Governor Joseph E. Brennan,
Members of the Legislature,
and Other Citizens of Maine

In accordance with Title 5, Maine Revised Statutes Annotated, section 1547, the accompanying Financial Report of the State of Maine is submitted for the fiscal year ended June 30, 1985.

The first section of the report consists of the General Purpose Financial Statements for all funds reported in accordance with generally accepted accounting principles. Generally accepted accounting principles for the Governmental Funds uses the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as current assets. Expenditures are generally recognized when the related fund liability is incurred. Exceptions to this general rule include accumulated unpaid vacation and sick leave and principal and interest on general long term debt which is recognized when due.

The second section is reported as it has been in the past, based upon the budgetary and legal requirements. Please refer to Note 7 of the General Notes to the Financial Statements for the reconciliation of the fund balances between the two sections. Comparative budgetary data and statistical information have also been included in this report to promote a better understanding of the State's finances.

Questions and comments about this report or any phase of state finances are always welcome.

Respectfully submitted,

A handwritten signature in cursive script, reading "Sandra J. Crockett".

Sandra J. Crockett
State Controller

GENERAL NOTES TO THE FINANCIAL STATEMENTS

STATE OF MAINE

Maine is the largest and most northern of the six New England states. Its land area of approximately 33,215 square miles supports over one million year-round residents. Maine's shoreline is the longest on the east coast, extending nearly 3,500 miles.

The structure of the Maine economy is very similar to that of the nation as a whole, except that Maine has proportionately more activity in manufacturing (particularly in the paper and shoe industries) and tourism, and less activity in finance and mining.

In recent years, the Maine economy has outperformed the nation's by most measures. Employment growth has been faster in Maine for several years, and in 1984, unemployment in Maine was below the national average for the fourth consecutive year. Also, the State has improved its per capita income ranking from 46th in 1978 to 39th in 1983. And, not surprisingly, retail sales growth in Maine has consistently surpassed the national average in recent years.

The government of the State of Maine is divided into three distinct branches; the legislative, executive and judicial. The Legislative body consists of 35 Senators and 151 members of the House of Representatives, all of whom are elected for two year terms. The Governor is elected to a four year term of office.

GENERAL COMMENTS

The General Purpose Financial Statements and accompanying notes provide an overview of the financial position of the State and operating results for the year then ended June 30, 1985. The financial statements include all activities and programs that are controlled by or dependent on the State's executive or legislative branches. Control by or dependence on the State was determined on the basis of budget adoption, taxing authority, outstanding debt secured by revenues or general obligation of the State, and the State's obligation to fund any deficit that may occur.

Based on the foregoing criteria, the following activities and programs are excluded from the State's financial statements:

University of Maine	Finance Authority of Maine
Maine Maritime Academy	Maine Housing Authority
Maine Turnpike Authority	Maine School Building Authority
Maine Municipal Bond Bank	Maine Veterans Home
Maine Health/Higher Education Facilities Authority	

NOTE 1--FINANCIAL STATEMENTS AND DESCRIPTIONS OF FUNDS AND ACCOUNT GROUPS

Financial Statements: The accompanying financial statements of the State of Maine present the financial position of the various fund types and account groups, the results of operations of the various fund types and the changes in financial position of the proprietary funds and fiduciary funds.

NOTE 1--FINANCIAL STATEMENTS AND DESCRIPTIONS OF FUNDS AND ACCOUNT
GROUPS - Continued

Fund Accounting: Generally accepted accounting principles require that governmental operations be reflected in several funds or account groups each of which is considered a separate fiscal and accounting entity with self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, including interfund balances and transactions.

Types of Funds: The following funds and account groups are used by the State:

GOVERNMENTAL FUNDS

General Fund--to account for all financial resources except those to be accounted for in another fund.

Special Revenue Funds--to account for the proceeds of specific revenue sources that are expended for specified purposes.

Highway Fund--to account for revenues derived from registration of motor vehicles, operators' licenses, gasoline tax, and other dedicated revenues (except for federal matching funds). This fund is allocated by the Legislature for the operation of the Department of Transportation to construct and maintain highways and bridges, other allied programs and a portion of the State Police administration.

Other Special Revenue Fund--to account for various special purpose funds which have been established on a self-supporting basis. Revenues are generated by taxes, licenses, fees and federal matching funds and grants. Expenditures of these funds can only be made in accordance with the restrictions imposed by the source of the revenues.

Proceeds of Bonds Fund--to account for the proceeds of general obligation and self-liquidating bonds.

Debt Service Fund--to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

PROPRIETARY FUNDS

Enterprise Funds--to account for the operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs of providing services on a continuing basis be financed or recovered primarily through user charges.

Bureau of Alcoholic Beverages--The sale of alcoholic beverages is controlled through State operated stores and licensed agents. Net income from the Bureau is transferred to the General Fund.

NOTE 1--FINANCIAL STATEMENTS AND DESCRIPTIONS OF FUNDS AND ACCOUNT GROUPS - Continued

Department of Transportation Services--The Department of Transportation operates the Augusta State Airport and the ferry services along the mid-coastal region of the State.

