STATE OF MAINE
BUREAU OF TAXATION
AUGUSTA

December 15, 1956

To His Excellency Edmund S. Muskie, Governor and
the Honorable Executive Council

Gentlemen:

In accordance with Section 59 of Chapter 16 of the Revised Statutes, there is herewith submitted for your consideration the 66th Annual Report of the Bureau of Taxation.

Since a narrative report is submitted only in connection with the printed biennial report of the Bureau, the following narrative covers a period of two years, through December 1, 1956.

GENERAL ADMINISTRATION

The divisional basis upon which the Bureau is established, and which was noted in the last biennial report of the Bureau, has continued unchanged during the past two years. Attention was called in the last biennial report to the need for strengthening two areas of weakness in the general activities of the Bureau. Steps have been taken to meet this need by the assignment of one person to full time activity as a field investigator, and by the assignment of one person to full time activity in preparing statistical material and research. While these positions are carried under the Sales Tax Division, since the bulk of the work is expected to originate in that Division, the services of these employees are available on a Bureau-wide basis.

As of June 30, 1956, 110 employees were assigned to the Bureau. A comparison in total number of employees on June 30, 1954 and June 30, 1956 is as follows:

| As of June 30 | |
|---------------|------|
| 1954 | 1956 |

| | | |
|---|---|---|
| General Administration (including the State Tax Assessor, Business Manager and two Assistant Attorneys General) | 8 | 8 |
|---|---|---|

| | | | |
|--------------------------|-----|-----|---|
| Excise Tax Division | | | |
| Office | 9 | 9 | |
| Field* | 9 | 8 | |
| Total | 18 | 17 | |
| Inheritance Tax Division | | 6 | 6 |
| Property Tax Division | | | |
| Office | 6 | 6 | |
| Field | 5 | 6 | |
| Total | 11 | 12 | |
| Sales Tax Division | | | |
| Office | 37 | 40 | |
| Field | 27 | 27 | |
| Total | 64 | 67 | |
| Grand Total | 107 | 110 | |

* Including one State Police Officer assigned to the Division.

The above figures for 1956 include, in addition to the two new positions noted above, increased sales tax personnel necessitated by the imposition of a tax on casual sales of motor vehicles, first effective in July 1955.

For the fiscal year ending June 30, 1956 the cost of operating the Bureau was \$537,666. Total taxes certified during that time exceeded \$50,000,000. The cost of operating the Bureau in relation to taxes certified amounted to approximately 1.06%.

It might also be noted here that the Bureau, after nearly four years in more or less temporary quarters in the Vickery-Hill Building moved to its permanent quarters in the new State Office Building on November 19 and 20, 1956.

Further comments will be found below with respect to the various divisions of the Bureau; and additional statistical information follows the narrative portion of this report.

EXCISE TAX DIVISION

(Functions: Administration of gasoline, use fuel and motor carrier taxes and gasoline tax refunds; cigarette tax; corporation franchise tax; railroad, express company, parlor car, telephone and telegraph company gross receipts taxes; insurance premium taxes; credit union taxes; potato, sardine, milk, blueberry, fertilizer and sweet corn taxes.)

Cigarette Taxes. Effective January 1, 1955 the 20% tax on tobacco products (other than cigarettes) was repealed. This, together with certain enabling legislation enacted soon thereafter (Chap. 1, P. L. 1955), necessitated refunding to tobacco dis-

tributors and retail dealers on account of tobacco tax stamps unused by them or affixed to tobacco products at the time of termination of the tobacco tax. This reimbursement terminated on June 30, 1955. Altogether, \$95,132.77 was credited or refunded on the basis of claims by such dealers.

The cigarette tax was increased from 2 to 2½ mills per cigarette (i.e., from 4 to 5c per package of 20 cigarettes) effective July 1, 1955 (Chap. 359, P. L. 1955). Aside from necessitating the purchase of a new denomination of cigarette stamps, the change in tax rate was accompanied by no complications.

The Unfair Sales Act, enforcement of which with respect to cigarettes is a function of the State Tax Assessor, was challenged in the case of *Wiley vs. Sampson-Ripley Company* (January, 1956). In that case the Court held that the provisions of the Unfair Sales Act which stated that an offer to sell or sale at less than cost, as defined in the Act, would constitute *prima facie* evidence of intent to injure competitors, was unconstitutional. While this Court decision was not directly concerned with cigarettes, it is of course applicable to sales of cigarettes as to sales of any other product. It undoubtedly will result in making the remaining provisions of the Act more difficult to enforce.

