MAINE STATE POLICE  
38 HOSPITAL STREET  
AUGUSTA, MAINE 04330

April 22, 1977

The Honorable James B. Longley  
Governor, State of Maine  
Augusta, Maine 04330

Dear Governor Longley:

As directed by State law, it is my duty and pleasure to present to you and the Legislature "Crime in Maine, 1976".

Figures in this publication are the only comprehensive statewide research data available on crime in Maine and represent a concerted effort by all known law enforcement agencies to identify and record reportable crime information by location and scope of activity.

The broad use of this data collection since its inception in 1974 for management, planning, budget, crime prevention, training needs, etc., by contributing police agencies and related criminal justice agencies has resulted in an insatiable demand for more and faster information. As a direct result of this demand, a complete computer reprogramming of the data has taken place to provide a better service with crime trends, on an ongoing basis to contributors.

The Maine Criminal Justice Planning and Assistance Agency, and the related Data Analysis Center, have continued to provide generous assistance to this program.

The Department of Public Safety must acknowledge the excellent cooperation of all the contributing agencies that provide, under stringent rules and regulations, the data necessary to complete this meaningful publication.

It is my sincere belief that the "Crime in Maine, 1976" publication will continue to be viable in identifying crime problems so they can be dealt with promptly in the best interests of the citizens of Maine.

Sincerely,

A handwritten signature in dark ink, appearing to read "Allan H. Weeks", written over the printed name.

COLONEL ALLAN H. WEEKS  
Commissioner

## CRIME IN MAINE - HIGHLIGHTS

During the year 1976, the Crime Clock Average in Maine showed the following:

- \* ONE MURDER EVERY 12 1/2 DAYS.
  - \* ONE RAPE EVERY 83 HOURS
  - \* ONE ROBBERY EVERY 21 1/2 HOURS.
  - \* ONE AGGRAVATED ASSAULT EVERY 4 HOURS AND 45 MINUTES.
  - \* ONE BURGLARY EVERY 38 MINUTES.
  - \* ONE LARCENY EVERY 21 MINUTES
  - \* ONE MOTOR VEHICLE THEFT EVERY 4 HOURS.
- 

- \* THERE WERE 43,647 INDEX CRIMES IN 1976 FOR A CRIME RATE OF 41.21 PER 1,000 POPULATION.
- \* IN TOTAL, CRIMES INCREASED DURING 1976, BUT DECREASES WERE RECORDED IN THE CATEGORIES OF MURDER, RAPE, AND BURGLARY.
- \* LARCENIES INCREASED BY 8.7% IN 1976.
- \* PROPERTY CRIMES (BURGLARY, LARCENY AND MOTOR VEHICLE THEFT) ACCOUNTED FOR 94.7% OF ALL INDEX CRIMES.
- \* OF THE 29 MURDERS DURING 1976, SIXTEEN WERE THE VICTIMS OF FIREARMS.
- \* NON-RESIDENTIAL BURGLARIES IN THE NIGHT TIME DECREASED BY 13.9% AND RESIDENTIAL BURGLARIES IN THE NIGHT TIME DECREASED BY 4.3% IN 1976.
- \* FIVE COUNTIES SHOWED CRIME RATE DECREASES IN 1976 RANGING FROM 3.76% IN CUMBERLAND COUNTY TO 13.93% IN WASHINGTON COUNTY.
- \* THE VALUE OF PROPERTY STOLEN WAS IN EXCESS OF \$13 MILLION WHILE THE RECOVERY VALUE OF \$5 MILLION REPRESENTED A RECOVERY RATE OF 38.0%.

- \* ASSAULTS ON LAW ENFORCEMENT OFFICERS TOTALED 308.
- \* JUVENILE ARRESTS, AS DEFINED BY UCR INSTRUCTIONAL GUIDELINES, INDICATES 58% OF THE JUVENILES INVOLVED IN CRIME NEVER REACH THE JUDICIAL SYSTEM.
- \* OF THE TOTAL 34,232 ARRESTS IN 1976, NEARLY 1/3 (10,921) WERE JUVENILES.
- \* BURGLARY AND LARCENY OFFENSES ACCOUNT FOR 89.4% OF ALL INDEX OFFENSES
- \* NEARLY 30% OF THE TOTAL BURGLARIES AND LARCENIES OCCURRED DURING THE MONTHS OF JUNE, JULY, AND AUGUST.
- \* THE CLEARANCE RATE FOR INDEX CRIMES, (22.3), INCREASED SLIGHTLY OVER THE PREVIOUS YEAR.

## INTRODUCTION

The Maine Uniform Crime Reporting Program was the initial step in the establishment of an efficient State-wide Criminal Justice Information System. This phase of the CJIS deals primarily with a state-wide uniform method of collecting crime statistics and producing a consolidated annual report of crime in Maine.

Maine statistics are forwarded to the Federal Bureau of Investigation for inclusion in the National Crime Report.

## NATIONAL UNIFORM CRIME REPORTING SYSTEM

Uniform Crime Reports were first collected in 1930 after being developed by a Committee of the International Association of Chiefs of Police. The Federal Bureau of Investigation was authorized by the Congress to act as a clearinghouse for the collection of crime statistics.

Today the IACP continues to serve in an advisory capacity to the FBI in the operation of the program.

Crime statistics, voluntarily submitted by individual law enforcement agencies from all fifty states, are presented annually in the FBI's Uniform Crime Reports Publication entitled "Crime in the United States".

As a result of several national studies and recommendations and a determined need, the FBI has been actively assisting individual states in the development of state-wide programs of law enforcement statistics compatible with the National Uniform Crime Reporting Program. With excellent cooperation and assistance from the FBI, Maine has developed its own state-wide program for collection of law enforcement statistics.

## PROGRAM DEVELOPMENT

The Maine UCR Program started July 15, 1973 as a module of the comprehensive Data System Program. It was funded by LEAA Discretionary Grant No. 74-DF-01-0001 to the Maine Criminal Justice Planning and Assistance Agency with the State Bureau of Identification, Bureau of State Police, as the implementing subgrantee.

One year was spent researching and developing the reporting system. The staff was selected; the project researched; a manual was designed and printed; with FBI assistance 250 people were trained in regional seminars from Kittery to Presque Isle; standard arrest sheets and complaint sheets were designed with the assistance of the Maine Chiefs of Police UCR Committee; all reporting forms were designed, given FBI approval as per grant guidelines and printed; staff visits to all operational departments were made; close cooperation with the MCJPAA was maintained and all objectives of the original grant were nearing completion.

On July 1, 1974, the Maine UCR system was certified as operational by Director Clarence Kelly of the FBI and Maine became the 22nd state to have an operational Uniform Crime Reporting system. This compares with forty UCR operational states as of this year and several more in planning stages.

The success of this program is directly related to the intense interest and cooperation of the Maine contributors. Indicative of the cooperation, is a 100 percent reporting record for all communities over 2,500 population, and the organized departments under 2,500 filing through the county sheriff's departments, who are reporting 100 percent, and the State Police by county areas. The result is a complete state-wide coverage of crime statistics under supervised rules and controls to insure the integrity of the program.

"Crime in Maine July-December, 1974" was our first publication. Since that time we have published two more six month reports and one full calendar year report. All publications were very well received and the potential of UCR is now being recognized.

It became obvious that more use could be made of the UCR data for the benefit of the contributors. This resulted in a complete reprogramming of the UCR data to provide monthly computer printout crime profiles as a by-product to the gathering of the UCR data. More information on the crime profiles, with sample printouts, is included in a further section of this publication.

The staff of UCR, teaming up with the Criminal Justice Data Analysis Center, hopes to expand the uses of UCR data and continue to serve as a valuable tool in identifying and combating crime in Maine.

Indications are that the maximum potential of this program will not be reached for several years. Better reporting, better automation, a deeper storage of base data and faster feedback to contributors, etc., will provide the type of information needed in Maine. The data will have endless uses in planning, administration, research, problem identification and solving, and special studies.

## OBJECTIVES OF UNIFORM CRIME REPORTING

The fundamental objective of the Uniform Crime Reporting Program is to produce a reliable set of criminal statistics on a State and National basis for use in law enforcement administration, operation and management. This compiled data is also intended for the use of other professionals and scholars who have an interest in the crime problem. At the same time, this information is important as a reference source for the general public as an indicator of the crime factor in our society.

*The objectives of the Maine Uniform Crime Reporting program are:*

1. Inform the governor, legislature, other governmental officials, and the public as to the nature of the crime problem in Maine - its magnitude and its trends.
2. Provide law enforcement administrators with criminal statistics for administrative and operational use.
3. Determine who commits crimes by age, sex and race in order to find the proper focus for crime prevention and enforcement.
4. Provide proper base data and statistics to measure the workload and effectiveness of Maine's Criminal Justice System.
5. Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.
6. Provide base data and statistics to measure the effects of prevention and deterrence programs.
7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.

