# GENERAL NOTES TO THE FINANCIAL STATEMENTS

## I. GENERAL

Maine is the largest and most northern of the six New England states. Its land area of approximately 30,147 square miles supports over one million year-round residents. The State's economy is based on manufacturing - principally paper, lumber, textile and processed food products. Farming, fishing and tourism are also important industries.

The government of the State of Maine is divided into three distinct departments, the legislature, executive and judicial. The legislative body consists of 33 Senators and 151 members of the House of Representatives, all of whom are elected for two year terms. The Governor is elected to a four year term of office.

## II. FISCAL ENTITY DEFINED

The State of Maine, as a fiscal entity, consists of all the various State agencies whose funding and daily operating policies are subject to review by the Legislature and/or Executive. Quasi-governmental units such as the following independently administered public authorities are not part of the State for purposes of centralized accounting or these financial statements:

University of Maine	Maine Health Facilities Authority
Maine Maritime Academy	Maine Housing Authority
Maine Turnpike Authority	Maine School Building Authority
Maine Municipal Bond Bank	

## III. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) The diverse nature of governmental operations and the necessity of determining legal compliance preclude a single, unified set of accounts for recording and summarizing all of the financial transactions of the State of Maine. Instead, the required accounts are organized on the basis of funds, each of which is completely independent of any other. Each fund is accounted so that the identity of its resources, obligations, revenues, expenditures and fund equity is continually maintained. The following funds are used by the State of Maine.

<u>Governmental Funds</u>	<u>Other Funds</u>
General Fund	Enterprise Funds
Highway Fund	Internal Service Funds
Other Special Revenue Funds	Trust and Agency Funds
Proceeds of Bonds (Capital Projects) Funds	
Debt Service Funds	

Fixed Asset and Long Term Debt account groups are maintained to identify the cost of State-owned property, plant and equipment, and long term debt.

b) Budgets: Biennial budgets for all Governmental Funds and larger other funds are prepared in even years. The budget process establishes a balancing of estimated revenues and other available resources with appropriations and authorizations. Unexpended funds that are not committed at the end of the fiscal year lapse to the unappropriated fund balance unless otherwise specified by law.

c) Basis of Accounting: Both the modified accrual and full accrual basis of accounting are used to record the various segmented operations of the State, as appropriate. Modified accrual accounting (used principally by the Governmental Funds) results in the recognition of only liquid assets readily convertible to cash and short term liabilities which will be paid by use of those assets. Revenues are recorded when measurable and available and expenditures are generally recorded in the period in which the goods or services are received. Commitments (encumbrances) for goods or services to be received in the future are recorded as a reservation of fund equity and are carried forward to subsequent years.

The accounts of the Enterprise Funds, Internal Service Funds and Expendable Trust Funds are maintained and reported on an accrual basis. Accrual accounting is used to record operations when it is important to match revenues in the period in which the goods or services generating those revenues were provided.

d) Valuation of Assets and Liabilities

i) Investments: Investments are carried at cost, which approximates market.

ii) Inventories: Inventories of Enterprise and Internal Service Funds are stated generally at the lower of cost (first-in, first-out) or market.

iii) Property, Plant and Equipment: Property, plant and equipment are stated at cost or estimated cost when original cost is not available. Capital assets of the Enterprise and Internal Service Funds are amortized by the straight-line method of depreciation over the estimated life of the asset.

Purchases of capital equipment are expenses in the Governmental Funds.

iv) Personnel service costs are expensed when paid. In addition to the normal carryover of June wages and salaries paid in early July, there was approximately \$9.75 million of unrecorded employee vacation benefits at June 30, 1981.

