Explanation of New Budget Format

The budget recommendations that are contained in this document are presented in the format that was recommended by the Commission to Reform the State Budget Process, and implemented in P.L. 2005, c. 601. This new format combines Part A and Part B of the Part I, or "Current Services", budget with the Part II budget that consisted of adjustments, reductions and requests for money for new and expanded programs. Approved reclassifications and range changes are reflected in Part B. As a result, a more complete picture of the budget is presented to the public and the Legislature. Separate unified budget bills are included in this document for the General Fund and the Highway Fund.

Part A of each bill begins with a summary of all sources of funding, by line category, for each department that is included in the bill. Authorized and recommended position count is also reflected in the **Department Summary** section.

What the Budget Purchases

Previously referred to as "Description of Program Activities", this provides readers with a better understanding of the program and the activities for which funds are requested.

Program Summary

Reflects a summary by fund of authorized budget data for the most recently completed fiscal year, the current fiscal year through the end of the last legislative session, and baseline budget information for the upcoming biennium.

Personal Services amounts reflected in the Budget columns are based on detailed position data that was extracted from the Human Resource system and adjusted to reflect projected increases for benefits and special payments.

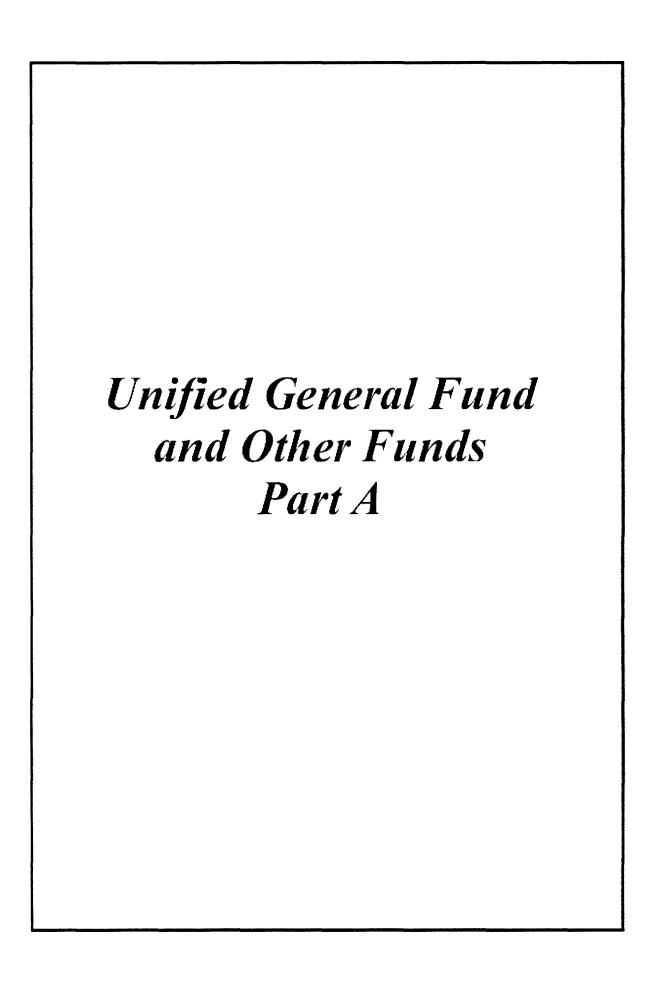

Budget amounts reflected for the All Other line category equal the authorized amounts for the current fiscal year. If a portion of the authorized budget for the current fiscal year was not considered to be on-going, the budget amounts will have been modified to remove the impact of these appropriation or allocation adjustments.

Initiative

Previously referred to as "Adjustments to Current Services" in Part B of the Part I bill, or "New Initiative" in Part A of the Part II Bill, "Initiatives" represent reduction proposals or adjustments to the baseline budget, as well as proposals to create new programs, or modify existing programs.

Revised Program Summary

The position counts and amounts included in this section represent the total of the position counts and the amounts displayed in the Program Summary section, in addition to those reflected for the initiatives.

ATLANTIC STATES MARINE FISHERIES COMMISSION 0028

What the Budget purchases:

The Atlantic States Marine Fisheries Commission's focus is to provide the states from Maine to Florida a coordinated way for better management and use of marine fisheries through an interstate compact of the 15 Atlantic coastal states. Although the states determine specific policies in their respective jurisdictions, the commission provides a forum for discussion and resolution of common problems and assists the states in developing joint programs for commercial and recreational fisheries through sustainable fishery resources management. In addition, the commission runs the Interstate Fisheries Management program, whose goal is uniform management and protection of the nation's fisheries resources and viable commercial and recreational fishing industries. Fisheries managed under commission fishery management plans include lobster, striped bass, herring, bluefish, American eel, shad and river herring, winter flounder, northern shrimp, Atlantic sturgeon, and shortnose sturgeon.

COASTAL ISLAND REGISTRY 0241

What the Budget purchases:

This program was established to identify and secure title to those coastal islands belonging to the State of Maine. The Coastal Island Registry Act provides that all coastal islands within the State of Maine shall be registered with the Bureau of Parks and Lands by their purported owners. Those islands for which no registration was submitted fall to the care and custody of the State of Maine.

What the Budget purchases:

The purpose of the Maine Indian Tribal-State Commission, as stated in the Maine Indian Claims Settlement Act, is to review the effectiveness of the act and the social, economic and legal relationship between the State of Maine, the Passamaquoddy Tribe, and the Penobscot Nation. The commission makes legislative and other policy recommendations to the State and Tribal Governments based on its ongoing review. It sponsors the Annual Assembly of Governors and Chiefs, Wabanaki Day at the Legislature, and other meetings and workshops to explore tribal-state issues. The commission also regulates fishing on certain inland waters within Indian Territory and engages in a variety of educational activities to increase understanding of the Wabanaki People.

MUNICIPAL EXCISE TAX REIMBURSEMENT FUND 0871

What the Budget purchases:

The Bureau of Motor Vehicles collects registration and excise tax revenues from non-Maine interstate truck carriers. Total excise tax revenues due from each truck are apportioned among the states in which they travel, based on their mileage traveled in each state. In Maine, excise tax revenues collected from interstate carriers are deposited in the Municipal Excise Tax Reimbursement Fund. A portion of these funds is distributed among Maine municipalities upon application by each municipality based on the reduction of excise tax revenues experienced as a result of the change in the application of the tax from the book value to the purchase price of the truck when purchased by a Maine resident. Following distribution to the municipalities, the remainder of the funds collected are transferred to the Highway Fund.

MAINE ECONOMIC IMPROVEMENT FUND 0986

What the Budget purchases:

In 1997, the Maine Legislature established the Maine Economic Improvement Fund (MEIF) to help increase federal and private investment in university-based research. The action responded to the documented cause-and-effect relationship between university research activity and economic growth - specifically, the creation of new products, new technologies, new industries, and new jobs. By creating and funding MEIF, Maine policy makers forged a successful partnership between the State and its University System, one that is helping accelerate and facilitate a stronger, healthier, and more vibrant economy and economic climate.

MEIF was created to focus on 7 key areas of great importance and potential to Maine: Aquaculture and Marine Sciences; Biotechnology; Composites and Advanced Materials Technologies; Environmental Technologies; Information Technologies; Advanced Technologies for Forestry and Agriculture; and Precision Manufacturing.
