STATE OF MAINE

DEPARTMENT OF FINANCE AND ADMINISTRATION BUREAU OF ACCOUNTS AND CONTROL

STATE HOUSE
AUGUSTA, MAINE 04333
TELEPHONE (207) 289-3781

Governor Joseph E. Brennan, Members of the Legislature, and Other Citizens of Maine

In accordance with Title 5, MRSA, Section 1547 the accompanying Financial Report of the State of Maine is submitted for the fiscal year ended June 30, 1982.

The statements present the financial position of the various funds of the State, their resources and expenditures for the fiscal year then ended. Comparative budgetary data as well as footnotes and statistical information have been included in this report to promote a better understanding of the State's finances.

In compliance with statutory requirements, the State's accounting records covering the four years ended June 30, 1982, have been audited by Ernst and Whinney, independent public accountants. Their report on the Combined Balance Sheet is contained on the following page. Due to the terms of their engagement requiring an examination of four year rather than annual operating statements, their opinion does not cover the financial statements that relate to revenues and expenditures for the year ended June 30, 1982. However, they have expressed an opinion upon those operating statements which relate to revenues and expenditures for the four years ended June 30, 1982. Copies of those statements and opinion are available at the Bureau of Accounts and Control upon request.

Question or comments about this report are always welcome.

Respectfully submitted,

Morrald a Beaun

Donald A. Brown State Controller

Ernst & Whinney

Two Monument Square Portland, Maine 04101

207/773-3894

Governor Joseph E. Brennan, and Members of the Legislature State of Maine Augusta, Maine

We have examined the combined balance sheet—all funds and the long-term debt account group of the State of Maine as of June 30, 1982, presented on pages 2 and 3 and 22 through 29. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As more fully described in Note 7 to the financial statements, certain accruals were not recorded as required by generally accepted accounting principles. Had these accruals been made in accordance with generally accepted accounting principles, the unappropriated fund balance—general fund would have increased by \$4,718,000 and the unappropriated fund balance—highway fund would have decreased by \$3,096,000 at June 30, 1982.

The general fixed asset account group was not examined by us and, accordingly, we do not express an opinion thereon.

As more fully described in Note 10 to the financial statements, the State is a defendant in numerous lawsuits. It is not possible at this time to determine the ultimate outcome of several of these suits.

In our opinion, except for the effects on the combined balance sheet of not recording certain transactions in accordance with generally accepted accounting principles as described in the second paragraph above, and subject to the effects, if any, on the combined balance sheet of the ultimate resolution of the various lawsuits referred to in the fourth paragraph, the combined balance sheet—all funds and the general long-term debt account group presents fairly the financial position of such funds and the general long-term debt account group of the State of Maine as of June 30, 1982, in conformity with generally accepted accounting principles applied on a consistent basis.

The terms of our engagement requires an examination of four year rather than annual operating statements. Therefore, the financial statements included on pages 4 through 21 and 31 through 133 which relate to revenues or expenditures for the year ended June 30, 1982 have not been separately examined by us and, accordingly, we express no opinion on them. However, we have expressed an opinion on the operating statements for the four years ended June 30, 1982.

Portland, Maine December 17, 1982

Ernst + Whinney

GENERAL NOTES TO THE FINANCIAL STATEMENTS

STATE OF MAINE

Maine is the largest and most northern of the six New England states. Its land area of approximately 30,147 square miles supports over one million year-round residents. The State's economy is based on manufacturing principally paper, lumber, textile and processed food products. Farming, fishing and tourism are also important industries.

The government of the State of Maine is divided into three distinct departments, the legislature, executive and judicial. The legislative body consists of 33 Senators and 151 members of the House of Representatives, all of whom are elected for two year terms. The Governor is elected to a four year term of office.

GENERAL COMMENTS

The General Purpose Financial Statements and accompanying notes provide an overview of the financial position of the State and operating results for the four years ended June 30, 1982. The financial statements include all activities and programs that are controlled by or dependent on the State's executive or legislative branches. Control by or dependence on the State was determined on the basis of budget adoption, taxing authority, outstanding debt secured by revenues or general obligation of the State, and the State's obligation to fund any deficits that may occur.

Based on the foregoing criteria, the following activities and programs are excluded from the State's financial statements:

University of Maine Maine Maritime Academy Maine Turnpike Authority Maine School Buildir Maine Municipal Bond Bank Maine Veterans Home

Maine Health Facilities Authority Maine Housing Authority Maine School Building Authority

NOTE 1--FINANCIAL STATEMENTS AND DESCRIPTIONS OF FUNDS AND ACCOUNT GROUPS

Financial Statements: The accompanying financial statements of the State of Maine present the financial position of the various fund types and account groups, the results of operations of the various fund types and the changes in financial position of the proprietary funds and fiduciary funds.

