Unfortunately, we did not have the funding (approximately \$39,000) in this year's budget to fund this position. So we are waiting until the position can be funded, either through another position vacancy or through the Legislature during the next budget cycle. Since we do not anticipate a position vacancy any time soon, we are waiting until the Legislature can approve the increase. That is why the position has not been filled. It has left us short-handed which has been difficult and stressful. This position previously oversaw our Creative Aging program and our Traditional Arts program which have either been neglected and/or left dormant since this position was vacated. These programs are critical to the agency's strategy in implementing our Cultural Plan.
00540	MAINE ARTS COMMISSION	6540	OFFICE ASSOCIATE I	014400137	7/26/2017	7/14/2017	80	11	01	013	01394W017628	60	52	This position is Federally funded. We did not fill it this year so that we could use those funds toward grants to the field. This has left us without admin support which has been difficult. It was an experiment to see how we could manage without this position. As a result, the duties of this position have fallen to our Marketing Director who is struggling to keep the website updated, oversee the development of marketing collateral, implement new visibility strategies for the agency and its programs. In addition, we are shorthanded when we do events -- two less people (including the above position) to help set up and take down, handle registration, make signage, etc. This position also oversees the Ticket To Ride program, which is now being handled by the Arts Education Director who is already working 50+ hours a week on a regular basis. The plan is to fill this position once funding for the above position comes through.
Potential additional restructuring is under consideration should the funding materialize for the above FJA change in FY19.

Deputy State Auditor

**DATE:** March 14, 2018

**TO:** Melissa Gott, State Budget Officer, Bureau of the Budget

**FROM:** Pola A. Buckley, State Auditor, Office of the State Auditor

Dear Ms. Gott,

We have reviewed your memo dated February 26, 2018 about Public Law 2017, Chapter 284, concerning vacant positions.

It is my belief that the Office of the State Auditor is not covered by the requirement of Public Law 2017, Chapter 284 because of the following law:

**§242. Organization; deputy**

The Office of the State Auditor must be organized in the manner the State Auditor considers best suited to the accomplishment of its functions. The office may have those auditors, assistants and employees as the State Auditor may require, but they are subject to the Civil Service Law. [2013, c. 16, §2 (AMD).]

Any person elected to the position of State Auditor or any person permanently employed by the Office of the State Auditor as deputy auditor, director of audits or assistant director of audits must be currently qualified as or have successfully completed or passed the examination for a certified public accountant, certified information systems auditor or certified internal auditor. Persons not so qualified may be employed in these audit supervisory positions on a temporary basis not to exceed 9 months. [2015, c. 44, §4 (AMD).]

In the event of a vacancy in the office of State Auditor because of death, resignation, removal or other cause, the deputy auditor shall perform the duties of the office until a State Auditor has been appointed in conformity with section 241 and has been duly qualified. In the event of absence or disability of the State Auditor, the deputy auditor shall likewise perform the duties of the office during the State Auditor's absence. [2013, c. 16, §2 (AMD).]

**SECTION HISTORY**

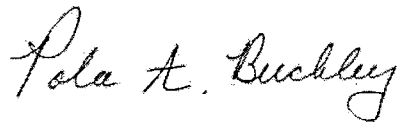

1985, c. 785, §B12 (AMD). 1987, c. 802, §§1,2 (AMD). 2013, c. 16, §2 (AMD).  
2015, c. 44, §4 (AMD).

It is necessary to consider the required Generally Accepted Government Auditing Standards promulgated by the United States Office of Management and Budget. As State Auditor and as Certified Public Accountants, it is clear to me that OSA must remain organizationally independent and not subject to the influence of the Executive branch. However, had we already made a decision to eliminate a position, I would have no issue informing the Bureau of the Budget at this time. We do plan to scrutinize our needs even more closely than usual for the next budget-setting process. The State of Maine receives approximately \$2.6 billion per year in Federal Funds. It is essential that OSA adhere to the expectations of the Federal Single Audit Act. Organizational independence is the cornerstone of a proper audit.