*The means utilized to obtain these objectives are:*

1. To measure the extent, fluctuation, distribution, and nature of serious crime in the State of Maine through presentation of data on the seven Crime Index offenses.
2. To measure the total volume of serious crime known to the police.
3. To show the activity and coverage of law enforcement agencies through arrest counts, disposition of persons charged and police employee strength data.

## CRIME INDEX

The offenses of murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft are used to establish an index in the Uniform Crime Reporting Program. They measure the trend and distribution of crime in the United States and, more significantly, within the geographic regions of contributing states such as Maine. These crimes are counted by law enforcement agencies as they become known and are reported on a monthly basis. The crime index offenses were selected as a measuring device because, as a group, they represent the most common local crime problems. They are all serious crimes, either by their very nature or due to the volume and frequency in which they occur.

The offenses of murder, forcible rape, aggravated assault and robbery make up the violent crime category. The offenses of burglary, larceny-theft and motor vehicle theft make up the property crime category.

Although "offense known" statistics are gathered in the classifications of manslaughter by negligence (1b) and simple assault (4e), they are not computed into the crime index for purposes of establishing crime trends.

Classification in all Part I offenses is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury or other judicial body.

The total number of criminal acts that occur is unknown, but those that are reported to the police provide the first means of a count. Not all crimes come readily to the attention of the police; not all crimes are of sufficient importance to be significant in an index; and not all important crimes occur with enough regularity to be meaningful in an index. With these considerations in mind, and with all state and national reporting jurisdictions using uniform reporting procedures, the above crimes were selected as a group to furnish an abbreviated and convenient measure of the crime problem.

The crime counts used in the Crime Index and set forth in this publication are based on actual offenses established and determined by police investigation. When a law enforcement agency receives a complaint of a criminal matter and the follow-up investigation discloses no crime occurred it is "unfounded". These "unfounded" complaints are eliminated from the actual crime counts.

## CRIME RATES

The computation of crime rates as they appear in this report by county and state are based on 1975 population estimates approved by the Federal Bureau of Investigation through the cooperation and assistance of the United States Bureau of Census. Monthly and annual Uniform Crime Reports currently received from 150 municipal, county and state law enforcement agencies in Maine represent 100 percent of the estimated Maine population.

The crime rate involves the number of Index Crimes per unit of population, usually per 100,000 persons. Because Maine has such a low population total, a rate per 1,000 persons has been used to reflect a more realistic volume. No attempt has been made to incorporate either transient population or other factors which contribute to the ratio and type of crime in a given area. Any effort to make comparisons of crime rates between one area and another should recognize these population changes and varying environmental factors.

*The Crime Index rate for Maine for the year 1976 was 41.21 offenses per 1,000 persons. Violent crimes occurred at a rate of 2.20 offenses per 1,000 persons, while the rate for property crimes was 39.01 offenses per 1,000 persons.*

CRIME RATES FOR INDEX OFFENSES  
JANUARY - DECEMBER, 1976

## VIOLENT CRIMES

Crimes of violence involve the element of personal confrontation between the perpetrator and victim and entails the use or threat of violence. By their very nature, violent crimes - Murder, Rape, Robbery, and Aggravated Assault, are considered more serious than property crimes. The total number indicates only the number of incidents reported to police and does not reflect the number of criminals who committed them or the number of injuries inflicted.

*During the year 1976 there were 2,328 violent crimes reported as compared to 2,222 reported in 1975. Robbery, with an increase of 4.9% and aggravated assault, with an increase of 5.7% were the two violent crimes showing increases during the period. Violent crimes accounted for 5.3% of all Index Crimes.*

## MURDER AND NONNEGLIGENT MANSLAUGHTER

CRIME CLOCK - 1 MURDER EVERY 12½ DAYS

The definition of Murder and Nonnegligent Manslaughter is "the unlawful killing of a human being with malice aforethought." This offense is recorded by a police agency on the basis of investigation alone, without regard to the findings of a court or the decision of a prosecutor. Although, Manslaughter by Negligence is recorded on the "Offenses Known to Police" form along with Murder and Nonnegligent Manslaughter, it is not considered an Index Crime and is not discussed in this report.

*During 1976 there were 29 murders. Of these murders, 16 were committed by firearms: handguns-8, rifles-5, shotgun-3. Family arguments or other arguments was the motive for 13 of the murders, while one murder was the result of a robbery and another was the result of a burglary.*

*The month by month analysis below shows that 10 murders occurred during the month of November.*

*Twenty murders were cleared during 1976.*

## FORCIBLE RAPE

CRIME CLOCK - 1 RAPE EVERY 83 HOURS

Forcible Rape is "the carnal knowledge of a female forcibly and against her will." For purpose of the Uniform Crime Report this offense is divided into two categories: Rape by Force; and Attempted Forcible Rape. Carnal abuse without force (statutory rape) and other sex offenses are not included.

Forcible rape differs from other violent crimes in that the victim, in many cases, is reluctant to report the offense to police. The investigation by police, medical examination, court procedure, embarrassment and fear of any accompanying stigma have a deterrent effect on the victim's willingness to make the offense known to police.

*During 1976, there were 106 rapes reported by law enforcement agencies throughout the state. This represents a decrease of 6.2% from last year. Eighty-three rapes were classified as "Rape by Force" while 23 were "Attempts to Commit Rape."*

*Sixty-five offenses of rape were cleared during 1976.*

NO. OF  
OFFENSES

COMPARATIVE DATA 1975-1976

## ROBBERY

CRIME CLOCK - 1 ROBBERY EVERY 21½ HOURS

Robbery is "the felonious and forcible taking of the property of another against his will, by violence or by putting him in fear." All attempts to rob are included in the Uniform Crime Report. Robberies and attempts are reported in four categories: (1) gun (any firearm); (2) knife or cutting instrument; (3) other dangerous weapons; and (4) strong arm (hands, fists, feet, etc.)

In 1976, robberies in the state increased by 4.9% - from 387 actual offenses reported in 1975 to 406 reported in 1976. While the number of offenses increased, the value of property stolen decreased nearly \$90,000.

Robberies, which are classified as "Highway (Streets, alleys, etc.)" accounted for 46.3% of all robberies reported. The number of robberies in this classification increased 5.6% over last year while the value increased more than 30.0%

The value of property stolen during bank robberies decreased by 64.2% over the previous year.

One hundred eighty-five robberies were cleared in 1976.

## ASSAULT

CRIME CLOCK - 1 AGGRAVATED ASSAULT EVERY 4 HOURS AND 45 MINUTES

An Assault is "an attempt or offer, with unlawful force or violence, to do physical injury to another." Assaults with the intent to rob or rape are not included here. For Uniform Crime Reporting, this offense is divided into four categories: (1) gun (any firearm); (2) knife or cutting instrument; (3) other dangerous weapons; and (4) hands, fists, feet, etc. (causing aggravated injury). Also recorded, but not considered an Index Crime is the category "other assaults - simple," which is non-aggravated.

*In 1976, there were 1,787 Aggravated Assaults reported, an increase of 5.7%, or 97 offenses over the year 1975. Hands, fists, or feet accounted for the majority of assaults with 1,083 incidences, while firearms were used in 214 assaults. Knives, with 226 offenses reported, and other weapons, with 264, accounted for the balance.*

*There were 2,810 simple assaults during the year 1976, compared to 2,714 reported in 1975.*

## BURGLARY

CRIME CLOCK - 1 BURGLARY EVERY 38 MINUTES

Burglary, also known as Breaking and Entering, is "the unlawful entry or attempted forcible entry of any structure to commit a felony or larceny." Data collection for this offense in Uniform Crime Reporting is recorded in three categories: (1) forcible entry; (2) unlawful entry - no force; and (3) attempted forcible entry.

During 1976 there were 14,047 burglaries representing a decrease of nearly 3% over the previous year. Although the number of offenses decreased, the total value increased more than one million dollars in 1976. The largest increase in value occurred in burglary of residences in the night time with an increase of more than \$500,000 over 1975.

Of the total burglaries, 78% were classified as "Forcible Entry."

In 1976, 2,734 burglaries were cleared.

## LARCENY - THEFT

CRIME CLOCK - 1 LARCENY EVERY 21 MINUTES

Larceny-theft is "the unlawful taking of the property of another with the intent to deprive him of ownership." Motor vehicle thefts are excluded from this offense classification. A supplementary report form breaks out several categories: (1) pocket-picking; (2) purse-snatching; (3) shoplifting; (4) from motor vehicles; (5) motor vehicle parts and accessories; (6) bicycles; (7) from buildings; (8) from coin-operated machines; and (9) all other. Larcenies are also categorized by dollar value: (1) under \$50; (2) \$50 to \$200; and (3) \$200 and Over.

