STATE OF MAINE  
BUREAU OF TAXATION  
AUGUSTA

December 15, 1960

To His Excellency John H. Reed, Governor  
and the Honorable Executive Council

Gentlemen:

In accordance with Section 59 of Chapter 16 of the Revised Statutes, there is herewith submitted for your consideration the 70th annual report of the Bureau of Taxation.

Since a narrative report is submitted only in connection with the printed biennial report of the Bureau, the following narrative covers a period of two years, through December 1, 1960.

GENERAL ADMINISTRATION

As of June 30, 1960, 120 employees were assigned to the Bureau. A comparison of the total number of employees on June 30, 1958 and on June 30, 1960, is as follows:

|                                                                                                                                            | As of June 30 |      |

\* Including one State Police officer assigned to the Division.

The increase in the number of employees indicated for general administration is due in part to a transfer of 4 persons (3 statistical and 1 legal secretary) previously carried on the sales tax payroll, the transfer being made for more appropriate accounting purposes.

Otherwise, the June 30, 1960 figures include one additional clerk for general administration, three additional field employees in the Sales Tax Division necessitated by enactment of the so-called "transient rental" tax in 1959, and one additional employee in the Inheritance Tax Division. Offsetting these was a reduction of two in the number of employees in the Excise Tax Division.

Since June 30, 1960 it has been necessary to add 2 clerical positions in the Inheritance Tax Division to cope with increased workload.

Since the advent of the sales tax in 1951 two Assistant Attorneys General have been assigned to the Bureau. The duties of these attorneys include advising the Bureau in problems involving interpretation and enforcement of tax laws, attendance at various administrative and judicial hearings, the conduct of litigation arising from appeals from assessments, and the recovery of tax when necessary by legal process. While the major portion of their time has been taken up with sales tax matters, they are frequently called upon in interpretation or enforcement of the other taxes administered by the Bureau. An indication of the increasing workload on the attorneys, so far as collection of past due accounts is concerned, is the fact that the number of cases referred for collection has increased from 328 in the fiscal year ended June 30, 1957 to 581 in the fiscal year ended June 30, 1960, and that the amount referred for collection in the same period increased from \$59,485.20 to \$184,597.75. Receivables in the hands of the attorneys for collection as of June 30, 1960 amounted to \$178,101.12, represented by 730 cases, as compared with \$147,628.72, representing 690 cases, as of June 30, 1959. In short, the workload of the attorneys has increased to the point that an additional attorney is necessary if there is not to be a breakdown in this vital area of tax administration. Request has been made, in the budget of the Bureau for the forthcoming biennium, for such additional legal assistance.

For the fiscal year ending June 30, 1960 the cost of operating the Bureau was \$730,537. The total taxes certified during that fiscal year exceeded \$69,000,000. The cost of operating the Bureau in relation to taxes certified amounted to approximately 1.05%.

Further comments will be found below with respect to the various operating divisions of the Bureau; and additional statistical information follows the narrative portion of this report.

## EXCISE TAX DIVISION

(Functions: Administration of gasoline, use fuel and motor carrier taxes and gasoline tax refunds; cigarette tax; corporation franchise tax; railroad, express company, parlor car, telephone and telegraph company gross receipts taxes; insurance premium taxes; credit union taxes; potato, sardine, milk, blueberry, fertilizer, sweet corn, dried bean and quahog taxes.)

Changes in the organization of this Division during the biennium have made it possible to carry on the activities of the Division without the need of filling two positions becoming vacant through retirement. At the same time field activities have been extended, particularly in the audit of out-of-state motor fuel tax accounts; and in the on-the-spot processing of gasoline tax refund claims, a program initiated in 1955 and first noted in the 1956 report of the Bureau.

The only legislation of importance enacted in 1959, affecting this Division, was Chapter 332 of the Public Laws, taxing aviation jet fuel and providing for a refund of 5/7 of the tax, rather than 3/7 of the tax as is the case with other aviation fuel.

During the biennium the constitutionality of the quahog tax, one of the so-called special industry taxes, was challenged. On October 12, 1960 a decision was handed down by the Law Court in the case of *State v. Laskey* sustaining the tax.

## INHERITANCE TAX DIVISION

(Functions: Administration of inheritance and estate taxes.)