The driving force of our office is continuous improvement in regard to efficiency and effectiveness.

I hope you accept my comments respectfully as they are intended.

Sincerely,

A handwritten signature in cursive script that reads "Pola A. Buckley". The signature is written in dark ink and is positioned above the printed name.

Pola A. Buckley

															<p><b>Position required by BVS; Reclass action proposed with the following justification:</b></p> <p>Maine Bureau of Veterans' Services (MBVS) has attempted to fill the Machias VSO position for more than three years. The bureau has gone through the testing and interview process multiple times and offered the position to candidates three times. Two out of three declined the position due to pay or moving concerns and the third resigned on the first day of training for family emergency/personal reasons. The other recruitment attempts have either resulted in no qualified interested applicants or unsuitable applicants. Without a VSO in Machias, the bureau has sent other VSOs to the area periodically to service veterans and their families in the Machals/Calais area, resulting in extra state travel and expense.</p> <p>MBVS has concluded that continuing to recruit for this position in this area is impractical. Alternately, the bureau plans to process a reclassification upgrade for the Office Associate II stationed in Machals and assign that position some of the duties typically performed by the VSO. Additionally, the bureau plans to reorganize the Machias VSO position to a Management Analyst II position and transfer the position to Togus, where this employee will work remotely with the Machals employee (using video conferencing, and our internet based case management program) to provide veterans' services. The Management Analyst II will also assist the Veterans Services Supervisor (also stationed at Togus) with providing leadership and guidance to all of the field offices, analyze call and work volume and reassign as required, analyze and recommend efficiency improvements for veterans' services. The position would be an expert in the veterans claims process and also a senior leader in the bureau.</p> <p>This reclassification and reorganization will result in better service to the Machals area, savings in state travel, and more efficiency for the entire bureau.</p>

															<p>Encumbant resigned 3-19-18, position is required by the Military Bureau, a request to hire initiated with the following justification: This position is required to fulfill the facility operations and maintenance mission for the Maine Army National Guard (MEARNG) at the new Joint Force Headquarters (Camp Chamberlain), Augusta, Maine - a 100,000 square foot facility.</p> <p>The complexity of these building systems, and required daily routine and preventative maintenance, necessitates a full-time DFE representative to perform work as well as coordinate the work of contractors and vendors. Having a person dedicated to perform the necessary preventative repairs, as well as manage the building controls, results in better energy efficiency and reduced repair costs.</p> <p>Contracting was considered, but is not efficient or cost effective for the variety of services provided by this position. The responsibilities and tasks assigned to this position include: facility repairs &amp; preventative maintenance services; oversight of contractors; operation of building management software and direct digital control systems; physical security of buildings and grounds; and data collection through the use of specialized sensors for energy measurement and verification. Additionally, due to security protocols, this employee is required to have a Common Access Card (CAC) to operate the building controls.</p>

															<p>Position required by BVS, a hire request is being processed with the following justification: This position is the only Homeless Veteran Coordinator (HVC) Position in all of State of Maine government. This is professional services work involving advising and assisting veterans and their dependents and families who have become homeless or at risk of becoming homeless. The position is the Bureau's lead and point of contact on Homeless Veterans issues, representing the Bureau on Homeless Veterans committees and assisting with compiling data for mandated legislative reports and policy decisions. The position was created in 2016 as a result of a legislative Commission 'To Strengthen and Align Services to Veterans in Maine.' This position requires clear and consistent communication with the Director of Maine Bureau of Veterans' Services and the MBVS team. Frequent travel throughout the State of Maine, assigned in-state geographic range as well as occasional out of state travel is required. The Homeless Veteran Coordinator must able to work as a Bureau Veterans' Service Officer as needed but also be a skilled public speaker with the ability to make independent decisions concerning policy relating to benefits for Homeless Veterans and take action on behalf of the Bureau.</p> <p>This position is critically important to the Bureau's ongoing effort to maintain close working relationships with stakeholder groups working to end veteran homelessness and to find and connect Maine's homeless veterans with assistance. Please approve as soon as possible.</p>