*Larcenies continue to be a major problem in the State of Maine. In 1976, there were 24,986 offenses of larceny as compared to 22,996 in 1975. Larcenies from motor vehicles, including parts and accessories, accounted for more than 39% of the total larceny offenses, while the combined value accounted for nearly 34% of the total value.*

*Larcenies of property in excess of \$200 in value accounted for only 20% of total larceny offenses but accounted for 68.4% of the value of property stolen.*

## MOTOR VEHICLE THEFTS

CRIME CLOCK - 1 MOTOR VEHICLE THEFT EVERY 4 HOURS

Motor vehicle theft is simply "the larceny or attempted larceny of a motor vehicle;" included here is "joy riding." Excluded from this offense for Uniform Crime Reporting is a reported offense where there is lawful access to the vehicle, such as a family situation, or unauthorized use by others with lawful access, such as with employees. The type of vehicle is classified as: (1) automobile; (2) trucks and buses; and (3) other vehicles.

*In 1976 there were 2,286 motor vehicle thefts, an increase of 51 offenses, or an increase of 2.3% over the year 1975. Of the motor vehicle thefts 1,709 were automobiles.*

*The value of motor vehicles stolen was \$4,470,549 while the value recovered was \$3,285,736, or 73.4% of the total stolen.*

NO. OF  
OFFENSES

COMPARATIVE DATA 1975-1976

## MOTOR VEHICLE THEFT

### TYPE OF VEHICLE

### STOLEN/RECOVERED

## STOLEN AND RECOVERED PROPERTY VALUES

Supplementary reports relating to properties stolen and recovered provide information on the estimated value of such properties. The investigating officer has the obligation to assess the value of property stolen and recovered in each crime index offense. The officer is guided by the following instructions:

- (1) *Use fair market value for items subject to depreciation.*
- (2) *Use wholesale cost of goods stolen from retail establishments.*
- (3) *Use victim's evaluation of nondepreciable items.*
- (4) *Use cost of replacement to victims for new or almost new items.*

*During the year 1976, property valued in excess of \$13 million was stolen. During this same period, law enforcement officers recovered more than \$5 million for a recovery rate of 38.0%.*

*A breakdown by type of property follows:*

TYPE OF PROPERTY	STOLEN	RECOVERED	PERCENT RECOVERED
Currency, Notes, Etc.	\$ 1,141,218	\$ 354,567	31.0%

## CLEARANCE RATES

For Uniform Crime Reporting purposes, a Crime Index Offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several crimes, or several persons may be arrested in the process of clearing one crime.

Crime solutions are also recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender. An offense may be exceptionally cleared when it falls into one of the following categories:

1. *The offender commits suicide.*
2. *A double murder occurs (two persons kill each other).*
3. *The offender dies after making a confession (dying declaration).*
4. *The offender is killed by law enforcement officers.*
5. *The offender confesses to committing the crime while already in custody for another crime or serving a sentence.*
6. *The offender is prosecuted in another city for a different crime by federal, state or local authorities, or for the same offense, and the other jurisdiction refuses to release the offender.*
7. *Another jurisdiction refuses to extradite the offender.*
8. *The victim of a crime refuses to cooperate in the prosecution.*
9. *The offender is prosecuted for a less serious charge than the one for which he was arrested.*
10. *The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses such as petit or simple larceny.*

For the year 1976, 22.3% of all Index Crimes were cleared either by arrest or exceptional means. The percentage of violent crimes cleared was 58.8% while the clearance rate for property crimes was 19.6%.

# CLEARANCE RATES OF INDEX OFFENSES

JANUARY - DECEMBER, 1976

OFFENSES	NUMBER OF OFFENSES	NUMBER OF OFFENSES CLEARED	PERCENT CLEARED
MURDER	29	20	69.0%
RAPE	106	65	61.3%
ROBBERY	406	185	45.6%
AGGRAVATED ASSAULT	1,787	1,368	76.6%
BURGLARY	14,047	2,734	19.5%
LARCENY	24,986	4,603	18.4%
MOTOR VEHICLE THEFT	2,286	768	33.6%
TOTAL	43,647	9,743	22.3%

NOTE: Offenses cleared do not necessarily relate to the actual offenses during the January - December period.

\*If a clearance involves both a juvenile and adult, it is cleared on the adult side only.

## ARREST DATA

In addition to the monthly reports on the number of Index Crimes reported, law enforcement agencies also submit monthly forms detailing the number of persons arrested. These forms categorize the arrests by offense classification (both Part I and Part II crimes), and by age, race and sex. No traffic offenses, except driving under the influence, are included. The same individual may be arrested several times over a period of time; each separate arrest is counted. A person may be arrested on several charges at one time; only one arrest is counted and is listed under the most serious charge. For Uniform Crime Reporting, a juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would result; in fact, there may not have been a formal charge.

*Nearly one third (32.0%) of all arrests in 1976 were juveniles. Of the 10,921 arrest of juveniles, 36.1% were for Part I offenses.*

The report form on juvenile arrests used by the police agency, includes a section on the disposition of each person. These categories are: (1) handled within the department and released; (2) referred to juvenile court or a probation and parole office; (3) referred to a welfare agency; (4) referred to other police agency; and (5) referred to the criminal or adult court. *During 1976, the police handled 58.2% of all juveniles within their department; 35.9% were referred to juvenile court; and a total of 5.9% were referred to a welfare agency, another police agency or criminal court.*

*A review of adults arrested (18 years of age and over) reveals that 18.5% were for Part I offenses. Nearly one half (49.7%) of adults arrested were under 25 years of age; and 25.8% were between 25 and 34 inclusive.*

*Considering both juveniles and adults, 83.3% of the 34,232 persons arrested were under 35 years of age. Nearly one fourth of all arrests were for Part I offenses.*

## ARRESTS - DRUG AND LIQUOR VIOLATIONS

Due to the nature of the violations and a high interest and concern by public officials and the citizens of Maine generally, a special review is provided of drug and alcohol related arrests. The charts displayed reveal the number and age of people arrested during 1976.

The information provided here should be of interest to social agencies involved in the study of drugs and alcohol problems in Maine. The information pinpoints the predominant drug and liquor arrests in Maine by age and identifies possible problem areas.

### Facts revealed by the chart on drug violations:

- \* 83.8% of all juvenile drug arrests involved possession violations, while 16.2% were for sale or manufacturing of drugs.
- \* 75.6% of all adult drug arrests involved possession violations, while 24.4% were for sale or manufacturing of drugs.

### Facts revealed by the chart on liquor violations:

- \* 77.7% of all arrests involving juveniles were for violation of liquor laws, while 22.3% were for driving under the influence of liquor.
- \* 91.9% of all arrests involving adults were for driving under the influence of liquor, while 8.1% were for violations of liquor laws.

## ANNUAL RETURN OF PERSONS CHARGED

The Uniform Crime Reporting System includes an annual form from all reporting agencies titled "Annual Return of Persons Charged". The purpose of this form is to show the total number of persons who are charged by the police and their dispositions. Counted on this report are all persons charged for committing Part I and Part II offenses who are turned over to the court for prosecution. Persons charged and released at any prosecutive level are included. The dispositional data is broken down into several categories: (1) adults guilty - (a) of the offense charged or (b) of a lesser offense; (2) acquitted or otherwise dismissed; (3) referred to juvenile court jurisdiction; or (4) other (pending).

- \* 23.4% of all persons formally charged were charged for Part I offenses.
- \* 51.6% of all persons charged for Part I and Part II were adults found guilty of the offense charged;  
2.8% were adults found guilty of a lesser offense.
- \* 17.6% of all 27,925 persons charged had their cases acquitted or otherwise dismissed.
- \* 11.9% were referred to Juvenile Court jurisdiction.
- \* 16.7% of the cases were still pending at the end of the year.

## POLICE EMPLOYEE DATA

The Uniform Crime Reporting System in Maine incorporates a collection of important data relating to police within the state. Information such as ratio of police to population, assaults on officers, and related analyses are covered in this section.

*On October 31 there were 1,987 full time law enforcement officers and civilian employees in communities with organized police departments. Full time sworn officers number 1,852 which represents 1.75 officers per 1,000 population.*

*In Maine's 16 Sheriff's Departments, 278 of the 307 employees are full time sworn officers. The number of full time officers per 1,000 population ratio for rural areas, those areas not covered by full time municipal police, is .83.*

*The Maine State Police with state-wide jurisdiction and providing all phases of law enforcement services employs 403 people. Of these, 323 are sworn personnel.*

Caution should be exercised in using rates for comparative purposes since a wide variety of factors dictate the number of employees necessary to various law enforcement agencies. The same conditions and factors that affect the amount and type of crime in a given community also must be considered in the employment of personnel. Employee numbers are best determined by citizens and public officials of a community based upon the level of service they need and are willing to pay for.

FULL TIME LAW ENFORCEMENT OFFICERS

## ASSAULTS ON LAW ENFORCEMENT OFFICERS

The following information is based on a detailed monthly collection of data in the Uniform Crime Reporting System regarding the problem of assaults on local, county, and state law enforcement officers in this Nation. The large number of reported assaults on sworn officers is partially due to a prevalent attitude of disrespect for law enforcement in certain elements of our society.

