**TO GOVERNOR KENNETH M. CURTIS AND MEMBERS
OF THE ONE HUNDRED AND SEVENTH LEGISLATURE**

In compliance with statutory requirements, I submit herewith the 54th Annual Report of the State Auditor for the fiscal year ended June 30, 1973. The financial data presented are based on the accounting records maintained in the Bureau of Accounts and Control.

We have made extensive examination of major pertinent transactions. We did not make a detailed examination of all recorded transactions on the general books of the State for the year. We did, however, make a detailed examination of accounting records, procedures and internal controls, and verified financial transactions on a selective basis in our postaudits of the activities of the major State departments during the year. The results of these audits, together with comments, exceptions and recommendations are contained in our individual audit reports submitted to the respective departments.

Based on the scope of our examination, it is our opinion that, except for the exclusion of certain trust and operating fund transactions and balances recorded and controlled locally by State agencies and not reflected herein, the accompanying financial statements present fairly the financial position of the operating funds of the State of Maine at June 30, 1973, and the results of their operations for the fiscal year then ended in conformity and generally accepted governmental accounting principles applied on a consistent basis.

The number of schedules and statements included in this report has been reduced from prior years' reports in accordance with recommendations from the Maine Management Cost Survey Commission. For those reports and schedules not represented here, I would refer the reader to the Annual Report of the State Controller.

