STATE OF MAINE  
BUREAU OF TAXATION  
AUGUSTA

December 15, 1958

To His Excellency Edmund S. Muskie, Governor  
and the Honorable Executive Council

Gentlemen:

In accordance with Section 59 of Chapter 16 of the Revised Statutes, there is herewith submitted for your consideration the 68th annual report of the Bureau of Taxation.

Since a narrative report is submitted only in connection with the printed biennial report of the Bureau, the following narrative covers a period of two years, through December 1, 1958.

The most serious tax problem in the State of Maine today is that of administration of the municipal property tax. This problem is not new; but each year it becomes more pressing. Immediately following is an outline of the routine activities of the Bureau during the period covered by this report; but attention is called particularly to the comments regarding the municipal property tax, discussed below under the heading "Property Tax Division."

GENERAL ADMINISTRATION

As of June 30, 1958, 117 employees were assigned to the Bureau. A comparison in total number of employees on June 30, 1956 and June 30, 1958 is as follows:

\* Including one State Police Officer assigned to the Division.

The above figures for 1958 include 6 additional employees in the Sales Tax Division required by the increase in tax rate to 3% which became effective July 1, 1957.

For the fiscal year ending June 30, 1958 the cost of operating the Bureau was \$630,688. Total taxes certified during that fiscal year exceeded \$62,000,000. The cost of operating the Bureau in relation to taxes certified amounted to approximately 1.01%.

The Bureau of Taxation is affiliated with the Federation of Tax Administrators, and with the National Association of Tax Administrators, and is represented on the governing boards of each body. The annual conference of the National Association of Tax Administrators was held in Poland Spring in June 1957. The Northeastern Regional meeting of the National Gasoline Tax Association was held in Rockland in June 1958. The part played by these organizations (and by the National Tobacco Tax Association) in promoting better administration of state taxes is great, and the services these organizations provide are perhaps more important to a state such as Maine than to larger and wealthier states.

Further comments will be found below with respect to the various divisions of the Bureau; and additional statistical information follows the narrative portion of this report.

## EXCISE TAX DIVISION

(Functions: Administration of gasoline, use fuel and motor carrier taxes and gasoline tax refunds; cigarette tax; corporation franchise tax; railroad, express company, parlor car, telephone and telegraph company gross receipts taxes; insurance premium taxes; credit union taxes; potato, sardine, milk, blueberry, fertilizer, sweet corn, dried bean and quahog taxes.)

There have been few developments of importance affecting the Excise Tax Division during the past two years. Legislation of

minor importance was enacted in 1957 lengthening the period within which gasoline tax refunds might be claimed from 9 months to one year; and providing for two new "industry" taxes, on dry beans and on quahogs.

Field activities with respect to motor fuel taxes have been carried on vigorously. In the winter and spring of 1957 employees of the Excise Tax Division, after an extensive investigation, made possible the recovery of about \$30,000 in gasoline taxes on fuel imported into this state from Quebec Province for use in woods operations within Maine.

### INHERITANCE TAX DIVISION

(Functions: Administration of inheritance and estate taxes.)

Problems presented by the complexity of the inheritance tax, and particularly the problem of adequate staffing, continue. The prospects for any substitution of a simpler tax in place of the inheritance tax (such as some form of estate tax, as suggested in the last biennial report of the Bureau) seem remote; and the possibility of simplifying the inheritance tax itself seems limited. At the present time the Division is barely able to keep abreast of the work load. The addition of one clerical employee to the staff in the fall of 1958 will perhaps relieve the pressure somewhat; but it will not solve the underlying problems inherent in the present tax.

### PROPERTY TAX DIVISION

(Functions: Administration of real and personal property taxes and poll taxes in unorganized areas; administration of bank stock taxes, supervision of local assessing officials; through Board of Equalization, fixing of State Valuation.)

**Municipal Property Tax.** As noted at the outset of this report, the administration of the municipal property tax constitutes the most pressing single tax problem in the State of Maine today.

The general property tax is the most important single tax in the state, and far outshadows in importance, both in total dollar volume and in impact on the average citizen, any other state or local levy.

In 1943 the total property tax levy for municipal purposes was \$24,000,000. Five years later it had increased to \$38,000,000. In 1953 it had increased to \$50,000,000; and in 1958 the total property tax levy for municipal purposes was over \$68,000,000. While the property tax throughout the country has diminished in relative importance, when compared with the aggregate of state and local levies, the situation is much the same as in Maine in that the absolute amount of property tax has steadily increased year by year.

During the past 20 years, the effect of the property tax on the individual has steadily become more irksome because of the increase in total taxes, as well as the increase in the property tax itself. As this pressure increases, the necessity for equitable valuations becomes more and more obvious. We in Maine have attempted to meet the situation by more intensive educational programs for the benefit of local assessing officials. These programs have been carried out by the Bureau, the Maine Municipal Association, and the Maine Assessors Association, both individually and jointly. So far as the Bureau is concerned, during this period training meetings have been increased, an assessment manual has been prepared, and the activities of the field personnel acting in an advisory capacity have been extended, in an attempt to meet the necessities of the situation.