*There were 608 assaults on law enforcement officers during the year 1976. This represents an assault ratio of 32.8 assaults per 100 full time law enforcement officers.*

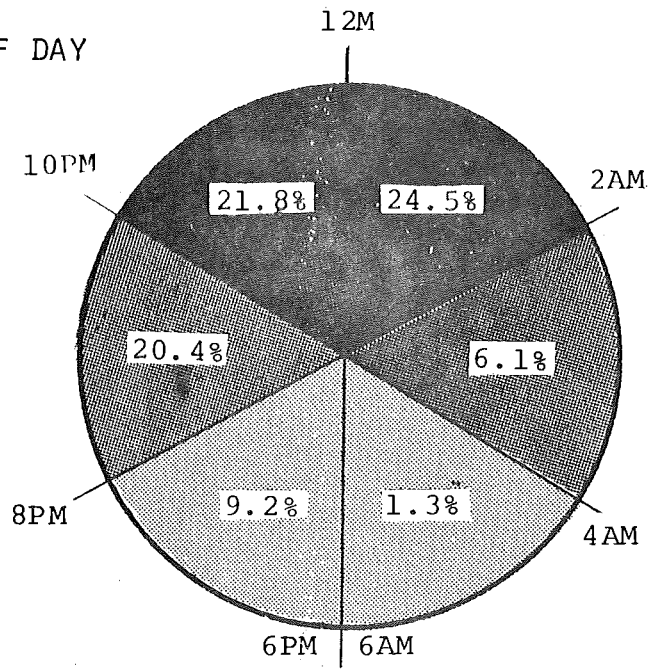

*The greatest number of assaults, 35.8%, occurred while officers were responding to disturbance calls (family quarrels, man with gun, etc.). Personal weapons (hands, fists, feet, etc.) were used in 87.5% of all assaults on law enforcement officers.*

### JANUARY - DECEMBER, 1976

# ASSAULTS ON LAW ENFORCEMENT OFFICERS

TIME OF DAY

## CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of Maine and represent a spectrum of Maine crime on state-wide, region, and county levels. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees the crime developments of that community. Comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role to it's suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime in a Free Society" (1967 - pg. 92).

*"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."*

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

*Density and size of the community population and the metropolitan area of which it is a part.*

*Composition of the population with reference particularly to age, sex and race.*

*Economic status of the population.*

*Relative stability of population, including commuters, seasonal, and other transient types.*

*Climate, including seasonal weather conditions.*

*Educational, recreational, and religious characteristics.*

*Standards governing appointments to the police force.*

*Policies of the prosecuting officials and the courts.*

*Attitude of the public toward law enforcement problems.*

*The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.*

The main goal of this program is to identify crime and related problems. The statistics in this publication should not be used to measure or evaluate the workloads and results of the individual contributing departments. While most police agencies are collectively thought of as crime fighting units, considerable independent research shows only a small portion of the workload of many departments is spent fighting crime. Because of other assigned duties, the peculiar cycle of crime and clearances, and the different community factors that normally affect crime statistics, no conclusions on individual departments should be reached without consulting their in-house duties and records.

Crime rates in this publication are based on the stable population of the community. Seasonal population figures are too inaccurate and fluctuating for an accurate measurement. Communities with extra high seasonal populations may show a higher crime rate per thousand than might be normal for a community their size.

This does not impair the police administrator of the community from using this standard measure for planning and administrative purposes as data is available to him on a monthly basis and months of population influx can be taken into consideration.

## PROFILE OF THE STATE OF MAINE

*This profile is presented to provide some general knowledge and facts about the State of Maine. It is hoped that this information might assist in understanding the environment in which the crime and arrest data later detailed in this report occurred.*

Maine, the northeast corner of New England and of the nation, is bounded by New Hampshire, Quebec, the Maritime Provinces of Canada, and the Atlantic Ocean. The 3,500 miles of coastline and several navigable rivers provided natural settlement areas for early colonists.

Slightly over a million people now live on nine percent of Maine's land which parallels the coast eastward towards Penobscot Bay then swerves to the northeast. Southwestern Maine is the most densely populated. Cumberland County has 241 persons per square mile, and York County - 119 persons, in contrast to Piscataquis County in north central Maine with only 4.5 persons per square mile. Eighty-four percent of Maine's 33,000 square miles is timberland and seven percent is inland water.

Approximately one-half of the population lives in towns of less than 2,500 inhabitants. The only metropolitan areas are Greater Portland, Lewiston-Auburn, and Bangor-Brewer.

Maine has a high proportion of elderly people; 11.9 percent of the population being 65 years and older compared to a national average of 9.8 percent. Many of these people are retirees who have migrated to the coastal towns. For several decades, Maine experienced an out-migration of young people who completed their education and were eager to find careers with higher pay than those offered in Maine. However, in the last few years, with an increased environmental awareness and an appreciation of the natural resources of Maine, this exodus has been somewhat offset by the arrival of a number of young people abandoning the professions in the eastern megalopolis. Vocational institutions have been created to train Maine's own youth for more promising and rewarding employment.

Although fishing, farming, and forestry are historically the large industries, recreation has become a major economic benefit. Maine's population increases to over 1,500,000 during the summer. The variable but comfortable climate lures an estimated 7,000,000 out-of-state visitors each year.

## UCR POTENTIAL USES

In July of 1974 Maine became the 22nd state to collect Uniform Crime Reports as a part of the national system. The system now numbers 40 states with most of the others in the implementing stages.

The program created as a result of planning by the Maine Criminal Justice Planning and Assistance Agency and implemented by the Maine State Police, Bureau of Identification, provides a comprehensive look at crime in the State of Maine. It carries the strong support of the Maine Chiefs of Police and Sheriffs Association.

Building slowly by necessity of the time needed to gather meaningful statistics, the UCR program is only now beginning to bear fruit. Many individuals, initially skeptical of UCR in Maine, have reversed their positions and are now staunch supporters.

This brings us to the question - what good are Uniform Crime Reports and how may they be used? The initial thought response is limited but as the information unfolds many varied uses are revealed. Foremost is keeping the public informed as to the volume and nature of crime so they may judge and act accordingly.

Actually, UCR is a many faceted vehicle with many varied uses. Here are a few, but by no means all, of the possible uses as they relate to various groups and agencies.

### I. Contributors -

Administrative information relating to:

1. Budget - need and justification.
2. Manpower - number needed as to state average employees vs population and crime rate.
3. Department makeup - Laboratory, Detective Division, Juvenile Officers, as related to particular crime problems in the community.
4. Problem crimes identified.
5. Disbursement of personnel and shifts according to the crime picture of the individual communities. In case of State Police and Sheriffs with concurrent jurisdiction, placement according to need and avoiding of duplication of services.
6. Training needs - training according to crime problems in the areas by priority.
7. Equipment purchase - according to justified need.
8. Selective enforcement by crime volume as identified by particular times and seasons through UCR information.
9. Community crime profiles identifying particular problems.
10. Long-range planning as anticipated by crime trends.

## II. Governor and Legislature -

1. Broad true picture of crime in Maine by location, volume, type and crime rate as derived from records of all enforcement agencies.
2. Guide to valid funding needs of special interest groups and their requests for same.
3. Need for additional or less specialized type programs.
4. Identification of crime trends and their relation to training, courts, corrections and other criminal justice agencies.
5. Identification of various social problems relating to drugs, alcohol, juveniles and rehabilitation.
6. Effectiveness of various social programs relating to above.

## III. Maine Criminal Justice Planning and Assistance Agency -

1. Base to evaluate needs for assistance and grant requests.
2. Source data for long-range planning.
3. A measure of effectiveness of grant programs in given communities and areas.
4. Identification of crime problems peculiar to Maine for inclusion in the Maine plan to the Federal Law Enforcement Assistance Administration.
5. Justification of a continued need for crime planning in Maine.

## IV. Courts - Prosecution -

1. Nature and types of crime generally and by District.
2. General disposition of persons charged in all communities and areas with crime by classification. (Guilty, guilty of lesser offenses, acquitted, referred to juvenile court, pending).

\*NOTE: Any great variation in disposition of particular crimes could indicate problems. These could be poor prosecution, inadequate police training, court problems, or just plain overloading of cases that fall victim to plea bargaining or are pending.

## V. Press -

A factual source for use in reporting crime problems and socially related problems.

## VI. Social Agencies -

1. Identifies problem areas to concentrate on.
2. Some basis for general evaluating of the effectiveness of their programs.

### VIII. Educational Institutions (for various studies) -

These are but a few possible uses and I am sure many more exist. The broader the base data accumulated, the clearer the value of UCR will become. If effective problem solving begins with the identification of the problem, then UCR will continue to be meaningful for a long time.

\* \* \* \* \*

Interestingly enough the by-products of a Maine UCR system have proven nearly as valuable as the information obtained from it.

It has served as a catalyst for many departments to set up realistic record systems for the first time and to institute upgrading of records in many others.

Realistic goals for contributing departments are being set and achieved based on sound statistical knowledge.

Administrators on the Chief and City Manager level have been taking a new look at their police departments and as a result internal operational changes have taken place.