The Bureau is affiliated with the National Tobacco Tax Association, an organization of state tax officials concerned with cigarette and tobacco taxes. The Northeastern Regional Conference of this Association was held at Rockport, Maine in June, 1955.

Gasoline Tax. The gasoline tax (together with related motor fuel taxes) was increased from 6 to 7c per gallon, with a corresponding increase of refund to 6c per gallon, effective June 1, 1955 (Chap. 436, P. L. 1955).

In the late fall of 1955 a new method was tried in connection with gasoline tax refunds. To speed up the processing and payment of refund applications, field men were sent to Aroostook County where, through the cooperation of fuel dealers, they were able to assist applicants in making out refund claims. This did away with the need to investigate a great many such claims; and it also did away with the need to return claims to the applicant for corrections or for completion. This was again done in 1956, and will probably be continued in the future.

An extension of the law regulating the advertising of gasoline prices (Chap. 420, P. L. 1955) became effective on August 20, 1955. This law limited the size, location and number of such signs. The constitutionality of this law was challenged in *State vs. Union Oil Company of Maine* (February, 1956). The Court held that the provisions of this law were in fact unconstitutional, and the law consequently was ineffective.

Gomer Dillon, Director of the Excise Tax Division, was honored by appointment as Governor of the Northeastern Region of

the North American Gasoline Tax Conference in the fall of 1956.

Other Taxes. Certain changes in tax base or rates of other taxes administered by this Division became effective during the past two years. The base of the telephone and telegraph company gross receipts tax was broadened, and the maximum rate increased from 6 to 7%, effective August 20, 1955 (Chap. 410, P. L. 1955). The corporate franchise tax rate was doubled, effective July 1, 1955 (Chap. 359, P. L. 1955). The potato tax was increased for a two-year period from 1c to 2c per barrel, effective August 20, 1955 (Chap. 379, P. L. 1955). The milk tax, originally enacted to expire September 1, 1955, was continued indefinitely (Chap. 303, P. L. 1955).

INHERITANCE TAX DIVISION

(Functions: Administration of inheritance and estate taxes.)

With increasing complexity in the testamentary disposition of property, difficulty is being encountered more frequently in the computation of inheritance tax in cases involving future interests. At the present time it is necessary, in certain situations involving future interests, to hold the matter of tax open indefinitely until the actual disposition of property can be determined. This problem, which is perplexing both to the taxpayer and to the state, might be averted through a tax similar to an estate tax. Considerable thought has been given to the possibility of working out such a tax, which would apply in place of the inheritance tax, but only where future interests are involved, leaving the inheritance tax otherwise in effect; and tentative drafts of such a law have been prepared. However, whether the many problems involved in such change can be overcome is still problematical.

One Law Court opinion affecting the inheritance tax was handed down during the period covered by this report. In the case of *Boston Safe Deposit and Trust Company vs. Johnson*, (August, 1955), the Court held that a testamentary general power of appointment is not "property" or "any interest therein" subject to inheritance tax.

PROPERTY TAX DIVISION

(Functions: Administration of real and personal property taxes and poll taxes in unorganized areas; administration of bank stock taxes; supervision of local assessing officials; through Board of Equalization, fixing of state valuation.)

Activities of the Property Tax Division are more varied than in the case of other Divisions of the Bureau, since the Property Division is concerned not only with the administration of certain state taxes, but also with instruction and guidance to local assessing officers. The educational aspects of the work of the Division are of great importance.

That this phase of its work is being capably carried out is shown not only by the list of training activities conducted in the past two years, noted below under the heading **Municipal Property Tax**; but also by the fact that David A. Brown, Property Assessment Supervisor, was asked both in 1955 and 1956 to participate in the Vermont Listers (Assessors) School, and in 1956 to participate in setting up the first West Virginia Assessors' School. Mr. Brown was also appointed, in the fall of 1955, to a 3-member committee of the National Association of Assessing Officers to study certain NAAO policies. He also participated in the arrangements for regional NAAO meetings in Boston (1955) and Providence (1956), and for the joint New Brunswick-Maine school held in Fredericton, New Brunswick in August 1956. This joint school represented an interesting example of international cooperation in the tax field, following several years of informal participation by Maine and the Provincial assessors in the Maine and New Brunswick schools. The New Brunswick Association of Assessing Officers has been invited to join in the Maine school in 1957. Another innovation in 1957 will be the inclusion of certain topics of interest to tax collectors as well as assessors in the annual 4-day school.

