*A word about copying material contained in this report...*

Any person may reproduce, without restriction, any or all material in this edition. When several copies of material are made for distribution, credit should be given to the Maine State Government Annual Report.

When any part of the text is partially reproduced for distribution, it should be noted that it is only a part and not the whole text as published. Problems inherent to "out of context" quotes may detract from the information we have tried to provide on State Government agencies and their operations.

The text of the Maine State Government Annual Report is meant to be a lightly-edited narrative report of the organizational units of state government and is not intended as legal authority either for judicial notice or legal citation.

# FOREWORD

The *Maine State Government Annual Report* is compiled by the Bureau of the Budget on behalf of the Governor pursuant to the Maine Revised Statutes, Title 5, Chapter 3, Sections 43- 46. It documents, in convenient reference form, the administrative and financial structure, activities and accomplishments of the agencies of the State Government. In accordance with legislative intent, it replaces a profusion of costly annual or biennial reports independently published by State departments and agencies, and it establishes a new accountability with respect to many agencies, boards and commissions not previously subject to reporting requirements.

The *Maine State Government Annual Report* reflects the scope and diversity of Maine State Government operations during the fiscal period covered by this report. The mass of reports accumulated by the Bureau of the Budget have been edited and revised as necessary to conform to statutory requirements and the overall report concept.

Individual reports of departments, their principal subdivisions, and other agencies generally feature seven basic elements of construction as follows:

1. Identification Summary
2. Purpose
3. Organizational Background
4. Program
5. Licenses, Permits, etc.
6. Publications
7. Finances, Fiscal Year

This form of construction is used wherever possible in all reports. However, in view of certain inconsistencies and questions which may arise concerning nomenclature, the following discussion of terms and report construction may be of assistance to the serious reader.

**IDENTIFICATION SUMMARY.** This section "headlines" the report of each agency and serves to identify the agency, its executive officers, central office location and telephone number. Specific items appearing in the agency heading, which may require some interpretation, include the following:

**Established:** This is usually the year in which the agency was created as a statutory or administrative entity, despite a subsequent change of name. If, at some point in time, the agency experienced a major reorganization in terms of administrative structure, purposes or functions, the year in which this occurred is considered the year established.

**Reference:**

*Policy Area.* There are 8 broad areas of emphasis under which all activities of State Government are categorized. Each organizational unit reported in the *Maine State Government Annual Report*, the *State Budget Document*, and the *Maine State Government Reference Manual* is assigned to the Policy Area which most appropriately identifies the prevailing nature of its legislation.

Each of the 8 Policy Areas has been assigned a name and a 2-digit number as follows:

- |                          |                      |
|--------------------------|----------------------|
| 00 General Government    | 04 Labor             |
| 01 Economic Development  | 05 Natural Resources |
| 02 Education and Culture | 06 Public Protection |
| 03 Human Services        | 07 Transportation    |

*Umbrella.* In order to make the list of 470 organizational units manageable, they have been classified by the relationship between them. This was done by two criteria:

a) Each *State Department*, the *Public Utilities Commission*, *Maine Maritime Academy*, and the *Board of Trustees of the University of Maine System* was assigned a different 2-digit number and each unit which was, by law, determined to be a part of these was assigned to that 2-digit "umbrella" number. Thus all units carrying an "01" in front of their 3-digit unit number are part of the Department of Agriculture, Good and Rural Resources, for example.

Each of these Umbrellas has been assigned a name and a 2-digit number as follows:

- 01 Department of Agriculture, Food and Rural Resources
- 02 Department of Professional and Financial Regulation
- 03 Department of Corrections

- 04 Department of Conservation
- 05 Department of Education
- 06 Department of Environmental Protection
- 07 Executive Department
- 09 Department of Inland Fisheries and Wildlife
- 10 Department of Human Services
- 12 Department of Labor
- 13 Department of Marine Resources
- 14 Department of Mental Health and Mental Retardation
- 15 Department of Defense and Veterans Services
- 16 Department of Public Safety
- 17 Department of Transportation
- 18 Department of Administration and Financial Services
- 19 Department of Economic and Community Development
- 26 Department of the Attorney General
- 27 Department of Audit
- 28 Treasury Department
- 29 Department of the Secretary of State
- 30 Legislative Department
- 40 Judicial Department
- 65 Public Utilities Commission
- 75 Maine Maritime Academy
- 78 Board of Trustees of the University of Maine System

b) The many independent units - *not* part of the umbrellas listed above - were assigned to *one of five 2-digit umbrella numbers* which helped to classify the units in terms of the prevailing nature of their statutory or other authority or relationship to State Government. Thus umbrella "90" identifies those that "Regulate", "92" those that "Advise", etc.

Each of these umbrellas has been assigned a name and a 2-digit number as follows:

- 90 Independent Agencies - Regulatory
- 92 Independent Agencies - Advisory
- 94 and 95 Independent Agencies - Other
- 98 Independent Agencies - Interstate Compact
- 99 Independent Agencies - Not Part of State Government

**Unit.** Each State Government organizational unit created by the Constitution, Statute or Private and Special Law has been assigned a different *3-digit number*. Each unit created by Legislative Order, by Judicial Order, by Executive Order of the Governor - or, in a few cases, by other acceptable authority - has been assigned its parent's *3-digit number PLUS a letter*.

**Unit Citation.** Reported here is the legal citation which created the organizational unit. When one located this citation in the appropriate document, one should find additional data relating to its purpose, authority and membership close by. If such a citation appears in the Statutes, that is the entry used since it has closer proximity to additional meaningful data than , for example, a Constitutional citation.

**Average Count - All Positions and Legislative Count.** One, both, or neither of these items may appear in the heading, depending on whether or not the information was provided in the agency's original report. Where neither are included, the agency generally has no paid State employees. The *Average Count - All Positions* as reported by the by the agency is the average count of employees on the payroll of the agency, paid out of any and all funds. The *Legislative Count*, where applicable, is the number of *permanent* positions reported by the agency as authorized to it in the Appropriation Acts, passed by the Legislature for the time frame covered by this report. In general, an average count which exceeds Legislative count may usually be attributed to contractual or federally-funded positions which did require Legislative approval.

**Organizational Units.** Listed under this heading are all organizational units, both statutorily and administratively - created, which are an integral part of the agency. Most of these organizational units are either discussed in the accompanying text or are presented separately in a successive report.

**PURPOSE:** This is a brief expression of the agency's overall objective, purpose or mission. This section also outlines the primary responsibilities of the agency as specified by statute or expressed in other legal instruments which authorize the agency to perform certain functions or conduct certain activities. There is no attempt to state the full extent of the agency's powers and duties which are often interspersed throughout the law. One interesting aspect of the laws relating to the Executive Branch is that the statutes seldom confer powers of the State upon administrative units, but rather upon administrative officials. This is reflected in many reports where a department or agency created by statute is indicated as functioning solely through authority vested in its executive head. There are some reports, however, where this distinction is not noted.

**ORGANIZATION:** It is characteristic of the State Government to exist in an organizational flux as it is modified and altered by each successive Legislature and each Administration to meet contemporary needs for programs and services. This section offers some clarification of the past and present administrative position of each principal agency in the hierarchy of Maine State Government in an effort to minimize confusion caused by name-changing, establishment, abolishment, transfer and merger of agencies and their subdivisions. While such organizational shuffling has occurred since Maine became a state in 1820, it may be observed that two major reorganizations have tended to shape the State Government of today, one taking place in 1931 and the other in the period from 1971 through 1973. Their impact on the organizational development of each agency is highlighted in this section along with other significant administrative and organizational details. The organizational background is based upon that contained in original agency reports, but greatly expanded and authenticated through use of the *Maine Revised Statutes Annotated, 1964*, as amended, the *Public Laws of the State of Maine*, and *Agencies of Government, State of Maine, 1820 - 1971*, published by the Maine State Archives.

**PROGRAM:** Although the identification, administration and organization of State agencies are significant to the purposes of this report, an account of their specific activities and accomplishments during the past fiscal year is fundamental.

At the departmental level, the program summary generally consists of a broad review of overall departmental activity, with details provided in the reports of component organizational units which follow. Several departments are unique in that they embrace a number of somewhat autonomous units under the general administrative direction of an executive head. In such instances, the department's program summary may be comprised solely of the reports of its component units.

**LICENSES, PERMITS, ETC.:** Many state agencies issue licenses, permits, registrations or certificates. This heading is an attempt to assemble such information in a broad-interest document.

**PUBLICATIONS:** This section provides an opportunity for an agency to make known additional information concerning its programs and products, by listing its available publications.

**FINANCES, FISCAL YEAR:** Financial data relating to agency operations during the past fiscal year displays all agency expenditures by category and type of fund.

This data is generated from the Bureau of the Budget's computer-based *MFAS/S* system supplemented by data not included in the State's accounting system or nor carried in sufficient completeness as to present a useful picture. Examples of the latter are the University of Maine System and the Maine Maritime Academy. Data relating to enterprise-type accounts reflect only those expenditure elements which are included in the work program process.

Expenditures of the agency are indicated by fund and line category detail in general accordance with the State's accounting system. Some categories are split and some are combined in a effort to meet what is interpreted to be the intent of the Annual Report law.

The chief administrative unit of each department-type umbrella will have two financial displays: one which records the summary of all expenditures for the umbrella; and one for those expenditures relevant only to the operation of the chief administrative unit.

Since the *MFAS/S* system deals with "rounded" whole-dollars, some small dollar differences will exist between this report and the Financial Report issued by the State Comptroller.

This Maine State Government Annual Report is the culmination of a joint effort to produce an understandable documentation of the structure and operations of Maine State Government during a particular year in its history. It has been an attempt to create a factual, objective and definitive reference of permanent value in a manner, hopefully, in keeping with the spirit and the intent of the law and in the interests of promoting greater comprehension of the workings of the State Government and its responsibility and responsiveness to the public it serves. How closely this report achieves these objectives is left to the judgement of those who will use it.

**PURPOSE:**

The Department of Administrative and Financial Services is responsible for providing central administrative and financial services to the departments and agencies of State government.

**ORGANIZATION:**

The Department of Administration was established through Chapter 785 of the Public Laws of 1985, effective July 1, 1986. This legislation provided for a major reorganization of central financial and administrative units in state government. The former Department of Finance and Administration was dissolved, with fiscal management and revenue units placed in the Department of Finance and Administrative service units placed in the Department of Administration. PL 1991 Chapter 780 merged the Department of Administration and the Department of Finance.

**PROGRAM:**

The programs of the department are implemented through its component units. The primary emphasis is to provide responsive, high quality and cost effective services to State departments and agencies and related public institutions.

#### PURPOSE:

The Bureau of Accounts and Control is responsible for the maintenance of the official accounting records of the State government. The powers and duties of the Bureau are detailed in section 1541 of Title 5 of the Maine Revised Statutes Annotated.

#### ORGANIZATION:

The Bureau of Accounts and Control was created in 1931 as an organizational unit of the Department of Administrative and Financial Services. The Bureau is

## DEPARTMENT OF ADMINISTRATIVE AND FINANCIAL SERVICES

under the direction of the State Controller who is appointed for an indefinite period by the Commissioner of Administrative and Financial Services subject to the approval of the Governor.

### PROGRAM:

The Bureau is an administrative agency responsible for maintaining central accounting records for all financial transactions. It examines bills and payrolls to insure the legality and correctness of all items and prepares warrants for payment. Both electronic funds transfers or EFT, and Direct Deposit of payroll and expense checks are initiated and administered by Bureau staff. The State Controller's office maintains the official financial records for all agencies and programs administered by the State with the exception of certain quasi-governmental units. The State's Deferred Compensation Plan is maintained within the Bureau. The State's General Purpose Financial Statements, based on generally accepted accounting principles (GAAP), are prepared annually by the Bureau's Reporting Unit. The State Auditor audits this report, which is delivered to a wide audience.

The Maine Financial and Administrative Statewide Information System (MFASIS) is the statewide IT enterprise system. Bureau staff contracts with Bureau of Information Services for the MFASIS IT team and work closely with them and the MFASIS Steering Committee to maintain and enhance the overall system. The MFASIS system is made up of three production systems, Accounting, Budget, and Human Resources. A data warehouse is also maintained by the MFASIS team and provided to all fiscal areas, all departments. The Accounting system handles and processing of over 1.5-million payments annually and another 160,000 accounting transactions. Virtually all accounting transactions are reviewed and approved by Bureau staff. The system provides on-line access, subject to appropriate security, to current financial information, and daily, monthly, and annual accounting information and reports for all departments.

The Human Resource Management System retains current personnel, payroll and position control information. This system issues over 400,000 payroll payments, both checks and direct deposit, annually, and maintains and controls tax withholding and payroll deduction transactions. The Budget Management System provides assistance to the Bureau of the Budget in preparation and monitoring the State's budget process. The system supports a range of functionality from the initial input of a biennial budget quarterly allotment control.

**PURPOSE:**

The Bureau of Alcoholic Beverages and Lottery Operations was established to provide the most satisfactory public service for the complete distribution and sale of liquors, fortified wines, malt beverages, instant lottery tickets; Pick 3, Pick 4, Tri-State Megabucks and Tri-State win Cash lottery tickets. The Bureau is authorized to serve, through its Director, as the chief administrative officer of the State Liquor and Lottery Commission having general charge of the office and records, employing personnel and making expenditures as necessary; and to conduct, under the supervision of the Commission, all phases of the merchandising of liquor through State stores and the sale of lottery products through licensed lottery agents.

**ORGANIZATION:**

The State's regulation of liquor originated in 1862 with the establishment of a Commission to Regulate Sale of Intoxicating Liquors to have control of liquors kept and sold for medicinal and manufacturing purposes. In 1905, a Liquor Enforcement Commission was established to enforce the law against the manufacture and sale of intoxicating liquors. Both of these agencies were appointed by the Governor, with the advice and consent of the Council, for terms of three years; the chairman designated by the Governor. The Board was renamed the State Liquor Commission in legislation effective in 1934, which outlined responsibilities in the State control of liquor still basic to the Commission in conjunction with the present Bureau of Alcoholic Beverages. In 1987 the Commission was increased to five members.

A State Lottery was approved by public referendum in November 1973 for the purpose of generating additional revenues for deposit to the State's General Fund. The agency is administered by the State Lottery Commission and the State Lottery Director.

PL 1991 chapter 780 merged the Bureau of Alcoholic Beverages and the Bureau of Lottery.

**PROGRAM:**

The Bureau continues to run as in past years with goals being reached and revenues generated to the general fund.

#### PURPOSE:

The Bureau of the Budget is authorized to prepare and submit biennially to the Governor or the Governor-elect a State budget document; to examine and recommend for approval the work program and quarterly allotments of each department and agency of State Government before the appropriations or other funds of such departments and agencies become available for expenditure; to examine and recommend for approval any changes in these work programs and quarterly allotments during the fiscal year; to constantly review the administrative activities of the departments and agencies of the State, study organization and administration, investigate duplication of work, formulate plans for better and more efficient management, and report periodically to the Governor and on request to the Legislature; and to make rules and regulations, subject to the approval of the Commissioner of Administrative and Financial Services, for carrying out State budget laws.

#### ORGANIZATION:

The Bureau of the Budget is an organizational unit of the Department of Administrative & Financial Services under the direction of the State Budget Officer who is appointed by the Commissioner of Administrative & Financial Services.

#### PROGRAM:

Activities of the Bureau primarily involve the State's budgetary process. On or before September 1st of even-numbered years, all entities of State Government and corporations and associations desiring to receive State funds under provision of law, submit to the Bureau their expenditure and appropriation requirements for each fiscal year of the upcoming biennium. The Bureau prepares the State Budget Document which is composed of the following parts: (1) the budget message by the Governor or Governor-elect which outlines financial policy; and (2) detailed estimates of expenditures and revenues, including statements of the State's bond indebtedness.

## DEPARTMENT OF ADMINISTRATIVE AND FINANCIAL SERVICES

After legislative appropriation, the Bureau reviews and considers requested allotments by quarter with respect to the work program of each entity of State government. Work programs are required to be submitted to the Bureau no later than June 1st of each year. Work programs may be revised during the fiscal year, subject to the approval of the State Budget Officer and the Governor. During 1999, the Bureau continued its effort as the lead agency in the implementation of performance based budgeting. This effort included the provision of training and technical assistance to departments and agencies in the development of a reformatted strategic plan and the linkage of existing programs to performance measures in accordance with PL 1997, c. 764. In addition, the Bureau provided leadership and technical support to the Budget Focus Group in the development of technical formats for performance budgeting including requirements for a computerized performance budgeting system.

The Bureau also produces the Maine State Government Annual Report, prepares long range budget forecasts for financial planning and analyses and prepares General Fund and Highway Fund revenue forecasts through consensus forecasting pursuant to Title 5, chapter 151-B. The Bureau of the Budget prepared its first forecast for the General Fund and the Highway Fund representing the effects in fiscal years 2002 and 2003 of the Governor's budget recommendations for the FY 2000 - 2001 biennium.

### PURPOSE:

The Capitol Planning Commission was established to institute the development of a master plan to guide future State policy in the expansion of the States' physical plant and in the locating of State buildings and other public improvements in the Capitol area; to submit the completed plan to the Legislature for adoption; and to submit amendments as it deems necessary to the Legislature for adoption and inclusion in the official State master plan. The

## DEPARTMENT OF ADMINISTRATIVE AND FINANCIAL SERVICES

intended policy for development of the Capitol area is to proceed with economy, careful planning, aesthetic consideration and with due regard to the public interests involved.

### ORGANIZATION:

The Capitol Planning Commission was established and abolished in 1972 and recreated in 1973. The Commission consists of the Director of the State Planning Office, ex-officio, seven members appointed by the Governor, and a member of the Augusta City Council. The Governor's appointees must include: two residents of the Capitol Planning District; one resident of the City of Augusta; and four Maine citizens. The Commission elects a chairman from its membership and, while the Bureau of General Services serves as a secretariat of the commission in exercising its administration, it may employ such assistance as it deems necessary. The Bureau of General Services also provides staff support. The Commission must meet at least once every four months.

### PROGRAM:

The Capitol Planning Commission again met only once in the last year. The reason for the inactivity was a continuation of a moratorium placed on governmental expansion.

### PURPOSE:

The Central Motor Pool, operating under the name Central Fleet Management, was established to centrally procure, distribute and dispose of passenger and light truck vehicles for most agencies of state government.

### PROGRAM:

The lease line provides over 1,100 passenger and light truck vehicles to using agencies across state government. Maintenance and repair is accomplished through a centralized Central Fleet Management service garage, other state maintenance facilities, contracted service providers and private maintenance facilities.

Central Fleet Management continues to work with the advisory group which offers feedback and recommendations to the management team. Improvements in specifications, availability of service and customer satisfaction have resulted.

Rental line provides daily vehicle needs to all of state government. Agencies can request various regular and special purpose vehicles on a daily, weekly or monthly basis, allowing the optimum use of all state vehicles throughout the year.

*Average Count--All Positions:* 2.000

*Legislative Count:* 2.00

#### PURPOSE:

The State Claims Commission was established to assure that the rights of property owners and/or interested parties are protected and just compensation is awarded in highway condemnations in real property taken by the State; to afford property owners and/or interested parties the opportunity to appear, present their case and have their rights fully protected without the necessity of retaining professional assistance; to determine and award just compensation for highway takings, relocation assistance, grading and well damage claims, outdoor advertising signs, the relocation removal or disposal of automobile graveyards and junkyards, assessment of damages for takings by the Portland Water District and by the Maine Turnpike Authority, and to make rules and regulations and prescribe forms to secure speedy, efficient and inexpensive disposition of all condemnation proceedings; and, in addition thereto, to approve, partially approve, or disapprove certain claims against the State or any of its agents

#### ORGANIZATION:

Compensation for highway acquisitions was formerly under the jurisdiction of a Joint Board, composed of members of the State Highway Commission and the Board of County Commissioners of the County wherein the land was located. The Joint Board was superseded by the Land Damage Board in September, 1961. Under the Act Affecting the Organization of the Department of Business Regulation, effective September 23, 1983, the Board was placed under the supervision and direct control of the Commissioner of Finance and Administration.

The Land Damage Board whose name was statutorily changed to the State Claims Board and most recently to the State Claims Commission consists of five members, four of whom are appointed by the Governor for terms of four years. Two of these appointees must be qualified appraisers and two must be attorneys at law. The Governor designates one of the latter as chairman. The fifth member of the Commission is appointed for each hearing or series of hearings within the county where the land is situated. He or she must be a member of that County's Board of County Commissioners, and is appointed by the chairperson of the State Claims Commission.

## DEPARTMENT OF ADMINISTRATIVE AND FINANCIAL SERVICES

### PROGRAM:

The State Claims Commission scheduled 158 cases for hearings during FY 94. There were 25 land damage cases which were settled prior to hearings. The Commission heard 18 cases and 56 cases were continued. There were also 59 cases that were disposed of by default judgments and 77 additional land damage cases were received but settled and, therefore, hearings were not required.

### PURPOSE:

The State Employee Health Commission was established to serve as trustee of the State Employee's Health Insurance Program, including health and dental insurance, and to advise the Executive Director' and the Director of the Bureau of Human Resources on issues related to employee health and wellness, and the employee assistance program (EAP).

### ORGANIZATION:

The Commission was established by the 113th Legislature in 1988 replacing the Board of Trustees, Group Accident and Sickness or Health Insurance and the Labor/Management Committee on Employee Health. Membership of the Commission consists of twenty (20) labor and management representatives.

One labor member from each bargaining unit recognized under Title 26, Chapter 9-B, appointed by the employee organization certified to represent the unit; one labor member from the largest bargaining unit recognized under Title 26, Chapter 14, appointed by the employee organization authorized to represent the unit; one labor member appointed by the retiree chapters of the Maine State Employees Association; one member appointed by the Maine Association of Retirees; one labor member from Maine Turnpike Authority employees appointed by the employee organization authorized to represent the employees; four management members appointed by the Commissioner of Administrative and Financial Services; one management member appointed by the Court Administrator; the Executive Director of Employee Health & Benefits, ex officio; one labor member from the Maine Technical College System faculty or administrative unit; and one member from the Maine Technical College System appointed by the President.

## DEPARTMENT OF ADMINISTRATIVE AND FINANCIAL SERVICES

### PROGRAM:

The Commission conducted a competitive bid process to select an organization to provide a health plan for State employees during FY98. As a result of the bid process, the Commission awarded a two-year contract to Healthsource Maine effective April 1, 1998. The contract provides for a point-of-service (POS) managed care plan for active employees and non-Medicare eligible retirees. The Retirees' Premier Plan was introduced to supplement Medicare coverage for eligible retirees. The contract provides that MCC Behavioral Care manages services for mental health and substance abuse treatment. Healthsource Rx and TelDrug provide prescription drug benefits through retail and mail order services. The Commission has renewed the dental insurance contract with Northeast Dental through FY2000.

### PURPOSE:

The Employee Suggestion System Board has responsibility for the guidelines for administration of the State Employee Suggestion Award Program (5 MRSA, Section 642) and for making final determinations on suggestions submitted under these guidelines.

### ORGANIZATION:

Under the enacting statute, Board membership was defined as the Commissioner of Personnel, the Commissioner of Finance and Administration, and one other Commissioner of a State department to be appointed by the Governor. The Commissioner of Professional and Financial Regulation was appointed as the third member of the original board. In July 1986, the Department of Finance and Administration was divided into two separate departments and, for continuity, the board consisted of the Commissioner of Personnel, the Commissioner of

Finance and the Commissioner of Administration.

In 1987, the enacting statute was amended and board membership was defined as the Commissioner of Finance, the Commissioner of Administration and one other Commissioner of a State department to be appointed by the Governor (Commissioner of Transportation). Day-to-day administration services were provided by administrative staff of the Commissioner of Administration. In 1991, the Departments of Finance and Administration were merged to form the Department of Administrative and Financial Services. In June 1992, the statute was amended a second time to define board membership as the Commissioner of Administrative and Financial Services and two other commissioners appointed by the Governor. In addition the responsibility for the day-to-day administration of the Suggestion Program was shifted from the former Department of Administration to the Bureau of Human Resources.

### PROGRAM:

During FY 94-95, the Employee Suggestion System received and processed 107 suggestions as follows:

66 suggestions were not adopted or ineligible for cash award; 29 suggestions were pending with ad hoc evaluation committees: 1 suggestion was pending with the Suggestion Award Board; 1 suggestion was forwarded to the Maine Quality Management Council; 2 suggestions were implemented and recognized by Certificates; 5 suggestions were implemented and recognized by cash awards (\$519, \$320, \$50, \$50, and \$40); 2 suggestions were implemented with a cash award to be determined; 1 suggestion is pending study by a departmental Process Action Team. During FY 94-95, a sunset amendment to 5 MRSA, Sec. 642 increased the cash award for employee suggestions to 10% of the first year's savings or \$10,000, whichever is less.

### PURPOSE:

The Bureau of Employee Relations functions as the Governor's designee for employee relations for the State of Maine. The Bureau's mission is to: a) develop and execute employee relations policies, objectives and strategies consistent with the overall objectives of the Governor; b) conduct negotiations with certified and recognized bargaining agents under applicable statutes; c) administer and interpret collective bargaining agreements, and coordinate and direct agency activities as necessary to promote consistent policies and practices; d) represent the State in all bargaining unit determinations, elections, prohibited practice complaints and any other proceedings (including MLRB and court cases) growing out of employee relations, and collective bargaining activities; e) coordinate the compilation of all data and information needed for the development and evaluation of employee relations programs and in the conduct of negotiations; f) coordinate the State's resources.

### ORGANIZATION:

Chapter 785, Public Laws of 1985, established the Bureau of Employee Relations within the Department of Administration. PL 191 Chapter 780 established the Bureau of Employee Relations within the newly merged Department of Administrative and Financial Services.

## DEPARTMENT OF ADMINISTRATIVE AND FINANCIAL SERVICES

### PROGRAM:

In FY97, the Bureau successfully completed negotiations for successor collective bargaining agreements for seven bargaining units for contracts which expire on June 30, 1999. The Bureau also continued to administer collective bargaining agreements, and was actively involved in cases before the Maine Labor Relations Board, Arbitrations and the Courts.

The Bureau was also actively pursuing unit clarification petitions involving hundreds of positions before the Maine Labor Relations Board.

The Bureau continued its aggressive actions in the resolution of grievances including the continuation of the mediation process before arbitration. The Bureau was also responsible for management representation on ongoing labor-management committees dealing with employee health and health insurance, safety and other bargaining related activities.

#### PURPOSE:

General Services was established to provide one centralized bureau to manage and oversee the state's procurement process, insurance advice and services for all state agencies, and to provide planning, development and monitoring of the construction of all public improvements. It is authorized to plan and develop long-range public improvement programs and to make recommendations to the governor and the legislature regarding such programs. It advises on and approves engineering and architectural services, proposals, plans, specifications and contracts for public improvements to state facilities and public school construction. It maintains records of construction costs and progress of public improvements, supervises, controls and maintains land and buildings in the St. Capitol Complex. It manages and records the leasing of all grounds, buildings, facilities and office space required by all departments and agencies of state government, and records and manages asbestos in those state-owned bldgs.

#### ORGANIZATION:

The Bureau of General Services was established in 1991 as part of the merger of the Departments of Administration and Finance, formerly consisting of the Bureaus of Public Improvements and Purchases. It consists of five major divisions: Professional Services Division, Property Management (including Operations and Maintenance and Custodial Services), and Purchases (including Procurement, State Purchases Review Committee, Central Services, Central Fleet Management), Risk Management, and Space Management. The organization also participates on the Capitol Planning Commission.

#### PROGRAM:

The Professional Services staff oversees renovations, maintenance and repairs of roughly 2,000 state buildings and state funded school projects and prepares the biennial Capital and repair budgets for all state agencies. Property Management has responsibility for operations and maintenance, including housekeeping services, of over 52 buildings in the various Capitol Complexes and

the Hallowell Annex. Purchases became a "division" under the Bureau of General Services in 1992. Within the division are the divisions of Postal Services, Warehousing, Printing/Convenience Copiers, Photography, State Surplus services and Central Fleet Management (CFM); the division is the designated state agency to receive and distribute federal surplus property. The Division of Purchases processed over 30,000 orders, totalling over \$60,000,000 in commodity purchases and approved approximately 4,600 contracts, grants and amendments totalling over \$250,000,000 in FY96.

The Risk Management Division provides insurance advice and services to the state government and administers all state insurance and self-funded plans and programs. Space Management obtains office space through the use of state facilities, or by leasing suitable space office from the private sector.

*Average Count--All Positions:* 37.000

*Legislative Count:* 37.00

#### PURPOSE:

The Bureau of Human Resources is responsible for centralized administration of the State's Civil Services System. The mission of the Bureau is to adopt, amend and enforce Civil Service Law and Rules to ensure that positions essentially alike in duties and responsibilities are treated alike in pay and other civil service processes; to ensure that applicants for State positions are afforded fair and equal opportunity to obtain employment on the basis of merit and fitness; and through these merit programs and employee development and training programs, to promote effective services and economy for the conduct of State business. The Bureau is a service agency to Executive Branch departments, and the Bureau's enacting legislation mandates a civil service system that is responsive to the needs of agencies and employees.

The goals for administration of the State's Civil Service System are:

.To design and administer human resource programs, services, and benefits.

.To recruit, develop, and retain the best talent, managed within available resources.

.To work cooperatively with state agencies, employees, and labor organizations

## DEPARTMENT OF ADMINISTRATIVE AND FINANCIAL SERVICES

to provide services effectively and fairly.

To inform and educate state employees, managers, and supervisors at all levels and in all agencies on the policies and programs necessary to effectively administer and monitor human resource programs and benefits.

### ORGANIZATION:

In 1937, the State of Maine enacted legislation to parallel Federal Civil Service Law. A three-member State Personnel Board and a Bureau of Personnel within the then Department of Finance were established to administer this new law. The Bureau was headed by a Director of Personnel who was appointed by the Governor and the Board to serve at the pleasure of the Board. In 1941, the bureau was made an independent State agency referred to as the Office of Personnel. In 1953, the State Personnel Board was enlarged by adding a member selected by the Maine State Employees' Association and a member selected from department heads. In 1975, these two special memberships were deleted and the State Personnel Board returned to an all-public body.

In 1976, the State Civil Service System experienced its first major change. The Office of Personnel was made a Cabinet-level department, headed by a Commissioner appointed to serve at the pleasure of the Governor. The Commissioner was given the authority formerly vested in the State Personnel Board and the State Personnel Board was redefined as an advisory and appellant body. In January 1981, the Governor placed the Office of Employee Relations under the Commissioner of Personnel and a Director of Employee Relations was appointed by the Commissioner to manage labor relations and collective bargaining activities.

In 1986, the legislature significantly altered the mission and purpose of the Department of Personnel and provided a year of transition for the Department to become the Bureau of Human Resources within the newly established Department of Administration. The State Personnel Board was discontinued and replaced by the State Civil Service Appeals Board, and an advisory Policy Review Board comprised of the leadership of the larger State departments was established. The Office of Employee Relations was established as a separate Bureau, and the former training division of the Office of Employee Relations was placed under the Bureau of Human Resources. In July 1991, the State Employee Health Insurance, Workers' Compensation and State Employee Health and Wellness programs were placed under the Bureau of Human Resources.

### PROGRAM:

During FY 97-98, the Merit Systems and Operations Division made significant progress in its effort to implement a comprehensive Human Resource Policy and Practices Manual that will be available and maintained on the Internet system for access by State managers, State employees and the general public. Also, Job Specifications were placed on the State Intranet with a word search capability and several human resources forms were put on-line. In addition, research was initiated to design application and examination programs that will make it easier for candidates to apply for state jobs and make the register referral process more efficient. The Equal Employment Opportunity Program continued to provide direction, support and technical assistance to State Agencies with respect to EEO issues, complaint investigations and related training and headed a special project effort to increase the diversity of the State's work force.

The State Employees' Health Insurance Program provided centralized administration of the State's health, dental, utilization review, prescription drug programs, and Internal Revenue Section 125 programs. Related responsibilities included the coordination of payroll deductions, health and dental eligibility determinations and benefits communications. The Workers' Compensation Division provided direction and technical assistance in the administration of workers' compensation claims. The Employee Assistance Program utilized the services of Affiliated Health Care Systems to guide and assist participating employees, employee family members and retirees with family, financial, substance abuse, and other personal problems. In compliance with the Federal Highway Administration rules and regulations, the alcohol and drug testing program was administered for approximately 1,300 employees in safety-sensitive positions.

The State Training and Development Division provided training and management consulting services to approximately 2,500 participants in ongoing core competency management and professional development programs and new employee orientation. Activities included the following series of Special

Events and Workshops: Ethics in Public Service, Thinking on Your Feet, Customer Surveying, Introduction to Budgeting and Advance Budgeting, The Legislative Process, Developing Public Policy, The RFP and Contracting Process, and a project management certificate program. In addition, the Division administered a statewide training needs assessment, conducted the Administrative support Symposium, attended by almost 200 administrative support staff, revamped the New Employee Orientation Program and Handbook, and organized and staffed the Governor's Employee Recognition Program.

*Average Count--All Positions:* 168.457 *Legislative Count:* 168.00

### PURPOSE:

The Bureau of Information Services was created to provide information services and telecommunications throughout Maine State Government and ensure coordination in the use of technology.

The Bureau of Information Services provides a wide range of services for state agencies, including managing the state's telecommunications network and an enterprise-wide Help Desk. The Bureau includes three divisions: Development Services, Network Services and Production Services.

## DEPARTMENT OF ADMINISTRATIVE AND FINANCIAL SERVICES

For additional and/or current information regarding the Bureau of Information Services and its numerous projects, please visit our Internet site at this address: <http://www.state.me.us/bis/bishome.htm>.

### ORGANIZATION:

Legislation enacted by the 115th Legislature during the 115th Second Regular Session established the Bureau of Information Services (BIS) (formerly Office of Information Services (OIS) established July 1, 1986) as a functional unit of the Department of Administrative and Financial Services (formerly Department of Administration, Department of Finance) effective July 1, 1992. When BIS was originally established in 1986 the 112th Legislature, Second Regular Session created an Information Services Policy Board to assist the Chief Information Officer (also Bureau Director) in meeting the purpose and mission of the Bureau.

### PROGRAM:

Development Services offers a full range of application development/mgmt. services to state agencies on a consulting basis. The Division is trained in departmental systems, Web development, database mgmt. and data warehousing. The staff makes full use of productivity and fourth generation tools and continues to support 3GL languages. Development Services includes Maine's Office of GIS. GIS coordinates activities statewide to promote the effective use of geographic information in Maine. GIS operates the state's GIS Center, develops GIS standards/guidelines, develops/maintains the State's GIS database, and makes GIS data available to the public. The past year, the Division has delivered a new system for Education which enables schools in Maine to file School Food Service Reimbursement forms via the Internet. Over the past year considerable effort has been made on Year 2000 projects. GIS continues to work with towns and cities on E911 projects.

Network Services offers enterprisewide services for data/voice communication, and desktop support services. Implementation of a high speed data backbone was completed during this fiscal year, supporting the more than 11,000 devices on the WAN (increase of almost 20% since last year). Voice communication continues to see an increase in voice services requirements with over 15,000 full service phones deployed statewide of which approximately 8,000 are voice mail boxes. The Bureau of Motor Vehicles and Maine Revenue Services are now utilizing call management services, initially installed for DOL last fiscal year. Focus continued on management of enterprise mail utilities with almost 10,000 mail boxes (an increase of almost 25% since last year). Desktop also provides services to agencies interested in outsourcing their desktop support. Network services is currently working on a service level agreement with Maine Revenue Services migrating them to a full service desktop program.

Production Services operates the state's Data Center staffed around the clock every day. The Center houses the state's 2 mainframe computers and over 70 applications and shared database servers. The Data Center provides a full range of computing services, including forms design services, print production and finishing. The forms design services and bar code readers allow state agencies to take advantage of discounts offered by the U.S. Postal Service. Systems Software support staff maintain operating systems software on all computing platforms, and consult on a regular basis with State customers to help ensure technology meets business needs. Production Services is the home of the BIS Help Desk which provides first line problem resolution and dispatches support groups to address the problems of the users of the state's computer systems and telecommunications network.

## STATE LIQUOR AND LOTTERY COMMISSION

### EBEN B. MARSH, DIRECTOR

*Central Office:* 10 - 12 WATER STREET, HALLOWELL, ME 04347

*Mail Address:* 8 STATE HOUSE STATION, AUGUSTA, ME 04333-0008

*FAX:* (207) 287-6769

*Reference: Policy Area:* 00 ; *Umbrella:* 18 *Unit:* 364 ; *Citation:* T0005 *M.R.S.A., Sect.* 000000283A

#### PURPOSE:

The Commission was established to provide satisfactory public service for the controlled distribution and sale of liquor and lottery products so that it may effectively generate additional revenues for the support of the State government.

The Commission has the following powers and duties: control and supervision of the purchase, importation, transportation and sale of alcohol; authority to buy and have in their possession wine and spirits for sale to the public; promulgate and amend rules; make recommendations and set policies; assign to the Director of the Bureau of Alcoholic Beverages and Lottery Operations, under its supervision, all powers and duties relating to all phases of the operation and to transact other business that may be properly brought before it.

#### ORGANIZATION:

The State's regulation of liquor originated in 1862 with the establishment of a Commissioner to Regulate Sale on Intoxicating Liquors to have control of liquors kept and sold for medicinal and manufacturing purposes. In 1905, a Liquor Enforcement Commission was established to enforce the law against the manufacture and sale of intoxicating liquors. Both of these agencies were abolished in 1911. A State Liquor Licensing Board was created in 1933 consisting of three members appointed by the Governor, with the advice and consent of the Council, for terms of three years, the chairman designated by the Governor. The board was renamed State Liquor Commission in legislation effective 1934 which outlined responsibilities in the State control of liquor still basic to the Commission in conjunction with the present Bureau of Alcoholic Beverages. As of 1977 the members of the Commission are appointed by the Governor, subject to confirmation by the Legislature. In 1987, the Leg. raised the membership to 5.

In November 1973, a public referendum approved a State Lottery to generate additional revenues for deposit to the State's General Fund. The first State Lottery Commission was appointed in January 1974. The State Lottery Commission was established to develop, implement and operate the Maine State Lottery so that it may effectively generate additional revenues for the support of the State government. The Commission is authorized to promulgate and amend rules

relating to State lotteries, including the lotteries; to approve or reject reports of the Director of State lotteries, and to transact other business that may be properly brought before it.

In July 1993, the Maine State Liquor and Lottery Commission were merged into a single, combined Commission of five (5) members.

### **PURPOSE:**

The Bureau of Revenue Services was established to collect revenues necessary to support Maine state government through the assessment of taxes as required by law, and to improve the administration of tax laws in Maine at both state and local levels. The Bureau, through the State Tax Assessor, is empowered to assess and collect the following state taxes: Sales & Use Taxes, Individual & Corporate Income Taxes, Motor Fuel Taxes, Estate Taxes, Business Taxes, Cigarette & Tobacco Taxes, Special Industry Taxes, and Property Taxes in the Unorganized Territory.

In addition, the Bureau administers the Household Property Tax & Rent Refund Program, Maine Homestead Exemption Program, Business Equipment Tax Reimbursement Program, exercises general supervision of local assessing officials, administers the assessment and collection of the Spruce Budworm Management Fund Tax, administers the Real Estate Transfer Tax, and determines eligibility for the Elderly Low Cost Drug Program.

### **ORGANIZATION:**

The Bureau of Revenue Services originated in 1891 with the creation of a three-member Board of State Assessors to equalize and apportion State taxes among the several towns and unorganized townships in the State and to assess all taxes upon corporate franchises. In 1931, the Board was replaced by the Bureau of Taxation within the newly-established Department of Finance, under the administrative direction of the State Tax Assessor who was appointed by the Commissioner of Finance with the approval of the Governor. In addition to the duties of the Board, the new Bureau assumed responsibility for administration of the Gasoline Tax which was transferred from the State Auditor. At the same time, a Board of Equalization was established, chaired by the State Tax Assessor, to equalize State and county taxes among the towns and unorganized territories of the State.

Duties of the Board were assigned to the State Tax Assessor when it was replaced in 1969 by the Municipal Valuation Appeals Board. The Bureau assumed administration of the Cigarette Tax in 1941, Inheritance & Estate Taxes in 1947, Sales & Use Taxes in 1951 and Individual & Corporate Income Taxes in 1969. Administration of the Elderly Householders Tax & Rent Refund Act of 1971 was assumed by the Bureau in 1972. Also in 1972, appointment of the State Tax Assessor was changed to include approval by both the Governor and the Council. Currently, the Commissioner of Administrative & Financial Services appoints the

**PURPOSE:**

The Department of Agriculture, Food and Rural Resources was established to improve Maine agriculture through: the conservation and improvements of the soil and cropland of the State; the development, compilation and dissemination of scientific and practical knowledge; the marketing and promotion of agricultural products; the detection, prevention and eradication of plant and animal diseases; the protection of the consuming public against harmful and unsanitary products and practices; and the sound development of the natural resources of the State.

The Commissioner of Agriculture and/or the appropriate boards or commissions within the Department have authority to establish and promulgate grades and standards for Maine agricultural products, and to promote the use of such products; to inspect agricultural products, and the premises and conveyors on which such products are stored, handled or processed, and issue certificates of inspection.

The Commissioner of Agriculture and/or the appropriate boards or commissions within the Department have the authority to grant licenses and permits; to collect fines and legal and usual fees; to hold hearings for the purpose of obtaining essential information; to establish, promulgate and maintain a full record of necessary regulations, provide for the enforcement of the same; to establish milk prices; to establish harness racing schedules; to register pesticides and license their use; to participate in the investigation and prosecution of cases of cruelty to animals; to administer the agricultural bargaining laws; to appoint all officials, boards, and commissions as provided by law; and to employ personnel necessary to carry out these responsibilities.

**ORGANIZATION:**

The State Board of Agriculture was created in 1852 and continued as a Board until 1901 when the Department of Agriculture was established and the position of Commissioner of Agriculture was created.

Concurrent with the Board was the establishment of the State Cattle Commission in 1887, whose duties were granted to a Livestock Sanitary Commissioner in 1911. Ten years later, all responsibility for animal disease control was vested in the Commissioner of Agriculture. The Veterinary Examiners Board (now the Board of Veterinary Medicine) was created in 1905.

The Agricultural Development Act of 1980, enacted by the 109th Legislature and effective July 1980, changed the department's name to the Department of Agriculture, Food and Rural Resources and authorized the reorganization of the department into four bureaus. In 1995, the Productivity Realization Task Force reorganized the department again. All Bureaus were eliminated and replaced by Divisions and Offices, whose directors report directly to the Commissioner. This change can be found in 1995 PL C. 502.

### PURPOSE:

The Office of Agricultural, Natural and Rural Resources (OANRR) was established by department reorganization in January 1996, pursuant to the 1995 report of the Productivity Realization Task Force. OANRR was formed to be proactive in developing and implementing programs and policies to ensure that agriculture is in harmony with people and the environment. OANRR coordinates its activities by forming partnerships with other state and federal agencies, the public and with the agricultural community. The focus of OANRR's activities is to promote adoption of agricultural practices that are economically and environmentally sound.

### ORGANIZATION:

The Office has three organizational sub-units: the Board of Pesticides Control (BPC), the Aroostook Soil and Water Management Board, and the Nutrient Management Board, which was recently formed in legislation titled, An Act

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

Regarding Nutrient Management (7 M.R.S.A., Chapter 747).

The Board of Pesticides Control is a citizen-member board which establishes policy in the areas of pesticide sales and use. Location of the Board within this Office provides administrative consolidation. In addition, it provides access to the technical expertise of the Board's staff. This strengthens OANRR's ability to assist Maine farmers in their efforts to adopt sound chemical management practices. The Nutrient Management Board will be formally appointed and functional in the fall of 1999. The Board will assist the Office in implementing the Nutrient Management Act and by advising the Commissioner on policies and program development relating to nutrient use in agriculture. The Aroostook Soil and Water Management Board coordinates all irrigation activities in Aroostook County, dealing with issues involving irrigation and competing uses for water such as wildlife and recreation.

OANRR staff consists of the staff of the Board of Pesticides Control (10 full-time and 4 seasonal employees) and the following specialist positions: Soil Scientist, Natural Resource Specialist, Entomologist, Agricultural Compliance Officer and Secretary. Two new positions, the Nutrient Management Coordinator and a second Agricultural Compliance Officer, will be hired by the fall of 1999. This team is led by an Agronomist. The broad spectrum of expertise and experience of these employees provides the foundation for the programs listed below and under the separate section in this report for the Board of Pesticides Control. The Office practices a proactive approach to handling environmental concerns associated with Maine agriculture.

### **PROGRAM:**

Programs are designed to ensure agriculture is in harmony with people and the environment. The Compliance Officer responds to nuisance and contamination complaints, resolving problems with a team approach involving OANRR staff and outside expertise to design site specific Best Management Practices for adoption by farmers. The Board of Pesticides Control's regulatory programs assist farmers in their effort to adopt sound chemical practices. The Soil Scientist assesses soil suitability for disposal of potato cull piles and livestock mortalities, addresses the soils components of manure management plans and water contamination issues, and a variety of other activities. The Natural Resources Specialist is involved with composting as a waste management tool, works on demonstration projects and does outreach work with farmers and compost producers. The Director provides leadership and coordination of these diverse activities.

In FY99, the Office began implementation of the newly enacted Nutrient Management Law. One of the major tasks was the development of rules necessary to implement the law. The effort required contributions from the entire staff as well as assistance from staff members of the Natural Resources Conservation Service and the University of Maine Cooperative Extension. The law also required the development of a certification and training program and a process for permitting livestock operations.

Two new positions were approved to implement the Nutrient Management Act, namely a Nutrient Management Coordinator to coordinate the program and a second Agricultural Compliance Officer to assist in responding to complaints involving agriculture and to assist in inspecting farms requiring a Livestock Operation Permit. The Nutrient Management Coordinator will be responsible for implementing and operating the nutrient management program.

#### PURPOSE:

The Maine Agricultural Marketing and Bargaining Act authorizes producers of agricultural products to form organizations for the purposes of bargaining with handlers of those products with respect to price and other terms and conditions of their sale. The Act provides for the certification of those producer organizations which meet the statutory criteria for qualification and requires qualified associations and handlers to bargain in good faith. When an association and a handler cannot reach agreement, the statute provides for binding final offer arbitration.

#### ORGANIZATION:

The Agricultural Marketing and Bargaining Act was first enacted in 1973 by the 106th Legislature. The Act established the Agricultural Bargaining Board, made up of five members appointed by the Governor. One member represents the interests of producers, one member represents the interests of handlers, and three public members. Subsequent changes to the Act authorize an alternate to represent both the producer and handler interests.

#### PROGRAM:

From the enactment of the statute in 1973 until 1984, only one organization was certified, representing producers of potatoes used for processing. In 1984, the Board certified an organization representing producers of poultry. In 1988, the last remaining poultry handler closed its facilities in Maine leaving only the one organization representing the producers of potatoes and peas.

Amendments in 1987, 1989 and 1991 established binding final-offer arbitration as the final step in the dispute resolution process, established criteria for the arbitrator's decision, made procedural clarifications to the contract bargaining, mediation and arbitration provisions, and removed specific standards applicable only to associations of blueberry producers.

#### LICENSES:

Certification of qualified associations.

**PURPOSE:**

The goal of the Division of Animal Health and Industry is to prevent the introduction and spread of contagious diseases among poultry and livestock, promote public health and food safety as it relates to zoonotic disease, to maintain fair practices in the buying and selling of poultry and livestock and to investigate cases involving the welfare of animals, race horses and animals used in pulling events. The Division is also responsible for the Dairy Inspection Program and for veterinary activities associated with harness racing. The Animal Welfare Advisory Committee resides within this Division as well.

**ORGANIZATION:**

Professional staff is comprised of one Chemist, three Lab Technicians, three Dairy Inspectors, 2 full-time and 8 part-time Humane Agents, one Veterinarian, two Senior Veterinarians and the Division Director. Clerical/administrative support is comprised of three clerk typists. N.P.I.P. Pullorum-Typhoid Testers and Salmonella enteritidis sample collectors have been recruited, trained and certified by the Division to assist with programs and to promote animal husbandry programs.

**PROGRAM:**

The Division's objective is disease control through regulation and education. It provides technical assistance and enforces laws to control livestock and poultry diseases. Enforcement of permit regulations, prompt diagnosis of disease, surveillance testing programs, a reportable disease list, the supervision of accredited veterinarians, licensed livestock and poultry dealers and auction sales are key activities. Specific diseases (Rabies, Bovine Leucosis, Bluetongue, Anaplasmosis, Salmonella enteritidis, Pseudorabies and Trichinosis) are targeted and laboratory diagnostic tests and management strategies are recommended. Egg type breeding flocks of Maine poultry remain free of Avian Influenza, Pullorum/Typhoid, M. gallisepticum and are United States S. enteritidis monitored. The health of pet animals and birds entering the State for resale is regulated.

The Division assists dairymen in upgrading production techniques and the quality of milk. They conduct farm and dairy plant inspections in compliance with the Interstate Milk Shippers Program (IMS). The Division tests and analyzes dairy products, tests milk producers' water samples and certifies commercial and industry milk laboratories involved in the IMS Program. The State/Federal Diagnostic Laboratory serves the public by conducting blood tests in order for animals to move interstate and internationally. The Division is dedicated to providing the professional and technical assistance required to assist producers in meeting this demand. Division veterinarians and District Humane Agents oversee the enforcement of animal cruelty laws. The Division manages the State's dog licensing program in conjunction with Maine municipalities.

## AROOSTOOK WATER AND SOIL MANAGEMENT BOARD

### RAY HARRIS, CHAIRMAN

*Central Office:* AMHI - DEERING BLDG, AUGUSTA, ME 04333-0028

*Mail Address:* 28 STATE HOUSE STATION, AUGUSTA, ME 04333-0028      *FAX:* (207) 287-7548

*Established:* 1987

*Telephone:* (207) 287-7618

*Reference:* Policy Area: 01 ; Umbrella: 01; Unit: 328 ; Citation: T0007 M.R.S.A., Sect. 000000332

### PURPOSE:

To deal with issues and develop programs involving irrigation and competing uses for water in Aroostook County.

### ORGANIZATION:

The Board is comprised of the following members: Chairman of the Maine Potato Board; one person designated by the Maine Potato Board who is a farmer with irrigation experience; one farmer from each of the three Aroostook County Soil and Water Conservation Districts, selected by the boards of supervisors of the three districts; Director of the Maine Agricultural Experiment Station; Director of the University of Maine Cooperative Extension Service; State Conservationist of the U.S. Department of Agriculture Soil Conservation Service; Director of the Maine Geological Survey; Director of the Northern Maine Regional Planning Commission; and the Maine Commissioner of Agriculture.

### PROGRAM:

A Research Program was started in 1992 to evaluate the effects of irrigation on potato yield and quality, utilize the best conservation practices for building soil structure, and demonstrate these practices to participating farmers. In addition, a demonstration program was established to show farmers how to set up irrigation and use best management practices. The Board is also responsible to review and expand existing knowledge of water needs, water supply, and a review of regulatory concerns. The Board has entered into a cooperative agreement with the U.S. Geological Service to monitor streams as potential water supplies, and with the Central Aroostook Soil and Water Conservation District to survey grower's needs for irrigation.

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

The Board was given responsibility in 1993 to address nuisance complaints regarding noise levels of irrigation pumps, as well as review state and federal environmental regulations regarding pond developments. The Board started an analysis of Noise Issues related to pumps and contracted with an acoustics engineering firm to evaluate potential human impacts of noise. In addition the Board began work with DEP to evaluate water resource use and pond development in Aroostook County. The Board was instrumental in receiving third year funding of \$252,000 from the Army Corps of Engineers for fiscal year 1994. The Board completed the study in 1996 and submitted its final report. In 1999, the legislature reestablished the Board.

## STATE HARNESS RACING COMMISSION

### HENRY JACKSON, EXECUTIVE DIRECTOR

*Central Office:* AMHE--DEERING BUILDING, AUGUSTA, ME 04333-0028

*Mail Address:* 28 STATE HOUSE STATION, AUGUSTA, ME 04333-0028 *FAX:* (207) 287-7548

*Established:* 1935

*Telephone:* (207) 287-3221

*Reference:* Policy Area: 01 ; Umbrella: 01 ; Unit: 017 ; Citation: T0008 *M.R.S.A., Sect.* 000000261

*Average Count--All Positions:* 7.826

*Legislative Count:* 6.00

### **PURPOSE:**

The State Harness Racing Commission was established to maintain honesty and integrity in pari-mutuel harness racing in the State of Maine and to insure that pari-mutuel racing is conducted in the best interest of horsemen, associations and the general public. The primary responsibilities of the Commission are to make rules and regulations for holding, conducting and operating all harness horse races or meets for public exhibition in the State and for the operation of race tracks on which any such race or meet is held; to assign dates for holding harness horse races or meets for public exhibition with pari-mutuel pools as will best serve the interests of the agricultural associations of Maine; to license Off-Track Betting facilities in Maine; and to oversee the enforcement of the Commission's Rules and Regulations and the Statutes governing horse racing in Maine.

The Commission grants track licenses to operate day or night harness racing; licenses off-track betting facilities to operate and accept pari-mutuel wagers; licenses or registers participants in harness horse racing, pari-mutuel employees and race officials, upon application, and charges a fee for such license not to exceed \$100; regulates, supervises and checks the making of pari-mutuel pools and the distribution therefrom; establishes a schedule of fines not to exceed \$1,000 and adopts a schedule of suspensions which may include lifetime suspensions from participating in the sport; and encourages and promotes the breeding of a strain of Maine standardbred horse.

### **ORGANIZATION:**

The State Harness Racing Commission was established in 1935 as the State Racing Commission. It received its present name in 1951, and in 1973 was placed within the Department of Agriculture. During 1988, the Legislature expanded responsibility for activities related to breeding farms involved in breeding Standardbred trotters and pacers in Maine; and to coordinate activities of mutual interest to the Department of Agriculture, Food and Rural Resources and the various agricultural fairs.

The Commission consists of five members appointed by the Governor. One member must be a member of the general public with no industry affiliation. One member must be affiliated with an agricultural society that conducts an annual agricultural fair. The remaining three members must be persons with a knowledge of harness racing. The members must be appointed to provide a broad geographic representation. Members of the Commission serve three year terms. A vacancy is filled by appointment for the remainder of the unexpired term. Members whose

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

terms expire serve until their successor is qualified and appointed. The Governor shall appoint one of the five commission members who has no industry affiliation as Chair. The Commissioner of Agriculture or his designee serves ex officio as secretary to the Commission, but is not a voting member.

Pursuant to 1991 PL Ch. 579, the Commission's authority was expanded to include jurisdiction over off-track betting facilities. Pursuant to 1997 PL Ch. 527, an Executive Director's position was created to provide administrative management for the Commission's daily activities. Pursuant to 1997 PL Ch. 528, the Department of Agriculture shall have the administrative responsibilities of the Commission budget and the hiring and contracting for services on behalf of the Commission. The Commission shall have the responsibilities of rule-making, enforcement and adjudicatory hearings. Furthermore, pursuant to Ch. 579, the Commission has the authority to contract for judges of harness racing meets. The law requires that the Commission's budget be submitted unchanged to the Committee having jurisdiction over Agriculture. Pursuant to 1997 P.L. Ch. 406, the Commission may impose conditions of a license if one or more of the criteria are not met at time of licensing.

### **PROGRAM:**

Major emphasis has been directed toward overall improvement of the sport and promotion of a breed of Maine Standardbred horses. The Commission feels improvement of the breed, and a desire of persons in other areas to breed to Maine studs, will guarantee future State incomes from this source and a healthy expanding industry, and will encourage involvement of youth in horse ownership, breeding and care.

Drug testing programs are used on a continuing basis in an effort to eliminate as nearly as possible drug use on race horses and by humans within the State. The Maine Standardbred Sire Stakes Program received its original funding by the 108th Legislature. It was increased by the 113th Legislature.

The Agricultural Fair Promotional Coordination will include Department sponsored educational efforts at various fairs and supplementing capabilities of each fair by proper exposure and utilization of Department of Agriculture resources, funds and personnel.

## (OFFICE OF) STATE HORTICULTURIST

### E. ANN GIBBS, STATE HORTICULTURIST

*Central Office:* AMHI DEERING BUILDING, AUGUSTA, ME 04333-0028

*Mail Address:* 28 STATE HOUSE STATION, AUGUSTA, ME 04333-0028 *FAX:* (207) 287-7548

*Established:* 1910

*Telephone:* (207) 287-3891

*Reference:* Policy Area: 01 ; Umbrella: 01 ; Unit: 010 ; Citation: T0007 M.R.S.A., Sect. 000002201

#### **PURPOSE:**

The State Horticulturist has responsibility for implementation of plant, insect and disease laws and quarantines, and the certification of plant materials involved in interstate and international movement.

#### **ORGANIZATION:**

A State Horticulturist was authorized in 1907 as State Entomologist under a Bureau of Entomology. These designations were changed to State Horticulturist and Bureau of Horticulture in 1911 (the State Entomologist was reestablished independently in 1929). The State Horticulturist later was placed under the Division of Plant Industry and is responsible to the Director of that Division. The Bureau of Horticulture as an organizational unit was abolished in 1972.

Professional staff in this office includes the State Horticulturist and two Assistant Horticulturists, under the direct supervision of the Director of the Division of Plant Industry.

#### **PROGRAM:**

Nursery, greenhouse and plant dealer inspections, licensing of all plant sales outlets, and providing assistance to industry and the general public on horticultural issues are major responsibilities of the office. Under the 1980 reorganization of the Department, the horticulture staff was authorized to carry out development and extension activities.

Over 1,800 inspections were made at nurseries, greenhouses and plant dealers in 1998. A variety of different diseases and insect pests were identified. In 1998, 1,289 lots of plant material were inspected and certified using phytosanitary certificates to assist growers in marketing products to other states in the U.S. and foreign countries. The majority of these certificates were issued for seed potatoes and feed barley exported to Canada.

Additionally, Division personnel are often called upon to work on educational programs, judge at fairs, attend executive meetings of commodity associations and answer many calls from the general public about plant culture. Nearly 100 growers were licensed or requested inspections under the ginseng

*Legislative Count:* 6.00

### **PURPOSE:**

The Division of Market and Production Development administers programs to enhance the competitive position of Maine growers statewide, regionally, nationally, and internationally by developing new crop and livestock enterprises and new and expanded markets for Maine agricultural products. Supporting the development of new crop and livestock diversification and new market opportunities is critical to the long-term sustainability of Maine agriculture.

The Division helps to promote the sale of Maine products domestically and internationally and to increase awareness of quality Maine products in the marketplace. The Division maintains data on producers and product availability, and using this information, publishes, promotes and distributes brochures, source lists, and directories to wholesale and retail buyers.

The Division provides technical expertise and support to improve production and genetic diversity in crops and livestock enterprises. Services include planning assistance, issues assessment, policy formulation and representation in such areas as financing, animal damage control, irrigation, labor hiring and protection, environmental regulations and other related concerns. The Division evaluates issues and reviews legislation affecting agricultural production, marketing, and economic development and represents agricultural interests in policy formulation and strategic planning. Technical expertise is provided in facilitating strategic planning for agriculture and food businesses and product associations through product associations and industry boards, including Agriculture Council of Maine and Maine Natural Resources Marketing Group, cross-commodity boards representing Maine food and agricultural businesses.

### **ORGANIZATION:**

The Division of Production Development was established in 1985, pursuant to C.501, as part of the reorganization of the Bureau of Agricultural Production. The Division of Market Development was established in 1980 as part of the Bureau of Agricultural Marketing, to expand and improve the domestic and foreign marketing of Maine agriculture and food products. The Divisions of Production Development and Market Development have been combined then again separated over the past several years. Effective January 1, 1996, the Division of Market Development was merged with the Division of Production Development to form the Division of Market and Production Development. This action was a result of the Productivity Realization Task Force legislation enacted as 1995 PL C. 502.

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

The Market and Production Development Division Director supervises professional staff comprised of two Project Development Officers - one in Production Development and one in Market Development; one Production Specialist; one Marketing Specialist; and one secretary.

### PROGRAM:

Market Development provides marketing support to Maine farmers, food processors, and agricultural associations and promotes Maine food and agricultural products directly to consumers, wholesale and retail buyers. Programs are implemented to increase public awareness and interest in Maine products by providing information to the media on seasonal agricultural activities (farmers markets, Christmas trees, apple picking); by coordinating special marketing and promotional events (Maine Maple Sunday); and by promoting Maine products and businesses at local, national and international trade shows. The Division organizes cooperative marketing to enhance Maine's position in the national market, provides information and technical support to Maine businesses to take advantage of export assistance programs and to use funds available through the Foreign Agriculture Service of USDA.

Production Development develops and maintains programs to create and improve crop and livestock production and genetic diversity in Maine, by seeking out and advising growers on opportunities for new crops and livestock practices, management systems, and production facilities which will enhance Maine's competitive position and support critical long-term sustainability of Maine agriculture. Work includes cooperative development with the University of Maine, growers and associations, and with national and international experts, processors and partners. Staff research critical issues affecting industry development and represent agriculture in policy making and in the legislative process. Staff identify new technology for transfer to Maine and conduct special research projects focused on production development.

The Division develops programs in conjunction with commodity associations and businesses and writes grants to bring federal development funds into the state, to take advantage of opportunities to increase profitability. The Division has taken a lead role in coordinating the activities of Maine's agriculture and natural resource groups, through the development of cross-agency/cross-commodity state-wide boards. Finally, the Division provides staff support and technical assistance to agriculture and food marketing associations.

### LICENSES:

The Division of Market and Production Development licenses use of the copyrighted "Maine Produces" symbol to identify fresh or processed agricultural products of the State of Maine and the "Maine Quality Trademark", in conjunction with the Division of Quality Assurance and Regulations.

*Average Count--All Positions:* 2.500

*Legislative Count:* 2.50

#### **PURPOSE:**

The Maine Milk Commission was established to exercise economic control over the purchasing, distribution and sale of milk within the State, while taking into consideration the public health and welfare and ensuring an adequate supply of milk. It has the power to conduct hearings, subpoena and examine under oath dealers, along with their records, books and accounts, and any other person from whom information may be desired. The Commission may have access to all books and records relating to milk for the purpose of ascertaining facts to enable it to administer the law. It may act as mediator or arbitrator to settle any controversy or issue among producers, dealers and consumers, any of whom may petition the Commission to change prices or conditions in any market area.

#### **ORGANIZATION:**

The Maine Milk Control Law was enacted by the 87th Legislature in 1935. Under the law, a Maine Milk Control Board was created to exercise general economic supervision over the industry. The Board initially was comprised of one milk dealer, one producer-dealer, two producers and the Commissioner of Agriculture. In 1951, a consumer was added to the membership and the agency's name was changed to the Maine Milk Commission.

Effective October 2, 1975, the law was amended requiring the Commission to be comprised of 4 consumer members and the Commissioner of Agriculture, ex officio. None of the 4 members of the Commission shall at the time of appointment or while serving as a member of the Commission, and no employee of the Commission, shall have any official business or professional connection with any person or firm whose activities are subject to the jurisdiction of the Commission.

The Commission holds regular meetings on the third Thursday of each calendar month and special meetings may be called by the chairman whenever requested in writing by 2 or more members. The Commission is financed by a fee assessment on milk produced by industry members and it receives no State tax monies. It was incorporated into the Department of Agriculture as an agency as a result of the State Government reorganization legislation of 1973.

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

### PROGRAM:

In accordance with its statute, as interpreted by the State Supreme Court in two decisions, the Commission establishes a uniform system of accounts for reporting and allocating costs of processing, packaging and distributing milk within the State of Maine. Recent studies have been conducted to determine the cost of handling milk in retail food stores. The retail study information is used to establish minimum retail prices for milk sold in various containers in order to avoid the occurrence of anti-competitive practices. The information gained from the cost of operating the most efficient processing plant is used to establish dealer margins, so that Maine dairies are ensured of receiving a fair price for the milk they produce.

The Commission does not establish prices but merely sets minimum prices based on the lowest achievable cost at which milk purchased from Maine producers can be received, processed, packaged and distributed within the State at a just and reasonable return, while ensuring an adequate supply of pure and wholesome milk to Maine consumers.

The Commission also administers the Maine Milk Pool, which balances prices paid to producers whether they ship milk to the "Boston market" or the "Maine market."

**PURPOSE:**

The Board of Pesticides Control was established to protect the public health and safety and the public interest in the soils, water, forests, wildlife, agricultural and other resources of the State by assuring safe, scientific and proper use of chemical pesticides. The primary responsibilities of the Board are to register all pesticide products to be sold and used in Maine; to examine and license all persons involved in commercial application of pesticides and all dealers and private growers involved in the sale or application of restricted use pesticides; to promulgate regulations regarding pesticide use; to issue permits for limited use pesticides; to investigate use of pest control chemicals; to prosecute violations or initiate license suspension actions; and to cooperate with other agencies in environmental monitoring and protection.

**ORGANIZATION:**

The Board of Pesticides Control was established in 1965, funded in 1969, staffed with a supervisor and secretary in 1970, and in 1973 placed within the Department of Agriculture. In 1981, the Legislature transferred to the Board all the authority of the Commission of Agriculture to register pesticides. The original Board was composed of the commissioners of eight state agencies, but in 1980, the Legislature reconstituted the Board to comprise seven public members appointed by the Governor for a four year term. Qualifications for three of the members are prescribed by statute to include persons knowledgeable about pesticide use in agriculture, forestry and commercial application, while one person must have a medical background and another be an agronomist or entomologist at the University of Maine. The remaining two public members must have a demonstrated interest in environmental protection and represent different geographic areas of the state.

The Board annually elects a chairman from its membership and employs personnel as necessary. Current professional staff include a Director, Chief of Compliance, Certification and Licensing Specialist, Toxicologist, Pesticides Registrar, Public Information Officer, Pesticides Planner, and one full-time and four seasonal Pesticide Inspectors. Overall supervision of the staff is provided by the Director.

**PROGRAM:**

The Board operates four major programs that include product registration, certification and licensing, monitoring and enforcement and public education. The Board maintains a label and material safety data sheet for each pesticide product, and health and environmental study data is reviewed on an "as needed" basis. In 1998, the Board registered 6,895 products which represents a 0.82% decrease over 1997. The accompanying fees were deposited in the Pesticide Control Fund to cover normal operating costs of the Board and the Department's Integrated Pest Management Program. In addition, the Legislature raised the product registration fee in 1993 to support three Horticulture positions in the Division of Plant Industry.

All licensing fees are also deposited in the dedicated account to help support the certification and licensing program to assure proper handling of pesticides and prevent human or environmental harm. In 1998, there were 1,749 private applicators licensed for a three year period; and 1,293 commercial applicators, 66 restricted and 719 general use pesticide dealers licensed on an annual basis. The Board monitors the sale and application of pesticides and investigates complaints of misuse. This includes inspection of personal protection and application equipment, storage and mixing areas, actual applications and records. Violations of the Board's statutes and regulations are subject to enforcement action, which could include suspension or revocation of license and imposition of fines.

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

The Board's other major program is public education because the members feel it is the most efficient and effective means to minimize both problems and concerns with pesticide use in the state. Information is disseminated through a quarterly newsletter, press releases, brochures, appearances at trade shows and speaking engagements to students and civic organizations. As a result of legislation enacted in 1997, the Board continues to educate all users on methods to minimize reliance on pesticides.

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

### PURPOSE:

The Division of Plant Industry was established to protect the public from hazards associated with the sale, transport or production of weak, diseased or insect infested commercial plant stock, fruits or seed; and to encourage the keeping of bees. Its primary responsibilities are to enforce the statutes relating to the certification of seed potatoes; to ensure an adequate supply of foundation seed potatoes for the state's commercial seed potato producers; to inspect nurseries and greenhouses; and to license beekeepers and inspect their hives.

The Division enforces regulations dealing with the quarantine, seizure, disinfection, destruction or other disposition of diseased or insect infested plant material or bees. Professional roguing services assist seed potato producers to improve the quality of their product.

The Division also conducts the winter potato disease testing program on a farm owned by the State of Maine in Homestead, Florida. This program assesses the disease content of samples of Maine seed potatoes to ensure that they meet tolerances established by State rule.

### ORGANIZATION:

The Division of Plant Industry was established in 1919. In the early years, the Division was primarily involved in insect control having to do with the corn borer, gypsy moth, browntail moth, Japanese beetle, and greenhead fly. As these functions were assumed by others, the emphasis of the Division shifted to work with commercial seed potato growers, nursery operators, florists, beekeepers, and small fruit and vegetable growers.