Efforts during the biennium have been directed toward staffing this Division adequately in order to insure prompt handling of inheritance taxes. The number of employees has been increased (as noted in the comments under "General Administration"), improvements have been made in processing, particularly as to office audit, notification of due dates, and supplying of tax forms. A statement of office policy concerning inheritance tax treatment of jointly held property has been reproduced and has been of considerable help in clarifying problems associated with this type of property.

The problems of adequate staffing of this Division are due not only to the necessity for a sufficient number of employees, but also to the recruitment and retaining of technically competent employees. The work is highly technical and the employees assigned to examining and tax computation must undergo a long period of training and close supervision. An indication of the problems concerned with staffing this Division may be seen in the fact that with two exceptions, the employees in the Division average less than one year's service; and that the two exceptions represent one employee with 30 years' service and the other with 15 years' service.

In the case of *Gould v. Johnson*, decided on November 7, 1960, the Law Court upheld assessment of tax on the proceeds of a non-contributory profit sharing trust established by an employer, where the proceeds were paid to the designated beneficiary of a deceased employee.

## PROPERTY TAX DIVISION

(Functions: Administration of real and personal property taxes and poll taxes in unorganized areas; administration of bank stock taxes, supervision of local assessing officials; through Board of Equalization, fixing of State Valuation.)

**Municipal Property Tax.** Two years ago the legislature was requested to authorize a study of property tax administration at both the local and state levels which would result in recommendations as to necessary changes in law or procedure to accomplish much needed reforms in this field. Such authorization was not granted. In the intervening period, the second report issued by Dr. John Sly of Princeton Associates, in the course of a study of tax resources of the state carried out under the auspices of the Legislative Research Committee, again calls attention to the need for a thoroughgoing review of property tax procedures. A resolve will again be submitted by the Bureau of Taxation for the consideration of the legislature, requesting funds and authority to conduct such a review.

In view of past comments in reports of the Bureau, and of the Sly report, it does not seem necessary to dwell at greater length in this narrative on the problems in connection with this tax, or to call attention again to the great importance of this tax. It might not be out of place to bring up-to-date figures given two years ago which showed that the total property tax levied for municipal purposes had increased from \$25,000,000 in 1943 to over \$69,000,000 in 1958. This increase has been continued in the last biennium, and the comparable figure for 1960 was over \$80,000,000.

The following summary of property taxes levied by municipal, county and state governments indicates the continuing importance of this particular tax.

† Assessed and expended for municipal purposes in accordance with R. S., c. 16, §§ 77-A - 77-D.

†† Gross state tax levied on unorganized townships \$635,501 in 1959 and \$633,704 in 1960. Amount shown is net after allowance of credit towards road and school taxes in accordance with R. S., c. 16, §§ 77-A - 77-D.

††† This amount, plus the amount of state tax on municipalities, or a total of \$73,327,976 for 1959 and \$80,348,724 for 1960 is available for local expenditures.

Note: Figures are based on original assessments. Adjustments have not been made for supplemental assessments or abatements.

The average rate of taxation per thousand dollars for municipalities in 1960 was \$48.92, a slight increase over the previous years' figure of \$46.54. There is no doubt that the increase would have been much greater, in view of greater levies, had there not been a continuation of the upward trend of local valuation ratios.

Reimbursement to municipalities for taxes lost on account of veterans' exemptions continues to increase. Reimbursement is provided only where the tax loss due to such exemptions is more than 3% of the commitment, and reimbursement is equal only to 70% of the loss in excess of this amount. Claims for such reimbursement are as follows:

| Year  | Number of towns claiming reimbursement | Total reimbursement claimed |

\* The 1959 and 1960 figures are tentative only.

**State Valuation.** The 1960 State Valuation has been established on essentially the same dollar basis as in 1958. It shows an overall increase of 1.5%, with an increase of 7.5% in unorganized areas, and 1.3% in organized municipalities. Such increases were naturally not uniform county by county or township by township. While the dollar value has not increased appreciably, the State Valuation has fallen roughly from 65% of current worth to approximately 50% of current worth. The Board of Equalization considered that in view of the relatively inflexible nature of subsidy formulae based upon State Valuation it was preferable to recognize increasing price levels by a reduction in ratio rather than by an increase in amount of State Valuation.