An awareness among low level personnel that their reports and arrests are being used, and not just filed, has resulted in better and more comprehensive reporting.

Finally, the periodic release of this crime information to the general public keeps the crime problem in its proper perspective.

## PROGRAMMED COMMUNITY CRIME PROFILES

Uniform Crime reporting has taken on a new look effective this year. A complete reprogramming of UCR data has taken place and the transformation has resulted in a maximum utilization of the data. Chief benefactors of the new format are the contributors who make this comprehensive program possible by their excellent cooperation.

On the following pages are sample printouts available every month (mailed quarterly) to every reporter. These consist of up-to-date data and crime trends. Lewiston, Maine, has been selected as the sample community. This sample is applicable monthly to every community over 2500 population, the State Police by county, the Sheriffs' Departments, the County totals, and the State totals.

The first printout sample consists of all information submitted monthly on Part I crimes for the reporting month. Each column is identified and this information is recorded to the left of the first vertical dotted line. In between the dotted lines are the figures on each crime this year to date with a progressive crime rate along with the crime to date last year. The final column indicates the per cent change in all crime categories. Totals for all the crimes are at the bottom of the printout with a distinction made between Part I crimes and Index crimes. Law enforcement officer data for the reporting month and the accumulated total is included. The sample printout is for the month of December, but any reporting month data will appear to the left of the vertical dotted lines.

Printout number two consists of property types stolen and recovered by value for the reporting month, the year to date, and comparison with last year to date. Totals of each column and a total with motor vehicles values removed are included.

Printout number three is a breakdown of Part I crime as it relates to property stolen by locations, time and types along with motor vehicle data. This is also monthly and cumulative year to date. You will note assaults are not included because when property is stolen during an assault it automatically becomes a robbery.

Printout number four relates to Part I crime and the clearances involved in each crime category and by breakdown within categories. This consists of the reporting month data on number of offenses in each category, number cleared, clearance rate and if cleared by a juvenile (under 18). The next series of four columns are the same categories this year to date and the last series of four columns are last year to date.

The final printout is intended to indicate to the police administrator on a month to month, year to year comparison any large variances in crime that requires further analysis. The final column indicating plus or minus change in a crime category may signal administrative or department changes are needed. The total columns also may indicate necessary changes.

Included in these printouts is a wealth of information for analysis and comparison by the police administrator and when combined with other furnished pertinent arrest data truly represents a continuing crime profile for the communities and areas involved.

## REPORTING PROCEDURE

In the State Uniform Crime Reporting Program, contributing law enforcement agencies are wholly responsible for compiling their own crime reports and submitting them to the Uniform Crime Reporting Division in Waterville, Maine.

The Uniform Crime Reporting Division, in an effort to maintain quality and uniformity in the data received, furnishes to the contributing agencies, continuous training and instruction in Uniform Crime Reporting procedures. All contributors, also, are furnished with a State of Maine Uniform Crime Reporting Guide Manual which outlines in detail, procedures for scoring and classifying offenses. The Guide Manual illustrates and discusses the monthly and annual reporting forms as well as providing a question and answer training syllabus in the Crime Index categories.

A centralized record system is necessary to the sound operation of any law enforcement agency. The record system is an essential basis for crime reporting by the agency. Trained Uniform Crime Reporting field advisors are utilized to assist contributors in the established reporting procedures of Uniform Crime Reporting.

On a monthly basis, law enforcement agencies (state, county and local) report the number of offenses that become known to them during the month in the following crime categories:

- (1) Criminal Homicide
  - a. *Murder and Nonnegligent Manslaughter*
  - b. *Manslaughter by Negligence*
- (2) Forcible Rape
  - a. *Rape by Force*
  - b. *Attempts to Commit Forcible Rape*
- (3) Robbery
  - a. *Firearm*
  - b. *Knife or Cutting Instrument*
  - c. *Other Dangerous Weapon*
  - d. *Strong-Arm (Hands, Fists, Feet etc.)*
- (4) Assault
  - a. *Firearm*
  - b. *Knife or Cutting Instrument*
  - c. *Other Dangerous Weapon*
  - d. *Hands, Fists, Feet, etc.-Aggravated Injury*
  - e. *Other Assaults-Simple, Not Aggravated*
- (5) Burglary
  - a. *Forcible Entry*
  - b. *Unlawful Entry - No Force*
  - c. *Attempted Forcible Entry*
- (6) Larceny-Theft  
*(Except Motor Vehicle Theft)*

- (7) Motor Vehicle Theft
- a. Autos
  - b. Trucks and Buses
  - c. Other Vehicles

This count is taken from a record of all complaints of crime received by the law enforcement agency from victims, other sources, and/or discovered by officers.

Whenever complaints of crime are determined through investigation to be unfounded or false, they are eliminated from the actual count. The number of "actual offenses known" in these crime categories is reported to the Uniform Crime Reporting Division whether or not anyone is arrested for the crime; the stolen property is recovered; prosecution is undertaken; or any other restrictive consideration is in effect. Law enforcement agencies, on a monthly basis, report the total number of these reported crimes which they clear either by arrest or exceptional means. A separate count of crimes cleared which involve only persons under the age of 18 is shown. The number of law enforcement officers killed and assaulted and the value and type of property stolen and recovered during the month are also reported.

Arrests are reported monthly for all criminal acts, except traffic violations, by crime category and include the age, sex and race of each person arrested. A report is also submitted on an annual basis concerning the number of persons formally charged by crime classification and the disposition of such charges.

## VERIFICATION PROCEDURES

Uniformity and accuracy of crime data collected under this program is of primary concern. With the receipt of reports covering approximately 150 reporting jurisdictions within the State of Maine, the problems of attaining uniformity are readily apparent. Issuance of instructions and the training of personnel within contributing agencies does not complete the role of the Uniform Crime Reporting Division. It is standard operating procedure to examine each incoming report for mathematical accuracy and completeness, and perhaps of even greater importance, for reasonableness as a possible indication of error. Clearance factors, recovery rates and other possible benefits are scrutinized and changes are suggested to the contributors where noted. In the instance of minor mathematical corrections, the contributing agencies are either contacted by phone or in-person visitations by qualified Uniform Crime Reporting field advisors.

The possibility of duplication in crime reporting is given constant attention when reports are received and verified by internal consistency checks. If duplication is suspected, the contributing agencies are immediately contacted and the matter is resolved in accordance with existing guidelines. A continual analysis of reports is maintained to assist contributors when needed and to maintain the quality necessary for a factual and successful program. Personal visitations are made to contributors to cooperatively assist in needed revisions of records and reporting methods.

Regardless of the extent of the statistical verification processes used by the Uniform Crime Reporting Division, the accuracy of the data assembled under this program depends on the sincere effort exerted by each contributor to meet the necessary standards of reporting.

## CALCULATION OF RATES, PERCENTAGES AND TRENDS

The Uniform Crime Reporting program provides data for police executives to measure local problems. To facilitate this function, the local data must be converted into terms of rates and percentages. Simple formulas are presented which may assist in these computations.

### CRIME RATES

One of the most meaningful crime statistics is the crime rate. This rate is the number of Part I Offenses per 1,000 inhabitants. This rate can be calculated regardless of the number of inhabitants in any city, town or county.

To compute rates, divide your communities population by 1,000 and divide the number of offenses in each class by that answer. The answer is the number of offenses in that class per 1,000 population and is your crime rate for that particular offense.

#### EXAMPLE:

- a. Population for your jurisdiction,  
75,000
- b. Number of burglaries for your  
jurisdiction for a year, 215

Divide: 75,000 by 1,000 = 75.0

Divide: 215 by 75.0 = 2.87

Your burglary rate is 2.87 per 1,000 inhabitants. The number 75.0 can now be divided into your totals in any offense class to produce a crime rate for that offense. This same computation can be completed to give you arrest rates per 1,000 inhabitants.

### CLEARANCE RATES

The percentage of crimes cleared by arrest is obtained by dividing the number of offenses cleared by the number of offenses known. This answer is then multiplied by 100.

#### EXAMPLE:

- a. Number of clearances in robbery,  
38
- b. Number of total robberies, 72

Divide: 38 by 72 = 0.528

Multiply: 0.528 x 100 = 52.8

Your percentage of clearance in robbery is 52.8%

## CRIME TREND DATA

Local agencies can compute crime trends for a given offense for their agency for a particular period of time.

### EXAMPLE:

- a. Auto thefts in your jurisdiction for July through December last year were 21
- b. Auto thefts in your jurisdiction for July through December this year were 29.

Subtract:  $29 - 21 = 8$

Notice that 8 is an increase over the past year.

Divide:  $8 \text{ by } 21 = 0.38$

Always divide the difference by the total in the earlier time period.

Multiply:  $0.38 \times 100 = 38$

Your trend in auto theft is an increase of 38% for the first six months of this year as compared to the first six months of last year.

## POLICE EMPLOYEE DATA

Police employee rates are expressed as a number of employees per 1,000 inhabitants of your city or town. To compute this rate, divide your population by 1,000 and divide the number of employees in your department by this number.