Prior to the establishment of the Division of Plant Industry, a State Horticulturist was authorized in 1907 as State Entomologist under a Bureau of Entomology. These designations were changed to State Horticulturist and Bureau of Horticulture in 1911. The State Horticulturist later was placed within the Division of Plant Industry. The Bureau of Horticulture as an organizational unit was abolished in 1972. In 1981 an Entomologist III was added to the Department with the assignment of working on Integrated Pest Management (IPM) of small fruits and vegetables. As a result of changes made through the Productivity Realization Task Force legislation enacted as P.L. C. 502, the Entomologist III was transferred to the new Office of Agricultural, Natural and Rural Resources.

The Division's current professional staff is comprised of a state apiarist, a state horticulturist and two assistants, seven seed potato specialists (one specialist also serves as a grain inspector), a supervisor to the specialists, a certified seed lab director and the manager of the Porter Nuclear Seed Production Facility. The two assistant state horticulturists were transferred to the direct supervision of the division director through the Productivity Realization Task Force legislation.

### PROGRAM:

A major activity of this Division is the certification of seed potatoes, a self-supporting service paid through fees charged to seed potato producers. The Maine Seed Potato Certification Program inspected approximately 17,500 acres of potatoes in 1998, roughly 20% less than 1997. Of this total, 17,230 acres were certified by 191 seed growers. The certification staff also inspected and certified approximately 1155 acres of grain. Barley comprised the majority of this acreage, replacing oats as the major grain certified for replanting by the Division. Because of the severity of the late blight disease to Maine producers, the Division screened 135 seed potato lots for this disease. No late blight was observed in the samples submitted for screening.

The State Apiarist licensed 417 beekeepers who registered 8,016 colonies in the state. Approximately 2,120 colonies were inspected for regulated diseases and mites. Additionally, approximately 50,000 hives of commercial beekeepers (local and out-of-state) hired by blueberry growers for pollination were surveyed for disease and mites. This represents an increase of 11% in the use of bees for crop pollination, placing an increasing demand on the Division's apiary program.

The State Horticulturist is administratively located in the Division of Plant Industry. The purpose of the Horticultural Unit is to implement plant, insect and disease laws and quarantines, and the certification of plant materials involved in interstate and international movement. The activities and

accomplishments of the Horticultural Unit are reported in the (Office of) State Horticulturist report.

Legislative Count: 8.50

### PURPOSE:

The Office of Planning, Policy, Legislation and Information Services works closely with the Commissioner and others on policy matters that affect agriculture or Department operations. It coordinates departmental development of legislation and tracks and responds to legislative proposals. It manages the department's budget and fiscal programs. It collects, analyzes and publishes comprehensive information regarding the status of Maine agricultural industries.

It organizes and coordinates agricultural education and promotion events.

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

The Office provides staff support to the Maine Milk Commission. It coordinates distribution of surplus food commodities to food pantries and soup kitchens. The Office designs, develops and maintains the Department's computer and information systems.

### ORGANIZATION:

The Office of Planning, Policy, Legislation and Information Services was established in 1996 and is comprised of one administrative unit. The director of the Office has lead responsibility for the department's legislative program, oversees all other functions of the Office, and supervises the professional and clerical staff.

Financial functions and coordination with the ACE Service Center are managed by a Departmental Finance and Legislation Specialist and an Accountant II. Information services are provided by a Senior Planner. Educational and promotional events are organized and coordinated by a Planning and Research Associate I. The Maine Milk Commission is staffed by an Executive Director, a Planning and Research Assistant and the Office's Senior Planner.

The surplus food program is managed by a Planning and Research Associate II. The computer and information services support is provided by a Departmental Information Systems Manager.

### PROGRAM:

In addition to the Office's functions mentioned above, it manages various programs. The Office is responsible for coordinating special events such as the Maine Agricultural Trades Show, Agriculture Day at the Legislature, Open Farm Day, and operating and maintaining the Maine Building at the New England Eastern States Exposition (aka the Big E). The Office manages the TEFAP (Temporary Emergency Food Assistance Program), which acquires, stores and distributes federal surplus food to Maine's food pantries and soup kitchens. In addition, the program occasionally purchases food from Maine producers for distribution.

Staff support to the Maine Milk Commission enables the monthly setting of producer milk prices and the periodic adjustment of dairy and retail store minimum milk prices. Commission staff also provide administrative support for the operation of the Maine milk pool, which distributes funds, through dairies, back to producers in a way that reduces the difference in price received by producers shipping to either the Maine or Boston market.

**PURPOSE:**

The Maine Seed Potato Board was established to foster and improve the seed potato industry of the State of Maine. Its primary responsibilities are to produce, or cause to be produced, through contract or otherwise, sufficient acreages of foundation seed potatoes of various varieties for distribution and sale to Maine potato growers; to work with and through the Agricultural Experiment Station of the University of Maine in conducting a program of foundation seed potatoes annually; to purchase, own, sell or convey farm real estate and farm equipment as necessary for the purpose of producing seed potatoes; and to make rules and regulations pertaining to its program of production, distribution and sales of seed potatoes. Proceeds from the sale of seed potatoes are credited to the operating account of the Board.

**ORGANIZATION:**

The Seed Potato Board was organized in April, 1945. It consisted of six members appointed by the Governor from specified areas for terms of three years, and the Commissioner of Agriculture served as chairman. A number of changes in the Board's structure have occurred since then. The Commissioner now is the appointing authority and the Board elects its chair. Membership has been expanded to eight, one of whom must be primarily a tablestock producer and one primarily a processing producer. Additionally, one member must reside outside of Aroostook County. The Board is authorized to employ a secretary, who need not be a member. Traditionally, the Director of the Division of Plant Industry serves as Secretary to the Board.

**PROGRAM:**

The quality and disease content of the Board's seed potato crop in 1998 was excellent. Due to good growing conditions in 1998, the yields at the Porter Seed Farm were very good. The Board was able to again reduce the price of its seed to the Maine seed producers. Approximately 7,500 hundredweight of the 1998 crop was sold to Maine producers.

Nearly 2,000 samples were grown at the Board's Florida farm to evaluate the disease content of seed potatoes produced by Maine farmers. The results of this winter evaluation indicated that 84 percent of the samples had a total virus disease content of less than 0.5 percent and 99 percent had a total virus disease content of less than 5.0 percent. These figures represent a reduction in the overall disease level of seed produced by Maine seed potato growers compared to FY98.

The Board undertook a long-range planning process to evaluate its role in Maine's changing potato industry in 1998. A Long Range Planning Committee surveyed Maine producers about the policies and procedures of the Porter Farm, held a focus group meeting with Seed Board customers, and reviewed financial information relating to the Board's programs. The Board is continuing to evaluate its role and funding sources, and plans to hold a customer service meeting this year to ensure it is meeting the needs of Maine's seed potato industry.

## MAINE POTATO MARKETING COMMITTEE

### STEVEN BUCK, CHAIRMAN

*Central Office:* AMHI--DEERING BUILDING, AUGUSTA, ME 04333-0028

*Mail Address:* 28 STATE HOUSE STATION, AUGUSTA, ME 04333-0028 *FAX:* (207) 287-5576

*Established:* 1953

*Telephone:* (207) 287-3871

*Reference:* Policy Area: 01 ; Umbrella: 01 ; Unit: 013 ; Citation: T0007 M.R.S.A., Sect. 000000995

#### PURPOSE:

The Maine Potato Marketing Committee's purpose is to correlate marketing, to provide for uniform grading, to develop new markets, to establish orderly marketing procedures and to eliminate or reduce economic waste in the marketing of potatoes, upon the issuance of a marketing order. Such order is effective only upon approval of two-thirds of Maine's potato producers participating in a referendum for that purpose.

#### ORGANIZATION:

The Committee consists of 8 members, of whom 5 are producers and 3 are handlers. For each member of the Committee there must be an alternate who has the same qualifications as the member. Persons selected as Committee members or alternates to represent producers are individuals who are producers in the respective district for which selected, or officers or employees of a corporate producer in the district and such persons shall be residents of the respective district for which selected. Persons selected as Committee members or alternates to represent handlers are individuals who are handlers in the State or officers or employees of a corporate handler in the State and such persons must be residents of the State.

#### PROGRAM:

The Maine Potato Marketing Committee was constituted for the first time since authorization by the establishment of a Maine Russet Potato Marketing Order in August 1979. The Committee's responsibility is limited to the marketing of russet varieties of Maine potatoes.

**PURPOSE:**

The Potato Marketing Committee's purpose is to help stimulate the improvement of the potato industry, to advise the Commissioner on the development and implementation of improved potato marketing systems, particularly storage and central packing facilities, and to advise the Commissioner concerning funding and expenditures of the Potato Market Improvement Fund.

**ORGANIZATION:**

The committee consists of 10 members appointed by the Commissioner, of whom one member represents the University of Maine; one member representing the Farmers Home Administration; one member representing the Farm Credit System; one member represents the Department of Economic and Community Development; and one member represents the public. Each executive council established pursuant to Title 36, Section 4603, Subsection 3, shall appoint one person to serve as a member of the committee.

**PROGRAM:**

The Committee's principal responsibility is to advise the Commissioner of Agriculture on the disposition of loan funds made available through the sale of State revenue bonds. Pursuant to the Committee's advice, the Commissioner adopted rules outlining the criteria for loans in four separate areas: sprout inhibition, storage retrofits, facility expansions, and new facility construction.

**PURPOSE:**

The Pull Events Commission develops rules for the certification of pull superintendents, coordinates, develops and conducts pulling superintendent training seminars, and takes action in the event of a violation of pull laws and rules.

**ORGANIZATION:**

The eleven member Pull Events Commission is comprised of representatives from a statewide association representing owners of draft horses, oxen and ponies, the Agricultural Fair Coordinator, the Maine Association of Agricultural Fairs, representatives from Maine humane organizations, a member of the general public, an individual representing the animal pulling industry, and the Commissioner of the Maine Department of Agriculture.

**PROGRAM:**

The Commission determines the qualifications for certification of pull superintendents, conducts superintendent training seminars, and conducts hearings.

### **PURPOSE:**

The mission of the Division of Quality Assurance and Regulations is to provide marketing assistance and consumer protection programs for Maine's agriculture, industry and citizens. The Division ensures that a safe, high quality and adequate food supply is maintained, that weighing and measuring devices used in commerce are correct, and that Standards used in law enforcement are accurate. The Division's mission is accomplished through effective surveillance, regulatory and inspection programs. The Division also develops programs based on HACCP and ISO Standards to facilitate local, national, and international commerce. The duties of the Sealer of Weights and Measures are carried out by this Division.

The Division responds to consumer complaints on food items, analyzes all suspicious products, and investigates the tampering of food products.

The Division also provides promotional marketing and educational programs to publicize, advertise and promote Maine's products and resources. Maine's quality products are promoted by the use of the Quality Trademark and by participation in trade shows, the Eastern States Exhibition and other commodity promotions. The Division also protects and promotes the general welfare of produce industries by enforcing fair and equitable practices in the handling, sale and purchasing of produce.

### **ORGANIZATION:**

The Division of Quality Assurance and Regulations was created in 1995 as a result of the Productivity Realization Task Force. The former Divisions of Quality Assurance and Regulations established in 1917 and 1919, respectively, were merged into one division because of similar missions. The Division provides voluntary quality control services for Maine's agricultural industries on a fee basis and provides diverse consumer protection activities ranging from inspection of retail food stores to ensuring the accuracy of weighing and measuring devices used in commerce. The internal organization is comprised of a Division Director, a Quality Assurance Program Manager, an Inspection Program Manager, a Produce Inspection Supervisor, five Inspection Process Analysts, a Metrologist and full-time and seasonal staff consisting of Consumer Protection, Produce and Poultry and Shell Egg Processing Inspectors.

The Office of State Sealer of Weights and Measures was first authorized in 1839 and the Commissioner of Agriculture was named to serve as the State Sealer ex-officio. The Inspection Program Manager serves as Deputy State Sealer within the Division. Administratively, the Deputy State Sealer of Weights and Measures is responsible to the Director of the Division of Quality Assurance and Regulations.

The Harness Racing Commission and the Potato Marketing Committee also report to the Division of Quality Assurance and Regulations.

### **PROGRAM:**

Quality Assurance Inspection provides the agricultural industries an unbiased, nationally recognized and uniform grading service for agricultural products. This uniform grading is a key component in accessing local, national

## DEPARTMENT OF AGRICULTURE, FOOD AND RURAL RESOURCES

and international markets. The Division operates fruit and vegetable and shell egg inspection programs under cooperative agreements with USDA. Marketing opportunities for Maine companies and producers are enhanced by ensuring that agricultural commodities produced in Maine meet or exceed minimum quality standards. This assurance results in increased consumer confidence, fostering an increase in business and profitability. Under rules recently adopted by the Department, all consumer size packages of potatoes must receive mandatory inspection prior to shipment.

The Consumer Food Inspection program performs a wide variety of activities, ranging from inspecting food salvage operations to ice manufacturers. The primary focus of the program is to protect the consuming public by performing inspection and licensing activities ensuring that foods are packaged, processed, prepared and stored in sanitary and safe environments. Inspectors protect the consumers, while educating and working with food businesses in the state. This partnership assures consumers of a safe food supply while providing marketing assistance to small and large businesses alike. The Division works in cooperation with the Federal Food and Drug Administration on product recall inspections to benefit industry and the consumer. It responds to consumer complaints regarding food establishments and products and investigates product damage incurred in fires, floods, power outages and other natural disasters.

The Weights and Measures Program maintains a level playing field, where weighing and measuring forms the basis for payment in commercial transactions within the State of Maine, by testing and evaluating weighing and measuring devices. The Program investigates cases of fraud, and provides training, supervision, and calibration services to municipalities which have local Weights and Measures Sealers. It performs random inspections of packages packed prior to sale for correct labeling and correct net weights and measures. The Metrologist is responsible for traceability of the State's Standards to the standards of the National Institute of Standards and Technology located in Gaithersburg, Maryland. Maine's metrology lab, considered one of the best on the East Coast, is utilized by some other New England states on a fee basis.

#### **PURPOSE:**

The Weights and Measures Program maintains a level playing field, where weighing and measuring forms the basis for payment in commercial transactions within the State of Maine, by testing and evaluating weighing and measuring devices, by investigating cases of fraud, and by providing training, supervision, and calibration services to municipalities which have local Weights and Measures Sealers. The Program provides traceability of the State's Standards to the National Standards and sees that this traceability is transferred to business and industry within the State of Maine.

#### **ORGANIZATION:**

The Commissioner of Agriculture, Food and Rural Resources is, by statute, the State Sealer of Weights and Measures. The Deputy State Sealer serves as Inspection Program Manager within the Division of Quality Assurance and Regulations. This section's professional staff consists of one Metrologist and Consumer Protection Inspectors. Administratively, the Deputy State Sealer of Weights and Measures is responsible to the director of the Division of Quality Assurance and Regulations.

#### **PROGRAM:**

The Division's Weights and Measures Program is responsible for all standards of weights and measures with continual certification by the National Institute of Standards and Technology. This involves inspection and calibration of all commercial large-capacity scales, liquid flow meters, LP gas meters, and small capacity scales, gas pump meters, linear measuring devices, and spot check of packages put up prior to sale for correct labeling and correct net weights and measure. It is responsible for uniform standards for the measurement of wood and enforcement of the Wood Measurement Law and regulations as well as verification of radar guns used by the state and local police to monitor excessive speeding. Other areas of impact include local sealers, parking meters, worm counts, licensing of scale mechanics and weighmasters, and gasoline testing.

**PURPOSE:**

The Attorney General is the chief legal officer for the state. The Department is authorized to (a) appear in all civil actions and proceedings in which the State is a party; (b) control and direct the investigation and prosecution of homicides and other major crimes, including frauds against the State; (c) render all legal services required by State officers, boards and commissions in matters relating to their official duties; (d) issue written opinions upon questions of law submitted pursuant to statute; (e) enforce proper application of funds given or appropriated to public trusts and charities within the State; (f) consult with and advise the District Attorneys; and (g) administer and enforce the State unfair trade practices and antitrust laws.

In addition, the Attorney General has a wide range of duties which the Office is specifically directed to perform.

The Attorney General also serves as an ex-officio member on many State authorities and Commissions.

**ORGANIZATION:**

The Department of the Attorney General is organized by 5 M.R.S.A. Sect. 191 with the Attorney General as its chief executive. The Department consists of eight operating divisions. The civil divisions oversee aspects of the Department's civil and investigatory responsibilities. They are General Government; Natural Resources; Health & Human Services; Professional Regulatory; Investigations; Litigation; and Public Protection. The Criminal Division exercises the Department's criminal law responsibilities. The Divisions report to the Attorney General and the Chief Deputy Attorney General.

**PROGRAM:**

The Health and Human Services Division represents the Department of Human Services (DHS) and prosecutes child abuse cases and enforces child support laws.

The Division defends tort and civil rights actions brought against DHS and its employees. Additionally, the Division represents the Departments of Mental Health/Mental Retardation/SAS and Corrections. The Criminal Division is principally concerned with prosecution of offenses defined in the Maine Criminal Code, has exclusive responsibility for the prosecution of all homicide cases in the State, handles appeals to the Supreme Judicial Court, and handles enforcement actions in Medicaid Fraud. In addition, the Division represents the State in petitions for post-conviction relief filed by convicted criminal defendants. The Division also assigns attorneys to work with the Maine Drug Enforcement Agency (MDEA).

The General Government Division represents the Departments of Labor, Education, Administration and Financial Services, Commission on Governmental Ethics and Election Practices, Property Tax Review, and in certain matters, the Secretary of State. This Division has primary responsibility for unfair labor practices, elections litigation, contracts and leases, and liquor and lottery regulation. The Professional Regulatory Division represents the Department of Professional & Financial Regulation and numerous professional and occupational licensing boards. The Natural Resources Division represents all of the environmental and natural resource agencies of state government. The Division handles administrative and judicial enforcement actions. The Division represents the agencies at the administrative level, in rulemaking and throughout the court system.

## DEPARTMENT OF THE ATTORNEY GENERAL

The Investigations Division is responsible for carrying out the statutory requirements of 5 M.R.S.A. Sect. 200-C pertaining to fraud against the State and provides direct investigative services for other divisions of the Department. The Litigation Division directly handles tort claims against the State, tax litigation, and those court actions either not concerning any agency or sufficiently complex to involve the litigation expertise of the Division. The Public Protection Division handles enforcement actions in consumer fraud, antitrust enforcement and civil rights enforcement and operates a Consumer Complaint Mediation Program.

### PURPOSE:

The Office of the Chief Medical Examiner is headed by the Chief Medical Examiner, who is appointed by the Governor for a term of seven years. Through its staff, it is empowered to combine the functions of the coroner's physician and coroner in that it is responsible for determining the cause of death and the manner of death by inquiry in all deaths that cannot be certified by private physicians. Medical examiner cases include death due to trauma or poisoning or occurring under suspicious circumstances. When there is no private physician capable of certifying a death, even if apparently due to natural causes, the Medical Examiner must assume responsibility for such cases.

The Medical Examiners that serve the office are appointed by the Chief Medical Examiner, take a constitutional oath of office, serve for a statutory fee and are responsible for determining the cause and manner of death. The Medical Examiner reports are filed centrally and are intended for legal and vital records purposes.

*Legislative Count:* 3.00

### PURPOSE:

The purpose of the Municipal Bureau is to conduct audits of counties, cities, towns, school administrative units, and other quasi-municipal corporations upon request.

The Municipal Bureau also performs "petition audits" for municipalities in accordance with Title 30-A, M.R.S.A., Section 5823. A petition audit is performed when the voters of a municipality or quasi-municipal corporation are dissatisfied with the postaudit made by a public accountant. Upon filing a valid petition, with the required number of signatures, the State Auditor orders a new postaudit to be made by the Department of Audit. The municipality or quasi-municipal corporation pays for the expense of the postaudit.

### ORGANIZATION:

Authorized personnel in the Bureau include three Auditor III's.

### PROGRAM:

The statutes provide that each county, municipality and quasi-municipal corporation shall have an annual postaudit made of its accounts, covering the last complete fiscal year, by the State Department of Audit or by a qualified public accountant. Upon request, the Municipal Bureau audited 29 governmental organizations including counties, towns, school administrative units, and quasi-municipal corporations during the 1999 fiscal year.

*MAINE LAND USE REGULATION COMMISSION*

*NATURAL RESOURCES INFORMATION AND MAPPING CENTER*

*BUREAU OF PARKS AND LANDS*

**PURPOSE:**

The Department of Conservation was established to preserve, protect and enhance the land resources of the State of Maine. The purposes of the Department are: to educate the public and encourage the wise use of the scenic, mineral, and forest resources of the State; to ensure that coordinated planning for the future allocation of lands for recreational, forest production, mining and other public and private uses is effectively accomplished; to provide coordinated land use planning in unorganized territories; to provide ongoing database information and mapping of natural resources; and to effectively manage public lands, state parks, and historic sites in Maine.

**ORGANIZATION:**

The Department of Conservation was created in 1973 by combining several independent natural resource departments. The Department consists of five major bureaus: Parks and Lands, Forest Service, Natural Resources Information and Mapping Center, Land Use Regulation Commission, and General Services. The Department is led by a Commissioner who is responsible for the overall executive management of the Department and whose staff oversee the information and education, safety, regulatory and legislative, and long range departmental planning efforts.

**PROGRAM:**

Department of Conservation operational activities, goals, objectives and plans are reflected in the reports of the individual bureaus and programs.

**PURPOSE:**

The Coastal Island Registry was established to identify and secure title to those coastal islands remaining within the State of Maine.

**ORGANIZATION:**

The 106th Legislature created the Coastal Island Registry in 1973, assigning it first to the Bureau of Forestry and then, in 1974, to the Bureau of Public Lands. It currently resides in the Bureau of Parks and Lands, 33 M.R.S.A., Chapter 25.

**PROGRAM:**

The Coastal Island Registry Act provides that all coastal islands within the State of Maine (having less than four residential structures thereon) shall be registered with the Bureau of Parks and Lands by their purported owners. Those islands for which such a determination discovers against a purported owner, as well as those islands for which no registration was submitted, fall to the care and custody of the State of Maine, until such time as a "true" owner comes forward to establish title. (See report for Bureau of Parks and Lands).

**PURPOSE:**

The Division of Insect and Disease Management within the Bureau of Forestry was established to protect the forest, shade and ornamental tree resources of the state from significant insect and disease damage and to provide pest management and damage prevention for homeowners, municipalities, and forest landowners and managers, thereby preserving the overall health of Maine's forest resources.

By action of the 118th Legislature, responsibilities were expanded to incorporate conducting an annualized 5-year cyclical inventory of Maine's forest resources. In recognition of the broadened mandate, the 119th Legislature approved changing the Division's name to Division of Forest Health & Monitoring.

In accomplishing its mandate, the Division of Insect and Disease Management: gathers, analyzes, and reports pest levels and trends and similar information regarding forest condition/forest response; evaluates actual and potential impacts of such forest pests; and develops integrated pest management techniques. Additional responsibilities include providing technical assistance, implementing control actions when justified, and administering state and federal laws pertaining to insect and disease quarantine.

## DEPARTMENT OF CONSERVATION

The state entomologist is authorized to go onto any lands for the purpose of surveying and inspecting any shade, ornamental, or forest trees whenever he suspects the presence of any dangerous native or exotic insect or disease. If the survey work requires the placing of "trap" material on developed lands in incorporated areas, the state entomologist is required to first notify the landowner of his plans.

### ORGANIZATION:

The Division of Insect and Disease Management (IDM) originated in 1921 as the Division of Entomology for the purpose of protecting Maine's forest and shade trees from insects and diseases. The Director of the Maine Forest Service appoints the State Entomologist, who serves as the Director of the Division of IDM. Operating within an administrative division of the Maine Forest Service, the State Entomologist is statutorily responsible for answering all calls for information on forest insects including their identification and control. The State Entomologist is also required to assist other departments working in this field.

To protect and enhance the health and sustainability of Maine's forest resources across the extent and diversity of the resource, ranging from 16.9 million acres of commercial timberland to individual shade trees scattered across 498 municipalities, requires that the IDM Division utilize its limited resources such that all operations be integrated and interactive. Although given units and positions have primary responsibility for certain functions, all staff are intersupporting.

Internal Division capability is augmented through collaboration with other agencies within the state, with neighboring jurisdictions and with the federal government to optimize efficiencies by sharing resources, analyses and information. At the local level, the Division is maintaining and expanding cooperative efforts and technology transfer through a network of client/cooperators to augment internal capacity and to address local problems.

### PROGRAM:

Insect and Disease Laboratory - This unit is primarily responsible to: provide information, technical advice and assistance to individuals, municipalities, and other state and federal agencies on identification, significance and control of forest and shade tree insects and diseases; provide, if requested, similar information for non-forest insects on non-agricultural crops; develop and champion use of best management practices for pest management and forest resource damage prevention. Staff serve on Maine's State Lyme Disease Working Group. This unit also administers the insect and disease reference collection and library which serves IDM and other cooperating agencies.

Cooperative Projects and Quarantine - This unit is primarily responsible to: provide technical advice and assistance, including design, oversight, administration and funding infrastructure (when justified) for large and small scale pest management and remediation projects; serve as lead agency and liaison for cooperative federal, state, municipal, neighborhood and private pest control efforts; and conduct applied research, designing pest control strategies and proactive managerial prescriptions. This unit is also responsible for enforcing State and Federal quarantine laws: oversee and enforce state quarantines directly relating to the forest resource (Hemlock Woolly Adelgid, Gypsy Moth, European Larch Canker, White Pine Blister Rust) in order to protect the resource base and minimize constraint of commerce; assist in enforcement of relevant federal quarantine laws.

Forest Inventory and Health Monitoring - this unit primarily responsible to maintain the Maine Forest Service's statewide forest health and sustainability monitoring surveillance system: conduct and report on the annualized 5-year cyclical inventory of the condition/extent of Maine's forest resources; conduct localized and statewide surveys to detect and monitor current and potential insect, disease and other environmental stresses of the forest and shade tree resource; provide predictive evaluations and both preventative and remedial prescriptions for known major stressors to landowners so as to allow managers to make timely and informed site specific pest management decisions. This unit also provides field staff support to conduct specific projects initiated in the other units.

### PURPOSE:

The Bureau of Forestry, also known as Maine Forest Service, was established to ensure for present and future generations of Maine citizens the greatest economic and social benefits from trees and the forest lands of the State.

## DEPARTMENT OF CONSERVATION

The responsibilities of the Bureau are: to encourage and promote appropriate forest land management practices on public and private lands to provide maximum benefits from forest products, recreation and related resources such as soil, water and wildlife; to provide advice and assistance in forest management to woodland owners; to produce, aid in accomplishment of forest land management practices; to promote improved markets, utilization and manufacture of forest products, to maintain a thriving forest industry; to initiate and maintain up-to-date economic data, including a forest inventory for purposes of identifying current and future forest industry trends; and to promote productivity and current use as the basis for forest land taxation.

Responsibilities also include: to encourage long-term forest management objectives; to protect the forest resource from fire, insects, diseases and other natural enemies; to encourage and promote the planting, care and protection of shade trees, shrubs and forest growth by individuals, municipalities and State agencies; to maintain and improve the scenic beauty, wildlife habitat and recreational values of Maine; to determine, encourage and conduct needed research in forest resource and shade tree management; and to develop through information, education and formal publications a greater public awareness and appreciation of forests as Maine's basic economy and renewable resource, of the need to protect the forest resource, and of the economic and social benefits to be derived from multiple use of forest lands.

### ORGANIZATION:

The Bureau of Forestry originated in 1824 with the appointment of the Land Agent who, in 1891, was also designated Forest Commissioner. The Land Agent title was abolished in 1923 and the Agent's duties were assigned to the Forest Commissioner. In 1965, the Maine Forest Service which had evolved under the Commissioner was statutorily recognized as the Forestry Department. State Government reorganization legislation of 1973 renamed the Department as the Bureau of Forestry within the newly-created Department of Conservation, and designated the Forest Commissioner as Director of the Bureau of Forestry.

The Bureau is divided into 3 functional divisions: Forest Fire Control, Forest Policy and Management, and Insect and Disease Management. Each division is administered by a chief executive officer who is in charge of all division activities. Field operations are administered through functional regional supervisors.

### PROGRAM:

The Bureau of Forestry's total program is reflected in the program statements of the various Divisions. In addition, the Director's office manages Maine State forestry related issues with the USDA Forest Service including all grants and other forestry related federal agency programs; directs the Maine Forest Service participation in the Northeastern Forest Alliance; is responsible for budget preparation and management; manages legislative proposals; and is responsible for overall administration of federally funded forestry programs including; landowner assistance, education, cost share and urban forestry grants programs.

## DIVISION OF FOREST PROTECTION

### THOMAS PARENT, STATE SUPERVISOR

Legislative Count: 101.00

#### PURPOSE:

The primary objective of this Division is to provide forest fire and forest resource protection at the least cost with minimum damage to Maine's 17.7 million acres of forest land. This objective is accomplished by doing five major tasks (1) prevention - 25% to 30% of time and funds are expended in this effort, (2) detection - presently utilizing 12 contracted detection aircraft, (3) presuppression - training of municipal and Division employees and maintenance and development of specialized equipment, (4) suppression - extinguishing fires that do occur and (5) law enforcement.

#### ORGANIZATION:

In 1891 the Office of Forest Commissioner was established resulting from action by the legislature to establish a Forest Commission for the protection of the forest. Until this time this office has been known as the Land Office and the Land Agent.

In 1909 an act creating the Maine Forestry District was approved giving forest fire protection throughout the "Unorganized Towns" and some plantations. The disastrous forest fires of 1947 gave stimulus for statute changes in 1949 that made the Forest Commissioner responsible for all forest fire control over the entire State. The Department of Conservation was established in 1973 and the Maine Forestry Department, also called the Maine Forest Service, became the Bureau of Forestry under Conservation. Fire Control was assigned to the Bureau as the Division of Forest Fire Control. The Division operates by staffing a state office, 3 regions which are broken down into 9 districts, an air operations unit, a radio communications unit, a fire support section, and a training coordinator.

#### PROGRAM:

The primary goal of the Division is to keep the annual acreage burned to less than .02% (3,500 acres) of the total acreage of the State and hold annual

## DEPARTMENT OF CONSERVATION

fire occurrence to 59 fires per million acres protected (1,000 fires). During 1998 there were 677 forest fires burning 1,533 acres. Another major goal of the Division is to enforce all laws dealing with forest and forest preservation. These laws include fire laws, forest practices, timber theft and trespass, Christmas tree laws, all terrain vehicle and snowmobile laws. Forest fire prevention continues to play a very important role in meeting the Division's objectives. Fire Prevention consists of activities such as public service announcements, newspaper articles, Smokey Bear Programs in schools, law enforcement, and spark arrestor inspections on chainsaws, skidders, and other equipment used in the woods.

Presuppression or preparedness is another key to a successful forest fire control program. Continued efforts are maintained in building and equipment maintenance and fire planning. Many hours of training, both in-service and with volunteer and municipal groups, were conducted throughout the State. In addition, special training programs were developed for hotshot crews, scouts, prison and industry personnel in forest fire suppression techniques. Specially trained and equipped fire overhead teams were trained and maintained.

All Forest rangers are trained in Conservation Law Enforcement, a Code of Conduct is in place, entry level requirements for rangers reflect the present ranger job and require a 2 year degree in natural science; Physical Fitness requirements meet national standards and the Incident Command System is used as the system of operation on all incidents. A 16 week Forest Ranger Academy is conducted for new hires, in addition to a 10 week Law Enforcement Academy. The National Interagency Management System is used to manage emergency incidents. The Fire Control Division spends many days training other agencies, and fire departments in the use of the system. The system, also known as the Incident Command System, is used to manage forest fires throughout the United States.

**PURPOSE:**

The Forest Policy and Management Division provides technical assistance, information and educational services to the public, forest landowners, forest products processors and marketers, municipalities and other stakeholders. The division also implements the Forest Practices Act, providing outreach and enforcement services. The division anticipates and responds to forest policy issues and reports to the public on the state of the forest resource.

The division provides technical assistance through educational workshops, field demonstrations, media presentations, and one-on-one contact between field foresters and landowners. Statute and bureau policy place limits on technical assistance to individual landowners.

**ORGANIZATION:**

The FPM Division has four components: Field Foresters who work with forest landowners and other stakeholders; policy, planning and education specialists; program specialists who oversee stewardship, protection, urban and community forestry, utilization and marketing programs, and shared responsibility for enforcement of the Forest Practices Act. The Division Director reports to the State Forester.

**PROGRAM:**

During FY 1999, staff provided technical and educational assistance on forest management and conservation laws to 8,921 private, non-industrial forest landowners and to numerous municipalities, civic organizations, resource consultants, educational institutions, state and federal agencies. A campaign to promote Forest Stewardship management planning following the 1998 Ice Storm resulted in the completion of 942 management plans on 110,000 acres. \$704,000 in stewardship cost-share assistance was disbursed for 150 acres of erosion control, 200 acres of timber stand improvement, 23,000 feet of woodlot access road construction (including installation of appropriate Best Management Practices), and 180,000 feet of recreation trails to improve woodlot access. 80 municipalities received \$4.4 million of federal cost share assistance for ice storm damage assessment or clean up.

The primary focus in FPA administration is to prevent violations from occurring through educational outreach. 18 FPA enforcement cases were referred for settlement; 3 cases were settled, 10 cases were closed with no violation, 4 cases remain under investigation or are in negotiation. Staff developed new FPA enforcement policy and procedures, and new training modules for the revised FPA.

Educational programming is delivered by education specialists, field foresters, and planning staff, with the goal of promoting informed decisions affecting forests and other natural resources. Accomplishments include: developing study materials, learning standards, and testing materials for 1999 Envirothon; an integrated educational module on Backyard Forestry for woodland owners with less than 10 acres; outreach on Forestry BMP's for salmon habitat conservation; and participation in numerous public education workshops and training sessions.

MFS added a Senior Planner position to increase agency commitment to forest water resource issues. The division participates in the Atlantic Salmon Conservation Plan; activities focus on reducing forestry impacts to salmon habitat. The division's policy unit acquires, analyzes and publishes information about the forest resource to fulfill statutory requirements. This information includes timber harvest, forest regeneration, wood imports and exports, stumpage and mill-delivered prices, Tree Growth Tax properties and other critical information. The division collaborates with other agencies to gather, analyze and report to the public information about trends in Maine's forests. Staff completed a technical analysis of future timber supply, a "State of the Forest Report", and developed Forest Sustainability Standards for 3

criteria of sustainability (water quality, timber supply and quality, and public accountability of forest owners).

### PURPOSE:

Conservation's General Services provides executive level direction to the department as well as central department administration and management for financial, personnel, information systems, and communication.

### ORGANIZATION:

General Services contains the Office of the Commissioner and the four functional administrative units of Business Management, Human Relations, Information Systems, and Radio Communications.

## DEPARTMENT OF CONSERVATION

Under the department's 1995 Productivity Realization plan the former Division of Administrative Services was reorganized into General Services. During the reorganization, and in conjunction with the establishment of the A.C.E. Service Center, the department's bookkeeping unit and payroll and human resource processing unit were eliminated. Their duties were assumed by the A.C.E. Center which was established to handle administrative processing for the three department's of Agriculture, Food and Rural Resources, Conservation, and Environmental Protection. General Services is the department's link with the A.C.E. Service Center.

Also in the reorganization, the Radio Communications unit was moved from the Division of Forest Fire Control to General Services, and all of the department's information systems functions were consolidated under General Services.

### PROGRAM:

Under the overall supervision of the Director, this Division is responsible for financial and business management including budget, purchasing, contracting and leasing; human relations including organization and staff development, AA/EEO compliance, labor relations, and training; information systems management including systems development and programming, systems upgrade and maintenance; telecommunications, and coordination with central state systems; and radio communications including maintenance and repair of hand held, mobile and stationary two-way radios, and repeater sites located across Maine.

Under this same budget line is the Office of the Commissioner. The Commissioner's office is responsible for providing overall policy guidance to all bureaus within the department. In addition, the Commissioner's office also provides coordination and direction for the department's legislative program, the department's public information effort, and fall foliage program, coordinating the department's safety program and long range departmental planning.

Legislative Count: 26.00

**PURPOSE:**

The Maine Land Use Regulation Commission was established in 1971 to serve as the planning and zoning board for the State's unorganized areas that have no form of local government; for plantations, which have limited local government but have chosen not to administer local land use controls, and for some towns that choose not to administer such controls at the local level despite having the option to do so. The Commission is responsible for promoting public health, safety and general welfare by encouraging the appropriate well-planned use of the resources within its jurisdiction and by guiding land use activities.

The Commission's jurisdiction includes 10.4 million acres, consisting of 410 unorganized townships, 32 plantations, and 7 organized towns. Most of the area is within Aroostook, Penobscot, Somerset, Piscataquis, Washington, Hancock, Franklin, and Oxford Counties, with single plantations or townships located in Lincoln, Knox, Sagadahoc and Kennebec Counties. Often thought of as "The North Woods," the Commission's jurisdiction also includes 308 coastal islands.

The Commission's responsibilities are to prepare a comprehensive land use plan for its jurisdiction, to prepare land use standards for each zoning district, to review applications for development, and to enforce compliance with those standards.

**ORGANIZATION:**

The Maine Land Use Regulation Commission is governed by a 7-member independent decision-making body, with members appointed by the Governor subject to review by the Joint Standing Committee on Agriculture, Conservation and Forestry and approval by the Legislature. Four members must be residents of the Commission's jurisdiction. Commissioners serve 4- year staggered terms. The Commission has a staff of 26, including an Executive Director.

The Commission makes decisions on permit applications, enforcement actions, zoning boundaries and land use standards at regular meetings held monthly at locations in or near its jurisdiction. The Commission also holds public hearings and information meetings as needed.

**PROGRAM:**

In FY 1999, the Commission opened its second full service regional office in Ashland. In addition it revised its rules governing nonconforming structures and uses, and continued to adopt new zoning maps in Washington, Hancock, and Somerset counties to identify new wetland zones. 1,418 permits were issued and 898 compliance investigations were conducted. The permit inventory was reduced to 153. As of Dec 1998 average permit processing times were 50% the duration of those in 1990.

## NATURAL RESOURCES INFORMATION AND MAPPING CENTER

### ROBERT G MARVINNEY, DIRECTOR

TDD: (207) 287-2213

Central Office: AMHI RAY BLDG, AUGUSTA, ME 04333-0022

Mail Address: 22 STATEHOUSE STATION, AUGUSTA, ME 04333-0022 FAX: (207) 287-2353

Average Count--All Positions: 19.500

Legislative Count: 19.50

### PURPOSE:

The Natural Resources Information and Mapping Center is the administrative home for the Maine Geological Survey and the Maine Natural Areas Program. The mission of this Center is to provide the People of Maine with quality information to facilitate informed decision-making for natural resource management, economic development, conservation planning, and regulation, to provide public assistance; and to promote education. The Center will inventory, map, assess, and interpret Maine's geology and the ecology of the State's plants, animals, and natural communities. Furthermore, the agency supports its mission by using computerized geographic information systems and databases, and by publishing maps and reports.

### ORGANIZATION:

The Maine Geological Survey was originally established in 1957 as the Division of Geological Survey within the Department of Economic Development (D.E.D.). It was renamed the Division of Science, Technology and Mineral Resources in 1962 and, in 1971, it was transferred from the former D.E.D. to the Forestry Department as the latter Department's Division of Geology. Under State Government reorganization legislation of 1973, it was again transferred and reestablished within the Department of Conservation. Under the guidelines of

## DEPARTMENT OF CONSERVATION

the Productivity Realization Task Force, the Maine Geological Survey and the Maine Natural Areas Program were administratively organized under the heading Natural Resources Information and Mapping Center, with the State Geologist as Director of this unit.

### PROGRAM:

The Natural Resources Information and Mapping Center (NRIMC) has three divisions: Applied Geology, Natural Areas, and Resource Data Services. Applied Geology has three programs: The Bedrock and Surficial Geology Program provides basic geologic mapping and interpretation of surficial materials and bedrock mapping and interpretation of rock types and structures. This basic geologic mapping is the foundation for the evaluation, appraisal and inventory of specific physical resources, mineral occurrences, and geologic hazards in the state. The Hydrogeology program inventories ground and surface water conditions, emphasizing ground water supply and the prevention of ground water pollution. Water well records are obtained from drillers throughout the state for compilation for characterization of bedrock ground water resources. Maps depicting ground water flow, yield, and depth are being prepared for the inhabited portions of the state.

The Marine Geology Program conducts research on the coast and provides technical services to other state agencies involved in the coastal zone. Research and mapping for shoreline stability, sea-level rise, beach nourishment sources, dredge spoil disposal sites, and minerals is being conducted on the sea floor in cooperation with Coastal Zone Management Program, the University of Maine, and the National Oceanic and Atmospheric Administration. The Natural Areas Division inventories lands that support rare and endangered plants and animals and outstanding examples of natural communities. This information is used by a wide audience, including, land owners, natural resource managers, state and federal agencies, researchers, non-profit organizations, and the general public for such diverse purposes as natural resource planning, exploring economic development opportunities, preparing environmental impact statements, reviewing permit applications, and protecting sensitive natural features.

The Resource Data Services Division prepares and publishes the results of the Center's field investigations and research projects. The Division operates a cartographic production facility which includes a geographic information system, a computer graphics section, a photographic darkroom and a diazo reproduction center. The Center and the Bureau of Parks and Lands have administrative jurisdiction over prospecting and mineral development on those lands owned or held in trust by the State of Maine that are open for mineral exploration. This jurisdiction extends over 400,000 acres of public lands, the littoral bottom to three miles and all lake bottoms, but not to mineral activities on private or federal lands. Procedures for exploration, claiming and mining state lands are outlined in the "Mining on State Lands Statutes," copies of which may be obtained from the Center. The survey maintains an active file of current mineral development activities on state lands.

### PURPOSE:

The Bureau of Parks and Lands, an agency of the Department of Conservation, was established in 1995 by the consolidation of the Bureau of Parks and Recreation and the Bureau of Public Lands. The Bureau manages and administers programs on 482,000 acres of Public Reserved Lands, 34 staffed state parks, 22 staffed and unstaffed state historic sites, 2 million acres of submerged lands, 1300 coastal islands, the Allagash Wilderness Waterway, the Penobscot River Corridor, and other public lands as provided by law. The Bureau also administers special programs related to boat access sites, navigational hazard marking, snowmobile and ATV trails, and the federal Land and Water Conservation Fund and Recreational Trail Program.

The Bureau acquires land, designs and constructs facilities for public use, distributes information, develops and implements management plans, carries out appropriate land management, administers grants, and coordinates with other state and federal agencies that have related programs.

Bureau staff provide assistance to other agencies and municipalities on land management and recreation issues, provide information to legislators and other individuals and organizations, conduct or supervise research within their area of expertise, and conduct workshops, seminars, and field trips for the public or special interest groups.

### ORGANIZATION:

A director, who reports to the Commissioner of the Department of Conservation, heads the Bureau and is assisted by a deputy director. Five regional offices, two supervising the state park system and three supervising the Public Reserved Lands system, oversee operations and management activities. The five heads of these regions report to the Bureau director. The central office includes six divisions that report to the deputy director: off-road vehicles; boating facilities; community grants and recreation; planning and acquisition; engineering and realty; and administrative services.

## DEPARTMENT OF CONSERVATION

Park system field staff provide direct services to park and historic site visitors, maintain and repair facilities, provide information and education programs, and ensure public safety. Public Reserved Lands field staff conduct multiple use land management activities including timber, wildlife, and recreation; plan and oversee the construction of roads, trails, and bridges; and maintain campsites and other visitor amenities. The Off-Road Vehicle Division provides grants to clubs and municipalities for the development and maintenance of snowmobile and ATV trails. The Boating Facilities Division, through direct state involvement, grants and contracts, provides and maintains boat access sites. It also marks certain lakes to ensure navigational safety. The Grants and Community Recreation Division administers federal grants, manages a state-wide trail advisory committee, and provides technical information on recreational facilities to municipalities.

The Planning, Acquisition, and Special Services Division oversees the acquisition of land, develops management plans and provides technical information on wildlife, interpretation, recreation, and historic site management. It also conducts research, secures grants, reviews comprehensive plans, and administers a leasing program for camp lots and towers on Bureau lands. The Engineering and Realty Division oversees the development, disposal, appraisal, maintenance, and capital improvement of Bureau facilities. The Administrative Services Division provides clerical support, manages bureau finances, and operates the campsite reservation system. The submerged lands program is responsible for the management of the State's submerged lands. The Coastal Island Registry program continues the registration of islands in order to clarify their ownership status.

### PROGRAM:

Parks and historic sites provided recreation and education opportunities to more than 2,167,513 visitors, contributing \$1,970,156 in user fees and other revenue to the general fund and \$303,662 to municipalities in fee sharing in calendar year 1998. Income from the sale of loon license plates allowed the completion of numerous repair projects. Projects initiated during FY 99: Wolf Neck Woods Waterborne Sanitary System, \$67,225; Roque Bluffs Park Office/Manager's Residence, \$90,500; Ft. Knox Electrical and Flood Lighting System, \$80,000; Ft. Knox Enrockment, \$175,000, Roadway Repaving at Lily Bay and Reid \$50,000, Col. Pemaguid Sanitary Disposal System and Restaurant Rehab, \$75,000; Aroostook SP Comfort Station, \$170,000; Camden Hills - Camp Tanglewood Building Imps, \$37,000; Lake George Regional Park Comfort Station Water Systems, \$19,000. Major projects initiated last FY but completed this year include new Comfort Stations & utilities at Mt. Blue, Camden & Lamoine (\$1,500,000).

In calendar year 1998, the three Reserved Lands regional offices conducted sustained yield forest harvesting operations on 7,057 acres of the Bureau's 352,841 acres, yielding 54,469 cords of wood. They also constructed and maintained an extensive network of roads, trails, and bridges to facilitate public access. The Bureau's Grants and Community Recreation Division administered \$845,164 in federal grants for 66 Recreational Trail Program projects and provided technical assistance to municipalities, the Maine Trails Advisory Committee and the Maine Trails Coalition. The Boating Facilities Division, through grants, provided new or improved boat access at 12 sites and new or improved access at 12 state-owned sites. The navigational aids program maintained buoys on 21 waterbodies.

The Planning, Acquisition, and Special Services Division conducted surveys of users of state snowmobile trails, state parks and historic sites, Allagash Wilderness Waterway, Public Reserved lands, and state boat access sites; administered 288 camp lot leases; participated in grant programs; and completed several Park and Reserved Land brochures; and completed the Allagash Wilderness Waterway Management Plan. Work continues on the revision of the Integrated Resource Policy. The Off-Road Vehicle Division approved 364 snowmobile grants, totaling \$1,621,526 and managed five trail systems; the ATV Program awarded 19 club and municipal grants (\$62,615) and continued to develop abandoned railroad rights-of-way for a total of 800 miles of ATV trail. The Administrative Services Division provided clerical support, managed the Bureau's finances, and campsite reservation system. The submerged lands program reviewed 87 applications, issued 34 leases, 6 dredging leases, and 9 easements in 1998.

**PURPOSE:**

The Department of Corrections is responsible for the direction and general supervision, guidance and planning of adult and juvenile correctional facilities and programs within the state. The department administers the state's correctional facilities, provides for the safety of staff and committed offenders, undertakes appropriate programming for the classification, education and rehabilitation, and maintenance of committed offenders and assures an effective system for the supervision of parolees and probationers. The Department is responsible for the direction and general administrative supervision of the Maine State Prison, the Maine Correctional Center, the Charleston Correctional Facility, the Maine Youth Center, the Downeast Correctional Facility, and the Maine Correctional Institution-Warren. The Department also administers community corrections programs for adult and juvenile probationers.

The Department is authorized to adopt and implement rehabilitative programs, including work-release, within correctional institutions; to establish regulations for and permit institutions under its control to grant an inmate or prisoner furlough from the institution in which he or she is confined; to establish programs which provide an environment of community living and control, pursuant to rules and regulations adopted by the Department of Corrections.

The Department is authorized to expend correctional institution appropriations on persons within that portion of its sentenced or committed populations participating in halfway house, pre-release, vocational training, educational, drug treatment or other correctional programs being administered physically apart from the institutions to which such persons were originally sentenced or committed, for the purpose of defraying the direct and related costs of such persons participation in such programs. The Department of Corrections may provide or assist in the provision of correctional services throughout the State as authorized by Maine law, and the Department is responsible for setting standards and inspection of municipal and county jails.

**ORGANIZATION:**

The Department of Corrections was created by the Legislature in 1981 to improve the administration of correctional facilities, programs and services for committed offenders.

In 1995, the department reorganized internally to establish a division of juvenile services and a division of adult services. The Division of Probation and Parole was eliminated and the community corrections functions are now included in the juvenile or adult divisions.

**PROGRAM:**

The program activities of the Department are discussed in the individual reports of its program components except for the following:

CORRECTIONAL SERVICES. A State-wide Correctional Services account was enacted into law in 1975 to enable the development, expansion and improvement of correctional programs throughout the State and to encourage participation in such programs by persons, unincorporated associations, charitable nonstock

## DEPARTMENT OF CORRECTIONS

corporations, local and county governmental units and State agencies. The program is also funded for mental health services to correctional clients including those having drug and alcohol problems.

**VICTIM SERVICES.** The reorganization of the department resulted in the creation of a victims services coordinator position to administer the department's responsibilities for victim notification and to improve services to victims and the victim community.

**MANAGEMENT INFORMATION SERVICES.** The department began the development of an integrated management information system for adult and juvenile offenders. As the first phase of an overall upgrade of the department's management information system, the community corrections data base began development in 1996 and will be accessible to probation officers and juvenile caseworkers through the wide area network by the end of the year. Community corrections staff were provided with laptop computers and training in their use.

**JAIL INSPECTIONS.** The Department continues to set standards and inspect all county and municipal jails and detention centers.

**PURPOSE:**

The Office of Advocacy is established within the Department of Corrections to investigate the claims and grievances of clients, to investigate, in conjunction with the Department of Human Services, as appropriate, allegations of adult and child abuse or neglect in correctional facilities and detention facilities and to advocate for compliance by the Department of any correctional facility, and detention facility, or any contract agency with all laws, administrative rules and institutional and other policies relating to the rights and dignity of clients.

**ORGANIZATION:**

There is a full-time Chief Advocate located at the Department of Corrections-Central Office who reports directly to the Commissioner of Corrections. At the present time there are two additional authorized Advocate positions, one full-time and one half-time. These may be assigned, as needed, to any facility or agency within the Department, including the State Prison, the Maine Correctional Center, the Maine Youth Center, Charleston Correctional Facility, Downeast Correctional Facility, the Pre-Release Centers, the Northern Maine Regional Juvenile Detention Facility, or the Division of Probation and Parole.

**PROGRAM:**

The Office of Advocacy receives requests and complaints from prisoners and clients located in any institution or facility operated by the Department of Corrections or under contract with the Department of Corrections. The Office is also frequently contacted by family members, attorneys, legislators or persons from the other public or private agencies with advocacy concerns. Complaints are investigated and reports and recommendations are provided directly to the Commissioner of Corrections, other administrators and staff within the Department and to the Legislature's Criminal Justice Committee. The Chief Advocate also attends policy meetings with the Commissioner's staff and serves as advisor to the Commissioner and to Correctional Administrators on human rights issues and policies and procedures as they affect prisoner's rights and welfare.

**PURPOSE:**

The purpose of the Charleston Correctional Facility is to confine and rehabilitate male and female prisoners classified as minimum security. The facility has the additional purpose to provide educational/vocational opportunities and provide public restitution programs as part of a progressive corrections system.

The purpose of the Bangor Pre-Release Center is to confine and rehabilitate male prisoners classified as community security. The program is designed to provide prisoners the opportunity to work for pay while incarcerated thus enabling the incarcerated prisoner with the opportunity to provide financial assistance to his family, pay victim restitution, fines and aid in establishing community connections prior to release.

**ORGANIZATION:**

The Charleston Correctional Facility is located on the site of the former Charleston Air Force Station in Charleston, Maine. The site was secured through a 30-year lease from the federal government. The facility opened under the administrative control of the Maine Correctional Center in 1980. In 1985, the facility was removed from that administrative structure and assumed primary responsibility for its own development and operation.

Prisoners confined at the facility are received from other more secure institutions, such as the Maine Correctional Center in Windham, the State Prison in Thomaston, and the Downeast Correctional Facility in Bucks Harbor, Maine.

Bangor Pre-Release Center was established by the Maine State Prison in 1974. Due to the close proximity and availability of support services, it was

administratively transferred to the control of the Charleston Correctional Facility in 1988. In 1996, administrative responsibility was transferred to Probation and Parole. Prisoners are transferred to the facility from minimum facilities such as Charleston Correctional Facility, the Bolduc Correctional Facility in Warren, and the Downeast Correctional Facility.

**PROGRAM:**

The Charleston Correctional Facility houses prisoners classified as minimum security. A comprehensive classification process reviews the prisoners' needs for rehabilitative services such as educational, vocational, psychological, and substance abuse. Educational services are provided through a learning center/library located on facility grounds. Instruction is offered in GED preparation and testing, Adult Basic Education, and basic computer skills. The staff also coordinates parenting classes, life skills, and employment skills training. Vocational programs are provided in two areas: Small Sawmill Operation and Forestry Woodharvesting. The Woodharvesting and Sawmill programs work in conjunction with each other and through a cooperative agreement with the Department of Inland Fisheries and Wildlife to provide land management services for the Bud Leavitt Wildlife Management Area.

In 1998-99, the Woodharvesting program produced over 966 cord of fuelwood which is used in the facility's boiler plant to provide heat and hot water for the entire physical plant. This has saved the facility considerable funds annually by reducing fuel oil costs. In addition, over 112,219 board feet of lumber was produced by the Industries Program and used by the facility, other facilities within the Department of Corrections, and other state agencies. The facility has an active public restitution program. A total of 37,500 prisoner and staff hours were expended on projects during the 1998-99 season. Projects were completed for local municipalities, state agencies and non-profit organizations. Through an agreement with the Department of Conservation, over 60 prisoners were trained and utilized fighting forest fires.

## DEPARTMENT OF CORRECTIONS

The Bangor Pre-Release Center program is the last of several progressive steps in the correctional system. While the primary priority of the program is to provide public safety by confining, containing, and controlling all prisoners within the institution, the Center's secondary focus is to provide them with the educational, public restitution, and work release opportunities. Prisoners are afforded the opportunity to be released into the community to participate in gainful employment. Once employed, they are responsible to contribute to their living expenses, provide family support, victim restitution, fines and a required savings account for their release. Those unable to find employment are assigned to restitution projects. A total of 16,938 prisoner hours were used to supplement support services to Bangor Mental Health Institute. Bangor PreRelease Center also serves as the regional headquarters for Community Corrections Programs including Probation and Parole.

#### **PURPOSE:**

The Maine Correctional Center was established for the confinement and rehabilitation of persons over the age of 18 years who have been sentenced to the Department of Corrections. In addition, the Correctional Center is the State prison for adult female medium and maximum classified offenders committed to the Department of Corrections. The Center accepts transfers from the Maine State Prison and other state correctional facilities for participation in Center programs. The Center holds a limited number of Federal detainees for U.S. District Court in Portland.

All persons committed to the Center are confined in accordance with the sentence of the court. Provisions for the safekeeping, training or employment of prisoners are made for the purpose of teaching prisoners a useful trade or profession and improving their mental and moral condition. The Superintendent has supervision and control of the prisoners, employees, grounds, buildings and equipment at the Center.

## DEPARTMENT OF CORRECTIONS

### ORGANIZATION:

The Maine Correctional Center in Windham was established in 1919 as the State Reformatory for Men, administered by trustees. In 1931, the Reformatory was placed under the Department of Health and Welfare, and in 1939 under the Department of Institutional Services which, in 1959, became the Department of Mental Health and Corrections. The Reformatory was renamed the Men's Correctional Center in 1967. In 1976, a law was enacted which changed the name to the Maine Correctional Center and combined the Women's Correctional Center and the Men's Correctional Center together on the grounds of the Men's Correctional Center in Windham, making this Center co-educational. The Department of Corrections was established in 1981. Maine Correctional Center is now designed as a medium security institution with a maximum security capability for short duration confinement. The Correctional Center also lends accounting support for the Central Maine Pre-Release Center in Hallowell.

### PROGRAM:

By statute and program desire, the housing facilities for the men and women are separate. Through the Classification Committee, individual prisoner needs are identified and programs are developed to meet these needs. The Center has medical, dental and nursing services, as well as, on a limited basis, psychological and psychiatric services. Religious services are offered by a community clergy. Special programs are offered by various volunteer religious groups within the community providing further enrichment to this program. Chemically dependent residents have access to the self-help fellowships of Alcoholics Anonymous (A.A.) and AlAnon, which are generously supported by outside community members. The Social Services Program, consisting of five licensed staff, assists residents with adjustment to the institution, provides rehabilitation counseling and coordinates the utilization of institutional and community resources.

The Education Program has one State funded and one federally funded teacher. Academic instruction includes remedial reading and arithmetic, High School Equivalency (GED) and High School Completion. The academic courses are taught on a semi-tutorial basis in an atmosphere conducive to the learning process. Two state funded vocational instructors offer courses in Graphic Arts and Meat Cutting. A grant was received that will fund a vocational computer refurbishing program, a goal of which will be to offer free computers to the State's school districts. Industries programs exist in garment making, upholstery, and woodworking. Restitution crews exist to assist local communities and nonprofit agencies. The Recreation Department provides a gymnasium, outdoor playing field and leisure time activities. The Furlough program approves, for specific reasons, prisoners to be allowed in the community for limited periods of time.

A prisoner moves through housing areas as determined by a multi-level classification process. The correctional officer staff and classification committee are responsible for determining the prisoner's needs and assigning the prisoner to the area within the institution where these needs can be met most effectively. Successful adjustment provides the prisoner an opportunity to advance to a housing area with more privileges and responsibility. Once it is determined that the individual prisoner has no known problem areas which could be of danger to society and can accept the responsibility of being in the community, the prisoner, during the final months of his/her sentence, may become eligible for Work Release and upon acceptance, be transferred to the Department's private provider of Work Release programming.

*Legislative Count:* 71.00

#### **PURPOSE:**

The Downeast Correctional Facility was established by the Legislature in September 1984 for the confinement and rehabilitation of persons who have been duly sentenced and committed to the Department of Corrections.

#### **ORGANIZATION:**

Funds were appropriated to purchase, renovate, and make the former Bucks Harbor Air Force Station operational as a correctional facility. The facility is a medium/minimum security institution and the prisoner count is at 140.

#### **PROGRAM:**

Programs at the Downeast Correctional Facility consist of Educational (Academic and Vocational), Treatment (Medical, Caseworker and Psychological) and Classification. The educational program, geared for high school equivalency (GED), also focuses on business courses emphasizing everyday life skills. The vocational programs are staffed with instructors in the following career fields: Electrical, Welding and Building Trades.

**Medical:** A nurse is assigned to screen minor medical problems for necessary treatment and/or referral to the contracted medical service. Emergency care and treatment is provided by the local hospital. Dental care is provided as the need arises with prisoners transported to the dentist. Psychological services are provided under a contract for crisis intervention and substance abuse treatment. A Caseworker assists prisoners and their families in making recommendations for treatment programs within the community and in therapeutic and rehabilitative settings.

**Classification Committee:** This Committee has a direct impact on the prisoner for its primary responsibility is to orientate each new prisoner to the facility, its housing, care and/or its treatment programs. The Committee is responsible for the safety and well being of each prisoner assigned to the Downeast Correctional Facility. The Committee analyzes all input to determine the initial anniversary and/or requested changes to the security status of prisoners housed at the facility.

#### PURPOSE:

The purposes of the Northern Maine Regional Juvenile Detention Facility are:

1. Detention. To detain juveniles prior to juvenile court appearances when a court orders that juvenile be securely detained;
2. Diagnostic evaluation. To administer court-ordered diagnostic evaluations pursuant to Title 15, section 3309-A and court-ordered examinations pursuant to Title 15, section 3318; and
3. Confinement. To confine juveniles ordered detained pursuant to Title 15, section 3314, subsection 1, paragraph H.

#### ORGANIZATION:

The Northern Maine Juvenile Detention Facility was established to provide short term detention of juveniles accused of committing juvenile crimes, pending court dispositions. The facility serves ten counties: Aroostook, Franklin, Hancock, Kennebec, Knox, Penobscot, Piscataquis, Somerset, Waldo and Washington.

Upon opening, the Maine Department of Corrections assumed the total responsibility for the detention and commitment of all juveniles in the State of Maine, removing juveniles from adult facilities.

The facility further provides placement for juveniles sentenced to brief periods of incarceration known as "Shock Sentences". These sentences are ordered by the court and can be no longer than a 30 day period. The facility has a rated design capacity of 39 and services both male and female juveniles between the ages of 11 and 18. The current average daily population consists of 25 youth.

#### PROGRAM:

The facility offers educational programming, psychological and substance abuse evaluations/assessments and a behavioral management program designed to reinforce positive and pro social changes. The facility provides a structured environment which enables youth to learn to take responsibility for their actions, change inappropriate attitudes and provides for meaningful positive

## JUVENILE JUSTICE ADVISORY GROUP

### PRISCILLA HARE, CHAIRPERSON

TDD: (207) 287-4472

Central Office: TYSON BUILDING, AMHI COMPLEX, AUGUSTA, ME 04333-0111

Mail Address: 111 STATE HOUSE STATION, AUGUSTA, ME 04333-0111 FAX: (207) 287-4370

Reference: Policy Area: 03 ; Umbrella: 03 Unit: 201J ; Citation: GFY82 M.R.S.A., Sect. 000000016

#### PURPOSE:

The Juvenile Justice Advisory Group (JJAG) was created in response to the federal Juvenile Justice and Delinquency Prevention Act of 1974, as amended (the Act). The Act creates a voluntary partnership between states and the federal government for the purpose of improving the administration of juvenile justice. In return for an annual formula grant, based on the state's juvenile population, each state undertakes to meet four congressionally defined standards ("Core" Requirements) for the management of juvenile offenders. These core requirements relate to; 1) the handling of status offenders, 2) the separation of juvenile from adult prisoners, 3) the detention of juveniles in places other than adult jails, and 4) the protection of minority youth from discrimination in the juvenile justice system. Maine has participated in the Act since its inception. The JJAG operates as the supervisory board for all planning, administrative, and funding functions under the Act.

#### ORGANIZATION:

The JJAG was first established as a committee of the Maine Criminal Justice Planning and Assistance Agency. It was formalized by Executive Order 4FY80 on October 5, 1979, and authorized by statute in 1984 (34-A M.R.S.A., Section 1209). Since July 1, 1982, the Department of Corrections (DOC) has acted as the JJAG's administrative and fiscal agent.

As provided by the Act, the JJAG consists of not less than 15 and not more than 33 representatives of various constituencies concerned with juvenile justice and related area, including: units of local government; public agencies responsible for law enforcement, juvenile justice, corrections, probation, and the juvenile courts, and those responsible for delinquency prevention or treatment, including welfare, social services, mental health,

## DEPARTMENT OF CORRECTIONS

education, and youth services; private organizations concerned with delinquency prevention or treatment, neglected or dependent children, and the quality of juvenile justice, education, and social services for children, public and private agencies that utilize volunteers to work with delinquents or potential delinquents; businesses and business groups employing youth; and persons with special experience and competency in addressing the problem of school violence, vandalism, and learning disabilities.

Neither a majority of members, nor the chairman, may be full-time employees of a governmental entity. At least one fifth of the members must be under the age of 24 at the time of appointment, and at least three members must have been or currently be under the jurisdiction of the juvenile justice system.

### **PROGRAM:**

The federal allocation for Maine's Juvenile Justice and Delinquency Prevention Program for FY98 was \$600,000, of which approximately \$20,000 was available for administrative support and \$30,000 for the activities of the JJAG itself. The amount available for administration is determined by the level of state match. The remaining \$550,000 was allocated to subgrants for improvement of the state juvenile justice system. The JJAG and its committees also advocate for legislative and policy reform, monitor state compliance with federal requirements, and provide technical assistance to jurisdictions needing support for compliance or program development efforts.

The JJAG's principle funding focus since 1985 has been on diverting nonviolent juvenile offenders from detention prior to adjudication. The principle method of diversion has been enhanced supervision in the offender's own community, coupled with mobilization of a broad range of community resources to respond to each offender's specific requirements for support and correction. During FY95, the JJAG sponsored development of a model of community supervision, entitled Juvenile Intensive Supervision Service (JISS), that would be appropriate for youth at any stage of the juvenile justice system, including conditional release before adjudication, informal adjustment, probation, and aftercare following release from the Maine Youth Center. This model is the basis of a pilot project established by the DOC during FY95 and FY96.

These activities were supplemented with funds provided under a federal Challenge Grant. These funds were used to provide wrap around services for JISS clients.

The JJAG's secondary focus is on prevention of delinquency. The JJAG is funding a variety of initiatives designed to provide healthy activities for at risk youth.

walls. The primary responsibilities of the Board are to determine the time of parole for each inmate and prisoner or to revoke parole when warranted due to parole violation. The Board also determines the time of discharge of parolees from parole supervision, formulates policies, adopts regulations and establishes procedures.

### ORGANIZATION:

The State Parole Board, created in 1931 under the name of Parole Board, originally consisted of three members: the Commissioner of Health and Welfare and any two members of the Executive Council designated by the Governor. From 1931 to 1939, the Board was under the Department of Health and Welfare, and from 1939 to 1957 under the Department of Institutional Service. In 1957, the Parole Board was abolished and its duties were assumed by the State Probation and Parole Board. In 1967, a Division of Probation and Parole was created within the Bureau of Corrections to administer probation and parole services in conjunction with the Board's parole duties. The Board was redesignated State Parole Board in 1971, to consist of five members appointed by the Governor, for terms of four years.

In January 1984, the Board began to hear entrustment revocation proceedings for those juveniles alleged to have violated their conditions of release on entrustment from the state's juvenile correctional institutions. As of September 1990, the Board is no longer responsible for hearing juvenile entrustment revocation hearings. The Board elects its own chairman and meets at least bi-monthly. It may meet as often as necessary.

### PROGRAM:

The State Parole Board hears cases at the Maine State Prison for those sentenced prior to May 1976 to determine when inmates should be released on parole, when they have committed violations of parole, how much violation time should be served, if any, and when a prisoner or inmate is to be discharged.

### PURPOSE:

The State Prison was established to confine convicted offenders and to provide correctional treatment and rehabilitation programs designed to prepare such offenders for eventual release. The institution is responsible for the custody, control, employment and government, as provided by law, of adult male offenders lawfully committed to the prison.

## DEPARTMENT OF CORRECTIONS

Prisoners classified as maximum or high maximum custody may be transferred to the Maine Correctional Institution. In addition, the prison may establish vocational training programs and transfer prisoners to the Bolduc Correctional Facility in South Warren to participate in work or educational release programs outside the institution.

### ORGANIZATION:

The State Prison at Thomaston was opened officially in July, 1824, to serve as a penitentiary where convicts were sentenced to hard labor for life or for any term of time not less than one year. The prison has always been a maximum security facility for adult felons. Women were sentenced to the institution until 1935 when they were transferred to the Women's Correctional Center in Skowhegan. Additions to the prison were built in 1828 and 1843 and, after a fire in 1850, an expanded prison was completed in 1854. In 1923, the prison was again destroyed by fire and replaced with the present structure in 1924.

Until 1970, the prison was partially supported by a farm in South Warren which was destroyed that year by fire. On April 18, 1978, the official name of the minimum security unit was changed to the Ronald P. Bolduc Unit in honor of Ronald P. Bolduc, a long time employee of the Department of Corrections. The former barracks at South Warren now serves as the Bolduc Correctional Facility.

On October 18, 1992 the first prisoners were transferred to the Maine Correctional Institution, located in Warren. Organizationally, MCI is a unit of the Maine State Prison. It was built to house Maine's "high risk" prisoners. Maine State Prison and the Bolduc Correctional Facility provide many of the support service functions for this unit.

### PROGRAM:

The addition of the Maine Correctional Institution in Warren as Maine's first unit to specifically house high risk prisoners, is an asset valuable to Corrections and the people of Maine. The ability to separate high risk prisoners reduces the stress for staff and prisoners throughout the adult Correctional facilities, and this new facility serves as a deterrent for those prisoners that may be inclined to jeopardize security at other facilities. Assistance is provided to the County Jails to house disruptive prisoners on an emergency basis through a court order. Maine Correctional Institution houses Maine State Prison prisoners on disciplinary and administrative segregation status, since the closing of its segregation unit. Upon completion of their disciplinary time, and release from administrative segregation, these prisoners are returned to the Maine State Prison.

