*Due to the new criminal code not making new sentences automatically consecutive with parole violation time, many inmates were not considered parole violators at time of return because their old sentence would have run out before the release date on the new sentence. A new statistic for recidivism over a 3 year period from adult institutions is 49%.

(Approximately 50% of all new admissions tested had completed a secondary program (High School or G.E.D. Diploma). This 50% figure differs from the 22% figure (p. 12) because only brand new admissions and not inmates who are former inmates in the past were tested.
