our State Government at June 30, 1976 and their revenues, appropriations and expenditures for the fiscal year then ended in conformity with generally accepted accounting principles applicable to governmental entities.

We have expanded this year's report in response to the reviving interest in governmental finance. Increased disclosure has been provided to highlight areas of interest such as statutory limitations and significant accounting policies. The use of supplemental schedules has also been expanded to present a more comprehensive and concise account of the State's financial operations.

The importance of sound financial reporting to effective fiscal management has never been greater than today. It is our hope that the increased information will enhance the readability of the financial report and will assist concerned citizens and investors in their assessment of our stewardship.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Richard A. Dieffenbach".

COMPREHENSIVE FINANCIAL REPORTS

Comprehensive Financial Reports are presented to provide an overview of the financial operations of the State. The following statements summarize the detail of the various accounting entities which are separately reported upon in subsequent sections of the report. It is important to remember that the appropriations and expenditures of the various funds have been combined for illustration purposes only; legally the resources of one fund cannot generally be transferred between funds.

REVENUES

Tax revenues constitute the largest single source of receipts for the State. The following is a brief description of the principal taxes paid to the Operating Funds:

Sales and Use Tax A 5% sales or use tax is imposed on all tangible personal property sold at retail and upon telephone and telegraph services, and lodging accommodations. Exemptions include food for home consumption, new machinery and equipment used in the manufacturing, certain medical supplies, etc., and items that are already taxed such as motor fuels.

Individual Income Tax A graduated income tax is imposed on the Federal adjusted gross income of resident individuals of the State as well as on the taxable income of non-resident individuals which is derived from sources within the State. The rates range from 1 to 6 percent through calendar year 1976 and are scheduled to be increased from 1 to 10 percent for subsequent years.

Corporate Income Tax Corporate profits are taxed at the rate of five percent of the first \$25,000 of the Maine net income plus seven percent of amounts over \$25,000. Payment of the tax was changed from an annual to a quarterly basis in 1976, thus the 1976 fiscal year corporate income tax revenues reflect collections in excess of one year's tax, due to the transitional requirements of the accelerated method of payment.

Uniform Property Tax Assessments of the uniform property tax were calculated at 13 mills for the 1976 fiscal year. During the year, the State collected the gross amount of the assessment from each municipality and re-distributed the tax in accordance with a predetermined formula. The law has been changed to permit net collections by pay-in communities, thus future uniform property tax revenues and disbursements will be substantially reduced (by offsetting amounts) for 1977 and subsequent periods.

Other Revenues	14,586	16,616
Transfers from Operating Funds	862	863
	\$857,821	\$657,589

Motor Fuel Tax An excise tax of 9¢ per gallon is levied upon gasoline and other motor fuels.

Cigarette Tax Cigarettes are taxed at the rate of 16¢ per package of 20 cigarettes.

Unemployment Tax Each employer is liable for contributions to the Unemployment Compensation Fund based on a percentage of taxable wages. The contribution rate varies between 2.4% to 5% depending on the employer's experience rating.

Substantial revenues are received from the Federal and local governments primarily as seed monies or matching grants for highway projects or human service programs. The balance of the revenues are derived from the operations of State liquor stores, the Lottery Commission, and fees for services charged at the State's vocational institutes and hospitals, etc.

	<u>\$876,936</u>	<u>\$715,376</u>
Transfers between Operating Funds included in above	<u>\$ 862</u>	<u>\$ 863</u>

Total Operating Fund expenditures increased from \$715 million in 1975 to \$876 million in 1976. The largest increase was in the category of Education and Culture where 1976 expenditures included a \$120 million redistribution of the Uniform Property Tax revenues for educational subsidies. The current year expenditures do not reflect \$7.5 million of additional educational subsidies or \$6.4 million of actuarially computed retirement contributions applicable to 1976 which were appropriated from the 1977 Fiscal Year.

GENERAL OBLIGATION BONDS ISSUED

LAST TEN FISCAL YEARS

STRUCTURE OF STATE DEBT

STRUCTURE OF STATE DEBT

The bonded debt outstanding at June 30, 1976 totaled \$279,225,000, including \$19,445,000 of General obligation bonds sold in April 1976. The issue was rated Aa by Moody's Investor Service, Inc., and AAA by Standard and Poor's Corporation.