### EXAMPLE:

- a. Your jurisdiction's population  
75,000
- b. Your agency's number of employees  
102

Divide:  $75,000 \text{ by } 1,000 = 75$

Divide:  $102 \text{ by } 75 = 1.36$

Your employee rate is 1.36 employees per 1,000 inhabitants.

## CLASSIFICATION OF OFFENSES

Uniformity in reporting under the Maine Uniform Crime Reporting System is based on the proper classification of offenses reported to or known by the police.

The adoption of the National System of Uniform Crime Reporting included the utilization of the offense classifications of that system. Law enforcement in this State has made accurate application of those classifications in the reports submitted to the Maine Uniform Crime Reporting System.

In view of the need for compatibility with the National System "offenses" under the program are not distinguished by designation of "misdemeanors", "felonies" or violation of municipal ordinances.

The explanations of offense classifications may vary slightly with language used by those familiar with Maine State Law. However, the major categories of offense classification remain the same between the national and state levels.

### PART I OFFENSES

Offense data consists of information that has been extracted from reports of Part I crimes that have come to the attention of Maine Law Enforcement Agencies. In general, Part I crimes are those crimes that, because of their very nature, are usually reported to law enforcement agencies. Part I crimes are comprised of the following offenses.

#### OFFENSE CLASSIFICATIONS

##### 1 HOMICIDE

- 1a. Murder and nonnegligent manslaughter - The unlawful killing of a human being with malice aforethought.
- 1b. Manslaughter by negligence - The unlawful killing of a human being, by another, without malice aforethought.  
  
General Rule - The killing may result from the commission of an unlawful act or from a lawful act performed with gross negligence. Traffic deaths, when due to the gross negligence of someone other than the victim, are classified in this category.

##### 2 FORCIBLE RAPE

- 2a. Rape by force - The carnal knowledge of a female forcibly and against her will.  
  
General Rule - FORCIBLE rape of a female - excluding carnal abuse (statutory rape) or other sex offenses.
- 2b. Attempted forcible rape - All assaults and attempts to rape.

##### 3 ROBBERY

The felonious and forcible taking of the property of another, against his will, by violence or by putting him in fear. Includes all attempts.

- 3a. Gun - All robberies and attempted robberies involving the use of any type firearm (revolvers, automatic pistols, shotguns, zip guns, rifles, pellet guns, etc.).
- 3b. Knife or Cutting Instrument - All robberies and attempted robberies involving the use of cutting or stabbing objects (knife, razor, hatchet, axe, cleaver, scissors, glass, broken bottle, dagger, ice pick, etc.).

- 3c. Other Dangerous Weapons - All robberies or attempted robberies when any other object or thing is used as a weapon. (This includes clubs, bricks, jack handles, bottles, explosives, acid, etc.).
- 3d. Strong Arm—Hands, Fists, Feet, Etc. - All robberies which include muggings and similar offenses where no weapon is used, but strong arm tactics are employed to deprive the victim of his property. This is limited to hands, arms, fists, feet, etc. As in armed robbery, include all attempts.

##### 4 ASSAULTS

An assault is an attempt or offer, with unlawful force or violence, to do physical injury to another.

General Rule - All assaults will be classified in the following categories, excluding assaults with intent to rob or rape.

- 4a. Gun - All assaults and attempted assaults involving the use of any type of firearms (revolvers, automatic pistols, shotguns, zip guns, pellet guns, etc.).
- 4b. Knife or Cutting Instrument - All assaults and attempted assaults, involving the use of cutting or stabbing objects (knife, razor, hatchet, axe, cleaver, scissors, glass, broken bottle, dagger, ice pick, etc.).
- 4c. Other Dangerous Weapon - All assaults or attempted assaults when any other object or thing is used as a weapon (clubs, bricks, pick handles, bottles, acid, explosives, lye, poison, scalding water and cases of attempted drowning, burning, etc.).
- 4d. Hands, Fists, Feet, Etc.-Aggravated - assaults which are of an aggravated nature when hands, fists, feet, etc., are used. To be classified as aggravated assault, the attack must result in serious personal injury.
- 4e. Other Assaults-Not Aggravated - All offenses of simple assault and battery.

##### 5 BURGLARY

Breaking and Entering - Unlawful entry or attempted forcible entry of any structure to commit a felony or larceny.

General Rule - Any unlawful entry or attempted forcible entry of any dwelling house, attached structure, public building, shop, office, factory, storehouse, apartment, house trailer (considered to be permanent structures), warehouse, mill, barn, camp, other building, ship or railroad car.

NOTE: For Uniform Crime Reporting purposes, the terms Burglary and Breaking and Entering are considered synonymous. All such offenses and attempts are scored as Burglary. Do not score the larceny. Breaking and Entering of a motor vehicle is classified as a larceny for Uniform Crime Reporting purposes.

- 5a. Forcible Entry - All offenses where force of any kind is used to enter unlawfully a locked structure, with intent to steal or commit a felony. This includes entry by use of a master key, celluloid, or other device that leaves no outward mark but is used to open a lock. Concealment inside a building, followed by the breaking out of the structure, is also included.
- 5b. Unlawful Entry-No Force - Any unlawful entry without any evidence of forcible entry.

- 5c. Attempted Forcible Entry - When determined that forcible entry has been attempted.

## 6 LARCENY-THEFT (EXCEPT AUTO THEFT)

The unlawful taking of the property of another with intent to deprive him of ownership.

General Rule - All larcenies and thefts resulting from pocket-picking, purse snatching, shoplifting, larceny from auto, larcenies of auto parts and accessories, theft of bicycles, larcenies from buildings, and from coin operated machines. Any theft that is not a robbery or the result of breaking and entering is included. Embezzlement, larceny by bailee, fraud or bad check cases are excluded.

## 7 MOTOR VEHICLE THEFT

The larceny or attempted larceny of a motor vehicle.

General Rule - This classification includes the thefts or attempted theft of a motor vehicle which, for Uniform Crime Reporting designation, is described as a self-propelled vehicle that runs on the surface and not on rails. Excludes reported offenses where there is a lawful access to the vehicle, such as a family situation or unauthorized use by others with lawful access to the vehicle (chauffeur, employees, etc.). Includes "Joy riding". Excluded from this category are airplanes, boats, farm equipment and heavy construction vehicles, which are scored in the larceny category.

### PART II OFFENSES

The Maine Uniform Crime Reporting System requires information on persons arrested and charged by municipal, county and state agencies on a monthly basis.

In compiling data for the Monthly Returns, the violations of municipal ordinances as well as state laws are to be included.

### OFFENSE CLASSIFICATIONS

## 8 OTHER ASSAULTS

This class is comprised of all assaults and attempted assaults which are simple or minor in nature. These "Other Assaults" are also scored on ME. UCR-1 under item 4e as an offense known to Police. However, for the purpose of this return arrests for this offense are scored in this class.

## 9 ARSON

Include all arrests for violations of state laws and municipal ordinances relating to arson and attempted arson.

Include: Any willful or malicious burning to defraud, a dwelling house, church, college, jail, meeting house, public building or any building, ship or other vessel, motor vehicle or aircraft; contents of buildings, personal property of another, goods or chattels, crops, trees, fences, gates, grain, vegetable products, lumber, woods, cranberry bogs, marshes, meadows etc.

In the event of a death from arson, the offense would be classified as murder and if personal injury results, the offense would be classified as assault, (4c).

## 10 FORGERY AND COUNTERFEITING

In this class place all offenses dealing with the making, altering, uttering or possessing, with intent to defraud, anything false in the semblance of that which is true.

Include:  
Altering or forging public or other records.  
Making, altering, forging, or counterfeiting bills, notes, drafts, tickets, checks, credit cards etc.

Counterfeiting coins, plates, bank notes, checks, etc.

Possessing or uttering forged or counterfeiting instruments.

Signing the name of another or fictitious person with intent to defraud.

All attempts to commit any of the above.

## 11 FRAUD

Fraudulent conversion and obtaining money or property by false pretense. Includes bad checks, confidence games etc., except forgery and counterfeiting.

## 12 EMBEZZLEMENT

Misappropriation or misapplication of money or property entrusted to one's care, custody or control.

## 13 STOLEN PROPERTY; BUYING, RECEIVING, POSSESSING

Include in this class all offenses of buying, receiving, and possession of stolen property as well as all attempts to commit any of these offenses.

## 14 VANDALISM

Include in this class all willful or malicious destruction, injury, disfigurement or defacement of any public or private property real or personal, without consent of the owner or person having custody or control, by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by law or ordinance. This offense covers a wide range of malicious behavior directed at property.

## 15 WEAPONS; CARRYING, POSSESSING ETC.

This class deals with violations of weapons laws such as:

Manufacture, sale or possession of deadly weapons.

Carrying deadly weapons.

Furnishing deadly weapons to minors.

Aliens possessing deadly weapons.

All attempts to commit the above.