															<p><b>Position required by BVS, a hire request is being processed with the following justification:</b> The Maine Veterans' Cemetery System is requesting approval to fill the recently vacated Office Specialist I Manager Supervisor (OSIMS) position at the Augusta cemeteries as quickly as possible. The position is the Maine Veterans' Cemetery System's office manager/supervisor for the administrative personnel assigned to the Augusta, Springvale and Caribou Veterans' Cemeteries. This position requires a broad knowledge of federal and state veterans' cemetery operating procedures and burial benefits. The position directly oversees the completion of monthly/annual National Cemetery Administration (NCA) reports, processing for VA plot allowance reimbursements and scheduling of burials. The OSIMS is the primary liaison with assisting families with the burial of their loved ones.</p> <p>Additionally, the position assists the bureau Business Manager I with Maine Bureau of Veterans' Services accounts.</p> <p>As springtime quickly approaches the Augusta cemeteries burials will increase from the winter season average of 5-6 burials per week to 25 burials per week. Not filling the position will severely hamper the Cemetery System's ability to provide the best possible service to veterans and their families. The OSIMS is responsible for providing services to veterans/dependents living in the State of Maine and managing the day-to-day operations of the office ensuring veterans and/or their dependents are assisted in a timely manner. Having this position filled is vital to the Maine Veterans' Cemetery System.</p> <p>The Bureau does not have sufficient staff to delegate these duties and responsibilities. This small office relies on this one position to administratively manage the Maine Veterans' Cemetery System.</p>

* As a result of an external assessment, feedback from our stakeholders and data users, the MHDO board of directors made the decision to support a 5 year transformation effort (just completed year 4 of the process). Several key goals of the transformation include: rebuilding our data warehousing functions to leverage the efficiencies of newer technologies (better suited to meet the changing needs of data submitters and users) Implement a metadata strategy to improve transparency, documentation and communication with our data submitters and data users; Implement an automated data tracking process; Leverage existing assets where feasible. At the end of the process we will be reviewing and assessing MHDO staffing needs (both filled and vacant positions) for our future transformed state.

Changing agency needs that were substantially different from the duties and responsibilities of a Museum Technician III necessitated the creation of the new Historic Preservation Technician class. However, the uncertainty about the level of ongoing federal funding at the beginning of the new administration in Washington, as well as a temporary services contract for organizing the agency's research collections has led us to delay filling the position. We anticipate that the federal funding picture will be more clear at the end of September, at which time the temporary services contract will also end. Thereafter, we expect to begin the hiring process.