Expansion of the Bolduc Correctional Facility increased the need for programs. Support programs such as Alternatives to Violence, meditation, and sex offender therapy were added to treatment activities. Computer science, New Books for Readers, library services, and expanded Literacy Volunteer participation bolstered the educational choices. In addition, recreational programming begun to target the older population. A work release program was established in the community. Together with the Department of Transportation the cooperative work program is successful and assists both organizations with a means to accomplish their missions. A recent plate shop expansion was completed to accommodate the chickadee plate conversion. The farm center continues to provide other facilities with potatoes and in season fresh produce and community restitution has grown into a significant activity.

In 1997 the Maine State Prison had major construction changes. A new taut wire alarm system was added to the prison wall and an inner perimeter fence was built for additional security. Three floors of the administration building were renovated which included offices, conference rooms, lobby, visiting room and control center. A security operations center was added and the old operations center now houses security staff, caseworkers, and social workers. The Legislatively approved 31 bed Mental Health Stabilization Unit opened in January, 1998. Industrial and craft programs continue to provide a valuable rehabilitative resource and assists in maintaining a safe and secure environment for staff and prisoners. Educational programs include G.E.D. preparation, literacy, college, and computer science courses. Religious, psychological and substance abuse services are offered on an individual and group basis.

### PURPOSE:

The Division of Probation and Parole was established to provide effective counseling, direction, and motivation to committed offenders and adjudicated juveniles on probation or parole, to enable them to become more productive and constructive members of society. The Division is responsible for conducting pardons and commutation investigations for the Governor, pre-sentence investigations for the courts, post-sentence pre-parole and other investigations for the state's correctional institutions, and for handling adult and juvenile interstate compact cases for other states.

In addition to administering probation and parole services, the Division is also responsible for providing juvenile court intake services throughout the state. Juvenile intake duties include the screening of all detention requests by law enforcement agencies to determine if it is necessary for a youth, following arrest, to be detained in a secure detention facility, and the screening of all juvenile cases referred by law enforcement agencies for formal court proceedings to determine which cases are appropriate for diversion on an informal basis without involving the juvenile court system.

The Division of Probation and Parole was effectively eliminated with the passage of legislation implementing the Productivity Task Force Plan. The Division is now known as the Divisions of Juvenile and Adult Services.

### ORGANIZATION:

The Division of Probation and Parole was created in 1967. In January, 1984, the Office of Juvenile Intake was consolidated into the Division. In August, 1986 the Intensive Supervision Program was enacted and came under the control of the Division. This Division was reorganized in 1996 to become the Divisions of Juvenile and Adult Services. The Division of Juvenile Services consists of regional correctional administrators, juvenile caseworkers, resource coordinators, and other administrative employees in classified state service.

## DEPARTMENT OF CORRECTIONS

The Division of Adult Services consists of regional correctional administrators, adult probation and parole officers, intensive supervision officers, and other administrative employees in classified state service.

Adult Community Corrections is multidimensional and includes the mission of public safety, victim and community restoration and offender accountability. Probation and Parole has implemented correctional practices that have expanded supervision services and provides specialized services to the higher risk category of offenders. The three basic programs are standard Probation, the Sex Offender Management Program and Supervised Community Confinement. All three incorporate strategies that emphasize control, monitoring, intervention, treatment, collaboration and restoration. In addition, Probation Officers are responsible for investigating and completing pardons and commutations for the Governor and the Pardon Board, Pre-sentence investigations for the Maine State Courts, Interstate Compact investigations and investigations for the Maine Correctional facilities.

### PROGRAM:

The Division of Juvenile Services is responsive to Maine's court system by performing juvenile intake services, conducting investigations and making recommendations on disposition when requested, supervising probationers, youth on after care status from residential placement including the Maine Youth Center, developing individual case plans, and developing diversionary programs. The Division of Adult Services supervises adults on parole from the state's penal and correctional centers and youth released on entrustment from the Maine Youth Center. The Division also supervises inmates sentenced to the Intensive Supervision Program, however, due to budgetary constraints the ISP program was suspended in May, 1993. In addition, Division personnel conduct investigations for the State Parole Board and the various correctional institutions; counsels, and refers clients to appropriate service agencies such as mental health centers, family counseling services, etc.

The administrators for the juvenile and adult interstate compacts are the Associate Commissioner of Juvenile Services and the Associate Commissioner of Adult Services respectively. Under the terms of the two compacts, the administrators oversee the supervision of both juvenile and adult probationers and parolees who are referred to this State from other jurisdictions. In turn, Maine probationers and parolees, both juvenile and adult, who are residents of, or desire to move to, another state are referred to another compact state for similar supervision.

**PURPOSE:**

The Maine Youth Center was established to rehabilitate clients committed to the Center as juvenile offenders so that they eventually return to the community as more responsible, productive, law-abiding citizens. The Center is responsible for the rehabilitation of juvenile offenders committed by Maine courts, applying the disciplines of education, casework, group work, psychology, psychiatry, medicine, nursing, vocational training and religion as they relate to human relations and personality development. Boys and girls between the ages of eleven and eighteen may be committed to the Center for the term of their minority. The Superintendent acts as a guardian to all children committed and may place any such child on aftercare with any suitable person or persons or public or private child care agency. The Maine Youth Center also, by law, is required to detain juveniles pending their court appearances.

**ORGANIZATION:**

The Maine Youth Center at South Portland was established in 1853 as the State Reform School, administered by a Board of Trustees. It was renamed State School for Boys in 1903. The Board of Trustees was abolished in 1911, and its duties were assumed by the Trustees of Juvenile Institutions. In 1931, the State School for Boys was placed under the Department of Health and Welfare and, in 1939, transferred to the Department of Institutional Services, which later (1959) became the Department of Mental Health and Corrections. In 1981, The Department of Corrections was established. In 1959, the School was renamed the Boys Training Center. In 1976, the 107th Maine State Legislature, in special session, established the Maine Youth Center as the only coeducational institution for juvenile offenders.

**PROGRAM:**

The Maine Youth Center continues to redefine many of its program functions to provide a multidisciplinary team approach in working with those juveniles committed to and held within the facility. The Maine Youth Center functions as the coeducational, rehabilitative correctional facility for juveniles within the state-wide correctional system. In this area, the Center provides care, custody, and security for its residents, hold for court evaluations/diagnostic services, education and physical education through the A.R. Gould School, volunteer services, recreation, mental health services, religious services, and medical services to its juvenile offender population.

**PURPOSE:**

The Department of Defense, Veterans and Emergency Management was established to coordinate and improve the discharge of the State Government's responsibility relating to military, veterans and civil emergency preparedness through the authorization, planning, provision of resources, administration, operation and audit of activities in these areas.

**ORGANIZATION:**

The Department of Defense, Veterans and Emergency Management was created by State Government reorganization legislation of 1972 under the original name of Department of Military, Civil Defense and Veterans Services. In this legislation, the administrative offices of the Adjutant General became the Military Bureau; the former Civil Defense and Public Safety Agency became the Bureau of Civil Defense; and the former Department of Veterans Services became the Bureau of Veterans Services; with the Adjutant General designated as both Commissioner of the new department and Director of the Military Bureau.

Effective in June 1974, the 106th Legislature, on the recommendation of the Maine Management and Cost Survey, revised the law to direct the appointment of the Deputy Adjutant General as Director of the Military Bureau, thus freeing the Adjutant General to function solely as Commissioner of the Department. This revision also renamed the Bureau of Civil Defense as the Bureau of Civil Emergency Preparedness. Over the next couple of years, the Department was redesignated Department of Defense and Veterans Services.

During the 113th Legislature the requirement was eliminated that the Director of the Military Bureau be the Adjutant General and the Bureau of Civil Emergency Preparedness was renamed the Maine Emergency Management Agency (MEMA).

At the direction of the 115th Legislature, the Bureau of Veterans Services was changed to the Division of Veterans Services and the position of Bureau Director deleted. By action of the 116th Legislature, the position of Director of Operations was added and the position of Veterans Supervisor deleted to align Veterans Services responsibilities in the agency. In 1995 the 117th Legislature added the requirement that the Adjutant General/Commissioner's appointment be subject to Legislative confirmation. In 1997 the 118th Legislature redesignated the department as the Department of Defense, Veterans and Emergency Management, redesignated the Division of Veterans' Services as the Bureau of Maine Veterans Services and designated it's leader as the Bureau Director.

**PROGRAM:**

The programs of the Department of Defense, Veterans and Emergency Management are outlined in the reports of its operating units.

**PUBLICATIONS:**

The Adjutant General's Report is a biennial publication that highlights the significant events, accomplishments and highlights of the Department during the previous two years.

**PURPOSE:**

The Maine Emergency Management Agency (MEMA) is primarily responsible for the coordination of protection of the citizens from all emergencies, both natural and man-made. With the exception of responsibilities assigned to the military, this Agency coordinates the mitigation, preparedness, response and recovery from disasters or catastrophes, such as forest fire, flood, earthquake, nuclear power accident, or hurricane. It also provides guidance and assistance to county and local governments in their efforts to provide protection to citizens and property.

The Agency uses planning, training, exercising and public education to accomplish this mission. A five step planning process developed by the National Governor's Conference has been adopted: 1) hazards are identified; 2) mitigation actions are considered; 3) capabilities are identified; 4) procedures are developed to meet the threat; and 5) resources are identified to aid in recovery. The Agency's commitment is to develop a comprehensive emergency management plan containing guidelines flexible enough to address the unforeseen, as well as the identified hazards. Emergency plans and all other related activities are coordinated to the maximum extent possible with other departments of the State, Federal agencies, county and local governments, as well as neighboring states and Canada.

**ORGANIZATION:**

MEMA was originally established under the Maine Civil Defense and Public Safety Act of 1949, which authorizes the Governor to establish, within the Executive Department, a Civil Defense and Public Safety Agency. A 1972 amendment, retitled the Maine Civil Defense Act, caused the agency to be redesignated as the Bureau of Civil Defense within the Department of Military. In 1974 the Department of Military was redesignated as the Department of Defense and Veterans Services and the bureau name changed to the Bureau of Civil Emergency Preparedness. Public Law, Ch. 370, signed by the Governor on June 19, 1987, redesignated the Bureau of Civil Emergency Preparedness as the Maine Emergency Management Agency effective September 29, 1987.

The Emergency Management Assistance Compact was enacted in 1998 and provides for and facilitates the use of mutual aid between states to cope with a disaster regardless of cause. The Governor, thru Executive Order, created the State Emergency Response Commission in April of 1987 to coordinate the state government's role in carrying out Maine's planning and preparedness responsibilities for hazardous materials in compliance with Title III of the Federal Superfund Amendments and Reauthorization Act of 1986, Emergency Planning and Community Right-To-Know. The Maine Emergency Management Agency carries out the planning and preparedness activities for the Commission.

MEMA is internally organized into three divisions: Administration, Planning, and Operations. The primary responsibilities of the Agency are to coordinate state government operations with that of county and local governments for emergencies resulting from natural disaster, technological hazards or national security incidents. The Agency's ability to function effectively during an emergency is dependent on the state agencies who staff the State Emergency Operations Center, and to a great extent, upon the county and local organizations throughout the state which are comprised of both paid and volunteer personnel.

**PROGRAM:**

In one form or another, the Federal Government has been granting money to the states for civil emergency preparedness (emergency management) for more than 25 years. The Comprehensive Cooperative Agreement (CCA) has been the instrument of FEMA/State Agreement since 1989. Amounts have been stable and have actually increased in recent years. As of Federal Fiscal Year 1996 (beginning 1 October

## DEPARTMENT OF DEFENSE, VETERANS AND EMERGENCY MANAGEMENT

1995) the CCA was replaced by a Performance Partnership Agreement (PPA). This agreement is a 5-year agreement, but will be revisited after the first year to make any necessary adjustments. Performance Partnerships are joint efforts between Federal, State and/or local governments which streamline the Federal grant process by providing more flexibility in exchange for more accountability.

Performance partnerships measure results by agreed-upon methods, provide incentives for success, and avoid disincentives.

Effective January 1, 2000, FEMA proposes to consolidate all non-disaster funding streams, except Terrorism, that support the Maine Emergency Management Agency into the Emergency Management Performance Grant (EMPG). This continues FEMA's efforts to streamline the funding process, provide the States with greater flexibility in defining long-term emergency management performance objectives, reduce prescriptive Federal requirements and more efficiently use our resources.

The Federal Emergency Management Agency (FEMA) provides the majority of the Agency's funding. The FEMA allocation of federal matching funds for fiscal year '99 for personnel and administrative services was \$732,691. It covers the federal fiscal year of October 1, 1998 through September 30, 1999. The funds are distributed by the State based on Annual Submission Requests from 16 counties and the State itself. This represents 50% of the funding. The remainder is provided by county and local funding. The following programs are funded 100% by FEMA:

State and Local Assistance	\$376,846
Disaster Preparedness Improvement	\$50,000

### PURPOSE:

The Military Bureau protects life and property and preserves peace, order and public safety. In fulfilling its mission, the Bureau provides the Army and Air National Guard with units organized, equipped, and trained to function efficiently at authorized federal strength. Units muster on order of the Governor to perform disaster relief, control of civil disturbance or provide other support to civil authority as required. In the event of war or other national emergency, the Bureau will report for federal service on call of the President of the United States. Should the National Guard be federalized and moved out of State, other forces may be organized under the law (M.R.S.A., Title 37-B, Chapter 3), to be known as Maine State Guard.

### ORGANIZATION:

The Military Bureau was created in July, 1972, under State Government reorganization legislation, to encompass what previously had been the Office of the Adjutant General, established in 1921 by the Maine Constitution. In the reorganization, the Governor, as Commander in Chief of the Maine militia, appointed the Adjutant General as administrative head of the Department of Military, Civil Defense and Veterans Services and as Director of the Military Bureau. The law has been revised several times to more appropriately reflect and meet the needs and actual functions of the Department. The most recent revisions have eliminated the requirement that the Director of the Military Bureau be the Deputy Adjutant General and changed Civil Defense to the Maine Emergency Management Agency (MEMA).

### PROGRAM:

The Military Bureau's two components, the Army National Guard and the Air National Guard are both responsible to the Adjutant General. The Maine National Guard, as a professional military institution, performs a dual role. One supports our State, and the other supports our Nation. In support of our State, the Maine National Guard provides the people of Maine with a highly skilled and

## DEPARTMENT OF DEFENSE, VETERANS AND EMERGENCY MANAGEMENT

disciplined military force. These soldiers and airmen, when called upon by the Governor, assist other State agencies during times of floods, hurricanes, forest fires, snow emergencies, and other civic needs. In it's other role, the Maine National Guard acts as a reserve to the active military. In this capacity, units of the Maine National Guard can be called to Active Duty by the President of the United States in support of our national security.

Statewide, the Maine Army National Guard's authorized strength is more than 2,200 soldiers. These soldiers are trained in a wide range of skills, including carpentry, plumbing, electrical, maintenance, first aid, heavy equipment operations and combat arms. This year Company E, 120th Aviation Air Traffic Service (Div) was mobilized in support of Operation Southern Watch in Kuwait.

The Maine Air National Guard provides a force of more than 1,300 men and women who are combat ready to serve in Federal missions of Air Refueling, Combat Communications and Engineering Installations. The 101st Air Refueling Wing provides world-wide air refueling in support of all major commands of the United States Air Force, United States Navy, United States Marines, Air Force Reserve, and the Air National Guard. The 243rd Engineering Installation Squadron and the 265th Combat Communications Squadron train for mobility. The 243rd EIS is rated by the Air Force Command, Control, Communications, and Computer Agency and the 265th CCS is rated by the Air Combat Command. Their high state of readiness enables them to deploy in support of the Department of Defense worldwide.

**PURPOSE:**

The Bureau of Maine Veterans' Services provides support services to Maine veterans and their dependents. These programs include, but are not limited to, housing, medical and hospital care, educational aid and compensation, vocational rehabilitation, burials and nursing homes. The seven regional offices located throughout the State provide support to veterans statewide in addition to supplementing the two USDVA claims offices at Togus and Portland. The Bureau's regional offices also provide support to bedridden veterans. The State Claims Office, located at Togus, administers the claims support and appeals advocate program.

The Central Office, located at Camp Keyes in Augusta, administers the Financial Aid program for needy veterans, awards educational benefits to dependents of totally disabled veterans, maintains records of military service, and provides for the burial and perpetual care of eligible veterans and their dependents at the Maine Veterans Cemetery, and issues certificates of eligibility for Veterans' Small Business Loans.

Additionally, the Director sits on the Board of Trustees for the Maine Veterans Homes, serving as one of the advocates for Maine veterans.

**ORGANIZATION:**

After the Civil War, Service to veterans was provided thru specific acts or laws. The earliest coordinated service to veterans was the Soldiers Board of 1919. Maine Veterans' Services was created by Council Order in 1945 as The Division of Veterans Affairs. The agency received authorization in 1947 and was established with a state office and seven local offices. In 1950, a claims office was established at the Veterans Administration Center at Togus. The Division was renamed the Department of Veterans Services in 1963. In the spring of 1970, the Maine Veterans' Memorial Cemetery became operational. Under reorganization legislation of 1972, the agency was placed within the new Department of Military, Civil Defense and Veterans' Services which, in 1974, was redesignated the Department of Defense and Veterans' Services.

The Maine Veterans' Small Business Loan Authority Board was established in 1973. In 1983, it was redesignated under the Finance Authority of Maine as the Maine Veterans' Small Business Loan Program.

**PROGRAM:**

Listed below are the major programs administered by the Maine Veterans' Services:

**CLAIMS SERVICE.** The seven regional offices represented 28,950 clients during the past Fiscal Year. These offices also received 902 requests to represent them to the USDVA. The Claims Office at Togus, acting as the veterans advocate, filed 1,586 claims on the behalf of veterans or their dependents. Actions taken by Maine Veterans' Services have resulted in new awards of \$16,006,242 by USDVA.

Approximately \$110 million per year of federal money is awarded to Maine veterans through the efforts of Maine Veterans' Services. Annually, USDVA refers 7,200 veterans to Maine Veterans' Services. The Division also maintains the records of Maine veterans who were discharged from service in the Armed Forces of the United States. Approximately 454,000 such records are now on file in the main office.

**VETERANS' DEPENDENTS EDUCATIONAL BENEFITS.** Dependents of totally and permanently disabled veterans may be eligible for free tuition at a state supported institution. During the past year there were 510 students enrolled in the program.

**MAINE VETERANS' MEMORIAL CEMETERY.** During the year, 574 burials were made. 11,610 persons have been buried in the cemetery since its inception. Two hundred and sixty three reservations for burial were made. At the end of the year there were 4,896 reservations for future burials on file. There were 375

OFFICE OF BUSINESS DEVELOPMENT  
MAINE SMALL BUSINESS COMMISSION

OFFICE OF TOURISM AND COMMUNITY DEVELOPMENT

**PURPOSE:**

The Department of Economic & Community Development is responsible for administering Maine's programs related to business growth, tourism and film development, and community development and planning. These programs fall within six functional areas contained within three divisions: the Office of Administration, the Office of Business Development and the Office of Tourism and Community Development. In most cases the department's programs require a significant amount of interaction with other organizations in the public and private sectors.

The Office of Administration is responsible for policy development, including legislative activities and participation on numerous boards, commissions and task forces; financial management, including purchasing, contracting and human resources; facilities management; the administration of tax-based development incentives; and the development and implementation of the State Economic Development Strategic Plan.

**ORGANIZATION:**

The department traces its roots back to the Maine Development Commission which was established in 1933. A State government reorganization in 1955 created the Department of Development of Industry and Commerce, and further reorganization in 1957 established the agency as the Department of Economic Development. In 1971 another reorganization reconstituted the department as the Department of Commerce and Industry, and shortly thereafter, in 1975, the department was abolished and many of its functions transferred to other agencies. As part of this process, the State Development Office was established within the Executive Department, and assumed responsibility for Maine's general business development functions.

On October 1, 1987, the State Development Office was abolished to be replaced by the newly established Department of Economic and Community Development, which also assumed the development-related activities of the State Planning Office and the Department of Conservation. In 1995, the department transferred its Natural Areas, Growth Management, Coastal Zone Management and Code Enforcement programs to the State Planning Office and the Department of Conservation.

In 1996, the Department was reorganized for efficiency by consolidating the Energy Conservation Division within the Office of Business Development, and combining the Office of Tourism and Office of Community Development into one office. This reorganization also shifted the department's primary accounting, personnel and information services functions to the Department of Administrative and Financial Services under a "clustering" arrangement, and established the Maine International Trade Center, which assumed the department's international commerce functions.

**PROGRAM:**

For more program information, see portions of this report dealing with specific divisions within the Department of Economic & Community Development or visit the department's web site at [www.econdevmaine.com](http://www.econdevmaine.com).

**PURPOSE:**

The Office of Business Development exists to encourage the initiation, expansion and location of businesses in Maine to increase quality employment opportunities for Maine citizens. The Office encourages business by removing barriers to growth, by facilitating exploration of opportunities and providing assistance necessary to enhance business consistent with the State's economic development strategy.

**ORGANIZATION:**

The Director of Business Development directs the activities of the Office of Business Development, which includes two major functional areas: Business Assistance and Business Development. The Maine Small Business Commission and the Maine Products Marketing Program also function within the Office.

**PROGRAM:**

**BUSINESS ASSISTANCE:** Major Business Assistance programs include:

-The Business Answers program responds to over 1,000 calls per month regarding doing business in Maine. This includes a One-Stop License Center.

-The Small Business Commission funds and oversees the Small Business Development Center program. (see report under Small Business Commission.)

-The Maine Products Marketing Program promotes Maine consumer goods sectors through positioning activities in national markets. Major ongoing expansions included promotion of Maine technology, increased exposure for Maine forest products, and use of electronic commerce as a tool for Maine products.

-The Market Development Center which receives funds through the department, links Maine producers and suppliers with businesses both in and out of Maine and assists Maine firms with procurement of federal, state and local contracts for goods and services.

**BUSINESS DEVELOPMENT:** The Office also facilitates business and job growth through business attraction, expansion and retention activity. Staff provide technical assistance such as information on labor, wages, taxes, transportation, utilities and environmental regulations. Assistance is provided for site location; financial assistance through federal, state and local financial programs; training assistance through federal and state training and vocational education programs; and marketing assistance by identifying specific foreign and domestic trade opportunities and reliable producers of Maine products. The Office provides grants for business attraction marketing to economic development organizations working at the state, regional and local levels.

**ENERGY CONSERVATION:** The Energy Conservation Division administers programs that provide Maine small businesses and others with educational, technical and financial assistance on energy conservation matters. The Division provides energy conservation information and education to Maine businesses through state mandated programs and programs under the Federal Energy Conservation and Policy Act. The Small Business Energy Conservation program provides energy audits, technical assistance, and low interest loans to small businesses. The program identifies energy savings improvements, recommends energy management assistance programs and identifies financial assistance services. In partnership with the University of Maine Industrial Assessment Center, the Division offers energy conservation services to small and medium size manufacturers across the state.

## MAINE SMALL BUSINESS COMMISSION

**JOHN BUTERA, DIRECTOR**  
**BRIAN DANCAUSE, CONTRACT ADMINISTRATOR**

*Central Office:* 33 STONE STREET, AUGUSTA, ME 04330

*Mail Address:* 59 STATE HOUSE STATION, MAINE, ME 04333-0059

*Established:* 1990

*FAX:* (207) 287-5701

*Reference: Policy Area: 01 ; Umbrella: 19 Unit: 536 ; Citation: T0005 M.R.S.A., Sect. 000013032*

### PURPOSE:

The Small Business Commission negotiates and oversees the annual contract with the US Small Business Administration's identified administrative unit, as well as the funds which are allocated to the regional subcenters to provide small business assistance. Additionally, the Commission is responsible for the review and evaluation of State small business assistance programs, and for advising the Governor, Legislature and the Commissioner of the Department of Economic & Community Development with respect to these programs.

### ORGANIZATION:

The Commission consists of the State Auditor, the Commissioner of the Department of Economic & Community Development and the CEO of the Finance Authority of Maine.

### PROGRAM:

The most significant and comprehensive program of business counseling and support available in the State of Maine is delivered through the Maine Small Business Development Centers (MSBDC) network headquartered at the University of Southern Maine. The MSBDC program receives the majority of its funding and oversight through the Maine Small Business Commission with the balance provided by the US SBA, the USM School of Business, and local sponsoring organizations. The MSBDC also generates income via registration fees for its training events including the annual trade show.

Operating through a state-wide network of 8 subcenters and 18 satellite offices, MSBDC services include workshops, seminars and conferences covering topics pertinent to small business: one-to-one counseling, technical assistance, and business research through the MSBDC's Management Information Resources and Research Service. The MSBDC's Northern New England Products Trade Show (NNPTS) features giftware and specialty food products manufactured in Maine, New Hampshire and Vermont. This nationally recognized, three-day trade show is held annually in Portland. In FY'99, the NNPTS had 269 Maine, New Hampshire and Vermont exhibitors, and attracted 1,725 buyers from across the country.

## DEPARTMENT OF ECONOMIC AND COMMUNITY DEVELOPMENT

The total MSBDC program budget for FY'98 was \$1,491,506, of which \$632,380 was provided by the State. During calendar year 1998, the Maine Small Business Development Centers provided 11,156 hours of business counseling to 2,334 clients for an average of 4.8 hours per client. In addition to its business counseling services, the MSBDC program conducted 92 workshops and seminars covering a wide range of business topics, with 1,494 attendees. For more information, call the MSBDC's State Administrative Office, at (207) 780-4420.

## OFFICE OF TOURISM AND COMMUNITY DEVELOPMENT

### DANN LEWIS, DIRECTOR

*Central Office:* 33 STONE STREET, AUGUSTA, ME 04330

*Mail Address:* 59 STATE HOUSE STATION, AUGUSTA, ME 04333-0059 *FAX:* (207) 287-8070

*Established:* 1987

*Telephone:* (207) 287-5711

*Average Count--All Positions:* 19.500

*Legislative Count:* 19.50

#### PURPOSE:

The Office of Tourism was created by law to serve as a single, official spokesperson on State tourism policy with the authority to implement marketing, management and research programs. The Office's broad directive is to promote Maine as a four season destination to both consumers and the trade.

The Office includes the Maine Film Office which is responsible for the promotion of Maine as a location for film and video production.

To accomplish its mission, the office is authorized to: conduct travel-product planning and research to determine market demand; implement public relations and promotional programs designed to market Maine's travel product; print materials as needed to fulfill requests for information about Maine by consumers and the travel trade; encourage the development of travel-product facilities and activities; operate tourist information centers; serve as a liaison between private industry groups and local, state, and federal agencies involved in tourism promotion and development; and provide basic support and discretionary grants to local, regional, and statewide tourism agencies.

The Office of Community Development assists municipalities in planning for and achieving economic growth and community revitalization. To accomplish this purpose, the Office provides technical assistance and grant funds to municipalities to finance economic development initiatives, to develop public facilities and infrastructure, and to rehabilitate housing. The separate Offices of Tourism and of Community Development were combined into the Office of Tourism and Community Development by statute in 1996.

#### ORGANIZATION:

The Office of Tourism and Community Development is supervised by the Director, who oversees the activities of the professionals and support staff. Overall supervision of the Office of Tourism and Community Development is provided by the Commissioner of Economic and Community Development.

## DEPARTMENT OF ECONOMIC AND COMMUNITY DEVELOPMENT

The Department of Economic and Community Development assumed responsibility for the Community Development Block Grant (CDBG) program in October 1987 when it was transferred from the State Planning Office. The program is funded by the U.S. Department of Housing and Urban Development and administered by a professional staff of 10 full time and 1 half time employee.

### PROGRAM:

**TOURISM:** During the past year the Office engaged in promotional efforts that included print and electronic media advertising, editorial promotion, participation in trade shows and presentations before professional, consumer and media groups. Local outreach programs were instituted and included seminars, conferences, and a cooperative advertising program with elements of the Maine tourism industry.

There were several ongoing marketing objectives in FY'99: to expand paid advertising through cooperative opportunities with the private sector; to create an awareness of the variety of opportunities with the private sector; to create an awareness of the variety of opportunities and activities that Maine has to offer; and to encourage travel writers from national newspapers and magazines to write feature stories about Maine.

**MAINE FILM OFFICE:** The Maine Film Office's two major objectives are: 1) to attract film and video production to Maine, and 2) to assist film and video productions that are taking place in Maine, or are considering Maine as a location. To accomplish these objectives, the Film Office responds daily to a wide variety of production related requests, supplying in-depth location information and assisting with crew, equipment and accommodation contacts. The Office publishes a production guide, as a resource for producers who are considering working in Maine. This manual serves the double purpose of promoting Maine people, services and companies, and is an information tool for production companies. In FY'99 the Film Office responded to numerous inquiries and requests. In addition to sending the production guide, the Office supplied detailed information, materials and services to hundreds of production companies and secured Maine as a shooting site for many productions.

**COMMUNITY DEVELOPMENT BLOCK GRANT:** The program distributes funds to municipalities in three broad areas: economic development, community development and planning. All programs are focused to benefit low and moderate income persons, improve deteriorated residential and business districts or to meet an emergency community need. Economic Development programs (Economic Development Infrastructure, Micro-loan, Regional Assistance Fund, Development Fund) facilitate the creation or retention of jobs; Community Development programs (Public Facilities/Infrastructure, Housing Assistance, Public Services) contribute to the revitalization of our cities and towns; Planning programs (Quality Main Street, General Purpose Planning) are used to identify the strategies communities will employ to achieve their development goals. The CDBG program expanded a Technical Assistance program to enhance access to the program, train administrators, and provide workshops.

**PURPOSE:**

The overall emphasis of this agency is to ensure that high quality educational services are available to all Maine people through comprehensive educational planning and leadership that relate such services to other social, economic, cultural and governmental programs and activities. The Department of Education is authorized to supervise, guide and plan a coordinated system of public education for all Maine people; to interrelate public education to other social, economic, physical and governmental activities, programs and services, to encourage and stimulate public interest in the advancement of education; to encourage inservice education and staff development for teachers in cooperation with local school officials.

The Department compiles and distributes copies of school laws to municipal school officers; acts upon applications for additions to and dissolution of school administrative districts; prescribes the studies to be taught in the schools; furnishes record books to school officers of each administrative unit for recording all matters relating to monies appropriated; controls and manages all public schools established and maintained by gifts or bequests; performs all duties imposed by any charter granted by the Legislature to educational institutions in the state; reports annually to the Governor the facts obtained from school returns, with recommendations to promote the improvement of public schools.

The office oversees the inspection of schools, the issuance of high school equivalency diplomas; the production or contracts for educational television programs; the approval of schools with out-of-state enrollment; contracts for applied technology education programs; and the certification of teachers and other professional personnel for service in any public school in the state or any school that accepts public funds.

**ORGANIZATION:**

The Department of Education originated in 1846 with the establishment of the first Board of Education, consisting of one member from each county of the State. The Board was abolished in 1850; and, in 1852, County Commissioners of Common Schools were established. The County Commissioners were replaced in 1854 by a Superintendent of Common Schools; and, in 1869, a new State Board of Education was established, with a membership consisting of the Superintendent and new County Supervisors of Public Schools. In 1872, the Board was again abolished along with the County Supervisors, and public education responsibilities of the state were shifted to the Superintendent who in 1897, became Superintendent of Public Schools and, in 1923, Commissioner of Education.

In a major state government reorganization of 1931, the Department of Education was created to assume the powers and duties formerly assigned solely to the Commissioner of Education. The State Board of Education was reestablished in 1949 with greatly expanded powers over public education activities of the state, including authority to appoint the Commissioner of Education. The Board's powers were diminished in state government reorganization of 1971 and the authority to appoint the commissioner was transferred to the Governor with the advice and consent of the council. As of April 1983 the Commissioner must be appointed by the Governor after consultation

### PURPOSE:

The Governor Baxter School for the Deaf was originally established for the purpose of providing an educational and residential program for deaf and hard of hearing children in Maine. The purpose and organization of GBSD has evolved and expanded in response to changing federal and state regulations with regard to Special Education and in particular, deaf education. GBSD has become the core of a developing and far-reaching system to identify and meet the educational and related needs of Maine's hard of hearing individuals. The mission is to integrate these educational opportunities into a single state-wide unit in order to provide quality services for the deaf and hard of hearing infants, children, adults and families.

### ORGANIZATION:

The GBSD had its origin as the Portland School for the Deaf, which was founded in 1876. It operated on Spring Street as part of the Portland School System as the Maine School for the Deaf within the Department of Institutions. When the Bureau of Institutions was dissolved, the organization was placed in the Department of Mental Health and Corrections. It remained there until transferred to the Department of Education. From 1982 through 1996 Department's Office of Federal-State-Local Relations served as liaison to the Commissioner and Legislature and resource on administrative and policy matters. In 1953, funds donated by Governor Baxter and funds granted by the Legislature were used for the construction of a new residential facility for the deaf on Mackworth

Island. In 1957, the Legislature honored the Governor by officially changing the name of the school to Governor Baxter School for the Deaf. In 1997, the Governor appointed a separate School Board to oversee the operations of GBSD.

### PROGRAM:

GBSD provides a wide range of services for students, families and professionals in the state. Comprehensive programming includes four departments, including the Academic School Program (K-12), Statewide Educational and Consulting Services, Residential Life and Community Relations.

### LICENSES:

High School Diplomas. (The school is provisionally approved by the Maine State Department of Education.)

#### PURPOSE:

The Learning Systems Team within the Department of Education coordinates, manages, and supervises the services related to instructional programs, activities, and requirements for all Maine learners and provides leadership to the field in its conduct of those functions. While its focus is on programs operated through Maine's public schools, its scope is pre-school through adult education which includes contracted educational functions to private providers. Its activities cover state, federal, private and foundation funded educational activities through the secondary level.

This team reviews and testifies on legislation regarding education and develops rules as directed by legislation. Collects and analyzes student attendance and performance data and summarizes that data for public reports and policy direction. Provides technical assistance and staff development to school personnel on instructional items and program operations. Is responsible for the development, administration, assessment, analysis and reports on the Maine Educational Assessment. Provides support services, is responsible for grant processing and approvals for special needs, vocational and adult students, and for public and private school approvals, enters into contractual and inter-agency agreements where appropriate for the delivery of services. coordinates Maine's early Intervention Services through Child Development Services System, and manages Maine's Reading Recovery Program.

This team also administers a number of Federal programs including the Adult Basic Education Grant, Carl Perkins Vocational and Applied Technology Education Grant, School to Work Opportunities Act, Even Start Family Literacy Program, Learn and Serve Grant, Neglected, Delinquent and At-Risk Programs, George Briggs Grant, Improving America's Schools Act, and Individuals With Disabilities Act, Parts B, D, and H.

#### ORGANIZATION:

The Learning System Team was organized into its current structure in 1996 and consists of educational support service functions that formerly cut across two educational bureaus and four divisions. The current team approach combines related instructional services under one team leader and policy director who works directly with team leaders to bring together in a cohesive fashion the services and functions related to the education and instruction of Maine's residents receiving education through the secondary level.

A number of advisory committees and task forces are integral components of this team's management, informational, and decision making structure. Some of these groups are: Committee on Transition, Maine Vocational Association, Technology Educators Association of Maine, Trade and Industry Maine Educators, Maine Adult Education Association, Maine Advisory Panel on the Education of Children with Disabilities, School Health Advisory Committee, Interdepartmental Coordinating Committee on Early Intervention, Comprehensive Systems of

### PURPOSE:

This unit consists of Administrative Services which support the operations of the Department of Education in the areas of personnel, affirmative action, the APA process, the Department's annual regulatory agenda and technology and telecommunications initiatives, legislative activity, and support for the State Board of Education. Each of the activities has broad responsibilities for both supporting the work of all other organizational units in the Department and representing the Department within these areas of responsibility.

## DEPARTMENT OF EDUCATION

### ORGANIZATION:

This Unit reports directly to the Office of the Commissioner. The Unit was created through a restructuring which was approved by the Legislature in the First Regular Session of the 116th Legislature. This restructuring reduced the number of offices and divisions within the Department of Education and created organizational units which more clearly reflect the needs of the people both inside and outside of the Department who are served by these units.

### PROGRAM:

Affirmative Action Unit/National Origin Desegregation. Provides information and technical assistance to local school districts in cooperation with other affirmative action programs and agencies; responsibility for Maine's Methods of Administration for Civil Rights Compliance in Vocational Education and compliance with the Americans with Disabilities Act Office of Personnel. Provides personnel-related services to department employees, including labor relations activities. **PURPOSE:**

This Team administers the School Finance Act and controls distribution of state subsidies for all school administrative units. Local school accounting and reporting systems are coordinated to provide the basis for State support of local education and accountability of the program.

The program of data processing support includes collection, control, processing, programming, production, and dissemination of financial and statistical data in support of most departmental programs (Teacher Certification, Nutrition, Special Education, Vocational Education, Local Staff Information, etc.) and Legislative, local, and public needs.

The Team also provides technology support to all Department staff.

**ORGANIZATION:**

The Team functions organizationally in three sections: the General Purpose Aid Sub-Team, the Data Processing Sub-Team, and the Title VI Sub-Team.

During 1998-99, the Team had a legislative count of fifteen positions. Beginning in 1996-97 and as a result of the reorganization of the Department of Education, the new Management Information Systems Team now includes Title VI's four positions and Title I's two data entry positions.

**PROGRAM:**

The Team's annual production goals were met with completion of all programs. In the General Purpose Aid Sub-Team, the actual distribution of the 1998-99 school subsidies was processed and analysis and management information were prepared and distributed for the 1999-2000 subsidy program and legislative actions.

The legislative program in school financing, including the submission of actual costs and the Commissioner's funding levels for the subsequent year, was prepared in accordance with the School Finance Act of 1985, which became effective on July 1, 1985, and the School Finance Act of 1995.

#### **PURPOSE:**

The Regional Services Team is comprised of nine Regional Education Representatives and an Education Team/Policy Director. The team provides assistance to local school systems, administrators, teachers, staff and communities, in nine regions across the State, to implement and integrate standards-based reform initiatives including Learning Results, the knowledge and skills essential to prepare students for the future; comprehensive state and local assessment systems to measure student achievement of the Learning Results; and support services to assure students fair and appropriate opportunities to achieve the Learning Results.

Team members also represent education on the interagency Regional Cabinets of the Children's Cabinet, which is comprised of the five child-serving state departments. Team members play a leadership role in the regions by providing a direct link from the field to the Department and in forging and supporting a variety of regional partnerships and collaborative efforts to enhance the ability of local school systems to undertake results-based systemic educational improvement efforts.

#### **ORGANIZATION:**

The Regional Services Team was created through the restructuring of the Department approved by the 116th Legislature and represents a new approach to the delivery of services to the field. The nine team members are assigned to represent and serve one of nine regions which comprise 20-24 school administrative units: York, Cumberland, Western Maine, Kennebec Valley, Midcoast Maine, Penquis Valley, Washington, Hancock, and Aroostook. These nine regions fall within the three regions of the Regional Children's Cabinet on which team members also serve.

The restructuring design combines previous duties and responsibilities and assigns new tasks to provide information, professional development, technical assistance and research and development in curriculum, instruction, and assessment in the content area of the Learning Results: special and student

## DEPARTMENT OF EDUCATION

support services, and comprehensive school improvement and reform. Regional representatives work at the district level, across districts in a region, across regions and statewide for a variety of purposes. Team Members work collaboratively with external organizations, agencies and other internal teams to assure comprehensive, integrated and coordinated services to the field.

### PROGRAM:

The Regional Education Representatives provide a wide array of services to the school systems in their region and state wide. They provide technical assistance and support to superintendents, administrators, teachers and other education staff to coordinate local and regional efforts to implement the Learning Results; identify and broker professional development opportunities matched to the needs of educators and school systems; work with regional groups and organizations to establish or enhance partnerships and collaboratives; collaborate with a variety of agencies, educational institutions, organizations, and partners; provide expertise in curriculum content areas and other special areas of expertise statewide; provide expertise in the design and construction of the Learning Results and the Maine Educational Assessment.

Team members also staff and serve on state level initiatives of the Commissioner, e.g., Assessment Design Team, Professional Development Design Team, Maine Center for Inquiry on Secondary Education; coordinate, support and monitor Children's Cabinet interagency initiatives at the Regional level, e.g., Local Case Resolution, Pooled Flexible Funding, Communities for Children Partnership; provide information and assistance to the Education Committee of the Legislature.

Two team members with expertise in mathematics and science work with the Maine Mathematics and Science Alliance and administer the federal Title II Eisenhower Program to provide professional development to teachers K-12 and grants to elementary schools to improve student achievement in mathematics and science. The Education Team Leader and Policy Director for the Regional Services Team oversees the work of this team and also serves in a leadership role in the areas of Personnel and Quality Assurance.

## DEPARTMENT OF EDUCATION

### **PURPOSE:**

This Team is comprised of five Sub-Teams: Certification Sub-Team licenses educational personnel to be employed in Maine's schools. Finance Sub-Team provides centralized control over all fiscal operations of the Department. Higher Education Sub-Team provides the leadership and service necessary to respond to the broad postsecondary academic, technical, and training needs of Maine citizens. School Construction & Transportation Sub-Team approves all major school construction projects in cooperation with the Commissioner of Education and the State Board of Education and approves the commitment of State funds for bus purchases and bus note subsidies. Food Service Sub-Team provides technical and financial assistance to public and private schools, charitable and residential child care institutions and summer camps.

### **ORGANIZATION:**

The Certification Sub-Team consists of six positions to evaluate, write, and issue certificates and educational technician authorizations, and to monitor and assist school systems. The Finance Sub-Team consists of three sections: the Budget section with one position, the Accounting and Reporting section with nine positions, and the Audit section with two positions. The Higher Education Sub-Team consists of one position to provide direct services to postsecondary educational institutions and the general public. The School Construction & Transportation Sub-Team consists of four positions to administer rules and regulations for elementary and secondary school construction facilities, renovations, and maintenance and provide oversight of all school bus purchases.

The Food Service Sub-Team consists of nine positions to administer the National School Lunch and Breakfast Programs, the Summer Food Service Program, the School Milk Program, the Nutrition Education and Training Program, and the Food Distribution Program.

### **PROGRAM:**

The Certification Sub-Team is responsible for issuance of certificates and authorizations by evaluating transcripts, analyzing files for approved program and interstate reciprocity status or transcript analysis, writing certificate and evaluation letters, distributing renewal applications and supplemental materials, analyzing administrator portfolio material, screening all applicants for criminal or immoral conduct, holding informal and formal hearings for possible adjudicatory hearing, approving exceptionality courses, working with colleges and universities for course and program approval, and working with other states for interstate compact agreements. The Finance Sub-Team accomplishes its purpose with a system designed to support the goals and objectives of the various programs of the Department by applying sound fiscal management principles.

The Higher Education Sub-Team provides direct services to and collaboration with Maine's 32 degree-granting institutions, 48 proprietary schools, educational constituent groups and related local, state, and national agencies to: advance higher education and lifelong learning experiences, advocate for increased quality and diverse student entry into postsecondary education. School Construction & Transportation Sub-Team - During the 1999 fiscal year, there were 8 construction projects approved at a total cost of \$86,001,318. There were 94 bus purchase approvals issued and the expenditure of \$4.5 million school bus purchases and bus note payments. Regional school bus safety conferences were conducted throughout the State.

The Food Service Sub-Team reimbursed \$21,928,588 in Federal and State funds to schools and other food service sponsors for serving nutritious meals to school children. Meals subsidized in whole or in part during the year included 16,982,861 school lunches; 3,981,080 school breakfast, and 958,465 half pints of milk. The Summer Food Service Program made available \$686,214 in meal reimbursement and \$70,003 in administrative reimbursement to schools, other sponsors, and government agencies. Total meals served in the summer were 425,789. Through a private storage and transportation contract, USDA commodity foods valued at \$2,959,318 were allocated and distributed.

#### PURPOSE:

The mission of Education in the Unorganized Territories is to deliver a comprehensive range of educational services to all eligible pupils aged 3 to 20 who are legal residents of the Unorganized Territory of Maine.

Title 20-A, Chapter 119 establishes the Commissioner's statutory authority to provide elementary and secondary schooling through the operation of schools in the unorganized territory or to provide resident pupils with transportation services and tuition in order to attend school in the nearest public school system. A total of 1,350 pupils reside in the unorganized territory.

#### ORGANIZATION:

Education in the Unorganized Territories consists of a Director, an Education Specialist III who serves as the Director of Special Education for the UT, a Business Manager, a Secretary, and a part time Account Clerk. All positions except the Director of Special Education, are located at the central office in Augusta.

#### PROGRAM:

Education in the Unorganized Territories is responsible for the operation of six elementary schools with a total enrollment of approx. 250 pupils (Benedicta, Connor, Edmunds, Kingman, Rockwood, and Sinclair). Employees in these schools include principals, teachers, secretaries, teacher aides, janitors and cooks. Transportation for these schools is provided through the operation of 10 buses. In addition, 1,100 pupils are tuitioned to local school systems, with transportation provided through the operation of 13 buses and approx. 30 contracted conveyances. Pupils who reside in more remote locations are provided educational services through a variety of alternative methods including room and board in lieu of transportation, tutors, home schooling, etc.

*OFFICE OF POLLUTION PREVENTION*

*BUREAU OF REMEDIATION AND WASTE MANAGEMENT*

*BOARD OF UNDERGROUND STORAGE TANK INSTALLERS*

**PURPOSE:**

The Department of Environmental Protection is charged by statute with protecting and improving the quality of our natural environment and the resources which constitute it, and with enhancing the public's opportunity to enjoy the environment by directing growth and development in a sustainable fashion. The Department will advocate programs and regulatory decisions that contribute to the achievement of this mission.

The Department, through authority vested in the Commissioner and the Board of Environmental Protection, exercises the police powers of the state to prevent the pollution of the natural environment. It recommends to the Legislature measures for elimination of environmental pollution; grants licenses, and initiates enforcement actions. Its staff negotiates agreements with federal, state and municipal agencies, administers laws relating to the environment, and educates the public and regulated community on environmental issues and obligations.

**ORGANIZATION:**

The Department of Environmental Protection is descended from the Sanitary Water Board, created in 1941, to study, investigate and recommend means of eliminating pollution and to prevent pollution of waters used for recreational purposes in the state. On July 1, 1972, the Department was formally created with a broad mandate of responsibilities extending well beyond recreational waters.

The Department is organized by program responsibility. Three bureaus administer programs and laws according to environmental media: Land and Water; Air; and Remediation and Waste Management. Support services in the areas of Budget and Finance, Human Resources, Computer Services, and Training are provided to the Department by the Office of Management Services.

The Office of the Commissioner provides day to day support for the chief executives and coordinates intra-agency programs and initiatives. Legislation, department-wide initiatives, multi media enforcement, broad education and outreach, environmental innovation and technical assistance, policy development and implementation, and the Maine Environmental Priorities Council are coordinated by the Office of the Commissioner.

**PROGRAM:**

The Department of Environmental Protection's activities, goals, objectives and plans are reflected in the reports of the individual bureaus. The Bureau of Air Quality administers state air pollution laws and the Federal Clean Air Act. The bureau conducts air monitoring and modelling, licenses air emissions, enforces license conditions and manages technical data.

The Bureau of Remediation and Waste Management is responsible for managing hazardous wastes, hazardous substances, petroleum products and biomedical waste; administering the solid waste facility licensing program, the asbestos and lead abatement programs, and the sludge and residuals landspreading program; responding to discharges or spills of oil products or hazardous matter; and directing the cleanup or mitigating of adverse effects associated with uncontrolled hazardous substance sites.

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

The Bureau of Land and Water Quality is responsible for regulating large-scale land development, reviewing activities which affect critical resources of state significance, assessing the quality of Maine's waterways, and reporting their uses and recommended classification to the Legislature.

### LICENSES:

Licences: Air Emission, Oil Terminal Facility, Hazardous Waste Treatment Facility & Storage Facility, Hazardous Waste Transporter, Vessels at Anchorage, Waste Oil Storage Facility, Waste Oil Dealer & Transporter, Hazardous Waste Disposal Facility, Septage Sites, Solid Waste Facility, Waste Water & Experimental Discharge. **PURPOSE:**

The A.C.E. Service Center was established by PL95 c.502 to provide certain administrative services to the Department of Agriculture, Food and Rural Resources; the Department of Conservation; and the Department of Environmental Protection. Administrative services include but are not limited to, support services in financial and human resources, inventory management, courier services and other such functions as may be determined jointly by the commissioners of the three departments. The Center's purpose is to provide administrative services in an efficient and cost-effective manner to the departments.

**ORGANIZATION:**

The Center was formed by merging the staffs and functions of the departments of Agriculture, Food and Rural Resources; Conservation, and Environmental Protection as part of the implementation of the recommendation of the Productivity Realization Task Force. The Center provides human resource, payroll, accounting, financial, inventory, and administrative services to the three departments. The Center is under the joint authority and direction of the commissioners.

**PROGRAM:**

The Center provides human resource, payroll, accounting, financial, inventory, and administrative services to the departments of Agriculture, Food and Rural Resources; Conservation, and Environmental Protection.

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

### **PURPOSE:**

The Bureau of Air Quality exists to implement state air pollution laws and the federal Clean Air Act, as amended.

### **ORGANIZATION:**

The Bureau of Air Quality is comprised of the Administration Section (which houses the Director, Policy and Procedures Staff, and the Clerical Unit), and three Divisions. The Field Services Division is divided into three sections: the ambient monitoring section operates the statewide ambient monitoring program; the compliance section inspects licensed facilities throughout the state, and the enforcement section oversees emission monitoring on a statewide basis, and enforces documented violations of the rules governing the air program.

The Technical Services Division is responsible for regulatory and program development, data management, and meteorological support. The Division consists of a Standards and Evaluation section, an Air Toxics section, a Mobile Source section, and a Data Management section.

The Licensing Division consists of a Licensing section and a Meteorological section. The Division evaluates air emission license applications, issues air emission licenses, provides technical assistance, and participates in the development of certain rules administered by the Bureau.

### **PROGRAM:**

During 1998, the Field Services Division conducted 244 compliance inspections at industrial facilities, responded to 170 citizen complaints, observed 96 stack tests and Relative Accuracy Test Audits, issued 18 Notices of Violation, and resolved 12 consent agreements. The Division also continued to maintain and operate its ambient monitoring network for both criteria and non-criteria pollutants.

The Licensing Division continued to issue new, renewal, and amended air emission licenses within the context of Maine's State Implementation Plan, and continues to implement the Clean Air Act's Title V program. The Division continues to provide technical assistance to the regulated community and to participate in the drafting and/or revision of regulations.

In addition to rule making activities, initiatives undertaken by the Technical Services Division during 1998 included the development and implementation of a pilot program for testing heavy duty diesel trucks, the development of an automobile emissions inspection and maintenance program in Cumberland County, and the drafting of a report on the environmental benefits and disbenefits of reformulated gasoline. The Division has continued to address issues relating to hazardous air pollutants particularly regarding atmospheric deposition of persistent bioaccumulative toxics such as mercury, dioxin, PCGs, and PAHs. In addition, national and regional models, monitoring, and the state air toxics inventory are being used to evaluate the inhalation risks in Maine due to hazardous air pollutant emissions.

*Telephone:* (207) 287-2812

*M.R.S.A., Sect.* 000000341

*Legislative Count:* 39.50

#### PURPOSE:

The Office of the Commissioner provides coordination of management and planning efforts across the Department, develops and staffs interagency initiatives as directed by the commissioner or the legislature, and develops an overall strategic direction and approach for the Department's efforts with stakeholder involvement.

#### ORGANIZATION:

The Office of the Commissioner consists of the Commissioner, Deputy Commissioner, Office of Innovation and Assistance, Office of Management Services, Office of Education and Outreach, and Office of Policy Development and Implementation.

#### PROGRAM:

The Office of Management Services provides support services to the Department including Computer Services, Financial Management, Human Resources Support, Space Management and Planning, Staff Training Coordination and Administrative Support. Computer Services consists of 5 units: computer operations, system development, EPA and Geographic Information Systems (GIS), systems software, and micro computer support. The Financial Management Unit provides financial management services and is responsible for managing, controlling and reporting fiscal activities of the Department. The Human Resources Unit is responsible for labor relations and coordinating all human resource functions between the Department and A.C.E. Service Center. The Training Unit is responsible for providing training coordination and development in the areas of health, safety, staff development and other Department training initiatives.

The Office of Innovation and Assistance was established to review Department initiatives and make recommendations to the Commissioner on how to integrate pollution prevention and technical assistance into programs. In 1998, the Office of Innovation and Assistance continued to administer the Toxic Use Reduction (TUR) Law and the Small Business Technical Assistance Program

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

(SBTAP).

The Office of Education and Outreach develops and coordinates Department communications. Staff handle communications with the media, state and federal agencies, the Legislature and the general public through a team approach. The Office has designated staff liaisons within the program bureaus. The Office is responsible for the Department's media relations for delivery of proactive, integrated and professional quality educational initiatives.

The Office of Policy Development and Implementation develops departmental policies and procedures in the areas of rule-making, licensing and enforcement. The Office develops departmental policies and procedures for rulemaking, licensing and enforcement, assists programs in rulemaking, licensing and enforcement actions, and is liaison with the Board of Environmental Protection, the Attorney General's office, Department of Economic and Community Development, and U.S. Environmental Protection Agency.

### PURPOSE:

The Board of Environmental Protection exists to provide informed, independent and timely decisions on the interpretation, administration and enforcement of the laws relating to environmental protection and to provide for credible, fair and responsible public participation in department decisions. The Board fulfills its purpose through rulemaking, decisions on selected permit applications, review of the Commissioner's licensing and enforcement actions and recommending changes in the law to the Legislature.

### ORGANIZATION:

The Board of Environmental Protection consists of 10 members appointed by the Governor, subject to review by the Joint Standing Committee on Natural

Resources and approved by the Legislature. The Board has a staff of 1: an Administrative Secretary. Members serve for a term of 4 years. The Governor appoints one member to serve as chair.

Members receive \$55 per day for each meeting or hearing attended and reimbursement for travel expenses incurred while attending any meetings or any other travel in connection with official board business while under the specific authority of the Board.

Regular meetings are held twice monthly in Augusta; other meeting times and places are determined by the Board. Six members of the Board constitute a quorum for the purposes of conducting any meeting or rule-making hearing and three members are a quorum for an adjudicatory hearing.

### PROGRAM:

The Board holds regular meetings on the second and fourth Wednesdays of each month. These meetings are open to the public. In addition, the Board holds public hearings on proposed rules and individual applications of significant public interest. Board members receive material on all pending matters in advance of the regular meetings and are mailed copies of all transcripts of testimony at public hearings, if requested.

### LICENSES:

Approvals by the Department are usually given by the Commissioner except those licenses and permits that have a major policy impact or generate substantial public interest.

## BUREAU OF LAND AND WATER QUALITY

### JEFF MADORE, DIRECTOR

*Central Office:* AMHI RAY BLDG, AUGUSTA, ME

*Mail Address:* 17 STATEHOUSE STATION, AUGUSTA, ME 04333

*Established:* 1994

*Reference: Policy Area:* 05 ; *Umbrella:* 06 *Unit:* 096B; *Citation:* T0038

*Average Count--All Positions:* 75.192

*Telephone:* (207) 287-3901

*M.R.S.A., Sect.* 000001301

*Legislative Count:* 74.00

### PURPOSE:

The Bureau of Land and Water Quality was organized in January 1994 by merging the Bureau of Land Quality Control and the Bureau of Water Quality Control. The Bureau is responsible for administering environmental laws designed to protect and improve the quality of Maine's surface and ground water, and for reviewing land development projects that may have an adverse impact on the natural environment and resources of the state.

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

The state laws administered by the Bureau include: Site Location of Development Act; Natural Resources Protection Act; Mandatory Shoreland Zoning Act (administered jointly with the Land Use Regulation Commission); Maine Waterway Development and Conservation Act; Sanitary District Enabling Act; and the Water Quality laws.

The Bureau receives some federal funding under the Federal Clean Water Act and Coastal Zone Management Act in return for state-level administration of the core laws. The Bureau is also responsible for the completion of Federal Consistency reviews.

### ORGANIZATION:

There are five divisions in this bureau: the Division of Land Resource Regulation, the Division of Water Resource Regulation, the Division of Environmental Assessment, the Division of Watershed Management, and the Division of Engineering and Technical Assistance.

### PROGRAM:

The Land Resource Regulation Division reviews applications under the Site Location Law, Natural Resources Protection Act, and the Stormwater and erosion control laws. The Division also oversees the regulation of borrow pits, quarries, and the Shoreland Zoning Law. The Enforcement and Field Services staff are responsible for licensing, complaint resolution, compliance inspections, education and outreach, and enforcement actions. The Water Resource Regulation Division regulates the discharge of pollutants to surface or ground waters of the state as authorized under the Protection and Improvement of Waters Law. Its activities include licensing, certification, enforcement and inspection. The Division also issues licenses and water quality certifications to hydropower facilities.

The Division of Engineering and Technical Assistance oversees the operation of all wastewater treatment facilities and certifies wastewater treatment operators in the State of Maine. The Division administers four funding programs for the planning, design and construction of wastewater treatment facilities. The State Revolving Fund (SRF) maintains Maine's existing inventory of municipal wastewater treatment facilities by funding rehabilitation and upgrade projects. The Small Communities and Combined Sewer Overflow Programs are focused on other municipal point source water quality problems throughout the State. The Overboard Discharge Law allows grants to individuals with licensed systems. The Division also oversees pollution prevention and innovative technologies.

The Division of Environmental Assessment is responsible for monitoring and assessing ground and surface water quality to provide the scientific foundation for the land and water programs, as well as for developing environmental indicators to evaluate program effectiveness. The Division oversees the Surface Water Ambient Toxics Monitoring Program, the Dioxin Monitoring Program, and the Lakes Program and it does Quality Assurance & Control of the Volunteer Monitoring Program. Special services include biological and toxicological lab analysis, specialized computer modeling of wastewater impacts and complete ambient monitoring and investigative capabilities. The Division of Watershed Management looks at water resources holistically, and coordinates regulatory and nonregulatory approaches that are tailored to problems in specific watersheds. It administers the Nonpoint Source Program under the Federal Clean Water Act and activities conducted in conjunction with the Mandatory Shoreland Zoning Act.

### LICENSES:

Municipal, Industrial, Overboard Dischargers, Food Processors/hatcheries Waste Discharge Licenses; Certificates of U.S. EPA NPDES Permits; Certificates of Tax Exemptions; Site Location of Development; Natural Resources Protection Act permits; Stormwater Management Law Permits; Borrow, Clay, Topsoil, Silt and Quarry notices; 401 Water Quality Certificates; Coastal Zone Management Consistency Determination; Hydropower Permits Shoreland Zoning Municipal Ordinance Approvals IRS Certification for five year amortization and for tax exempt bonding FAME certification for loan applicants compliance with environmental laws

## BUREAU OF REMEDIATION AND WASTE MANAGEMENT

### DAVID J. LENNETT, DIRECTOR

*Central Office:* AMHI RAY BLDG, AUGUSTA, ME

*Mail Address:* 17 STATEHOUSE STATION, AUGUSTA, ME 04333

*Established:* 1980

*Reference:* Policy Area: 05 ; Umbrella: 06 Unit: 096D; Citation: T0038

#### PURPOSE:

The bureau administers Maine's oil, hazardous material and solid waste control programs, including: emergency response for oil and hazardous materials spills; regulation of underground oil storage facilities; processing of third party damage claims arising from oil contamination; licensing of waste facilities, waste transporters, oil terminals, and spreading sites for septage sludge and other residuals; oversight of asbestos management and disposal; and investigation and cleanup of uncontrolled hazardous substances sites. The bureau also manages the Maine Coastal and Inland Surface Oil Clean-Up Fund, the Ground Water Oil Clean-Up Fund, the Hazardous Waste Fund, the Uncontrolled Sites Fund, and the Solid Waste Fund, as well as bond accounts for uncontrolled sites and landfill closure.

In 1996, the bureau provided staff support to the Oil Spill Advisory Committee and the Board of Underground Storage Tank Installers.

#### ORGANIZATION:

The bureau was created in 1980 by combining the Bureau of Water Quality Control's Division of Oil Conveyance Services and the Bureau of Land Quality Control's Hazardous Waste Unit. In 1991, the Bureau was reorganized to assume the duties of the former Bureau of Solid Waste Management.

The bureau consists of the Divisions of Remediation, Response Services, Technical Services, Oil and Hazardous Waste Facilities Regulation, Solid Waste Facilities Regulation, and Program Services. The Response Services Division has offices in Augusta, Bangor, Portland and Presque Isle. The remainder of the Bureau has primary offices in Augusta with small staffs in the other three offices.

#### PROGRAM:

The Division of Remediation administers Maine's uncontrolled hazardous substance site program, including state oversight at twelve federal Superfund sites in Maine. This division also is responsible for managing the municipal solid waste landfill closure and voluntary response action programs, and for remediation of oil storage tank leaks, including the development of replacement drinking water supplies. The Division of Response Services responds to reports

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

of spills and releases of oil and hazardous materials, and coordinates emergency clean-up when appropriate. The Response Division prepared the State of Maine Marine Oil Spill Contingency Plan and Emergency Response Plan and is responsible for updating the plans annually. Division of Response services also provides staff support for the Maine Oil Spill Advisory Committee.

The Division of Technical Services provides technical support to bureau programs in the fields of engineering, geology and chemistry. This is accomplished primarily through review of license applications and cleanup plans for technical adequacy, and by conducting inspection and sampling programs. The division has developed regulatory programs for underground oil and hazardous substance storage tanks and works with the Remediation Division on the cleanup of leaking oil storage facilities, including development of replacement drinking water supplies. The Division of Oil & Hazardous Waste Facilities Regulation oversees Maine's oil, hazardous waste and biomedical waste facility licensing and enforcement program. The division also processes damage claims arising from oil contamination and claims for reimbursement of oil spill clean-up costs under the Ground Water Oil Clean-up Fund.

The Division of Solid Waste Facilities Regulation is responsible for licensing and enforcement activities related to solid waste facilities, including land application of sludge and residuals, and for administration of asbestos and lead abatement programs, including certification of asbestos and lead abatement workers. The Division of Program Services is responsible for management of Bureau funds; fiscal and resource forecasting; recovery for expenses incurred in clean-ups; contracting for goods and services; grant procurement and tracking; management of Bureau data operations; strategic planning; and general support of Bureau program operations.

### **LICENSES:**

## BOARD OF UNDERGROUND STORAGE TANK INSTALLERS

### WAYNE GIFFORD, CHAIRMAN

*Central Office:* AMHI RAY BLDG, AUGUSTA, ME

*Mail Address:* 17 STATE HOUSE STATION, AUGUSTA, ME 04333

*Established:* 1985

*Telephone:* (207) 287-2651

*Reference:* Policy Area: 05 ; Umbrella: 06 Unit: 481 ; Citation: T0032 M.R.S.A., Sect. 000010003

#### PURPOSE:

The Board of Underground Storage Tank Installers was established to safeguard the public health, safety and welfare, by assuring the availability of underground storage tank installations of high quality to persons in need of these services. See 32 MRSA 10001 et.seq.

#### ORGANIZATION:

The board consists of 7 members appointed by the governor as follows: one from the DEP; one from either the Maine Oil Dealers Association or the Maine Petroleum Association; one underground oil storage tank installer; one from the Oil and Solid Fuel Board, the Plumber's Examining Board or the State Board of Certification for Geologists and Soil Scientists, one from the Maine Chamber of Commerce and Industry; one from the Fire Chiefs Association; and one public member.

Current members are:

Wayne Gifford, Chair (Maine Oil Dealers Association)-term expires 12/31/97;

Vacant (DEP)-term expires 12/31/99;

William Carver (certified installer)-term expires 12/31/01;

Vacant (Maine Oil and Solid Fuel Board) - term expires 12/31/01;

Roger Lewis (public member)-term expires 12/31/98\*;

Joseph Probert (Maine Chamber of Commerce)-term expires 12/31/95;

Raymond Poulin (Maine Fire Chiefs Association)-term expires 12/31/99.

The DEP provides staff support to the board.

\*Mr. Probert continues to serve until a replacement is named.

#### PROGRAM:

During 1998, the Board of Underground Storage Tank Installers continued to implement its certification procedures. Three written examinations were offered in FY 99: 12/2/98, 12/8/99, and 4/7/99. All examinations are available to applicants. These include the final exams for classes 2 and 3 underground oil tank installers, as well as initial exams for underground gasoline tank removers

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

and an on-site examination checklist for underground gasoline tank removers. Two (2) applicants successfully completed the entire new certification process in FY 98 and have become certified as oil tank installers. In addition, all members of the DEP's Oil Enforcement Unit in the Bureau of Remediation and Waste Management took and passed the initial installer exam.

A total of 368 certificates for underground oil storage tank installers and 86 apprentices have been granted since the inception of the program. For various reasons some have not recertified. The current number of certified underground oil tank installers in Maine is 146.

The Board sponsored or approved 19 continuing education workshops, totaling 71 available credit hours, for installers to meet continuing education requirements. Several of the programs offered multiple sessions scattered throughout the state. This increased the options available to installers. Fourteen (14) complaints against installers, apprentices, or applicants were received and investigated in FY 98. Fourteen (14) complaints against installers were resolved in FY 1998, including eight (8) which had carried over from FY97. Seven (7) remain active into the next Fiscal Year.

**PURPOSE:**

The Governor serves to direct the affairs of the state according to law; to take care that the laws be faithfully executed; to give the Legislature information regarding the condition of the State and recommend measures for their consideration; to submit to the Legislature a biennial budget for the operation of State government; to act as Commander-in-Chief of the military forces of the State; to nominate and appoint all judicial, civil and military officers of the State except as otherwise provided by law; to require information from any officer in the Executive Branch upon any subject relating to the respective duties; to grant reprieves, commutations and pardons and remit, after conviction, forfeitures and penalties; and to accept for the State any and all gifts, bequests, grants or conveyances to the State of Maine.

**PROGRAM:**

In addition to providing for its own staff support, the (Office of ) Governor serves to coordinate and develop the several planning responsibilities of State government; to improve the relationship between the State government and its employees; and to operate, maintain and display to the public the Blaine House, as the official residence of the Governor. Some programs are so closely allied to the (Office of) the Governor as to be in reality a part of it. A brief description of each follows.

Governor's Office. The administrative office of the Governor serves to provide staff support to the Governor as he carries out the responsibilities of the Chief Executive of the State of Maine. This support includes functions of correspondence, policy development, legislative relations, national and regional Governors' associations and scheduling preparation of reports and addresses, public information, executive appointments, case work, and managing the operating budget of the Governor.

Blaine House. The Blaine House, a National Historic Landmark, is the official residence of the Governor of the State of Maine. The Blaine House staff provide services for the Governor, the Governor's family and guests; to maintain House offices for the Governor; to display the mansion during public visiting hours; and to assist at official receptions and other gatherings at the Blaine House. The Governor is responsible for the operation of the building and general maintenance of its interior. The Bureau of General Services maintains the grounds, service buildings and exterior of the mansion, and is authorized to approve and execute any remodeling of the interior.

## LAND FOR MAINE'S FUTURE BOARD

### MARK DESMEULES, COORDINATOR

*Central Office:* 184 STATE ST, AUGUSTA, ME

*Established:* 1987

*Telephone:* (207) 287-3261

*Reference:* Policy Area: 00 ; Umbrella: 07 Unit: 113 ; Citation: T0005 M.R.S.A., Sect. 000006202

### PURPOSE:

The Land for Maine's Future Board was originally established to administer a \$35 million bond fund to acquire land of statewide significance, representing Maine's heritage of recreational and conservation use, for the citizens of Maine.

### ORGANIZATION:

The Land for Maine's Future Board was created by referendum in November of 1987 to grant funds for land acquisition. The board overseeing the fund consists of eleven members (5 MSRA Chapter 353 Sec. 6202), five of whom are commissioners and directors of natural resources agencies with the remaining six being private citizens appointed by the Governor. State agency membership consists of the Director of the State Planning Office (Chair of the Board) and the commissioners of the Department of Agriculture, Food & Rural Resources, the

## EXECUTIVE DEPARTMENT

Department of Inland Fisheries and Wildlife, the Department of Conservation, and the Department of Marine Resources. The Director of the Program is a member of the State Planning Office.

