INTRODUCTION

The normal operations of our Maine State government are recorded and controlled on a fund basis in three major operating funds: **GENERAL FUND**, **HIGHWAY FUND** and **OTHER SPECIAL REVENUE FUNDS**.

The **GENERAL FUND** receives its revenues from **GENERAL STATE REVENUE SOURCES**, the largest sources being from Individual Income Taxes and Sales and Use Taxes.

The **HIGHWAY FUND** provides financing for certain highway related activities within several departments, primarily, the Departments of Transportation, Public Safety and Secretary of State (Bureau of Motor Vehicles).

OTHER SPECIAL REVENUE FUNDS receive their revenues from segregated or dedicated sources. The funds are expended by category for special purposes. The major source of revenue in **OTHER SPECIAL REVENUE FUNDS** is derived from the federal government.

In addition to the three operating funds that are listed above, there are numerous other funds that are used to record specific activities such as Capital Project, General Long Term Debt, Enterprise Fund, Intragovernmental Services and Trust and Agency Funds.

The information contained in this report was compiled from the following sources:

- the Bureau of Taxation;
- the Bureau of Accounts and Control;
- State Treasury reports;
- the Maine Revised Statutes Annotated;
- various state departments and agencies;
- the Advisory Commission on Intergovernmental Relations;
- and financial reports and records of the Legislature's Office of Fiscal and Program Review.

* State-Municipal Revenue Sharing (5.1% of Sales and Use Tax and Income Taxes, plus \$2,844,000 per year). This program was suspended for 6 months in FY 92 to achieve approximately \$32.5 million in additional General Fund revenue. This suspension was offset by a General Fund appropriation of \$14.4 million. PL 1991, c. 780, sec. Q-1 eliminated the provision to transfer the additional \$2,844,000 per year of sales and use tax receipts to the Local Government Fund effective August 1, 1992.

SALES AND USE TAXES (ADOPTED 1951) - 36 M.R.S.A. CC. 211-225

Sales Tax The sales tax is imposed at the rate of 6% of the actual sales price on retail sales of tangible personal property, telephone and telegraph service, fabrication services, extended cable television service, custom computer programming and rentals of video tapes, games and equipment; at 7% on rentals of living quarters in hotels, rooming houses, tourist and trailer camps, the sale of liquor by the drink and meals purchased at facilities licensed for the on-premise consumption of alcoholic beverages; and at 10% on the short-term rental of automobiles. Sales of new manufactured housing (mobile homes and modular homes) are subject to the 6% tax, usually at 50% of the selling price. Grocery staples are exempt and exclusions exist for other specified categories.

Use Tax The use tax is imposed at the rate of 6% of the actual sales price of tangible personal property purchased at retail sales for use, storage or other consumption in Maine, unless substantial (12 months) use was made of the property elsewhere before it was brought to Maine. The tax is also imposed on purchases of motor vehicles, camper trailers, livestock trailers, special mobile equipment, boats and aircraft at casual sale. An exception is made for motor vehicles registered as automobiles which were purchased and actually used in another state before being brought to Maine, if the purchaser was a resident of the other state at the time of purchase. The use tax does not apply to purchases on which Maine sales tax has been paid, and credit is allowed for sales or use tax paid in another jurisdiction up to the amount of the Maine tax.

GROSS RECEIPTS TAX (Adopted 1993) - 36 M.R.S.A. c. 370

A tax is imposed on all licensed nursing home operations in the state at the rate of 7% of the gross receipts of charges made for patients receiving nursing home care.

Sales of prepared food by establishments licensed for the on-premise consumption of liquor are subject to the gross receipts tax as well, in lieu of the 7% sales tax imposed on such sales previously.

Amended by PL 1993, c. 711 to repeal the "Private Pay" refundable tax credit and establish the Catastrophic Health Expense Program that allows individuals or trusts acting on behalf of individuals a nonrefundable income tax credit equal to 2.7% of the Federal income tax allowance of deduction for medical expenses for the same tax year.

INCOME TAXES (Adopted 1969) - 36 M.R.S.A. cc. 801-841

Individual Income Tax. A tax is imposed for each taxable year on the Maine taxable income of every resident individual, estate and trust of this state. Nonresident individuals, estates and trusts are subject to tax on income derived from sources within this state. Tax rates are progressive from 2% to 8.5%. For nonresident individuals, the progressive rate structure is applied to taxable income from all sources in determining the tax on Maine sourced income. Tax rates for fiduciaries are the same as those for single individuals.

Withholding of Maine income tax from wages is required of every employer who maintains an office or transacts business in Maine and who makes payment of any wages subject to Maine income tax, whether or not the employee is a Maine resident. Every person who maintains an office or who transacts business in Maine and who makes payment of any other items of income which constitute Maine taxable income is also required to withhold Maine income tax from such payments if federal withholding is required.