Authorized and unissued bonds at June 30, 1976 totalled \$143,726,725.

The State Constitution prohibits the contracting of any debt which exceeds \$2 million except when authorized by two-thirds of the Legislature and a majority of the voters or when necessary to suppress insurrection, to repel invasion or for purposes of war. The Constitution has been amended including November 1976 changes to allow the Legislature to guarantee the issuance of up to \$17 million for recreational loans; \$80 million for business loans (limited to \$40 million by statute); \$1 million for Indian housing; \$4 million for student loans; \$4 million for small business loans to war veterans; and \$10 million for revenue bonds issued for local school buildings.

The State is authorized to borrow up to \$25,000,000 in tax anticipation loans during any fiscal year. In December 1975, \$10 million was borrowed; the amount was repaid in June 1976.

FOOTNOTES

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

I. HOW THE SYSTEM WORKS

Maine's State government is composed of a bicameral Legislature, an Executive branch, and a Judicial branch. The Legislature is comprised of 33 Senators and 151 Representatives, all of whom are elected for two year terms. The Executive branch is headed by Governor James B. Longley who is serving a four-year term of office.

The State's budget, which in a nontechnical sense is a spending plan, is prepared biennially by the Governor and submitted to the Legislature. Once approved, the budget governs the financial operations of the various State agencies. The budget covers all agencies and programs administered by the State except for quasi-governmental units such as the following which, except for certain assistance payments, are excluded from these financial statements:

Maine Housing Authority
Maine Maritime Academy
Maine Municipal Bond Bank

Maine Turnpike Authority
University of Maine

The budget process provides for an appropriation of funds and an estimate of revenues available to fund the State's projected financial programs. The budget is balanced when estimated revenues and available carryforward funds equal or exceed projected costs. The appropriation procedure permits an agency to enter into obligations not to exceed the limit established in the legislation which authorized the program. An appropriation may provide funds for (1) a fixed period of time such as a fiscal year or (2) for a specific purpose such as a designated non-recurring project. If an appropriation is not obligated or expended within a specified time period, it expires or lapses and no further obligations can be made against that appropriation.

Appropriations are allotted or made available in quarterly installments and are generally classified for Personal Services expenditure, All Other expenditures or Capital purchases. Transfer of allotments between quarters and/or classifications requires approval. Allotments are consumed when services are received or by the action of encumbering outstanding commitments such as contracts or purchase orders for ordered goods and services not yet received. Disbursement of funds by check is only made upon properly approved requests for payments. Such disbursements either reduce the amount of outstanding encumbrance or the available allotment. Generally, outstanding encumbrances are available for carryforward for only one year unless specifically provided otherwise by law. Cancelled prior-year encumbrances automatically lapse and reduce the carryforward funds available to the agency.

Obligations must not exceed the total of allotted funds. Programs faced with potential overruns must seek relief through supplemental appropriations or by authorized transfers.

FOOTNOTES

II. FUND STRUCTURE AND STATEMENTS PRESENTED

Financial transactions are recorded in funds which are self-balancing sets of accounts for the purpose of segregating and controlling specific activities in accordance with special restrictions or limitations. The State groups its accounts into the following funds for which the financial statements and explanatory narrative are published in separate sections of this report:

<u>Operating Funds</u>	<u>Other Funds</u>
General Fund	Proceeds of Bonds Funds
Highway Fund	Enterprise Funds
Federal Revenue Sharing Fund	Intragovernmental Service Funds
Other Special Revenue Funds	Trust and Agency Funds

In addition a General Long Term Debt and a Fixed Asset grouping of accounts are maintained.

The Comprehensive Financial Reports which combine the accounts of several funds provide an overview of the financial operations of the State. These reports are presented for statistical purposes only. It is important to remember that the resources of one fund cannot be transferred to another fund unless authorized by State statute.

III. OTHER ACCOUNTING MATTERS

a) Basis of accounting:

The State's accounting records are maintained on a modified accrual basis of accounting for budgetary funds. Revenues are recorded when finalized by law. This means that self-assessed taxes are revenue items when paid or declared and that state-assessed taxes are recorded when billed. Most other revenues are recorded when the cash is received. Expenditures generally are recognized when the disbursements are made - no attempt is made to record prepaid expenses or to prorate liabilities for items such as interest on long term debt.

