REPORT

Bureau of Taxation
Augusta, Maine

December 31, 1942.

To His Excellency Sumner Sewall, Governor, and
The Honorable Executive Council:

Gentlemen:

In accordance with the statutes of the State of Maine, we herewith submit for your consideration the 52nd Annual Report of the Bureau of Taxation.

PROPERTY DIVISION

It is the responsibility of this division to make the necessary tabulations, keep records and carry on the activities of assessing the taxes on the following:

- General property (State), cities, towns and plantations
- Real estate, unorganized territory
- Polls in unorganized territory
- Personal property in unorganized territory
- Debt retirement tax deorganized townships
- School, unorganized territory
- Forestry district, unorganized territory and organized towns
- Corporate franchises
- Steam and street railroads
- Telephone and telegraph companies
- Express companies
- Insurance companies
- Savings banks
- Trust and banking companies
- Stock of trust and banking companies
- Parlor car companies
- Loan and building associations
- Credit unions

The total of the assessments of taxes of the Property Division is approximately EIGHT MILLION DOLLARS.

The work of this division is carried on by a personnel of seven, as follows: a Chief Clerk, three Clerks, two Stenographers and an Auditor.

Study of the tax laws and checking of the returns has been made an issue during the past six months and has resulted in additional revenue to the State of several thousand dollars per year.

It seems very desirable that the Auditor continue these activities with a view of realizing if possible still further revenue for the State under the present tax laws, and also that a study be made of additional sources of revenue by taxation, should future conditions make greater revenue necessary.

In order to intelligently assess the taxes in unorganized territory it is imperative that this division have the proper data as a basis for assessing the tax.

The gathering of this data is under the supervision and direction of an expert Forester. Under his direction from one to three cruising parties are in the field at all times.

This program which has been carried on during the past twelve years, has produced statistics which are of immense value to the State of Maine and is no doubt, the best collection of timberland statistics, from the standpoint of the whole unorganized territory of the State, which now exists.

During the next two years an expansion of the present program for gathering this timberland data seems very necessary.

EQUALIZATION GROUP

Closely associated with the Property Division is the Equalization Group. Its function is the gathering of information in the cities, towns and plantations of assessment practices. This information is basic in the equalizing of property values throughout the state.

This work has been carried on by one Engineer, one Appraiser and one Clerk. It is planned to increase the personnel to a total of four by adding another Appraiser.

POTATO TAX DIVISION

The purpose of this tax is to raise money to be used for the purpose of improving the method of producing potatoes and increasing the demand for Maine potatoes through the medium of advertising.

The routine of the work consists of the checking of the shipping returns, issuing of licenses and the assessment of the tax. During the past two years, one Clerk has been able to carry on all of this work.

During the present shipping season, an Inspector has been employed and the result of his findings has proven that the additional expenditure has been warranted.

Licenses of traveling circuses and amusement shows are also issued by this division.

CIGARETTE TAX DIVISION

An act creating a tax on cigarettes, Chapter 298 of the Public Laws of 1941, was passed as an emergency measure by the 90th Legislature. This allowed a relatively short time in which to set up an organization and prepare for the administration of the law, but on May 21, 1941, the issuing of licenses and the sale of tax stamps was started.

The original personnel consisted of a Director, a Chief Clerk, a Cashier, a Secretary, a License Clerk, two Examiners and three Investigators. By rearranging the work it has been possible to reduce the personnel and at this time but seven persons are employed in this division.

From the start in May 1941 the division has enjoyed the cooperation of the tobacco distributors and has, in a year and a half of operation, uncovered very few violations of the law on the part of retailers.

Loss of revenue, through sales of unstamped cigarettes by members of the armed services to civilians, has been held to a minimum by the cooperation of army and navy commanding officers with the division.

No cases of counterfeiting of tax stamps have occurred.

During the first year the law was in force, the percentage cost of collection and administration of the law was 2.9, and this has now been reduced to 2.1% as of the present time.