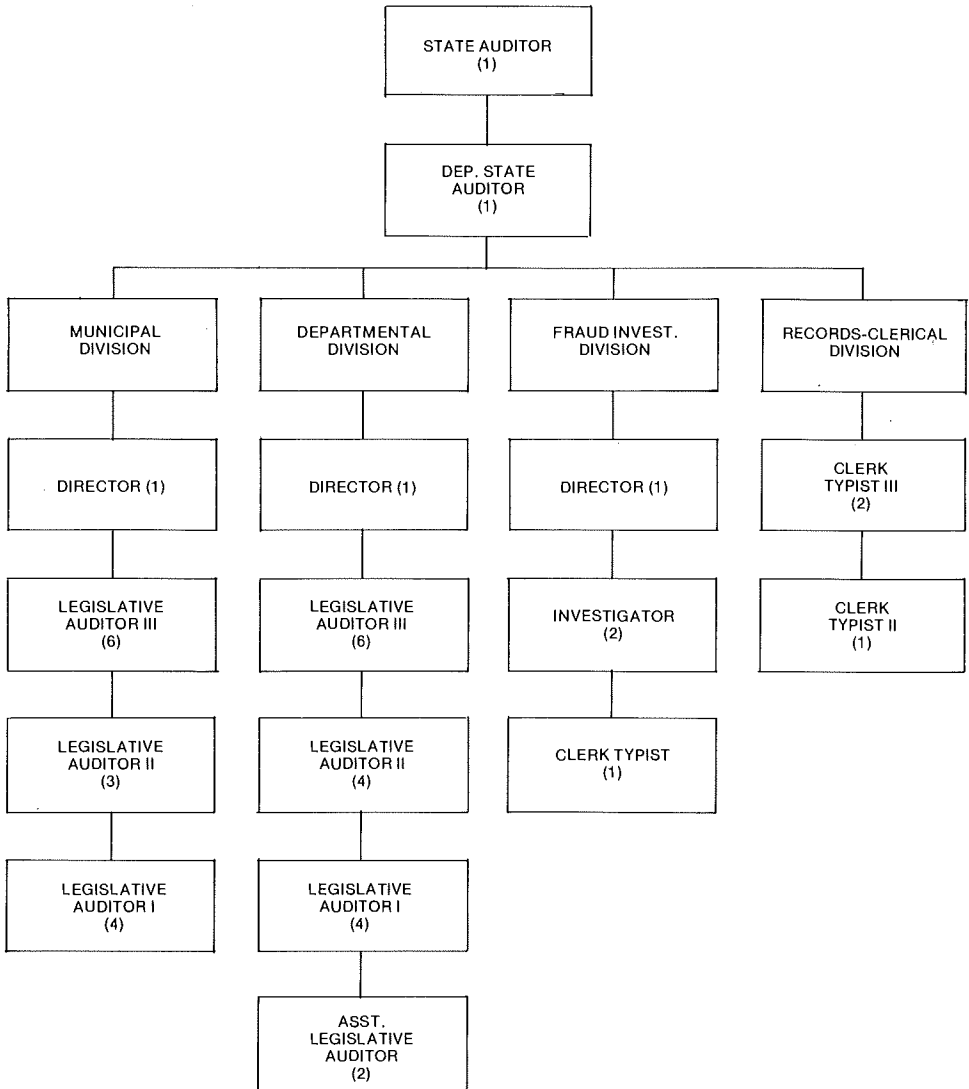

I would like to express my special appreciation to the Staff of the Department of Audit for their continued loyalty and devotion to duty and to the State officials for their cooperation with this department.

Respectfully submitted,

State Auditor

STATE DEPARTMENT OF AUDIT
TABLE OF ORGANIZATION
December 31, 1973

GENERAL FUND

The financial activities of State Government, not specifically provided for within other State funds, are reflected within the General Fund. The appropriations to finance such General Fund activities are authorized by Legislature on a budgetary basis prepared from departmental estimates of revenue and expenditures. The estimates of revenues and expenditures by the various departments and their requests for appropriation are based on the continuance of previously authorized programs. Additional or new programs require the authorization and funding by the Legislature.

Balances Brought Forward -

At the close of each fiscal year all funds not utilized by General Fund operations are returned to the unappropriated surplus account with the exception of so-called encumbered funds, which are those that have been committed for services or materials not yet received, and so-called unencumbered funds for the continuance of authorized programs.

At the beginning of the fiscal year (July 1, 1972) General Fund balances brought forward amounted to \$11,849,711. This amount was adjusted (or reduced) by \$127,269 resulting in a net balance forward of \$11,722,442. Such adjustments to balances forward are usually the result of price variations between the time of encumbrance and delivery, or the cancelation of purchase orders.

Legislative Appropriations -

Legislative appropriations to the General Fund for fiscal year ending June 30, 1973 amounted to \$223.4 million as compared with \$213.0 million the previous year. Appropriations were made from the following areas:

	<u>1973</u>	<u>1972</u>
Legislative Appropriations	\$211,614,998	\$195,268,625
Appropriations from Un-		
appropriated Surplus	11,310,742	17,171,568
Contingent Account	<u>594,693</u>	<u>589,263</u>
	<u>\$223,420,433</u>	<u>\$213,029,456</u>

Operational accounts within the General Fund are classified as to the type of service performed. The following tabulation indicates the appropriations for such service category as compared with the appropriations for the prior year:

Fiscal Year Ended.....		Increase or Decrease
	June 30, 1973	June 30, 1972	
General Administration	\$ 16,077,580	\$ 16,567,840	(\$ 490,260)
Protection of Persons and Property	4,328,540	4,339,036	(10,496)
Development and Conser- vation	7,125,164	10,060,764	(2,935,600)
Health and Welfare	2,455,234	2,453,223	2,011
Social Services	39,442,231	33,666,768	5,775,463
Mental Health and Cor- rections	24,652,743	25,566,116	(913,373)
Education	105,758,441	102,926,326	2,832,115
Culture, History and Recreation	2,012,963	2,157,673	(144,710)
Miscellaneous	21,330,057	15,043,544	6,286,513
Contributions and Trans- fers	<u>237,480</u>	<u>248,166</u>	(<u>10,686</u>)
Totals	<u>\$223,420,433</u>	<u>\$213,029,456</u>	<u>\$10,390,977</u>

As will be noted by the foregoing schedule, of the \$223.4 million appropriated, \$169.8 million, or 76%, was granted to three categories, that of Social Services, Mental Health and Corrections and Education.

Dedicated Revenue -

Dedicated revenues are so classified when received, or earned and are credited directly to the various appropriation accounts. After allocations by the Budget Office such funds become available for use in addition to appropriated funds.