Municipal Property Tax. Advisory activities of the Bureau as noted in previous reports, have been continued during the past two years. The usual series of 1-day spring training meetings were held each year, and the 4-day training school at the University of Maine was held in 1955. In 1956, as noted above, this school was replaced by a joint school in New Brunswick.

This 4-day school at a central location is difficult for some assessors to attend, and because the 1-day meetings can serve as little more than refresher courses, an innovation was tried in 1955 by conducting a 2-day school for Aroostook assessors at the Teachers' College in Presque Isle. This was taken advantage of by a considerable number of Aroostook Assessors, and was repeated in 1956. The response indicated a real need for this type of regional training meeting; and other regional meetings of this nature are planned for the future. Such schools are generally conducted by the Bureau in cooperation with the Maine Municipal Association and the Maine Association of Assessing Officers.

The following summary of property taxes levied by municipal, county, and state governments indicates the continuing importance of this particular tax:

* Includes Forest Fire Tax.

** Comparable totals for 1953 and 1954 respectively were \$53,259,228 and \$55,378,187.

† Assessed and expended for municipal purposes in accordance with R. S., c. 16, §§ 77-A - 77-D.

†† Gross state tax levied on unorganized townships, \$530,963. Amount shown is net after allowance of credit toward road and school taxes in accordance with R. S., c. 16, §§ 77-A - 77-D.

††† This amount, plus the amount of state tax on municipalities, or a total of \$55,066,670 for 1955 and \$59,547,928 for 1956 is available for local expenditure.

NOTE: Figures are based on original assessments. Adjustments have not been made for supplemental assessments or abatements.

The average rate of taxation per thousand dollars for municipalities was:

| | | | | | |
|------|---------|------|---------|------|---------|
| 1948 | \$63.20 | 1951 | \$64.02 | 1954 | \$57.98 |
| 1949 | 64.02 | 1952 | 57.35 | 1955 | 54.80 |
| 1950 | 62.66 | 1953 | 59.56 | 1956 | 54.05 |

Comparable figures for previous years will be found in former reports of the Bureau. The decrease in average rate, in the face of increased local expenditures, reflects a growing tendency on the part of municipalities to abandon extremely low valuation ratios and to value property on a somewhat more realistic basis.

The foregoing paragraph calls attention to the fact that there has been continued improvement in local assessing practices during the past two years. Apparently the 1954 state valuation, in which a drastic upward revision was made, has played a part in this movement. In general, there was a favorable acceptance of the 1954 state valuation, which resulted in virtually doubling the state valuation of most municipalities. This acceptance is borne out by the fact that during the past two years there have been very few local complaints regarding state valuation. It is also borne out by the fact that during this period 110 municipalities have revised their assessments to some degree to recognize current higher values. There are now 16 municipalities in which the local assessed valuation exceeds the state valuation; and ten of these are using values closely approaching those of current market.

There is a positive indication that assessors are recognizing the necessity of better assessment techniques and practices, since relatively few of the 110 municipalities which have increased their valuations have done so without first examining all the valuations in their municipality. It is obvious that local assessors recognize the problems involved in their work, and are attempting a constructive solution.

In connection with the 1954 state valuation, renewed efforts were made by the Bureau to explain the basis of state valuation and the manner in which it is determined. The present basis of the state valuation is approximately 2/3 of full current market value. We believe no useful purpose is served by concealing this, or by concealing local assessment ratio information. As a service both to taxpayers and to municipal officials, the Bureau began in 1955 to release local assessment ratio figures as determined by it in connection with state valuation work. The release of these figures in turn has made it possible to furnish to municipal assessors price information, developed after conferences with taxpayers, on certain standard items of wide distribution, such as filling station equipment, power lines, and bottled gas equipment, with assurance that such information can be properly applied on the local level. Finally, local assessors are now furnished with a report from the Bureau, following field examination of the local assessment situation, summarizing the results of such examination, and calling attention to any major defects in local practices. Since such examination is made in each town at intervals not exceeding two years, these reports should be of much assistance to local officials.

During the past year revisions have been made in the municipal valuation forms which will result in a simpler and more compact municipal valuation book. This will first come into use in 1957. The Guide for Use of Assessors was completely revised and reprinted in 1956. Miscellaneous material for use of tax collectors as well as assessors has been issued from time to time.

State Valuation. The 1956 state valuation does not represent any marked departure from that of 1954. It shows an overall increase of 6.12%, with an increase of 7.6% in unorganized areas, and 6.06% in organized municipalities. Such increases were naturally not uniform county by county or township by township.