## 16 PROSTITUTION AND COMMERCIALIZED VICE

Include in this class the sex offenses of a commercialized nature, such as:

Prostitution

Keeping bawdyhouse, disorderly house, or house of ill repute.

Pandering, procuring, transporting or detaining women for immoral purposes etc.

All attempts to commit any of the above.

## 17 SEX OFFENSES

Except forcible rape, prostitution and commercialized vice. Include offenses against chastity, common decency, morals, and the like.

Adultery and fornication

Buggery

Incest

Indecent exposure

Sodomy

Statutory Rape-(No Force)

All attempts to commit any of the above.

## 18 NARCOTIC DRUG LAWS

Narcotic drug law arrests are requested on the basis of the narcotics used. Include all arrests for violations of state and local ordinances, specifically those relating to the unlawful possession, sale, use, growing, manufacturing and making of narcotic drugs. Make the following subdivisions of narcotic drug law arrests.

Opium or cocaine and their derivatives  
morphine, heroin, codeine.

Marijuana.

Synthetic narcotics, manufactured narcotics which can cause true drug addiction. Damerol, methadones.

Dangerous non-narcotic drugs  
Barbiturates, benzedrine.

## 19 GAMBLING

All charges which relate to promoting, permitting or engaging in gambling. To provide a more refined collection of gambling arrests, the following breakdown should be furnished:

Bookmaking (Horse and sport books)

Numbers and lottery.

All other.

## 20 OFFENSES AGAINST THE FAMILY AND CHILDREN

Include here all charges of nonsupport and neglect or abuse of family and children.

Desertion, abandonment, or nonsupport.

Neglect or abuse of children.

Nonpayment of alimony.

## 21 DRIVING UNDER THE INFLUENCE

This class is limited to the driving or operating of any vehicle while drunk or under the influence of liquor or narcotic drugs.

## 22 LIQUOR LAWS

With the exception of "Drunkenness" (Class 23) and "Driving Under the Influence" (Class 21), liquor law violations, state or local, are placed in this class. Do not include federal violations.

Include: manufacturing, sale, transporting, furnishing, possessing etc.

Maintaining unlawful drinking places.

Bootlegging.

Operating still.

Furnishing liquor to a minor.

Using vehicle for illegal transportation of liquor.

## 23 DRUNKENNESS

Include in this class, all offenses of drunkenness or intoxication, with the exception of "Driving Under the Influence" (Class 21)

Drunk and disorderly.

Public intoxication.

NOTE: Although "Drunkenness" and/or "Intoxication" offenses have been removed from a criminal offense category by the Maine Legislature, the category remains in the Uniform Crime Reporting Part II offenses and is to be used administratively. Persons taken into custody and/or referred to alcohol rehabilitation or "De-Tox" centers should be scored in this category by age, sex and race.

## 24 DISORDERLY CONDUCT

In this class, count all disorderly persons arrested except those counted in classes 1 through 23 and class 25.

## 25 VAGRANCY

Place in this class arrests for disorderly persons when the person is arrested for failure to give a good account of himself.

## 26 ALL OTHER OFFENSES

Include in this class, every other state or local offense not included in classes 1 through 25.

Abduction and compelling to marry.

Abortion (Death resulting from abortion is homicide).

Bastardy and concealing death of a bastard.

Bigamy and polygamy.

Blackmail and extortion.

Bribery.

Contempt of Court.

Discrimination, unfair competition.

Kidnapping.

Offenses contributing to juvenile delinquency except as provided for in classes 1 through 29, such as employment of children in immoral vocations or practices, admitting minors to improper places, etc.

Perjury and subornation of perjury.

Possession, repair, manufacture, etc., of  
burglar's tools.

Possession or sale of obscene literature.

Unlawful use, possession, etc., of explosives,  
etc.

27 SUSPICION (NOT REPORTED IN MAINE)

28 CURFEW AND LOITERING LAWS (JUVENILES)

Count all arrests made for violations of  
local curfew or loitering ordinances.

29 RUNAWAY (JUVENILES)

Count arrests made by other jurisdictions of  
runaways from your jurisdiction. Do not  
include protective custody actions with  
respect to runaways you take for other  
jurisdictions. Count only your own local  
cases.

# UNIFORM CRIME REPORTING

## STATEMENT OF POLICY

### FOR THE RELEASE OF UCR STATISTICAL INFORMATION

The following regulations will be observed by this agency concerning the release of Uniform Crime Reporting statistical information. Employees of this agency will observe these procedures and will not deviate from this policy without the express consent of the Supervisor, Uniform Crime Reporting Division. All information to be released will originate from, and will be approved prior to being released, by the Uniform Crime Reporting Division.

### REGULATIONS

1. *This agency will publish an annual report reflecting crime in Maine. This report will be distributed to the Governor, to members of the Legislature, to the Attorney General, to the Maine Criminal Justice Planning and Assistance Agency, to enforcement agencies or to any agency or committee dedicated to law enforcement or criminal justice work.*
2. *Published reports will be released to the above named agencies prior to their being released to individuals or agencies extraneous to the criminal justice community.*
3. *UCR information requests*

No person or agency will be furnished statistical information which has not previously been published, concerning any individual agency's reports without the written consent of the Chief Administrator of that Agency. The Uniform Crime Reporting Division will maintain for one year a copy of the information released along with the request and the authority for release.

- A. *Information contained in the published annual report may be released via phone, letter, etc., to any interested party.*
- B. *All requests for unpublished information from agencies or individuals should be directed by letter to the Supervisor, Uniform Crime Reporting Division. These special requests will be honored only with the written consent of the agency whose statistics are requested.*
- C. *Law enforcement agencies may receive interim, unpublished, specialized reports identifying their agency only providing the request is not unreasonable. Law enforcement agencies may also receive their respective county totals along with state or district totals. All requests should be directed to the Supervisor, Uniform Crime Reporting Division.*

## CREDITS

The preparation and publication of this Annual Report was made possible by the Discretionary Grant Award number 75-DF-01-0019, July 1, 1975 - June 30, 1977, from the Law Enforcement Assistance Administration.

\* \* \* \* \*

The Maine Uniform Crime Reporting Division, Department of Public Safety, wishes to acknowledge and express their appreciation for the generous and cooperative assistance of the Maine Criminal Justice Data Center throughout the year and in the preparation of this Annual Report. Graphics in this publication were also provided by the Data Center: Director Gary Sawyer, and associates, Richard Gribbin and Marilyn Giddings.

The Maine Criminal Justice Planning and Assistance Agency also provided generous assistance under the Director T. T. Trott, Jr., and Deputy Director Ivan LaBree. Special thanks to the Criminal Data Processing Supervisor of MCJPAA, Barbara Hagan.

## MESSAGE FROM THE STAFF

The Maine UCR Division staff is firmly convinced that all the statistics gathered in the world would be meaningless unless they are used. Therefore, we are further convinced that gathering of meaningless statistical information is a waste of our time and the time of the contributing agencies.

It is with this attitude that we go about our work of developing information that is important, timely and relative to the existing crime situation in Maine.

We encourage constructive criticism, suggestions, inquiry, and the continued assistance of our contributors and related criminal justice agencies.

The staff members at the present time are as follows:

Robert E. Wagner, Jr., Supervisor  
Richard C. Rideout, Field Representative  
Germaine McLellan, Clerk/verifier  
Betty Hamilton, Key punch Operator

Any information or assistance needed may be obtained by calling Waterville, 873-5458 or Augusta, 289-2025.