The dedicated revenues for the fiscal year amounted to \$7,683,679 which were received from the following sources:

Taxes -	\$ 968,728
Federal Revenue	3,575,384
Transfers from Other Funds	2,760,265
Other	<u>379,302</u>
Total	<u>\$7,683,679</u>

Of the dedicated revenue receipts of \$7.6 million, \$5.2 million, or 68.5% was credited to the Social Services category. The major portion of the 5.2 million credited to the Social Service category was derived from federal revenues for rehabilitation and special services and transfers to the public assistance accounts from the Special Revenue Fund.

Undedicated Revenue -

Undedicated revenues are those funds which are set aside, and restricted, for legislative appropriation for the continuance of state services within the General Fund. At the close of each fiscal year these revenues are transferred to the Unappropriated Surplus Account of the General Fund.

Undedicated revenues collected during the fiscal year ending June 30, 1973 amounted to \$234,312,496, which represented a gain of 13.17% over the budgetary estimate for the year.

A comparison of this year's receipts with that of the prior year indicates an increase of \$23.7 million, these increases being reflected for the most part, in the sales tax and income tax categories.

Of the \$234.3 million credited as undedicated revenue, \$204.8 million, or 87.41% was derived from the several taxation programs currently administered, while the balance of \$29.5 million was obtained from various other revenue sources such as liquor profits, service charges and interest earned on short-term investments.

Expenditures -

Expenditures from the General Fund for the fiscal year 1972-73 amounted to \$229.9 million, an increase of \$16.8 when compared with the prior year. The following schedules indicate the service category and type of expense in which the increases, or decreases occurred:

Title 5, Section 1507 as amended by Public Law of 1969, Chapter 455, authorizes the establishment of the Contingent Account at \$800,000 for each fiscal year. In addition to normal contingencies, other portions of this fund are reserved for construction, promotion and purchase of real estate when such is necessary for the continuance of the Capital Planning Complex. Amounts expended from this account during the year were as follows:

Regular Account	\$388,260
Promotion of Maine	10,000
Construction Reserve	83,633
Institutional Reserve	1,559
Purchase of Real Estate	<u>111,241</u>
Total	<u>\$594,693</u>

At June 30 the Contingent Account was restored to its authorized amount of \$800,000.

Unappropriated Surplus -

The balance of the Unappropriated Surplus account at June 30 amounted to \$42,112,708 an increase of \$26,616,759 when compared to that of the previous year. The major items affecting the increase were the unexpended balances lapsed to Surplus from the operating accounts and undedicated revenue which increased \$2,647,147 and \$23,697,250 respectively.

Maine Management and Cost Survey -

As a result of a Legislative Order, and subsequent concurrence by the Office of the Governor, a task force of business men and interested citizens, by donation of their time and talent, began an in-depth study of State Government operations and to offer any recommendations and suggestions which might reduce operational costs and induce savings programs when possible.

This report was completed and formerly presented in September 1973 and contained more than 800 recommendations of a saving or cost-avoidance nature amounting to a potential savings of approximately 25 million. The recommendations within the report were reviewed for several weeks by those concerned with implementation and will eventually reach the Legislative process whereby it is expected that many of the recommendations will be adopted.

A review of the several hundred recommendations offered has indicated that many contain sufficient reason for immediate implementation while others may require more research and study to insure proper and sufficient benefit from their adoption. However, each department, bureau and division is urged to consider carefully those recommendations directed to them and make every effort to take those steps necessary to assist in accomplishing the purpose of the report — more economy and efficiency in State Government.

In compliance with recommendation #15 of the cost survey, as affects the Department of Audit, this report does not include certain financial statements heretofor published, but does, as occasion warrants, include such schedules which may be of benefit and interest.

Fraud Investigation Division -

The Fraud Investigation Division of the Department of Audit, having been in operation for a complete fiscal year, has developed pertinent statistical information, shown herewith, which will indicate the scope and results of the Division's operations:

Actual Cash Recovery	\$24,100
Secured Future Recovery	\$49,300
Cases Received for Year	353
Cases Pending at 6/30/73	290

As the work of this Division continues, it has been increasingly evident that its potential for expansion, to include additional areas of the State, has been hampered, to a large extent, by the restrictions of a limited number of personnel and insufficient funding. However, during the recent cost management survey, by the Longley Commission, several recommendations were made by the examiners, as a result of their study, which, if adopted, will considerably strengthen the operations of the Division.