## SALES AND USE TAX DIVISION

(Functions: Administration of 3% sales and use tax, including tax on "transient rentals.")

The major piece of tax legislation in 1959 was the addition to the sales tax base of so-called transient rentals. This additional tax became effective on September 1, 1959. Information presently available indicates that the revenue which will be derived from this tax will approximate between \$500,000 and \$600,000 per year. As with many new statutes, certain minor problems have arisen, which the Bureau will suggest correcting at the forthcoming legislative session.

In the early part of 1960 a long standing problem involving the taxability of purchases of rolling stock under the Sales and Use Tax Law, affecting both highway and rail carriers, was finally resolved on the basis that where such rolling stock is purchased outside Maine and is brought into Maine under circumstances which give it the status of an instrumentality of interstate commerce, use tax is not applicable. Involved in this decision were refunds to highway carriers aggregating over \$62,000. Several related problems have arisen which may ultimately require court determination.

An important step in connection with enforcement of the tax was taken by enactment of Chapter 190 of the Public Laws of 1959, which, while not depriving a taxpayer of any of the rights which he heretofore had so far as contest of assessments is concerned, does substitute a simple and inexpensive method of reducing assessments to judgment once the assessments have become final as to law and fact.

For the year ended June 30, 1960, the Sales Tax Division completed 1364 audits and 565 reviews of classified permits, resulting in net assessments (after adjustments on reconsideration) of \$430,350.64, and in credits reflecting overpayments by registrants of \$15,738.25. This compares with 1327 audits and 557 reviews, with net assessments of \$418,176.01 and credits of \$22,458.52 for the previous year. Use tax on motor vehicles collected by the sales tax representative at the Portland Motor Vehicle Registry office for the year ending June 30, 1960 totalled \$140,839.27, on 8,654 transactions, as compared with \$122,062.60 on 7,442 transactions for the previous year. The total number of active permanent classified permits, issued under Section 14 of the Sales Tax Law, was 3,120 as of June 30, 1960; and 3,003 as of June 30, 1959. Temporary classified permits outstanding on the same dates were 254 (1960) and 313 (1959).

The following figures reflect accounts receivable (i.e. tax reported on returns, or based upon final assessments, and unpaid).

in relation to net revenue as of June 30 for the past two fiscal years:

|                     | 1959            | 1960            |
|---------------------|-----------------|-----------------|
| Revenue             | \$24,482,180.41 | \$27,318,071.35 |
| Accounts Receivable | 158,716.64      | 235,730.79      |

The ratio of receivables to revenue has increased from 0.65% in 1959 to 0.86% in 1960, lending point to the comments in the first part of this narrative as to the need for additional legal assistance. While further administrative steps are being taken to reduce the level of past-due accounts, the fact that the credit controls available in the usual business are not available to the Sales Tax Division means that past-due accounts in many cases are unavoidable. In spite of this, sales tax receivables compare favorably with those of mercantile activities extending credit.

Since the last narrative report of the Bureau, several important Law Court decisions have been handed down involving the sales tax. In the case of *Oxford Paper Company v. Johnson*, decided October 30, 1959, the Court again construed the portion of the law excluding from tax items which are "consumed or destroyed in the process of manufacture," and held that the statute did not support the position of the Bureau that only those items having a physical life of less than one year were "consumed or destroyed" under the law. Because of a belief that this decision may result in a broad loophole in the law, corrective legislation has been prepared for submission to the forthcoming Legislature. In the case of *Scott Paper Company v. Johnson*, decided on March 7, 1960, the Court construed the portion of the law whereby installation charges are not a part of the tax base if separately stated, and held that even though the separate statement of such charges is obtained by the purchaser from his vendor only after assessment of use tax has been made, adjustment must be made in the assessment to eliminate tax on the installation charges. In the case of *Camp Walden v. Johnson*, decided on June 2, 1960, the Court held that the so-called transient rental tax did not apply to charges made for attendance at boys' and girls' camps.

In addition to the foregoing, there are at present several sales tax matters pending in court, two of which—one involving the sufficiency of a retailer's records and the other involving a retroactive assessment in the case of a retailer holding a permanent classified permit issued under Section 14 of the Sales Tax Law—are of considerable importance in relation to administration of the tax.

Respectfully submitted,

ERNEST H. JOHNSON  
State Tax Assessor