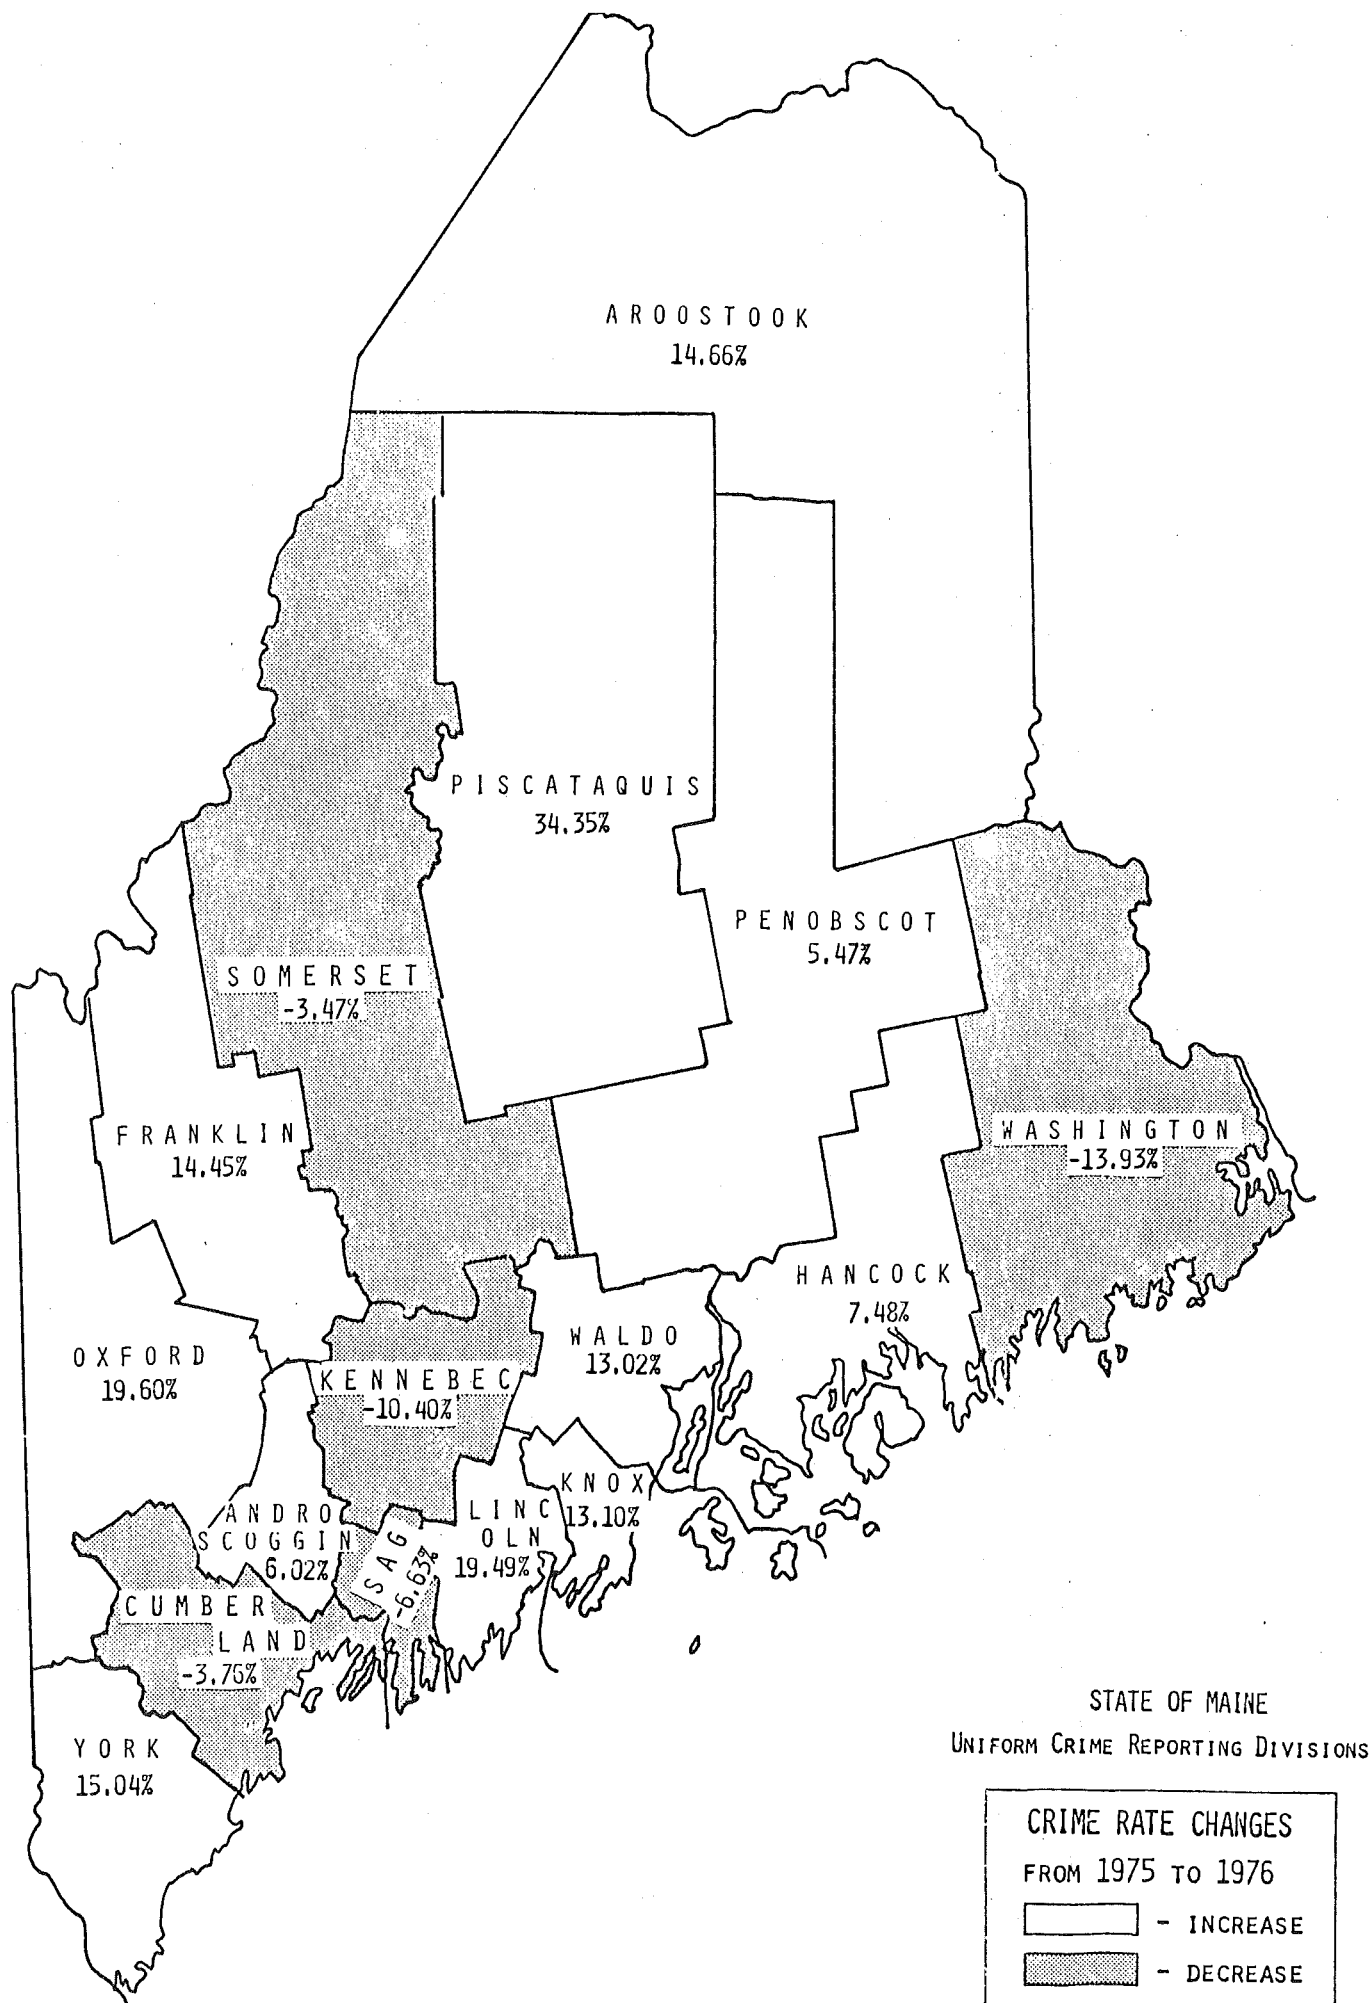

## UNIFORM CRIME REPORTING ADVISORY COMMITTEE

The Maine Chiefs of Police Association and Maine Sheriffs Association have continued to provide excellent support and cooperation in the development of the Maine UCR Program.

A committee made up of members from these associations was instrumental in the development of uniform arrest sheets and complaint sheets now in use in many Maine departments. Their expert advice and consultation are appreciated.

Listed below are the present members of the UCR Committee as appointed by President John Bernard of the Maine Chiefs of Police Association.

Chief Albert Smith, Co-chairman	Camden
Chief Leo Rafferty, Co-chairman	Yarmouth
Chief Gerald Margeson	Hallowell
Chief William McClaran	Portland
Sheriff Alton Howe, Oxford County	So. Paris
Chief Robert Picucci	Bath
Chief Lucien Longtin	Lewiston

## **AUTHORITY**

The Maine Uniform Crime Reporting System Act was passed by the Special Session of the 106th Legislature and was signed into law by the Honorable GOVERNOR KENNETH M. CURTIS on February 28, 1974.

### **AN ACT RELATING TO THE INSTALLATION OF A UNIFORM CRIME REPORTING SYSTEM:**

Revised Statutes., Title 25, Section 1543, amended. Section 1543 of Title 25 is amended by adding the new paragraph at the end to read as follows:

"It shall be the duty of all state, county and municipal law enforcement agencies, including those employees of the University of Maine appointed to act as policemen, to submit to the State Bureau of Identification uniform crime reports, to include such information as is necessary to establish a Criminal Justice Information System and to enable the supervisor to comply with section 1544. It shall be the duty of the Bureau to prescribe the form, general content, time and manner of submission of such uniform crime reports. The Bureau shall correlate the reports submitted to it and shall compile and submit to the Governor and Legislature annual reports based on such reports. A copy of such annual reports shall be furnished to all law enforcement agencies."