* The reduction in number of taxable polls results in part from exemption of persons over 70 years of age from poll tax, first effective with 1956 assessments. Total polls reported by municipal assessors were 249,164 in 1954 and 246,967 in 1955.

SALES AND USE TAX DIVISION

(Functions: Administration of 2% sales and use tax)

The principal change in the sales and use tax act made by the 1955 session of the Legislature was the enactment of a provision applying the tax to casual sales of motor vehicles, effective July 1, 1955 (Chap. 359, P. L. 1955). The net revenue from such casual sales for the year ended June 30, 1956, was \$92,993.

A change was also made in the bracket schedule, whereby tax is passed on to the customer beginning with 19 cent sales, rather than 25 cent sales (Chap. 330, P. L. 1955). This has undoubtedly done a great deal to eliminate hardships which certain classes of merchants suffered under the old schedule, and is in line with suggestions made in the last biennial report of the Bureau.

Sufficient time has now elapsed to consider what the usual balance of accounts receivable in the Sales Tax Division may be expected to be. Such accounts receivable represent overdue tax. In

part, such overdue tax reflects tax reported on returns to this office without corresponding payment; and in part such overdue tax represents assessments made by this office without corresponding payment. The total revenue, and total accounts receivable figures for the past three years are as follows:

| | 1954 | 1955 | 1956 |
|---------------------|--------------|--------------|--------------|
| Revenue | \$13,776,764 | \$14,474,857 | \$16,009,129 |
| Accounts Receivable | 114,624 | 116,093 | 115,614 |

It will be noted that despite an increase in revenue of over \$2,000,000 in the period covered, accounts receivable have remained fairly constant. This is due not only to close attention to follow-up procedures but also to the able assistance rendered by the Assistant Attorneys General assigned to the Bureau in their activities looking toward collection of delinquent tax.

So far as chronic delinquents are concerned, it has been found necessary during the past year to utilize the criminal penalty provisions of the law in a small number of cases. Action has been taken in the Municipal Courts in such cases, and this has proved to be effective in obtaining compliance not only from the individuals concerned, but from other potential delinquents.

During the year ending June 30, 1956, 1,189 audits of taxpayers' accounts were conducted by the field staff of the Division, resulting in assessment of \$311,696 in tax, interest and penalties. Comparable figures for the year ending June 30, 1955 were 1,318 audits, \$343,826 assessed. That assessments upon audit this past year were less than for any of the three previous years is an indication of more careful reporting on the part of taxpayers.

It was noted in the last biennial report of the Bureau that the abatement procedure which had been set up in 1951 to relieve hardship cases due to the operation of the brackets had proven to be unsatisfactory. This abatement procedure was discontinued effective September 30, 1955.

As noted elsewhere in this report, a position has now been established for the purpose of furnishing better statistical and research service. The matter of statistics issued by the Sales Tax Division has been given considerable attention, both in an attempt to make such statistics more meaningful, and in an attempt to speed up the release of such information. The type of statistical report was revised radically in March, 1956. Since then attempts have been made to speed up the issuance of such reports to minimize the time lag between receipt of revenue and preparation of the statistical analysis. Such reports are now issued monthly, and it is hoped that eventually they may be issued not later than 3 months following the month reported on.

Two Law Court decisions concerning the sales tax have been rendered during the period covered by this report. In the case of

Trimount Coin Machine Company vs. Johnson, (July, 1956), the Court held that the taxpayer, leasing machines in Massachusetts for use in Maine, was not subject to the Maine tax. The decision was, however, strictly limited to the facts before the Court in the particular case, and does not present a rule of general application. In the case of *Morrill vs. Johnson* (September, 1956) which was decided solely on a procedural question, the Court held that an appeal from the State Tax Assessor to the Superior Court under the Sales and Use Tax Act cannot be referred by that Court.

CONCLUSION

Attention should be called to two factors which have a direct bearing on the successful operation of the Bureau of Taxation. First is the fact that Maine is fortunate in having citizens who are anxious to cooperate and to comply with the law. Second is the fact that the Bureau is fortunate in having unusually able and conscientious employees. Lacking either of these two advantages, the administration of taxes in this state would be far more difficult. Finally, it would be ungrateful to fail to mention the uniformly harmonious and helpful relations which exist between this office and Mr. Bailey and Mr. Wathen, the Assistant Attorneys General assigned to the Bureau.

Respectfully submitted,

ERNEST H. JOHNSON