IV. TREASURER'S CASH POOL

The State Treasurer combines all available cash for investment purposes. Earnings from the temporary investments are distributed to the participating funds based on daily average cash balances. Components at June 30, 1981 are summarized as follows (in thousands of dollars):

<u>Description</u>	<u>Maturity</u>	<u>Interest Rate</u>	<u>Principal</u>	<u>Cost</u>
U. S. Treasury Bills	1981	16.15 - 16.29%	\$ 10,058	\$ 9,561
Repurchase Agreements	1981	16.25 - 18.00%	6,400	6,400
Prime Rated Commercial Paper	1981	17.75 - 18.00%	81,500	74,525
Certificates of Deposit	1982	15.00 - 16.00%	80,505	80,505
				<u>171,081</u>
Excess Demand Cash over Investments				<u>13,152</u>
Total Treasurer's Demand Cash - All Funds	June 30, 1981			<u>\$ 184,233</u>

V. PENSIONS PLANS

State employees, local teachers and employees of participating local governmental units are eligible to participate in the Maine State Employees' Retirement System, which provides for retirement and other benefits. Generally retirement expense is comprised of the actuarially determined normal cost plus an amount accrued. The State's contribution to the System for State employees and teachers was \$59 million in 1981.

At June 30, 1980 (the latest valuation date), the unfunded accrued benefits for State employees and teachers were approximately \$942 million. The actuarially computed value of vested benefits is not available. The report of the consulting actuary for the system indicates that, under the actuarial assumptions used for the actuarial valuation, the contributions of employees and the State, together with investment income, will provide for the cost of unfunded accrued benefits within twenty-five years.

VI. BONDS PAYABLE

General obligation bonds outstanding at June 30, 1981 totalled \$259,840,000. The source of repayment and annual maturities are as follows (in thousands of dollars):

DEBT SERVICE REQUIREMENTS TO MATURITY

	<u>\$ 258,970</u>	<u>\$ 550</u>	<u>\$ 93,773</u>	<u>\$ 224</u>

In addition to the above schedule, General Purpose Mini Bonds in the amount of \$937,917 were issued from July 28 to August 1st, 1980. These bonds are payable upon presentation and mature not later than August 1st, 1985. At June 30, 1981 there was \$869,643 still outstanding with a potential interest liability of \$225,672.

Authorized and unissued bonds at June 30, 1981 totalled \$150,067,546.

VII. COMMITMENTS AND CONTINGENCIES

a) Leases: The State is a party to various leases, principally for office space. The terms of all such leases expressly provide that the State shall not be obligated to pay any sums except where payment is provided by appropriation.

b) Highway Construction: At June 30, 1981 the Highway Fund had \$33 million of contract commitments that were not recorded on the State records as encumbrances. Of this amount \$22 million is due to be reimbursed by the Federal Government. The remainder 11 million is carried as a portion of the Reserve for Authorized Expenditures - Unencumbered.

c) The State of Maine is contingently liable through the Maine Guarantee Authority and the Maine and Veteran's Small Business Loan Funds (included in the Enterprise Funds) as guarantors of insured mortgages in the amount of \$21.5 million.

d) Litigation:

i) The State of Maine, Department of Transportation has been sued in the Superior Court of Maine by the American Truckers Associations, Inc. seeking a declaration that certain interstate truck user fees payable to the Highway Fund are not constitutional. Pending outcome of this suit, the contested fees, which it has been estimated could amount to 5 or 6 million dollars per annum, are held in escrow.

ii) Individual and class action suits have been filed against the State Tax Assessor in opposition to certain rulings on taxable income. Determinations against the State could require refunds of approximately 3 million dollars of taxes paid in previous years.

iii) A class action suit has been filed by the inmates at the Maine State Prison challenging the conditions of confinement and seeking an order requiring the State to correct certain physical conditions and administrative practices at the prison. In the opinion of the Attorney General, there is some likelihood that the Court may require alteration of certain physical facilities or administrative practices, however the possible costs in such a case cannot be estimated at this time.

iv) The State, its agencies or officials are involved in numerous other legal actions. While the ultimate effect of such actions cannot be ascertained at this time, the liabilities which may arise from such actions would not materially impact the financial position of the State.

e) The State is self-insured with respect to workers' compensation, and records the costs of compensation for claims awarded on a pay-as-you-go basis. The liability for claims asserted but not awarded and claims which may be asserted is not subject to reasonable estimate, however the ultimate liability will not have a material effect on the financial condition or results or operations of the funds of the State of Maine.