### PROGRAM:

The Board has been meeting regularly since 1988 when it was charged to complete an assessment of the state's public land acquisition needs. The needs assessment was composed of: public participation/outreach; creation of a state lands inventory; and a summary of existing acquisition programs. A scoring system was devised to enable LMF to rate proposals based on a host of attributes important to the citizens of Maine. These include naturalness of the land; accessibility of the land; proximity to other state lands; and multiple values. In January of 1996, the Governor established the Land Acquisition Priorities Advisory Committee to conduct a contemporary needs assessment for conservation and recreation lands. Based on this assessment, which included multiple public listening sessions held throughout Maine, newly adopted priorities focus on: Access to Water; Southern Maine Conservation Lands; Ecological Reserves; River Systems; and Undeveloped Coastline.

The Land for Maine's Future Board continues to pursue its land acquisition strategy under its Legislatively established authority. All of the original 1987 Bond funds have either been spent or obligated, however, the 118th Legislature appropriated \$3 million to the Board to continue its work acquiring land and interests in land. This appropriation also set aside 20% for the conservation of farm lands. In 1998, fifty-three nominations were received by the Board, the largest slate of proposals ever presented to the Board, and fourteen were selected as finalists. This includes three farm projects.

In FY99, the Land for Maine's Future Board was involved in four acquisitions and one assist. These include a 5.5 acre ocean front beach addition to Birch Point Beach State Park in Owshead; 31 acres of river shore protecting over half a mile of Atlantic salmon spawning and rearing habitat also along the Ducktrap River in Lincolnville; 25 acres of river shore protecting a quarter mile of Atlantic salmon spawning and rearing habitat also along the Ducktrap in Lincolnville; 334 acres in fee and 753 acres in easement surrounding Fiery Mountain/Tunk Lake in Franklin; and an assist to the Department of Transportation in acquiring 20 acres of wetland along the Dyer River in Newcastle.

**PURPOSE:**

The basic purpose of the Council is to advise the Governor, Legislature, and state agencies in the formulation of policies for management of the State's land and water resources to achieve state environmental, economic, and social goals. Originally established by Executive Order in 1976, the Legislature established the Council by statute in 1993. This enabling legislation requires the Council to: recommend coordinated state policy on major programs or proposals that may affect the natural environment and land use management issues that concern multiple state agencies; support integration of information useful for management of land and water resources; provide direction and coordination for state agency land and water use planning and management programs; periodically evaluate and recommend any needed changes to the state's environmental regulation and growth management programs; study specific land and water resources management issues of state concern as needed.

The enabling legislation further requires the Council to: develop sound and coordinated policies; seek cooperation with federal agencies responsible for the management of land and water resources; and, pursuant to a 1997 amendment to enabling legislation, administer the Lakes Heritage Trust Fund.

The Council carries out studies and policy development on specific issues, as required by the Legislature.

**ORGANIZATION:**

The Council is established by 5 MRSA '3331. The Council's membership is as follows: the Commissioner of Agriculture, Food, and Rural Resources, the Commissioner of Conservation, the Commissioner of Environmental Protection, the Commissioner of Human Services, the Commissioner of Inland Fisheries and Wildlife, the Commissioner of Marine Resources, the Commissioner of Transportation, the Commissioner of Economic and Community Development or the Commissioner's designee, and the Director of the State Planning Office. The Governor appoints the Chair and has appointed the State Planning Office Director to Chair the Council.

**PROGRAM:**

The Council's primary policy development initiatives at this time include: coordination of State's environmental monitoring and assessment efforts; coordination of State remote sensing data collection efforts with the U.S. Navy; coordination of State development and implementation of non-point source pollution controls in accordance with Section 6217 of the Coastal Zone Management Act and Section 319 of the Clean Water Act; and ongoing oversight of policy development and implementation initiatives regarding priority watershed protection, great ponds, mercury contamination, and wetlands.

#### **PURPOSE:**

The State Planning Office has four core duties assigned to it by statute that include coordinating the development of the State's economy and energy resources with the conservation of its natural resources; providing technical assistance to the Governor and Legislature by undertaking special studies and plans and preparing policy alternatives; providing technical assistance to local and regional planning groups; and conducting continuing economic analysis, including economic forecasting. It is the mission of the State Planning Office to plan for the future of Maine's natural resources, economy, and governance.

#### **ORGANIZATION:**

The State Planning Office was established in 1968 by statute within the Executive Department. It reports to the Governor but is routinely called upon to assist the Legislature, other state departments and agencies, and local and regional governments in a variety of planning and program areas. The State Planning Office is organized into teams, including: the Director's Team (consisting of the Director, the State Planner, and the State Economist), the Management and Support Team; and five teams aimed at accomplishing different aspects of the office's mission - the Community Assistance, Community Service, Economic & Demographic Analysis, Natural Resources and Energy, Land Use Planning teams. Crosscutting project teams are also assembled as needed to accomplish specific multijurisdictional projects or new projects assigned by the Governor or Legislature.

The State Planning Office is guided by four goals: Goal A: Maine's decision-makers will have the analyses and policy options necessary to integrate the development of the state's economy with the conservation of its environment.

Goal B: Maine's state agencies will have the information and analyses to make government more effective and responsive to our citizens' needs. Goal C: All of Maine's municipal leaders will have the tools and assistance they need to make fiscally and environmentally sound decisions that support local and state land use and infrastructure policy. Goal D: Maine decision-makers will have the analyses and policy options they need to embrace emerging economic opportunities and to bring the state successfully through periods of economic change.

#### **PROGRAM:**

The State Planning Office is delegated the following responsibilities via statute or by the Governor to help carry out its public purpose: (Goal A) - develop policy options for the Governor and Legislature through the Land & Water Resources Council (5 MRSA 3331); administer the Land for Maine's Future Program (5 MRSA 6204); coordinate and administer the Maine Coastal Program; coordinate the implementation of the Atlantic Salmon Conservation Plan (Executive Order dated December 15, 1997); coordinate hydro dam re-licensing and the removal of the Edwards Dam on the Kennebec River; coordinate the implementation of the Gulf of Maine Action plan; prepare the Waste Management & Recycling Plan (38 MRSA 2122); develop statewide landfill capacity at the direction of the Legislature (38 MRSA 2154);

(Goal B) - assist state agencies with strategic planning and performance budgeting; assist the Commission on Performance Budgeting as requested (7 MRSA 1710-N); (Goal C) - work with towns to implement the Community Planning and Investment Program (30 MRSA 4312(s)); lead the Governor's "Livable Communities" initiative; provide training and technical assistance for local officials on land use planning, code enforcement, floodplain management, flood mitigation, and community development; certify municipal code enforcement officers (30-A MRSA 4451); assist municipalities with recycling to reduce reliance on land disposal of municipal solid waste (38 MRSA 2133); administer programs of the Commission for Community Service (5 MRSA 7504) to create a strong community service infrastructure;

## EXECUTIVE DEPARTMENT

(Goal D)-staff the Consensus Economic Forecasting Commission(5 MRSA 1710); chair the Revenue Forecasting Committee(5 MRSA 1710-E); publish the long-term economic forecast; track, interpret, and disseminate information about key economic indicators(MaineGraph) and expected economic trends; analyze their social and economic implications and inform decision-makers; serve as the Governor's liaison with the Legislative Standing Committee on Utilities and Energy; prepare overviews of current and emerging industries and develop policy options; undertake special projects to conduct economic impact analyses, modeling, and statistical analyses; serve as the State's Census Data Coordinator; conduct intergovernmental reviews; prepare and implement federal and state energy policy; oversee the decommissioning of Maine Yankee(25 MRSA 52).

## EXECUTIVE DEPARTMENT

### PURPOSE:

The fundamental goals and objectives of the Public Advocate office are to represent the interests of the consuming public in utility-related proceedings before the Public Utilities Commission, federal agencies and the relevant courts, and to represent the public in matters relating to workers' compensation insurance rate proceedings before the Superintendent of Insurance and the courts.

This year the Public Advocate's office completed its seventeenth year of advocacy on behalf of utility consumers before Maine's Public Utilities Commission.

### ORGANIZATION:

The Public Advocate's office was established by statute in 1981 as an agency of the Executive Department in order to represent the interests of utility consumers before regulatory bodies, the courts and the Legislature. Since 1988 the Public Advocate has also represented the Governor's Office in negotiations with other states and regional compacts for access to disposal facilities capable of accepting shipments of low-level radioactive waste from Maine's multiple generators of this waste.

Beginning in 1989 the office moved from a General Fund basis for its budgets and operations to a system of utility assessments, supplemented by low-level radioactive waste fund transfers from the Advisory Commission on Radioactive Waste. In 1998/99 the office received no General Fund appropriations. In addition to the Public Advocate, Stephen Ward, the office employs six staff people including four attorneys. Mr. Ward was appointed Acting Public Advocate in 1986 by Governor McKernan and was confirmed by the Legislature in August 1987 following a confirmation hearing. At the request of Governor King, Mr. Ward has continued as Public Advocate following King's inauguration in 1995.

**PURPOSE:**

To protect and preserve the health and welfare of Maine citizens. This is accomplished by administering programs, promulgating policies and providing services established by Federal and State laws. The Department directs a wide-ranging system of programs in health, social services, income maintenance, public health and medical services in order to accomplish its mission.

**ORGANIZATION:**

The Department of Health and Welfare originated in 1885 with the creation of the State Board of Health, consisting of six members appointed by the Governor to supervise the interests of health and life of the citizens of Maine.

The Board was replaced in 1917 by the Department of Health, under the direction of a Commissioner of Health, and a new Public Health Council. Social Welfare functions of the present Department originated in 1913 with the creation of the State Board of Charities and Corrections, consisting of five members appointed by the Governor to supervise the State's system of charity and correctional institutions. This Board was redesignated Department of Public Welfare in 1927 with the Board members becoming Commissioners of the Department of Public Welfare.

In a major reorganization of State Government in 1931, the Department of Health and the Public Health Council were abolished and their duties assumed by a new Bureau of Health; the Department of Public Welfare was abolished and its public welfare and correctional institution duties divided between new Bureaus of Social Welfare and Institutional Service; the whole incorporated into a new Department of Health and Welfare under the direction of the Commissioner of Health and Welfare. Among other organizational changes, the Division of Research and Vital Records, successor to the original Registrar of Vital Statistics dating back to 1891, had been moved to the Bureau of Medical Services. In 1939, the Bureau of Institutional Services was separated from the Department to become the Department of Institutional Service, forerunner of the Department of Mental Health and Mental Retardation and Department of Corrections.

Since 1931 there have been gradual changes in the Department's structure, including a name change to Department of Human Services in 1975. There are now two Deputy Commissioner positions, five bureaus delivering client services through three regional districts, with a total of 17 regional client offices. One Deputy Commissioner is in charge of programs delivered by the Bureaus of: Health, Child and Family Services, Family Independence, Medical Services, Elder and Adult Services and also the of Administrative Hearings unit. The other Deputy Commissioner is responsible for the Department's Budget Development, Regional OMB Operations, Human Resources, Technology Services, Equal Opportunity and Affirmative Action, and Finance, plus coordination with the Auditing, Contracting and Licensing Service Center.

# DEPARTMENT OF HUMAN SERVICES

## PROGRAM:

Title 22, MRSA Chapter 1, establishes that the Department of Human Services shall be under the control and supervision of a Commissioner of Human Services who shall be appointed by the Governor, subject to review by the Joint Standing Committee on Human Resources and to confirmation by the Legislature, and shall serve at the pleasure of the Governor. The Commissioner is responsible for administering the Department which has the responsibility to protect and preserve the health and welfare of Maine citizens through planning, authorization, administration and audit of programs established by law and/or administrative fiat and assigned to the Department by the Maine Legislature, the Governor and other various federal agencies with which the Department has contracts for services.

Office of Public and Legislative Affairs: The function of the Office of Public and Legislative Affairs is to maintain a liaison with the Office of the Governor, the Maine State Legislature, and the public in order to monitor legislation affecting the department: to prepare departmental information for legislative issues at both the local, state and national level; to maintain regular contact with the press, radio and television media, consumer groups, other agencies and community associations; to oversee production of informational pamphlets explaining departmental service or educational programs in the field of health care and social services; to advise program managers on communication methods best suited to promote their programs; to develop departmental information programs for employees including publication.

Office of Administrative Hearings: This office conducts all hearings of appeals of Departmental decisions or actions. It renders binding decisions on behalf of the Commissioner except for certain cases where its findings are advisory to the Commissioner.

**PURPOSE:**

The Certificate of Need (CON) Advisory Committee was established by the cited statute for the purpose of participating with the Department of Human Services in the public hearing process available at the request of persons directly affected by the review of proposed new health services being conducted by the Office of Health Planning and Development.

The Committee evaluates written reports and oral testimony concerning proposals undergoing CON review, from Department staff, applicants and interested or affected persons, questioning participants in the process. Following a public hearing on the matter, the Committee discusses the information obtained, prepares and votes upon a recommendation to be forwarded to the Commissioner of Human Services, concerning whether or not the Commissioner should grant a Certificate of Need permitting implementation of the proposed new health service and/or capital expenditure.

**ORGANIZATION:**

The Committee consists of ten members, nine of whom are appointed by the Governor as representatives of health care provider groups (four members-Hospitals, Nursing Homes, Third-Party Payers, Physicians) and public consumers of health care (five members). The nine appointees serve four-year terms.

The Commissioner of the Department of Human Services has appointed an Associate Deputy Commissioner to serve as ex-officio, non-voting designee.

**PURPOSE:**

The Bureau is responsible to protect children who are abused, neglected or exploited, to rehabilitate and reunify families when children are separated from them to secure durable family relationships for children who can not return to their own families and to provide for the acquisition of skills and abilities for productive adulthood.

The Bureau also promotes quality out of home care for Maine children through the licensing of providers, through resource and policy development and through advocacy for providers and children.

**ORGANIZATION:**

The Bureau of Child and Family Services was established as the Bureau of Human Services by statute in 1974 as a separate and distinct organizational unit of the Department of Health and Welfare (now the Department of Human Services). Among its responsibilities were those formerly assigned to the department's

## DEPARTMENT OF HUMAN SERVICES

Office of Resource Development which was created in 1973 to administer the state's new Priority Social Services Program. The 107th Legislature changed the bureau's name to the Bureau of Resource Development.

In 1980 the 110th Maine Legislature renamed the Bureau to the Bureau of Social Services. The Maine Legislature renamed the Bureau to the Bureau of Child and Family Services in 1989.

### PROGRAM:

The major task of the Bureau is to assess allegations of abuse and neglect to determine if children are in need of protections. Caseworkers assist parents to recognize and fulfill their responsibility so that their children may remain safely in their own home. Children that are removed from their parents are provided coordinated services to promote personal growth and healing. Families are also provided services to promote rehabilitation to safely return the child.

Permanency for the child is assured through an adoptive house or a permanent placement if the custodial family cannot be preserved without serious risk to the child.

Studies on child abuse and neglect and later abuse and neglect of adults, have focused attention on the need to expand the Department's capability to address particularly the preventative aspects of this vulnerable target population. A 24-hour capability for response has been operative since 1977. The Bureau continues to explore better methods of service delivery. This process requires continuous research as to people's needs and evaluation of the program in meeting those needs. The Division of Child Welfare is responsible for policy development and quality assurance of child and family services programs administered and delivered by central office and regional offices direct service, management and administrative staff. The Licensing Unit is responsible for the licensing of foster homes and reports to the Director of Operations. Regional Operations is responsible for the day to day operations of the 8 BCFS Districts and their staff who carry out the child protective services.

Reference: Policy Area: 03 ; Umbrella: 10 Unit: 144V; Citation: T0022 M.R.S.A., Sect. 000001019

**PURPOSE:**

The Division of Disease Control exists to investigate and maintain data regarding infectious and non-infectious diseases and to implement prevention whenever possible. Traditionally, the emphasis has been on infection control and epidemic prevention. More recently, increased attention is being given to control or amelioration of chronic diseases (such as cancer), and prevention of illnesses which are attributable to environmental or occupational hazards.

**ORGANIZATION:**

Programs included are: the Acute and Infectious Epidemiology, Occupational Health & Safety, Tuberculosis Control, Refugee Health Assessment Program, HIV and Sexually Transmitted Diseases (STD), Immunization, Cancer Incidence Registration, Environmental Toxicology, and Healthy Maine Year 2000 Surveillance and Assessment Project.

**PROGRAM:**

The Acute and Infectious Epidemiology Program conducts surveillance for notifiable diseases of potential public health significance, in order to implement appropriate preventive measures in a timely manner so that unnecessary morbidity and mortality among the Maine populace can be prevented. Occupational Health & Safety Program conducts surveillance of occupationally-related diseases and injuries in Maine. The Tuberculosis Control Program's goal is to reduce the incidence of tuberculosis by early treatment of individuals with active tuberculosis or tuberculosis related conditions. The goal of the Refugee Program is to prevent and control the health problems of public health significance and improve the health status of the refugee population through health assessment and referral.

The goals of the HIV/STD Program are to prevent HIV transmission, to reduce mortality and morbidity associated with HIV, to prevent and control other sexually transmitted diseases (STD's) including syphilis, gonorrhea, and chlamydia and to reduce mortality and morbidity associated with HIV/AIDS. The major activities performed to meet these goals include HIV, AIDS, and STD surveillance, HIV antibody counseling and testing, partner notification, HIV and STD prevention service contracted through public and private providers, and STD treatment.

The Immunization Program prevents and controls vaccine-preventable diseases including diphtheria, tetanus, pertussis (whooping cough), measles, mumps, rubella (German measles), poliomyelitis, Haemophilus influenza type b (Hib), and hepatitis B. The Cancer Incidence Registration Programs goal is reduce the morbidity and mortality due to cancer by providing basic data for research intervention programs.

The Environmental Toxicology Program provides guidance and leadership on specific toxicological issues confronting the State. The program works collaboratively with other state agencies by reviewing or conducting human health risk assessments for hazardous waste sites and developing health based standards for air and water pollutants. The Toxicology Program also provides information and advice to Maine citizens concerning exposure to environmental hazards. The Healthy Maine Year 2000 Surveillance and Assessment Project is to develop a health surveillance and assessment efforts to assist with the identification, acquisition, and evaluation of data to assess Maine's progress towards reaching its Year 2000 Public Health Objectives. The project integrates various data collection activities to promote a greater use of surveillance data in programs for use by policy decision makers.

#### PURPOSE:

This agency's goal is to assist the older citizens of the State of Maine to secure full and equal opportunity and to maintain dignity, independence and authority in planning and managing their own lives, through the provision of a full range of essential programs and the implementation of policies for and with older people. The Bureau is also responsible for managing Maine's Adult Protective Services and Guardianship programs, and the Disability Determination Services for disability payments under Social Security.

The Bureau of Elder and Adult Services, subject to the direction of the Commissioner of the Department of Human Services, is authorized to establish the overall planning policy objectives and priorities for all functions and activities relating to Maine's elderly which are conducted or supported by the State. The Bureau assists the Legislature and Executive Branches of State Government in the coordination of all government efforts relating to older people. Pursuant to federal and state laws, it prepares and administers a comprehensive State Plan relating to older people. The Bureau has responsibility to plan and advocate for necessary or desirable programs for older people; to develop, issue and enforce rules and regulations; and to conduct training programs for persons in the field of serving older people.

The Bureau of Elder and Adult Services is also responsible for providing or arranging for services to protect incapacitated and dependent adults in danger as specified in the Adult Protective Services Act of 1981. The danger may be as a result of abuse, neglect, or exploitation by others, or as a result of self-neglect. The Bureau is also responsible for the public guardianship and conservatorship of incapacitated adults (other than mentally retarded persons) under the Uniform Probate Code. When less restrictive arrangements are not possible, the Bureau petitions the Probate Court for guardianship and or conservatorship of individuals who are unable to make or communicate responsible decisions for themselves. The goal is to protect and provide continuing care for these individuals. Disability Determination Services, a federally-funded administrative unit of the Bureau, reviews applications and redeterminations of persons for Social Security disability assistance and for SSI.

#### ORGANIZATION:

The Bureau of Elder and Adult Services originated in 1966 as the Services for Aging office in the Division of Family Services, Bureau of Social Welfare within the Department of Health and Welfare. In 1973 the office was established by statute as a separate and distinct organizational unit of the Department, under the name of Office of Maine's Elderly. It was renamed Bureau of Maine's Elderly in amended legislation of that year.

Legislation was passed in 1989 to bring into the Bureau the Division of Adult Services from the Bureau of Social Services as of October 1, 1989, and the agency was renamed as the Bureau of Elder and Adult Services. Responsibility for the Disability Determination Services was given to the Bureau in 1996. It is

## DEPARTMENT OF HUMAN SERVICES

currently one of five bureaus of the State Department of Human Services. The Bureau operates from a central office in Augusta and from the three regional offices of the Department of Human Services. It also designated five private non-profit area agencies on aging across the state, under federal and state law, to receive and administer Older Americans Act funded programs for the elderly.

### PROGRAM:

The focus of the Bureau's programs is to assist persons age 60 and over maintain their independence. It budgeted \$ 29,364,376 of state and federal funds in FY99, and with the Bureau of Medical Services generated an additional \$19,722,644 of Medicaid Waiver funds for in-home long term care services. The Bureau supported, through contracts with five area agencies on aging and other service providers, services such as information and referral, outreach, health insurance counseling, nutrition, in-home care, adult day care, Alzheimer's respite, employment assistance, legal services, long term care ombudsman, assisted living and congregate housing, and transportation. Information and referral services, outreach services, and health insurance counseling were provided to 33,338 people. More than 15,600 people were served hot meals in 116 nutrition sites and through home delivered programs. Through the Senior Community Service Employment Program, 89 older workers served local agencies.

More than 19,000 long term care assessments were completed on consumers wanting to access long term care services. Over 2,760 disabled and elderly persons were helped to remain at home through the Home Based Care Program. The Bureau's three Medicaid Waiver programs for adults and elderly people served over 2,180 persons who would otherwise be in nursing homes. Medicaid private duty nursing services were provided to 1,131 people. Homemaker services were provided to approximately 1,500 consumers. Funds were also provided to support 45 congregate housing services programs for approximately 258 congregate housing residents. In addition, funds were provided to support 3 Assisted Living Licensed CHSP programs for 114 consumers. Alzheimer's respite Services were provided for 743 people. Adult day service funds were used to support 129 consumers at 30 sites. The Bureau's Adult Protective Intake Unit received 9,656 calls where information was taken or provided from concerned citizens.

Those calls resulted in the bureau providing protective services to 2,917 people. The Bureau served as public guardian and/or conservator for 700 people, which involved managing client assets of up to \$2,500,000. BEAS also supported services provided by the Long Term Care Ombudsman and Legal Services for the Elderly. The Long Term Care Ombudsman Program investigated more than 1,476 complaints on behalf of nursing home residents of in home care services, resulting in over 1,000 opened cases. In addition, approximately 900 requests for information were handled by the Long Term Care Ombudsman. LSE served served 7,753 consumers and also received calls for Health Insurance Counseling from approximately 4,303 consumers. The Bureau's Disability Determination Unit reviewed more than 20,222 applications from persons applying for Social Security disability assistance and for SSI. Over 69,000 Maine residents receive \$375million in Social Security disability payments as a result of these determinations.

### PURPOSE:

The primary responsibilities of the Bureau of Family Independence, formerly known as the Bureau of Income Maintenance, are to administer State and Federal programs which provide temporary financial assistance to low income individuals and families. An important part of the Bureau is the Division of Support Enforcement and Recovery which enforces child support orders, establishes paternity, and collects support for children regardless of whether they are receiving welfare. This Division also works with regional staff to recover moneys paid in error, whether through fraudulent activities or not, in the Bureau's welfare programs.

The Bureau administers the Temporary Assistance for Needy Families and Parents as Scholars programs, Food Stamps, Additional Support for people in Re-training and Employment (ASPIRE), General Assistance, and Medical/Cub Care eligibility. In addition to policy and program functions, the Bureau also provides monitoring of recipients through Quality Assurance activities and through audit of municipal welfare programs.

### ORGANIZATION:

The Bureau of Family Independence originated in 1913 with the creation of the State Board of Charities and Corrections. In 1927, the Board was renamed the Department of Public Welfare and in a major reorganization of State government in 1931, the Department became the Bureau of Social Welfare within the newly created Department of Health and Welfare. The Bureau of Social Welfare was renamed the Bureau of Income Maintenance by the 110th Maine State Legislature effective September 18, 1981. The 117th Legislature changed the name of the Bureau to the Bureau of Family Independence in October, 1995 to reflect its change in purpose.

## DEPARTMENT OF HUMAN SERVICES

The Central Office units provide staff support to the Department's fifteen local offices. The Bureau is recognized by statute as an administrative unit of the Department of Human Services. Its internal structure and functions are subject to the discretion of the Commissioner of Human Services. Funding for all programs except General Assistance is provided by the federal and state government. General Assistance is funded by the state and municipal governments. All programs follow the regulations of their respective funding sources.

### PROGRAM:

The welfare programs administered by the Bureau are Temporary Assistance for Needy Families (TANF) which provides a monthly cash benefit to families in which the children are deprived of parental support and care due to the absence from the home of a parent, incapacity of a parent or underemployment of a parent; The Parents as Scholars program provides financial aid to parents enrolled in a 2 or 4 year post secondary program who would be eligible for TANF; Food Stamps which provides a monthly benefit in food coupons to be used to supplement the food budget; Additional Support for People in Re-training and Employment (ASPIRE) whose staff work with people receiving TANF or Food Stamps to find employment which will make them self supporting; Medicaid and Cub Care eligibility which provides payment of medical expenses, including long term care, for persons of all ages and General Assistance which oversees the municipal General Assistance programs required by State law and provides reimbursement.

The Division of Support Enforcement and Recovery is responsible for the establishment and enforcement of child support obligations on behalf of children whose parent(s) are not meeting these responsibilities. Associated tasks involve the location of missing parents and the establishment of paternity of children born out-of-wedlock, as well as the initiation of collection/enforcement action to recover past-due support. Almost \$85.5 million was collected in State Fiscal Year 1998, 70% of which went to Maine families. Support Enforcement Services are available to all who need them irrespective of economic status.

In 1989, the Fraud Investigation and Recovery Unit was re-assigned to the Division. This unit is responsible for the investigation of alleged welfare fraud and the recovery of overpayments of program funds.

**PURPOSE:**

The purpose of the Bureau of Health is to preserve, protect and promote the health of all Maine people. Key strategies include: promoting health through education, motivation, and public policies; conducting disease surveillance and control measures; and diminishing environmental health hazards.

**ORGANIZATION:**

The first State sponsored public health activities were delegated to the State Board of Health in 1885. In 1917, the Board was redesigned into the Department of Health, administered by a Commissioner of Health and a Public Health Council. A major reorganization in 1931 abolished the Public Health Council and relocated the Department of Health as the Bureau of Health within the newly-created Department of Health and Welfare, which became the Department of Human Services in 1975.

The current Bureau of Health's organization consists of the Office of Health Data and Program Management; the Health and Environmental Testing Laboratory; the Division of Health Engineering; the Division of Community and Family Health; and the Division of Disease Control.

The Director of the Bureau of Health also serves as the State's Health Officer. In addition to overseeing the Bureau's programs, the Director is instrumental in furthering relationships with the medical and public health communities in the State and in the Nation.

**PROGRAM:**

The Bureau of Health's programs cover a wide area of topics, including: collecting and monitoring vital statistics; providing lab tests which are in the best interest of the public's health such as rabies and lead poisoning tests; ensuring safe drinking water throughout Maine and food safety in public eating places; working with communities to motivate and educate the public to prevent chronic diseases such as cancer, diabetes, and cardiovascular disease; and conducting surveillance and control measures of acute infectious diseases.

Some issues have arisen as priority areas of concern. For instance, our chronic disease rates are rising, and it is estimated that most people will be sick or die from a chronic disease which is preventable through lifestyle changes such as tobacco or other drug consumption, exercise, and diet. Emerging diseases such as water and food borne illnesses, HIV, rabies, and adult vaccine-preventable diseases also constitute a priority area. In addition, environmental health issues also are an area of concern. Examples of these are:

MTBE contamination of water supplies, fish consumption advisories, childhood lead poisoning, and environmental tobacco smoke (or secondhand smoke).

#### PURPOSE:

The purpose of the Division of Health Engineering is to preserve, protect and promote the well being of the population through organization and delivery of health engineering related services, to minimize health and safety hazards associated with improperly installed plumbing and subsurface waste water disposal systems, to minimize necessary radiation exposure through the licensing and inspection sources of radiation, oversight of low-level radioactive waste generators, and conducting environmental surveillance of nuclear facilities, to minimize unnecessary health hazards associated with food sanitation and recreation activities and to protect human health through maintenance of drinking water quality.

#### ORGANIZATION:

The Division of Sanitary Engineering was established in 1917 within the State Bureau of Health to carry out the Department of Health and Welfare's on-going responsibility in the investigation of drinking water supplies following the great typhoid epidemic between 1902-1904. Later, the Division issued rules relating to the sanitary conditions of hotels and foodhandler, plumbing, occupational health and the registration of x-ray machines and radioactive materials. The name was changed to Division of Health Engineering in 1972. The Division's responsibilities lie primarily in the areas of inspection and enforcement of public health codes established through departmental regulations. The four major programs are Drinking Water Program, Radiological Health Program, Community Health and Plumbing Control Program and the Eating and Lodging Program.

#### PROGRAM:

The WASTEWATER CONTROL PROGRAM is responsible to minimize health and safety hazards associated with improperly installed subsurface wastewater disposal systems to include the licensing of soil evaluators for subsurface wastewater disposal systems, and promulgation of the Subsurface Wastewater Disposal Rules.

## DEPARTMENT OF HUMAN SERVICES

The Wastewater Control Program also collects internal and external plumbing permit fees from the municipalities.

EATING AND LODGING PROGRAM has the mission to minimize unnecessary health hazards associated with food sanitation and recreation activities. The major activities include the licensing and regulation of eating places and lodging places, tent and trailer parks, Boys and Girls camps. This program also provides field support for the Division's programs.

The RADIATION CONTROL PROGRAM is responsible to minimize necessary radiation exposure, and control unnecessary radiation exposure through the licensing and inspection of all sources of radiation (both ionizing and non-ionizing radiation), oversight of low-level radioactive waste generators, Radon education, and registration of Radon testers and mitigators, and conducting environmental surveillance of nuclear facilities. This program also answers Indoor Air Quality complaints so as to minimize the health hazards associated with indoor air.

The DRINKING WATER PROGRAM is responsible to protect human health through maintenance of drinking water. This is done through administration and enforcement of the Safe Drinking Water Act. The program also administers a multi-million dollar Revolving Loan Fund for public water system infrastructure improvements.

### PURPOSE:

The primary function of the Office of Management and Budget is to provide general administrative and financial management services for the entire department.

### ORGANIZATION:

The major divisions of the Office of Management and Budget are as follows: Financial Services, Human Resources, Equal Opportunity and Affirmative Action, Technology Services, and Regional OMB Operations.

### PROGRAM:

**The Division of Financial Services:** This Division is responsible for the preparation of the Department's biennial budget and budget work programs, for all general accounting requirements, for payment of all invoices (except Medicaid), for preparation of all federal financial reports, and for providing budgetary, accounting, and analytical reports to departmental program managers. The Division is comprised of four units: account managers, responsible for preparation and control of the budget and federal reporting; administrative bills paying section; client bills, and cashier unit, including receipt and distribution of child support payments.

**The Division of Human Resources:** This Division functions as a support division by administering the Department's human resources/employee relations requirements. Responsibilities include interpreting and implementing personnel policies as they relate to approximately 2,500 employees in 315 job classifications in 17 geographical locations statewide. Plant & Office Services' primary function is ensuring the Department's smooth and efficient operation by maintaining a continuously updated office supplies inventory and timely mail delivery. The Equal Opportunity Coordinator is responsible for the Department's compliance with all applicable state and federal laws, rules, and regulations regarding equal employment opportunity. The EOC monitors and updates the Department's Affirmative Action Plan; monitors the Department's

## DEPARTMENT OF HUMAN SERVICES

hiring practices; coordinates implementing the Americans with Disabilities Act, including managing accommodation requests, training, and technical assistance.

The Division of Technology Services: This Division is the interface between the Department's automation operations and the state's centralized computers, of which it is the largest user. The Division maintains computerized applications for administering departmental programs and designs and constructs new applications in response to legislation and federal requirements. It also develops new approaches in response to advances in technology to meet the Department's total information needs.

The Division of Regional OMB Operations: This Division is responsible for providing generic administrative support services to program units housed in regional offices. These administrative services are provided for the comfort of the public, as well as staff. The several regional locations enable the public to receive vitally needed services in all areas of the state. The Division's functions fall into five categories: reception services, personnel services, fiscal services, and plant management services.

#### PURPOSE:

The Bureau of Medical Services was created by the Commissioner of the Department of Human Services to administer the Department's major health care financing programs. The Bureau coordinates the programs, assures that they operate under consistent policy in keeping with the Department's goals and Federal mandates, and provides accountability necessary to determine that they are administered in an effective and efficient manner. The specific programs which the Bureau administers are: Medicaid Services, Drugs to Maine Elderly, Maine Eye Care and the licensure and certification of hospitals, nursing homes and a variety of other agencies providing health services.

#### ORGANIZATION:

The Bureau of Medical Services was established in the spring of 1978 and administers its activities through the following operational units: The Division of Licensing and Certification licenses/monitors for quality standards

## DEPARTMENT OF HUMAN SERVICES

all hospitals, ambulatory surgical centers, nursing facilities, intermediate care facilities for people with mental retardation, assisted living facilities, hospices, home health care services and end stage renal disease facilities and certifies health care facilities and providers for Medicare, Medicaid and the Comprehensive Laboratory Improvement Amendments of 1988. It also operates the Maine Registry of Certified Nursing Assistants.

The Division of Program Evaluation supports the Bureau's efforts in evaluating the health care services and programs offered to those eligible and assists the Divisions and units in improving processes for better workflow and efficiency. This Division ensures that the Bureau's information services needs are met by developing the long range technical plan for the Bureau, coordinating the Bureau's research and training initiatives, and acting as a liaison with the Department's information services staff. Information systems are enhanced as needed, giving Bureau employees access to current, in-depth, reliable information in a timely manner. The Division of Medicaid Policy & Programs develops coverage for and promotes access to a comprehensive array of health and social services for emphasis on promoting the healthy development of children and young adults.

The Division of Quality Improvement is responsible for implementing systems to assure the continuing improvement of the health services provided for Medicaid recipients. It also administers the Maine PrimeCare program and the Early, Periodic, Screening, Diagnosis and treatment (EPSDT) program. This Division is also responsible for the Bureau's Surveillance and Utilization Review activities. The Division of Financial Services is the rate setting and financing forecasting arm of the Bureau. This Division is also responsible for reviewing and making recommendations regarding proposed significant changes in the health care systems as specified in the Maine Certificate of Need Act of 1978.

### PROGRAM:

Medicaid was established in 1965 to provide public medical insurance for America's low income citizens. Today over 26 million Americans, 190,000 Maine residents receive medical services paid for by Medicaid.

The program is a partnership between the state and the federal government. At the federal level it is administered by the Health Care Financing Administration (HCFA). In Maine, the program is administered by the Department of Human Services, Bureau of Medical Services (BMS). Medicaid services are funded by a complex formula that eventually combines state and federal revenues at an approximate 33% state and 67% federal dollar split.

## DEPARTMENT OF HUMAN SERVICES

evaluating staffing and resource needs; determining funding requirements, fee formula, fee assessments and collection schedules for each type of public water system.

### ORGANIZATION:

The Maine Public Drinking Water Commission, created by the 116th Legislature, consists of eight members who represent the interest of the regulated community and the Commissioner of the Department of Human Services, or the designee thereof. Commissioners are appointed by the Governor and serve for a term of four years. The first meeting of the Commission was held September 29, 1993. The Commission meets monthly.

### PROGRAM:

The Maine Drinking Water Program, under agreement with the United States Environmental Protection Agency, is responsible for implementing, administering and enforcing federally mandated drinking water laws as applicable to all public water systems in Maine. Because deficient water systems can subject consumers to biological, chemical and physical hazards and have caused significant public health problems, the goal of the Maine Drinking Water Program is to ensure that the general public is provided with safe and reliable sources of public drinking water.

Federal regulation of public drinking water systems began in 1974 with passage of the Safe Drinking Water Act. In 1976, under authority of this act, the State of Maine entered into a formal Primacy agreement with the federal government and was delegated primary enforcement authority for regulating public water systems in the State.

The 1986 Amendments to the Safe Drinking Water Act greatly expanded the regulatory authority of the original act and required water testing for 83 known water contaminants. Regulatory requirements have grown in number and complexity. More frequent water testing is required and the list of potential water contaminants has continued to increase. State rules Relating to Drinking Water were adopted for the first time in 1977 and subsequently amended in 1983.

These rules now are updated annually to remain current with newly promulgated federal requirements. The inability of the Program to maintain a staffing level sufficient to meet increasing workloads led to a Primacy crisis at the end of 1992 and the formal initiation of Primacy withdrawal by the U.S. Environmental Protection Agency on January 15, 1993. The threat of a federal take-over generated considerable concern among regulators as well as the regulated community.

A Primacy Task Force composed of representatives from the regulated community, various State agencies and offices, the Legislature, regulators, municipalities, small business and the U.S. EPA was established and asked to reach a consensus resolution. Task Force members developed legislation that authorized the Commissioner of the Department of Human Services to assess Drinking Water Fees (alternative funding) and created the Maine Public Drinking Water Commission to serve as an over-sight board and to represent the interests of the regulated community. Proposed legislation was enacted into law June 30, 1993 and the Commission officially began work September 29, 1993. Initial fee assessments covered an 18 month period; the last half of State Fiscal Year 1994 and all of State Fiscal Year 1995. Additional staff have been hired and withdrawal of primacy has been terminated.

### **PURPOSE:**

The purpose of the Office of Public and Legislative Affairs is to maintain a liaison with the Office of the Governor, the Maine State Legislature, and the public in order to monitor legislation affecting the department to prepare departmental information for legislative issues and represent the department at the local, state and national levels, to maintain regular contact with the press, radio and television media, consumer groups, other agencies and community associations; to produce informational pamphlets explaining departmental services or educational programs in the field of health care and social services; to advise program managers on communication methods best suited to promote their programs; to develop departmental information programs for employees including publication of departmentwide newsletter, as well as client and agency directed magazines.

### **ORGANIZATION:**

This unit was first formed in 1972 as the Office of Information and Education. In 1975 its title was changed to the Office of Public Affairs and Communication and in 1987, its title was changed to the Office of Public and Legislative Affairs. The staff consists of a Director, two secretaries and a receptionist.

### **PROGRAM:**

During the 1998-1999 period, the office produced news releases on department affairs, developed public awareness concerning DHS issues, and designing supporting brochures for departmental programs.

DEPARTMENT OF HUMAN SERVICES

**PUBLIC HEALTH LABORATORY (HUMAN SERVICES)**

**JOHN A. KRUEGER,, CHIEF**

*Central Office:* HS BLDG, 221 STATE STREET, AUGUSTA, ME 04333

*Mail Address:* 12 STATE HOUSE STATION, AUGUSTA, ME 04333-0012      *FAX:* (207) 287-6832

*Telephone:* (207) 287-2727

*Reference: Policy Area:* 03 ; *Umbrella:* 10 Unit: 144Y; *Citation:* T0022 *M.R.S.A., Sect.* 000000561

**PURPOSE:**

The primary function of the Health and Environmental Testing Laboratory is to provide comprehensive public health and environmental testing for the Department of Human Services and the Department of Environmental Protection, as well as to other state agencies and the people of Maine for the protection of their health and their environment. Provision of cost-effective and affordable analytical services to state agencies and to the public continues to be a major challenge. The Fee-for-Service system now funds 88% of the cost of the Lab's operation, with state funds supplying 10% and federal funds supplying 2%.

**ORGANIZATION:**

The Health and Environmental Testing Laboratory was established by legislation in 1991 through merger of the Department of Environmental Protection Laboratory (established in 1971) with the Public Health Laboratory (originally established in 1902) of the Department of Human Services. This combined laboratory significantly strengthened the State's laboratory capabilities while increasing efficiency and reducing costs. It is the State's resource for monitoring and diagnosing infectious diseases of public health importance, testing public and private water supplies for chemical and microbial contaminants for protection of health and for regulatory purposes, for monitoring all classes of environmental markers and contaminants, regulatory and health monitoring of radiation, detecting and preventing childhood lead poisoning, and performing forensic testing.

The Health and Environmental Testing Laboratory is organized in the following sections:

- Public Health Microbiology
  - Virology, including serology
  - Bacteriology/Parasitology
  - Mycobacteriology (TB)/Mycology/Rabies
- Forensic Chemistry/Toxicology
- Environmental Inorganics/Nutrients
- Organics
- Laboratory Certification & Internal Quality Assurance
- Administrative Services

**PROGRAM:**

The Public Health Microbiology activities are the State's surveillance arm for infectious diseases of public health significance. Classically, these have been tuberculosis, food-borne illness, sexually transmitted diseases, vaccine preventable diseases, and outbreaks such as influenza. Although infectious diseases had been thought by many to be permanently under control, recent developments such as Lyme disease, Hantavirus, AIDS, Multiple-drug resistant Tuberculosis, and massive outbreaks of wild animal rabies have shown that infectious disease still pose a frightening public health risk. It is the role of the Health and Environmental Laboratory to maintain state-of-the-art facilities and personnel to detect and diagnose these disease events and support the state's capacity to respond to new disease threats while continuing to contain traditional diseases.

A combination of federal funds and accumulated fees have enabled the HETL to remain a modern up-to-date facility for this purpose, although continued support is essential to future protection of public health. Many environmental threats, such as contaminated water supplies pose a direct threat to the public's health, while others, such as degraded lake water quality impact environmental parameters directly, and public health more slowly and indirectly.

Accurate and specific analytical testing of all environmental parameters is vital to protection of health, as well as support of regulatory agencies such as the Drinking Water Program of DHS and the various programs of the DEP. Testing must be available in a timely fashion, at a cost-effective price, and of

## DEPARTMENT OF HUMAN SERVICES

court-admissible quality.

In addition, high volume testing must be available for repetitive monitoring of water supplies, mandated by federal rules, and available to private parties at reasonable cost, or free to those of limited means. Extensive purchase of computer-driven automated analytical equipment has kept the HETL at the forefront of analytical capabilities in organic chemistry, heavy metal testing, and other needs, and provided optimum productivity and efficiency of the Lab. The HETL offers a full range of environmental analyses. Public Safety is another aspect of public health, and the HETL plays a major role in public safety-related testing. The HETL is designated by statute as the agency certifying chemists for blood and breath alcohol and OUI-drug testing, and performs much of that testing. It certifies breath alcohol instruments from a position of analytical expertise and forensic neutrality. The Forensic section also performs analyses and identification of controlled substances for criminal investigations.

#### PURPOSE:

The Office of Health Data and Program Management (OHDPM) collects, maintains and updates population-based health data, Maine's Vital Records system and Behavioral Risk Factor Surveillance Survey System; OHDPM assures access to health services in rural communities through recruitment of medical professionals, clearinghouse functions and networking; OHDPM provides administrative support to the Bureau of Health in areas of budget, personnel, contracting, information/data and program management and evaluation; staff are also responsible for developing the Annual State Health Plan.

#### ORGANIZATION:

The Office of Health Data and Program Management was created in 1996 as part of data/information system and administrative management reorganization within the Bureau of Health. The OHDPM includes: The Office of Data, Research and Vital Statistics (established in 1992); the Office of Primary Health Care (established in 1986); the Maine Office of Rural Health (established in 1991); the Behavior Risk Factor Surveillance Survey (established in 1986); the Accounting Office, and the Coordinated School Health Program.

#### PROGRAM:

A major function of the Office of Data, Research and Vital Statistics continued to be the development and maintenance of core data needs of health and social services, program planning and management. Specific projects included vital statistics, population estimates, demographic information, health status indicators, and surveys of dentists and physicians. The Office also continued

## DEPARTMENT OF HUMAN SERVICES

its regular program of receiving vital records, filing them, furnishing vital statistics data to the National Center for Health Statistics; initiated measures for improving compliance with the rules governing the registration of vital statistics; and continued operation of the Adoption Reunion Registry. A new Electronic Birth Certificate system has been implemented with all Maine hospitals participating in this system.

Maine is one of 50 US states and territories that conducts the Behavioral Risk Factor Surveillance Survey (BRFSS), a random digit dialing telephone survey of the population, to determine the prevalence of behavioral risks that lead to premature mortality, morbidity and disability. The Office also maintains the Pregnancy Risk Assessment Monitoring System (PRAMS), an on-going, population-based surveillance system designed to supplement Vital Records data and to generate State-specific data for planning and assessing perinatal health programs.

The Office of Primary Health Care was established to administer the Cooperative Agreement for Primary Care Services and the State Loan Repayment Program. The mission of the Office is to increase access to primary health care services for Maine's underserved and indigent populations. The State Loan Program encourages physicians, dentists and physician extenders to practice in federally designated health professional shortage areas. The Office of Rural Health; promotes the coordination and integration of health care services within rural communities throughout the State; maintains a clearinghouse for information on programs and funding opportunities for improving access to health care; provides technical assistance to rural communities on recruiting health care professionals; issues a bi-monthly newsletter to keep the Office's constituency informed on the latest development affecting access to health care services for the rural population of Maine; and manages the Rural Medical Access program.

MAINE OUTDOOR HERITAGE FUND BOARD

**PURPOSE:**

The Department of Inland Fisheries and Wildlife was established to ensure that all species of wildlife and aquatic resources in the State of Maine are maintained and perpetuated for their intrinsic and ecological values, for their economic contribution and for their recreational, scientific and educational use by the people of the State. In addition, the Department is responsible for the establishment and enforcement of rules and regulations governing fishing, hunting and trapping, propagation and stocking of fish, acquisition of wildlife management areas, the registration of snowmobiles, watercraft, and all-terrain vehicles, safety programs for hunters, snowmobiles and watercraft, and the issuing of licenses (hunting, fishing, trapping, guide, etc.) and permits.

**ORGANIZATION:**

The Department of Inland Fisheries and Wildlife (formerly Game) traces back to 1830 when wardens were first appointed by the Governor to enforce the moose and deer law enacted that year. Two Commissioners of Fisheries were appointed in 1867. In 1880, the Commissioners were assigned responsibility for enforcing game laws as well as fish laws, and in 1895, their title was changed to Commissioners of Inland Fisheries and Game. The two Commissioners were replaced by the Commissioner of Inland Fisheries and Game in 1917. Function Divisions were added as the Department mandates and responsibilities were expanded, e.g. flying Warden Service in 1937; Wildlife Division in 1938; Fisheries Division in 1951; Information and Education in 1955; Program Development and Coordination in 1968; Snowmobile Registration in 1969; Realty in 1970; Watercraft Registration and Safety in 1974.

Effective October 1, 1975, the Department was renamed the Department of Inland Fisheries and Wildlife. In 1984, the Department underwent its first Sunset Review by the Legislative Committee on Audit and Program Review. As a result, the Department was reorganized into the following: 1. Bureau of Administrative Services; 2. Bureau of Resource Management; 3. Bureau of Warden Service; 4. Office of the Commissioner including the Division of Public Information and the Division of Program Development and Coordination.

**PROGRAM:**

The Department's program consists of enforcement, applied research studies, surveys and inventories, program development (planning), artificial propagation and stocking of fish and wildlife, coordination of Department interests between state and federal agencies and the private sector, environmental coordination, the search for lost persons, the registration of watercraft, snowmobiles, all-terrain vehicles, and hunter/trapper education programs, and hunter, snowmobile, boating and ATV safety programs.

The establishment of rules and regulations is an important part of the program carried out by the Department. The Commissioner is charged with having available at all times copies of abstracts of the inland fisheries and wildlife laws and regulations for distribution to the public (Ten summaries are updated, printed and distributed). The Open Water Fishing Regulations pamphlet and the Ice Fishing Regulations pamphlet as printed and distributed to the public are declared to be official consolidations of fishing rules. These regulation

summaries are to be printed on a biennial basis.

A complete reporting of these programs will be included in the reports for the various Bureaus and Divisions.

**PURPOSE:**

The purpose of the Bureau is to assist the Commissioner and Division Heads with long range financial planning, preparation and management of annual and biennial budgets, and provide centralized service in areas common to all divisions. The responsibilities of the Bureau include, but are not limited to: 1) financial accounting, 2) personnel management, 3) licensing and registrations, 4) engineering, 5) land acquisition, and 6) equipment inventory.

**ORGANIZATION:**

In 1984, the 111th Legislature reorganized the Department, thus creating the Bureau of Administrative Services as one of the major Bureaus. This Bureau is structured in the following manner: Accounting Section-headed by a Chief Accountant; Division of Engineering and Realty-headed by a Supervisor; Division of Licensing and Registration-headed by a Director; Personnel Section-headed by a Personnel Officer; Central Purchasing and Supply Section-headed by a Property Officer.

**PROGRAM:**

The Bureau carried on its obligation to coordinate the accounts of all Department revenues and expenditures providing the Commissioner, Deputy Commissioner, various Legislative Committees, and others with facts, figures, and reports as needed.

The Personnel Section coordinated all staff personnel activities of the Department including processing all personnel actions, advising employees on personnel rules and regulations and providing other personnel information and statistics as required. The Licensing Section provided the public with hunting and fishing licenses and miscellaneous permits through the Department's main office and designated license agents. The Section also registered all watercraft, snowmobiles and All-Terrain vehicles. The operation of these machines is regulated in cooperation with all law enforcement agencies and information is provided as required.

The Engineering and Land Acquisition Section coordinated the design, maintenance and repair of all Department owned facilities either by utilization of Department staff or outside contractors. This Section also coordinates any new acquisition of land for the purpose of protection, preservation and enhancement of our inland fisheries and wildlife resources. The Central Purchasing and Supply Section coordinated the purchase of capital equipment and supplies and dispersed these items on a Department-wide basis. Adequate inventories of vehicle, snowmobile, and outboard motor parts, clothing, footwear and miscellaneous items are held in stock to be issued to all field personnel.

## ADVISORY COUNCIL (INLAND FISHERIES & WILDLIFE)

### ELLEN N. PETERS, CHAIRMAN

*Central Office:* 284 STATE ST, AUGUSTA, ME

*Mail Address:* 41 STATE HOUSE STATION, AUGUSTA, ME 04333-0041

*Established:* 1945

*Telephone:* (207) 287-5202

*Reference:* Policy Area: 05 ; Umbrella: 09 Unit: 140 ; Citation: T0012 M.R.S.A., Sect. 000007033A

#### PURPOSE:

To advise the Commissioner of Inland Fisheries and Wildlife on changes in hunting, fishing, and trapping regulations and other business of the Department.

The Advisory Council also renders information and advice concerning the administration of the Department to the Commissioner.

#### ORGANIZATION:

The Advisory Council is appointed by the Governor, subject to review by the Joint Standing Committee on Fisheries and Wildlife and to confirmation by the Legislature, and consists of ten members representing one or more counties of the State on fish and wildlife related issues. The commissioner is a nonvoting member of the Council ex officio but may vote to break a tie. Appointments are for 3 years or until successors are appointed and qualified. No person shall serve more than 2 consecutive 3-year terms. Upon the death, resignation, or removal from office of any person so appointed, the Governor shall appoint a member to serve for the unexpired term.

The members of the Advisory Council receive \$50 per day for their services and actual expenses for each fiscal year. The Council holds regular meetings with the commissioner or his deputy in December and May of each year, and special meetings at such other times and places within the State as would seem advisable. At the meeting held in May of each year, the Council may elect one of its members as chair and one as vice-chair.

#### PROGRAM:

The Advisory Council met with the Commissioner to review regulation changes, acquisition of major land parcels, and other department matters 8 times during FY 99.

**PURPOSE:**

The Board is empowered to adopt rules and regulations which establish standards of requirements and methods of ascertaining the fitness of candidates for a Junior Maine Guide Certificate. The Board also adopts, approves, and reviews Camp Trip Leaders' safety course curriculum, and certifies candidates for Camp Trip Leaders Permits.

**ORGANIZATION:**

PL 151 repealed the Junior Guide Examining Board in April, 1979 and created the Junior Maine Guide and Trip Leader's Curriculum Board. The Commissioner of Inland Fisheries and Wildlife appoints a board of 5 members: a representative of the Fish and Wildlife Department, another a representative of the Department of Human Services, and 3 members of the general public. The Board serves without compensation for 3 years or until successors are appointed.

**PROGRAM:**

Pursuant to 12 MRSA, sections 7321-7322 the testing programs were formulated; one for those who wish to lead youngsters afield for trips of more than 2 days and a night and one for those wishing to become Trip Leader Program Instructors. A curriculum was formulated, but candidates may use others if they are equal or more comprehensive. A curriculum was also adopted for testing for Junior Maine Guides Certification.

The Trip Leader Curriculum Board reviewed and revised the examination for permit and Instructor applicants in order to make it easier for the Instructors to use and to update material within.

The number of permits issued has remained consistent with the prior year, with 752 permits issued and 27 certified instructors. In addition, the Board continues to provide up-to-date service for the 250 summer camps in Maine. At least 2 meetings per year are held with the Board and Maine Campground Owners Association.

*Legislative Count:* 1.00

**PURPOSE:**

The Maine Outdoor Heritage Fund was established by the Legislature in 1995 after it became clear there was insufficient funding for worthwhile projects that would perpetuate Maine's outdoor heritage -- the state's endangered species, wildlife habitat and pristine lands for outdoor recreation. By funding the program solely with revenue from the sale of special Outdoor Heritage lottery tickets, the legislature was able to support financially worthwhile projects without using revenue from the General Fund.

**ORGANIZATION:**

The Maine Outdoor Heritage Fund is governed by a board of seven members. The Commissioner of the Department of Inland Fisheries and Wildlife, the Commissioner of the Department of Conservation and the Coordinator of the Natural Areas Program are permanent members. With approval from the Legislature, the Governor appoints four citizen members to staggered 4-year terms. One citizen member must represent a state sportsman's organization, one must represent a state wildlife conservation organization and one must work in a field related to natural resources. The Board has hired an executive director on a contractual basis to perform the duties of administering the grants once they are awarded, organizing the application process for grants and coordinating with the Lottery Commission and other state and private organizations.

**PROGRAM:**

The Board awards grants semi-annually to natural resource agencies for conservation and recreation projects that meet the guidelines stated in the Outdoor Heritage Fund's Strategic Plan. Since the program began in 1996, the Board has awarded nearly \$5.2 million to 185 projects.

The grants are awarded in four categories:

- fisheries and wildlife, and habitat conservation projects;
- acquisition and management of public lands, parks, wildlife conservation areas, public access and outdoor recreation sites and facilities;
- endangered and threatened species conservation projects;
- natural resources law enforcement.

Revenue is raised from the sale of instant lottery tickets, which are available at most outlets that sell other Maine State Lottery tickets. The Outdoor Heritage ticket design changes every three to six months. The current ticket features a loon. The subsequent ticket will depict snowmobiling. To publicize the Outdoor Heritage program, the Board has hired a television production company to create a television campaign highlighting funded projects.

#### **PURPOSE:**

The Planning Division is directly responsible for development, coordination, maintenance and evaluation of the Department's comprehensive fish and wildlife program. In addition, the Division coordinates the implementation of inter-divisional programs and provides technical assistance to the Commissioner's Office and various Divisions.

#### **ORGANIZATION:**

The Division was established by administrative directive in 1968, and consisted of a data processing section, a grants coordination section, environmental coordination section and a program development and coordination section. In 1984, the 111th Legislature reorganized the Department. The Program Development and Coordination Division was renamed the Division of Planning and placed in a staff position in the organization to emphasize its department wide planning function.

The computer and the environmental coordination responsibilities were reassigned to the Bureau of Resource Management. The director's position was eliminated in 1990. The Warden Service Planner's position was eliminated in 1991. The Director of the Bureau of Resource Management was assigned administrative oversight of the division in 1992.

#### **PROGRAM:**

The Division program consists of a variety of projects and assignments which fall into the general areas of planning, coordination, and technical assistance. Procedures are developed and enhanced for preparing strategic and operational plans, and management systems. Public working groups are employed to provide public input into the setting of goals and objectives for species and programs.

Division personnel coordinate a variety of programs which cross Division and Bureau lines including moose, deer, and turkey permit systems, Department review of local comprehensive plans, significant habitat protection efforts, surveys of users and implementation of a new licensing system. Division personnel provide technical assistance in a variety of areas including programming of computer application; drafting regulations and legislation,

statistical analysis of data; preparation of license sales tables and trends; scheduling of program and regulation cycles; presenting information to the Legislature, other groups and the public; and representing the Department before a variety of groups, agencies and institutions.

The Division carries out a special assignment to coordinate and implement the Commercial Whitewater Rafting Program which includes issuing allocations and advising the Commissioner and Legislature on changes to the statutes controlling commercial rafting.

#### **PURPOSE:**

The major function of the Public Information and Education Division is to create and maintain public understanding and support for Departmental objectives and programs.

#### **ORGANIZATION:**

The Division was created in 1952, as the Information and Education Division, under authorization granted by the 96th Legislature in 1951. It was reorganized into the Public Information Division, effective July 1, 1980; it was again reorganized, as the Division of Public Information and Education under the Office of the Commissioner, effective April 24, 1984. Another reorganization, effective July 1, 1993, established the Division of Public Information and Education as its own unit.

In addition, the Gray Game Farm and Visitors Center was removed from the Division of Wildlife, Bureau of Resource Management, and placed within the Division of Public Information and Education.

#### **PROGRAM:**

The major programs of the Public Information and Education Division are the Information Center, Media Relations, Maine Wildlife Park, and Public Relations.

The Information Center, serving as the Augusta headquarters call center, provides a knowledgeable staff responding to telephone inquiries and directing calls to appropriate Department Divisions from 9-5, Monday through Friday. The call center also maintains a recorded Information Line, mails and distributes quantities of printed material, and develops and maintains the Department's web page.

Media relations provides press releases about the Department and its programs to newspapers, radio and television in both written and electronic formats. The photography and video production facility produces a variety of slides, prints and video documenting current Department projects and to supplement stories released to the media.

Maine Wildlife Park hosted over 80,000 visitors last year. A variety of wildlife and conservation school programs and tours are offered here, reaching well over 3000 of Maine's school children annually. Teacher workshops are offered statewide using Project WILD, an award-winning national wildlife and conservation education program, to assist classroom teachers and other educators to become more informed about Maine wildlife and conservation. The Division provides support for the popular Maine Conservation Camp scholarship program and

## DEPARTMENT OF INLAND FISHERIES AND WILDLIFE

the "Becoming an Outdoors-Woman" workshops.

Public relations and promotion included nine outdoor shows last year and a variety of advertising intended to promote outdoor recreation in the state, safety, and our landowner realations program. The Division also organizes the Maine Migratory Waterfowl Stamp art contest and many other events such as Fur Fin and Feather Day at the Legislature.

Maine Fish and Wildlife Magazine continues to be a major effort of the Division with over 12,000 subscribers. The magazine focuses primarily on the Department and its projects, programs and personnel.

Public Information and Education also provides support to other divisions for video, photography, displays, presentations, and the design, development, and distribution of a great deal of printed material about the department and its programs.

The Bureau of Resource Management is responsible for the management of the State's inland fisheries and wildlife resources and the development of rules governing the effective management of these resources.

#### ORGANIZATION:

The Bureau of Resource Management was established by the 111th Legislature as a result of recommendations made by the Legislative Program Audit and Review Committee. The Bureau presently consists of the following:

Division of Wildlife Management

Division of Fisheries and Hatcheries

Computer Services Section

Environmental Coordination Section

Animal Damage Control

## DEPARTMENT OF INLAND FISHERIES AND WILDLIFE

### PROGRAM:

Division of Wildlife Management. Wildlife Management - The abundance and use of the major wildlife species are monitored utilizing the latest tools, techniques, and information available. Periodic assessments are made to identify supply and demand imbalances, associated problems and management needs.

Wildlife management programs are implemented to accomplish the long-term goals and objectives of species management plans. Habitat improvement work is actively carried out in the Department's Wildlife Management Areas. These include approximately 100,000 acres of upland and wetland habitat strategically located throughout the State, as well as nearly 300 coastal seabird nesting islands.

Division of Fisheries and Hatcheries. Fisheries Management - Field studies designed to monitor the status of the major game species are routinely carried out. These include habitat and fisheries inventories of lakes, ponds, rivers and streams which are undertaken to obtain basic information regarding the abundance and condition of fish populations in specific waters. Creel surveys and aerial angler counts provide important information on fishing pressure and quality. Comprehensive species management plans are formulated every five years and guide the overall statewide fisheries management programs. More work has been conducted on many of the state's bass waters. Propagation of Fish - The fish needed to support statewide fisheries management programs are produced and reared in the Department's fish hatcheries and rearing stations. Approximately one and one half million fish are stocked annually.

Habitat Management - In conjunction with the Department's review agency responsibilities, division biologists assessed environmental impacts of several hundred project applications submitted to state agencies and this Department. They included Great Ponds applications, Stream Alteration applications, Site Location applications, LURC applications, Highway Project and Hydroelectric Projects. Recommendations pertaining to the impact of the State's fisheries resources on each project were forwarded to the permitting agencies. Fisheries Research - Research work focuses on the development of biological principles and management techniques needed to support fisheries management programs. Statewide trawling, Habitat Evaluation Procedures, Instream Flow Methodology Studies associated with hydroelectric projects, baitfish surveys, a special arctic charr study, an anadromous alewife impact study, a study of wild brook trout streams, and eel management have been the major focus.

**PURPOSE:**

The primary function of the Maine Warden Service is to enforce Title 12, Chapters 701-721, to enforce all rules promulgated by the Commissioner, and to enforce the U.S. Migratory Bird Treaty Act. In addition to these duties, the Maine Warden Service enforces the Maine boat laws and recreational vehicle laws (snowmobile and ATV). The Maine Warden Service is, by statute, responsible for searches for persons presumed lost or drowned in the fields, forests and inland waters of the State of Maine. Game Wardens of the Maine Warden Service are uniformed law enforcement officers with full police powers and statewide jurisdiction.

**ORGANIZATION:**

The Maine Warden Service was formally established on March 9, 1880, and was renamed the Bureau of Warden Service in 1984 as a part of the reorganization statute enacted by the 111th Legislature. The Bureau of Warden Service currently consists of a Game Warden Colonel (Chief Warden), a Game Warden Major (Deputy Chief Warden), 6 Game Lieutenants, 18 Game Warden Sergeants, 3 Game Warden Investigators, 1 Chief Warden Pilot, 2 Game Warden Pilots, 92 District Game Wardens, 1 Game Warden Wildlife Forensic Specialist, and 10 Deputy Game Wardens. Support services within the Maine Warden Service include a Wildlife Forensics Laboratory, Dive Team, Airboat Team (for Search and Rescue), Overhead Search and Rescue Team, K-9 Unit (Dog Team), Resource Protection Unit and the Aviation Division (Air Wing).

**PROGRAM:**

**Conservation Law Enforcement:** In 1998, the Maine Warden Service responded to 9,594 complaints on matters of conservation law enforcement and Inland Fisheries and Wildlife rule and regulation. During 1998 4,455 persons were prosecuted and 2,429 were warned for violation of laws and rules pertaining to fish, wildlife, boating and recreational vehicles. To accomplish the Conservation Law Enforcement and Search and Rescue mission of the Bureau, in 1998 Game Wardens drove a total of 2,941,914 miles.

**Search and Rescue:** During 1998, the Maine Warden Service conducted 237 searches for persons lost in the fields and forests of Maine or presumed to be drowned on the inland waters of the State. **Safety:** During 1998, 746 volunteer hunter safety instructors certified 5,702 students in 268 hunter safety courses across the State. During the same time, there were 587 snowmobile students certified. 100 ATV instructors taught 36 courses for 422 students. Regional Safety Coordinators visited summer camps and schools; every hunter safety course carried boating safety, and 84 boating safety instructors taught 270 students.

**Data Collection:** During 1998 Maine Warden Service was responsible for compiling the following data for management purposes: Oversaw the administration of fur tagging stations; which tagged 23,210 instate raw furs. Oversaw the administration of big game registration stations, which tagged 28,241 deer, 2,621 bears, and 1,866 moose. In addition, Warden Service assisted with angler counts and creel census for the Department's fisheries division on various Maine bodies of water.

**LICENSES:**

Special dog training area license - \$21.00

License to hold field trials for sporting dogs - \$21.00

Snowmobile race permit

Import permit (fish and wildlife)

Eel permit for licensed trappers (20 lbs. of eels)

Permit to stock rabbit

Sale of wildlife permit

#### **PURPOSE:**

The purpose of the Judicial Department is to administer the State courts.

#### **ORGANIZATION:**

Until the signing of the Articles of Agreement for Separation in 1820, Maine was part of Massachusetts and therefore included in the Massachusetts court system. In 1820, Article VI, Section 1, of the new Maine Constitution established the judicial branch of government stating: "The judicial power of the State shall be vested in a Supreme Judicial Court, and such other courts as the Legislature shall from time to time establish". From the start of statehood, the Supreme Judicial Court was both a trial court and an appellate court or "Law Court". The new State of Maine also adopted the same lower court structure as existed in Massachusetts, and the court system remained unchanged until 1852. The Court Reorganization Act of 1852 increased the jurisdiction of the Supreme Judicial Court to encompass virtually every type of case, increased the number of justices and authorized the justices to travel in circuits. The Probate Courts were created in 1820 as county-based courts and have remained so.

The next major change in the system came in 1929, when the Legislature created the statewide Superior Court to relieve the overburdened Supreme Judicial Court. Meanwhile, the lower courts continued to operate much as they always had until 1961 when the municipal courts and the trial justices system was abolished and the new District Court created. The most recent change to the Maine Judicial System occurred in 1978, with the addition of the Administrative court.

The administrative structure of the Maine Judicial Department is similar to that of a corporation. The Supreme Judicial Court serves as the Department "board of directors" and by statute has general administrative and supervisory authority over the Department. This authority is exercised by promulgating rules, issuing administrative orders, establishing policies and procedures, and generally advising the chief justice. The chief justice is designated as head of the Judicial Department and is assisted by the state court administrator. Each of the four operating courts has a single administrative head, responsible to the chief justice, who also heads the Law Court. Four regional court administrators assist the state court administrator in meeting the operational needs of the courts within their respective regions.

#### **PROGRAM:**

JUDICIAL DEPARTMENT COMMITTEES. There are numerous functional committees within the Judicial Department. The purpose of these committees, which include judges, lawyers, and private citizens, is to assist the Supreme Judicial Court, as well as the chief justice, in carrying out their respective responsibilities.

Efforts to improve efficiency and enhance communication continued, with the implementation of a statewide all-employees meeting, an improved statewide newsletter, correspondence from the Chief Justice to staff, and continued development of the Performance Council (made up of court staff and external volunteers) to serve as a planning board for the Judicial Department.

### ADMINISTRATIVE OFFICE OF THE COURTS

#### JAMES T. GLESSNER, STATE COURT ADMINISTRATOR

Central Office: 62 ELM STREET, PORTLAND, ME

Mail Address: BOX 4820, PORTLAND, ME 04112

Established: 1975

FAX: (207) 822-0781

Telephone: (207) 822-0792

Reference: Policy Area: 00 ; Umbrella: 40 Unit: 425 ; Citation: T0004 M.R.S.A., Sect. 000000015

#### PURPOSE:

The State Court Administrator under the supervision of the Chief Justice of the Supreme Judicial Court, is required by statute to: survey and study Judicial Department operations to improve administration and management of the court system; develop and recommend long-range plans for the Judicial Department; examine the status of all court dockets and make recommendations concerning the assignment of personnel; investigate complaints about the operation of the courts; examine and maintain court statistical systems, and collect and analyze statistical data relating to court operations; prescribe uniform policies and business methods to be used in all courts; implement standards and policies set by the Chief Justice regarding court hours and the assignment of term parts and justices; act as fiscal officer of the courts including the oversight of all budgetary and accounting functions; and examine and supervise arrangements for court facilities, equipment and supplies.

In addition, the State Court Administrator is required to act as secretary to the Judicial Conference; submit an Annual Report to the Chief Justice, Legislature and Governor reporting the activities of the preceding fiscal year; maintain liaison with the other branches and agencies of government; prepare and plan for the operation of District and Superior Court clerk's offices; develop and implement educational and training programs for nonjudicial personnel; perform other duties consistent with the powers delegated and assigned to him by the Chief Justice and the Supreme Judicial Court; plan and implement arrangements for court security; report on out-of-state travel; and prepare impact statements for executive orders and proposed legislation.

#### ORGANIZATION:

The Administrative Office of the Courts was created in 1975. The office is directed by the State Court Administrator, who is appointed by and serves at the pleasure of the Chief Justice. The Administrative Office staff is appointed by the State Court Administrator with the approval of the Chief Justice. The staff administers the accounting, computer, fiscal, legislative, personnel, purchasing, planning, research and security related functions for the court system.