The primary accounting responsibility in governmental finance is to reflect compliance with legal provisions. Wherever legal compliance and Generally Accepted Accounting Principles are in conflict, the statements reflect legal compliance, however supplemental disclosures have been provided.

b) Valuation of assets:

Asset values are stated at cost except that bonds held by trust funds are adjusted for accretion and amortization. Receivables are reduced by allowances for possible losses. The cost of plant and equipment in Enterprise and Intragovernmental Service Funds is subject to straight line depreciation or amortization.

FOOTNOTES

c) Leases:

The State is party to various leases, principally for office space. The terms of all such leases expressly provide that the State shall not be obligated to pay any sums except where payment is provided by appropriation. The estimated total annual commitment for rental space is \$2.3 million for all funds. Rental of real property is recorded on a cash basis.

d) Retirement Plan:

State employees and teachers are eligible to participate in the Maine State Employees' Retirement System, which provides for retirement benefits in lieu of Social Security. The State's Contribution to the System was \$21 million in fiscal year 1976. The estimated amount required to complete the funding of prior service and past membership costs (over approximately 28 years) under the plan is \$495 million as actuarially recalculated at June 30, 1975.

IV. LITIGATION AND CONTINGENCIES

The State, its agencies or officials are parties to numerous legal proceedings, the ultimate disposition of which is not presently determinable. A summary of the more significant litigation follows:

United States of America v. State of Maine.

The United States has filed two suits in United States District Court for the District of Maine on behalf of the Passamaquoddy and Penobscot Tribes claiming \$150 million damages for alleged wrongful takings of land from said tribes by the States of Maine and Massachusetts. Both actions were commenced in July, 1972, at the order of the District Court in order to toll the applicable federal statute of limitations. The United States has not now decided whether it will pursue the suits against the State. However, the U. S. Department of Interior has submitted a draft report to the Department of Justice requesting an action for ejectment and money damages against all persons residing or claiming land in the claim area, including the State. The claim area identified in the draft report is roughly 10.5 million acres comprising the eastern 50% of the State. The report has not been finalized and is subject to review by the Justice Department.

The Attorney General has undertaken extensive research on the merits of the claim for damages or land. Based on that research he is of the opinion that there are good and valid defenses to such suit and that the probability of the Tribes' recovering a judgment for substantial land or money is extremely remote.

FOOTNOTES

Davies v. City of Bath.

This case was recently decided by the Maine Supreme Judicial Court and abolished the judicially created doctrine of sovereign immunity in Maine. Effective February 1, 1977, the State will be liable for its tortious actions. This decision will significantly alter future liabilities of the State. However, we understand that legislation is being prepared which may limit such liability. If enacted, the legislation will, of course, reduce the future liability of the State for torts committed by it or its employees or agents.

In addition to the foregoing, there are numerous other suits pending against the State or its authorities, agencies or institutions. In the opinion of either the Attorney General or outside counsel for the agency, the outcome of the proceedings will not have a materially adverse effect on the financial condition of the State.

V. OTHER

Dollar amounts have been truncated to facilitate the presentation of the financial statements, thus columns may not add by immaterial amounts.

The Department of Finance and Administration also publishes an annual compilation of administrative reports which outline the purpose, organizational background and programs of the various State departments and agencies.

GENERAL FUND

The General Fund is the largest of the State's operating funds. Its purpose is to finance all state government activities not specifically financed by dedicated revenues. Undedicated revenues to the General Fund are appropriated by the Legislature to operate such programs as the court system, the Legislature, central administrative services, mental health and correction facilities, the vocational technical institutes, education subsidies, etc. In addition the General Fund provides grants to the University system and is a source of matching dollars for education and human service needs. The fund pays the debt service on approximately sixty-five percent of the State's outstanding bonded debt.

The General Fund balance (unappropriated surplus available for use in subsequent years) was \$5.8 million at June 30, 1976. However, this amount does not reflect approximately \$1.6 million of the State's share of unpaid medical care bills and general assistance payments which had to be paid out of fiscal year 1977 funds due to budgetary limitations. (A similar situation has existed in prior years.) Had these expenditures been recorded as incurred the General Fund balance at June 30, 1976 would have been \$4.2 million. Additionally, the 1976 expenditures do not reflect \$6.4 million of actuarially computed retirement contributions for teachers and \$7.5 million of educational subsidies applicable to 1976 which were appropriated by the Legislature for the 1977 fiscal year.