Income Taxes (Con't.)

Beginning in fiscal year 1997-98, all undedicated General Fund individual income tax revenue in excess of \$676,230,000 must be placed in the Revenue Targeting Fund. Revenues from this fund must be used to reduce the individual income tax rates for certain taxpayers in each subsequent tax year until a 20% reduction in the rates effective for tax year 1994 is achieved. No adjustment is made for single filers with taxable income of \$30,000 or more, heads of households with taxable income of \$45,000 or more, and married individuals filing joint returns with taxable income of \$60,000 or more.

Partnerships and S Corporations. Every partnership and S corporation having a resident partner or shareholder or having Maine derived income is required to file an information tax return.

Corporate Income Tax. A corporate income tax is imposed on all profit oriented corporations subject to federal income tax and having nexus in this state, with the exception of financial institutions subject to the franchise tax and insurance companies subject to the premium tax. The tax is levied on Maine net income which is federal taxable income as modified by Maine law. In the case of a corporation doing business both within and without this state, Maine net income is determined by apportioning the modified federal taxable income according to a formula using payroll, property and sales. Tax rates are progressive from 3.5% to 8.93%. A taxable corporation which is a member of an affiliated group operating in a unitary fashion must file a combined report.

\$75,000 but not over \$250,000	8.33%

Originally effective on July 1, 1969, for individuals, estates and trusts and on January 1, 1969, for corporations. Amended numerous times since enactment to alter the tax rates and other provisions. For individuals, the tax rate brackets, standard deduction and personal exemption have been subject to indexing for inflation since tax year 1983 for each year except tax years 1988, 1989 for tax years 1992, 1993 and 1994 the tax rate brackets and personal exemption were not adjusted for inflation because the inflation factor was less than 1.000. The standard deduction is the same as the federal deduction. The tax rate brackets for fiduciaries have been subject to indexing for the same period.

The Secretary of State issues registration plates designed so that a farm motor truck registered pursuant to 29-A M.R.S.A., §505 may be distinguished from commercial vehicles otherwise registered under this section. Farm motor trucks may be driven with that registration only if the vehicle is used primarily for the transportation of agricultural products produced on and meant to be used in connection with the operating of a farm or farms owned, operated or occupied by the registrant and may not be used for the transportation of firewood, unless that transportation is incidental to other farm operations. Trucks used for the retail delivery of milk or used on a substantially daily delivery schedule on established routes are not included as "farm trucks". Any person fraudulently obtaining a farm truck license or using a truck with a license plate marked for any purposes other than those authorized by 29-A M.R.S.A., §505 shall be fined not less than \$100 nor more than \$500.

When a truck is already registered, the owner, by paying an additional fee, may receive a short-term permit allowing the owner to haul loads of larger tonnage for a limited period of 8 months or less. No such permit may be issued for less than one month for registered farm vehicles and two months for all other trucks. No permit may extend beyond the expiration of the regular license. The fee is the difference between the owner's present annual registration fee and the annual fee for the desired tonnage multiplied by the percentage according to the following table:

Temporary Registered Gross Weight Increase

SPRUCE BUDWORM MANAGEMENT TAX (Adopted 1976 - 12 M.R.S.A. §8427)

There is established a Spruce Fir Protection District consisting of land which has been accepted for silvicultural treatment designation under 12 M.R.S.A. §8424. Lands submitted remain under the jurisdiction of the Act for five years. Persons owning parcels of forest land within the Spruce Fir Forest Protection District are subject to pre-project and post-project excise taxes for the privilege of owning and operating such forest land.

The pre-project excise tax is computed by multiplying the ratio of the planned spray acres for each landowner to the total planned spray acres for all landowners controlling 1% or more of the spray acres in the project by the total project cost.

The post-project excise tax is designed to raise 90% of the state cost of each year's program from the owners of forest land actually sprayed, and 10% from all taxable acres in the Spruce Fir Forest Protection District. The amount of the post-project excise tax payable by each landowner is reduced by the amount of the pre-project excise taxes payable for that calendar year.

Spruce Budworm Management Tax (con't.)

With the subsidence of the spruce budworm populations in the mid-1980's, no new acreage was submitted to the District. There has been no resubmission of acreage as the present five year enrollments reach maturity. There are presently no parcels enrolled in the District. Although there is no immediate need for this mechanism, the Act remains extant.

The municipal cost component is comprised of the following categories of services provided for the Unorganized Territory: Public Safety; Land Use Regulation Commission; Secretary of State; property tax assessment; county reimbursement for

Unorganized Territory Educational and Services Tax (Con't.)

The Legislature determines the municipal cost component for the current fiscal year and so advises the State Tax Assessor for computation of the mill rates for the Unorganized Territory Educational and Services Tax.