#### PROGRAM:

Under the direction of the State Court Administrator, the Administrative Office of the Courts continued its involvement in ongoing areas of court automation, fiscal administration, court security, facilities management and personnel administration. Initiatives were further developed in strategic planning, the enhancement of staff and judicial training, and the creation of MeJIS, the Maine Judicial Information System, a statewide computerized court system.

## JUDICIAL DEPARTMENT

### ADMINISTRATIVE COURT

#### HON. ROLAND BEAUDOIN, CHIEF JUDGE

*Central Office:* 205 NEWBURY STREET, PORTLAND, ME

*Mail Address:* BOX 7260 DTS, PORTLAND, ME 04112

*Established:* 1973

*Telephone:* (207) 822-4291

*Reference:* Policy Area: 00 ; Umbrella: 40 Unit: 281 ; Citation: T0004 M.R.S.A., Sect. 000001151

#### PURPOSE:

The purposes and objectives of the Administrative Court are twofold: (1) to protect the health, safety and well-being of the general public from wrongful acts of professional, business and trade licensees; and (2) to protect the interests of occupational licensees by means of providing fair and impartial trials and rendering written decisions on administrative complaints, brought against them by numerous State departments, boards and agencies, seeking the suspension or revocation of their licenses.

#### ORGANIZATION:

The Administrative Court was created by the Legislature in 1973 and became a part of the Judicial Department in 1978. Prior thereto, the Administrative Court had jurisdiction over suspension and revocation of licenses by a specific list of executive agencies. Pursuant to P.L. 1977 Chapter 551, the Administrative Court was reconstituted and placed within the Judicial Department, effective July 1, 1978. Other than in emergency situations, the Administrative Court was granted exclusive jurisdiction upon complaint of an agency, or if the licensing agency fails or refuses to act within a reasonable time, upon complaint of the Attorney General, to revoke or suspend licenses issued by the agency, and original jurisdiction upon complaint of a licensing agency to determine whether renewal or issuance of a license of their agency may be refused. Effective in 1983, the Administrative Court also has exclusive jurisdiction to hear appeals from disciplinary decisions of the Real Estate Commission.

There are two judges of the Administrative Court; the Administrative Court judge and the Associate Administrative Court judge. The judges must be lawyers and are appointed by the Governor for seven year terms, with the consent of the Legislature. On assignment by the chief justice of the Supreme Judicial Court, Administrative Court judges regularly sit in District Court and in the Superior Court, primarily in Cumberland and York counties.

#### PROGRAM:

In recent years, the Administrative Court judges and staff have assisted the District and Superior Courts by hearing civil matters on a regular basis, particularly contested cases within the Family Division of the District Court.

### BOARD OF BAR EXAMINERS

#### CONSTANCE P. O'NEIL, ESQ., CHAIR

*Central Office:* 97 WINTHROP STREET, AUGUSTA, ME 04330

*Mail Address:* PO BOX 30, AUGUSTA, ME 04332-0030

*Established:* 1899

*FAX:* (207) 623-4175

*Telephone:* (207) 623-2464

*Reference:* Policy Area: 00 ; Umbrella: 40 Unit: 291 ; Citation: T0004 M.R.S.A., Sect. 000000801

#### PURPOSE:

The purpose of the Board of Examiners for the Examination of Applicants for Admission to the Bar is to examine all applicants for admission to the Bar, as to their legal learning and general qualifications to practice in the several courts of the State as attorneys. After passing the examination and compliance with the statutes has been accomplished, the Board issues a certificate of qualification which states the standing of the applicant, and recommends his/her admission to the bar.

## JUDICIAL DEPARTMENT

### ORGANIZATION:

The Board is composed of seven lawyers of the State and two representatives of the public appointed by the Governor. As the terms of the present and future members expire, one or more members of the Board will be appointed annually by the governor on the recommendation of the Supreme Judicial Court, and they hold office for terms of 5 years, beginning on the first day of January of the year of appointment and ending on the last day of December of the year of expiration of the appointment.

The Board holds at least two examination sessions annually at such times and places in the State as the Board determines and the Supreme Judicial Court approves. The members of the Board elect from their number a secretary and a chair who may, but need not, be the same person and make such rules and regulations relative to the performance of the duties of the Board and to the examinations which the Board conducts as to them may seem proper. Four members of said Board shall constitute a quorum for the transaction of business.

The administrator of the Board shall be the treasurer thereof and shall receive all fees, charges and assessments payable to the Board and account for and pay over the same according to law.

### PROGRAM:

In its efforts to discharge its statutory duties, the Board must review its policies and practices in such matters as:

1. the necessity of examining applicants who already have been admitted by examination in other jurisdictions;
2. the eligibility of graduates of European, Asian and African law schools to take the bar exam;
3. the fairness and validity of examination procedures and standards;
4. the relationship of a law school education to the bar examination; and,
5. the effectiveness of procedures to determine the character and fitness of applicants to practice law.

The Board works closely with the National Conference of Bar Examiners and the American Bar Association to receive the benefit of the experience of the other jurisdictions in bar examination matters.

### PURPOSE:

The State Court Library Committee serves as the governing body for Maine's 16 county law libraries, to assure access to basic legal materials for the bench, the bar and the public.

### ORGANIZATION:

The Committee is made up of nine voting members - three members of the public, two of the judiciary and four attorneys, all of whom are appointed by the Chief Justice of the Supreme Judicial Court, who also appoints the chairperson. The State Court Administrator, the State Law Librarian, and the University of Maine School of Law Librarian are ad hoc members and one member of

## JUDICIAL DEPARTMENT

the judiciary serves as judicial liaison.

The libraries themselves are organized into a four-tier system. Each tier reflects both the size of the collections and the state stipend allocated to maintain them.

### **PROGRAM:**

Under the direction of the State Court Library Committee, the State Court Library Supervisor is charged with overseeing the professional functions of the county law libraries. These duties include staffing; periodic visits to the libraries and meetings with the local bar association library committees; budgeting and the allocation of state monies for collection development; and the utilization of space-saving items such as micro-film, computer-assisted research (CD-ROMs, Internet) and reader/printers.

*Reference: Policy Area:* 00 ; *Umbrella:* 4Q Unit: 589 ; *Citation:* T0004 *M.R.S.A., Sect.* 000000018B

### **PURPOSE:**

The purpose and objective of the Court Alternative Dispute Resolution Service is to provide an administrative structure that organizes and provides court-connected Alternative Dispute Resolution services in Maine.

### **ORGANIZATION:**

The Court Alternative Dispute Resolution Service is the successor to the former Court Mediation Service created in 1984.

The operation and policies of the Service are overseen by the Court Alternative Resolution Service Committee. Members of the Committee are appointed by the Chief Justice of the Supreme Judicial Court pursuant to 4 MRSA Section 18-B. The Director of the Service is appointed by the State Court Administrator, with the advice of the Committee, and the Director coordinates the work of mediators, who are independent contractors. The mediators provide the actual mediation services as required in each of the State's 50 District and Superior court locations.

### **PROGRAM:**

As a result of the statutory changes enabled by the enactment of 4 MRSA Section 18-B in 1996, the Service has undergone substantial restructuring, and continues to develop a system of open panels of ADR providers who meet specified qualifications and who are drawn from the state's growing community of mediation professionals. ADR services are provided in all contested divorce actions, in all contested small claims actions, and in a broader range of land use cases, as well as in some general civil cases.

**PURPOSE:**

The purpose of the District Court is to serve as the court of limited jurisdiction for the State.

**ORGANIZATION:**

The District Court was created by the Legislature in 1961 as Maine's court of limited jurisdiction. The Court has original jurisdiction in non-felony cases and conducts probable cause and bail hearings in felony cases. The Court has concurrent jurisdiction with the Superior Court in divorce, non-equitable civil cases involving not more than \$30,000, and also may grant equitable relief in a wide variety of cases including unfair trade practices and cases involving environmental law violations. The District Court hears all child protection cases, termination of parental rights cases, and protection from abuse and harassment cases.

The District Court is the small claims court (for cases involving not more than \$4,500) and the juvenile court. In addition, the Court hears mental health, forcible entry and detainer, quiet title and foreclosure cases. It is the only court available for enforcement of money judgments.

There are 27 judges in the District Court including the chief judge, who is designated by the Chief Justice of the Supreme Judicial Court. The judges are appointed by the Governor for seven year terms, with the consent of the Legislature. On assignment by the chief justice of the Supreme Judicial Court, District Court judges may also sit in the Superior Court.

**PROGRAM:**

In the District Court, judges are assigned by the Chief Judge to sit in any district court in the state.

COURT APPOINTED SPECIAL ADVOCATE PROGRAM (CASA). The CASA program was established in 1985 within the District Court to address the needs of abused and neglected children by using trained volunteers to represent these children. These volunteers, are paid only for their travel and expenses, donate thousands of hours serving as guardians ad litem to the children in child protection cases.

The Family Division of the District Court was established by the second session of the 118th Legislature, which enacted 4 M.R.S.A. p.183: "There is established within the District Court a Family Division that has jurisdiction over family matters filed in District Court. The Family Division shall provide a system of justice that is responsive to the needs of families and the support of their children." In May of 1998, Family Case Management Officers began to hear and dispose matters as allowed by statute:

"(1) Interim orders in actions involving the establishment, modification or enforcement of child support; (2) Interim actions involving divorce, legal separation, paternity or parental rights...; (3) Final Orders in matters when the proceeding is uncontested; (4) Final orders in a contested proceeding when child support is the only contested issue and (5) Other actions assigned by the Chief Judge of the District Court."

## JUDICIAL DEPARTMENT

# COMMITTEE ON JUDICIAL RESPONSIBILITY AND DISABILITY

## H. CABANNE HOWARD, ESQ., EXECUTIVE SECRETARY

*Central Office:* P.O. BOX 8058, PORTLAND, ME 04104-8058

*Mail Address:* PO BOX 8058, PORTLAND, ME 04104-8058

*Established:* 1978

*Reference:* Policy Area:00 ; Umbrella: 4Q Unit: 276J ; Citation: J1978 M.R.S.A., Sect. SJC-00109

### PURPOSE:

The Committee on Judicial Responsibility and Disability was created by the Supreme Judicial Court by court order in 1978. The Committee is empowered to receive and investigate complaints of judicial misconduct and disability. Judicial misconduct is defined by the Maine Code of Judicial Conduct, which was promulgated by the Supreme Judicial Court. By order of the Court, the Code of Judicial Conduct is binding on all state judges, as set forth in the Code and the Court's order.

### ORGANIZATION:

The Committee on Judicial Responsibility consists of seven members appointed by the Supreme Judicial Court. Two members are either active or active retired justices of the Supreme Court, active or active retired judges of the District Court, or active judges of probate. Two members are attorneys at law admitted to practice in the State of Maine, and three members are appointed by the Supreme Judicial Court upon the recommendation of the Governor. Four alternate members are also appointed to serve with respect to any matter from which a regular member is excused or otherwise unavailable.

### PROGRAM:

Proceedings before the Committee are typically begun upon receipt of a complaint concerning the conduct of a judge. If the Committee members decide that the facts involved in the complaint appear to come within its authority, a copy of the complaint is submitted to the judge for a response, unless the allegations or facts available to the Committee show that no disciplinary misconduct is involved. At the time a complaint is submitted to the judge, an investigation is conducted appropriate to the circumstances of the complaint. Based upon its investigation and the judge's response, the Committee determines whether the complaint should be dismissed or whether an evidentiary hearing is necessary.

The Committee cannot itself impose disciplinary sanctions. Unless the complaint is dismissed, the Committee's findings and conclusions, together with recommendations, are reported to the Supreme Judicial Court in any matter in which the Committee finds misconduct warranting formal disciplinary action. Thereafter, the matter is in the hands of the Court. The Committee may also seek informal correction of any judicial conduct or practice that may create an appearance of judicial misconduct.

Upon written request of the Governor, the Legislature's Joint Standing Committee on judiciary, or an appropriate federal agency or official, in connection with consideration of the appointment of a person who has been a judge, the Committee is directed to provide information on any complaints made against that person and the Committee's disposition thereof. The Committee reports annually to the Supreme Judicial Court a summary of each year's activities.

### PUBLICATIONS:

The Committee has available for distribution material describing the Committee's operation and function, as well as the rules that govern the Committee's jurisdiction and procedure. Copies are available upon request. Copies of the available Annual Reports of the Committee are also distributed upon request.

**PURPOSE:**

The purpose of this Board is to act on behalf of the Supreme Judicial Court, and by its appointment and order, to supervise attorneys admitted to the practice of law in this state, and to assist the Supreme Judicial Court in disciplining of attorneys who may violate the Court mandated ethical or other rules of practice.

**ORGANIZATION:**

The Board of Overseers of the Bar was created by order of the Supreme Judicial Court, effective November 1, 1978 (Maine Bar Rules). The Board consists of nine (9) members selected by the Court, three (3) of whom are lay persons and six (6) of whom are members of the Bar of the State of Maine.

**PROGRAM:**

This unit's activities are limited to the performance of its duties as provided in the Maine Bar Rules. (See Maine Rules of Court.) In general, it supervises and administers the registration of all attorneys admitted to practice in this state; investigates and processes claims and reports of violations by attorneys of the rules of practice set forth in the Maine Bar Rules; provides a procedure for the arbitration of disputes between clients and attorneys with respect to legal fees; maintains limited consulting and advisory services with respect to the interpretation and application of the Code of Professional Responsibility (Rule 3 of the Maine Bar Rules relating to the ethical standards); and engages in a continuing review and study of the Bar in relation to the public and the Courts for the purpose of making recommendations to the Supreme Judicial Court with respect to the Maine Bar Rules.

**PURPOSE:**

The purpose of the Superior Court is to serve as the trial court of general jurisdiction for the State of Maine. (4 M.R.S.A., Sect. 105)

**ORGANIZATION:**

The Superior Court was created by the Legislature in 1929 as Maine's trial court of general jurisdiction. The court has original jurisdiction over all matters (either exclusively or concurrently with other courts) which are not within the exclusive jurisdiction of the District Court. This is the only court

in which civil and criminal jury trials are held. In addition, justices of this court hear appeals on questions of law from the District Court.

There are 16 justices of the Superior Court who hold sessions of the court in each of the 16 counties. The justices must be trained in the law and are appointed by the Governor for seven year terms, with the consent of the Legislature. A single justice is designated by the Chief Justice of the Supreme Judicial Court to serve as the Chief Justice of the Superior Court. Court administrators oversee the day-to-day administrative activities of the Court.

### **PROGRAM:**

The Chief Justice of the Superior Court assigns Superior Court justices to serve throughout the state. On a regular basis, the court administrators, in coordination with the justices, and clerks, prepare schedules detailing the daily work of justices and court reporters.

### **PURPOSE:**

The purpose of the Supreme Judicial Court as the Law Court is to serve as the appellate tribunal for the State. The Supreme Judicial Court also has general administrative and supervisory authority over the Judicial Department and shall make and promulgate rules, regulations, and orders governing the administration of the Judicial Department.

### **ORGANIZATION:**

The Supreme Judicial Court is the highest court in Maine, and as the Law Court is the court of final appeal. The Law Court hears appeals of civil and criminal cases from Superior Court, appeals from all final judgments, orders and decrees of the Probate Court, appeals of decisions of the Public Utilities Commission and the Workers Compensation Board, appeals from the District Court in parental rights termination and foreclosure cases, interlocutory criminal appeals from the District and Superior Courts, and appeals of decisions of a single justice of the Supreme Judicial Court. A justice of the Supreme Judicial Court has jurisdiction to hear, with his consent, non-jury civil actions except divorce or annulment of marriage, and can be assigned by the Chief Justice to sit in the Superior Court to hear cases of any type, including post-conviction matters and jury trials.

In addition, the Supreme Judicial Court defines and regulates the practice of law and the conduct of attorneys in Maine by the promulgation of Maine Bar Rules, published in the annual Maine Rules of Court. It also is the ultimate authority for admitting lawyers to the bar, and for administering lawyer discipline including disbarment. The justices of the Supreme Judicial Court make decisions regarding legislative apportionment and render advisory opinions concerning important questions of law on solemn occasions when requested by the Governor, Senate, or House of Representatives. Three members of the Maine Supreme Judicial Court serve as the Sentence Review Panel for the review of sentences of one year or more.

The Supreme Judicial Court has seven members; the Chief Justice and six Associate Justices. The justices must be trained in the law and are appointed by the Governor for seven year terms, with the consent of the Legislature. By statute, the Chief Justice is head of the Judicial Department, and the Supreme Judicial Court has general administrative and supervisory authority over the Judicial Department. Upon retirement, a Supreme Judicial Court Justice may be appointed an Active Retired Justice by the Governor, for a seven year term, with the consent of the Legislature. On assignment by the Chief Justice, an Active

**PURPOSE:**

The Department of Labor was established to achieve the most effective utilization of the labor resources in the State by developing and maintaining an effective State employment and training policy, by insuring safe and fair working conditions, and by protecting against loss of income and by enhancing the opportunities of individuals to improve their economic status.

The Department, through specific powers and duties delegated to its component administrative units, is authorized to provide services for workers and employers in the State who desire assistance (including those with disabilities), and establish and maintain free public employment offices. The Department collects unemployment taxes from liable employers and pays unemployment benefits to eligible claimants. It also enforces all State laws established for the protection of the health and safety of workers, and laws regulating the payment of wages and employment of minors. The Department also seeks to further harmonious labor-management relations and provide training, recruitment and other employment services to individuals and employers.

**ORGANIZATION:**

The Department of Labor was created by State Government reorganization legislation, effective September 24, 1971, that consolidated various employment and training related agencies of the State, including the Bureau of Employment Security and the Employment Security Commission, originally established in 1936; the Bureau of Labor Standards, functioning since 1873; the Maine Labor Relations Board, established in 1972; the Maine Occupational Information Coordinating Committee, originally established in 1979; the Bureau of Employment Services, functioning since 1974; the Bureau of Rehabilitation Services, which moved to the Department of Labor in 1996 from the Dept. of Education; the Office of Administrative Services established in 1982; the Office of the Commissioner established in 1983; and the Maine Jobs Council, established in 1997.

As a result of the 1996 Productivity Realization Task Force, the Department's organizational structure has been revised; the reorganization is reflected in the following Department of Labor sections.

**PROGRAM:**

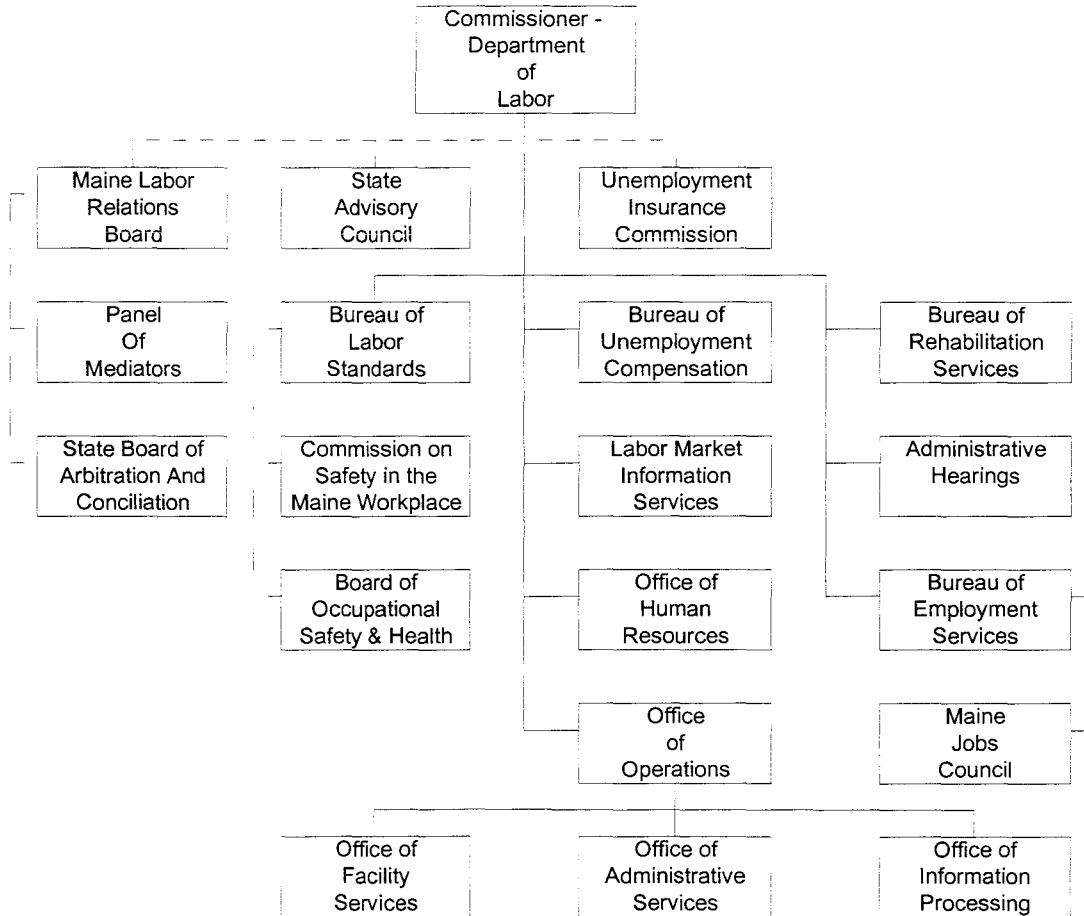

The long-range goal of the Department of Labor is to promote the economic well-being of people in the labor forces & employers. The Department does this through: attracting and retaining a wide range of employment opportunities, by promoting independence and lifelong learning, by providing assistance during times of unemployment, and by ensuring the safe and fair treatment of all people on the job.

**PURPOSE:**

The Advisory Council's objectives are to aid the Department in formulating policies and discussing problems related to the administration of the Employment Security Law and to assure impartiality and freedom from political influence in solving these problems. It may also make recommendations to the Legislature for changes which will aid in accomplishing the objectives of the Employment Security Law.

## DEPARTMENT OF LABOR

### ORGANIZATION:

Established by law in 1936, the State Advisory Council is composed of an equal number of members representing employers, employees, and the general public. The law was amended July 26, 1941 to limit the Advisory Council to not more than six members, and was further amended August 13, 1947 to limit the State Advisory Council to not more than nine members equally representing employers, employees, and the general public.

### PROGRAM:

The State Advisory Council did not meet during this time period; however, the members of the Advisory Council were part of the Unemployment Insurance Study Committee. This committee met on a regular basis to work on the Department's Trust Fund Solvency issues.

The expenditures of this unit are, by administrative decision, included with those of the Bureau of Employment Security.

*Reference:* Policy Area: 04 ; Umbrella: 12 Unit: 183 ; Citation: T0026 M.R.S.A., Sect. 000001082

### PURPOSE:

The Division of Administrative Hearings provides dispute resolution to State government. It resides as a unit of the Department, and most of its services are in the form of fair hearings to claimants and employers who disagree with initial decisions issued by the Bureau of Unemployment Compensation. In addition, by agreement, it provides hearing, mediation, and facilitation services to other Departments, including Mental Health, Mental Retardation, and Substance Abuse Services; Public Safety; Education; Marine Resources; and the Maine State Housing Authority.

### ORGANIZATION:

The Division is comprised of a Director and Chief Administrative Hearing Officer, a Senior Administrative Hearing Officer, eight Administrative Hearing Officers, and six administrative positions. In FY 99, the Division issued over 6,500 decisions.

Hearings are held in locations throughout the State. Also, telephone hearings are conducted for the convenience of the parties, and for efficiency.

### PROGRAM:

The Division provides a full and fair opportunity for parties to present facts and law regarding a dispute and to hear and decide cases in the most efficient manner possible. It provides these services to other governmental units to reduce mutual costs.

It also provides mediation services to state agencies.

### PUBLICATIONS:

The Division is responsible for educating the public prior to attending a hearing or other dispute resolution activity. A video on "How to Prepare for Your Appeals Hearing" is available to claimants, employers, and attorneys on cable television, at public libraries, and through the mail. A pamphlet, "Preparing for Your Appeals Hearing" is mailed to all parties to a hearing.

The expenditures of this unit amounted to \$929,141 in FY 99 and are, by administrative decision, included with those of the Department of Labor, Bureau of Unemployment Compensation.

*Reference:* Policy Area: 04 ; Umbrella: 12 Unit: 181 ; Citation: T0026 M.R.S.A., Sect. 000001002

**PURPOSE:**

The State Apprenticeship and Training Council was established to provide employers with a method of training people to become skilled craftpeople. The council is responsible for establishing standards of apprenticeship and issuing certificates of completion to apprentices satisfactorily completing their program, thus providing employers with highly skilled personnel. Meeting quarterly, the Council cooperates with the Maine Technical College System to provide supplemental instruction and the Veterans Administration in approving apprenticeship training for Maine veterans through the Employment and Training System.

**ORGANIZATION:**

The Maine State Apprenticeship and Training Council, as established by amendment, approved June 12, 1997 by Title 5, sec.12004-g, sub-sec. 25, and further amended by Title 26, sec.2006 sub-sec. 5.g, is comprised of four members of the Maine Jobs Council appointed by the Governor and eight noncouncil members appointed by the Council Chair. A subcommittee of the Maine Jobs Council is made up as follows: four members must be representatives of employees and be bona fide members of a major labor organization; four members must be bona fide employers; four members must be representatives of the public, selected from neither industrial employers nor employees, nor may they be directly associated with any particular industrial employer or employee.

At least two members who are representatives of the public must represent the interests of women, minorities and aid to families with dependent children recipients in registered apprenticeship. Each member holds office until a successor is appointed. Any vacancy must be filled by appointment for the unexpired portion of the term. The chair of the council must be named by the members of the council. The budget of the council must be incorporated into the overall budget of the Department of Labor, with the Commissioner responsible for providing adequate staff support to the Council and for disbursement of these funds according to Council policy. The following are nonvoting, ex-officio members of the Council: the Commissioner of Labor or a designee, the Commissioner of Economic and Community Development or a designee, the Commissioner of Education or a designee, the Chair of the Maine Jobs Council or a member designee and the President of the Maine Technical College System.

In June 1997, the Council was included under the umbrella of the Maine Jobs Council, the statewide workforce development board established by the Legislature in 1997.

**PROGRAM:**

Continued goals of the Council are to provide the highest quality skills training possible by working with employers, the Technical College System, Vocational Education officials, Joint Apprenticeship Training Committees, and the apprentices; and to publicize the educational advantages of apprenticeship training. Further goals of the Council are to work with the Maine CareerCenters to further place apprentices in programs written for employment and training participants. The Council has a Pre-Apprentice Program to assist in the school-to-work transition for youth and others not currently job ready. The majority of apprentices and pre-apprentices receive a starting wage greater than the minimum and are earning their livelihood while learning an occupation. Periodic wage increases are a requirement of the apprenticeship program.

\$425,000 Program Operation; \$180,000 Related Instruction (Includes journey-person upgrades).

### **PURPOSE:**

The Maine Board of Arbitration and Conciliation was established to further harmonious labor-management relations in the State of Maine by endeavoring to settle disputes, strikes and lockouts between employers and employees. The Board operates in both the public and private sectors. It serves as a Board of Inquiry, as a Board of Conciliation in the private sector, or as a Board of Arbitration with power to inquire and to investigate labor-management disputes in the public or private sector.

### **ORGANIZATION:**

The Maine Board of Arbitration and Conciliation was originally created in 1909, and experienced major reorganization in 1955 and procedural reform in 1985. The Board consists of three primary members representing labor, management and the public. There are six alternates, two for each of the foregoing primary positions. All primary and alternate members of the Board are appointed by the Governor for terms of three years. Appropriations for the Board are included in the budget of the Maine Labor Relations Board.

The favorable impact of Chapter 294 P.L. 1985, which amended the procedures of the Board, was demonstrated during recent fiscal years in the increased percentage of matters which were effectively conciliated by Board panels. Among other things P.L. 294 confirmed the conciliation authority of the Board in grievance arbitration matters.

### **PROGRAM:**

In FY 99, requests for Board services was higher than in FY 98. In FY 99, 24 requests for services were received, compared with 23 requests in FY 98. The variety of employee and employer units requesting service in the past few years reflects the growing perception in the public sector labor relations community of the Board's stature in providing quality and professional arbitration and conciliation services.

In addition to the new matters filed in FY 99, there were 13 cases carried over from the prior year which required hearing and disposition by the Board or other action. Most of the matters carried over from FY 98 have been disposed of, either through the hearing and award process, conciliation efforts, or withdrawal through settlements reached by the parties before or on the day of the hearing. Of the 24 filings in FY 99, 14 were grievance arbitration requests, 9 were requests for fact finding services, and 1 was a request for interest arbitration. Under the statutes governing public employee collective bargaining, the Board is given authority to hear fact finding and interest arbitration matters when there is a mutual submission for such services. In all, the Board issued 6 formal Decisions and Awards during FY 99.

In addition to the matters proceeding to hearing and formal Decision and Award, 4 other issues were conciliated with the assistance of Board panel members or were settled at the hearing. The number of actual hearings and meetings convened and held and the per diem and related expenses disbursed are reported in the annual report to the Secretary of State's office at the end of the calendar year, as is required by statute. The above review shows that panels of the Board or one of its members convened to hear 10 matters (6 concluded by formal Decision and Award and 4 others resolved at hearing); the

same number of cases disposed of through the hearing process in FY 98. Several matters were withdrawn or are scheduled for withdrawal. Withdrawals usually indicate settlement on the issues by the parties, often after a hearing has been scheduled.

### **PURPOSE:**

The Division for the Blind and Visually Impaired (DBVI) was established to provide a program of services to blind citizens of Maine, including: the prevention of blindness; the location and registration of blind persons; the provisions of certain education services to blind and visually-impaired children, from birth to age 21; vocational rehabilitation services to accomplish the placement of blind persons in employment; independent living services; and the provision of other social services to the blind.

### **ORGANIZATION:**

The Division was established in 1941 as the Division for the Blind in the Department of Health and Welfare. In July 1996, the division became a unit of the Department of Labor within the Bureau of Rehabilitation Services. The division maintains direct service staff in eight offices throughout the State.

### **PROGRAM:**

The Education Program provides specific instructional services to blind children in assisting local school units to meet their responsibilities for a Free Appropriate Public Education under the Individuals with Disabilities Education Act (IDEA). These services (braille instruction, travel training, direct teaching, special materials, personal and family counseling) are provided in part by DBVI staff and in part through contracted itinerant teachers. This program currently serves 400 children per year.

The Independent Living Program provides direct skill training activities assisting older blind and visually impaired people to achieve or maintain independence in their homes and communities, and to avoid costly institutionalization. Services are provided in part by DBVI staff and in part by contracted rehabilitation teachers. This program served over 400 adult clients in FY 1998.

The Vocational Rehabilitation Program provides services to enable blind individuals to acquire or retain employment. Through vocational counseling, application of technology, and a variety of purchased and contracted services, the Vocational Rehabilitation program currently serves 900 transitioning youth and adult clients. In addition, the Business Enterprise Program (BEP) places blind individuals in self-employment within the food-service industry in state and federal installations. There are 27 sites managed by this program where blind operators, trained and licensed by BEP, provide food services in snack bars and cafeterias.

## DIVISION OF DEAFNESS

### JOHN SHATTUCK, DIRECTOR, REHABILITATION SERVICES

TDD: (207) 624-5322

*Central Office:* 35 ANTHONY AVENUE, AUGUSTA, ME 04333-0150

*Mail Address:* 150 STATE HOUSE STATION, AUGUSTA, ME 04333-0150 *FAX:* (207) 624-5302

*Reference:* Policy Area: 04 ; Umbrella: 12 Unit: 160 ; Citation: T0026 M.R.S.A., Sect. 000001413

#### PURPOSE:

The Division of Deafness provides programs for people who are deaf or hard of hearing. These programs include information and referral, advocacy, statewide registry, promotion of accessibility, and the coordination of studies on the needs of people who are deaf or hard of hearing to recommend legislation to change or improve services. Other programs include the provision of telecommunications devices for people with disabilities, legal interpreting, identification cards, and hearing-ear-dog registration.

#### ORGANIZATION:

The Division of Deafness was established on November 1, 1982, and was known as the Office of Deafness. The Division received its present name in September 1984 when the Bureau was reorganized. In 1985, Governor Joseph E. Brennan signed Public Law Chapter 160 (22 MRSA c. 714) establishing the Division as a statutory unit of the Bureau of Rehabilitation Services.

#### PROGRAM:

The Division of Deafness provides information and referral services statewide to people on deaf and hard-of-hearing services. It also manages three contracts: providing support to Maine Center on Deafness, legal interpreting, and the telecommunication device cost sharing program.

The cost sharing program allows the Bureau to provide up to 50% of the cost of telecommunication equipment for people with disabilities.

**Interpreting in Legal Proceedings:** Enactment of Laws in 1978 and 1979 entitles a deaf or hard-of-hearing person to have an interpreter in a legal proceeding. Under Statute 5 MRSA, Sec. 48, the interpreter is reimbursed by the Bureau of Rehabilitation Services.

**Information Networking:** The Division maintains a toll-free number to enable people who are deaf or hearing impaired and their families to obtain informational services. Approximately 300 calls a month are received for information, advocacy, referral and other related needs. The Division works with

## DEPARTMENT OF LABOR

five Rehabilitation Counselors for the Deaf who assist eligible individuals who are deaf or hearing impaired in obtaining and maintaining employment.

### **LICENSES:**

The Division provides identification cards for people who are deaf or hard-of-hearing in cooperation with the Secretary of State and Division of Motor Vehicles. These ID cards assist people who are deaf or hard-of-hearing in emergency, legal, or other situations. Also, the Division certifies hearing-ear dogs that are professionally trained as alert dogs. The Division provides an identification card which allows the owner and hearing-ear dog access to public places in Maine.

*Reference: Policy Area: 04 ; Umbrella: 12 Unit: 161 ; Citation: T0026 M.R.S.A., Sect. 000001413C*

### **PURPOSE:**

The Advisory Council, Division of Deafness, advises the Director for the Bureau of Rehabilitation Services and the Director of the Division of Deafness on the development and coordination of services to people who are deaf and hard of hearing. The Council evaluates the progress toward goals and recommendations and advises the Division on implementation plans.

### **ORGANIZATION:**

The Council has 24 members and 3 member-at-large positions. One-third of the members are people who are deaf or hard-of-hearing persons. The Council meets quarterly on the second Thursday of January, April, June, and October. Meetings are held in Augusta. The chairperson is elected by the Council and serves a 2-year term.

### **PROGRAM:**

Council activities this past year focused on community service centers for the deaf, needs assessment, telecommunications devices (TTY), legislative, substance abuse, elderly, interpreting issues, updates on the State telecommunications access plans for departments and agencies, and television media access.

**PURPOSE:**

The Bureau of Employment Services (BES) delivers directly or contracts for employment, training, placement and counseling services to help people find employment. In turn, the Bureau provides employers with a Labor Exchange clearinghouse to match qualified employees with job openings. Companies may use the Labor Exchange as their exclusive referral agent. An employer lists all openings and job requirements, and BES staff screen and refer applicants. Interview space for the employer is available to companies hiring large numbers of workers. BES works to anticipate the workforce needs of Maine employers. Staff assists Maine companies and training providers to obtain tools and information for employee training, labor-management relations, work restructuring and worker learning skills. Technical assistance is available to employers for topics such as job safety, affirmative action, licensing and job analysis.

The Bureau provides occupational information to meet the career development needs of youth and adults. Information is provided to applied technology educators, employment training program managers, and policy makers. BES trains schools and workforce development agencies in the use of data and career development programs.

**ORGANIZATION:**

The Bureau operates within the Maine Department of Labor. Services are funded through State and Federal Job Training Funds and Federal Employment Security (Wagner-Peyser) Funds. Services are provided in each County and are being reorganized into One-Stop CareerCenters that offer comprehensive employment services.

**PROGRAM:**

Job listings and job matching services are available free of charge to the general public. Job counseling, employability enhancement, occupational skills training, job search strategies, and placement services are available free of charge to economically disadvantaged adults and youth and to workers who have been laid off from their jobs. The Bureau coordinates and financially supports training for firms that are expanding or locating in Maine, reorganizing their workplace, or upgrading worker skills. Training is customized to each employer's needs and timetable. The Bureau works with municipalities and industry groups to identify and resolve business concerns through its extensive resource network.

The Rapid Employment and Training Initiative (RETI) Team of the Bureau provides special on-site information services to firms that are laying off workers or permanently closing. The RETI Team gives employees information about training, job opportunities and availability, and unemployment benefits.

Where there is an inadequate supply of U.S. agricultural and other types of workers, the Department authorizes businesses to hire foreign workers. A full time advocate for migrant and seasonal farmworkers ensures that employers pay prevailing wages and afford adequate housing where required.

**PUBLICATIONS:**

The Bureau publishes state policy and operational guidelines for the One-Stop CareerCenter system, including individual job training and labor exchange programs, fiscal and procurement functions, and management information systems. Planning instructions for the operation of programs are issued to Maine's three Service Delivery Areas and other contracted providers. Various participant and fiscal reports required for the Maine Legislature and U.S. Department of Labor are routinely published. All publications are public domain and may be obtained by contacting the Bureau.

*Average Count--All Positions:* 308.154 *Legislative Count:* 296.50

#### **PURPOSE:**

The Unemployment Compensation Program is intended to partially insure workers against loss of wages during periods of temporary unemployment. It is an insurance program for the benefit of qualified unemployed workers.

#### **ORGANIZATION:**

The Bureau of Unemployment Compensation of the Department of Labor is headed by a Bureau Director who is responsible for the operations of three telephone Call Centers, an employer Tax Section, and a Benefit Section.

#### **PROGRAM:**

Unemployment compensation workloads encompassed a wide variety of activities during FY 99. Unemployment benefits were paid out of the following programs: State Unemployment Insurance (UI), Unemployment Compensation for Federal Employees (UCFE), and Unemployment Compensation for Ex-Service Members (UCX). In addition, benefits were processed by the Special Payment Unit for the Dislocated Workers Benefit (DWB) program, which is intended to provide benefits to certain qualified workers who have become structurally unemployed and are undergoing training for new jobs, and for the Trade Readjustment Allowances (TRA) program, as provided under the Trade Act.

The Eligibility Review program provides special eligibility review to aid claimants in development of work search plans and solutions of re-employment problems. The Benefit Payment Control Program, utilizing an automated crossmatch system of employer wage records and claimant files, employer protest of charges, anonymous tips, and benefit accuracy measurement program audits, is set in place to detect claimant fraud and non-fraud overpayments. In addition, a Benefit Accuracy Measurement Program has been established for post review of benefits through a random selection of active claims. The audit is designed to detect any claims which were improperly filed. The results of these audits are used to further improve operational procedures.

## DEPARTMENT OF LABOR

The benefit and administrative costs of the Unemployment Insurance Program are financed through a payroll tax on most of the State's employers. The number of active employer accounts at the end of FY 99 was 36,216, and payroll data submitted by these employers generated a total of 2,685,984 wage items processed. Tax Field and Administrative office activities produced 12,544 employer startup determinations of which 6,513 involved newly liable employer accounts. A total of 795 tax field audits conducted resulted in a net receipt due of \$24,530 in under-reported contributions. Net contributions received in FY 99 totaled \$123,632,716, and the Unemployment Trust Fund balance was \$170,676,457 as of April 30, 1999. The administrative expenditures of the Unemployment Compensation program amounted to approximately \$11,940,974 in FY 99.

## MAINE JOBS COUNCIL

### DWAYNE "BUZZ" FITZGERALD, CHAIR

*Central Office:* 20 UNION STREET, AUGUSTA, ME 04332-0259

*Mail Address:* 54 STATE HOUSE STATION, AUGUSTA, ME 04333-0054

*Established:* 1998

*Reference:* Policy Area: 04 ; Umbrella: 12 Unit: 605 ; Citation: T0026 M.R.S.A., Sect. 000002006

#### PURPOSE:

The Maine Jobs Council was proposed by the Maine Department of Labor, created by the 118th Legislature, and signed into law by Governor Angus King in 1997. The Council was created out of the recognition that workforce development and economic development are inextricably linked and that a more strategic, coordinated approach was needed to cultivate an educated and skilled workforce. This includes development strategies that encourage and assist the people of Maine to upgrade their education and skills; encourage employers to invest in the education and training of their workers; ensure cooperation among the State's public education and training resources; and ensure that the public resources are targeted to high quality outcomes.

The Governor recognizes that investment in the education and training of Maine workers is just one of the most critical issues facing Maine today. This investment will have long-term impact on the quality of jobs and level of earnings that will be achieved by people living in Maine for years to come.

#### ORGANIZATION:

The Council is comprised of representatives from business, labor, education, community organization, and the public. Additionally, four

## DEPARTMENT OF LABOR

subcommittees are established to address the workforce development issues related to: people with disabilities, women, apprenticeship, and school to work initiatives. The Council meets once each month.

The Department of Labor and the Department of Education jointly administer the Maine Jobs Council.

### PROGRAM:

During FY1998, the Council's first year of operation, at engaged in activities to assist all members gain a solid grounding in the state of the Maine workforce and in the education and training service delivery structure. The Council created a Strategic Plan, visited worksites, and listed to presentations from state economists and service providers.

The Council made recommendations to the Governor regarding the proposed Community College System and accepted responsibility from the Governor for contacting stakeholders and making recommendations pertaining to the new federal Workforce Investment Act. A State Plan under this Act is due to the U.S. Department of Labor early in 1999.

## BUREAU OF LABOR STANDARDS

### ALAN C. HINSEY, DIRECTOR

*Central Office:* HALLOWELL ANNEX CENTRAL BLDG., HALLOWELL, ME 04347

*Mail Address:* 45 STATE HOUSE STATION, AUGUSTA, ME 04333-0045

*Established:* 1973

*Average Count--All Positions:* 48,000

*Legislative Count:* 48.00

### PURPOSE:

The Bureau of Labor Standards assures that work be done in a safe and healthful environment, and that workers receive a fair wage for their endeavors.

It collects, analyzes statistics relating to all Department of Labor and industrial pursuits in the State; to trade unions and other labor organizations and their effect upon labor and capital; and to the character of industrial accidents and their effect upon injured workers, their dependent relatives, and upon the general public. The Bureau enforces State laws regulating the employment of minors and the payment of wages; State laws established for the protection of health, lives and limbs of operations in workshops and factories; and those enacted for the protection of working people, including the review and approval of employer substance abuse testing policies.

### ORGANIZATION:

The Bureau was established in 1873 as an activity under the Secretary of State to collect and print statistics on manufacturing, mining, commercial and industrial interests, together with the valuation and appropriations of municipalities. In 1887, the Bureau of Industrial and Labor Statistics was established by the Legislature. In 1911, this was changed to the Department of Labor and Industry with added responsibilities for enforcing laws regulating employment of children, minors and women, the protection of the physical well-being of factory workers and the payment of wages. The Department remained as a separate entity until 1972 when in the reorganization of State Government, it became the Bureau of Labor and Industry within the new Department of Manpower Affairs. In 1975, the Bureau's name was changed to the Bureau of Labor. In 1981, when the name of the Department of Manpower Affairs was changed to the Department of Labor, the Bureau's name changed to the Bureau of Labor Standards.

### PROGRAM:

The Outreach and Education Unit identifies training needs relating to health and safety and wage and hour regulations, develops and coordinates training programs, and oversees marketing activities. Its Young Workers Project develops resources to educate young people about workplace safety, including the

## DEPARTMENT OF LABOR

Summer Safety Institute for Educators, a teen worker safety video and wallet card, and a safety certificate program for vocational students. The Unit also coordinated and implemented marketing for "SafetyWorks!."

Migrant and Immigrant Services helps migrant and immigrant workers obtain social services, helps employers hire foreign workers in the absence of qualified U.S. workers, promotes the awareness of the needs of migrant and immigrant communities, and operates a multi-lingual help-line.

The Technical Services Division includes two units. Research and Statistics collects and publishes statistical data concerning labor and industry. Regular data series prepared by this Unit include the Census of Maine Manufactures, Census of Fatal Occupational Injuries in Maine, Construction Wage Rate Survey, Occupational Safety and Health Survey, and the Census of Case Characteristics. The Customer Service Unit, the Bureau's information center, assists callers, distributes brochures, maintains the video library, registers customers for classes, and processes work permits, labor complaints, statistical surveys and consultation reports.

The Wage and Hour Division enforces State laws relating to child labor, minimum wage, overtime, nonpayment of wages, and severance pay. It investigates all complaints alleging violations of these laws. In addition, the Division approves drug testing programs and work permits for minors.

The Workplace Safety and Health Division comprises a variety of programs that support safety and health. The public sector enforcement program enforces rules adopted by the Board of Occupational Safety and Health. A 7(c)(1) consultation contract with the Federal Occupational Safety and Health Administration, originally signed in October, 1978, consults and makes recommendations without penalties. Additional training and consultation are offered through the SafetyWorks! program. A grant with the Mine Safety and Health Administration supports training in mine safety. In addition, the Safety Education and Training Fund funded 19 training proposals by private entities to provide a range of safety training to the public.

## DIVISION OF LABOR MARKET INFORMATION SERVICES

### RAYNOLD A. FONGEMIE, DIRECTOR

*Central Office:* 20 UNION STREET, AUGUSTA, ME 04332-0259

*Mail Address:* 54 STATE HOUSE STATION, AUGUSTA, ME 04333-0054

*Established:* 1996

*Telephone:* (207) 287-2271

*Reference:* Policy Area: 04 ; Umbrella: 12 Unit: 594 ; Citation: T0026 M.R.S.A., Sect. 000001401A

#### PURPOSE:

The Division of Labor Market Information Services develops and maintains State and area labor market and occupational information, and provides the Department with economic, management, and actuarial analysis for overall program planning and delivery.

#### ORGANIZATION:

The Program activities involve associated social science and economic research. Results of this research are disseminated to a wide array of users in both the public and private sectors. Data is published and used in functional analyses and studies prepared to assist policymakers and others in social, economic, career, and business planning.

#### PROGRAM:

**Labor Force, Industry Employment Statistics:** Survey results are processed and estimates developed monthly regarding employment for all workers in manufacturing and non-manufacturing by industry, and wages for production workers in manufacturing by industry for Maine and the Portland and Lewiston-Auburn Metropolitan Statistical Areas. Civilian labor force estimates, including the number of people employed and unemployed, are developed by month on a current basis for Maine statewide, which includes 35 labor market areas, 16 counties, and over 500 minor civil divisions.

**Occupational Statistics:** Occupational wages are developed for the State and six sub-state areas. Wage surveys are made covering occupations in pulpwood and logging industries. In addition, agricultural wage surveys are conducted for Maine's apple, blueberry, and vegetable harvests. Results are published, disseminated, and incorporated in the management and delivery of other programs.

**Labor Market Information Services:** Information is provided concerning Maine labor markets for the state and sub-state areas. Staff are maintained at Department CareerCenters in Augusta, Lewiston, Portland, and Bangor to cover specific labor market information needs of the Department, other public agencies, and a variety of user groups in Maine's 35 labor market areas. Maine employers are assisted with information for affirmative action, labor

## DEPARTMENT OF LABOR

availability, wage settlements, federal procurement preference eligibility, and business planning. Labor Market Information is provided to assist the work search efforts of Maine job seekers. Economic analyses highlighting industry trends and outlook are prepared for Maine educational and employment and training communities.

**Management Information:** A series of monthly analyses and reports are made to Department managers and staff regarding activities within the Bureau of Employment Services and the Bureau of Unemployment Compensation. Economic projections and analyses are made for workload planning and trust fund monitoring. Actuarial research is conducted for various legislative proposals and study commissions.

**Maine Employment Information Guide:** An interactive inquiry system has been developed that allows users access to the most current labor market and demographic information. The Guide is networked in CareerCenters and is also available in a separate CD-ROM format. An Internet version is in the final testing phase for release in 1999.

**FINANCES, FISCAL YEAR 1999:** The Bureau of the Budget does not maintain comprehensive fiscal data relative to this unit

## MAINE LABOR RELATIONS BOARD

### MARC P. AYOTTE, EXECUTIVE DIRECTOR

*Central Office:* STATE OFFICE BLDG, AUGUSTA, ME

*Mail Address:* 90 STATE HOUSE STATION, AUGUSTA, ME 04333

*Established:* 1972

*Reference: Policy Area:* 04 ; *Umbrella:* 12 Unit: 180 ; *Citation:* T0026

*Telephone:* (207) 287-2015

*M.R.S.A., Sect.* 000000968

*Legislative Count:* 6.00

#### PURPOSE:

The Maine Labor Relations Board was established to improve the relationship between public employers and their employees by providing a uniform basis for recognizing the right of public employees to join labor organizations of their own choosing, and to be represented by such organizations in collective bargaining. State, county, municipal, school department, university, judicial, legislative, and agricultural employees come within the Board's jurisdiction.

If employers and employee organizations are unable to agree on appropriate bargaining units, Board hearing examiners fashion such units through the unit determination process. Once an appropriate unit is constituted, and absent voluntary recognition by the public employer, the Board conducts a representation election to determine whether a majority of unit employees wish to be represented by an employee organization for purposes of collective bargaining.

Established bargaining units may be modified by agreement of the public employer and the bargaining agent or through the unit clarification process. Unit employees seeking to terminate an organization's status as their bargaining agent may petition the Board to conduct a decertification election. Board staff conduct unit proceedings and representation elections, subject to review by the Board. The Board is comprised of a public representative, who serves as Chair, an employee representative and an employer representative. Each primary member has two alternates. The Board adjudicates alleged unfair labor practices, referred to as "prohibited acts" under the five labor relations statutes.

The various labor relations statutes administered by the Board prohibit public and agricultural employees from engaging in work stoppages, strikes or slowdowns and provide dispute resolution procedures in lieu of the self-help options available to employees and employers in the private sector.

The dispute resolution procedures include mediation, fact finding, interest arbitration, and, in the case of judicial employees, an option for mediation-arbitration. The Board and its executive director are responsible for the administration and assignment of members of the Panel of Mediators. Services of Panel members are available to parties in both private and public sectors.

The State Board of Arbitration and Conciliation is also administered by the MLRB Executive Director. The Board serves in both the private and public

## DEPARTMENT OF LABOR

sectors, and is primarily engaged in resolving grievance arbitration disputes in the public sector.

### ORGANIZATION:

The Maine Labor Relations Board (MLRB) was first established as a Public Employees Labor Relations Board in 1972. Prior to the existence of the Board, the Municipal Public Employees Labor Relations Act of 1969 was administered by the Commissioner of Labor and Industry, but governmental reorganization in 1972 terminated this relationship. In 1975, the Board became the Maine Labor Relations Board and acquired responsibility for administering the Municipal Public Employees Labor Relations Law, the State Employees Labor Relations Act, and the Panel of Mediators. Statutory amendments required the Board to administer the University of Maine Labor Relations Act as of July 1, 1976, and amendments covering employees of the Maine Maritime Academy as of October 1, 1976. Bargaining rights were extended to county employees in September 1981, to judicial department employees in July 1984, to employees of large agricultural employers on September 9, 1997, and to Legislative Branch employees on July 1, 1999.

The MLRB initially consisted of three members, one representing each of the elements of public sector labor, public sector management and the general public interest, with the member representing the general public interest serving as chair. These members, and their alternates (provisions for whom were made in subsequent legislation), are appointed by the Governor and serve for terms of four years.

### PROGRAM:

The municipal sector continues to be the most diversified and most active of all sectors utilizing the services of the Maine Labor Relations Board. During FY 99, 33 voluntary or joint agreements relative to bargaining units were received, down from 39 in the prior fiscal year, demonstrating that organizational efforts may have saturated much of the municipal, educational and state sectors. During FY 99, 20 unit determination or clarification petitions were filed, compared with 17 such filings in FY 98.

There were 16 election requests received by the Board in FY 98. In addition to this, the Board received 5 decertification/certification requests and 8 straight decertification election requests. With respect to election activities, there were 33 election requests in all requiring attention during the fiscal year; this compares with 36 requests in FY 98 and 25 in FY 97. In all, Board officials conducted 13 elections pursuant to the various petitions filed.

The activities of the Panel of Mediators are summarized for purposes of this report and are more fully reviewed in the Annual Report of the Panel of Mediators submitted to the Governor. The number of new requests this fiscal year was 69, compared with 68 last year. There were 32 carry-over matters from the FY 98 filings which required mediation activity in FY 99. The success ratio for the Panel has exceeded 70 percent of matters handled by its members over the past several years. The success rate in FY 99 dropped substantially to 73.91 percent for mediations, including carry-overs, that were concluded in FY 99.

Fact-finding is the second step in the three-tiered process of statutory dispute resolution. Fact-finding requests increased in FY 99 to 22, up from 19 requests in FY 98. The range in Fiscal Years 1994 through 1998 had been 14 filings in FY 97 to a high of 26 in FY 94.

The Board received 19 prohibited practice complaints in FY 99. This compares to 20 in FY 98, 22 in FY 97, and 27 in FY 96. The administration and processing of these complaints involves both the Board and its staff in the details of docketing, arranging hearings before the Board members, processing prehearing conferences, arranging for hearing locations, scheduling posthearing memoranda, meeting for deliberation of cases, research, and preparation involved with the decisions themselves.

During the past year, the Maine Labor Relations Board had requests for services in the many areas of responsibility under the various statutes that it administers or under which it has a role.

## PANEL OF MEDIATORS

### MARC P. AYOTTE, EXECUTIVE DIRECTOR

*Central Office:* STATE OFFICE BLDG, AUGUSTA, ME

*Mail Address:* 90 STATE HOUSE STATION, AUGUSTA, ME 04333-0090

*Established:* 1976

*Telephone:* (207) 287-2015

*Reference:* Policy Area: 04 ; Umbrella: 12 Unit: 187 ; Citation: T0026 M.R.S.A., Sect. 000000892

### PURPOSE:

The Panel of Mediators was established to implement the public policy of the State of Maine of providing a full and adequate facility for the settlement of disputes between employers and employees or their representatives and other disputes subject to settlement through mediation. Mediation procedures, as provided in the statute, are followed whenever either party to a controversy requests such services, and the Maine Labor Relations Board or its Executive Director finds that the dispute is subject to settlement through mediation and that it is in the public interest to mediate.

### ORGANIZATION:

The Panel of Mediators, originally established in 1951, came under the administrative auspices of the Maine Labor Relations Board in 1973, at which time the number of members on the Panel was increased from the previous figure of five to consist of not less than five nor more than ten impartial members appointed by the Governor for terms of three years. There are currently seven members on the Panel of Mediators.

### PROGRAM:

This fiscal year, the number of new requests for mediation services remained steady at the high level experienced last year. New mediation requests received during FY 99 numbered 98 (68 last year). In addition, there were 32 matters carried over from FY 98 that required mediation activity in FY 99. Thus, the number of matters filed, pending, and requiring attention in FY 99 reached a total of 101, down from 104 the previous year.

## DEPARTMENT OF LABOR

There have been repeated positive comments from practitioners and users regarding the quality and competence of various State mediators. The Panel achieved a settlement rate of 73.91% for matters concluded this year, including those carried forward from FY 98. The settlement rate for the past several fiscal years has exceeded 70% of the matters mediated.

The most significant development affecting Panel operations this year was continuation of the preventative mediation initiative. Upon the joint request of the parties, members of the Panel train bargaining team members at the outset of negotiations and then facilitate collaborative, problem-solving bargaining for our client community. The preventative mediation initiative has been very successful again this year, achieving a 100% settlement rate.

The most difficult issues in Maine public sector negotiations in FY 99 were those having fiscal impact. This shift in emphasis reflects the availability of additional fiscal resources to settle collective bargaining agreements this year as a result of continued improvement in the regional economy.

26 MRSA, Sec. 965, Sub-section 2, paragraph C provides that expenditures of this unit shall be borne by the Maine Labor Relations Board and are, therefore, included in its financial display.

*Reference:* Policy Area: 04 ; Umbrella: 12 Unit: 179 ; Citation: T0026 M.R.S.A., Sect. 000000564

#### **PURPOSE:**

The Board was established to formulate and adopt reasonable rules and regulations for safe and healthful working conditions in places of public employment provided by the State, State agency, county, municipal corporation, school district or other public corporation or political subdivision.

The rules and regulations so formulated must conform as far as practicable with nationally recognized standards of occupational safety and health. A public hearing must be held after suitable notice has been published prior to the adoption of regulations.

#### **ORGANIZATION:**

The Board of Occupational Safety and Health was created in 1976. It consists of ten members, nine appointed by the Governor and one being the Director of the Bureau of Labor Standards.

The Bureau of Labor Standards is empowered to enforce the rules and regulations adopted by the Board.

#### **PROGRAM:**

The Board met six times in FY 99 to review and propose regulations for adoption and otherwise assist the Bureau's enforcement activities, and held 3 public hearings.

Compliance officers of the Bureau's Safety Division visited places of public employment provided by the State, State agency, county, municipal corporation, school district or other public corporation or political subdivisions. Citations requiring corrections were issued when violations of the regulations were found.

*Average Count--All Positions:* 119.500 *Legislative Count:* 119.50

**PURPOSE:**

The Bureau of Rehabilitation Services (BRS) administers various state and federal rehabilitation services for people with disabilities. The Bureau provides a comprehensive program of rehabilitation services under the federal Rehabilitation Act and its amendments.

**ORGANIZATION:**

Vocational rehabilitation services originated in 1921 with the creation of the Vocational Rehabilitation Division under the supervision of the State Board of Education. In 1969, the Legislature directed that a functional unit of rehabilitation services be created within the then Department of Health and Welfare to consolidate rehabilitation programs and to administer services under the Federal Rehabilitation Act.

The Bureau of Rehabilitation was the unit created under this legislation. The Bureau consolidated the administration of the Vocational Rehabilitation Division, the Division of Eye Care and Special Services, and the Division of Disability Determination Services. The Legislature created the Division of Deafness under the Bureau in 1982. In 1994, the Legislature moved the Bureau of Rehabilitation Services to the Department of Education, and in 1996, moved the Bureau to the Department of Labor.

**PROGRAM:**

The Bureau of Rehabilitation Services provides services through three Divisions: 1) the Division of Vocational Rehabilitation; 2) the Division of Deafness; and 3) the Division for the Blind and Visually Impaired. The Vocational rehabilitation services, and eligibility for those services, in each division are the same. A person must have a disability; that disability must be a barrier to employment; and, it must be likely that the person will benefit from these services. Those services include diagnosis, vocational planning, physical/mental restoration, training, and job placement. The goal of vocational rehabilitation services is to assist individuals with disabilities to prepare for and obtain suitable employment.

In addition each Division provides specialized services. The Division of Vocational Rehabilitation provides consultation in barrier free design, assists organizations receiving federal funding to comply with Section 504 of the Rehabilitation Act, supports coordination of the American With Disabilities Act in state government, and provides for Independent Living services.

The Division of Deafness maintains interpreter services, provides telecommunication devices through a cost sharing and loaner program, issues identification cards to assist deaf people in an emergency, medical, social or legal situations, and identification cards for owners of hearing ear dogs.

The Division for the Blind and Visually Impaired provides for the prevention of blindness, education services to children ages 0-21 who are blind or visually impaired, administration of vending facilities in public buildings to be operated by individuals who are blind or visually impaired and are licensed by the Division, Independent Living services, and other special services.

Please see sections further describing the Division for the Blind and Visually Impaired and the Division of Deafness under the Department of Labor.

## MAINE UNEMPLOYMENT INSURANCE COMMISSION

### JOHN B. WLODKOWSKI, ESQ., CHAIR

*Central Office:* 175 LANCASTER ST. RM 220, PORTLAND, ME 04104-0856

*Mail Address:* PO BOX 856, PORTLAND, ME 04104-0856

*FAX:* (207) 822-0205

*Established:* 1936

*Telephone:* (207) 822-0200

*Reference: Policy Area: 04 ; Umbrella: 12 Unit: 172 ; Citation: T0026 M.R.S.A., Sect. 000001081*

#### **PURPOSE:**

The Maine Unemployment Insurance Commission was established to hear and decide higher authority appeal cases involving disputed claims for unemployment compensation benefits and challenged determinations of employer status and liability under the Employment Security Law. The Commission may promulgate, amend or rescind rules, require reports, make investigations, and take other actions as necessary or suitable. The Commission conducts public hearings, upon proper petition or upon its own initiative, to determine the seasonal nature of an industry for unemployment benefit purposes.

#### **ORGANIZATION:**

The Maine Unemployment Insurance Commission consists of three members: a representative of labor, a representative of employers, and a representative of the general public who shall be impartial. The general public member must be an attorney admitted to the practice of law in the State, and is the chair of the Commission. The three members are appointed by the Governor, subject to review by the Joint Standing Committee on Labor and to confirmation by the Senate. Each member holds office for a term of six years, or until a successor has been duly appointed and confirmed.

#### **PROGRAM:**

The Unemployment Insurance Commission conducted adjudication hearings in large part by telephone in response to budgeting constraints. However, when warranted by caseload, in person hearings were held at the One-Stop CareerCenters in Bangor and Lewiston, and at Commission headquarters in Portland to insure that claimants and employers were able to pursue their rights to a fair hearing. The Commission's conducting of telephone hearings allows for more timely processing of cases, and has had a positive budgetary impact by reducing travel expenses. The largest number of cases that came before the Commission during the fiscal year were disputed unemployment benefit appeals. The Commission also considered waiver requests of overpayments pursuant to 26 MRSA

## DEPARTMENT OF LABOR

1051 (5). Also, the Commission held hearings for tax offsets, under 36 MRSA, Section 5276 (A).

Another major area of activity for the Commission during the fiscal year was consideration of Unemployment Tax Assessment and employer liability appeals.

In accordance with 26 MRSA, Section 1044(2), the Commission considered attorney fees charged to claimants and fees paid by the Commissioner as a result of Court action. The Unemployment Insurance Commission approves training programs for participation by claimants in accordance with 26 MRSA 1192(6) and (6-C). The Commission also revised the content and format of its notice of appeal rights in benefit cases to achieve greater clarity and ease of reading, and published a new brochure which better explains the hearing process. This appears to have improved case presentation by the parties. Looking toward FY2000, the Commission anticipates continuing to improve upon its adjudicatory function and the refinement of its regulations in several areas. During the year the Commission will further refine its strategic planning and performance budgeting.

#### PURPOSE:

The Law and Legislative Reference Library provides comprehensive legislative reference service and a substantial collection of legal materials for use by the Legislature and its committees, all agencies of state government, the judiciary, attorneys and citizens of Maine. The State Law Librarian coordinates records management activities within the Legislature.

#### ORGANIZATION:

The Library was created by action of the Legislature, with the transfer of functions formerly performed by the law section of the Maine State Library. The nonpartisan State Law Librarian is appointed by the Legislative Council for a term of 3 years.

#### PROGRAM:

The Library provides reference, interlibrary loan and circulation services by telephone and TTY, through the mail and in person. In 1999 the Library started providing references services by e-mail. The URSUS on-line public catalog gives access to the Library's collection and to materials in other libraries and is accessible via the Internet. The URSUS system also supports circulation functions at this Library. The Library offers an interlibrary loan service to obtain legal materials not in the Library's collection. A library network gives public access to Maine statutes and cases, citators, indexes, the online legislative information network, and the Internet. The Library maintains a site on the World Wide Web which includes historical tables and lists. To support legislative research the library staff search a variety of databases for bibliographic, scientific, technical, legislative, legal and business information.

The Library's special resources include biographical information on legislators and members of Maine's legal community and an extensive collection of newspaper clippings on topics of legislative interest. The Library also has the most complete collection of Maine legislative materials available anywhere, including committee files which contain copies of all written testimony considered. The Library staff prepares legislative histories on request and lends compiled histories. The Library is a U.S. Government Documents Depository and receives over 1,400 documents annually and provides access to government information in electronic format.

All new acquisitions are entered and tracked in an on-line system. To facilitate cataloging, the Library subscribes to OCLC, an online service which enables libraries to share catalog records. Library staff prepare and contribute original catalog records to OCLC and the URSUS catalog. Records for materials received on a continuing basis, such as court reports, codes, journals and updates to topical works, include complete acquisition and holdings information. Information about the extent of the Library's serial holdings is shared in the Maine Union List of Serials, which is also accessible through URSUS.

#### ORGANIZATION:

The organization of the Legislature of Maine is determined largely by the Constitution of Maine, by Maine Statutes, and by legislative rules. Presently, the Senate consists of 35 members, and the House of Representatives consists of 151 members. All members of both chambers are elected from single member districts. The House has two additional non-voting members who are elected by the Penobscot Indian Nation and the Passamaquoddy Tribe, respectively, to represent their tribes at the Legislature.

The 119th Legislature is organized into 17 Joint Standing Committees by joint rule. The Joint Standing Committees established by the 118th Legislature are: Agriculture, Conservation and Forestry; Appropriations and Financial Affairs; Banking and Insurance; Business and Economic Development; Criminal Justice; Education and Cultural Affairs; Health and Human Services; Inland Fisheries and Wildlife; Judiciary; Labor; Legal and Veterans Affairs; Marine Resources; Natural Resources; State and Local Government; Taxation; Transportation; Utilities and Energy.

#### PROGRAM:

The First Regular Session of the 119th Legislature was convened on December 2, 1998 and adjourned sine die on June 19, 1999.

In the First Regular Session, the Legislature considered 2276 legislative instruments, including bills, resolves, constitutional resolutions and initiated bills. 593 bills and 89 Resolves were chaptered into law; 25 enacted bills were vetoed by the Governor, 24 bills were sustained and 1 bill was over-ridden. All remaining items before the Legislature were held over to the Second Regular Session pursuant to Joint Order.

#### **PURPOSE:**

The Senate is the upper chamber of the Maine Legislature, and serves as the final confirming body of all bills passed before they are sent to the Governor. Under Article IV, Part Third, Section 9 of the Constitution of Maine, the Senate may originate all bills except those proposed for the purpose of raising revenue. It may however, amend bills for the raising of revenue, provided that the amendment is not in fact used to introduce a new raising of revenue.

The Senate is the sole judge of the qualifications of its members; it maintains sole authority to punish or censure its own members; it has the power to imprison persons who are not Senators for contempt; it determines its own rules for Senate proceedings; and it maintains a permanent journal of its own proceedings.

By Constitutional Resolution, passed during the First Regular Session of the 107th Legislature and adopted by the voters in November, 1975, the Senate is empowered to confirm all gubernatorial nominations requiring Legislative approval and formerly confirmed by the Executive Council. Article IV, Part Second, Section 7, empowers the Senate to try all impeachments.

#### **ORGANIZATION:**

The Senate has remained constant in its form of organization as a Constitutional body since its establishment in 1820. As defined under Article IV, Part Second, Section 1 of the Constitution, the Senate currently consists of 35 Senators. Each Senator is elected for a term of two years, and limited to four consecutive terms. A Senator must be a citizen of Maine for at least one year, be a resident of the district for at least 3 months prior to the election and continue to reside within the district during the term of office, and be at least 25 years of age at the time of election.

The Constitution requires that the Senate be reapportioned every 10 years, by the Senate itself or, if the Senate fails to do so within the required time, by the Maine Supreme Judicial Court.

The Senate elects a President, who presides over all its proceedings; a Secretary and Assistant Secretary, who serve as a chief administrative officers.

The major political Parties in the Senate each elect their own leaders and assistant leaders who, by statute (3 M.R.S.A., Section 168), are permitted to hire their own staff assistants, with the approval of the presiding officer.

#### **PROGRAM:**

Under Article IV, Part Third, Section 1 of the Constitution of Maine, the First Regular Session of the 119th Maine Legislature convened on Wednesday, December 2, 1998. There were 2,258 Legislative Documents, 65 Senate-sponsored Joint Orders, 28 Senate-sponsored Joint Resolutions and 26 Gubernatorial Nominations considered. The Senators submitted 166 proposed Amendments to the Secretary of the Senate for reproduction prior to consideration by the Senate. After competing all its business, the Senate adjourned at 12:06 a.m. on Saturday, June 19, 1999, after meeting a total of 67 legislative days.

Under Article IV, Part Third, Section 1 of the Constitution of Maine, the Second Regular Session of the 119th Maine Legislature will convene on Wednesday, January 5, 2000.

The House of Representatives has by Article IV, Part Third, Section 9 of the Maine Constitution, the sole power to originate bills for the raising of revenue and, by Article IV, Part First, Section 8 of the Maine Constitution, the sole power to impeach, although impeachments are tried in the Senate.

The House is the sole judge of the qualifications of its own members, determines its own rules for House proceedings, may alone punish its own members, keeps a journal of its proceedings, and has the power to imprison persons who are not House members for contempt.