General Fund revenues increased from \$295 million in 1975 to \$448 million in 1976 principally due to a \$120 million uniform property tax effort which the State collected and redistributed for local education. The school subsidy financing program has been amended to manage only the net revenues from pay-in communities for fiscal years subsequent to 1976. Corporate income taxes also increased substantially during 1976 due to the adoption of a quarterly rather than an annual payment schedule. During this year of conversion a non-recurring acceleration of taxes of \$10 million was achieved. Income from investments decreased substantially in 1976 over the prior year due to the reduced investment balances; yield on investments was 5.83% in 1975 and 5.21% in 1976.

HIGHWAY FUND

All financial transactions related to the State's highway construction and maintenance programs are handled through the Highway Fund. Revenues are generated from the registration of motor vehicles, operators' licenses, gasoline and fuel taxes, and intergovernmental payments. Revenues for 1976 totalled \$111 millions compared to \$104 millions for the prior fiscal year.

Highway Fund expenditures of \$110 millions (\$109 millions in 1975) were made in support of the 21,610 miles of roadway in the State. This amount also includes the cost of the State Police and Motor Vehicle services.

The financial statements at June 30, 1976 do not reflect \$24.4 millions in contracts which have been let by the Department of Transportation in anticipation of \$20.5 millions of matching Federal construction funds. It is anticipated that the matching grants will be received from the Bureau of Public Roads in time to meet the cash requirements as the obligations become due. Summer maintenance contracts of \$2.7 millions have also not encumbered in the 1976 fiscal year. Had these amounts been recorded as committed funds at June 30, 1976, the Highway Fund Balance of \$8.5 millions would have been decreased by \$6.6 millions. A similar situation existed at June 30, 1975, although no estimate of such unrecorded commitments is available.

There were no new Highway Bonds issued in 1976. Outstanding bonded debt at the end of the fiscal year was \$65,305,000 due in various semi-annual installments through 2005.

FEDERAL REVENUE SHARING FUND

A separate fund of accounts is maintained for Federal Revenue Sharing monies as required by the State and Local Fiscal Assistance Act of 1972. The Act provides that a portion of the individual income taxes paid to the Federal Government will be returned to state and local governmental units through revenue sharing; the State Government receives one-third of the amount allocated by formula to Maine.

Revenue Sharing Funds are available for priority expenditures, however, they may not be used as matching funds for any Federal program. The Legislature has directed that the 1976 funds be used to defray operating expenditures of public schools on the local level.

OTHER SPECIAL REVENUE FUNDS

"Other Special Revenue Funds" are a grouping of various special purpose funds which have been established on a self-supporting basis. Revenues are generated by taxes, licenses and fees and include intergovernmental payments. Expenditure of special revenue funds can only be made in accordance with the restrictions imposed by the revenue source; funds cannot be transferred between programs.

The largest single fund is the Employment Security Fund. Revenues collected from employers' payroll taxes and interest totalled \$65 millions in 1976 and \$42 millions in 1975. This amount was supplemented by a \$14.9 millions advance from the Federal Unemployment Insurance Trust Fund in 1976 in order to pay benefits of \$78.8 millions (1975 benefits totalled \$61 millions).

The State revenue sharing program is operated as a special revenue account. Four percent of the State's sales and income tax collections (\$9 millions in 1976 and \$8 millions in 1975) are returned to local governments according to a distribution formula based on population, local valuation, and taxing effort.

Federal matching funds and grants in support of manpower planning (CETA), educational and human service programs are administered as special revenue funds.

Other funds promote development and conservation of natural resources such as the Inland Wildlife and Fisheries programs, promotion of Maine products, etc.

PROCEEDS OF BONDS FUNDS

General obligation and self-liquidating bond proceeds are recorded in the Proceeds of Bonds Funds. (Highway bond proceeds are reflected in the Highway Fund in conjunction with the regular highway construction program.) In some instances the proceeds are supplemented by regular Legislative appropriation and Federal matching funds. During the 1976 fiscal year, general obligation were issued in the amount of \$19,445,000 and expenditures of \$24,072,751 were made from these funds.

ENTERPRISE FUNDS

Enterprise funds are used to account for activities which provide services to the general public on a user-charge basis. Such funds are largely intended to be self-supporting, thus the enterprise accounts include fixed assets, depreciation and debt service.