Internal Service Funds--To account for centralized services provided to other funds. Revenues are derived from user agencies on a cost reimbursement basis.

FIDUCIARY FUNDS

Trust and Agency Funds--The Trust and Agency Funds are a grouping of various funds which are administered by the State as trustee or as an agent for the general public.

ACCOUNT GROUPS

General Long-Term Debt--To account for the liabilities which do not require an appropriation or expenditure during the current fiscal year.

General Fixed Assets--To provide a record of the cost of the land, buildings, improvements and capital equipment purchased by Governmental Funds, except for highways and bridges. The Enterprise and Internal Service funds maintain separate fixed asset records.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accounts of all Governmental Funds are maintained and reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues and assets are recognized when measurable and available to finance operations during the year; expenditures and liabilities are recognized when obligations are incurred as a result of receipt of goods or services. Modification to the accrual basis of accounting include:

Self-assessed taxes, principally income and sales and use taxes, are recorded as revenues when reported to the state.

Interest on long term debt is recognized as an expenditure when it becomes due.

Obligations for employees' vested annual leave and sick leave are recorded as expenditures when paid.

The accounts of the Enterprise Funds and Internal Service Funds are maintained and reported on the accrual basis of accounting.

Equity in Treasurer's Cash Pool: The Treasurer's Cash Pool, comprised primarily of short-term certificates of deposit, repurchase agreements, U.S. Treasury Bills and U.S. Treasury Notes, are stated at cost which approximates market value.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Investments: Investments are stated at cost or fair market value at date of donation.

Deposits with United States Treasury: The federal government requires that unemployment tax receipts be deposited with the United States Treasury. Funds are drawn down as benefits are paid.

Inventories: Inventories are stated at the lower of cost (first-in, first-out method) or market.

Land, Buildings and Equipment: Land, buildings and equipment are recorded at cost. Depreciation of the buildings, improvements and equipment in the Enterprise and Internal Service funds is computed on the straight-line method in a manner intended to amortize the cost of the assets over their estimated useful lives.

Expenditures which materially increase values, change capacities or extend useful lives are capitalized. Repairs and maintenance are charged to operations as incurred.

Encumbrances: Contracts and purchase commitments are recorded as encumbrances when the contract purchase order is executed. Upon receipt of goods or services, the encumbrance is liquidated and the expenditure and liability are recorded. Unliquidated encumbrances are reported in the encumbrances and appropriations.

Interfund Transactions: Various departments and funds charge fees on a user basis for such services as centralized computer services, accounting and auditing, purchasing, personnel and maintenance. These fees are recorded as revenue by the servicing department and as expenditures by the user department.

Lease Commitments: The State has lease commitments which extend forward a number of years. However, these leases are subject to continuing appropriations and may, therefore, be terminated without penalty if funds are not appropriated.

Grants: Certain federal grants, made on the basis of entitlement, are recorded upon receipt of funds. Other federal grants, made on a reimbursement basis, are recorded as receivables and revenues when the related expenditures are incurred.

NOTE 3--EQUITY IN TREASURER'S CASH POOL

The State pools all available cash for investment purposes. Each fund's equity share of the total pooled cash and investments is included on the accompanying balance sheets under the caption "Equity in Treasurer's Cash Pool". The State's temporary investments at June 30, 1985 include certificates of deposit,

NOTE 6--BONDS PAYABLE--Continued

In addition to the above schedule, General Purpose Mini-bonds in the amount of \$937,917 were issued from July 28 to August 1st, 1980. These bonds are payable upon presentation and mature not later than August 1st, 1985. At June 30, 1985 there was \$688,813 still outstanding with a potential interest liability of \$241,387.

NOTE 7--RECONCILIATION OF FUND EQUITY

The State records transactions on an appropriations basis and may not conform to the requirements of generally accepted accounting principles. At June 30, 1985, the material differences are as follows:

1. Recording of certain sales tax revenues when received (budgeted and recorded in the next fiscal year) rather than when measurable and available for current obligations.
2. Recording of payrolls as paid rather than as the work is expended by the employees.
3. Recording certain Human Service claims and related Federal reimbursements as received rather than as incurred for services performed prior to June 30 with invoices not received until the next fiscal year.
4. Recording certain obligations as encumbrances and appropriation carried rather than as accounts payable.

The following is a summary of the effects of the above described transactions on fund equity in the General Fund, the Highway Fund and Other Special Revenue Funds at June 30, 1985. The impact on the remaining funds is considered immaterial and is not presented.

	General Fund	Highway Fund	Other Special Revenue Funds

NOTE 8--PENSION PLANS

State employees, local teachers and employees of participating local governmental units are eligible to participate in the Maine State Employees' Retirement System, which provides for retirement and other benefits. Generally, retirement expense is comprised of the actuarially determined normal cost plus an amount accrued. The State's contribution to the System for State employees and teachers was \$105.2 million in 1985.

