ANTHONY J. NEVES
EXECUTIVE DIRECTOR

October 1, 2001

Dear Members of the Economic Development Incentive Commission:

According to 5 MRSA Section 13070-J, the State Tax Assessor is required to submit a report to the commission identifying the amount of revenues foregone as the result of the Jobs and Investment Tax Credit (JITC) and the Research Expense Tax Credit (R&D), and public funds spent on the Business Property Tax Reimbursement Program (BETR). Attached are three reports providing you with this information.

The first table lists the number of corporations that reduced their Maine income tax liability with the JITC and/or the R&D credit in tax year 1999, as well as the value of the credits. Tax year 1999 is the last year for which we have full information on corporate filers. Statutes governing the release of confidential taxpayer information prevent us from reporting the names of the corporations that benefited from these tax credits. Table II lists the number of individual filers that reduced their Maine income tax liability with the JITC or the R&D credit in tax year 2000. Please note, MRS has not received all of the tax year 2000 individual income tax returns yet.

The third attachment is a computer printout of BETR recipients. For purposes of this report, businesses that received reimbursement during calendar year 2000 are listed. Of the 1,502 businesses that received a BETR reimbursement during calendar year 2000, 290 received a reimbursement of \$10,000 or more, requiring them to report to the EDIC. Firms receiving a BETR reimbursement greater than or equal to \$10,000 represent 19% of recipients and 96% of the total BETR expenditure in calendar year 2000.

If you have any questions on this report please do not hesitate to contact me.

Sincerely,

Anthony J. Neves

Cc: Janet Waldron, Commissioner of Administrative and Financial Services
Julie Jones, Office of Fiscal and Program Review

Jobs and Investment Tax Credit

The Jobs and Investment Tax Credit (JITC) provides a credit of 10% of the investment of at least \$5,000,000 in personal property that creates at least 100 new jobs within 2 years of the investment. Retail facilities are excluded from taking the credit. The JITC is limited to the lesser of \$500,000 or the tax liability of the taxpayer. Any unused credit may be carried forward for up to 7 years.

Research Expense Tax Credit

The Research Expense Tax Credit (R&D) provides a credit equal to the sum of 5% of the excess of qualified research expenses over the average research expenses of the prior three years, and 7.5% of the basic research payments to educational institutions and certain research organizations. The credit is limited to 100% of the first \$25,000 of tax liability and 75% of the tax liability over \$25,000. Any unused credit may be carried forward for up to 5 years.

Business Property Tax Reimbursement

The BETR program provides for a reimbursement of property taxes paid on qualified tangible, personal, depreciable property held for business use, and first placed into service in Maine after April 1, 1995. Public utilities, cable television companies, or providers of radio paging, mobile communications, satellite direct TV, or television distributions services are ineligible for BETR reimbursement. In addition, office furniture, lamps and lighting fixtures, buildings, and land are excluded. Reimbursement is limited to 12 years. Taxpayers using an Investment Tax Credit or the High Technology Tax Credit on reimbursable property are not eligible for BETR on that property, and lose that year of BETR eligibility when either one of those credits are taken.