VIII. OTHER

For easier reading the cents have been omitted in the accompanying schedules and consequently the detail does not add to the totals in all cases.

# GENERAL FUND

The General Fund is the largest of the State's operating funds. Its purpose is to finance all state government activities not specifically financed by dedicated revenue.

The General Fund unappropriated surplus was \$24.9 million at June 30, 1981. However, this amount does not reflect approximately \$2.0 million of the State's share of unpaid medical care bills and general assistance payments.

General Fund revenues increased from \$522 million in 1980 to \$579 million in 1981 while the expenditures increased from \$524 million to \$573 million.

# HIGHWAY FUND

The Highway Fund is used to account for revenues derived from registration of motor vehicles, operators' licenses, gasoline tax, other dedicated revenues, except for Federal matching funds, and proceeds of bonds. The Federal matching funds and corresponding expenditures are accounted for in the Other Special Revenue Funds.

This Fund is allocated by the Legislature for the operation of the Department of Transportation to construct and maintain highways and bridges, other allied programs and seventy-two percent of the cost of State Police administration.

# ENTERPRISE FUNDS

Enterprise Funds are used to account for activities which provide services to the general public on a user-charge basis. Such funds are largely intended to be self-supporting, thus the enterprise accounts include fixed assets, depreciation and debt service.

The principal Enterprise Funds included:

Bureau of Alcoholic Beverages - The sale of alcoholic beverages is controlled through State-operated stores or licensed agents. Net income from the operation of the Bureau of Alcoholic Beverages is transferred to the General Fund.

Department of Transportation Services - The Department of Transportation operates the Augusta Airport, Maine Pier in Portland and the ferry services in the mid-coastal region of the State. Outstanding debt relating to the ferry service was \$350,000 at June 30, 1981. The amount is repayable in varying installments through 1985 with interest at approximately 3 percent.

Maine Guarantee Authority - The Maine Guarantee Authority is organized to foster individual and recreational expansion through loan guarantees. At June 30, 1981, the Authority was contingently liable as guarantor of insured mortgages in the amount of \$20,144,296. A reserve of \$1,051,350 has been established to provide for future losses on guarantees, acquired property, or notes and accounts receivable.

# TRUST AND AGENCY FUNDS

The Trust and Agency Funds are a grouping of various funds which are administered by the State as trustee or as an agent for the general public. Trust and Agency Funds are classified as either expendable or non-expendable funds.

Expendable funds include the accounts of the Maine State Retirement System, the State Employees Group Life Insurance Fund, interest and other revenue from non-expendable trusts, and various private trusts.

Non-expendable trusts funds consist of endowments for maintenance and preservation of public lands and other donor restrictions.

# GENERAL LONG TERM DEBT

The General Long Term Debt account group is utilized to account for the long term liabilities which are intended to be repaid by appropriations, income from short term investments and student fees.

The general long term debt outstanding at June 30, 1981 totaled \$259,839,643.

Bonded debt related to the Enterprise Funds (\$550,000) is not included in the accompanying statement because it is repayable from the operations of the Maine Ferry Service and the Maine Veterans Home.

# GENERAL FIXED ASSETS

The General Fixed Asset Account Group provides a record of the cost of the land, buildings, improvements and capital equipment which was purchased from Funds other than the Enterprise and Internal Service Funds. The latter Funds maintain their own fixed asset records.

General fixed assets are defined as tangible property having a life of more than one year and costing in excess of \$100. They do not include 1) roads, bridges and related highway systems, 2) display items of the Maine State Museum or 3) property acquired by tax lien. Original construction costs have been researched for buildings back to the mid 1800's; Equipment acquired prior to 1950 has been valued at estimated cost. Additions are recorded at cost. General fixed assets are not subject to depreciation.

The following Statement of General Fixed Assets has been prepared from the Bureau of Public Improvement's summary of agency inventory records as of June 30, 1980 which has been amended to reflect the cost of property and equipment acquired in 1981. Dispositions in 1981 are not believed to be material.