### ORGANIZATION:

The basic constitutional organization and functions of the House of Representatives have remained constant since its establishment in 1820. The House of Representatives consists of 151 members elected from single member districts for terms of 2 years. Members are limited to four consecutive terms. A Representative must be a citizen of the United States for at least 5 years prior to the election, have been a resident of Maine for at least one year, be a resident of the election district at the time of the nomination for placement on a primary, general or special election ballot, have been a resident of the election district for 3 months prior to the election and continue to be a resident of that district during the term, and be 21 years of age when seated as a member.

The Constitution of Maine requires that the House of Representatives be reapportioned by the Legislature itself, or, if this is not done within the required period of time, by the Supreme Judicial Court. The Legislature's reapportionment plan must be enacted by a vote of 2/3 of the Members of each House and such action is subject to the Governor's approval. In 1993 the Legislature failed to reapportion itself and an apportionment plan was, therefore, promulgated by the Maine Supreme Judicial Court pursuant to the Maine Constitution.

The House elects a Speaker who presides over the proceedings, a Clerk and Assistant Clerk. The individual political parties in the House elect their own leaders and assistant leaders. By House Rules (Rule 104) the leadership of the House is permitted to hire its own assistants. In 1992 the Office of the Speaker of the House assumed the duties formerly assigned to the Maine Canadian Legislative Advisory Office.

### PROGRAM:

The House convened its first regular session of the 119th Maine Legislature on Wednesday, December 2, 1998. During the first regular session 2258 Legislative Documents, 29 House Orders, 56 House-sponsored Joint Orders, and 24 House-sponsored Joint Resolutions were considered. House members submitted 770 amendments to the Clerk for reproduction. The House adjourned "sine die" (without delay) on Saturday, June 19, 1999, after meeting for 68 legislative days.

The second regular session of the 119th Maine Legislature will be convened on Wednesday, January 5, 2000.

### PURPOSE:

The Legislative Council is responsible for overall administration and management of the Legislative Branch. Its general powers and duties are set out in both statute (3 MRSA Section 162) and the Joint Rules adopted by the Legislature at the beginning of each biennium. These include approval of all legislative budgets and provision for financial oversight of legislative funds; establishing salary and benefit schedules for all legislative employees, except as otherwise provided by law; planning and overseeing projects designed to improve the organization, operation, and physical facilities of the Legislature; and allocation of work to legislative committees when the Legislature is not in session.

The Council also appoints the directors of the nonpartisan offices, including the Executive Director of the Legislative Council, the State Law Librarian, the Revisor of Statutes, and the Directors of the Offices of Fiscal and Program Review, Policy and Legal Analysis and Legislative Information Services. The Council has the authority to adjust the salaries of the Constitutional Officers within the salary ranges specified in 3 MRSA Section 162-B.

### ORGANIZATION:

The Legislative Council consists of the ten elected members of leadership: the President of the Senate, the Speaker of the House, and the Majority and Minority Floor Leaders and Majority and Minority Assistant Floor Leaders for both the House and the Senate. The Council Chair and Vice-Chair are elected by the Legislative Council at the beginning of each legislative biennium and serve for the entire biennium. By tradition, the chairmanship alternates every two years between the House and the Senate. Any action by the Legislative Council requires the affirmative votes of a majority of the members.

The Council is supported by an executive director and 6 nonpartisan staff offices.

### PROGRAM:

The Legislative Council is responsible by law for providing professional, nonpartisan staff support services to the Legislature and its officers, members, committees and commissions. These services include bill drafting; general policy, legal and fiscal research and analysis; fiscal note preparation; committee staffing; computer support services; public information; library and reference services and support; and general administrative services.

Further responsibilities of the Council include consideration of all bills submitted after cloture (after deadline bills) during any legislative session. In addition, the Council screens all bill requests prior to their introduction in the Legislature's Second Regular Session and all Special Sessions.

### **PURPOSE:**

The Office of Policy and Legal Analysis provides the Maine State Legislature with information, impartial legal and policy analysis, and assistance in formulating and drafting legislative proposals, reports and recommendations.

The Office provides nonpartisan research, analysis and support services to 15 joint standing committees of the Legislature, select committees, legislative study commissions and individual legislators. Major functions include: drafting of legislative proposals, analysis of legislation, preparation of research documents, facilitation of committee-decision-making, and drafting of committee amendments and new bill drafts. The Office also assists the Office of the Revisor of Statutes in drafting initial bills for introduction into each legislative session.

When the Legislature is not in session, the Office provides staff support for legislative studies authorized by the Legislative Council or established by law or joint order. This support to study committees and commissions includes providing policy and legal research and analysis, and preparing final reports and accompanying legislation. The Office also assists the joint standing committees in fulfilling their legislative responsibilities relating to oversight of executive agency rule-making and the periodic review of agency programs and operations.

### **ORGANIZATION:**

The Office of Policy and Legal Analysis is one of several nonpartisan offices operating under the direction of the Legislative Council and its executive director. The office has a staff of 23, including an office director.

#### PURPOSE:

The Office of Revisor of Statutes was originally created by Public Law 1928, chapter 367 and later established as the Office of Legislative Research in 1947. The Office reassumed its original name in 1986. The Office is nonpartisan and performs four primary functions: legislative drafting and editing, engrossing, publication of laws and statutes, and maintenance of a statutory database. The Office is the point where legislative instruments, including original bills and floor amendments, are initially filed and then produced in final form for introduction; the office reviews, edits and processes committee amendments and new drafts; it serves as clerk of the Committee on Bills in the Second Reading for both the House and Senate; and it is responsible for examining all bills in Second Reading for both the House and Senate, and for engrossing all bills prior to their enactment. The Office tracks legislation by title and section number to detect potential duplication and conflicts.

The Office publishes all laws enacted during each legislative session as the Laws of Maine and assists the commercial publishers of the Maine Revised Statutes by providing materials for the supplementary pamphlets and pocket parts.

The office may be contacted via e-mail: [revisor.office@state.me.us](mailto:revisor.office@state.me.us)

*Reference:* Policy Area: 00 ; Umbrella: 3Q Unit: 519 ; Citation: T0003 M.R.S.A., Sect. 000000901A

#### **PURPOSE:**

The State House and Capitol Park Commission was created in 1988 (Chapter 816, P.L. 1987) to develop and recommend a plan for the preservation and development of the aesthetic and historical integrity of the State House and its immediate grounds and to work in cooperation with the Capitol Planning Commission to coordinate planning and specific projects. The Commission's jurisdiction was extended in 1989 to include Capitol Park.

#### **ORGANIZATION:**

The State House and Capitol Park Commission comprises 11 voting members and 5 ex officio members as follows: voting members include the Director of the Maine Historic Preservation Commission; six members of the public (4 of whom are appointed jointly by the Speaker of the House and the President of the Senate, and 2 by the Governor); the Governor, Speaker of the House, President of the Senate or their representatives; and the Director of the State House and Capitol Park Commission.

Ex officio, non-voting members include the Director of the Maine State Museum; the Director of the Maine Arts Commission, the Director of the Bureau of General Services; the Chair of the Capitol Planning Commission; and the Executive Director of the Legislative Council.

## LEGISLATURE

### PROGRAM:

The Commission continues to oversee the implementation of the master plan for renovation, repair and restoration projects in the State House and in Capital Park. Renovations of the State House will be phased in over 3 construction seasons to accommodate the Legislature's use of the building during its regular sessions. Repairs underway include the complete renovation of the South Wing of the State House.

The complete project will involve a general upgrade of all systems including: replacement of all exterior windows and reconditioning of wood frames; installation of mechanical and electrical systems including a sprinkler system; upgrade of electrical systems, heating, ventilation and air conditioning in a manner that both achieves compliance with all relevant codes and preserves the historical and architectural character of the building; renovation of all bathrooms and relocation of the women's bathroom on the first floor; and installation of security devices in selected locations.

Selected areas, including the Senate and House Chambers, will be refinished and refurnished in a manner that is consistent with U.S. Department of Interior Standards for Historic Restoration. Some areas will be retrofitted for new uses in an effort to improve the use of space in the building overall, all rooms will be completely refurbished in a manner that is consistent with their assigned use. This work is funded primarily through the Government Facilities Authority.

### PURPOSE:

The Commission on Interstate Cooperation was originally established in 1939 to carry forward Maine's participation in the Council of State Governments and to advance cooperation between the State of Maine and other units of government.

The Commission facilitates the interchange of research and information with other governmental entities, and engages in other activities that are directed at forming a more perfect union among the various governments in the United States.

### ORGANIZATION:

The Commission consists of 9 regular members: 3 state officials appointed by the Governor, 3 members of the Senate appointed by the President of the Senate and 3 members of the House appointed by the Speaker of the House. In addition, the Governor, the President of the Senate and the Speaker of the House are ex officio members of the Commission. The form of organization established in 1939 has remained unchanged up to the present time.

## LEGISLATURE

### PROGRAM:

The Commission continues to serve as a clearinghouse for information on State programs of national and international interest. In addition to serving as the Maine affiliate for the Council of State Governments, the Commission is also Maine's affiliate for the National Conference of State Legislatures, a bipartisan organization which serves the legislators and staff of the nation's 50 states, its commonwealths and territories with the objectives of improving the quality and effectiveness of state legislators, fostering interstate communication and cooperation, and ensuring states a strong, cohesive voice in the federal system.

## COMMISSION ON UNIFORM STATE LAWS

### ROBERT C. ROBINSON, CHAIRPERSON

*Central Office:* 12 PORTLAND PIER, PORTLAND, ME 04112

*Mail Address:* P O BOX 568, PORTLAND, ME 04112

*Established:* 1955

*Reference:* Policy Area: 00 ; Umbrella: 30 Unit: 271 ; Citation: T0003 M.R.S.A., Sect. 000000241

*FAX:* (207) 772-6565

*Telephone:* (201) 772-6565

### PURPOSE:

The Commission on Uniform State Laws was established to examine subjects on which uniformity of legislation among the states is desirable and to bring to the State of Maine the benefit of the sustained study and research of judges, lawyers and legal scholars through the National Conference of Commissioners on Uniform State Laws.

### PROGRAM:

The Maine Commission on Uniform State Laws is an active participant in the National Conference of Commissioners on Uniform State Laws in its work as a Committee of the whole and on its drafting and review subcommittees. Uniform Commercial Code, Uniform Probate Code, Uniform Anatomical Gift Act as amended, Uniform Transfers to Minors Act, Uniform Guardianship and Protective Proceedings Act, Uniform Health Care Decisions Act (Advance Directives), Uniform Interstate Family Support Act and Uniform Unclaimed Property Act are just some of the Acts developed and adopted by the Conference which have great value to the several states, and are among the 56 Uniform Acts adopted by the State of Maine in the last century.

The Commission, like its counterparts in other states, works through appropriate legislative committees of the Maine Bar Association to review these and other uniform acts to determine if it is in the best interests of the State of Maine to join with other states in adopting these Uniform Acts.

### PUBLICATIONS:

Copies of any of the Uniform or Model Acts are available upon request.

## OFFICE OF LEGISLATIVE INFORMATION SERVICES

### PAUL E. MAYOTTE, DIRECTOR

*Central Office:* STATE HOUSE, AUGUSTA, ME 04333

*Mail Address:* 115 STATE HOUSE STATION, AUGUSTA, ME 04333-115      *FAX:* (207) 287-2557

*Established:* 1996

*Reference:* Policy Area: 00 ; Umbrella: 3Q Unit: 2631 ; Citation: T0003 M.R.S.A., Sect. 000000162

#### PURPOSE:

The Legislative Council restructured the Office in 1997, in recognition of the expanded role that the Office is assuming as the Legislature pursues new uses of technology to support both the legislative process and a robust and interactive public information service.

#### ORGANIZATION:

The Office includes the Legislative Information Office, which is responsible for maintaining a computerized database of information related to legislation considered in the current biennium, providing information to the general public, and for coordinating the work of Committee Clerks during the legislative session. A second unit, the Information Systems Office, is responsible for the operation and support of legislative computer systems, as well as for coordinating the design of the major applications that support the legislative process and the operations of individual legislative offices.

#### PROGRAM:

During Fiscal Year 1999, the Office of Information Services focused its efforts on improving customer support and system reliability, as well as supporting several strategic technical initiatives. A formal preventive maintenance program for the Legislature's networked printers was implemented. Extensive training in the use of computer technology was provided to the Legislative community and a Year 2000 Project was formally implemented to insure the Legislature information systems continue to function after January 1, 2000.

In coordination with the State House renovations, significant upgrades to the Legislature's data network, including the installation of fiber optic communication cables, were made. Efforts to migrate business applications from the WANG computer to a client/server environment continued through the FY99 period. The Legislative Information Office, reflecting the increasing volume of bills addressed by the Legislature, saw a comparable increase in their volume of work, and in Legislator and citizen requests for information.

*BUREAU OF MARINE PATROL*

*BUREAU OF RESOURCE MANAGEMENT*

**PURPOSE:**

The Department of Marine Resources was established to conserve and develop marine and estuarine resources of the State of Maine by conducting and sponsoring scientific research, promoting and developing the Maine commercial fishing industry, and by advising agencies of government concerned with development or activity in coastal waters.

Through the authority vested in its Commissioner, the Department of Marine Resources is empowered to conserve and develop the marine resources of the State, and to enforce the laws relating to marine resources. The department has the authority to enter into reciprocal enforcement agreement with other states, interstate regional authorities and the Federal Government; to cooperate, consult and advise with other appropriate state agencies on all interrelated matters involving the coast and its marine resources; to assist the industry in the promotion and marketing of its products; to close contaminated shores, waters and flats; to make regulations to assure the conservation of renewable marine resources in any coastal waters or flats of the State; and to hold hearings and to publish notices as may be required by law. The Commissioner of Marine Resources also serves as member of the Atlantic Salmon Commission.

**ORGANIZATION:**

The Department of Marine Resources originated in 1867 with the establishment of Commissioners of Fisheries. In 1895, the Commissioners were renamed Commissioner of Inland Fisheries and Game and a new Commissioner of Sea and Shore Fisheries was authorized, representing the first clear distinction between inland and coastal natural resources. In 1917, the Commissioner was replaced by a Commission of Sea and Shore Fisheries, and in 1931, the Commission became the Department of Sea and Shore Fisheries and the post of Commissioner was reestablished. Both the Advisory Council of the Department of Sea and Shore Fisheries and The Atlantic Sea Run Salmon Commission were created in 1947.

In State Government reorganization legislation of 1973, the 106th Legislature established the Department of Marine Resources, along with an expanded Marine Resources Advisory Council. Additional duties and responsibilities were assigned to the agency and its Council, along with those which previously were the responsibility of the Department of Sea and Shore Fisheries and its Advisory Council. Advisory councils are established by statute for the Lobster, Sea Urchin and Recreation Fisheries. In addition, seven lobster policy management councils are established with authority to hold referendum regarding lobster fishing regulations.

**PROGRAM:**

Foreign demand for marine resources has caused increasing and rapid expansion in three fisheries: sea urchins, whelks, and eels. There has been significant effort to put needed management programs in place to assure sustainable fisheries. As management constraints are placed in traditional fisheries, participants in the fishing industry look to find other fisheries to move into, which places additional strain in those fisheries. The department continues to focus on conservation and management of marine resources, on seafood safety, boating safety, marine education and market development.

## DEPARTMENT OF MARINE RESOURCES

Significant fisheries management issues have occupied large amounts of time by the commissioner and staff involving both the New England Fisheries Management Council and the Atlantic States Marine Fisheries Commission. The fisheries involved include: lobster, herring, groundfish, shrimp, striped bass, menhaden, herring, scallops, mahogany quahogs, and others. The scallop and groundfish plans as put forth by the New England council have caused significant concern with regard to the impact they would have on Maine's fishing fleet. Much energy has gone into guiding the process so that both fisheries management objectives and maintenance of the fleet could be attained. There will be continued demands on agency time to participate in development of federal and interjurisdictional fisheries management plans. The Department has specific regulation authority to place immediate restrictions on emerging new fisheries.

Aquaculture continues to grow and is now a significant component of the fisheries contribution to the state's economy. Most of the finfish development is concentrated in the eastern portion of the state in the Cobscook Bay area. Shellfish is more evenly distributed with significant concentration in the Damariscotta River area. Nori, which is a variety of seaweed, is being grown in the Cobscook Bay area. This points out that as the industry develops new techniques, opportunities for economic growth of the industry will continue. For the second year in a row, Maine had the highest landings (in value and pounds) for seafood in the Northeast--a reflection of its diverse fisheries.

### PURPOSE:

The Division of Administrative Services was established to perform the administrative functions of the Department of Marine Resources (DMR) and to advise government agencies concerned with development or activity in coastal waters. Its primary responsibilities are to receive, control and expend funds received from legislative appropriations, private sources, federal programs and

## DEPARTMENT OF MARINE RESOURCES

dedicated revenue sources, including fees from approximately thirty-seven types of licenses and permits. Detailed records are maintained on all receipts and expenditures as well as licenses, purchases of goods and services, equipment, payroll, personnel, allotments and encumbrances, statistics on landings, management, special information and federal/state programs.

Duties include coordination of public hearings for regulation changes, and aquaculture leases following APA procedures; collective bargaining matters, preparation and allocation of the biennial budget and work programs, contracts, and actions taken on personnel matters; statistics; information technology; contact with central service agencies; and providing timely information to management with regard to all administrative matters.

### ORGANIZATION:

The Division of Administrative Services, established through the authority vested in the Commissioner of Marine Resources, consists of four sections: Personnel, Licensing, Information Services, and Financial Services.

The Division provides service to the Department in finance, personnel, equipment, purchasing, processing of license applications and revenues and assists in the administration of federal and other revenue contracts and projects, department contracts for special services, and coordination of public hearings & aquaculture leases. Liaison with the New England Fishery Management Council is provided by Division personnel. The Licensing section handles license sales, receptions, statistics, information processing, and inquiries from the public. The Division administers the state's financial records of the Atlantic States Marine Fisheries Commission and provides liaison with the Legislature and various types of communications for the marine fishing industry.

### PROGRAM:

The Division of Administrative Services carries out directives of the Commissioner of Marine Resources in performing his/her statutory responsibilities, complying with all state and federal laws and regulations concerning administrative matters. The Division provides data needed for departmental decisions, represents the Commissioner in matters concerning administration, assists in preparing strategic plans, and manages all budgetary, fiscal, licensure, human resource and information technology processes of the Department.

**PURPOSE:**

The Marine Resources Advisory Council, established by Title 5, section 12004-G, consists of fifteen members and provides advice to the commissioner on policy matters affecting the fishing industry and to outline the problems and needs of the segments of the industry they represent.

**ORGANIZATION:**

The Advisory Council of the Department of Sea and Shore Fisheries was created in 1947. In the State Government reorganization legislation of 1973, the 106th Legislature established the Department of Marine Resources, along with an expanded Marine Resources Advisory Council. Additional duties and responsibilities were assigned to the agency and its Council, along with those which previously were the responsibility of the Department of Sea and Shore Fisheries and its Advisory Council. The Advisory Council is appointed by the Governor and confirmed by the Legislature. It consists of commercial harvesters and dealers, a public member, an aquaculture member and the chairs of the Lobster and Recreation Fisheries Advisory Council.

**PROGRAM:**

The Council meets monthly to provide advice to the Commissioner on policy matters affecting the industry and to outline the problems and needs of the Maine fishing industry.

In addition to meeting its broad responsibilities, the Council also performed specific duties established by law, including advice and consent on regulatory actions.

**PURPOSE:**

The purpose for the Division is establish and maintain communication with constituent communities to include harvesters, processors and municipalities with regard to anticipating problems and opportunities which may be addressed by the agency.

**ORGANIZATION:**

The Division is staffed with an Area Manager (who works closely with the fishing industry), the Watershed Management group (which works with shellfish management and permit reviews) and the marketing program.

**PROGRAM:**

**AREA MANAGER:** An Area Manager works very closely with fishing organizations, individuals and companies to identify problems and opportunities in the fisheries. The objective is to deal with both in a timely manner, to prevent problems from becoming conflict and to take advantage of the opportunities. The area manager is poised to get department assistance in the

## DEPARTMENT OF MARINE RESOURCES

form of expertise from throughout the agency in order to deal with any particular issue.

**WATERSHED MANAGEMENT:** Most of the effort in this group is spent with municipalities that are involved in municipal shellfish management programs. Approximately 51 towns of the 90 along the coast are in this program. The group also assesses the impacts of construction and dredging projects proposed by individuals, municipal and federal governments.

**DEVELOPMENT PROGRAM:** The goal of this program is to support Maine's fishing harvesting, distribution and processing industries. This is accomplished in a number of ways appropriate to state government. Direct assistance to buyers and sellers is given by answering questions, sending materials, and advising individual businesses on funding, marketing and policy issues. Infrastructure development is accomplished by initiating projects such as the Maine Seafood Industry web site and arranging display space for small seafood processors at the Boston Seafood Show. Development research is conducted to provide public information about economic impacts, market trends, industry structure and financial needs of the seafood industry. Economic development advocacy and policy is carried out through working internally with DMR staff and collaboratively with the State Planning Office, DECD, Economic Development Districts and other state and local agencies.

### PUBLICATIONS:

The Marketing Memo is a semi-monthly newsletter that contains resource information of interest to the seafood industry. Subscription is free. Maine Seafood Cooking is a complete guide to preparing Maine seafood. Book includes permission to reprint recipes. Price: \$6.95. Seafood recipe cards, posters and seafood handling videos appropriate for restaurants and retail stores are also available. For further information on all publications, call 624-6550.

### PURPOSE:

The Bureau of Marine Patrol is one of the oldest law enforcement agencies in the State and was established to protect, manage and conserve the renewable marine resources within the territorial limits of the State of Maine. Over the

## DEPARTMENT OF MARINE RESOURCES

years the Legislature has expanded the areas of responsibility to the enforcement of other laws and regulations of the state of Maine. Personnel are authorized to enforce all laws of the State of Maine with primary emphasis on marine resources, the protection of life and property, and to arrest and prosecute all violators and serve all processes pertaining to those laws and regulations.

### ORGANIZATION:

The Wardens Service, so named in 1947, was originally established as Fish Wardens in 1843, and was appointed by the Governor and Council. In 1917 the appointment authority was transferred to the Commissioner of Sea and Shore Fisheries (renamed Commissioner of Marine Resources in 1973). The Bureau has been an integral segment of the department throughout its existence.

Field offices are located in Boothbay Harbor and Lamoine. Office hours are 8:00 A.M. to 5:00 P.M., Monday through Friday.

### PROGRAM:

The Bureau enforces the state's marine fisheries laws, boating registration and safety laws, and environmental laws in cooperation with the Department of Environmental Protection; conducts search and rescue operations on coastal waters; enforces all marine-related criminal laws; and, serves as a general service agency to coastal residents and visitors.

During 1998, Bureau of Marine Patrol personnel patrolled 789,226 miles in vehicles and spent 13,838 hours on patrol boats. Patrol Officers received 1,938 complaints and encountered 4,142 violations of Marine Resources laws, boat laws, and related criminal laws.

### PUBLICATIONS:

A pamphlet containing marine resource laws is published biannually following adjournment of the first regular session of each legislature. This pamphlet is provided at no cost to the public.

## DEPARTMENT OF MARINE RESOURCES

### PURPOSE:

The Bureau of Resource Management is engaged in marine education, shellfish sanitation and public health, and scientific research and monitoring to conserve, restore, and manage the marine and estuarine resources of the State of Maine. Primary responsibilities are to conduct and sponsor scientific research which may include biological, chemical, hydrological, and technological research and monitoring, provide information on stock levels and environments of commercially valuable marine organisms, and provide technical and scientific information, services and assistance to the public, industry and governments. The Bureau conducts monitoring of water quality for the classification of shellfish growing areas, biotoxin monitoring, the Shellfish Sanitation Program, monitoring of finfish aquaculture operations, oil spill response activities, restoration of anadromous fish resources to Maine rivers, and marine education programs including the operation of the public aquarium in West Boothbay Harbor.

As a member of the Atlantic States Marine Fisheries Commission, the Maine Department of Marine Resources is involved in interstate management of commercially and recreationally important species including American lobster, northern shrimp, Atlantic herring, striped bass, Atlantic menhaden, bluefish, shad and river herring, and winter flounder, and in the development of an Atlantic coast cooperative statistics program for commercial and recreational statistics. Scientific staff are also involved in data gathering and assessment activities, and management plan development for groundfish, sea scallops, surf clams and ocean quahogs, and American lobster which are managed by the New England Fishery Management Council.

### ORGANIZATION:

The Bureau of Resource Management was established administratively in 1946 and is the oldest continuously operating marine research agency in the Gulf of Maine. The bureau consists of six divisions: Assessment and Statistics, Biological Monitoring, Ecology, Marine Education, Public Health, and Stock Enhancement. The central office is located at McKown Point, a peninsula in Boothbay Harbor and home to a large and productive fishing industry at the turn of the 20th century. The fishery research laboratory is a state-of-the-art facility designed to meet the fishing industry's needs and the department's mandate of overseeing the state's marine resources. This laboratory consists of a marine aquarium, microbiological and biotoxin laboratories, GIS mapping facilities, wet lab, and a scientific and fishermen's library. The Stock Enhancement Division, which is responsible for anadromous fish activities, is located in Hallowell, and a second microbiological/biotoxin laboratory is located in Lamoine.

### PROGRAM:

**ASSESSMENT AND STATISTICS:** Activities included analysis of fisheries stock assessment data on herring, American lobster, and northern shrimp; use of acoustic survey methodology for herring resource assessment; collection of commercial and recreational fisheries statistics; and gear selectivity research on the shrimp and silver hake fisheries. Atmospheric and oceanographic conditions in Boothbay Harbor were monitored. Eelgrass mapping using Geographic Information System continued as part of a project to document marine resources that would be endangered by spills of hazardous materials in the marine environment. **BIOLOGICAL MONITORING:** Collection of resource information for assessment and management of the lobster, northern shrimp, sea urchin, and herring resources continued. Detailed catch, effort, and biological data were collected from fishermen along the entire Maine coast. Samples were processed for length, weight, sex, state of maturity, gonad weight, and age composition.

**HABITAT AND AQUACULTURE:** Studies are being conducted to characterize subtidal habitats of marine species in Maine's coastal waters. This information will be used to delineate Essential Fish Habitat and groundfish spawning areas. Aquaculture permit site reviews are conducted and the coordinated multi-agency Finfish Aquaculture Monitoring Program continues. Research and management needs for the harvesting of seaweed are being identified. **STOCK ENHANCEMENT:** Activities included surveys to evaluate spawning success of American shad, alewife, and striped bass, fishway operation and maintenance, fish stocking, review of hydropower projects and activities that could impact anadromous fish resources, technical assistance to municipalities with alewife fisheries, and participation on the Salmon Task Force.

## DEPARTMENT OF MARINE RESOURCES

**PUBLIC HEALTH:** Open shellfish harvesting areas were evaluated on a continuing basis and harvesting in all areas not within standards was prohibited. Efforts continued to identify pollution sources that may be corrected in order to increase the amount of shellfish-producing areas open to harvesting. Biotoxin sampling was conducted to monitor the occurrence of PSP or "red tide" and close shellfish harvest areas as necessary to protect public health. Wholesale shellfish dealer evaluation and certification was conducted under the Shellfish Sanitation Program. **MARINE EDUCATION:** The public aquarium operates from Memorial Day weekend through Columbus Day to provide visitors with the opportunity to learn about Maine's marine resources. Education programs focus on teacher workshops and coordination of the Officer SALTY program which involves supplying equipment and marine animals to participating schools and training Marine Patrol officers to teach marine resource conservation in the classroom.

#### **PURPOSE:**

Maine Maritime Academy is a college specializing in ocean and marine oriented programs at the undergraduate and graduate level, with emphasis on engineering, transportation, management, and ocean studies, as well as preparing officers for the merchant marine and the uniformed services of the United States. The Mission of the college is to provide an educational environment which stimulates intellectual curiosity, fosters professional competency, encourages rigorous self-disciplines, and develops leadership potential through a learning environment which emphasizes active student involvement in both the curricular and co-curricular educational process. The college provides public service to the State while perpetuating Maine's heritage of the sea.

#### **ORGANIZATION:**

The administrative organization of Maine Maritime Academy is structured to fulfill the mission set forth in its Charter. This is accomplished through the following three divisions:

Academic Affairs Division

Administrative Division

Student Services Division

Under the policy guidance furnished by the Board of Trustees, the President of the Academy is the principal executive, being assisted by three division heads, each of whom oversees their respective operating departments. The operation of the Academy is subject to review by the Federal Government through the Maritime Administration, under regulations prescribed in 46 CFR, 310A. Fiscally, the Academy is supported by state appropriations, student fees and a subsidy from the Maritime Administration. The training ship 'State of Maine' is made available to the Academy by the Maritime Administration, which funds major repairs. The Academy pays the cost of operating the ship on training cruises and while in port in Castine from its operating budget.

The Academy through its Board of Trustees, is empowered to provide facilities and support services; to hire instructors and other employees; to determine compensation and dispose of property; arrange for actual experience for its students; to borrow money not in excess of \$4,000,000 in aggregate at any time outstanding for the construction of any buildings, improvement, or equipment; and to mortgage its property and pledge its revenues.

#### **PROGRAM:**

Academy headcount enrollment continues to average approximately 700 students. Students from the State of Maine typically represent about two thirds of this total. Over 90 percent of the Class of 1999 is now professionally employed in a wide range of marine and non-marine related professions. A number of members of the Class of 1999 accepted active duty commissions in the U.S. Military

At the Bachelor of Science degree level, Power Engineering Technology supplements the traditional marine engineering majors. This course of study prepares graduates for positions as plant engineers, operating engineers, and plant managers in the shoreside power production industry. During the fiscal year the Academy matriculated its second class for an additional undergraduate major in international business and logistics.

The Academy makes a significant contribution to marine research in the Gulf of Maine by operating the 80 foot oceanographic research vessel Argo Maine. The Academy also owns and operates the historic Arctic schooner Bowdoin. She provides training for students leading to an auxiliary sail license, aids in student recruitment and public information, and serves as an enduring symbol of Maine's seafaring heritage. The Corning School of Ocean Studies at Maine Maritime Academy prepares students for careers in resource management,

**PURPOSE:**

The Department of Mental Health, Mental Retardation & Substance Abuse Services was established to enhance the quality of life for persons with psychiatric and developmental disabilities by helping them to meet their needs for personal, social, educational, vocational and economic development, to enable them to function at maximum levels of potential and maintain their dignity as human beings and to profit from the variety of options open to all citizens of the State of Maine.

Its mission is to join with individuals, families and communities to achieve good health and meaningful living through community based resources that encourage and assist people with developmental disabilities, mental health disorders and substance abuse disorders. These community based resources build on the strengths and accomplishments of the past; are local and regional; encourage widespread participation in policy decisions and planning; are easily accessed; and are measured for efficiency, outcomes and impact on quality of life.

The primary responsibilities of the Department are to develop, operate and provide a broad spectrum of facilities, programs, direct services and advocacy services for persons under its jurisdiction. The Department also exercises general management of research, quality assurance and planning, maintenance of grounds, buildings and property and supervision of employees and patients of the State institutions within its jurisdiction.

**ORGANIZATION:**

The Department of Mental Health, Mental Retardation and Substance Abuse Services was established in 1939 as the Department of Institutional Services. Its present composition and designation evolved out of the development of a separate Department of Corrections by the Legislature in 1981 and the incorporation of the Office of Substance Abuse into the Department by the Legislature in 1996. Interdepartmental divisions provide for the general administration, planning and management of Mental Health, Mental Retardation, Substance Abuse and Children's Services as required by statute. Additionally, the Legislature has established a number of advisory committees and councils that serve in an adjunct capacity to provide public input to the Department's planning and decision-making process.

Within the central administration, the Commissioner provides the overall policy direction to each division, facility and the Department's management infrastructure; the Associate Commissioner of Programs oversees policy development, outcome measurement and all aspects of the QI process along with facilitating the implementation of needed research and training efforts. The Associate Commissioner of Administration is responsible for all of the Department's financial affairs, personnel and employee relations, management information systems and managed care operations. The Associate Commissioner of Systems Operations oversees facility operations and activities of three integrated regional structures for coordinating and managing the provision of needed mental health, mental retardation and children's services.

#### PURPOSE:

The Office of Advocacy is established within the Department of Mental Health and Mental Retardation to investigate the claims and grievances of clients of the Department. The Office also advocates for compliance with all laws, administrative rules and regulations, and institutional and other policies relating to the rights and dignity of these clients, and acts as a monitor of restrictive and intrusive treatments. In addition, the Office of Advocacy is designated investigatory agent of the Department under the mandate of the Adult Protective Services Act (22 M.R.S.A., Sect. 3470 et seq.).

#### ORGANIZATION:

Presently, AMHI has one full time advocate and BMHI has one full time advocate. One advocate splits her time between AMHI and the community. Most of her time in the community is spent doing mental retardation advocacy and investigations. There are eight other community advocate positions (one part-time) for persons with mental retardation in the community. One community advocate also serves persons at the Levinson Center. There is also one advocate serving children with special needs. One chief advocate supervises all of the advocates.

The community advocates: (1) investigate allegations of abuse exploitation and neglect pertaining to persons with mental retardation; (2) approve and monitor the utilization of aversive behavior modification plans; (3) represent clients at inter-disciplinary team meetings at which programs for treatment, services, goals and habilitation are planned, developed and recorded; (4) seek ways to implement and enforce the rights of persons with mental retardation under the Community Consent Decree, state and federal law; and (5) review policies and actions of the Department's regional offices and suggest ways to deliver high quality care to persons with mental retardation.

The three advocates based in the state's two major mental health institutions (1) investigate allegations of abuse, exploitation and neglect; (2) assist in the investigation, prosecution and resolution of patient grievances; (3) attend treatment team meetings to aid in having the patient's treatment desires met; and (4) review and suggest policies and practices which encourage humane care. In addition, the advocates at AMHI advocate for compliance with the provisions of the AMHI Consent Decree. The Office of Advocacy administers a small contract under which limited civil legal services may be provided to clients and patients of the Department.

#### PROGRAM:

The Office of Advocacy has provided assistance or information to upwards of 2,000 people with mental health difficulties and/or mental retardation through investigations of alleged abuse, review of aversive programming, representation of clients at Interdisciplinary Team meetings and Pupil Evaluation Team meetings. The Office has been actively involved in the implementation of the AMHI Consent Decree and regulations assuring mentally ill patients' rights and actively enforces those rights. The Office is also actively involved in the enforcement of the Community Consent Decree, which is a modernized version of the old Pineland Consent Decree. A major goal of the Office is to be able to provide to the Department suggestions which will not only impact upon individual client's lives, but will also aid the Department and clients in general, through helpful systematic changes.

#### PUBLICATIONS:

(1) Rights of Recipients of Mental Health Services-free from the Chief Advocate, SHS 60, Augusta, ME 04333, or any of the advocates in the mental health institutions. #### PURPOSE:

The primary purpose of the Center is provide residential services and behavioral training aimed at increasing functional independence to help the adult client learn to live in the mainstream of society.

Specific objectives include the provision of the following: A) Respite care to families who are in need of either temporary or emergency placement of their family member with mental retardation or autism in the Center's two(2) available respite care beds; (B) Transitional programming for people leaving large institutions; (C) Transitional programming for all residents from more restrictive residential environments to less restrictive residential placements; (D) Independent living training to help individuals live in their own apartments; and (E) Basic teaching activities in such areas as daily living skills, basic household cleanliness, personal hygiene, individual and group social and recreational skills and overall community socialization.

#### ORGANIZATION:

The Aroostook Residential Center began operation in October 1972. Pre-admission evaluations are conducted by the regional office with final screening conducted by the facility's Admissions Committee. Decisions to admit are based on specific program recommendations developed through a multi-disciplinary approach. All admissions require certification of eligibility for intermediate care facility for mentally retarded services after twenty one(21) days.

Following admission, the resident is assigned a specific staff member who is responsible for the implementation of the the resident's individual program plan. Quarterly monitoring and staff reviews are conducted to assess program effectiveness. Modification of the resident's program is made as the need arises and implemented by Center staff.

A professional experienced in mental retardation program administration directs the activities of the direct service staff and coordinates resident related activities between the Center and community agencies. The direct service staff provide primary support and instruction to each resident.

# DEPT OF MENTAL HEALTH, MENTAL RETARDATION & SUBSTANCE ABUSE

## PROGRAM:

The Center operates on a 24 hour per day/seven days per week basis. Residents must be 18 years or older and experiencing behavioral adjustment difficulties. The Center has also focused on enhancing its behavior management capabilities. Contracts for expanded professional services, i.e. psychology, speech therapy, occupational and physical therapy, give the staff significant consultative support. As a result, the Center has been able to manage more difficult and complicated behavior.

Compliance with the standards for licensure as an intermediate care facility for the mentally retarded provides the initiative for developing a more intensive behavior stabilization program. Additional federal revenues to the general fund generated as a result of the operation of a seven-day program equals approximately 50% of the Center's operating costs.

## PURPOSE:

The Augusta Mental Health Institute(AMHI) is mandated to treat adults who require intensive 24-hour psychiatric services from the following counties: Androscoggin, Cumberland, Franklin, Kennebec, Knox, Lincoln, Oxford, Sagadahoc, Somerset, Waldo and York. All services are provided without regard to race, creed, color, sex, national origin, ancestry, age, physical handicap or ability to pay.

AMHI is the only treatment facility fully operated by the State of Maine for these counties and is mandated and equipped to provide care and treatment in a hospital setting to the following categories of patients: those who require involuntary hospitalization; those who require a secure setting; those who require extended periods of inpatient treatment and/or rehabilitation; those committed under the criminal statutes for observation, care and treatment; and those who require certain highly specialized programs not available elsewhere.

The demand for mandated services is such that every effort is made to divert voluntary admissions to more appropriate settings in an effort to assure suitable accommodations for those most in need. In some cases, the lack of appropriate community alternatives requires that AMHI accept additional acute

## DEPT OF MENTAL HEALTH, MENTAL RETARDATION & SUBSTANCE ABUSE

patients on a voluntary basis.

### ORGANIZATION:

The Augusta Mental Health Institute was established in 1840 as the Maine Insane Hospital, and was the only public mental hospital in Maine until the opening of a second hospital in Bangor in 1901. In 1913, its name was changed to Augusta State Hospital and in 1973 to its present designation. Throughout most of its history the Institute provided the only public mental health services, except for the Veterans' Administration Hospital, to the people of southern and central Maine. The development of the community mental health centers in the 1960's resulted in a redefinition of the Institute's role. It stands today as a necessary and valuable part of the comprehensive mental health system which provides a broad range of services to Maine residents.

The organizational management of AMHI is based on a functional hospital model, which includes three geographically linked units and a forensic treatment unit. Each of the units are responsible for the total treatment of its patients; patients are admitted and discharged from the unit that will best serve their needs and connect them to community services. As an inpatient component in a network of mental health services in the two regions, an important part of the hospital's mission is arranging for post-discharge care which will enable patients to maintain or improve their levels of functioning on discharge. There are five major clinical departments which provide direct patient care: Medical, Nursing, Psychology, Therapeutic Recreation and Social Work. The hospital also provides dietetic services, medical laboratory services(contract), radiology services and pharmaceutical services.

Each unit team is led by a psychiatrist who oversees treatment plan development, implementation and delivery of care, as well as providing clinical services for which the physician is privileged. The Nurse organizes daily care of patients and oversees professional practice of nursing staff, including the practice of Mental Health Workers. A social worker is assigned to each patient to facilitate the patient's return to community life and treatment when that is indicated.

### PROGRAM:

Each unit is staffed with multi-disciplinary teams which include members of each of the major departments listed above. A psychiatrist is the team leader of each multi-disciplinary team and bears ultimate responsibility for patient care. The Treatment Teams are responsible for monitoring individual patient care through the Treatment and Discharge Plan and review process. Results of these reviews are recorded directly in the patient's chart. The Team involves the patient in the decision making process relating to his or her care. The Program Service Director is the administrative leader to the entire multi-disciplinary team and is responsible for the functioning of the therapeutic program. The Program Service Director is responsible for the integration of community services.

Effective discharge planning, which provides for appropriate linkage with the Local Service Network, is a major component of the treatment and discharge planning review process. The multi-disciplinary team oversees the entire treatment and discharge planning process. AMHI strives to improve patient care quality, that is, to increase the probability of desired patient outcomes, including patient satisfaction, by assessing and improving processes that most affect patient outcomes. Some of these processes are carried out by Medical Services, Nursing, Social Work, Rehabilitation Services, Psychology and Medical staff. Some processes are carried out jointly by clinical supervisors, Continuous Performance Improvement, Safety, and Risk Management Committees. This process is coordinated, integrated and reported to the Superintendent and medical staff. AMHI's goal is to help all staff improve the processes in which they are involved.

AMHI functions as an important teaching resource for physicians, social workers, nurses, occupational/recreational therapists, as well as for students in other health related areas. Formal education programs include Grand Rounds, which brings in nationally known experts, as well as State and local presenters to provide a fresh and stimulating professional environment. This combines with AMHI's secondary function as a site for presentations sponsored by the DMHMRAS, as well as providing a meeting site for the Maine State Alliance for the Mentally Ill, which encourages and strengthens that very productive relationship with families of the mentally ill. AMHI engages in collaborative partnerships

with its customers, including consumers, families, community providers, legislators and the public. This approach is one more step toward development of a comprehensive integrated mental health system as envisioned under the Consent Decree and Settlement Agreement.

### PURPOSE:

Bangor Mental Health Institute (BMHI) operates under laws established by the Maine Legislature to provide care and treatment for both voluntary and court committed and forensic patients as well as outpatients. The Institute has its own Governing Body with by-laws covering organization, purpose, duties, appointment process, committees and relationship to the Medical staff. The Governing Body provides the organizational link to the Department of Mental Health, Mental Retardation and Substance Abuse Services and on to the Governor's Office within the Executive Branch of State government. The Governing Body provides long range planning, role definition as a provider of mental health services, and integration to community services as overseen and funded by the DMHMRAS through its Regional Office.

## DEPT OF MENTAL HEALTH, MENTAL RETARDATION & SUBSTANCE ABUSE

BMHI is part of a comprehensive mental health system of services in Northern and Eastern Maine which includes community mental health centers with multiple branch offices, private psychiatric and community hospitals and private providers. It is the only public hospital serving two-thirds of the state's geographic area that provides services for people with severe mental illness who truly cannot be treated or get their needs met in other community settings. In addition to inpatient services, we provide outpatient services for clients who require such support in order to transition to, or remain in, the community.

**MISSION AND VALUES:** BMHI provides the highest quality acute psychiatric treatment and rehabilitation services to people with serious mental illnesses in inpatient and outpatient programs. BMHI will provide the leadership to assure that the following values permeate the entire organization: a) We will treat the people we serve with respect; b) We will protect the rights, dignity and privacy of the people we serve; c) We will address the needs of the whole person and will provide high quality treatment and rehabilitation in an integrated, compassionate manner; d) We will promote and develop a treatment environment that recognizes personal responsibility, individual choice, safety, comfort, normal daily activities, and community orientation; e) We will support and educate families, peers, caregivers, and others as to the needs of the people we serve to help them return to community settings as soon as possible; f) We will support and encourage staff in career growth and personal development.

### **ORGANIZATION:**

The Bangor Mental Health Institute was established in 1901 as the Eastern Maine Insane Hospital. In 1913, it was renamed the Bangor State Hospital, and in 1931, was placed within the Department of Health and Welfare. In 1939, the Hospital was placed under the Department of Institutional Service, now the Department of Mental Health, Mental Retardation and Substance Abuse Services. Its present name was established by the Legislature in 1973.

BMHI is a 113 bed psychiatric hospital and is organized into major clinical, administrative, and support service departments. The clinical programs and services are Admissions Services, Acute Admission Unit, Psycho-social Rehabilitation Units, Program and Outpatient Services, Rehabilitation Services, Ancillary Medical, and Support Services. The Administrative Services include Human Resources, Staff Education, The Quality Improvement Center, Utilization Review, and Medical Records. Ancillary Medical and Support Services include the Pharmacy, Laboratory, Radiology, Dental Clinic, Business Office, Plant Maintenance, Housekeeping, Dietary, Laundry, Sewing Room, Institutional Store, Switchboard, Print Shop, and the Safety Office.

The hospital received its first accreditation under the Joint Commission on Accreditation of Healthcare Organizations (J.C.A.H.O.) in 1976 and has continued to be accredited. It is fully licensed as a hospital by the Maine Department of Human Services. The D-U, D-1 & K-1 Units are certified by the Health Care Finance Administration to provide acute psychiatric care.

### **PROGRAM:**

The Admissions Unit serves as the primary admission and acute treatment unit for the hospital, admitting 300+ people a year. The treatment focus is rapid assessment and stabilization with psychiatric medication. Psycho-social Rehabilitation Units have various treatment approaches as follows: D-1 focuses on behavioral stabilization through use of medication management, group therapy, and psycho-educational approaches. K-3 utilizes a structured, rehabilitative daily living program which helps patients gain self-care skills. C-2 serves as an assessment/treatment unit for male patients referred from the legal systems for reduction of aggressive behaviors, increased awareness and acceptance of personal responsibility for problem behaviors. The Gero-Psychiatric Assessment and Resocialization Unit specialize in stabilization and active treatment of older people with severe psychiatric disorders.

The Community Link and Support Program (CLASP) provides transitional treatment and rehabilitation/habilitation for those BMHI patients who require a transitional program between the institution and community programs. The major focus of CLASP treatment is to identify barriers to clients' use of community services and to address these barriers. The Program on Aging Day Hospital serves older outpatients with major mental illness from the surrounding area to reduce demand for inpatient beds by providing day time treatment and to help patients transition to community living. The Program also provides Alzheimer's/Dementia Respite Care to help sustain community living for

## DEPT OF MENTAL HEALTH, MENTAL RETARDATION & SUBSTANCE ABUSE

individuals of dementia and their families and caregivers.

Rehabilitative Services: Occupational Therapy offers assistance to develop skills needed in patients' daily lives. The Benchmark Program offers paid work experiences to patients pursuing vocational goals. Therapeutic Recreation offers diversional and structured programs focused on patient's emotional, social and physical well being. Education and Information Services offers educational opportunities from basic literacy to Native American studies and computer literacy, as well as extensive library services. Physical Rehab. services are provided, i.e. on restorative care and consultation on mobility issues and adaptive equipment as requested. The Pastoral Care Department offers pastoral care to both patients and staff. Volunteer Services enlists and utilizes the volunteer resources of the community to enrich and brighten the lives of the patients. Beauty and Barber Shop services are also provided.

### PURPOSE:

The Department serves children, aged birth to 20 years, who have treatment needs related to mental illness, mental retardation, autism, developmental disabilities or emotional and behavioral needs and who are "not under current statutory authority of existing state agencies". The department is mandated to "strengthen the capacity of families, natural helping networks, self-help groups and other community resources to support and serve children in need of treatment" and to "provide in-home, community-based, family-oriented services".

## DEPT OF MENTAL HEALTH, MENTAL RETARDATION & SUBSTANCE ABUSE

### ORGANIZATION:

A Bureau of Children with Special Needs was established in 1985 to consolidate under one administrative and program authority services to children who have mental retardation, mental illness, behavioral disturbances and developmental delays and disabilities, and to their families. In 1996, the Bureau was abolished as the department moved from a categorically based organizational structure to a more functional organization. The Department operates three (3) regional offices and one residential facility, the Elizabeth Levinson Center, Bangor. The Department contracts with local non-profit agencies and provides direct services to children who have special needs and their families.

The Department collaborates in funding and delivery of services with other child-serving agencies at both the state and local level. A current goal is to develop local service networks, interagency case resolution committees and a comprehensive array of treatment and support services, with an individualized, wraparound approach to service delivery.

### PROGRAM:

In FY97, the Department served approximately 18,000 Maine children. Children services consist of three major program areas and one facility:

(A) Early Childhood, Mental Retardation and Autism Services. Program includes 3 regional supervisors, 23 early intervention specialists serving 525 young children, 10 individual support coordinators serving 595 children who have mental retardation and 8 autism consultants serving 200 children. The Department contracts for identification and assessment; crisis services, early childhood therapies; infant/toddler group services; preschool integrated support; family support; training on infant mental health; autism and mental retardation services.

(B) School-Age Mental Health Services. Five regional coordinators conduct regional resource and program development; facilitate interagency case collaboration and wraparound services, and conduct information and referral and case advocacy for 890 children who have neurobiological and other serious emotional disabilities and their families. The Department contracts for case management; crisis; wraparound services including in-house supports; information and referral; family mediation; outpatient therapy; homebased family services; therapeutic social and recreational programs; therapeutic group and foster home; and other residential services, serving 12,000 children (duplicated).

(C) Family Support Services. The Department funds and coordinates Maine's special needs respite care/respitality program serving 1,000 families statewide per year, and maintaining 400 trained and certified providers. Family support also includes contracts for parent facilitators, who have assisted the development and coordination of 20 parent self-help support groups across the state, family counseling for parents of children who have special needs; toll-free parent information and referral through the Maine Parent Federation/SPIN; and afterschool and summer social and recreational services for 250 children.

(D) Elizabeth Levinson Center. A licensed ICF/MR, the Center provides evaluation, assessment, treatment and respite care for 20 children, birth through 20, who are medically fragile and who have severe or profound mental retardation.

**PURPOSE:**

The Elizabeth Levinson Center serves medically fragile children with severe and profound mental retardation ages birth through twenty in a combined residential and medical program.

The primary purpose of the Center is evaluation and treatment for children with severe and profound mental retardation and multiple medical disabilities. The secondary purpose of the facility is to offer respite care to those parents whose children cannot be served in the community.

The children are accepted to the facility through the Interdisciplinary Team (IDT) process and approved by the Medicaid criteria. All children receive judicial certification for six to twenty-four months. Each program is implemented and monitored by medical, nursing, psychological and other professional staff. Community support services are identified and arranged for parents on discharge.

**ORGANIZATION:**

The Elizabeth Levinson Center was created in 1971 as the Regional Care Facility for children with severe or profound mental retardation. The name was changed to Elizabeth Levinson Center in 1973. It is operated by the Department of Mental Health, Mental Retardation and Substance Abuse Services. Physician, occupational therapy, physical therapy, speech and language development, dental, orthopedic and psychological services are provided on a contractual basis.

**PROGRAM:**

The Center continues to provide residential and medical treatment to children with severe or profound mental retardation.

Referrals for admission are accepted from the Department's three regional offices, pediatricians, other professionals and parents and guardians. Upon approval, the Center's Social Worker and Director of Nursing Services conduct an intake visit to the home and school program. The parent and child attend a pre-admission meeting at the Center with the Interdisciplinary Team (IDT). A service contract is developed with goals, objectives, responsibilities and discharge plans. Upon admission an Individual Program Plan (IPP) and monthly program reviews are conducted. Parents are encouraged to participate in the child's IPP and attend quarterly reviews by the planning team.

ELC offers inservice education for departmental and Center staff and staff training for area public schools and community agencies. Education programs for all Elizabeth Levinson Center residents are provided by local schools.

#### PURPOSE:

The department has primary responsibility for developing and maintaining a system of community mental health services and supports, including psychiatric inpatient services for persons age 18 years and older who have serious mental illness and significant functional impairments, as well as providing supportive services for their families. Several primary functions identified in statute: 1) State, Federal and other grant management; (2) community mental health support service systems and related plans; 3) inpatient treatment and rehabilitation services within standards set by JCAHO, Medicare, Medicaid and hospital licensing; 4) observation, security, treatment and rehabilitation services for persons committed under criminal statutes; 5) Rights of Recipients of Mental Health Services; and 6) the Interstate Compact on Mental Health[enacted 1957].

The department adopts and promulgates rules, regulations and standards relating to the administration and licensing of the services authorized, as well as assures compliance with a wide range of State and Federal requirements. There are many additional functions, including those related to the Implementation Plan for the AMHI Settlement Agreement of the class action suit, Bates v. Peet, et. al., 1990.

#### ORGANIZATION:

A Bureau of Mental Health was created in 1959 and reorganized as a Division in 1993 to provide centralized direction and administration for mental health programs in Maine. In 1996, the Division was abolished as the department moved from a categorically based organizational structure to a more functionally based organization.

#### PROGRAM:

The mission of the department is to support, empower and enable individuals and families to enjoy an improved quality of life through effective stewardship of public resources. In this capacity, and guided by a set of clearly articulated consumer-centered values and strategies, the department acts as an advocate for the prevention of and recovery from mental illness and as an agent

## DEPT OF MENTAL HEALTH, MENTAL RETARDATION & SUBSTANCE ABUSE

for the provision of individualized, flexible treatment and rehabilitative mental health services in settings most appropriate to the needs of the individuals and their families.

In FY99, the department continued its focus on the implementation of the Consent Decree, design of Medicaid managed care waivers and a major mental health systems change process from its centralized statewide structure to one that is locally managed through local service networks, which have the responsibility and accountability for person-centered mental health service needs assessment, planning, service delivery, resource allocation and evaluation/monitoring within their regions. In April 1996, based on the Productivity Realization Task Force Report, the department reorganized, creating three regional offices, each with a Mental Health Team Leader. These processes also called for decreased and consolidated State psychiatric inpatient capacity, increased collaboration and coordination among all sectors of the mental health service delivery system and integration with other services and programs serving persons who have disabilities and/or the poor.

The Program Manager for Mental Health Services, a central administration position, provides programmatic leadership for the Department through the MH Team Leaders and through development and implementation of quality improvement, standards, programs and similar activities to further the Department's MH objectives.

**PURPOSE:**

The department assures that services and programs available to the citizens of Maine are equally available to individuals with mental retardation and individuals with autism and their families. Responsibilities include the planning, promotion, coordination and development of complete and integrated statewide community programs for adult persons with mental retardation and autism. The department serves as liaison, coordinator and consultant to several other state departments in accomplishing the provision of such comprehensive services. It also serves as Public Guardian and/or Conservator for citizens with mental retardation in need of this service.

**ORGANIZATION:**

A Division of Mental Retardation was established in 1969. In 1996, the Division was abolished as the department moved from a categorically based organizational structure to a more functional organization.

Community mental retardation programs are supported through grants to private, non-profit agencies. Administratively, the state has been divided into three regions with a Team Leader in each. Community case management staff assist individuals in obtaining services, assist agencies in securing finances and developing programs, review all cases referred to and from institutions and provide program planning services to consumers. Decision making occurs at the regional office front line or close to the the consumer and family as possible.

**PROGRAM:**

During FY99, the Department continued to work to develop programs to comply fully with the Community Consent Decree. Person Centered Planning, an MIS system and the Crisis system were all improved. Quality Improvement Groups were developed throughout the state.

#### PURPOSE:

The Office of Substance Abuse (OSA) was established by the 114th Maine Legislature to adopt an integrated approach to the problem of alcohol and other drug abuse and to focus all the varied resources of the State on developing a comprehensive and effective range of alcohol and other drug abuse prevention and treatment activities and services; and to establish a single administrative unit within State Government. The 117th Maine Legislature merged the OSA with the Department of Mental Health and Mental Retardation to form the Department of Mental Health, Mental Retardation and Substance Abuse Services. It continues the responsibility for planning, developing, implementing, coordinating and evaluating all of the State's alcohol and other drug abuse prevention and treatment activities.

#### ORGANIZATION:

OSA is composed of five divisions. One unit provides technical assistance such as information about the extent of the problems, trends in substance abuse, type and quantity of treatment, etc. as well as providing informational materials to professionals, treatment and prevention providers and interested citizens around the state. The second unit manages the State's response to drunk driving and others who are incarcerated and have a substance abuse problem. The third unit oversees the prevention programs funded by the State. The fourth unit oversees the treatment programs funded by the State. The fifth unit manages the Office's financial responsibilities.

#### PROGRAM:

OSA develops comprehensive plans for combating alcohol and drug abuse, administers all contracts with community service providers, establishes operating and treatment standards, licenses or certifies treatment programs and collects and utilizes uniform contracting and information gathering to improve the field.

# DEPT OF MENTAL HEALTH, MENTAL RETARDATION & SUBSTANCE ABUSE

OSA serves as the primary liaison with other Departments, the Legislature, citizen's groups and service providers on issues pertaining to substance abuse. It provides training, consultation, technical assistance and service delivery strategies to help schools and communities reduce the problems attributable to tobacco, alcohol and other drugs.

DEEP provides or oversees education, evaluation, and/or treatment for all OUI offenders in the State of Maine in order to lessen the incidence of injury and fatalities which result from drinking and driving.

## LICENSES:

OSA is responsible for the: (1) Certification for outpatient and nonresidential substance abuse treatment programs including DEEP certification; (2) Licenses for residential rehabilitation, detoxification programs, halfway houses, extended care, and extended shelter. These responsibilities are jointly shared with the Service Center located in the Department of Human Services.

## PUBLICATIONS:

OSA is responsible for the State Plan for Alcohol and Other Drug Abuse Services in Maine; the Management Information System for Maine's ATOD System; the Maine Alcohol and Drug Services(a directory of treatment services); Support Groups for the State of Maine(a regularly up-dated list of support groups in Maine); The Maine Approach(a Guide for Comprehensive School-Based ATOD Prevention Programming); the Book List(lists all books in the Information and Resource Center(IRC) of OSA); Progress Report on the Maine Office of Substance Abuse; Alcohol, Tobacco and Other Drug Video Catalog (a catalog of the 800+ videos in the IRC); Annual applications, utilization reports and independent audit reports on the substance abuse portion of the Federal Substance Abuse and Prevention and Treatment Block Grant(available for review at the Office); and others. The IRC may be contacted directly for these publications, videos and other materials(telephone 1-800-499-0027).

**PURPOSE:**

The Department serves the public by examining and overseeing state-chartered financial institutions, regulating bank holding companies, regulating insurance companies, agencies and agents, regulating grantors of consumer credit and by licensing and regulating numerous professions and occupations.

The Department protects Maine consumers through its licensing, examining, and auditing activities; by conducting programs aimed at increasing voluntary compliance with State laws; by investigating possible violations of law; and by undertaking enforcement actions. The Department responds to consumer complaints and requests for information and conducts educational and outreach programs to make consumers aware of their rights under Maine laws.

The Department fosters a healthy business environment through competent, impartial and efficient regulation, in order to encourage the development of sound and ethical businesses which serve the needs of Maine citizens. The Department and its agencies and boards may be reached via e-mail through its home page on the world wide web at the following internet address:

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

### ORGANIZATION:

The Department of Business Regulation was created in October 1973 as part of State government reorganization designed to consolidate related agencies along functional lines and strengthen executive direction. Some of the agencies originally placed under the jurisdiction of the Department were the Bureau of Banking, Bureau of Insurance, Real Estate Commission, and the Maine State Boxing Commission (renamed Maine Athletic Commission). The Administrative Services Division was established by the Commissioner in 1974 and by statute in C. 553, P.L. 1983. The Special Session of the 106th Legislature established the Bureau of Consumer Protection (renamed the Office of Consumer Credit Regulation) to enforce the Maine Consumer Credit Code, which became effective January 1, 1975.

The Special Session of the 107th Legislature established a central licensing division, now called the Office of Licensing and Registration. Since that time, various other boards have been created and placed within the Division, or have been transferred into the Division from other departments or from independent agency status. Six professional licensing boards are affiliated with the Department: Board of Licensure in Medicine, State Board of Nursing, Board of Dental Examiners, State Board of Registration of Professional Engineers, State Board of Optometry and Board of Osteopathic Licensure. In 1987 the name of the Department was changed to Professional and Financial Regulation.

### PROGRAM:

The Commissioner is the administrative head of the Department and, as such, budgets for the Department, initiates and coordinates all policy and planning, and directs the day-to-day management of the Department.

The Commissioner is responsible for reviewing the policy and operation of agencies within and affiliated with the Department, to insure that each "complies fully with its statutory and public service responsibilities". The Commissioner may not exercise or interfere with the exercise of discretionary regulatory or licensing authority which is vested by statute directly in the Bureaus, Boards and Commissions of the Department.

In the case of affiliated boards, the Commissioner acts as a liaison with the Governor and with other units of state government. Affiliated boards submit their budgets through the Department. The Commissioner develops the Department's legislative program and coordinates it within the Department and with the Administration.

#### PURPOSE:

The Division of Administrative Services was established to provide administrative support services for all of the bureaus, boards and commissions within the Department and for the Department itself.

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

The Administrative Services Division is responsible for Accounting, Budgeting, Computer Services, Payroll, Personnel, Strategic Planning and Purchasing and Inventory Control. It provides centralized accounting and budgeting, centralized purchasing and property recording, and centralized personnel services, which include the preparation of payrolls and related bookkeeping. Most reports required of the Department and the agencies within it are prepared by the Administrative Services Division.

The Information Systems Support Services section was established as part of the Administrative Services Division for the purpose of coordinating automation and electronic communication objectives, as well as to create and administer a comprehensive computer network enhancing each agency's ability to fulfill their mission and to administer a centralized licensing database.

### ORGANIZATION:

Within this Division there are three functional units. The first is Financial which provides centralized accounting, strategic planning, and budgeting and fiscal services for the Department, as well as the centralization of purchasing and property accounting. The second section, is responsible for all personnel transactions for the Department, including preparation of payroll, affirmative action, contract administration and Worker's Compensation. The last section, Information Systems Support Services, is responsible for the coordination of automation and electronic communication within the Department.

### PROGRAM:

The Administrative Services Division provides the services described above for the entire Department of Professional and Financial Regulation. Additionally, the Division is responsible for ordering and arranging for the services provided to all units by outside staff agencies, the landlord and by private parties and vendors. It has continued to computerize its functions through the MFASIS System and the Bureau of Budget in order to provide better and more varied management information reports.

The Information Systems Support Services section program includes administration of the Department's centralized licensing database. This section provides quality control for licensing system data as well as printing of licenses and renewal notices, and printings of rosters and mailing labels for the licensing agencies and the public.

Support services provided by the Information Systems Support Services include training, local area network administration, micro computer support, coordinating the acquisition of hardware and software, limited software programming and facilitating the sharing of resources. Consistent with this effort, a desktop publishing facility is maintained for use by the Department. This section also coordinates telecommunications services and equipment for all agencies and data communications with host systems.

**PURPOSE:**

The Bureau of Banking was established to supervise all financial institutions chartered by the State to maintain and promote: safe and sound financial practices; strength, stability and efficiency of financial institutions; security of deposit and share funds; reasonable and orderly competition; and development and expansion of financial services advantageous to the public welfare; and, through the Securities Division, to assure that investors and the general public have the full and accurate information needed to make investment decisions, and that transactions in securities be effected fairly and honestly.

The Bureau has the power and responsibility to promulgate rules and regulations to govern the activities, operations and procedures of financial institutions; to conduct an on-site examination of each financial institution supervised by the Bureau at least every 36 months; to require reports and information necessary for proper supervision; to summon persons and subpoena witnesses in connection with Bureau matters; to order any person to cease violating any law or regulation or cease engaging in any unsafe and unsound financial practice; to approve or deny applications for new charters and applications by existing financial institutions to merge, acquire, consolidate, close offices or convert to another charter. In January, 1996, the Bureau assumed the responsibility for enforcing Title 9-A M.R.S.A., the Maine Consumer Credit Code, in banks, savings and loans, and credit unions.

**ORGANIZATION:**

From the date of Maine's statehood until 1831 only occasional committees were appointed by the Legislature to examine certain banks whenever deemed expedient. In 1831, the Legislature directed the Governor and Council to appoint two Commissioners who were required to examine each incorporated bank at least once a year. The powers and duties of the Commissioners were gradually broadened to include authorization to supervise every state bank and savings bank in the state; to set forth procedures to guard against unsafe practices; to approve mergers and new charters under a public convenience and advantage standard; and to supervise and regulate credit unions. In conjunction with a 1973 state government reorganization, the Bureau of Banks and Banking was placed within the Department of Business Regulation.

In early 1985, a reorganization resulted in the implementation of the current structure with the Bureau of Banking, an agency within the Department of Professional and Financial Regulation, divided into two functional groups with the responsibility for coordination and development of each area delegated to a senior manager. The Chief Bank Examiner supervises the Bureau's professional field staff, and coordinates and monitors examinations and problem bank supervision. The Deputy Superintendent is responsible for the development of the Bureau's data base, bank monitoring systems, legislative and rulemaking activities, financial analysis, including applications processing, consumer outreach activities, budget and office staff.

**PROGRAM:**

The scope of the Examination Division's responsibility includes safety and soundness, electronic data processing, bank holding companies and formal compliance review. During fiscal year 98-99, 18 safety and soundness examinations and 18 specialized examinations were completed and one holding company inspection was conducted jointly with the Federal Reserve Bank of Boston. A computer based system also monitors bank performance between on-site visits. The Consumer Outreach Program provides consumers with information needed to make wise financial choices. Consumer Outreach produced and distributed over 12,429 copies of educational booklets, 143 videos, and made 40 educational presentations, 8 of which could be viewed through the University of

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

Maine interactive television system. The Bureau's complaint resolution program responded to over 1,750 consumer complaints and/or inquiries and assisted Maine consumers in obtaining \$115,170 in restitution and other projected savings.

During fiscal year 1999, the Bureau processed 14 notifications effecting 14 branch establishments, relocations or closings. In two separate transactions, the Bureau also approved the purchase of 4 branches by 2 Maine chartered financial institutions. The Bureau also processed 2 applications for the formation of mutual holding companies and one application to form a bank holding company. In other transactions, a Maine based bank holding company was given permission to acquire an out-of-state bank and two in-state organizations merged. One out-of-state holding company acquisition was pending regulatory action at the close of the fiscal year.

Recently enacted legislation created the concept of the universal bank charter whereby all Maine chartered financial institutions operate with identical powers and authorities. This legislation also permitted the chartering of specialized chartered financial institutions: nondepository trust companies, merchant banks and uninsured banks. In fiscal year 98-99, the Bureau approved the formation of one nondepository trust company; there was one application to convert a nondepository trust company to an uninsured bank pending regulatory action at the close of the fiscal year.

The Bureau maintains a site on the World Wide Web which contains consumer information, the Bureau's booklets, regulations and bulletins. Consumer complaints can now be filed electronically using this media.

**PURPOSE:**

The Office of Consumer Credit Regulation was established to protect the citizens of Maine from unfair and deceptive practices with respect to consumer credit. The primary responsibility of the Agency is to protect Maine consumers through implementation of the Maine Consumer Credit Code. The Code requires the Agency to promote the development of equitable consumer credit practices; encourage competition among credit grantors; and assure that the regulation of consumer credit transactions in Maine conforms to the policies of the federal Truth-in-Lending Act.

In addition, the Agency is responsible for administration of consumer-related State Acts concerning collection agencies, simplified consumer loan contracts, credit reporting agencies, credit services organizations, rent-to-own companies, pawnbrokers, mortgage companies, personal finance companies, money order issuers, check cashers, foreign currency exchangers, and non-bank ATM machines.

**ORGANIZATION:**

The Maine Consumer Credit Code, enacted by the 106th Legislature, became effective on January 1, 1975 and provided for the establishment of an independent Bureau of Consumer Protection within the Department of Business Regulation. All personnel of the Division of Personal and Consumer Finance of the Bureau of Banking were absorbed by the Bureau of Consumer Protection. The 110th Legislature changed the name of the agency to the Bureau of Consumer Credit Protection. Public Law 390 (1995) again changed the name of the agency, to the "Office of Consumer Credit Regulation," effective January 1, 1996. This legislation also shifted responsibility for compliance by banks and credit unions with the Maine Consumer Credit Code to the Bureau of Banking.

**PROGRAM:**

During FY 99, 315 creditors, 24 collection agencies, 23 credit services organizations and 1 credit reporting agency were examined. During this period, creditors refunded \$30,543.28 to consumers as a result of violations discovered during the examination process. The Bureau cited 448 violations of Truth-in-Lending Laws and 201 Consumer Credit Code violations after reviewing 9,796 transactions. The Agency's Complaint Division responded to approximately 2,492 consumer grievances, including 229 formal written complaints. Many were mediated informally, by telephone, while others required conferences or formal resolutions. As a result of the efforts of the Complaint Division, an additional \$98,008.00 was credited or refunded to consumers.

The Agency licensed or registered the following creditors and businesses in FY 99:

Supervised Lenders (283 main offices, 283 branches): 566; Other Creditors (excluding branches)\*: 844; Sales Finance Companies: 92; Collection Agencies: (157 main offices, 74 branches): 231; Credit Services Organizations: 64; Credit Reporting Agencies: 24; Money Order Issuers: 15. This results in a grand total of 1,836 licensees and registrants.

\*This year's "Other Creditor" tally includes the following categories: Insurance Premium Finance Companies: 5; Mobile Home Dealers: 43; New Car Dealers: 144; Used Car Dealers: 177; Rent-to-Own Merchants: 24; Pawnbrokers: 46.