Fund Accounting: Generally accepted accounting principles require that governmental operations be reflected in several funds or account groups, each of which is considered a separate fiscal and accounting entity with selfbalancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, including interfund balances and transactions.

Types of Funds: The following funds and account groups are used by the State:

GOVERNMENTAL FUNDS

General Fund--to account for all financial resources except those to be accounted for in another fund.

NOTE 1--FINANCIAL STATEMENTS AND DESCRIPTIONS OF FUNDS AND ACCOUNT GROUPS - Continued

Special Revenue Funds--to account for the proceeds of specific revenue sources that are expended for specified purposes.

Highway Fund—to account for revenues derived from registration of motor vehicles, operators' licenses, gasoline tax, and other dedicated revenues (except for federal matching funds and proceeds of bonds.) This fund is allocated by the Legislature for the operation of the Department of Transportation to construct and maintain highways and bridges, other allied programs and a portion of the State Police administration.

Other Special Revenue Fund--to account for various special purpose funds which have been established on a self-supporting basis. Revenues are generated by taxes, licenses, fees and federal matching funds and grants. Expenditures of these funds can only be made in accordance with the restrictions improved by the source of the revenues.

Proceeds of Bonds Fund—to account for the proceeds of general obligation and self-liquidating bonds.

Debt Service Fund--to account for the accumulation of resources for, and the payment of general long-term debt principal and interest.

PROPRIETARY FUNDS

Enterprise Funds—to account for the operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs of providing services on a continuing basis be financed or recovered primarily through user charges.

Bureau of Alcoholic Beverages--The sale of alcoholic beverages is controlled through State operated stores and licensed agents. Net income from the Bureau is transferred to the General Fund.

Department of Transportation Services--The Department of Transportation operates the Augusta State Airport and the ferry services along the mid-coastal region of the State.

Maine Guarantee Authority--The Maine Guarantee Authority is organized for fostering industrial and recreational expansion through loan guarantees.

Internal Service Funds--Tn account for centralized services provided to other funds. Revenues are derived from user agencies on a cost reimbursement basis.

NOTE 1--FINANCIAL STATEMENTS AND DESCRIPTIONS OF FUNDS AND ACCOUNT GROUPS-Continued

FIDUCIARY FUNDS

Trust and Agency Funds—The Trust and Agency Funds are a grouping of various funds which are administered by the State as trustee or as an agent for the general public.

ACCOUNT GROUPS

General Long-Term Debt--To account for the liabilities which do not require an appropriation or expenditure during the current fiscal year.

General Fixed Assets--To provide a record of the cost of the land, buildings, improvements and capital equipment purchased by Governmental Funds, except for highways and bridges. The Enterprise and Internal Service funds maintain separate fixed asset records.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accounts of all Governmental Funds are maintained and reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues and assets are recognized when measurable and available to finance operations during the year; expenditures and liabilities are recognized when obligations are incurred as a result of receipt of goods or services. Modification to the accrual basis of accounting include:

Self-assessed taxes, principally income and sales and use taxes, are recorded as revenues when reported to the state.

Interest on long term debt is recognized as an expenditure when it becomes due.

Obligations for employees' vested annual leave and sick leave are recorded as expenditures when paid.

The accounts of the Enterprise Funds and Internal Service Funds are maintained and reported on the accrual basis of accounting.

Equity in Treasurer's Cash Pool: The Treasurer's Cash Pool, comprised primarily of short-term certificates of deposit, repurchase agreements, U. S. Treasury Bills and U. S. Treasury Notes, are stated at cost which approximates market value.

<u>Investments:</u> Investments are stated at cost or fair market value at date of donation.

NOTE2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

<u>Deposits with United States Treasury:</u> The federal government requires that unemployment tax receipts be deposited with the United States Treasury. Funds are drawn down as benefits are paid.

<u>Inventories:</u> Inventories are stated at the lower of cost (first-in, first-out method) or market.

Land, Buildings and Equipment: Land, buildings and equipment are recorded at cost. Depreciation of the buildings, improvements and equipment in the Enterprise and Internal Service funds is computed on the straight-line method in a manner intended to amortize the cost of the assets over their estimated useful lives.

Expenditures which materially increase values, change capacities or extend useful lives are capitalized. Repairs and maintenance are charged to operations as incurred.

<u>Due to Federal Government:</u> The State has received funds from the federal government which were used to finance certain unemployment compensation costs. This liability is being repaid by additional assessments of unemployment taxes.