09510	MAINE COMM ON INDIGENT LEGAL SERVICES	5340	FINANCIAL SCREENER	146000004	1/11/2017	12/27/2016	04	12	01	010	01095FZ11201	80	52	This position became vacant in December, 2016, with the resignation of the incumbent. The Commission promptly sought to fill this position and filed the "hiring justification form" with Human Resources. When authority to post the job was not forthcoming, the Commission inquired with HR and was told that the request was pending approval in the Governor's office. To date, the Governor's office has not authorized the Commission to fill this position. The Commission believes this is an important position that should be filled. Financial screeners assist judges to ensure that applicants are financially eligible for indigent legal services. The screeners make eligibility recommendations and also recommend that, when appropriate, applicants reimburse the state for some or all of the cost of the services that they receive. When reimbursement is ordered, the screeners oversee reimbursement payments and pursue collection efforts against people who are behind on payments. Courts with financial screeners generate substantial reimbursements that the Commission uses to pay for indigent legal services. Portland is the State's busiest court, and the revenue generating Portland screener position is important to the Commission's overall budget. In the Commission's view, this position should be promptly filled and definitely should not be eliminated. Note that the Working Group to Improve the Provision of Indigent Legal Services recommended that this position be filled promptly.
09510	MAINE COMM ON INDIGENT LEGAL SERVICES	6540	OFFICE ASSOC I	146000002	8/27/2014	8/11/2014	80	11	01	010	01095FZ11201	80	52	This is an administrative support position in the Commission's central office. This position has been vacant for a long time. The central office staff consists of two attorneys and an accountant. Using technology, the staff has been able to absorb and share the administrative tasks that this position would be responsible for. Recent changes, however, have increased the need to fill this position and relieve the existing staff from the burden of administrative tasks. The Commission oversees services in over 25,000 cases per year. The Court's assignment of counsel in each case must be verified, and the Court has recently changed the way they transmit these verifications, increasing the burden of this process. Administrative support staff can relieve this added burden. In addition, in response to recent legislative oversight, the Commission has placed increased information gathering and reporting requirements on the central office staff, reducing the time available for the existing staff to address administrative tasks. Finally, the Commission plans to undertake increased oversight of attorneys in individual cases, a process that will generate an increased document flow that requires administrative support. For these reasons, this position, although long vacant, is important to the Commission moving forward. The Commission believes the position should be filled in the near future and should not be eliminated. Note that the Working Group to Improve the Provision of Indigent Legal Services recommended that this position be filled.

														Pending approval to hire - The Bureau relies on this position, when filled by qualified candidates, to satisfy certain National Association of Insurance Commissioners (NAIC) requirements. The position will be responsible for the timely performance of insurance company examinations thereby satisfying NAIC accreditation requirements. In the event that the State of Maine ever lost its NAIC accredited status, other states would be prevented from relying on the Maine Bureau of Insurance's regulatory oversight of insurance companies domiciled in the State of Maine. In addition, the compliance expenses borne by Maine domiciled insurance companies would increase significantly.

There are approximately 60 filings for Medicare supplement rates that are submitted each year for review and approval. The position also updates comparison tables for individual and small group health insurance rates, rating assumptions and rate factors when filed each summer. The position updates our consumer rate comparison calculator that is posted to the Bureau website to calculate premiums by plan, age and county. We are planning to fill this position with an intern this summer, and following that, to fill it on a permanent basis.

The delay in the review process slows the flow of new products to market to the detriment of insurance companies and the insurance buying public. Property and casualty insurance products are becoming increasingly complex with the introduction of much more complicated rating models and algorithms; new products to cover exposures such as terrorism, cyber liability, the "sharing economy", private flood, application based products and autonomous vehicles further complicate and delay the review process.

Sufficient administrative support for the Office is critical and extended leave of primary support without backup would jeopardize operations. Savings received from reorganizing this position can be used for potential reorganizations to address other needs. The Bureau anticipates submitting a proposal to reorganize positions next budget cycle.

Responsibilities for this position include check processing, exam proctoring and many other clerical tasks. We are not filling this position immediately, however, as we intend to "freeze" it to pay for intern positions this summer. Following the summer, we anticipate looking into filling this position permanently. In the interim, we have often used temporary staff to fill this position.

This position manages the divisions of Anti-Theft, Dealer Licensing & Driver/Rider Education within the Division of Enforcement, Anti-Theft and Regulations in issuing business licenses to Maine automobile dealers and driver/motorcycle education schools and instructors; and business licenses to automobile dealers and dealer plate producing a revenue stream of approximately \$1,066,016. The titles section issued 452,236 titles generating \$14,927,088 in 2017. The odometer recording on the title is part of the Federal Truth and Mileage Act. This position has oversight of this examination process. This position provides policy direction, personnel oversight, planning services and technical oversight of computer systems and represents BMV both within and outside the state. Not filling this position creates a negative impact on the division as the other two executive managers are taken away from focusing on leading the division's activities to meet program and policy initiatives to having to focus more on the day-to-day administrative and operational functions of the work sections.