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

responsibilities of the Board are to license qualified applicants for a certificate to practice dentistry, dental hygiene, denturism or radiography in Maine; collect payment of specified fees to register dentists, dental hygienists and denturists biannually, and radiographers every five years who are practicing in the State; to make such rules, not contrary to law, as the Board deems necessary for the performance of its duties; to investigate all complaints and all cases of noncompliance with, or violations of, the provisions of laws relating to dentists and to institute or cause to be instituted appropriate proceedings in connection therewith; and to affiliate with the American Association of Dental Examiners as an active member.

### ORGANIZATION:

The Board of Dental Examiners, originally established in 1891 as the Board of Examiners for Dentists, consists of five members of the dental profession, a consumer and a dental hygienist for a term of five years, all appointed by the Governor. Dentist members must be graduates of a reputable dental college and have been in the practice of dentistry in Maine for at least ten years immediately preceding the appointment. The dental hygienist member must be a graduate of an accredited dental hygiene college and have been practicing dental hygiene in the State for at least 6 years immediately preceding appointment. The Board, at its annual meeting, elects from its members a president, vice president and secretary-treasurer. The National Board and the Northeast Regional Board serve as examinations for licensure. As members of the Northeast Regional Boards, each year Board members are assigned schools at which they administer the exam.

### PROGRAM:

During fiscal year 1999, the Board of Dental Examiners met at least monthly with lengthy agendas, including interviews for licensure, consumer and dentists complaints, rules, and informal hearings with dentists, consumers and their attorneys.

Twenty-six dentists became newly licensed in the State of Maine for a total of 907 dentists currently registered for the biennium 1998-1999. Of these 263 list out of state residences and/or practices. The Board issued 57 new dental hygiene licenses during this fiscal year, bringing the total of Maine licensed hygienists to 1134 of which 181 are out of state. The Board issued 13 new denturist licenses this fiscal year, bringing the total number of Maine licensed denturists to 17. Registered dental radiographers now number 899. Forty-four dentists hold permits to administer anesthesia/sedation.

During this fiscal year 5 temporary permits were issued to denturists who are practicing under the direct supervision of Maine licensed dentists, bringing the total number to 8. Clinical and written exams were administered for the purpose of licensing denturists.

The Board issued 36 new local anesthesia permits to Maine-licensed hygienists this fiscal year which brings the total number to 118.

**DR. WAYNE A HAMILTON, P.E., CHAIRMAN**

*Central Office:* TERML BLDG-AUGUSTA AIRPORT, AUGUSTA, ME 04333-0092

*Legislative Count:* 1.00

**PURPOSE:**

The State Board of Registration for Professional Engineers was established to protect the public through regulation of the practice of engineering in the State of Maine so as to maintain high professional standards. The Board is authorized to examine, certify, and grant certificates to applicants who satisfactorily qualify as professional engineers or engineer-interns in the State, upon payment of specified fees; to publish and distribute a roster of all registered professional engineers; to make rules and regulations not inconsistent with State Laws relating to engineers; to investigate complaints of alleged violations of such laws, conduct hearings, subpoena witnesses and institute disciplinary action as warranted.

**ORGANIZATION:**

The State Board of Registered Professional Engineers, established in 1935, is composed of six professional engineers and one representative of the public, appointed by the Governor for terms of five years. The Board annually elects from its membership a chairman, vice-chairman and a secretary. The latter may or may not be a member of the Board.

**PROGRAM:**

During FY 1999, 274 candidates successfully completed the requirements for registration as Professional Engineers. Of that number, 50 qualified through written examination, 205 by Comity with other jurisdictions, and 19 by oral examination. These candidates are rapidly registered as their credentials have been previously gathered and verified. As of June 30, 1999, a total of 5,520 engineers were registered. Approximately 65% reside out of state. During FY 1999, 224 applicants were examined for certification as Engineer-Interns. Of those examined, 125 passed.

The Board maintains membership in the National Council of Examiners for Engineering and Surveying (NCEES). Members fully participate in the activities of the Council. Several serve on Council Committees and in some cases serve as chairman of a committee. Individual members of the Board also maintain membership in several state and national engineering societies. These efforts help in keeping abreast of the activities of the engineering profession. The Board used the Uniform Written Examination as provided by the NCEES for both the Fundamental (FE) and Principles and Practice (PE) examinations. These examinations are made available to state boards that desire to use them and are graded and returned by the NCEES at cost. Boards of all 50 states, the District of Columbia and 4 territorial jurisdictions use the NCEES examinations. This is an aid in attaining better uniformity in conducting comity among the several state boards and assume minimum competence to practice.

Two periods of written examinations are given each year by the Board, in the fall and in the spring. Fall examinations were given at Augusta on October 30, 1998 for 67 Professional Engineer candidates. On October 31, 1998 for 111 Engineer-Intern candidates. Of those taking the P.E. exam, 31 passed. Of those taking the EI exam, 64 passed. Spring examinations were given at Augusta. On April 23, 1999, 87 candidates sat for the P.E. exam in Augusta. Also on April 24, 1999, 113 candidates sat for the EI exam at either Augusta or Orono. Of those taking the P.E. exam, 42 passed. Of those taking the EI exam, 61 passed. Of the 17 oral candidates who sat in FY1999 for the examination, 15 were found qualified. The Board held 4 meetings during FY 99. These were held September 17, 1998, January 21, March 18, and June 23, 1999.

#### PURPOSE:

To regulate all insurance companies granted a certificate of authority in Maine, to protect the public, and to license insurance producers, consultants and adjusters in the public interest. To accomplish these purposes the Bureau is empowered to license insurance companies to operate in the State of Maine. It also licenses non-profit hospitals, medical or other health service organizations, health maintenance organizations, medical utilization review entities, third-party administrators, advisory organizations, captive insurance companies, and reinsurance intermediaries/managers. The Bureau registers

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

preferred provider organizations, risk purchasing groups, risk retention groups, managing general agents, multiple employer welfare arrangements, and employee leasing plans.

The Bureau examines domestic insurers not less than once every five years to insure the soundness of the insurance company's financial position. In addition, the Bureau has certain limited responsibilities for the examination of alien and foreign insurers. The Bureau also reviews the annual statements of insurance companies, and examines and issues licenses to all qualified applicants for licenses as insurance producers, consultants, adjusters and corporations. Also, the Bureau is responsible for the administration of the rate-regulatory law of the State of Maine, and all policy forms and contracts used in Maine must be filed by insurance companies for approval by the Bureau. The Bureau is responsible for authorizing and reviewing self-insurance status for both individual and group self-insurers for workers compensation.

The Bureau may seek suspension or revocation of licenses in instances where insurance companies, producers, consultants or adjusters have failed to comply with the lawful regulations of the Bureau or the statutory provisions of Title 24 or of Title 24-A.

### ORGANIZATION:

In 1868 a State Bank and Insurance Examiner was appointed and charged with making annual examinations of banks and insurance companies. Two years later, in 1870, the Office of the Insurance Commissioner was created, with the provision that this person could not at the same time serve as the Examiner of Banks. The Office of the Insurance Commissioner became the Insurance Department in 1959.

Under the plan for State Government reorganization, the Insurance Department became the Bureau of Insurance and was placed within the Department of Professional and Financial Regulation, effective October 3, 1973.

### PROGRAM:

The programs of the Bureau are implemented through various sections. The Property and Casualty Actuarial Section and Property and Casualty Section provide consumer assistance, analyze and regulate rates for property and casualty insurance, evaluate reserve levels for workers' compensation self insured trust plans and evaluate the medical liability Rural Access and Demonstration Projects; the Workers' Compensation Section receives and resolves complaints and disputes involving workers' compensation rating. Alternative Risk Markets Section reviews and evaluates applications for self insurance authority, captive insurers, multiple employer welfare arrangements, and coordinates the filing of documents, reports and information with other agencies and departments.

The Administrative Unit is responsible for the organization and maintenance of administrative and legislative files; the Licensing Section processes licenses for producers, adjusters, consultants and agencies; the Examination Section audits domestic insurance companies; the Financial Analysis Section performs financial reviews of insurance companies and licenses companies seeking to do business in Maine. The Legal Division provides in-house legal support services to the Superintendent and works in close cooperation with the Office of the Attorney General.

The Life and Health Section reviews life and health policy forms (and rates), processes consumer complaints and requests for information, processes license applications for medical utilization review entities, preferred provider organizations, reviews managed care networks, and maintains data bases for and evaluates mandated health insurance benefits: the Market Conduct Section enforces action involving violations of the Maine Insurance Code resulting in the suspension and/or revocation of agent licenses.

The Consumer Health Care Section provides information to consumers regarding health care plans, assists enrollees to understand their rights and responsibilities under health care plans, and assists consumers with health care plan complaints.

**PURPOSE:**

The Board of Licensure in Medicine was established to safeguard the lives and health of the people of Maine through regulation of medical practice so as to maintain high professional standards and quality. To accomplish this the Board was charged to license, educate, monitor and discipline physicians, and to establish appropriate rules and standards for medical practice.

The responsibilities of the Board are to: LICENSE-determine the qualifications of, examine, and certify candidates desiring admission to medical practice in Maine; to register physician extender relationships; and biennially relicense physicians and surgeons based upon documentation of continuing medical education requirements, professional conduct and standards, and payment of fees; to set standards of practice for physicians and surgeons and promulgate rules and regulations deemed necessary; EDUCATE - to conduct and operate medical education programs for physicians licensed in Maine; to conduct and operate programs for financial assistance to medical students; DISCIPLINE - to investigate complaints and allegations of non-compliance with the laws relating to physicians and surgeons and the rules and regulations adopted by the Board;

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

and to hold hearings and take disciplinary action as required, in the form of probation, censure, fine, suspension or action in administrative court for revocation.

The Board is also charged to approve training programs for Physician Assistants; to determine the qualification of, certify, license, and biennially relicense physician assistants. Physician assistants must and Advanced Practice Registered Nurses may enter into a registered delegative relationship with a Maine physician allowing the physician to significantly extend his/her span of practice, making access to patient care more available and less costly.

### ORGANIZATION:

As established in 1895, the Board of Registration of Physicians and Surgeons consisted of 6 physicians appointed by the Governor, with the consent of the Council, for terms of 6 years. The Board began licensure in Jan., 1896. Today members are appointed by the Governor only. In 1975, the Legislature increased membership to 7 by authorizing the appointment of a public member. In 1983 it was enlarged by 1 physician and 1 public member to total 9. A 3rd public member position was created by the Legislature effective 1991. Legislation in 1994 changed the name to the Board of Licensure in Medicine. In 1998 the Legislature reduced membership to 9, by eliminating 1 physician member.

It also created the function of "consumer assistant" to help citizens understand the disciplinary process. Currently the Board is composed of 6 physicians and 3 public members appointed by the Governor to staggered 6 year terms.

The Board became an affiliate of the Dept. of Professional and Financial Regulation in 1991, while retaining operational and decision making autonomy.

The Board meets in July of uneven-numbered years and elects a chairman and a secretary-treasurer. Regular meetings as required by law are held each March, July, and November, plus other meetings as necessary. The Board held 11 meetings during the year. Meetings are open to the public and are announced through newspapers and the "Weekly Legislative Calendar." Any person may receive an agenda in advance of any meeting by telephone request to the Board office.

Physician appointees must be graduates of legally chartered colleges or universities which confer allopathic medicine degrees and have actively engaged in the licensed practice of medicine in Maine for at least 5 years preceding appointment. Public members or an immediate household member, may earn no income from activities related to the practice of medicine.

To aid in the formulation of rules and regulations governing physician assistants/physician extenders, the Board appointed a Physician Assistant Advisory Committee. Pursuant to PL 90 Chapter 931 as amended, the Board, jointly with the Board of Osteopathic Licensure, empaneled Medical Specialty Advisory Committees in Anesthesiology, Emergency Medicine, Radiology, and Obstetrics/Gynecology to develop practice parameters and risk management protocols. The Board participates in a Joint Conference Committee with the Maine Board of Nursing to exchange views regarding overlaps in the practice of nursing and medicine. The 1995 Legislature created the Advanced Practice Nursing Joint Advisory Council, on which the Board has a seat, to help guide the development of regulation and scope of independent practice of Advanced Practice Nurses. The Board participates in the organization of Eastern Region Medical Boards and the Federation of State Medical Boards.

### PROGRAM:

**LICENSURE:** The Board uses the nationally recognized United States Medical Licensing Exam, a series of three exams to evaluate basic science, clinical knowledge, and practice skills. In addition an oral examination is conducted with every applicant before permanent licensure is granted. During the past year the following licenses were issued:

Permanent Licensures	266
Intern/Resident Certificate	216
Camp physician	50
Temporary/Locum Tenens	186

In July 1998 renewed licenses totaled: 5,372

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

Physicians	4,732
Certified Physician Assistants Licensed	357
Certified Advanced Practice Nurses Registered	283

**COMPLAINTS, INVESTIGATIONS, AND DISCIPLINE:** The Board receives allegations of unprofessional conduct or incompetence from the public, hospital governing bodies, the profession, other state and national agencies, and law enforcement agencies. If grounds for discipline are found by the Board, it may file a complaint in the Me. Administrative Court seeking revocation or suspension of license. For less serious offenses the Board, on its own motion, issues letters of warning, censure and reprimand, imposes fines, orders license suspension up to 90 days in situations of eminent danger to the public. Actions are reported to the National Practitioner Databank, the Health Improvement Prot. Act Databank and the Federation of State Medical Boards Databank.

During calendar 1998 the Board received 121 new complaints and carried forward 155 from previous years. Of these:

Disciplinary sanctions imposed	31
Dismissed for lack of merit or insufficient grounds	143
Remaining under investigation or pending final action	102

**MEDICAL LIABILITY DEMONSTRATION PROJECT:** This project, which will run through December 1999, will attempt to measure whether medical practice in accordance with authorized practice parameters and risk management protocols will decrease the practice of defensive medicine, lower costs, and enhance the quality of medical care in these specialties. Protocols have been established for Anesthesiology, Emergency Medicine, Obstetrics/Gynecology, and Radiology specialties. See separate listings.

License and discipline information is available at the Board office, by telephone, and at the Board's internet address.

#### **PURPOSE:**

Pursuant to PL 1990 Ch. 931 as amended, on January 1, 1992 the Board of Licensure in Medicine and Board of Osteopathic Licensure jointly announced the opening of a Medical Liability Demonstration Project in the medical specialties of Anesthesiology, Emergency Medicine, Obstetrics and Gynecology, and Diagnostic Radiology. Four hundred one of four hundred twenty-four physicians practicing in Maine in these four specialties applied to participate in this innovative project which was originally scheduled to extend until December 31, 1996. Neither project administration nor performance analysis were funded by the Legislature. The 1995 Legislature extended the project until 1999.

#### **PROGRAM:**

The project will attempt to measure whether medical practice in accordance practice parameters and risk management protocols, as adopted by the two physician licensing Boards, will decrease the cost of the practice of defensive medicine and enhance the quality of care. National interest in this project has developed and the Board continues to be in contact with health researchers and policy analysts throughout the country who are interested in monitoring and evaluating the effects of this project. Early data has been insufficient to be predictive, hence the project extension to general a larger study database.

## STATE BOARD OF NURSING

### MYRA A BROADWAY, JD, MS, RN, EXECUTIVE DIRECTOR

*Central Office:* 24 STONE STREET, AUGUSTA, ME 04330

*Mail Address:* 158 STATE HOUSE STATION, AUGUSTA, ME 04333

*Established:* 1915

*Telephone:* (207) 287-1133

*Reference:* Policy Area: 01 ; Umbrella: 02 Unit: 380 ; Citation: T0032 M.R.S.A., Sect. 000002151

*Average Count--All Positions:* 7.000

*Legislative Count:* 7.00

#### PURPOSE:

The State Board of Nursing was established to protect the public through regulation of nursing practice in the State of Maine so as to maintain high professional standards. The primary responsibilities of the Board, by law, are to license, by examination or endorsement, all applicants qualified to practice as registered nurses or as licensed practical nurses; to renew the licenses of all qualified registered nurses and practical nurses; to investigate complaints of unsafe nursing practice or any violation of laws relating to nursing; and determine, in collaboration with the Attorney General, if the case should be presented for a formal hearing by the Administrative Court; to adopt rules and regulations governing licensure of nurses and other matters within its jurisdiction; to approve programs of training that prepare certified nursing assistants to perform selected nursing services when such services are delegated by a registered nurse.

Additional responsibilities of the Board are to prescribe curricula and establish standards for educational programs preparing persons for licensure as registered nurses or as licensed practical nurses; to approve nursing educational programs in the State as meet the requirements of law and the standards established by the Board; to survey all such nursing educational programs as deemed necessary to determine that the requirements of the law and the Board standards are being maintained; to deny or withdraw approval from such nursing educational programs for failure to meet requirements; and to approve the credentials of registered nurses who have completed an educational program that prepares the registered nurse to function as an advanced practice registered nurse. An advanced practice registered nurse includes the following: certified nurse practitioner, certified nurse-midwife, certified registered nurse anesthetist and certified nurse specialist.

#### ORGANIZATION:

The State Board of Nursing was originally created as the Board of Examination and Registration of Nurses in 1915 and received its present name in 1959. From 1947 until 1961, the Board's office was located in Lewiston. In 1961, the office was moved to Portland, and in 1973, it was relocated to Augusta.

In 1991, the Board of Nursing was affiliated with the Department of Professional and Financial Regulation.

In 1995, an advanced practice registered professional nurse was added to the Board of Nursing, which changed the composition of the Board as follows: six registered professional nurses, one licensed practical nurse, and two representatives of the public. All members are appointed by the Governor for terms of four years. The Board annually elects from its membership a Chairperson and a secretary. Also, the Board appoints and employs an executive director, assistant executive director, and other qualified persons, not members of the Board.

#### PROGRAM:

During the fiscal year 1998-99, the Board met in seven regular sessions for a total of twelve days. In addition, Board members participated in committee meetings; served as visitors on site visits to educational programs in nursing; served on committees of the National Council of State Boards of Nursing; and represented the Board at conferences or meetings with individuals or groups on matters pertinent to Board business. A major responsibility of the Board of Nursing is the licensure of practitioners of nursing. The law provides that licensure as a registered nurse or as a licensed practical nurse in this State

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

may be obtained by examination or endorsement of a license legally issued by the licensing authority of another state or country. Every license must be renewed biennially if the licensee is practicing nursing in Maine.

A second major responsibility of the Board of Nursing is approval of all basic nursing programs that prepare persons for licensure in Maine, either as registered nurses or as licensed practical nurses. Maine has 20 Board-approved nursing programs: fifteen to prepare registered nurses and five to prepare practical nurses. The names of these programs follow: Baccalaureate degree nursing programs: Univ. of Southern Maine; St. Joseph's College; Husson College/E.M.M.C.; Westbrook College Campus of the Univ. of New Eng.; Univ. of Me.; Univ. of Me. at Fort Kent. Associate degree nursing programs include Central Maine Medical Center; Univ. of Me. at Augusta; Kennebec Valley Tech Coll.; Univ. Campus of the Univ. of New England; Northern Me. Tech. College; Central Me. Tech. College; Eastern Me. Tech College; and Southern Me. Tech. College. In addition, the Univ. of Southern Me. has a generic Masters in Nursing Program for Non-nurses. Practical nursing programs are offered at the technical colleges.

A third responsibility of the Board of Nursing is to impose sanctions on licensees who violate the law thru the exercise of its legal, investigative and disciplinary program. During fiscal year 1998-99, the Board received 177 provider reports or complaints of illegal or unsafe nursing practice. The Board took the following actions in FY 98-99: letter of concern (7); terminated probation (3); took no action/dismissed complaint (120); warned, censured, reprimanded or fined (8); placed license on probation (6); reinstated/renewed license on probation (2); fined for unlicensed practice (90); accepted voluntary surrender of license (4); suspended license (4); and revocation of license (1).

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

### **PURPOSE:**

The State Board of Optometry was established to protect the public through the regulation of the practice of optometry in the State of Maine so as to maintain high professional standards. The primary responsibilities of the Board are to examine and license qualified applicants to practice the profession of optometry and to hold the title of Licensed Optometrist in the State of Maine, upon payment of specified fees; to renew all licenses annually upon payment of a specified fee and presentation of evidence that the applicant has attended an educational program approved by the Board; and to revoke, refuse or suspend any license for violation of the laws relating to optometry.

The Board investigates all complaints and cases of non-compliance with optometrist laws, rules and regulations, conducts hearings, and brings all such cases to the notice of the proper prosecuting officer. It also enforces standards established by law and makes such other reasonable rules and regulations, consistent with the law, as the Board deems necessary.

### **ORGANIZATION:**

The State Board of Optometry was established in 1909 as the State Board of Registration and Examination in Optometry and received its present name in October 1973. The Board consists of six members appointed by the Governor for terms of five years. Five of the members must be resident optometrists engaged in actual practice for a period of at least five years prior to their appointment. The sixth member must be a consumer member having no pecuniary interest in optometry or optical products. The Board annually elects a president and secretary-treasurer from its members.

### **PROGRAM:**

The Maine Board of Optometry held 7 meetings in FY'99.

During 1999, two new Board members were appointed by the Governor's office to replace members whose term had expired. The new members are: Brian L. Daniels, O.D., from Brunswick, and J. David Heward, O.D., from South Portland.

The Board held two examinations for licensure in FY'99. In August, 1998, ten (10) optometrists took the exam and seven (7) passed; in February, 1999, four (4) optometrists took the exam and all four (4) passed.

During 1999, the Board issued 178 active licenses and 6 non-active licenses for a total of 184 licenses. Two optometrists retired in 1999 and two optometrists moved out of state.

All Maine optometrists must complete 25 hours of approved continuing education in 1999 in order to renew their license in 2000.

### **LICENSES:**

The Board currently issues five different licenses: Basic, Diagnostic, Therapeutic, Therapeutic Advanced, and Therapeutic Advanced Glaucoma.

#### PURPOSE:

The Board of Osteopathic Licensure was established to protect the public through regulation of the practice of osteopathic medicine by maintaining high professional standards. Its primary responsibilities are to examine, certify and register qualified applicants for a certificate to practice osteopathic medicine in Maine. Upon payment of specified fees, the Board can issue, renew, withhold, suspend or seek revocation of all licenses. Furthermore, the Board has the power to make rules it considers necessary for the successful enforcement of its authority and the performance of its duties. As part of the biennial relicensure process, the Board shall prepare and distribute its rules relative to continuing medical education and its code of ethics to each licensed osteopathic physician practicing in Maine.

#### ORGANIZATION:

The Board of Osteopathic Licensure, when it was established in 1919, consisted of five members appointed by the Governor with the advice of the Council, for terms of five years. In 1976, the Legislature increased the Board to six members, all to be appointed by the Governor. Currently, the Board consists of 9 members appointed by the Governor. Six of these members must be graduates of a legally chartered college of osteopathic medicine and must be, at the time of appointment, actively engaged in the practice of the profession of osteopathic medicine in the State for a period of at least 5 years, and 3 of these members must be public members. Board meetings are held monthly. A chairman and secretary-treasurer, elected annually, are chosen by and from the members of the Board.

#### PROGRAM:

Revision of statutes relating to the Board of Osteopathic Licensure in 1973 specified an increase in the registration fee from four to twenty-five dollars per year voted in the June, 1982 meeting to become effective January, 1983. The Board, at its meeting on July 8, 1987, made plans for increasing the registration fee to increase the revenue to meet increased expenses. Revised statutes also specify one annual meeting instead of the two meetings as required previously, with special meetings authorized as called by the Chairman of the Board. Relicensure fees have been increased to \$400 biennially.

## DEPARTMENT OF PROFESSIONAL AND FINANCIAL REGULATION

Continuing medical education requirements have been increased to 100 hours biennially. The Board insists that at least forty percent of the credit hours must be osteopathic medical education approved in the rules established by the Board. Each licensee must furnish to the Board satisfactory evidence of attendance in the 2 preceding years at education programs sponsored by recognized associations, colleges or universities, hospitals, institutes or groups approved by the Board. This provides the public with the assurance that osteopathic physicians keep current with advances in osteopathic medicine as well as medicine at large.

Election of officers at the June meeting at the Board office in Augusta, Maine: Joseph R.D. deKay, D.O., Marie Guay, D.O., Vice-Chair; Charles Pernice, D.O., Secretary

**PURPOSE:**

Pursuant to PL 1990 Ch. 931 as amended, on January 1, 1992 the Board of Licensure in Medicine and Board of Osteopathic Licensure jointly announced the opening of a Medical Liability Demonstration Project in the medical specialties of Anesthesiology, Emergency Medicine, Obstetrics and Gynecology, and Diagnostic Radiology. Four hundred one of four hundred twenty-four physicians practicing in Maine in these four specialties applied to participate in this innovative project which was originally scheduled to extend until December 31, 1996. Neither project administration nor performance analysis were funded by the Legislature. The 1995 Legislature extended the project until 1999.

**PROGRAM:**

The project will attempt to measure whether medical practice in accordance practice parameters and risk management protocols, as adopted by the two physician licensing Boards, will decrease the cost of the practice of defensive medicine and enhance the quality of care. National interest in this project has developed and the Board continues to be in contact with health researchers and policy analysts throughout the country who are interested in monitoring and evaluating the effects of this project. Early data has been insufficient to be predictive, hence the project extension to generate a larger study database.

## SECURITIES DIVISION

### CHRISTINE A. BRUENN, SECURITIES ADMINISTRATOR

TDD: (207) 624-8563

Central Office: GARDINER ANNEX, NORTHERN AVE, GARDINER, ME 04345  
Mail Address: 121 STATEHOUSE STATION, AUGUSTA, ME 04333-0121 FAX: (207) 624-8590

Reference: Policy Area: 01 ; Umbrella: 02 Unit: 032 ; Citation: T0009B M.R.S.A., Sect. 000000212A

#### PURPOSE:

The principal mission of the Securities Division is to protect Maine investors, and toward that end, the Division administers and enforces the Revised Maine Securities Act; reviews applications to register securities for sale in Maine; reviews filings for exemptions from registration; licenses broker-dealers, sales representatives, and investment advisers doing business in Maine; suspends or revokes such licenses for misconduct, as defined in the Securities Act; responds to consumer complaints; investigates possible violations of the securities laws, and when warranted by the circumstances, issues cease and desist and other administrative orders or refers matters to the Attorney General for civil or criminal action. The Division also enforces the Business Opportunity Law and the State Commodity Code.

#### ORGANIZATION:

In 1913, two years after Kansas adopted the first "blue sky" law, Maine enacted a statute relating to "Dealers in Securities," to be administered by the Bank Commissioner. Over the years, that law was the subject of numerous changes, including the creation of a securities division, the establishment of a requirement for the registration of securities offerings, and the addition of antifraud and civil liability provisions. In 1985, Maine replaced its existing securities laws with the Revised Maine Securities Act, which was based on a draft of the Revised Uniform Securities Act. The next year legislation was passed giving the Securities Division enforcement powers over the sale of certain types of business opportunities and commodity contracts. In 1989, the Legislature transferred from the Bank Superintendent to the Securities Administrator the responsibility for administering and enforcing the securities laws, while keeping the Division a part of the Bureau of Banking.

#### PROGRAM:

In fiscal year 1999, the Division received and processed 13,146 applications to register securities or notice filings for federally covered securities (increase of 9% over fiscal year 1998), 268 private placement filings (10% increase), 12 filings relying on small Maine issuer exemptions, and 6 small company registration filings. As of the end of the fiscal year, there were 1101 broker-dealers licensed to do business in Maine, 49,064 licensed sales representatives (increase of 15%), and 413 investment adviser licenses or notice filers. In connection with the Division's review of licensing applications, 389 sales representative applications, and 67 broker-dealer applications were withdrawn as a result of questions or objections raised by the Division.

Through its enforcement actions, the Division obtained \$765,809 in restitution, issued 23 orders and agreements for violations of RMSA, and obtained \$12,500 in penalties. Through the Attorney General, the Division continued a major lawsuit involving the widespread sale in Maine of unregistered securities, and obtained judgements against 3 defendants involved in a Ponzi scheme sold in Maine.

**PURPOSE:**

The Department of Public Safety was established to serve the people by providing, coordinating and leading a responsive and comprehensive public safety system to protect their lives, rights and properties.

Employees of the Maine Department of Public Safety will continue to serve the public to the best of our ability by being dedicated and accountable and by managing resources effectively and efficiently. We seek to preserve the public order and to protect the persons, property, rights and privileges of all people in the State through ethical leadership and the development of our employees, while upholding and respecting the constitutional rights of all persons to liberty, equity and justice.

**ORGANIZATION:**

The Department of Public Safety was created in 1971, which consolidated the former Department of State Police, the Enforcement Division of the State Liquor Commission, the employees of the Vehicle Equipment Safety Commission, the Division of State Fire Prevention of the Department of Insurance and the Law Enforcement and Criminal Justice Academy, under the Commissioner of Public Safety.

In 1978, the Bureau of Capitol Security was added to the organization of the Department. The responsibility for the administration of the Highway Safety Program from the Department of Transportation was added and in 1990 the Legislature changed the name to the Bureau of Highway Safety.

The Maine Drug Enforcement Agency and The Maine Drug Enforcement Agency Advisory Board were created by the 113th Legislature to develop and carry out a Statewide Drug Enforcement Program. Beginning on January 1, 1989 the E911 Advisory Committee was established to assist and advise the Department in the implementation of a statewide E911 System. Chapter 566, P.L. 1993, created the Emergency Services Communications Bureau within the Department which is responsible for statewide implementation and management of the E911 System and the E911 Advisory Board was changed to the E911 Council. Chapter 588, P.L. 1991, transferred the responsibility for Emergency Medical Services from the Department of Human Services to Public Safety.

During 1993, the 116th Legislature created the Missing Children Information Clearinghouse requiring the Department to collect and disseminate complete information related to missing children. July of 1993 saw all liquor licensing functions transferred from the Bureau of Alcoholic Beverages and Lottery Operations to the Bureau of Liquor Enforcement. Recommendations of the Productivity Realization Task Force requiring the merger of Administrative Services Units of Public Safety and the Department of Defense and Veterans' Services with Public Safety acting as fiscal agent was completed in January 1996. Also a recommendation of the PTRF to consolidate all licensing and inspections within the Department of Public Safety into a single point of

contact under Administrative Services Unit was implemented in July 1996.

### PROGRAM:

Other than Administration of the Department, the activities during 1999 are discussed in the individual reports of its Bureaus. The financial array for the Administration of the Department also includes the Bureau of Capitol Security, Emergency Medical Services, and Motor Vehicle Inspection financial information.

Administration. Effective with the fiscal year 1980, the 109th Legislature funded the program entitled the "Commissioner's Office" following the appointment of the first non-law enforcement officer as Commissioner. This program included the Commissioner and the Director of Administrative Services. The Department further formed an Administrative Services Division, commencing in fiscal year 1980, to provide a full range of support services to the Bureaus and Divisions of the Department in the areas of Finance, Human Resources, Audit, and Public Information. Administration of the centralized licensing and inspection unit was added to the Division in FY1998.

Finance Office: Provides all accounting and budget control services for the Department of Public Safety and the Department of Defense and Veterans' Services.

Personnel Office: Administers the recruitment, hiring, promotion, transfer, discipline, training, classification and pay, and labor relations. The Personnel Office completed a trooper recruitment process and processed 1,339 applications. This Office also provides a full range of services to the Department of Defense and Veterans' Services.

Audit: This office is responsible for the external audit of National Highway Traffic Administration and U.S. Department of Justice sub-grants issued by the Department for compliance with the Office of Management and Budget Circulars A-102, A-87, and A-128.

Public Information Office: Serves as the spokesman for the Department in response to major news events and advisor to the Commissioner and Bureau Heads.

enforcement performance; and to facilitate coordination and cooperation between various law enforcement and criminal justice agencies.

### ORGANIZATION:

The Maine Criminal Justice Academy was created in 1969 as the Maine Police Academy, to provide a facility and training for Maine Law Enforcement Officers. In 1970, the Academy was renamed the Maine Law Enforcement and Criminal Justice Academy and its authority broadened to include participation by all criminal justice personnel. In 1971, the Legislature passed a mandatory police training law which required that all full-time municipal officers employed after September 30, 1971, complete a basic police school at the Academy within one year of their appointment. The Academy is overseen by a 17 Member Board of Trustees.

### PROGRAM:

During FY 1999 the Trustees certified 103 Municipal/County Law Enforcement Officers, 33 State Police Officers, 151 Corrections Officers, and 326 Pre-Service Officers. They waived 10 law enforcement training requirements and issued 55 Instructor Certificates, recognized 17 Chiefs and Sheriffs, and approved 18 new courses. The Academy sponsored 306 specialized and in-service courses that were conducted for 6,890 law enforcement and corrections officers. The MCJA Board of Trustees suspended 7 Law Enforcement Certificates.

enforcement agencies. In addition to the consolidation of investigatory resources, the Maine Drug Enforcement Agency also integrates state and federal prosecuting personnel with the day-to-day case work investigators. The prosecutors assist in the development of priorities and establishment of investigatory strategies.

### ORGANIZATION:

The Bureau of Intergovernmental Drug Enforcement was created by the 113th Legislature by passage of 25 M.R.S.A., Chapter 353. Funding of the Agency was established by the Anti-Drug Abuse Act of 1986. This Agency has been placed within the organizational structure of the Department of Public Safety and is managed by a Director who reports to the Commissioner of Public Safety. In 1991 the Legislature changed the Agency name to the Maine Drug Enforcement Agency.

### PROGRAM:

MDEA's goals are to: terminate drug trafficking organizations by incarcerating their members, seizing their drugs, obtaining their illegally gained assets and assist all county, local and federal agencies in accomplishing this mission.

**PURPOSE:**

The Emergency Services Communication Bureau was established within the Department of Public Safety in 1994 to implement and manage the Enhanced 9-1-1 (E 9-1-1) system. The Bureau, in consultation with the E-9-1-1 Council, will develop all system elements, standards and cost estimates necessary to provide for the installation and operation of a statewide E-9-1-1 system.

**ORGANIZATION:**

The Bureau is staffed by the Director and two other positions. It is funded by a Thirty two cent per month subscriber telephone charge.

**PROGRAM:**

The Bureau has focused on acquisition of a vendor to implement a statewide Enhanced 9-1-1 single access emergency telephone reporting system. Bell Atlantic was the successful bidder with statewide implementation to be completed by July 1, 2001. The system includes: telephone network, Public Safety Answering Point equipment, telephone subscriber data base information, and 24 hour system maintenance.

Through cooperative agreements with the Maine Office of Geographic Information Systems, Eastern Maine Development Corporation, and Northern Maine Development Commission, local municipalities and counties are receiving technical assistance in the naming and numbering of all streets and road networks.

a quality assurance program for the Enhanced 9-1-1 system is currently under development and will include both Public Safety Answering Points (PSAPS) and the Bell Atlantic telephone network and system.

**PURPOSE:**

The primary function of the State Fire Marshal is to protect lives and property through the investigation of explosions, suspicious and fatal fires.

**ORGANIZATION:**

The Division of State Fire Prevention was created in 1937 to combat an increasing number of fraudulent insurance claims resulting from set fires. Since then there has been a substantial growth in the areas of responsibility of the State Fire Marshal's Office which replaced the Division of State Fire Prevention in 1972. The scope of statutory authority has broadened to include a number of activities related to life safety as well as fire prevention.

The Office was reorganized in 1996 as a result of recommendations of the Productivity Realization Task Force with the licensing and inspections functions consolidated with other department licensing functions in order to provide for a single point of contact under the Administrative Services Division.

**PROGRAM:**

The Office of the State Fire Marshal enforces all laws, rules and regulations concerned with the prevention of fires; suppression of arson and investigations of cause, origin, and circumstances of fires and explosions; regulation of fireworks and other explosives; and gathering and evaluation of statistics concerning the number, cause, and other related information of fires occurring in the state.

*Average Count--All Positions:* 8,000

*Legislative Count:* 8.00

#### PURPOSE:

The Bureau of Highway Safety has two (2) major responsibilities. The first is for the state's highway safety program and the Bureau is authorized: to develop and implement a process for obtaining information about highway safety programs of other state and local agencies; to provide technical assistance to other agencies and political subdivisions for development of highway safety programs; and to provide financial and technical assistance to other state agencies and political subdivisions in carrying out highway safety programs. The second is to administer federal criminal justice grant programs offered through the Office of Justice Assistance in the Department of Justice.

#### ORGANIZATION:

The Bureau of Safety began in the Department of Transportation in 1974 and was placed within the Department of Public Safety in December 1980. In 1990, the Legislature changed the name to the Bureau of Highway Safety. The criminal justice component was added in 1996 as a result of the Productivity Realization Task Force process.

#### PROGRAM:

The Highway Safety component consists of the planning, development, implementation, and evaluation of Section 402, Title 23 U.S.C. Highway Safety Program in the State of Maine. The Bureau is involved in motor vehicle occupant restraint, child restraint, speed enforcement, enforcement training programs, alcohol and other drug countermeasures, emergency medical services, driver training, motorcycle and bicycle safety, pedestrian safety, pupil transportation safety, identification and surveillance of accident locations, traffic records systems, and traffic engineering services. The Bureau also directs the Defensive Driving program in Maine. The Criminal Justice component includes the Edward Byrne Memorial State and Local Law Enforcement Assistance Program (directed at combating illegal drugs); S.T.O.P. Violence Against Women; the local Law Enforcement Block Grant Program and others. The Bureau provides

**PURPOSE:**

The State Bureau of Identification, a Division of the Maine State Police, is the central repository of criminal history record information for the State of Maine. The Bureau provides information to agencies and persons authorized by law to receive such information, gathers data and provides statistics on crime in Maine, and maintains all State Police criminal and civil investigative reports.

**ORGANIZATION:**

The Bureau was created in 1937 as the central repository of criminal history record information.

**PROGRAM:**

The Bureau is developing and implementing software to computerize its record systems. The automated Fingerprint Identification System went on-line in August 1998. These systems will maintain and provide complete and accurate criminal history record information. Also the system will capture the information in a way that enables the Bureau to provide statistical and research data on crimes, offenders and the criminal justice process to the criminal justice community and to others.

*Legislative Count:* 22.00

**PURPOSE:**

The mission of the Bureau of Liquor enforcement is to regulate and enforce Maine State Liquor Laws and the Rules and Regulations governing licensed liquor establishments. In 1993 all licensing authority of the Maine State Liquor Commission and the collection of excise taxes was transferred to the Bureau. The Bureau also licenses agency liquor stores and holds hearings on appeals from cities and towns which deny liquor licenses. The Bureau adopts rules and regulations for the operation of licensed premises and licenses 4,000 liquor establishments and 185 agency stores.

Liquor Enforcement Officers investigate complaints of alleged violations in a covert capacity. This method has proven to be successful in the area of illegal sale (selling without a license) and furnishing (providing alcoholic beverages to underage people). These officers are constantly working with state and local officers, other law enforcement agencies, attorneys, professional organizations and the citizens of the State of Maine.

**ORGANIZATION:**

In 1953, the Division of Liquor Enforcement and Licensing was created within the State Liquor Commission, and in 1972 the Enforcement Division was placed under the newly created Department of Public Safety and renamed the Bureau of Liquor Enforcement.

## DEPARTMENT OF PUBLIC SAFETY

The Bureau maintains an inspection program whereby all premises are inspected annually for compliance. All liquor licensing authority was transferred to the Bureau from the Bureau of Alcoholic Beverages and Lottery Operations in 1993. As a result of a recommendation of the Productivity Realization Task Force the licensing function was consolidated with other departmental like functions into a single point of contact under the Administrative Services Division in 1996.

### PROGRAM:

The Bureau of Liquor Enforcement, in July 1990, developed a training program for sellers and servers of alcoholic beverages. In 1993, the Legislature mandated that the Bureau provide training on Maine Liquor Laws to the instructors of Alcohol Seller/Server Educational Course. There are currently eight approved courses with three more courses under design.

The "Officers as Agents" is a new program in which Liquor Enforcement Officers work with retail sellers of alcohol by posing as a clerk or customer inside the store. This allows the officer to check ID's and check for intoxicated persons trying to purchase alcohol with an additional officer, in uniform, outside the store. Phase two of this program which requires working with licensees is being well received and will soon become part of the Bureau's regular duties.

times of need and crisis. The Bureau was established to patrol the highways, especially outside the compact portion of cities and towns without local law enforcement agencies. The Bureau also provides security for the Governor and family on a twenty-four hour basis.

### ORGANIZATION:

The State Police was established as an independent branch of State government in 1925. In 1931 a reorganization act was passed by the Legislature designating the Chief as executive head of the State Police under the direction of the Governor. Six years later, the Division of Highway Safety and the State Bureau of Identification were created by the Legislature, under the control of the State Police. In 1939, the Bureau of Criminal Investigation and the Communications Division were established, along with the division of the State Police into six districts. Because of the increased demands for State Police services, the Bureau was reorganized in 1954, 1961, 1966, 1968, and again in 1996. In 1971 the Legislature incorporated the State Police into the Department of Public Safety. The Bureau now is under the direct supervision of the Commissioner.

### PROGRAM:

The programs of the Maine State Police have primary goals of 1) Patrolling rural areas of Maine without organized police departments for the purpose of preventing and investigating criminal activity; 2) Enforcing traffic safety laws in rural areas, Maine Turnpike and Interstate System; 3) Overseeing the Motor Vehicle Inspection Program and enforcing the Commercial Motor Vehicle laws and rules; 4) Investigating homicides that occur outside Portland and Bangor; 5) Investigate child abuse cases; 6) Provide crime laboratory services to all law enforcement agencies; 7) Provide a repository for criminal history and records information; 8) Provide specialized administrative and enforcement services.

#### PURPOSE:

PURPOSE: The Public Utilities Commission's purpose is to protect the public by ensuring that utilities in the State of Maine provide adequate and reliable service to the public at rates that are reasonable and just. The Commission acts as a quasi-judicial body which decides cases involving rates, service, financing, and other activities of the utilities it regulates. The Commission also has investigatory and rulemaking authority. The Commission currently has jurisdiction over 163 water utilities, 13 electric utilities, 3 gas utilities, 24 local telephone utilities, 10 water carriers, 138 COCOTS and 275 competitive interchange carriers. The Commission is divided into five operating divisions with respective powers and duties as follows:

The ADMINISTRATIVE DIVISION is responsible for fiscal, personnel, contract and docket management, as well as physical plant. The Division provides support services to the other divisions and assists the Commission in coordinating its activities. The CONSUMER ASSISTANCE DIVISION (CAD) receives, analyzes and responds to complaints from Maine utility customers. The LEGAL DIVISION represents the Commission before federal and State appellate and trial courts and agencies. It provides hearings examiners and staff attorneys in cases before the Commission and assists in preparing and presenting Commission views on legislative proposals.

The FINANCE DIVISION is responsible for conducting financial investigations and analysis of telephone, electric, gas and water utilities, and for conducting other research about Maine utilities. The Division analyzes all applications of utilities to issue stocks, bonds or notes. The Division prepares testimony and other material concerning fuel clauses, cost of capital, rate base, revenues, expenses, depreciation and rate design for rate cases. The TECHNICAL ANALYSIS DIVISION provides expert advice to the Commission on questions of engineering, economics, science, mathematics, statistics, and other technical elements of policy analysis. When assigned to litigated cases as advocates, staff technical analysts work with consultants and other staff in all elements of case advocacy, and often testify as expert witnesses.

#### ORGANIZATION:

ORGANIZATION: The Public Laws of 1913, effective by Proclamation, after referendum on October 30, 1914, created the Public Utilities Commission. It was organized December 1, 1914. The Act abolished the Board of Railroad Commissioners, established in 1858, and conferred upon the Public Utilities Commission all powers vested in that Board, as well as the State Water Storage Commission, including custody and control of all records, maps, and papers pertaining to the offices of the Railroad Commissioners and the State Water Storage Commission, the latter of which was not legally abolished until 1916. In addition, the Commission acquired jurisdiction over all "public utilities," and through subsequent legislation any person, firm, or corporation operating motor buses or trucks transporting passengers or freight for-hire over any street or highway in Maine.

Public Laws 1997, Chapter 316, "An Act to Restructure the Electric Utility Industry," deregulates generation services for investor-owned electric utilities, mandating divestiture of generation assets, and allows all consumers to purchase generation services directly from providers. The Commission retains jurisdiction over the transmission and distribution functions of electric utilities. The Commission retains jurisdiction over the transportation of passengers and property for compensation by vessel in Casco Bay under Chapter 174 of the Private and Special Laws of 1963. Chapters 207 and 617 of the Public Laws of 1983 specifically exempted dealers of gas in liquid form from Commission jurisdiction, which had not been previously exercised. Central tanks serving more than 10 customers are still subject to PUC jurisdiction. Chapter 304 of

## PUBLIC UTILITIES COMMISSION

the Public Laws of 1983 deregulated one-way paging service.

Public Laws 1991, chapter 342 exempted cellular telephone providers, from regulation as public utilities, as long as one provider does not "exclusively control" the assigned service area and unless the Commission determines that the cellular provider is engaged in providing basic exchange telephone service. Chapter 802 of the Public Laws of 1983 conferred PUC jurisdiction over cable TV systems providing service like telephone companies and pole attachment charges for cable TV systems. The present Public Utilities Commission consists of three members appointed by the Governor subject to review by the Legislative Committee having jurisdiction over public utilities and to confirmation by the Senate, for terms of six years. One member is designated by the Governor as Chairman, and all three members devote full time to their duties.

### PROGRAM:

The Commission regulates the State's electric, telephone, gas and water utilities as well as water carriers. The basic purpose of this regulatory system is to assure safe, reasonable and adequate service at rates which are just and reasonable to customers and public utilities. During the 12 months ending June 30, 1998, 968 cases were filed with the Commission and 979 cases were closed by the Commission. The Commission will be deciding a number of issues in the next year including: telecommunication interconnect agreements, continued implementation of the Federal Telecommunications Act of 1996, and Electric Utility Industry Restructuring which begins March 1, 2000.

Major decisions issued by the Commission during fiscal year 1998 include: approval of annual rate change pursuant to CMP rate cap plan, determination of rates for a number of Maine's water companies and districts, approval of asset sales from Central Maine Power, passage of many Electric Restructuring rules.

The Commission's Consumer Assistance Division (CAD) is charged with ensuring that consumers and utilities receive fair and equitable service through CAD educational and complaint resolution programs. During the 12 months ending December 1998, CAD handled 9,021 consumer contacts, including 7,427 information requests and 853 complaints. The vast majority of complaints (87%) were related to the electric and telephone utilities with more than two thirds relating to actual or threatened disconnection and a fifth related to billing problems. CAD issued 90 decisions ordering over \$55,000 in abatements to customers. Finally, CAD received 741 requests from utilities to disconnect customers from service during the winter of 1997-1998.

**PURPOSE:**

The purpose of the Office of the Secretary of State is to provide administrative and policy oversight for the Department of the Secretary of State. The Office of the Secretary of State is provided for in the Constitution of the State of Maine and is therein required to attend the Governor, the Senate and the House of Representatives as they shall respectively require, to keep and preserve the records of all their official acts and proceedings, and to perform such other duties as required by law.

Maine statute provides for additional duties of the Secretary of State as follows: Title 4 (notaries); Title 5 (archives, notaries, boards and commissions, executive disclosure, and the Administrative Procedures Act); Title 10 (service and trade marks); Title 11 (Uniform Commercial Code filings); Titles 13, 13-A, and 13-B (corporations); Title 21-A (elections and citizen initiated legislation); Title 29-A (motor vehicles); Title 30-A (election of county officers) and Title 31 (limited partnerships and limited liability companies). In all, 870 separate sections of Maine law make reference to duties of the Secretary of State.

Specifically, the Office of the Secretary of State is responsible for the overall administration, including finances, personnel and programs, of the Department of the Secretary of State's respective bureaus: the Maine State Archives; the Bureau of Corporations, Elections and Commissions; and the Bureau of Motor Vehicles.

**ORGANIZATION:**

The Secretary of State, as established by the Constitution of the State of Maine in 1820, is elected biennially by joint ballot of both Houses of the Legislature. In 1862, certificates of incorporation were required to be deposited with the Secretary of State, leading to the formation of a Corporation Division in 1870. The Elections Division originated in 1891 when the Secretary of State became responsible for printing and distributing ballots to towns, providing returns and performing other duties related to elections.

The Bureau of Motor Vehicles was established in 1905 to provide for the registration of motor vehicles by the Secretary of State. In 1919 registration of legislative counsel and employers became a function of the Secretary of State. In 1963, the State adopted the Uniform Commercial Code to be administered by the Secretary of State, becoming a function of the Corporation Division. Also in 1963, the Department of the Secretary of State was first recognized under law, with the Secretary of State designated as its executive head.

The Maine State Archives, created in 1965 and administered by the State Archivist, was made a bureau of the Department in 1973. The Administrative Procedures Act became effective July 1, 1978. In FY99 a major reorganization of the Bureau of Motor Vehicles was completed. Similar functions were combined to streamline processes and prepare the bureau for the integration of a relational database.

#### **PURPOSE:**

The Division of Administrative Services provides those services that are supportive to the other organizational elements of the Bureau of Motor Vehicles. Included are financial and management support to all Divisions in the areas of budgeting, accounting, payroll, personnel management, data processing, central files, micro filming, plate manufacturing, central stores and supply, mail handling and facilities management. Also falling under the Administrative Services Division are the Information Services unit, 13 branch offices and the Audit unit.

The Information Services unit provides data processing services, computer programming, systems analysis, and maintains the BMV computer hardware and software.

The branch offices provide registration and license services to the general public. The Audit unit provides support to the 450 towns and city offices that issue BMV credentials.

#### **ORGANIZATION:**

The division evolved from the Financial and Administrative Bureau which had the responsibility for all of the support activities with the exception of data processing, information services, the branch offices and the audit unit. Data processing came within the organizational framework in 1976. Information Services, the 13 branch offices and the Audit unit came under the framework as a result of the reorganization in 1999.

#### **PROGRAM:**

The primary functions and activities of the division were continued during the past year and highlighted by the preparation for a new general plate issue to begin July 1, 1999. Efforts were made to reorganize the division with the goal of increased effectiveness and better service to the division's customer

### **PURPOSE:**

The powers and duties of the State Archivist include responsibility for establishing rules, standards and procedures governing the creation, use, maintenance, retention, preservation and disposal of State records. Under this general authority, the Maine State Archives assists the three branches of State government, and county and municipal government agencies, in making their operations more efficient and economical through the application of modern records management techniques, including the establishment of disposition schedules under which agencies may systematically destroy records having no permanent value to the State; providing technical assistance in a variety of specialized fields such as files, forms, general paperwork procedures and office equipment management; and providing centralized storage and retrieval facilities for records that must be temporarily retained, but which need not be maintained in high-cost office space.

Professional archival services include the selection and preservation of records that have permanent value to the State, accompanied by the application of specialized technology and techniques designed to make such records readily accessible for use by the government and public. These in turn include the identification and arrangement of records, the development of finding aids in the form of inventories, indexes and guides to specific record groups or series, direct reference assistance to in-person users or in response to mail request, publication by microfilm or printing of selected records having a high public demand.

The Division of Records Management Services audits State microfilm and other imaging applications for feasibility and economy with the Photoduplication Laboratory serving as a standards laboratory to ensure that all State filming of records meet standards of quality established by Maine State Archives rules.

### **ORGANIZATION:**

The State Archives was created in 1965. The agency was designated as a central staff agency by the Legislature in 1973 and its jurisdiction extended to the counties and municipalities. By order of the Supreme Judicial Court, the Advisory Committee on Judicial Records was established in 1975 to exercise general direction over the implementation of program services to the Courts similar to those provided to the Executive branch. Joint Order, 107th Legislature, 1975 directed the Legislative Council to exercise like supervision over the establishment of a comprehensive records program for the Legislative Branch.

The Maine State Archives is comprised of two operating divisions; the Division of Records Management Services, and the Division of Archives Services. The Office of the State Archivist is organized to supervise overall administrative and programming responsibility, and exercise general control over publications, and agency participation in intergovernmental and public activities.

## DEPARTMENT OF THE SECRETARY OF STATE

The Archives Advisory Board together with the State Archivist is solely responsible for authorizing the destruction of government records.

### PROGRAM:

Services have expanded to meet the needs of the public whose use of the facility has increased dramatically. The staff has conducted workshops to assist researchers and has cooperated with national and local organizations to preserve the State's documentary heritage. Strategic planning for electronic records management has developed new approaches to assessing the value of State computer records. Publications designed to foster the preservation of the state's cultural resources were distributed to several hundred historical societies, museums, and libraries throughout the state.

The Archives participates in several professional associations, including the Association of Records Managers and Administrators, the Society of American Archivists, the National Association of Government Archivists and Records Administrators (NAGARA) and the New England Archivists. Connections to the Internet have expanded professional contacts dramatically. Cooperative agreements were made with the State Library in pursuing and receiving an NEH grant for newspaper preservation and in efficient use of a local area computer network, and with the Maine State Museum in preserving critical photographs. Records management consulting, including manuals, is available to all government agencies including counties and municipalities free of charge. The Archives has a site on the Internet with information about our collections, cultural organizations, and how to contact the Archives through e-mail. It's address is <http://www.state.me.us/sos/arc/general/admin/mawww001.htm>.

The Archives took action to prevent the sale of two copies of the Declaration of Independence that we believe are public records belonging to Maine communities. A comprehensive database system encompassing both Archival and Records Center holdings was brought on-line this year, with modifications and data entry continuing to expand its capacity. It allows rapid retrieval of records by keyword searches. Special projects included arranging a substantial photograph collection (previously acquired from the Department of Economic Development) and data entry of 1908-1922 vital records which are frequently accessed and whose microfilm copies are difficult to read.

### PUBLICATIONS:

The Archives has a World Wide Web site which includes information about our collections, related cultural organizations and how to contact us through electronic mail. Its address is <http://www.state.me.us/sos/arc/general/admin/mawww001.htm>. Informational brochures describing record holdings related to general public interest, including military history, family history, local history, public lands, Judicial and Legislative records. #### PURPOSE:

The Division of Archives Services is established under the authority of the State Archives to preserve, maintain, service and make available to the government and the public the permanently valuable records of the State.

The elimination of the position of Conservator has meant that certain basic conservation responsibilities such as monitoring temperatures, humidity, and other environmental controls, and performing very basic repairs or other preservation measures have been undertaken by various staff members

#### ORGANIZATION:

The Division became fully operational when construction of the Maine State Archives facility was completed in 1971.

#### PROGRAM:

This year's 18,000 inquiries represented a substantial increase over last year. The creation of finding aids in the form of computerized indices has continued. Among these are the early records of the Executive Council, the Legislature, Washington and Kennebec County Courts. Sorting of correspondence from officer of Maine Civil War regiments and other materials relating to the impact of the Civil War on Maine has been completed. The Archivist internet site has been updated and improved. Interest in the agency's Civil War holdings has increased dramatically due to the popularity of the motion picture "Gettysburg" and the documentary series "Civil War Journal" on the Arts & Entertainment network. One segment of this series featured Maine General Joshua Chamberlain for which the Maine State Archives provided material.

Recently published books substantially researched at the Archives include: "Joshua Chamberlain, A Hero's Life Legacy" by John J. Pullen; "The Chamberlain's of Brewer Maine" by Diana R. Laski; and "Fanny and Joshua, the Enigmatic Lives of Joshua Lawrence Chamberlain and Frances Adams Chamberlain" by Diane M. Smith. Films include "Home, The Story of Maine" produced by the Maine Public Broadcasting System. The Archives also contributed images for use in Civil War documentaries to be shown on the History Channel.

Other researchers using the Archives facility continued to reflect a broad variety of interests, with a significant increase in the number of individuals seeking information about birth parents, adopted children and other living relatives. The database of marriages from 1893-1966 has been streamlined to

facilitate researchers use, and a new database of deaths occurring in Maine from 1960 through 1966 has been added, Patrons may review and copy portions to computer disk at the Archives. It is now also available through the electronic bulletin board. Staff have participated in or conducted various workshops, seminars and other meetings relating to archival research, conservation and other specialized topics.

### **PURPOSE:**

The purpose of the Division of Corporations is to serve as a repository for all records relating to the 50,000 corporate entities operating in the State and 174,000 liens filed on personal property.

Specifically, this division files all originating documents, amendments and cancellations relating to corporations, limited partnerships, and limited liability companies, and reviews proposed entity names against those on file for availability prior to filing; files 92,000 annual reports disclosing officer information for all corporate entities; assesses penalties for late reports; and suspends or revokes entities which fail to file. The division maintains 4,000 service and trade marks on file, and reviews the design and text of proposed marks against those on file for availability prior to filing. The division also annually files 79,020 original records and renewals of security interests in personal property under the Uniform Commercial Code and the Food Security Act.

### **ORGANIZATION:**

The Assistant Director is responsible for the functions of the division, including the selection, supervision, rating and discipline of personnel. The Assistant Director reports directly to the Director who reports directly to the Deputy Secretary of State.

The Corporations and Elections Division is comprised of four functional sections, each reporting to the Division Director. They are: the Corporate Examining Section, the Corporate Reporting and Information Section, the Uniform Commercial Code (UCC) Filing Section, and the Elections Section.

### **PROGRAM:**

The Bureau installed four public access workstations in the Reception area to allow walk-in users direct access to the corporate and UCC information on the Bureau's Local Area Network (LAN). The Legal Advisory Committee was created to advise on corporate and UCC filing policies.

**PURPOSE:**

The Bureau of Corporations, Elections, and Commissions is the portion of the Department of the Secretary of State responsible for elections, corporations, and a variety of central filing activities. The Bureau has significant contact with the public in many areas including the following: conduct of state elections; corporation filings; Uniform Commercial Code (UCC) filings; oversight of the Administrative Procedure Act (state agency rule-making); recording of appointments to state offices, boards and commissions, secretariat to the Governor's Clemency Board; notaries public; and disclosure of financial information by state agency executive employees. In addition, the Bureau provides administrative support to the Maine State Archives, the Office of the Secretary of State and the Commission on Governmental Ethics and Election practices.

**ORGANIZATION:**

The Bureau executes its responsibilities through a Divisional structure. The Deputy Secretary of State is the Administrative head of the Bureau and the Director of three Divisions report directly to the Deputy. Each Division has an Assistant Director who is responsible for the functioning of his or her area and for the selection, supervision, rating and discipline of personnel. Overall operational responsibility for the Bureau rests with the Deputy.

**PROGRAM:**

Annual traffic includes over 150,000 inquiries in person, over the phone and by mail, and the maintenance of over 150,000 documents requiring action. The Bureau also has four public access workstations in the Reception area to allow walk-in users direct access to the corporate and UCC information on the Bureau's Local Area Network (LAN).

### PURPOSE:

The Division of Driver Licensing and Control was established with an ultimate objective of assuring the safety of the licensee and other users of the highways through improved attitudes and driving performance. This objective is accomplished through effective administration of the laws pertaining to the operation of motor vehicles; regulation of driver education programs; issuance of operators licenses, including the photo license and identification card program; through records of convictions or adjudications as transmitted from the courts; through traffic accident records; by identifying those drivers who are reckless or negligent and habitual or frequent violators of traffic laws and/or accident involvement.

Administrative hearings are conducted on violations of the motor vehicle laws to determine if the individual's privilege to operate and/or register motor vehicles should be suspended, revoked, withheld or reinstated and whether individuals involved in traffic accidents should be responsible under the Financial Responsibility Law and be required to carry liability insurance.

### ORGANIZATION:

The Division was established as a result of a reorganization within the Division of Motor Vehicles. It originated as the Court Records Section in the early 1920's, and remained such until 1970 when it was formed into the Bureau of Driver Improvement and Financial Responsibility. In 1976 the Bureau of Driver Examinations was merged with Driver Improvement and Financial Responsibility, creating the Bureau of Driver licensing and Control. In 1978 the Bureau of Driver Licensing and Control was formed into a Division. In 1991 the Examination Section was transferred to the Division. In 1996 regulatory responsibility for driver education programs was transferred to the division.

## DEPARTMENT OF THE SECRETARY OF STATE

### PROGRAM:

The primary functions and activities of the Driver Licensing and Control Division are the regulation of driver education programs, examination of drivers for licensure; processing abstracts of convictions or adjudications of violations of the motor vehicle laws as transmitted from the District or Superior Courts, and applying those convictions or adjudications to driver history records. Case review of individual driver records for appropriate action against repeat violators under the point system or suspending the license or registration as mandated by law; reviewing individual report of traffic accidents and invoking the provisions of the Financial Responsibility Law against motorists involved.

The Division also suspends licenses based on administrative determination that a person operated a motor vehicle with an excessive blood-alcohol level or was under the legal drinking age and was operating a motor vehicle with any amount of alcohol in the blood; conducts administrative hearings as requested by the individual to whom license suspension action was taken either by reason of convictions or uninsured accidents. Hearings were also conducted for those persons suspended under the Implied Consent Law for refusal to submit to a chemical test after arrest for operating under the influence of intoxicating liquor and for those suspended administratively under the drunk driving or teenage drinking and driving laws.

The Division revised the Maine Point System with an effective date of 7/1/90. Also in FY90 the Division began conducting Lemon Law hearings.

sessions for municipal elections officials; prepares, proofreads and distributes 2,000 separate ballot types and other election materials; tabulates official election results; supervises recounts of contested races; oversees the application of the State's laws pertaining to candidate and citizen initiative petitions; and coordinates the statewide implementation of the National Voter Registration Act, a federally mandated program.

### ORGANIZATION:

The Assistant Director is responsible for the functions of the division, including the selection, supervision, rating and discipline of personnel. The Assistant Director reports directly to the Director Elections who reports directly to the Deputy Secretary of State.

### PROGRAM:

The Elections Division provides municipalities with extensive assistance in elections practices, and strives for the best possible procedures to ensure fair and efficient elections. Training of local elections officials is conducted by the division in conjunction with the Maine Clerks Association through regional workshops and an annual conference. The Elections Advisory Committee was created to assist and advise on elections.

The ballot clarity board was created to assist with the wording of citizen initiative and people's veto ballot questions.

*Reference: Policy Area: 00 ; Umbrella: 29 Unit: 259 ; Citation: T0029 M.R.S.A., Sect. 000000547*

**PURPOSE:**

The Medical Advisory Board was established to advise the Secretary of State on medical criteria and vision standards relating to the licensing of drivers. It assists the Secretary of State in determining whether a person is qualified to be licensed as a motor vehicle operator. When the Secretary of State has cause to believe that a licensed driver or applicant may not be physically or mentally qualified to be license, he may obtain the advice of the Board. The Board formulates its advice from records and report or may cause an examination and confidential report to be made by one or more members of the board or any other qualified person it may designate. The licensed driver or applicant may cause a written report to be forwarded to the board by a physician of his choice, which must be given due consideration by the Board.

**ORGANIZATION:**

The Medical Advisory Board was authorized in 1971 to consist of five members appointed by the Secretary of State. To date, there are 8 members on the Board.

**PROGRAM:**

The last meeting of the Medical Advisory Board was held in Augusta in November of 1998.

**PURPOSE:**

The Bureau of Motor Vehicles was established to provide public safety and better regulation of traffic through administration of the laws of the State relating to motor vehicles and to the operators and operation thereof. Under the auspices of the Secretary of State, the Bureau provides the general public with a main office and thirteen branch office locations throughout the state, where motor vehicle registration and operator's licenses may be obtained.

The Bureau insures that applicants applying for operators licenses have the ability, knowledge and necessary skills for safe vehicle operation; investigates and licenses motor vehicle and trailer dealers; conducts hearings on violations of motor vehicle laws to determine if the individual's privilege to operate or register a vehicle should be suspended, withheld or revoked and also determines when reinstatement is permissible.

## DEPARTMENT OF THE SECRETARY OF STATE

The Bureau provides a method of titling motor vehicles and collects sales tax due when a vehicle purchased from other than a dealer is registered. In FY97 the Bureau began regulating driver education programs.

### ORGANIZATION:

The Bureau was organized in 1905 for the purpose of issuing lifetime licenses. In 1911, the Legislature changed the registration and licensing from a lifetime issue to an annual issue. In the 1920's, the Bureau had grown to the extent that it was headed by a Chief Clerk, had a Registration and Licensing Section and a Court Records Section. In 1935, the requirements for semi-annual inspection of motor vehicles became a responsibility of the Bureau and in 1939 an Examination Section was added to administer the required rule on new licenses.

In 1942 the Bureau was reorganized and placed under the direction of the Director of Motor Vehicles, with an Assistant Director name in 1943. This organizational structure remained until 1970 when the Bureau was reorganized into four bureaus; Public Services, Finance and Administration, Data Processing and the Bureau of Driver Licenses. Several minor structural changes were made between 1970 and 1976 when the Bureau was reorganized into the Executive Section and three Bureaus. Duties and responsibilities were added and the Bureau evolved into an Office of the Deputy and six divisions; Administrative Services, Commercial Vehicles and Reciprocity, Driver Licensing and Control, Enforcement and Regulation, Information Services and Public Services.

In 1999 the Bureau of Motor Vehicles was reorganized once more into its present structure of the Office of the Deputy, three divisions; Division of Administrative Services, Division of Driver License Services, and the Division of Vehicle Services, two offices; the Office of Investigations and the Office of Planning.

### PROGRAM:

The Bureau continues to provide licensing, registration and title services through 13 branch office locations, 28 examination stations, 6 mobile examination stations, 2 mobile photo-licensing unit, the main office and 485 municipal agents.

## DEPARTMENT OF THE SECRETARY OF STATE

### PURPOSE:

The Division of Records Management Services is established under the authority of the State Archivist to assist other State Agencies in the effective management of their current and semicurrent records by means of retention-disposition schedules, by technical assistance to improve procedures for maintaining, storing and servicing records, and by provision of centralized photoduplication services.

### ORGANIZATION:

The Division became operational when construction of the Maine State Archives facility was completed in 1971. It includes the State Records Center and the Photoduplication Laboratory.

### PROGRAM:

Emphasis is placed on the development of retention-disposition schedules for records generated by all State agencies including a continuance of review of prior-approved schedules. These provide for the orderly disposition of records at the expiration of prescribed retention periods. Work has also continued on the general retention-disposition schedules that apply to large classes of records common to all agencies. Most scheduling is accomplished through a network of Departmental Records Officers and Assistant Records Officers throughout the Executive Branch. A pilot "functional scheduling project" was completed in cooperation with the Office of the State Treasurer.

During Fiscal Year 1999 nearly 100,000 references were provided to State agencies by the State Records Center. The Center provides safe, environmentally controlled storage for records (including computer tapes, computer disks, and microform records as well as paper files). Court records have continued to arrive, alleviating severe storage problems at the various court buildings throughout the state. Staff continued development of retention schedules for local government records and provided records retention advice and assistance to the Administrative Office of the Courts. The Division has continued to work with the Office of Information Services and has completed the Archives Digital Records project to ensure the preservation of permanently valuable electronic records throughout State government.

By law, the Maine State Archives must furnish copies of archival materials in its possession. This service is provided by the photoduplication Laboratory, which also microfilms paper records that are too fragile to be handled. A microfilm copy is generated for safe Search Room use. During Fiscal Year 1999 the Photoduplication Laboratory provided extensive centralized microfilm and photographic services for government records at the request of State agencies filming over 2.7 million images, as well as direct service to the public at an established fee rate. The Photoduplication Laboratory continues to stabilize, duplicate and preserve the thousands of images in our holdings which date from the 1860's and range from poor to excellent condition.

**PURPOSE:**

The purpose of the Division of Rules, Commissions and Administration is to administer the appointment, renewal and continuing education of 24,000 notaries public; administers the application process of Dedimus Justice candidates for the Governor's Office; record appointments to 268 boards and commissions and publish vacancy listings; maintain records of approximately 1,752 rules filed under the Administrative Procedure Act for all State agencies and arrange for the publication of rule-making notices; file all documents relating to pardons; process authentications, apostilles and incumbencies certifying the acts of public officials; and administer the Executive Financial Disclosure requirements for 200 State agency officials.

**ORGANIZATION:**

The Assistant Director of Rules, Commissions and Administration is responsible for the functions of the division, including the selection, supervision, rating and discipline of personnel. The Assistant Director reports directly to the Director of Corporations and Elections who reports directly to the Deputy Secretary of State.

Employees of this division have discrete functional responsibilities; there are no subsidiary supervisory units within its operation.

**PROGRAM:**

Under the Administrative Procedure Act (A.P.A.), the division ensures that A.P.A. rulemaking procedures mandated by statute are followed by state agencies and makes rules accessible to the public through newspaper advertising and, eventually, through promulgation by electronic formatting. The Division implements and enforces the Executive Financial Disclosure requirements for State executives and makes the statements accessible for public scrutiny. The Division maintains signature and oath records for notaries public, various state officials, and appointees to boards and commissions, both as an official record and for authentications and apostilles; provides an accurate report of vacant and filled appointed positions; issues notary commissions and provides continuing education for notaries; coordinates paperwork by case for pardon hearings and tape records those hearings for public access.