Encumbrances: Contracts and purchase commitments are recorded as encumbrances when the contract purchase order is executed. Upon receipt of goods or services the encumbrance is liquidated and the expenditure and liability are recorded. Unliquidated encumbrances are reported in the encumbrances and appropriations carried account.

Interfund Transactions: Various departments and funds charge fees on a user basis for such services as centralized computer services, accounting and auditing, purchasing, personnel and maintenance. These fees are recorded as revenue by the servicing department and as expenditures by the user department.

<u>Lease Commitments:</u> The State has lease commitments which extend forward a number of years. However, these leases are subject to continuing appropriations and may, therefore, be terminated without penalty if funds are not appropriated.

Grants: Certain federal grants, made on the basis of entitlement, are recorded upon receipt of funds. Other federal grants, made on a reimbursement basis, are recorded as receivables and revenues when the related expenditues are incurred.

NOTE 3--EQUITY IN TREASURER'S CASH POOL

The State pools all available cash for investment purposes. Each fund's equity share of the total pooled cash and investments is included on the accompanying balance sheets under the caption "Equity in Treasurer's Cash Pool". The State's temporary investments at June 30, 1982 include certificates of deposit.

NOTE 3--EQUITY IN TREASURER"S CASH POOL--Continued

U. S. Treasury Bills, U. S. Treasury Notes and repurchase agreements. Investments are carried at cost.

2002-2006	3,005	_	193	_
	\$ 252 , 525	\$ 240	\$ 96,598	\$ 7

NOTE 6--BONDS PAYABLE--Continued

In addition to the above schedule, General Purpose Mini Bonds in the amount of \$937,917 were issued from July 28 to August 1st, 1980. These bonds are payable upon presentation and mature not later than August 1st, 1985. At June 30, 1982 there was \$751,755 still outstanding with a potential interest liability of \$263,440.

NOTE 7--RECONCILIATION OF FUND EQUITY

The State records transactions on an appropriations basis and may not conform to the requirements of generally accepted accounting principles. At June 30, 1982, the material differences are as follows:

- 1. Recording of certain sales tax revenues when received (budgeted and recorded in the next fiscal year) rather than when measurable and available for current obligations.
- 2. Recording of payrolls as paid rather than as the work is expended by the employees.
- 3. Recording certain Human Service claims and related Federal reimbursements as received rather than as incurred for services performed prior to June 30 with invoices not received until the next fiscal year.
- 4. Recording certain obligations as encumbrances and appropriations carried rather than as accounts payable.

The following is a summary of the effects of the above described transactions on fund equity in the General Fund, the Highway Fund and Other Special Revenue Funds at June 30, 1982. The impact on the remaining funds is considered immaterial and is not presented.

	General Fund	Highway Funds	Other Special Revenue Funds
Fund equity at June 30, 1982 per combined balance sheet Receivables Accounts payable Accrued payroll Claims incurred but not reported	\$ 49,432,972 22,191,000 (1,680,000) (5,073,000) (11,300,000)	\$ 20,219,729 (6,121,000) (2,646,000)	19,000,000 (994,000)
Fund equity at June 30, 1982, adjusted to conform with generally accepted accounting principles	\$ 53,570,972	\$ <u>11,452,729</u>	\$ <u>30,586,440</u>

NOTE 8--PENSION PLANS

State employees, local teachers and employees of participating local governmental units are eligible to participate in the Maine State Employees' Retirement System, which provides for retirement and other benefits. Generally, retirement expense is comprised of the actuarially determined normal cost plus an amount accrued. The State's contribution to the System for State employees and teachers was \$82.6 million in 1982.

At June 30, 1982, the unfunded accrued benefits for State employees and teachers were approximately \$1,077 million. The actuarially computed value of vested benefits is not available. The report of the consulting actuary for the system indicates the contributions of employees and the State, together with investment income, will provide for the cost of unfunded accrued benefits within 17.7 years.

NOTE 9--CONTINGENCIES

The State is contingently liable for debt guaranteed by the Maine Guarantee Authority, the Veterans Small Business Loan Fund and the Maine Small Business Loan Fund. The Total debt upon with the State is contingently liable at June 30, 1982 aggregates \$21,546,000 and represents insured mortgages and conditional commitments.

NOTE 10--LITIGATION

The State, its officers and employees are defendants in various significant lawsuits. Legal counsel for the State as well as its various authorities and agencies have reviewed the status of pending litigation and are unable to determine the amount of probable loss to the State in these matters. Accordingly, no provision has been made in the accompanying financial statements for losses which may arise from the settlement or adjudication of the aforementioned matters, either individually or in the aggregate.