However, in spite of these activities, the basic laws under which assessors operate, and the laws governing the relation between the state and municipalities, have been largely unchanged. The number of assessing officers and assessing units remains very large. We are attempting to maintain modern machinery with antiquated tools.

There are three general problems which must be overcome if we are to avoid serious difficulties in our property tax administration.

First, the organization of local assessing must be brought up-to-date. We have frequently complained about the poor pay and lack of status of local assessors. Assessing today is a technical profession: it is not something that can successfully be indulged in as a pastime, voluntary or involuntary, by the uninformed layman. Our laws should be revised to provide for sound assessing units, for adequate pay, for full-time assessors, for the choice of assessors in a manner that will insure competent personnel, for tenure in office, and for uniformity in assessing practices throughout the state. At the same time, our laws relating to review or appeal should be revised to insure the same technical competence in the reviewing body that is necessary in the assessors themselves, and to insure uniformity of treatment throughout the state.

Second, some provision should be made so that qualified personnel will be available to fill assessing positions. It would be desirable if the University of Maine could initiate a training course for assessors comparable to the management course which it now offers. The training of competent personnel must go hand in hand with modernization of assessment organization. There will be no great demand for such professional training unless the status of the professional assessor is recognized and unless the pay is commensurate with the skills required.

On the other hand, if assessment organization is modernized to the point where technically qualified assessors are required, obviously there must be some source from which such persons can be recruited. As a step in this direction, we have proposed the initiation of a limited training program within the Bureau for personnel who might be expected to remain with the Bureau for one or two years and who thereafter might be available to fill vacancies in the local assessing field. Funds for initiating such a program on a limited scale have been requested in Part II of the Bureau's current budget.

The third problem which must eventually be faced concerns the subject matter of the property tax. As to this, without at this time making any recommendations, one major problem might be noted. We must seriously consider what should be the future of personal property taxation. No one will question the fact that steps should be taken at once to eliminate intangibles from the tax base, and we understand a bill will be introduced requesting the incoming legislature to do so. Beyond this, serious consideration should be given to the possible elimination of the greater part of what is now taxable personal property, because of the fact that personal property is rarely adapted to property taxes. As long as there are retained in the property tax base types of property which by their nature cannot readily be found, or valued, there are going to continue to be situations which lead to unavoidable friction and to arbitrary exactions.

While the foregoing outlines in general terms problems which must be solved in order to improve administration of this tax, a good deal of ground work must still be done before definite legislative recommendations can be made. To this end, the incoming legislature will be asked to authorize the State Tax Assessor to conduct a study of property tax administration in Maine and to recommend steps (including changes in the law) to improve and modernize such administration. If such a resolve is enacted, it will result in the preparation of detailed plans to be put into effect upon approval by the legislature in 1961, and will be concerned with the first two points noted above, namely the bringing up-to-date of local assessing organization, and the provision of qualified personnel for assessing positions. It would not be concerned with the third point, namely review of the subject matter of the property tax, which is something to be considered at a later time.

The following summary of property taxes levied by municipal, county, and state governments indicates the continuing importance of this particular tax.

\*\* Comparable totals for 1955 and 1956 respectively were \$58,764,961 and \$63,191,260.

† Assessed and expended for municipal purposes in accordance with R. S., c. 16, §§ 77-A - 77-D.

†† Gross state tax levied on unorganized townships \$572,080. Amount shown is net after allowance of credit towards real and school taxes in accordance with R. S., c. 16, §§ 77-A - 77-D.

††† This amount, plus the amount of state tax on municipalities, or a total of \$65,728,039 for 1957 and \$68,568,537 for 1958 is available for local expenditures.

NOTE: Figures are based on original assessments. Adjustments have not been made for supplemental assessments or abatements.

The average rate of taxation per thousand dollars for municipalities was:

|      |         |      |         |      |         |
|------|---------|------|---------|------|---------|
| 1950 | \$62.66 | 1953 | \$59.56 | 1956 | \$54.05 |
| 1951 | 64.02   | 1954 | 57.98   | 1957 | 51.48   |
| 1952 | 57.35   | 1955 | 54.80   | 1958 | 47.22   |

The paradox of decreasing average rates in the face of increasing levies is explained by the upward trend of local valuation ratios—i.e., assessment of property more nearly in accordance with its worth.