At June 30, 1985, the unfunded accrued benefits for State employees and teachers were approximately \$1,189,000,000. The actuarially computed value of vested benefits is not available. The report of the consulting actuary for the system indicates the contributions of employees and the State, together with investment income, will provide for the cost of unfunded accrued benefits within 15.0 years.

NOTE 9--DEFERRED COMPENSATION

The State offers its employees a deferred compensation plan created in accordance with IRC Section 457. The plan, available to all State employees, permits them to defer a portion of their current salary until future years. The deferred compensation is not available to the employees until termination, death, or an unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with such amounts, and all income attributable to such amounts, property, or rights are solely the property and rights of the State subject only to the claims of the State's general creditors.

Participants' rights created under the plan are equivalent to those of general creditors of the State and only in an amount equal to the fair market value of the deferred account maintained with respect to each participant.

In the past, the plan assets have been used for no purpose other than to pay benefits. In addition, the State believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

NOTE 10--CONTINGENCIES

The State is contingently liable for debt guaranteed by the Finance Authority of Maine. The total debt upon which the State is contingently liable at June 30, 1985, aggregates \$28,068,233.

NOTE 11--LITIGATION

The State, its officers and employees are defendants in various significant lawsuits. Legal counsel for the State as well as its various authorities and agencies have reviewed the status of pending litigation and are unable to determine the amount of the probable loss to the State in these matters. Accordingly, no provision has been made in the accompanying financial statements for losses which may arise from the settlement or adjudication of the aforementioned matters, either individually or in the aggregate.

These bonds are payable upon presentation and mature not later than August 1st, 1985. At June 30, 1985 there was \$688,813 still outstanding with a potential interest liability of \$241,387.

HIGHWAY FUND

The Highway Fund is used to account for revenues derived from registration of motor vehicles, operators' licenses, gasoline tax, other dedicated revenues and proceeds of bonds. The Federal matching funds and corresponding expenditures are accounted for in the Other Special Revenue Funds.

This Fund is allocated by the Legislature for the operation of the Department of Transportation to construct and maintain highways and bridges, other allied programs and seventy-two percent of the cost of State Police administration. In addition to the revenues, the Legislature allocates bonds that have been authorized. The allocation of bond proceeds for the 1985 fiscal year was \$6,000,000.

OTHER SPECIAL REVENUE FUNDS

Other Special Revenue Funds are a grouping of various purpose funds which have been established on a self-supporting basis. Revenues are generated by taxes, licenses, fees and Federal matching funds and grants. Expenditures of these funds can only be made in accordance with restrictions imposed by the source of the revenues.

In accordance with the research report, Preferred Accounting Practices for State Governments, published by the Council of State Governments, the Employment Security Trust Fund is reported as an Expendable Trust. Prior to 1983 it was reported as a special revenue fund.

ENTERPRISE FUNDS

Enterprise Funds are used to account for activities which provide services to the general public on a user-charge basis. Such funds are largely intended to be self-supporting, thus the enterprise accounts include fixed assets, depreciation and debt service.

The principal Enterprise Funds included:

Bureau of Alcoholic Beverages - The sale of alcoholic beverages is controlled through State-operated stores or licensed agents. Net income from the operation of the Bureau of Alcoholic Beverages is transferred to the General Fund.

Department of Transportation Services - The Department of Transportation operates the Augusta Airport, marine ports and the ferry services in the mid-coastal region of the State.

TRUST AND AGENCY FUNDS

The Trust and Agency Funds are a grouping of various funds which are administered by the State as trustee or as an agent for the general public. Trust and Agency Funds are classified as either expendable or non-expendable funds.

Expendable funds include the accounts of the Maine State Retirement System, the State Employees Group Life Insurance Fund, interest and other revenue from non-expendable trusts, and various private trusts. In accordance with the research report, Preferred Accounting Practices for State Governments published by the Council of State Governments, the Employment Security Trust Fund is reported as an expendable trust. Prior to 1983 it was reported as a special revenue fund.

Non-expendable trust funds consist of endowments for maintenance and preservation of public lands and other donor restrictions.

GENERAL FIXED ASSETS

The General Fixed Asset Account Group provides a record of the cost of the land, buildings, improvements and capital equipment which was purchased from Funds other than the Enterprise and Internal Service Funds. The latter Funds maintain their own fixed asset records.

General fixed assets are defined as tangible property having a life of more than one year and costing in excess of \$150. They do not include 1) roads, bridges and related highway systems, 2) display items of the Maine State Museum or 3) property acquired by tax lien. Original construction costs have been researched for buildings back to the mid 1800's; Equipment acquired prior to 1950 has been valued at estimated cost. Additions are recorded at cost. General fixed assets are not subject to depreciation.

The following Statement of General Fixed Assets has been prepared from the Bureau of Public Improvement's summary of agency inventory records as of June 30, 1984 which has been amended to reflect the cost of property and equipment acquired in 1985. Disposition in 1985 are not believed to be material.