GASOLINE TAX DIVISION

The amount of work entailed in the administrating of this tax shows but little decrease in spite of the considerable decrease in revenue from this source. The number of rebates has decreased and likewise the amount of money involved, but this saving in labor has been offset by the assistance which it has been necessary for this division to give to the Office of Price Administration, having to do with the rationing of gasoline.

The office work is done by a Chief Clerk and two Assistants; the field work is done by an Auditor and an Inspector.

It takes all of the Auditor's time to check the inventories of the Distributors and to investigate claims for rebates.

The Inspector travels to all parts of the State taking samples of oil and gasoline. These samples are sent on to the University of Maine where they are analyzed and the results of the analyses are returned to this division.

This division also administers the Use Fuel Tax. While the amount of revenue from this source is small, this tax seems necessary from a regulation standpoint.

The tax on gasoline used for aviation purposes is administered by this division. This revenue is used to create an Aeronautic Fund.

CONCLUSION

Other responsibilities of the Bureau of Taxation and the Board of Equalization are imposed by Chapter 12, Sections 4 to 16, as follows:

1. To equalize the state and county taxes among the several towns and unorganized townships.
2. To have and exercise general supervision over the administration of the assessment and taxation laws of the state and over local assessors and other assessing officers in the performance of their duties, to the end that all property shall be assessed at the just value thereof in compliance with the laws of the state.
3. To equalize and adjust the assessment list of each town, by adding to or deducting from it, such amount as will make it equal to its just value.

4. To investigate and examine into the system and method of taxation of other states, and also make careful and constant inquiry into the practical operation and effect of the laws of this state, in comparison with the laws of other states, with the view of ascertaining wherein the laws of this state are defective, inefficient, inoperative or inequitable.

Considerable progress has been made during the past few years in line with items one and three above, and the Board is in a better position to equalize intelligently the property values in the different localities of the state.

Those familiar with the assessment practices in this state, admit that a greater measure of supervision of local assessments by the Bureau of Taxation would pay immediate dividends, due to the fact that closer cooperation with the officials of the towns would result in the collection of a larger percentage of the taxes assessed.

This cooperation would consist of advice and direction to local officials in line with Chapter 280 of the Public Laws of 1939. It would seem very desirable that funds be made available for this purpose.

An effort has been made to carry out the responsibilities mentioned in items 2 and 4 above and the increased revenue mentioned under the work done by the Auditor has resulted.

There is a wide field for research, which it has been impossible to explore up to this time, due to the limited personnel and limited amount of funds available.

This research work is very important especially at this time, due to the fact that the Federal Government's tax program will no doubt interfere seriously with the present sources of revenue of the state and with other sources of revenue of the state which may have been contemplated.

Financial statistics giving the summary of the assessment of approximately \$16,000,000.00 of taxes by the Bureau of Taxation during the past fiscal year will be found in the appendixes of this report.

Respectfully submitted,

(Signed)

DAVID H. STEVENS,
State Tax Assessor.

APPENDIX A

LOCAL VALUATION

Comparison of Counties in 1941 and 1942, exclusive of the unorganized townships.

REPORT

Bureau of Taxation—Property Division.

Augusta, Maine, December 1, 1941.

To His Excellency, Sumner Sewall, Governor, and the Honorable Executive Council:

Gentlemen:

In accordance with the Statutes of the State, we here-with submit for your consideration the Fifty-first Annual Report of the Bureau of Taxation—Property Division, including tabulations of statistics returned to us by all municipal boards of assessors throughout the State, as made by them on April first, 1941, and lists of all corporations on which taxes have been assessed during the present year.

The total valuation of the cities, towns and plantations on April first, 1941, as made and returned by the local boards of assessors is \$591,152,114, representing an increase of \$7,244,456 as compared with similar returns made on April first, 1940.

The following comparison is given of the counties in 1940. and 1941, exclusive of the unorganized townships.

Counties	1940	1941	Increase
Androscoggin . . .	\$61,186,082	\$61,729,099	\$543,017