The legal basis currently governing the operations of the Fraud Investigation Division (Title 5- Section 242A-Revised Statutes of 1964, as amended) provides that "whenever the Director of the Fraud Investigation Division determines there is a probability that fraud, an attempted fraud or a violation of a law may have occurred, he shall report in writing all information concerning it to the Attorney General for such action as he may deem appropriate, including civil action for recovery of funds and criminal prosecution by the Department of the Attorney General." Several cases were referred to the office of the Attorney General with recommendations that concrete action be initiated at the earliest possible date in order to supplement the day to day operations of the Division and to effectively create a meaningful deterrent to fraud abuses. Should prosecution of those submitted cases be deemed appropriate by the office of the Attorney General, then it appears vitally important that legal action should be commenced without undue delay. It is incumbent upon those, designated by law, to take all necessary steps within their jurisdiction to eliminate and stop fraudulent practices which prevent tax dollars from reaching their proper destination.

GENERAL HIGHWAY FUND

The General Highway Fund finances the operations of the Highway Department and its allied divisions from specific revenues designated for that purpose. The major sources of revenue are gasoline and use fuel taxes, motor vehicle registrations and licenses, and federal, municipal and county grants or matching funds. Additional funds needed for construction are obtained by issuance of bonds subject to the approval of the electorate.

Balances Brought Forward -

At the close of each fiscal year all unused funds of the Highway accounts are returned to the unappropriated surplus account of the Highway Fund with the exception of those funds which have been committed for goods and services not yet received and those funds which were made available for specific purposes which are continued by law.

At the beginning of the fiscal year (July 1, 1972) Highway Fund balance brought forward amounted to \$28,678,431. After allowable adjustments for canceled purchase orders, price variations, etc., the balance forward was reduced to an adjusted amount of \$28,580,717.

Appropriations -

Legislative appropriations and appropriations by Council Order authority to the various accounts within the Highway Fund for the fiscal year ended June 30, 1973 amounted to \$65,786,035. as compared to \$65,091,121. for the previous fiscal year. The major portion of the increase in appropriations involves funds necessary for bond payments and interest costs and salary increases authorized by Legislature.

The following summary indicates appropriations made for each service category:

	Fiscal Year Ended		Increase or Decrease
	June 30, 1973	June 30, 1972	
General Administration	\$ 2,247,070	\$ 2,932,752	(\$ 685,682)

	<u>\$65,786,035</u>	<u>\$65,091,121</u>	<u>\$ 694,914</u>

Dedicated Revenue -

Dedicated revenue credited directly to the Highway Fund accounts during the fiscal year amounted to \$33,291,976. as compared with \$36,934,493. received during the previous year. The decrease of \$3.6 million occurred within receipts of federal revenue particularly revenues representing federal participation in highway and bridge construction. Other areas of dedicated revenue reflected normal increases. The following tabulation is a comparison of dedicated revenue with that of the preceeding year:

	<u>1973</u>	<u>1972</u>	<u>Increase</u>
Taxes	\$ 764,471	\$ 650,723	\$ 113,748
Fines	20,425	20,585	(160)
Federal Revenue	28,312,206	32,364,200	(4,051,994)

Totals	<u>\$33,291,976</u>	<u>\$36,934,493</u>	<u>\$3,642,517</u>

Of the dedicated revenue receipts of \$33.2 million, \$29.3 million or 88.2% was credited to the highway and bridge construction category.

Undedicated Revenue -

Undedicated revenues credited to the Highway Fund for fiscal 72-73 amounted to \$67,514,640., an increase of \$5,056,905. over that of the prior fiscal year. The majority of this increase is reflected in revenue receipts from gasoline taxes and motor vehicle taxes in the amounts of \$3.6 million and \$1.1 respectively.

Expenditures -

Expenditures from the General Highway Fund for the fiscal year 1972-73 amounted to \$102,328,466. as compared to \$109,666,579. in the previous fiscal year. The net decrease of \$7,338,113. is the result of less expenditures for highway and bridge construction amounting to \$9.5 million offset in part by an increase in maintenance expenses of \$1.09 million together with normal increases in other service categories. The following tabulation indicates those areas wherein expenditure variations occurred.