The largest enterprise fund is operated by the Bureau of Alcoholic Beverages. Other significant enterprise operations include the Maine Guarantee Authority, the State Lottery, and the State-operated airport, ferry service and pier.

Outstanding debt relating to Ferry Service bonds totalled \$900,000 at June 30, 1976. The amount is repayable in varying installments through 1985.

INTRAGOVERNMENTAL SERVICE FUNDS

Intragovernmental service funds provide centralized services for all other funds. Principal funds of this type provide for computer services, motor pool, and postal, printing and supply services. Revenues are derived from user agencies on a cost-reimbursement basis. Working capital advances have been provided from the Highway and General Funds.

- (A) Investments are recorded at cost less amortization of premiums or accretion of discounts on bonds. The market value of the securities held by the Maine State Retirement System at June 30, 1976 exceeded the adjusted cost by \$11,832,139.
- (B) The Maine State Retirement System is a contributory, defined benefit plan covering all full time permanent State employees, public school teachers and employees of participating local districts. Teacher retirement contributions in 1976 were \$6.8 million less than the amount actuarially determined, however these funds were restored from 1977 appropriations and paid to the System subsequent to June 30, 1976. The unfunded benefit reserve applicable to employees whose benefits are funded by the State at June 30, 1975 (the latest available actuarial valuation date) approximated \$495 million. Additional data including the full report of the actuary is contained in the annual report of the Maine State Retirement System.

GENERAL LONG TERM DEBT

The General Long Term Debt accounts are utilized to account for the long term liabilities which are intended to be repaid by appropriations, income from short term investments and student fees. Debt of Enterprise Funds is not included even though it is of a general obligation nature because it is only contingently payable from the operating funds.

GENERAL LONG TERM DEBT

COMPARATIVE BALANCE SHEET

	JUNE 30	
	1976	1975
ASSETS AND AMOUNTS TO BE PROVIDED FOR THE		
RETIREMENT OF GENERAL BONDS		
Amounts to be Provided from future Revenue for Retirement of Bonds	\$278,325,000	\$276,560,000
Bonds Authorized - Not Issued	66,073,000	65,268,000
Bonds Authorized - Not Issued - Contingent (A)	77,653,725	118,648,500
	<u>\$422,051,725</u>	<u>\$460,476,500</u>
LIABILITIES AND RESERVES		
Bonds Payable	\$278,325,000	\$276,560,000
Amount Due Funds from Proceeds of Bonds Authorized - Not Issued:		
Allocated	36,100,000	39,100,000
Unallocated	29,973,000	26,168,000
Contingent (A)	77,653,725	118,648,500
	<u>\$422,051,725</u>	<u>\$460,476,500</u>

(A) Issuance contingent upon default by the borrower. Amount guarantees a maximum of \$57,000,000 for the Maine Guarantee Authority, \$25,000,000 for the School Building Authority, \$4,000,000 for Student Loans, \$2,000,000 for loans to Veterans and \$1,000,000 for Loans for Housing of Indians. Bonds totaling \$15,301,500 have been issued for the Maine Guarantee Authority, \$800,000 for Student Loans, and \$17,220,000 for the School Building Authority. At June 30, 1976 the outstanding Bonds for the Maine Guarantee Authority was \$10,546,275 and \$9,164,000 for the School Building Authority. Public Laws of 1975, effective October 1, 1975 reduced the maximum amount guaranteed by the Maine Guarantee Authority by \$40,000,000.

GENERAL FIXED ASSETS

This group of accounts is used to record the cost of land, buildings, improvements and equipment which are not accounted for in Enterprise, Intragovernmental Service or Trust and Agency Funds. For inclusion in this group of accounts, the asset must be tangible in nature, have a life of more than one year and cost in excess of \$50.

This group of accounts provides information needed for planning an effective maintenance program, preparation of budget requests for replacements and additions, providing adequate insurance coverage and fixing the responsibility for custody of the assets.

These statements of fixed assets have been prepared as of June 30, 1975 and include an analysis of additions and deletions for the year then ended (12 months preceding the other statements in this report). Also due to incomplete reporting not all General Fixed Assets of the State are included. For example, the cost of highways and bridges are not included. Although the reports are not as complete as desired, they have proved useful and progress has been made toward the goal of complete and accurate reporting of General Fixed Assets.