Since the provision, in 1953, for limited reimbursement to municipalities for taxes lost on account of veterans' exemptions, a rough measure is available to show the significance of such exemptions. Reimbursement is provided only where the tax loss due to such exemptions is more than 3% of the commitment, and reimbursement is equal only to 70% of the loss in excess of this amount. Claims for such reimbursement are as follows:

| Year  | Number of towns claiming reimbursement | Total reimbursement claimed |
|-------|----------------------------------------|-----------------------------|
| 1954  | 14                                     | \$ 2,373                    |
| 1955  | 21                                     | 4,760                       |

\* The 1958 figures are tentative only.

The routine activities of the Bureau in connection with the property tax, as noted in previous reports, have been continued during the past two years.

An innovation in training schools was made in 1957, when provision was made at the summer school for courses in the French language, an experiment which proved successful and which will be continued. Maine has continued to participate in regional and national conferences of the National Association of Assessing Officers, the 1957 regional conference being held in Portland.

David A. Brown, Property Assessment Supervisor, received the "Most Valuable Member Award" of the National Association of Assessing Officers in 1958.

**State Valuation.** The 1958 State Valuation has been established on substantially the same basis as that for 1956. It shows an overall increase of 5.8%, with an increase of 10.9% in unorganized areas, and 5.6% in organized municipalities. Such increases were naturally not uniform county by county or township by township.

## SALES AND USE TAX DIVISION

(Functions: Administration of 3% sales and use tax.)

The major piece of tax legislation in 1957 was the increase of sales tax rate from 2% to 3% effective July 1, 1957. Aside from this, amendments to the sales and use tax law were minor.

For the year ended June 30, 1958, the Sales Tax Division completed 1021 audits, and 850 review of classified permits, which resulted in additional revenue of \$310,726.82. This compares with 1382 audits, and no reviews, with additional revenue of \$295,340.34 for the previous year. The sales tax representative in the Portland Motor Vehicle Office of the Secretary of State collected \$118,422.59 in use tax on motor vehicles for the year ended June 30, 1958, as compared with \$77,171.14 for the previous year. For 1958 this represented 7487 transactions as compared with 7305 for 1957.

During the past year procedures were adopted so that every holder of a permanent classified permit will have his percentage reviewed once every three years. All permanent classified permits issued prior to July 1, 1955 have been reviewed and those issued subsequent to this date will be reviewed automatically as they become three years old. As of June 30, 1958 there were 2,881 permanent classified permits outstanding, and 245 temporary classified permits. This represents an increase of 233 and 85 respectively, as compared with June 30, 1957.

So far as accounts receivable are concerned, reflecting tax reported on returns but not paid, and tax due on assessments but not paid, the following figures show total revenues, and accounts receivable as of June 30 for the past two fiscal years:

|                     | 1957            | 1958            |
|---------------------|-----------------|-----------------|
| Revenue             | \$17,122,094.70 | \$23,502,404.01 |
| Accounts Receivable | 103,151.91      | 136,628.07      |

The increase in accounts receivable as of June 30, 1958 reflects, of course, the increase in tax rate. The actual ratio of receivables is slightly less than it was the previous year, amounting to .58% of total revenue for the year ending June 30, 1958 as against .60% for the previous year. The stability of receivables reflects the activities of the collection section of the Division, and of the Assistant Attorneys General assigned to the Bureau.

Three Law Court decisions concerning the sales tax have been rendered during the period covered by this report. In the case of *Lipman Poultry Company v. Johnson* and two related cases (February 1958) it was held that certain drugs purchased for use in poultry production were not exempt as "feed," and that sawdust purchased for use as litter was taxable. Amendment of the sales tax law during pendency of these cases, however, has resulted in exemption of such transactions in the future. The case of *Hinckley v. Johnson* (January 1958) involved a contract for the construction of a yacht. It was held that because of the nature of the contract tax should be based only on the charge for materials and not on the full price of the completed boat. Finally, the case of *Morrill v. Johnson* (April 1958) which was decided on a technical matter of procedure, resulted in dismissal of an appeal from a Superior Court ruling upholding a sales tax assessment.

Respectfully submitted,

*Ernest H. Johnson*

STATE OF MAINE  
BUREAU OF TAXATION  
AUGUSTA

December 16, 1957

To His Excellency Edmund S. Muskie, Governor and  
The Honorable Executive Council

Gentlemen:

In accordance with Section 59 of Chapter 16 of the Revised Statutes, there is herewith submitted for your consideration the 67th annual report of the Bureau of Taxation.

As is customary in the off year, this report contains no narrative relating to the activities of the Bureau of Taxation, since this will be incorporated in the 68th annual report, which will be a part of the next printed biennial report of this Bureau.

Nevertheless, it should be noted at this time that developments in the local property tax field are such that it appears increasingly important to review the present basis for administration of this tax. It is hoped that the Bureau will be in a position, by next year, to incorporate in this report, and in its report to the Legislature, specific recommendations intended to secure more effective administration of the property tax both on the state and the local level.

Respectfully submitted,

*Ernest H. Johnson*

*State Tax Assessor*