By Type of Service	Fiscal Year Ended June 30,		Increase or Decrease

Balances Carried Forward -

The unexpended balances of the General Highway Fund accounts at June 30, 1973 amounted to \$35,630,333. Of this amount \$553,074 representing unused balances, were lapsed to the unappropriated surplus account of the Highway Fund to become available for future appropriation. The remainder of unused funds in the amount of \$35,077,259 were carried forward to the ensuing year to liquidate existing encumbrances and the continuation of authorized highway projects.

Unappropriated Surplus -

The unappropriated surplus of the Highway Fund at June 30, 1973 amounted to \$8,775,740, an increase of \$4,374,525 when compared to that of the previous fiscal year. Items contributing to the majority of this increase were:

1. A substantial increase in the balance brought forward.
2. An increase of \$5 million in undedicated revenue.
3. A decrease in amounts reserved for Legislative appropriation.

Bonded Debt -

The bonded debt of the Highway Fund at June 30, 1973 amounted to \$69,945,000 which includes bond issues for highway construction (\$63,775,000) together with those issued for bridge construction (\$6,170,000).

The following schedule indicates those bonds on which balances are payable at June 30, 1973 together with dates and amounts of issues and amounts paid on those issues to June 30, 1973.

As a matter of expediency the following schedule includes the bonded debt of the Maine State Ferry Service and its inclusion herein is not to be construed to indicate such debt as an additional liability of the Highway Fund.

EMPLOYMENT SECURITY COMMISSION

BENEFIT FUNDS

The general provisions of the unemployment compensation law are prescribed by Title 26, Section 1042, Maine Revised Statutes Annotated of 1964. The general purpose of this law being to provide for public employment offices in affiliation with a nation-wide system of public employment services; by devising appropriate methods for reducing the volume of unemployment and by the systematic accumulation of funds during periods of employment from which benefits may be paid for periods of unemployment.

Revenue for the fiscal year ended June 30, 1973 increased \$8 million dollars over that received during the prior fiscal year which, for the most part, resulted from an adjustment of contribution rates for subject employers. As prescribed by law, contribution rates shall be generally adjusted contingent on the financial position of the benefit fund. Such adjustments are in addition to those rates which may be earned by reporting employees on the basis of their individual contribution / benefit ratio, or employment history.

Benefits paid for the fiscal year 1972-73 amounted to \$26.6 million a decrease of \$10.6 when compared with the previous year.

The following summary is a brief and condensed operating statement of benefit fund activity:

This group of funds represents the accounting media for the financing of those governmental units which, as their primary function, furnish services to the general public. The earnings of this service group are retained and utilized for the continuance of these various programs, with the exception of the earnings of the Bureau of Alcoholic Beverages which are transferred monthly to the General Fund.

During the fiscal year ended June 30, 1973 these funds, collectively reflected a net gain in operations of \$19.1 million, the major part resulting from the net earnings realized by the Bureau of Alcoholic Beverages.

The following schedule reflects the changes in the surplus balances of these funds to include operational gains or losses.

INTRA-GOVERNMENTAL FUNDS

The general purpose of the several funds included in this group is that of financing and accounting for services and commodities to and for other governmental agencies. These funds differ in purpose to those classified as Enterprise Funds in that their services are directed, in most all cases, toward other state funds rather than the general public.

During the fiscal year ending June 30, 1973, these funds, collectively, reflected a net loss in operations of \$518,000 the greater part being within the operations of the Central Computer Services account.

The following schedule reflects the changes in the surplus balances of these funds to include operational gains or losses.

TRUST FUNDS

Other specific funds are maintained within the State's accounting structure for the recording of those transactions pertaining to the management of various trust accounts. The State of Maine, acting as trustee of funds owned by the general public, business organizations and municipalities, is charged with the accounting and management of these funds in accordance with the specific terms and conditions outlined by the various trust agreements governing such funds.

The following schedule indicates, in brief form, the changes occurring in each of the trust funds for the fiscal year ended June 30, 1973, together with assets held which constitute the year end balance of each fund.