The General Fund is the largest of the State's operating funds. Its purpose is to finance all state government activities not specifically financed by dedicated revenue.

The General Fund unappropriated surplus was \$18.8 million at June 30, 1982 as compared to \$24.9 at June 30, 1981.

Revenues increased from \$579' million in 1981 to \$640 million in 1982 while the expenditures increased from \$573 million to \$640 million.

2001	\$\frac{450,000}{160,465,000}	$\$ \frac{40,500}{49,655,372}$

In addition to the above schedule, General Purpose Mini Bonds in the amount of \$937,917 were issued from July 28th to August 1st, 1980. These bonds are payable upon presentation and mature not later than August 1st, 1985. At June 30, 1982 there was \$751,755 still outstanding with a potential interest liability of \$263,440.

The Highway Fund is used to account for revenues derived from registration of motor vehicles, operators' licenses, gasoline tax, other dedicated revenues, except for Federal matching funds, and proceeds of bonds. The Federal matching funds and corresponding expenditures are accounted for in the Other Special Revenue Funds.

This Fund is allocated by the Legislature for the operation of the Department of Transportation to construct and maintain highways and bridges, other allied programs and seventy-two percent of the cost of State Police administration.

OTHER SPECIAL REVENUE FUNDS

Other Special Revenue Funds are a grouping of various purpose funds which have been established on a self-supporting basis. Revenues are generated by taxes, licenses, fees and Federal matching funds and grants. Expenditures of these funds can only be made in accordance with restrictions imposed by the source of the revenues.

PROCEEDS OF BONDS FUNDS

General obligation and self-liquidating bond proceeds are recorded in the Proceeds of Bonds Funds. (Highway bond proceeds are reflected in the Highway Fund in conjunction with the regular highway construction program). During the 1982 fiscal year general obligation bonds in the amount of \$19,380,000 were issued. \$11,500,000 of these bonds is accounted for in the Highway Fund.

Enterprise Funds are used to account for activities which provide services to the general public on a user-charge basis. Such funds are largely intended to be self-supporting, thus the enterprise accounts include fixed assets, depreciation and debt service.

The principal Enterprise Funds included:

<u>Bureau of Alcoholic Beverages</u> - The sale of alcoholic beverages is controlled through State-operated stores or licensed agents. Net income from the operation of the Bureau of Alcoholic Beverages is transferred to the General Fund.

Department of Transportation Services - The Department of Transportation operates the Augusta Airport, Maine Pier in Portland and the ferry services in the mid-coastal region of the State. Outstanding debt relating to the ferry service was \$240,000 at June 30, 1982. The amount is repayable in varying installments through 1985 with interest at approximately 3 percent.

Maine Guarantee Authority - The Maine Guarantee Authority is organized to foster individual and recreational expansion through loan guarantees. At June 30, 1982, the Authority was contingently liable as guarantor of insured mortgages in the amount of \$17,869,321. A reserve of \$3,004,343 has been established to provide for future losses on guarantees, acquired property, or notes and accounts receivable.

The Trust and Agency Funds are a grouping of various funds which are administered by the State as trustee or as an agent for the general public. Trust and Agency Funds are classified as either expendable or non-expendable funds.

Expendable funds include the accounts of the Maine State Retirement System, the State Employees Group Life Insurance Fund, interest and other revenue from non-expendable trusts, and various private trusts.

Non-expendable trust funds consist of endowments for maintenance and preservation of public lands and other donor restrictions.

The General Long Term Debt account group is utilized to account for the long term liabilities which are intended to be repaid by appropriations, income from short term investments and student fees.

The general long term debt outstanding at June 30, 1982 totaled \$253,277,000.

Bonded debt related to the Enterprise Funds (\$240,000) is not included in the accompanying statement because it is repayable from the operations of the Maine Island Ferry Service.

GENERAL FIXED ASSETS

The General Fixed Asset Account Group provides a record of the cost of the land, buildings, improvements and capital equipment which was purchased from Funds other than the Enterprise and Internal Service Funds. The latter Funds maintain their own fixed asset records.

General fixed assets are defined as tangible property having a life of more than one year and costing in excess of \$100. They do not include 1) roads, bridges and related highway systems, 2) display items of the Maine State Museum or 3) property acquired by tax lien. Original construction costs have been researched for buildings back to the mid 1800's; Equipment acquired prior to 1950 has been valued at estimated cost. Additions are recorded at cost. General fixed assets are not subject to depreciation.

The following Statement of General Fixed Assets has been prepared from the Bureau of Public Improvement's summary of agency inventory records as of June 30, 1981 which has been amended to reflect the cost of property and equipment acquired in 1982. Disposition in 1982 are not believed to be material.