STATE DEPARTMENT OF AUDIT

MUNICIPAL DIVISION

The statutes provide that each municipality and quasi-municipal corporation shall have an annual postaudit made of its accounts covering the last complete fiscal year. The postaudits shall be conducted by the State Department of Audit, upon request, or by a qualified public accountant. This department has been advised that the qualification of a public accountant includes registration by the Maine Board of Accountancy.

The statutes also provide that when there is dissatisfaction with a postaudit made by a public accountant as shown by a petition signed by at least 10% of the voters of a municipality, but in no case more than 1,000 and filed with the State Auditor, he shall order a new postaudit to be made by his department, the expense of which shall be paid by the municipality.

Postaudits of the county and district courts as well as county financial records are conducted by this Division.

During the fiscal year July 1, 1972 to June 30, 1973 the Municipal Division conducted postaudits of the following:

Municipalities and Municipal Districts	109
County and District Courts	29
School Districts and Academies	31
Counties (Including Registers of Deeds and Probate)	22
Special Services	<u>151</u>
Total	<u>342</u>

The Municipal Division conducted postaudits of approximately one-fourth of the municipalities for the 1972 fiscal year. The audit results showed that for the most part accounting procedures and practices were being satisfactorily followed, however, exceptions were noted and in those instances they were discussed with the responsible officials as well as being included in the audit report commentary.

The principal statutory violations cited by our audit reports pertained principally to the following: depositing of monies by treasurers; remittances of property and excise tax collections by collectors; and commitment of supplemental taxes by the assessors.

Recommendations were also submitted in instances where it was considered that accounting procedures could be strengthened. Some of the recommendations offered pertained to: maintenance of a complete general ledger on a current basis and monthly trial balances; monthly reconciliation of bank accounts by treasurer; a review of receivables, including properties acquired by nonpayment of taxes, for liquidation; and the utilization of mechanical and data processing equipment for accounting purposes.

The Maine Revised Statutes Annotated of 1964, as amended, provide that within thirty days after completion of a postaudit of a municipality or a quasi-municipal corporation, the auditor shall send to the State Auditor a certified copy of the report and a certified copy of the audit procedural form prescribed by the State Auditor.

The Maine Revised Statutes Annotated of 1964, as amended, also provide that the municipal officers shall notify the State Auditor of the name and address of the auditor elected or engaged within 30 days after his election or engagement.

The preceding two paragraphs are a reminder to the town officials and the independent auditors that there are certain statutory requirements that must be followed. During the past year there were several instances whereby the statutory requirements were not followed in this respect.

COUNTIES

The financial records of the sixteen Maine counties were audited by the Municipal Division for the 1972 year.

The accounting records of the counties and their related agencies had, for the most part, been maintained in a generally satisfactory manner. However, in those instances where accounting procedures and controls could be strengthened, recommendations were offered for consideration.

The principal exceptions and/or recommendations pertained to bidding; inventories of county properties; excise tax procedures for unorganized townships; collection of interest on delinquent taxes; maintaining a complete general ledger and utilizing transfers between line budget categories.

The One Hundred and Sixth Legislature enacted several laws pertaining to county affairs. The following are listed as being of particular interest:

An Act Relating to -

Increasing Fees of Deputy Sheriffs - Chapter 129, Public Laws of 1973.

Collection of Excise Tax in Unorganized Places - Chapter 207, Public Laws of 1973.

Increasing Certain Fees of Register of Deeds - Chapter 226, Public Laws of 1973.

Probate Fees - Chapter 451, Public Laws of 1973.

COURTS

The Municipal Division conducted audits of the financial records of fifteen counties and district court agencies during the period covered by this report.

The results of the audits disclosed a continuing increase in caseload and a substantial increase in monies collected.

For the most part the financial records were maintained in a generally satisfactory manner, however, in those instances where it was believed that accounting procedures and controls could be strengthened, recommendations were submitted to the responsible officials.

An accounting-validating machine was installed in the Bangor District Court and although the audit conducted was only for a part of the year that the machine was involved, it was ascertained that it was successful in relieving some of the clerical workload. Three additional machines are being installed in the larger district courts.