**PURPOSE:**

The purpose of the Division of Vehicle Services is to administer those motor vehicle laws of this State pertaining to the titling and registration of all classes of motor vehicles. Vehicle Services also administers the commercial vehicle laws. These include titling and registration requirements, the municipal excise tax reimbursement program, the international registration plan, general weight permits, short term gross weight increase permits, long term trailers, and fuel use programs including the international fuel tax agreement.

## DEPARTMENT OF THE SECRETARY OF STATE

Further the division administers the federal heavy vehicle use tax program, other tax programs, operating authority permits, for hire insurance, and overdimensional permits, including the New England Transportation Consortium, and the fifty three foot trailer program. The division also establishes and maintains motor vehicle reciprocity agreements between the state of Maine and other jurisdictions.

The Division of Vehicle Services also provides services in the area of dealer and salvage yard licensing.

The Division's Commercial Vehicle Section staffs the Motor Carrier Review Board. In 1996, the Board developed and adopted its rules for conducting carrier reviews. The Board conducted approximately 77 carrier reviews in FY99.

### ORGANIZATION:

This division, formerly named the Division of Public Services, was established as one of four Bureaus in 1970 and reorganized into a division in 1978.

With the reorganization in 1999 this division became the Division of Vehicle Services and took on the Commercial Vehicle programs, Dealer Licensing, and the Title and Anti-Theft unit.

### PROGRAM:

The division continues to provide a single point of contact for the trucking industry and oversees the issuance of various commercial vehicle credentials. The effort to increase administrative efficiency and improve the database on commercial vehicles is ongoing. The division also oversees the administration of laws pertaining to vehicle dealer licensing, titling of motor vehicles and certain trailers, and the registration of all classes of motor vehicles with passenger cars being the largest class.

**PURPOSE:**

The Department of Transportation was established to plan and develop transportation facilities and services designed to contribute to the economic growth of the State of Maine and the well-being of its people. The department plans for future transportation needs, and assists in the development, operation, and maintenance of services and facilities while promoting transportation safety. Key links in the transportation network are an internal highway system that incorporates scenic values, safety, environmental conservation, and economic considerations; port and water transportation facilities that support the planned development of coastal resources; and an aviation infrastructure developed with the assistance of the department. Finally, the department administers on behalf of the state all federal or other monies that are intended for transportation uses.

**ORGANIZATION:**

The Department of Transportation had its origin in 1905, when a Commissioner of Highways was appointed by the governor and charged with compiling statistics, disseminating information, working for better highways, and advising local officials on the best means of building and maintaining roads and sidewalks. In 1907, the Commissioner became head of a new State Highway Department, which was created to apportion money to political subdivisions, plan road improvements, and let contracts for road construction. In 1913, both the department and the office of Commissioner of Highways were abolished and replaced by a State Highway Commission, which consisted of three members whom the governor appointed.

When the state highway system began to grow and state responsibility for highway construction and maintenance increased, the State Highway Commission expanded to include a central office in Augusta and seven offices located throughout the state. During the state government reorganization of 1972, the Commission was dissolved, and all of its functions were transferred to a newly-established Department of Transportation headed by a commissioner who was appointed by the governor. At the same time several independent, transportation-related agencies such as the Maine Port Authority were integrated into the department. Major changes occurred once again in 1981 when the commissioner was authorized to organize the department into bureaus and other units.

In early 1996, the Bureau of Transportation Services was dissolved and an Office of Passenger Transportation and an Office of Freight Transportation were established to promote these forms of transportation. Also, the number of deputy commissioners was reduced from three to one, and the Chief Engineer was placed in charge of the Bureaus of Planning, Project Development, and Maintenance and Operations. Finally, the Bureau of Planning was reorganized to become the Bureau of Planning Research, and Community Services. The department's organizational chart reflects the bureaus and other units administratively established by the commissioner in 1996.

*Legislative Count:* 163.00

**PURPOSE:**

The Bureau of Finance and Administration was established to provide administrative and financial management support and services essential to the successful accomplishment of the goals and responsibilities of the Department of Transportation. The responsibilities of the Bureau include planning, design, and support functions for all information systems; all invoices; payroll; accounting and budgetary processes; financial planning and analysis; and library, stockroom, reprographic, and photographic services.

**ORGANIZATION:**

The Bureau of Finance and Administration originated as the Bureau of Accounts and Administration of the former State Highway Commission, established in 1913. During the State Government reorganization of 1972, the Commission was abolished, and the functions of the Bureau were transferred to the new Department of Transportation's Bureau of Administrative Services, which in February of 1981 was renamed "Bureau of Finance and Administration." Later the bureau was reorganized to include the Divisions of Financial Planning & Analysis; Financial & Administrative Processing, Administrative Services, Information Systems, and Accounting.

**PROGRAM:**

The Bureau's current focus is on enhancing the accuracy of financial forecasting and promoting complete accountability in the administration of transportation programs and funds. Professional and technical training and the consolidation of processing functions are improving the ability of staff to work to these new standards.

The Information Systems Division continues to provide information technology support to the Department as a whole. Geographic Information Systems, Computer Aided Drafting and Design, Desktop and Network support, and business systems applications are prime focal points. Year 2000 updates are being made to critical systems with the assistance of contractors. All critical systems are expected to be fixed by the start of Fiscal Year 2000. By the start of Fiscal 1999, almost all of the Department will be using updated desktop devices, consistent office software and modern networking technologies.

Financial information and position counts for other units are also included in this program.

## MAINE AERONAUTICAL ADVISORY BOARD

### RONALD L. ROY, DIRECTOR, PASSENGER TRANS

*Central Office:* TRANSPORTATION BLDG, AUGUSTA, ME 04333-0016

*Mail Address:* 16 STATE HOUSE STATION, AUGUSTA, ME 04333-0016

*Established:* 1978

*Telephone:* (207) 287-3318

*Reference: Policy Area:* 07 ; *Umbrella:* 17 *Unit:* 245 ; *Citation:* T0006 *M.R.S.A., Sect.* 000000302

#### **PURPOSE:**

The board was established to advise the department on matters relating to aeronautics and to submit to the commissioner an annual report which includes recommendations for change to the aeronautical laws and comments upon the present and future needs of that service. Written reports and comments will be available to the public.

#### **ORGANIZATION:**

The Maine Aeronautical Advisory Board, was created as a board within the Department of Transportation comprised of 5 members; one person from the Maine Airport Managers Association; one person from the Maine Pilot's Association; and 3 persons appointed by the Commissioner of Transportation, one of whom shall not represent an interest in aviation. The members representing the aviation organizations are appointed by their respective board of directors and all members serve a term of office of 2 years. Vacancies in membership are filled in the same manner as the original appointment. The director of the Office of Passenger Transportation is an ex officio member of the board and serves a term of one year. The board meets at the call of the chairman, or at the call of at least 3 members of the board. Members serve without compensation or expenses.

#### **PROGRAM:**

The Maine Aeronautical Advisory Board continues to be concerned with bringing the benefits and advantages of aviation to the attention of the general public and improving the State's role in State-wide aviation matters. The Board makes recommendations and proposes initiatives to improve the air transportation system and will make recommendations on potential legislation.

*M.R.S.A., Sect.*

**PURPOSE:**

To advise on environmental matters; recommend environmental policy; support all units in protecting and enhancing natural and cultural resources by: identification, protection, enhancement, and mitigation efforts; providing technical services; developing and constructing resource protection, mitigation and landscape projects; coordinating environmental activities; providing liaison with regulatory and resource agencies and with the public; obtaining permits; and providing assistance regarding compliance with environmental laws and regulations.

**ORGANIZATION:**

The Office of Environmental Services has department-wide responsibilities and reports to the Chief Engineer. It has nine major areas of operational responsibility: 1) Administrative/Clerical; 2) Environmental Studies; 3) Planning/NEPA; 4) Permits; 5) Water Resources; 6) Mitigation; 7) Landscape; 8) Hazardous Wastes; and 9) Compliance Assistance. Air quality and noise efforts are handled by other units.

**PROGRAM:**

The Office accomplished the following: 230 project field reviews; 307 compliance assistance reviews; 423 water samples collected/analyzed; 37 well claim investigations, 6 replacement wells drilled; 170 NEPA submissions, 170 approvals; 778 historic/archeological submissions, 530 approvals; 15 federal historic recordations; 227 permit submissions and approvals; 25 6-Year Plan reviews, 20 EPA NPDES notifications; 9 DEP dredge spoil approvals; 67 PDR reviews; 10 Environmental Assessments (EA) and 2 Environmental Impact Statements (EIS) in progress; 3 EAs approved; 6 Sec. 4 (f) submissions; 11 interagency permit meetings conducted; 165 projects screened or investigated for hazardous waste; 15 hazardous waste projects with remedial activities; and numerous training sessions presented.

The Office had 33 wetland mitigation projects estimated at \$5 million, 100 landscape projects estimated at \$6 million, and helped manage/support the roadside vegetation management program (11,200 roadside miles). The Office maintains a lead role in developing and implementing the Scenic Byways, Community Gateways and Lake Protection programs. It is also responsible for 33 public water supplies operated by the Department.

Office personnel represented the Department on the State Wetlands Task Force/Work Groups, Well Drilling Commission, Land and Water Resources Council, Atlantic Salmon Committee, Watershed Management Group, Invasive Species Committee, Historic Preservation Commission, MDOT/DEP/MTA Stormwater MOA Task Force, NETC Research Committee, Treeways Program, Urban & Community Forestry Council, NPS Training Resource Center Advisory Committee, and Portland West End Youth Build Program. The Office participated on the MDOT Product Approval Committee, TQM Council and PATs, Employee-of-the-Month and Equity-of-Awards Committees, project teams, BPD Division Head Team, task forces, Integrated Transportation Decision-making (ITD), and in BPD Team Process training, partnering sessions, and environmental audits at MDOT facilities.

**PUBLICATIONS:**

The Office participated in updating the "BMP Manual for Erosion and Sedimentation Control on Transportation Projects", and in rewriting the Standard Specifications for controls that change the process and responsibility for environmental compliance.

**PURPOSE:**

The Maine State Ferry Advisory Board was established to advise the Department of Transportation on matters relating to the State Ferry Service and shall submit to the Commissioner of Transportation an annual report which shall include recommendations for change to the State Ferry Service and comments upon the present and future needs of that service.

**ORGANIZATION:**

The Maine State Ferry Advisory Board shall consist of one member and one alternate member from each of the island municipalities and plantations served by the State Ferry System and three members appointed by the Commissioner of Transportation.

**PROGRAM:**

During the year the Board concentrated on discussion of maintenance, scheduling, and increased service, safety and facility upgrades. Strategies developed during the Ferry Service Strategic Planning process continue to be implemented and expanded. The Maine State Ferry Service Tariff was updated and Tariff #6 was issued on July 1, 1998. The Policy Memorandum revision committee is continuing in that process. A Request for Proposals to design a new vessel was developed and issued.

*Average Count--All Positions:* 1580.000 *Legislative Count:* 260.00

**PURPOSE:**

The responsibilities of the Bureau of Maintenance and Operations are the summer maintenance of 15,872 lane miles of State and State Aid highways; the winter maintenance of 7,800 lane miles of State Highways; the maintenance of approximately 2,800 bridges on State, State-aid and town highways; the coordination of the State-aid highway construction program; the installation and maintenance of traffic control devices on State and State-aid highways; the maintenance of approximately 300 miles of State owned rail lines, including about 200 bridges; the management of an equipment fleet for the Department of Transportation; the management of the Department's communication system; and the maintenance of safety rest areas and roadside picnic areas. The Bureau also provides major maintenance services for Ferry Service transfer bridges, piers and buildings.

**ORGANIZATION:**

The Bureau of Maintenance and Operations organization, consisting of the Divisions of Highway Maintenance, Bridge Maintenance, Traffic Engineering, Motor Transport Services, Engineering and Management Services, and seven regional divisions. The radio operation is part of Highway Maintenance.

## DEPARTMENT OF TRANSPORTATION

### PROGRAM:

**HIGHWAY MAINTENANCE:** Our winter season had more freezing rain than snow which required more salt application than normal & less plowing. Funding for the first stage of our radio system upgrade to repeater operation was secured & is being used primarily to replace all obsolete non-programmable radio equipment.

**MOTOR TRANSPORT SERVICE:** As reported last year, MTS developed a replacement plan to replace essential equipment; currently the plan is being implemented with 2 purchases of light vehicles & equip. which coincide with the 1st purchase of heavy vehicles & equipment. The tow light vehicle & equipment purchases entail replacement of approx. 76 and 146 vehicles, respectively, with the additional purchase of approx. 7 skid steel loaders, trailers & accessories. The heavy vehicle & equip. purchase will involve approx. (16) two axle dump/plow trucks, (5) three axle dump/plow trucks, a grader & (2) low forward cab overs for striping.

**BRIDGE MAINTENANCE:** Routine maintenance included bridge cleaning, rail deck and curb repair, and channel maintenance. Major emphasis was placed on replacing wearing surfaces, bridge painting to protect structural steel; rehabilitation of abutments, and damaged and deteriorated bridge rail. Eight moveable bridges were staffed for operation in accordance with U.S.G.S. Federal regulations. The Div. utilized 5 Correctional Facility Work Crews to complete its activities. The Bridge Inspection Unit inspected public bridges in accordance with the National Bridge Inspection Standards. Maint. of the Ferry Service facilities included 9 ferry transfer bridges & 5 ferry docks. Inspected & maintained 300 miles of state-owned R/R lines.

**ENGINEERING & MANAGEMENT SERVICES:** This Division continues its' functions of budget development & monitoring, Collector Road program development and budgeting, & the oversight of the Bureau's Highway Inventory Program.

**TRAFFIC ENGINEERING:** This Division striped 627 lane miles of Interstate System, 6,219 miles of centerline & 4,745 miles of edgeline & maintained signing & lighting on a significant portion of the State Highway System. The Division produced 15 signal, signing & lighting projects. The Division also provided a traffic operational & safety analysis on roads throughout the state. The Division's Right of Way Control staff processed 783 applications and issued 901 Official Business Directional Permits. The Division reviewed 49 site projects for Dept. of Environmental Protection. The Division's Accident Records section processed more than 50,000 crash reports and generated over 150 collision diagrams. The Traffic Monitoring section completed traffic counts in 7 counties and began counting in Northern and Eastern Maine, completed 50 intersection studies, and collected data for 2 Origin-Destination surveys as well as 1 License Plate study.

## MAINE PILOTAGE COMMISSION

### BRIAN NUTTER, ADMINISTRATOR

TDD: (207) 287-3392

*Central Office:* TRANSPORTATION BLDG., AUGUSTA, ME 04333-0016

*Mail Address:* 16 STATE HOUSE STATION, AUGUSTA, ME 04333-0016 *FAX:* (207) 287-2032

*Reference: Policy Area:* 07 ; *Umbrella:* 17 ; *Unit:* 387 ; *Citation:* T0038 *M.R.S.A., Sect.* 000000089

#### PROGRAM:

Administrative responsibility for the Maine Pilotage Commission was transferred to the Department of Transportation in July 1998. Since that time the Office of Freight Transportation has served as the administrative arm of the Commission.

During the First Regular Session of the 119th Legislature, the Commission submitted a proposal for changes in the statutes establishing and governing the Commission. These proposed changes were developed through conversations with, and input from, Commission members, State licensed pilots, and other parties. The bill entitled, "An Act to Amend the Laws Governing the Maine State Pilotage Commission", LD 1639 was reviewed by the Transportation Committee, approved with amendments, and eventually accepted by the Legislature, becoming effective under emergency preamble on May 17, 1999.

The new legislation establishes a five-year license as opposed to the previous one-year license, which coordinates federal and state licensing on the same time frame. New license fees were established and the requirement for pilots to pay 2% of earnings to the Commission was deleted. It also increased the membership of the Commission from five to seven, with three of the members being required to be licensed pilots - actively engaged in providing piloting services, four members who are not pilots - two representing the marine industry utilizing the services of pilots, and two with a marine background representing the public. With the changes in the statute the Commission will move forward to revise and update its own Rules & Regulations.

#### LICENSES:

During FY99 a new license was issued to one individual and extensions of areas issued to four individuals who were already licensed by the Commission. As the new statute took effect on May 17, 1999, including the correlation between state and federal renewals, no renewal licenses were issued in FY99.

## BUREAU OF PLANNING

### WARREN T FOSTER, DIRECTOR

*Central Office:* TRANSPORTATION BLDG, AUGUSTA, ME 04333-0016  
*Mail Address:* 16 STATE HOUSE STATION, AUGUSTA, ME 04333-0016 *FAX:* (207) 287-3292  
*Established:* 1972 *Telephone:* (207) 287-3131  
*Reference:* Policy Area: 07 ; Umbrella: 17 Unit: 232 ; Citation: T0023 M.R.S.A., Sect. 000004206

#### PURPOSE:

The Bureau of Planning, Research and Community Services is responsible for conducting systematic and comprehensive transportation planning, capital improvement program development, research, and community services activities with the ultimate goal of providing for the safe, efficient, economical and environmentally sound movement of people and goods over the State's transportation network.

In addition to responding to requests for professional and technical assistance in the transportation planning and research realm from other State agencies, municipalities, and development groups, the Bureau provides guidance to top management in addressing immediate action or response to transportation issues as they arise.

#### ORGANIZATION:

In the State Government reorganization of 1972, the State Highway Commission was abolished and functions of the Division of Planning and Traffic were transferred to the new Department of Transportation, to be assumed by the Department's administrative Bureau of Transportation Planning and Services. The Bureau has continued to undergo revisions in its organizational structure to align for present and projected future demands of a state transportation network. Reorganization is being accomplished to comply with and meet the challenge of the Federal Intermodal Surface Transportation Efficiency Act, the Clean Air Act Amendment and the State's Sensible Transportation Policy Act.

The Bureau was reorganized in July 1996, and renamed the Bureau of Planning, Research and Community Services. The Maine Local Roads Center and Research sections of the Division of Technical Services were transferred to the renamed Bureau. Traffic Engineering functions were transferred to the Bureau of Maintenance and Operations. The Bridge and Pavement Management Systems, formerly in Technical Services, were joined with those already in Planning to form the Management Systems Division.

The Bureau of Planning, Research and Community Services is comprised of four basic operating Divisions; Planning Division, Transportation Research Division, Community Services Division and Management Systems Division.

#### PROGRAM:

Within the Planning Division there are three sections; a Transportation Analysis Section responsible for much of the technical analysis associated with transportation planning, a Statewide Planning and Coordination Section responsible for the development and periodic updates of the Department's long-range and six-year transportation plans and for the coordination of all regional transportation planning efforts which includes the RTAC's, MPOs, corridor committees and other ongoing regional planning efforts, and a Program Development Section responsible for project history, statistics relative to the financing and performance of Maine's highway systems, and the development and management of the Department's Biennial Transportation Improvement Program.

The Transportation Research Division has responsibility for the administration of the Department's research programs, developing and monitoring experimental construction methods, problem solving, new product evaluation, and operation of various pavement testing devices (SKID TRAILER, ARAN). The Community Services Division is responsible for roadway system and functional classification designation, administration of the Urban/Rural Initiative Program, and the Maine Local Roads Center, a technology transfer activity, which provides information, workshops, and other forums to assist local community in the operation and maintenance of their roadways, and the administration of the Department's municipal salt/sand storage program. Another recently developed

## DEPARTMENT OF TRANSPORTATION

program is Maine's new Adopt-A-Highway Program.

The Management Systems Division has five sections; an Air Quality Management Sect. responsible for ensuring the transportation plan & program conformity requirements of the Clean Air Act are complied with & for the development and management of the Dept.'s Congestion Mitigation and Air Quality Program; a Pavement Management Sect. responsible for assessing the condition of Maine's roadway network & for the development of pavement preservation & improvement strategies; a Bridge Management Sect. responsible for maintaining an inventory of the condition of state & local bridges & for the development of bridge replacement/rehabilitation strategies & capital improvement programs; a Safety Management Sect. responsible for overseeing the Dept.'s Highway Safety Improvement Program & safety management system; an Information Management Sect. responsible for the management of transp. systems inventory databases, TINIS, GPS, HPMS, TIDE & for the development of transportation planning GIS applications.

### **PURPOSE:**

The Maine Port Authority was established to initiate and implement programs which will encourage and assist in the development, expansion and utilization of port and rail facilities in the State of Maine. The Authority is authorized to acquire, construct, and operate piers and terminal facilities within the State through the proceeds of the sale of revenue bonds; and to conduct other allied activities in connection with port and rail development as deemed necessary or desirable within the purview of the Authority as defined by public law.

### **ORGANIZATION:**

The Maine Port Authority originated in 1929 with the creation of the Port of Portland Authority to acquire, construct, and operate piers and terminal facilities at the Port of Portland. In 1951, the Authority received its present name and its powers were expanded to include jurisdiction over the port at Bar Harbor.

State Government reorganization of 1972 placed the Authority within the newly-established Department of Transportation and transferred its powers and duties, except those relating to development of Maine ports and facilities and the conduct of allied activities, directly to the Department. The Maine Port Authority is currently under the Office of Freight Transportation.

The Maine Port Authority consists of a board of 5 directors, who broadly represent the coastal areas of the State. Four directors are appointed by the Governor. The remaining director is the Commissioner of Transportation, who serves as chairman of the board of Directors. The directors elect a treasurer and such other officers as the board of directors may from time to time deem necessary.

### **PROGRAM:**

The Maine Port authority has a continuing interest in the potential development of all ports and rail projects in Maine; and is available to participate in port activities where sound economic justification can be shown.

**PURPOSE:**

The Primary responsibility of the Bureau of Project Development is to develop the Department's capital improvement projects, through to construction completion once funding has been approved. Certain Units within the Bureau also serve the Department and the public in non-project-related activities according to their particular expertise.

**ORGANIZATION:**

The project development concept began as a part of the Department's reorganization in 1972 when the Project Development Unit was formed as part of the Bureau of Highways. In line with changes suggested by the Ernst & Whinney Management Study, the Bureau of Highways was abolished and several new Bureaus established, among them the Bureau of Project Development. The internal organization of the Bureau includes the divisions of Highway Design, Bridge Design, Right-of-Way, Construction, Multimodal Project Development and Project Management, plus the Survey and Geotech Sections. Each serves the major goals and responsibilities of the Bureau with some activities directly in support of the other Project Development Units. Also, demands are placed upon these Divisions & Sections for services by other units of the Department, other State agencies and the public.

**PROGRAM:**

The Department's overall capital improvement program continues to emphasize improvements to the existing transportation network rather than additions to it. Conscious efforts are made throughout the project development process to minimize the impact that construction of a project will have on both the surrounding natural environment and abutting property owners. The general goal is to provide the transportation system user with the most cost efficient improvement possible. Development of transportation improvement projects continues at a steady pace. However, Federal funds for these projects remain the major constraint in program delivery.

The Bureau during this period delivered a program of transportation capital improvements with a construction, or contract value of about \$95 million. This includes about 40 bridge projects at a cost of over \$17 million, some 130 miles of highway improvements at nearly \$40 million in value and about 230 miles of highway resurfacing at \$30 million.

Financial information for other units is also included in this program.

### PURPOSE:

In the spring of 1996, the Bureau of Transportation Services was dissolved, and its responsibilities were divided between the Office of Freight Transportation (OFT) and the Office of Passenger Transportation (OPT). The Office of Freight Transportation, headed by Robert D. Elder, was charged with developing a free-flowing intermodal freight network that would offer Maine shippers greater choice among modes, increased productivity, environmental benefits and reduced transportation costs.

The Office of Passenger Transportation was established to be responsible for the development of an efficient, environmentally sensitive, and cost effective passenger transportation system which encourages the use of alternative modes of transportation to meet the present and future needs of our citizens, business development, and tourism.

### ORGANIZATION:

The Office of Freight Transportation is functionally divided into a planning section, a program management section that manages special projects and operations, and a development/marketing section, which advocates new freight ideas and technologies and implements economic development strategies.

The Office of Passenger Transportation is functionally divided into two units: planning and development; and program management. OPT is also responsible for oversight of the Maine State Ferry Service and Special Projects related to passenger transportation.

The Maine State Ferry Service, headquartered in Rockland, provides regularly scheduled service to islands in Penobscot Bay. Scheduled service is provided to Vinalhaven, North Haven, Islesboro, Swans Island, Frenchboro and Mantinicus from mainland facilities in Rockland, Lincolnville and Bass Harbor.

## DEPARTMENT OF TRANSPORTATION

### PROGRAM:

The OFT is responsible for maintaining Maine's Three Port Policy, Three Rail Carrier Strategy and for improving freight transportation on Maine's highways & railroads, waters and in the air. It provides rail inspection services, undertakes rail rehabilitation projects, and coordinates the implementation of intermodal facilities such as the ones in Auburn, Bangor and Waterville. The OFT is also responsible for implementing the newly created Industrial Rail Access Program (IRAP). The Office also promotes maritime commerce, and has worked to secure funding and provide oversight for the completed expansion at the Port of Eastport and the scheduled rehabilitation at the Port of Searsport. It also implemented, funded, and completed the Small Harbor Improvement Program which provided grants to improve over 40 municipal marine facilities along Maine's waterfront. The Office has also been involved with expansion of container cargo operations in the Port of Portland.

OFT has taken over the task of prioritizing Maine dredging projects for the U.S. Army Corps of Engineers from the State Planning Office & marine pilotage licensing & regulation from the Dept. of Financial and Professional Regulation. It is conducting a once-a-decade Coastal Marine Facilities Inventory in partnership with the Maine Dept. of Resources. OFT is involved with the NASTO Highway Transport Committee, which is working on a regional commercial vehicle overlimit permitting system. It has secured funding from the I-95 Coalition for funding to implement these types of projects. OFT is involved in implementing a plan to use intelligent transportation systems technology in commercial vehicle operations. OFT developed an Integrated Freight Plan that helped determine how freight moves in Maine and what are the controlling factors in shipper's decisions. Lastly, OFT coordinates and develops MDOT initiatives with Canadian trade & transportation entities, including improvements to border corridors.

OPT's primary goal is to develop a user friendly transportation system which encourages the use of alternate modes of passenger transportation. The Planning & Development Unit is responsible for the development and maintenance of DOT's strategic planning effort and to work with federal agencies to assist communities with development activities for non-highway infrastructure. Air, passenger rail, marine, high occupancy vehicle, public transportation, intelligent transportation travel information systems, and significant trail projects fall within this category. The Transportation Program Unit's responsibilities include coordinating with communities for the administration of all air, passenger rail, marine, high occupancy vehicle, public & non-motorized transportation programs; ensuring programs are carried out consistent with applicable Federal & State rules & integrated into our 2 year capital program and 6 & 20 year planning programs.

**PURPOSE:**

The Treasurer of State is charged with seven primary responsibilities: cash collection, processing and management; investing funds not needed to pay bills; debt management; custodial services for trusts and performance bonds; unclaimed property; municipal revenue sharing; and investment oversight for NextGen, Maine's College Investing Plan.

The Treasurer serves on the boards of the Maine Municipal Bond Bank, Maine State Housing Authority, Maine State Retirement System, Finance Authority of Maine, Adaptive Equipment Loan Program, Health and Higher Education Loan Authority, Maine Governmental Facilities Authority, Maine Education Loan Authority, the Maine School Building Authority, and chairs the NextGen College Investing Plan Advising Committee.

**ORGANIZATION:**

The Treasurer of State, established by the Constitution of the State of Maine in 1820, is elected biennially by both Houses of the Legislature sitting jointly. The Deputy Treasurer of State is designated by law as the chief clerk of the Office of the Treasurer and performs the duties of the Treasurer in the event of a vacancy or other absence.

**PROGRAM:**

The Office of the Treasurer processes all state agencies' Cash Receipt Statements--over 37,000 during FY 1999. 2.3+ million checks were distributed, as well as 87,000+ electronic fund transfers. Banking services provided to State agencies are coordinated by the Treasurer's Office--including deposit access to over 35 Maine bank accounts, check stop payments and/or reissues, wire transfer services, and more. Cashflow is monitored. Funds not needed to pay state expenses or to compensate the banks for services are invested through the Treasurer's Cash Pool in commercial paper, obligations of the U.S. Gov., CD's in Maine banks, and repurchase agreements. The Cash Pool includes 80+ funds, grew to over \$500 million, and was managed with safety, liquidity and yield in mind. \$38.7 million in earnings from investments, including \$19 million to the General Fund, were distributed to participants in the Pool on a prorata basis.

The Treasurer is responsible for issuing notes and bonds to provide funds for State needs. The Treasurer of State prepares the proposals, obtains approvals, prints the bonds or notes, receives bids, and closes the sale. Records are maintained of all issues. Payments to fiscal agents for notes, bonds, and coupons that mature are initiated here. The Treasurer works closely with the rating agencies to assure they are fully informed of all state economic and fiscal issues. Three long-term investments--the Governor Baxter Trust, Lands Reserved Trust and the Common Trust--are managed through a contract with a third party. A trust committee led by the Treasurer provides policy advice and authorization for transactions. The Abandoned Property Program identified close to \$5.8 million in unclaimed property during FY99. 2,220 claims were made, reuniting citizens with \$1.4 million of lost property.

The Office of the State Treasurer distributes Municipal Revenue Sharing monthly to 494 municipalities and territories. Revenue sharing distributions consist of 5.1% of the previous month's collected sales tax, corporate tax, and personal income tax revenues. Population, State Valuation, and Tax Assessment statistics updated annually are used to calculate the ratio due to each municipality. Approximately \$96.2 million was distributed during FY1999. Keeping the Legislature and citizens of Maine aware of the State's current and long-term economic health is an important function of the Treasurer. The Office of the Treasurer publishes a newsletter twice a year and has developed a web-site that contains up-to-date economic, debt and fiscal information.

**PURPOSE:**

The University of Maine System is the state university of Maine. It provides undergraduate, graduate, and professional education in a variety of fields, conducts research and performs public service for the people of the State. The System was established to "develop, maintain, and support a structure of public higher education in the State of Maine which will assure the most cohesive system possible for planning, action and service in providing higher education opportunities..." (M.R.S.A., Title 20, subsection 2251).

The University of Maine System Board of Trustees is authorized to provide through its institutions an organized program of instruction, research, and service and award academic degrees; to ensure the academic freedom of its faculty; to recognize that all Maine citizens with high school diplomas or equivalents are eligible for the benefits of higher education; to assign a high priority of funds to programs in support of citizens considered economically, educationally, socially, and culturally disadvantaged; to research and evaluate the effectiveness of the delivery of higher education opportunities; to maximize the use of federal funds to further the mission of the University; and to make effective use of available resources for the operation of programs for the nontraditional, part-time learner.

Further, the Board of Trustees is empowered by its charter to appoint a Chancellor as chief administrative and academic officer and, on the nomination of the Chancellor, appoint campus Presidents; approve and prepare the operating and capital budgets of the University; accept the responsibility for governance and planning for public higher education; enter into contracts with the State and municipalities; appoint instructional personnel; establish qualifications for admission; establish a college of medicine; and annually report all receipts and expenditures on account to the Legislature.

**ORGANIZATION:**

The 103rd Legislature, recognizing the need for a more cohesive system of public higher education, voted to combine the former State colleges and OPAL - Orono, Portland, Augusta, Law School - into a consolidated University of Maine, with a single Board of Trustees.

The Portland and Augusta branches remained under the Orono campus' administrative umbrella at the time of the 1968 merger, but Portland became a separate campus in 1970 and Augusta followed one year later. Portland and Gorham were made a single institution in 1972 and in 1978 the name was changed from University of Maine at Portland/Gorham to the University of Southern Maine.

In 1986 the University of Maine was renamed the University of Maine System and the University of Maine at Orono's name was changed to the University of Maine.

The University System is organized into the following units:

- Board of Trustees
- University System Office and Services
- University of Maine
- University of Southern Maine
- University of Maine at Farmington
- University of Maine at Port Kent
- University of Maine at Machias
- University of Maine at Presque Isle
- University of Maine at Augusta

# BOARD OF TRUSTEES OF THE UNIVERSITY OF MAINE SYSTEM

## PROGRAM:

**INSTRUCTION.** The multicampus University of Maine System offers the associate, baccalaureate, master's, and doctoral degrees plus the certificate for advanced study and the professional degree in law. Academic programs include the arts and sciences, agriculture, forestry, technology, business, education, life sciences, marine sciences, engineering, law, and nursing. Specific responsibilities are assigned to each of the seven universities based on such goals as: 1) assuring a solid core of general studies; 2) building centers of excellence and expertise in specialized fields; and 3) responding to the particular cultural, agricultural, and industrial needs of regions. Fall 1998 enrollment totaled 30,620, including many part-time and adult learners, and 4,553 persons were awarded degrees in 1997/98.

**PUBLIC SERVICE.** In addition to its instructional programs, the University System uses its campus facilities, research capabilities, and faculty talent in direct support of community and individual needs throughout the State. A major example: University of Maine Cooperative Extension, supported by federal, state, and county governments, provides education and information directly to young people, homemakers, families, farmers and other individuals, and communities. Public service activities are encouraged on each campus and include the use of University faculty in elementary and secondary schools, direct aid by faculty experts to business and industry, the application of new research technologies, and the communication of information of importance to the citizens of Maine.

**RESEARCH.** The research mission of the University System includes expanding faculty skills and teaching competence, increasing knowledge of Maine resources and improving their practical use, and assisting the state and regional economies. Research is encouraged at all campuses but is emphasized more at the University of Maine and the University of Southern Maine, which have been designated major centers for basic and applied research within the System. Contributions have been particularly strong in pulp and paper technology, forestry, engineering, law, applied science, public policy, and quaternary studies. University research unquestionably has benefited Maine's business, natural resources and government.

**PURPOSE:**

The Childrens Residential Treatment Committee is an interdepartmental committee. It is a subcommittee established to develop and coordinate the State's role in contracting for the placement of children in need of treatment in residential treatment centers.

**ORGANIZATION:**

The Committee is composed of the Commissioner of Education; the Commissioner of Human Services; the Commissioner of Mental Health and Mental Retardation and the Commissioner of Corrections or their designees.

**PROGRAM:**

The Committee is responsible to develop overall state policies for placement of children in need of treatment in residential treatment centers. The Committee is charged to develop a plan to implement those policies and determine the number of children who need residential treatment services. The committee has worked in conjunction with the Residential Treatment Centers Advisory Group to develop a needs assessment format and rate setting regulations and contract procedures. The Committee recommends to the four departments a coordinated approach to residential treatment rate setting, contract development and program management.

**PURPOSE:**

The State Board of Education is authorized to act in an advisory capacity to the Commissioner of Education in matters concerning State Laws relating to education. In addition, the Board is delegated specific powers to make recommendations to the Legislature for the efficient conduct of the public schools; to approve the formation of School Administrative Districts; to establish requirements for approval and accreditation of elementary and secondary schools; to grant permission for administrative units to enter into agreements for cooperative educational purposes; to act upon articles of agreement for creation of an Interstate School District; to develop and adopt a plan for the establishment of applied technical centers; to approve standards for school construction; to approve school construction projects for State aid; to approve the formation of community school districts; to obtain information regarding applications for granting degrees and make recommendations to the Legislature.

## INDEPENDENT AGENCIES - REGULATORY

The State Board of Education also serves as the State agency for administering Carl Perkins Federal funds; to serve as an appeals board for unclassified personnel; and to establish the certification standards for teachers and other educational personnel.

### ORGANIZATION:

The State Board of Education originated in 1846 as the Board of Education, consisting of one member from each county of the State. The Board was abolished in 1850 and recreated in 1869 as the State Board of Education, with a membership comprising the Superintendent of Common Schools (established 1854) and County Supervisors of Public Schools (established 1869). In 1872, the Board was again abolished along with the county supervisors, and its functions shifted to the superintendent who, in 1923, was designated Commissioner of Education.

The Department of Education was created in 1931 in a major State Government reorganization. However, it was not until 1949 that the State Board of Education was reestablished, this time consisting of ten members, five of whom were appointed by various interests in the State and five appointed by the Governor. At this point, the Board was delegated great authority over education activities of the State, including appointment of the Commissioner of Education and personnel of the department. In 1957, authority to appoint all ten members of the Board was transferred to the Governor with the advice and consent of the Board.

Effective July 1, 1972, the State Board of Education was changed to consist of 9 members. Since January 1, 1977, the Governor appoints members for five year terms subject to review by the Joint Standing Committee on Education and to confirmation by the Legislature.

### PROGRAM:

In addition to fulfilling its statutory obligations, the State Board continues to lead Maine's effort to establish results-based initial teacher certification program; plays a leadership role in policy development and implementation of technology; and supports the recognition of exemplary technical learning through "Making the Grade Awards" and the Maine Teacher of the Year Program. The Board is also engaged in a major school construction reform initiative that will result in new and improved processes for approving school construction and renovation.

## INDEPENDENT AGENCIES - REGULATORY

### **PURPOSE:**

The major goal of the Maine State Commission for Higher Education Facilities Act of 1963 is to ensure adequate opportunity for higher education and enable the most equitable and efficient use of educational resources through the provision of comprehensive planning and financial assistance to all public and private post-secondary education institutions in the State of Maine.

The Maine State Commission for Higher Education Facilities Act of 1963 is authorized to conduct, either directly or through other appropriate agencies or institutions, comprehensive planning to assist the higher education institutions in Maine, to establish or to amend plans, rules and regulations agreeable to the Act, and to accept and disburse all monies in accordance with said Act.

The Maine State Commission for Higher Education Facilities may establish plans and rules or amend existing plans and rules in accordance with the United States Higher Education Facilities Act of 1963, Public Law 77-204, as amended by Public Law 89-752, Section 3 and requirements of the Federal Government established under the Act as amended. It may also accept and disburse all monies in accordance with the act.

### **ORGANIZATION:**

The Higher Education Facilities Act of 1963 necessitated the formation of a State Commission to administer the federal funds allotted for post-secondary school construction and equipment grants in Maine. Governor John H. Reed designated the existing State Board of Education to serve as this Commission.

The Maine State Commission for Higher Education Facilities Act of 1963 was authorized by Executive Order in 1967. The Support Systems Team administers all funds made available through the Facilities Act now conducted within the framework of the Higher Education Act of 1965.

### **PROGRAM:**

Financial assistance to construct or remodel facilities to meet the needs of the Handicapped (Title VII, HEA). Funds have been authorized to enable institutions to construct and/or remodel facilities to meet codes for areas for the handicapped. During FY'99 no funds were actually appropriated and thus, no activity was conducted.

### **PURPOSE:**

The Advisory Council oversees the development and implementation of the Energy Efficiency Building Performance Standards as required under 10 MRSA Chapter 214. The Council must approve all standards and amendments thereto adopted by the Energy Conservation Division pursuant to that chapter.

### **ORGANIZATION:**

The ten member Advisory Council is appointed by the Governor, and consists of a divergent representation of building/energy sector expertise and interest. These include: industry and commercial representatives, an engineer, a building inspector, two elected county or municipal officials, a residential and a non-residential building contractor, and an architect.

### **PROGRAM:**

The Advisory Council developed rules for "Energy Efficiency in Subsidized Multi-Family Housing," in 1993. The Council did not meet during FY'99, as no

#### PURPOSE:

The Maine Health Data Organization was established by the 117th Legislature to improve the health of Maine citizens through the implementation and maintenance of a useful, objective, reliable and comprehensive health information data base. This data base is made publicly accessible while protecting patient confidentiality and respecting providers of care. The Organization also implements policies and procedures for the collection, processing, storage, and analysis of clinical, financial, and restructuring data.

#### ORGANIZATION:

The Organization was created to maintain and expand the health information data base of its predecessor agency, the Maine Health Care Finance Commission. Statutory changes were also made in 1996 to eliminate the regulatory functions performed by the now defunct Health Care Finance Commission. The Commission had been in existence since being created in 1984 by the Maine State Legislature.

The Maine Health Data Organization is governed by a stakeholder board of directors comprised of 18 members representing the following interests: 2 members are employees of the Department of Human Services; 3 members represent consumers; 3 members represent employers; 2 members represent 3rd-party payers; and 2 provider members represent hospitals, 2 provider members are either physicians or represent physicians, 1 provider member is a chiropractor, 1 provider member is a representative of a home health care organization, and 1 provider member represents other health care providers. The Board is served by 4 professional staff positions.

#### PROGRAM:

The MHDO Board met on a regular basis to address a large number of policy, organizational, administrative, and financial issues. The MHDO spent much of its time focused upon: awarding a contract to an organization to provide the MHDO with an interactive web site; modifying existing rules to establish uniform reporting requirements for the collection of hospital inpatient and outpatient data and non-hospital ambulatory services data sets, thus simplifying the process for submittal of data; expanded the number of non-hospital providers required to submit data to the MHDO, and updated the ambulatory service procedures required to be reported.

*Reference:* Policy Area: 03 ; Umbrella: 90 Unit: 486 ; Citation: T0005 M.R.S.A., Sect. 000001826C

#### PURPOSE:

The Committee seeks to contract for goods and services offered by rehabilitation facilities (work centers) which employ workers with disabilities.

#### ORGANIZATION:

The Committee consists of the director of the Division of Purchases, the director of the Bureau of Rehabilitation, a representative of the Department of Mental Health and Mental Retardation, a representative of work centers, a disabled person, and a representative of the business community. The Committee members are appointed by and serve at the pleasure of the Governor. Members serve without compensation except for reimbursement of necessary expenses incurred by non-state employees.

#### PROGRAM:

The Committee drafted rules for qualifying work centers, identifying products and services for set aside, competitive bidding, awarding contracts, and settling grievances. Activity of the Committee remains centered around custodial services contracts. Several large contracts are in place, benefiting work centers in the Augusta, Lewiston and Portland area. Awards under the set aside totaled \$270,936 in FY 1999.

## INDEPENDENT AGENCIES - REGULATORY

### PURPOSE:

The Board's mission is to serve the employees and employers of the State fairly and expeditiously by ensuring compliance with the workers' compensation laws, ensuring the prompt delivery of benefits legally due, promoting the prevention of disputes, utilizing dispute resolution to reduce litigation and facilitating labor-management cooperation.

### ORGANIZATION:

Policy is established by an eight-member board having an equal number of employee and employer representatives. The Governor appoints these members from nominees submitted by the AFL-CIO and the Maine Chamber of Commerce and Industry or other bona fide organization or association of employers. These appointments are subject to review by the Joint Standing Committee on State and Local Government with confirmation by the Senate.

The agency is administered by the Executive Director, Paul R. Dionne. Regional Offices are located in Augusta, Bangor, Caribou, Lewiston and Portland.

The Central Office is in Augusta. Mediation and formal hearings are conducted at these and other offices. Some hearings are held at locations closer to the residence of the injured worker. The 118Th Legislature, 1st regular session, enacted legislation providing for a Worker Advocate Program to assist unrepresented employees through the mediation and formal hearing phases of dispute resolution. This program has been implemented and is operational. The legislation also provided for tracking compliance with the statute by carriers and self insurers (see Monitoring, Audit and Enforcement Program report).

### PROGRAM:

The Board exists to prevent and resolve disputes between employers and employees over work-related injuries since timely, fair and efficient resolution of disputes enhances Maine workplaces for all Maine's people. To ensure the efficient implementation of the Workers' Compensation Act, the Board is engaged in the promulgation of rules and regulations; the resolution of disputes through formal and informal means; the monitoring of payments to injured workers; the monitoring and enforcement of insurance coverage; the supervision of medical protocols, utilization review, medical fee schedules and enforcement guidelines; the implementation of an independent medical examiner system; the administration of a Vocational Rehabilitation Fund and vocational rehabilitation services; the predetermination of independent contractor applications; the investigation and prosecution of complaints of fraud misrepresentation, illegal conduct and violations of the Act through its Abuse Unit.

The Board meets on a bi-weekly basis to set policy for the proper implementation of the Act. It created three standing subcommittees: Budget Personnel and Safety. The Budget Subcommittee addresses budget matters and performance budgeting. The Board set a rate of 2.26% on an FY 2000 estimated insured market of \$135,000,000. The Board is conducting an ongoing review of the dispute resolution process including backlogs, timetables and caseloads. The Board promotes the use of EDI to increase the electronic filing of data. Numerous work sessions were held on the 20 recommendations made by Coopers & Lybrand consultants mentioned in last year's report. Many of those recommendations have been implemented. Other recommendations are in the process of being implemented and several of them, such as streamlining the dispute resolution process, may take years to fully implement.

The Board promulgated rules on utilization review, medical treatment protocols, permanent impairment guidelines, and adopted a revised medical fee schedule. The Board approved the establishment of the Monitoring, Audit and Enforcement Program as mandated under Chapter 486. The basic goals of the MAE Program are as follows: (1) to provide the Board, Legislature and Governor with timely and reliable data; (2) to monitor and audit payment and filing requirements; (3) to detect those insurers, self-insurers and third-party administrators that are not in compliance; and (4) to ensure that all filing and compliance obligations under the Act are met. (See Monitoring, Audit and Enforcement report.) The IT focus for the past year has been directed towards programming modifications and development of new modules to support the MAE program. The system has been enhanced to proactively search out carriers which are not in compliance with the WCB act.

### First Reports of Injuries

First Reports of Injuries are filed by employers whenever an injured employee loses one or more days from work. Calendar year statistics are shown here. They indicate that the number of disabling cases has been decreasing from a high of 26,693 in 1990 to a low of 12,209 in 1996 (see chart). These reports are processed by the Claims Management Unit.

<u>Year</u>	<u>Lost Time First Reports</u>
1994	15,873
1995	13,731
1996	12,253
1997	13,442
1998	12,600 (Preliminary)

### Dispute Resolution Process

The new statute established a three-tier dispute resolution process (troubleshooting, mediation, and formal hearing or arbitration) in an effort to reduce litigation. Notices of Controversy and Petitions which result in claims assigned (see below) are processed by the Claims Management Unit. A claim is a first report on one injury.

### **Worker Advocate Division**

The Worker Advocate Program has over 1700 open files as of June 30, 1999. During the past year, advocates have represented injured workers in over 500 formal hearings and 2300 mediations. These numbers are extraordinary and have placed great demands on the advocates and their staff. The Legislature has recently provided for the addition of two new paralegals to assist with the heavy workload.

These numbers also show how popular the Advocate Program has been with injured workers. Because of the availability of Advocates, in all five regional offices, the number of unrepresented employees has decreased dramatically.

The Worker Advocates are truly making a difference in how injured workers are treated as they proceed through the workers' compensation system. The cost of the program is double what was originally anticipated but the Workers' Compensation Board has shifted other resources to ensure the success of the program.

### **Abuse Investigation Unit**

The Abuse Investigation Unit investigates allegations of fraud, illegal or improper conduct, and violations of the Workers' Compensation Act. In 1998, the Abuse Investigation Unit received 454 complaints/requests for penalties. The Abuse Investigation Unit closed (by granting, denying, dismissing or, in the case of complaints pursuant to §360(2), forwarding to hearing) 620 cases.

### **Office of Medical/Rehabilitation Services**

The Office of Medical and Rehabilitation Services assists the Board in the administration and promulgation of rules regarding medical protocols, medical utilization review, impairment guidelines, independent medical examiners, medical fee schedules and employment rehabilitation services.

- 276 requests for independent medical review were assigned. This number is steadily increasing.
- Guidelines for the treatment of carpal tunnel and pain were implemented.
- The American Medical Association 4Th Edition, Guide for the Evaluation of Permanent Impairment was implemented.
- OMRS is involved in two studies for the legislature.
  - Occupational Disease
  - Vocational Rehabilitation

### **Forms and Data Processed by Unit in Calendar Year 1998**

#### **Insurance Coverage Unit**

This unit monitors workers' compensation insurance coverage of employers. Electronic Data Interchange (EDI) has already been implemented with the State's largest carrier for the filing of insurance coverage data and First Reports. Requests for waivers of workers' compensation insurance are reviewed by this unit. It also processes applications for the predetermination of independent contractors.

### Claims Management Unit

This unit monitors lost time cases, reviews Hearing Officer decisions, processes First Reports of Injury, Notices of Controversy, Petitions, Wage Statements, Memoranda of Payments, Discontinuances, Interim and Final Reports, and monitors cases to ensure employer/insurer compliance with the Act. This unit processes and assigns Notices of Controversy and Petitions to Troubleshooters, Mediators, and Hearing Officers located in the Regional Offices.

### MONITORING, AUDIT AND ENFORCEMENT PROGRAM

On January 26, 1999 the Board unanimously accepted the Pilot Project Report. The key goal of the Pilot Project was the measurement of the claims performance for 1997 dates of injury.

The first Quarterly Compliance Report (January 1, 1999 through March 31, 1999) was unanimously accepted by the Worker' Compensation Board. The Compliance Report suggests positive trends in the payment of initial indemnity benefits, the timely filing of Memoranda of Payment and the timely filing of First Reports of Injury.

	<u>Pilot Project for 1997 Dates of Injury</u>	<u>Quarterly Compliance Report for Dates of Injury from 1/1/99 - 3/31/99</u>
Time Line Protocols	0-14 Days	0-14 Days
Payment of Initial Indemnity Benefits	53.39%	81.24%
Time Line Protocols	0-17 Days	0-17 Days
Filing of Memoranda of Payment	56.79%	77.27%
Time Line Protocols	0-7 Days	0-7 Days      8-10 Days
Filing of First Reports of Injury	36.74%	71.96%      9.92%

These positive trends will assist the Board in reducing the number of cases litigated and increase the timely and accurate payment of lost time benefits.

### MAINE HIV ADVISORY COMMITTEE

#### KATE PERKINS, CHAIRPERSON

*Central Office:* STATEHOUSE STA 11, AUGUSTA, ME, 04333

*Mail Address:* 11 STATE HOUSE STATION, AUGUSTA, ME, 04333

*Established:* 1993

*Reference:* Policy Area: 03 ; Umbrella: 92 Unit: 510 ; Citation: T0005 M.R.S.A., Sect. 000019202

#### PURPOSE:

This committee was originally mandated to advise the Department of Human Services on content and dissemination of educational materials, crises that may develop, coordination of services to people living with AIDS, AIDS related policy and proposed rules. In 1993, the Legislature revised the committee's mandate and organizational structure to more effectively provide input and guidance around HIV/AIDS related issues to encompass all of state government. As acknowledgement of the broader interface sought by the legislative reform, the committee was redesigned under its new title: THE HIV ADVISORY COMMITTEE TO THE STATE OF MAINE (ME HIVAC).

#### ORGANIZATION:

This committee is comprised of 36 members appointed by the Governor. It is headed by a Chair and Co-Chair. It is advisory only, having no responsibility or jurisdiction over activities, implementation or results of action taken by any state agency; it represents a wide cross section of persons knowledgeable of issues and problems in their fields; it may only make recommendations based on review and consideration of issues of concern brought before the committee via public issue and/or governmental inquiry. It is expected that this committee assists in acquiring support, including funding, for essential services and problems.

#### PROGRAM:

The committee currently meets on a monthly basis to consider areas covered under the "Purpose" section of the document. The Committee is broken down into several sub-committees: Executive, Legislative, Education and Prevention, and Treatment Issues and Provider Concerns.

Sub-committees meet to give specific recommendations to the Committee as a whole in order to assist the Committee in its efforts to advise the State on HIV/AIDS legislation and policy. Long range plans involve collaboration with both governmental and non-governmental agencies and organizations.

**ROLE OF THE DEPARTMENT:** As a result of 1993 legislative action DHS is no longer the exclusive focus of the committee's attention, and is no longer responsible for providing any staff support for the committee's activities. As of January 1, 1994, all staff support obligations were assumed by the Portland Chapter of the American Red Cross, through its ME HIVAC Staff Liaison, Ms. Trish Macomber, under the direction of Ms. Kate Perkins, Chair, ME HIVAC. The Department has retained its seat on the committee, with the Bureau of Health (BOH) Director of the HIV/STD Programs serving as the formal DHS representative.

## MAINE DEVELOPMENTAL DISABILITIES COUNCIL

*Central Office:* TOGUS CENTER, BUILDING 205, AUGUSTA, ME, 04333

*Mail Address:* #139 STATE HOUSE STATION, AUGUSTA, ME, 04333

*Established:* 1974

*Telephone:* (207) 287-4213

*Reference:* Policy Area: 03 ; Umbrella: 92 Unit: 050 ; Citation: T0034B M.R.S.A., Sect. 000001211

### **PURPOSE:**

The primary purpose of the Maine Developmental Disabilities Council is to improve and enhance the network of services available to persons with developmental disabilities of all ages in Maine. The Council serves as an advocate for persons with developmental disabilities by providing a public forum for consumers, parents and family members to meet with state agency representatives and other providers to address the service needs of persons with developmental disabilities.

### **ORGANIZATION:**

The Maine Developmental Disabilities Council was established in 1971 by an Executive Order and by statute in 1981 as the Maine State Planning and Advisory Council on Developmental Disabilities. In 1994 its name was changed to its present designation. The Council consists of twenty-one members appointed by the Governor or serving by virtue of their positions in state government. Appointees are persons with developmental disabilities, parents or guardians of such persons, representatives of higher educational facilities and other groups concerned with services to persons with developmental disabilities in Maine. Those who serve by virtue of their positions are representatives of the three principal state agencies that serve persons with developmental disabilities. Council membership reflects a regional distribution across the State, as well as an attempt to equitably represent disabilities associated with the target population.

The Council is staffed by an Executive Director, a Planner and a Secretary. Administrative support is provided as needed by the Department of Mental Health, Mental Retardation and Substance Abuse Services. Other sources of manpower, such as consultants, special projects, etc. are utilized as needed. The Council's Executive Committee reviews issues to be brought before the Council and sets the agenda for monthly meetings.

### **PROGRAM:**

The Council addressed several activities for its Three Year State Plan for meeting the needs and preferences of people with developmental disabilities. Priority areas are Child Development, Community Living, Employment and System Coordination and Community Education. Family support services network development is the Council's major emphasis.

Examples of year two activities are: (1) A Family Support Conference to provide educational opportunities for people with disabilities and their families; (2) financial assistance to family support groups concerned with issues affecting a family member with a disability; (3) financial assistance to

*Reference:* Policy Area: 02 ; Umbrella: 92 Unit: 284 ; Citation: T0005 M.R.S.A., Sect. 000000723

**PURPOSE:**

The Educational Leave Advisory Board was established in 1973 to review and authorize requests from classified and unclassified employees for educational leave. From 1973 to 1991, all educational leave requests that had a duration of one work week or more required advance approval by the Board. In 1991, the Educational Leave Law was amended to require advance approval by the Board for educational programs that require position leave for thirty (30) days or more. With this amendment, educational leaves for less than thirty days may be approved by the employing agency. The Educational Leave Advisory Board is also responsible for establishing rules and administrative procedures for submitting and processing educational leave requests and for maintaining records of employee requests for educational leave and the terms and disposition of these requests.

**ORGANIZATION:**

In 1989, membership of the Educational Leave Advisory Board was increased from three to five members. The members of the Board are: the Director, Bureau of Human Resources as Chair, the Commissioner (or designee) of the Department of Education, the manager of Human Resource Development within the Bureau of Human Resources, and two State employee members, one of whom must be a bargaining unit employee. The State employee members are appointed by the Governor for a three-year term. Members of the Board receive no compensation for their services.

### PURPOSE:

The concept for a Maine AHEC Program was developed in 1985 via a cooperative agreement between the University of New England College of Osteopathic Medicine and the U.S. Department of Health and Human Services (DHHS). In 1991, the Maine State Legislature by statute designated the AHEC Program and its related regional center(s) as the Maine Statewide AHEC System.

As stated in the enabling legislation: "The mission of the (AHEC) system is to improve the distribution, supply, quality, utilization and efficiency of the health personnel in underserved geographical, cultural or medical specialty areas of the state..."

This mission is accomplished through the development of clinical preceptorships in underserved areas; assistance in the recruitment of targeted health professionals; provision of continuing education opportunities to support retention of health professionals; and the development of collaborative support ventures with service delivery networks, educational resources and national/state health policy and planning agencies.

### ORGANIZATION:

In 1985, the University of New England College of Osteopathic Medicine (UNECOM) contracted to develop the Maine AHEC Program. In 1987, UNECOM established the Maine AHEC Program Office and the Katahdin Health Education Center (KAHEC) was incorporated as a community-based non-profit education service organization, with four regional offices, serving Aroostook, Franklin, Hancock, Oxford, Penobscot, Piscataquis, Somerset, Waldo and Washington Counties.

In 1991, KAHEC and the Maine Consortium for Health Professions Education (MCHPE) merged forming the Acadia Health Education Coalition. The Acadia Coalition and the AHEC Program then constituted the Maine Statewide AHEC System as proscribed by law.

### PROGRAM:

Since 1991, the Maine Statewide AHEC System has carried out its federal/state mandates through supporting clinical training opportunities for a variety of health professional students including Osteopathic and Allopathic physicians; physician assistants; nurse practitioners; registered nurses; occupational and physical therapists and clinical social workers.

## INDEPENDENT AGENCIES - ADVISORY

The AHEC system also provides continuing health/medical education to these, and other health providers, administrative personnel and community leaders as part of meeting its health professional retention and health delivery systems development goals.

And finally, the AHEC system continues to collaborate with other related agencies/organizations (i.e. Bureau of Health; Office of Primary Care; Finance Authority of Maine; Health Care Reform Commission; Health Professions Regulations Task Force; Maine State Nurses Association; Maine Medical Association, Maine Osteopathic Association, and Maine Colleges and Universities) in helping to create and maintain designated underserved populations and communities of Maine.

*Reference: Policy Area:* 00 ; *Umbrella:* 92 *Unit:* 533 ; *Citation:* GFY89 M.R.S.A., Sect. 000000007

### PURPOSE:

The Maine Historical Records Advisory Board (MHRAB) was created by Executive Order in 1989, in accordance with the National Historical Publication and Records Commission (NHPRC) statutes and regulation to address historical records issues of statewide concern. The Board has responsibility for promoting the NHPRC grant programs, including assisting applicants, developing proposals, and reviewing grant applications, monitoring legislation concerning public or historical records administration, providing leadership and coordination among existing archives and records management institutions, sponsoring and encouraging educational and public awareness programs relating to historical records, promoting the publication of historical records.

### ORGANIZATION:

The Maine Historical Records Advisory Board was created in 1989 to provide advice for state historical projects records and to make funding recommendations to the National Historical Publications and Records Commission.

It consists of from seven to eleven members appointed by the Governor for three years, renewable terms. The majority of the members shall have experience in the administration of historical records or in a field of research or activity which makes extensive use of historical records. The Maine State Archivist and the Director of the Maine Historical Society shall be members, and, as required by NHPRC regulation, one of them is appointed by the Governor to act as MHRAB State Coordinator serving a renewable four year term. The Maine State Archives serves as fiscal agent for the MHRAB. Board members serve without compensation.

### PROGRAM:

The Board recently received a \$50,000 grant from the National Historical Publications and Records Commission (NHPRC) to provide small grants to Maine repositories to preserve and provide access to high priority historical records.

Grants were awarded to historical societies, libraries, museums and others at two deadlines during thye year. The final deadline for this program is October 1, 1999.

## INDEPENDENT AGENCIES - ADVISORY

The Board through the State Archives, coordinated a series of basic archival workshops which attracted over 130 participants from throughout the state. The workshops, self-supported by participant fees, were held at the Archives and other donated sites ranging from Bangor to Portland.

Concluding a previous grant from the NHPRC, the Board revised its strategic plan and published two documents: "Maine's Historical Records: A Guide to Collections"; and "Preserving Your Collections: A Planning and Resources Manual". Both are revisions and updates of previously published material.

### LICENSES:

## DISPLACED HOMEMAKERS ADVISORY COUNCIL

### GILDA E. NARDONE, DIRECTOR

*Central Office:* UNIVERSITY OF MAINE AT AUGUSTA, AUGUSTA, ME,

*Mail Address:* STODDARD HOUSE, UMA, AUGUSTA, ME, 04330-9410

*Established:* 1977

*Telephone:* (207) 621-3437

*Reference:* Policy Area: 04 ; Umbrella: 92 Unit: 390 ; Citation: T0026 M.R.S.A., Sect. 000001604

### PURPOSE:

To provide comprehensive community-based workforce development and entrepreneurship training and services to assist Maine displaced homemakers in the transition to paid or self employment.

### ORGANIZATION:

The Displaced Homemakers Program operates through a contractual agreement with the Maine Department of Labor in conjunction with the University of Maine System. A statewide Advisory Council, appointed by the Governor, works with Program staff.

### PROGRAM:

In FY 99, the Maine Displaced Homemakers Program of the Maine Centers for Women, Work, and Community continued to offer a full range of pre-training/pre-employment and self-employment services through a toll-free resource line and fourteen regional Resource Centers throughout the state.

600 displaced homemakers were served by the Program through comprehensive intake assessment, information and referral, training courses and workshops, support groups, placement assistance, and follow up services. During the year, linkages with employers focused on non-traditional occupations and information technology, self-employment services were expanded, and partnerships with other education and training providers strengthened.

## INDEPENDENT AGENCIES - ADVISORY

The Program continued to work cooperatively with a wide range of human service, education and training, employment, economic and business development, and advocacy organizations on a community, state, regional, and national level. Integrated workforce development services were provided to Temporary Aide for Needy Families (TANF) recipients in collaboration with the Additional Support for People in Retraining and Education (ASPIRE) and Adult Education Programs throughout Maine; self-employment technical assistance and training activities were developed and implemented with the Maine Department of Labor and Workforce Development Centers. The program celebrated 20 years of helping women succeed in the Maine economy.

*Reference: Policy Area: 01 ; Umbrella: 92 Unit: 528 ; Citation: T0030A.M.R.S.A., Sect. 000005041*

### **PURPOSE:**

The purpose of the Interagency Task Force on Homelessness and Housing Opportunities is to: Serve as a coordinator of information about homeless issues among various state agencies, and among state, municipal, and private sectors, provide assistance to the homeless, in cooperation with the Maine state Housing Authority and study homeless housing issues and needs.

### **ORGANIZATION:**

The Interagency Task Force on Homelessness and Housing Opportunities was created as part of the Affordable Housing Partnership Act, effective October 1, 1989. The legislation was substantially altered in 1993 and again in 1997. As legislated, the Task Force consists of 12 members as follows:

(1) The Commissioner, Deputy Commissioner or Associate Commissioner of the Department of Human Services, the Department of Labor, the Department of Corrections, and the Department of Mental Health, Mental Retardation, and Substance Abuse Services;

(2) The Director or Deputy Director of the Maine State Housing Authority;

(3) Three persons appointed jointly by the President of the Senate and the Speaker of the House who represent a community action agency, a non-profit organization that provides shelter to the homeless, and a municipality; and

(4) Four persons appointed by the Governor, three of whom must come from a list of nominations provided by a statewide coalition for the homeless and represent people who are or were homeless and low income tenants.

The Housing Authority representative currently is the Task Force chair.

### **PROGRAM:**

The Task Force will identify resources which respond to the needs of homeless citizens, and will identify gaps in services to homeless people. The Task Force will study the issue of youth homelessness and provide its findings to the Legislature in 1999.

### PURPOSE:

Radiological Emergency Preparedness, Chapter 444, P.L. 1981 "An Act to Establish an Emergency Radiological Response System" was enacted in June 1981. This act established the Radiological Emergency Preparedness Committee to oversee Nuclear Emergency Planning and manage annual funding. The monies are obtained by a fee which is paid by the nuclear reactor license holders.

Rulemaking (Rule Number 87-462) established secondary emergency planning zones around nuclear power plants.

Funding has been used to enhance emergency public notification, communications and planning within the sixteen (16) primary and eleven (11) secondary EPZ towns around the Maine Yankee Power Plant. The Maine Emergency Management Agency provides the REP Committee administrative and financial services.

### PROGRAM:

The Radiological Emergency Preparedness (REP) Committee reviews the budget subdivisions, equipment requests and Emergency Operations Plans and Training as prepared and accomplished by the Maine Emergency Management Agency (MEMA). MEMA recommends policy for the REP committee to approve in order to accomplish an orderly and functional Emergency Contingency Planning Process. The Emergency Contingency Planning Process is a federally (NRC and FEMA) regulated process which is examined on an annual basis by NRC and FEMA. There are many federal requirements for off-site emergency preparedness and it is MEMA's responsibility on the state's behalf to ensure compliance.

### LICENSES:

MEMA issues Training Certificates to offsite emergency preparedness personnel when they accomplish training objectives.

*Reference:* Policy Area: 05 ; Umbrella: 92 Unit: 593 ; Citation: T0037B M.R.S.A., Sect. 000001080

#### PURPOSE:

The River Flow Advisory Commission's purpose is to act as a technical advisory commission to the Department of Defense, Veterans and Emergency Management and the Governor's office on issues of flow of the state's rivers and streams. The commission shall also facilitate communication of river flow data between dam operators, river basin managers, state agencies, the United States Geological Survey and the National Weather Service during floods and droughts and shall administer the State's hydrological monitoring program in cooperation with the USGS.

#### ORGANIZATION:

The Commission is organized with the following members: The Commissioner of Defense, Veterans and Maine Emergency Management Agency, or designee; The State Geologist, or designee; The Commissioner of Agriculture, Food and Rural Resources, or designee; The Commissioner of Inland Fisheries and Wildlife, or designee; The Commissioner of Marine Resources, or designee; The Director of the State Planning Office, or designee; The Commissioner of Transportation, or designee; The District Chief of the USGS Water Resources Division, Maine District Office; The Meteorologist-in-Charge, NWS Forecast Office, Maine, or designee; Representatives from the major hydroelectric power generators, as determined by co-chairs of the Commission; and a representative of the public, appointed by the Governor.

## INDEPENDENT AGENCIES - ADVISORY

The District Chief of the United States Geological Survey Water Resources Division Maine District Office and the Commissioner of Defense, Veterans and Emergency Management, or the Commissioner's designee shall act as co-chairs of the Commission.

The term of office of the public member is five years. The public member may be removed from office for cause by the Governor. Members from State Government or Federal Government shall serve a term coincident with their governmental position. The term of a representative from the major hydroelectric power generators is five years.

### PROGRAM:

The River Flow Advisory Committee was originally formed by Executive Order as the Flow Management Advisory Committee in 1983 in response to significant flooding that occurred on the Kennebec River. It operated under the Land and Water Resources Council of the State Planning Office and initially existed to evaluate whether Maine's rivers were being responsibly managed in such a way as to protect the health and safety of Maine citizens. The Committee was formed to facilitate communications of river flow data between dam operators, river basin managers, State agencies, the United States Geological Survey and National Weather Service during periods of both flood and droughts. The final report of the Committee concluded that Flood prevention on Maine's rivers is not possible.

Hydroelectric power generating facilities were not designed or sited for flood control. The Committee did recommend two broad areas of concern: information flow and mitigation measures.

An additional major recommendation of the final report was to expand the network of stream flow gauges jointly funded by the State and the USGS (a 50/50 program) and to re-instate an annual survey of snow pack conditions in the late winter and early spring. These actions were designed to improve the quality of information available to the NWS flood forecast centers and to State and local emergency management officials. Additional uses of the data include highway and bridge design information used by DOT, and stream flow data used by Conservation and Inland Fisheries and Wildlife for assessing the impacts of irrigation on aquatic habitat and monitoring of river flow for recreational uses such as canoeing and fishing.

The River Flow Advisory Committee was redesignated the River Flow Advisory Commission in 1997 and organized within the Department of Defense, Veterans and Emergency Management. This will provide the Commission with stability and visibility within the Department that is the major user of its hydrologic network data during periods of flood and drought when the public's health and safety is threatened.

### ORGANIZATION:

The Substance Abuse Services Commission was established in 1993, and replaces the Maine Council on Alcohol and Drug Abuse Prevention and Treatment. The Commission consists of 17 members selected from the fields of medicine, law, public elementary, secondary and post-secondary schools, nongovernmental substance abuse prevention and treatment agencies, private sector employers, and persons affected by or recovering from alcoholism or drug dependency. One member is chosen from nominations made by the National Council on Alcoholism and Other Drug Dependency in Maine, Inc. One member must be a current Representative, one a member of the Senate, and the chair is designated by the Governor.

### PROGRAM:

During Fiscal Year 1999, the Commission has continued to use its operational structure and working committees. The Commission has reviewed policy issues, and recommended support of legislation.

### **PURPOSE:**

To monitor program, rights, and administrative issues concerned with the Maine Youth Center, and to report to the Commissioner and appropriate Legislative Committees, as well as the Governor's Office.

### **ORGANIZATION:**

The Chairman and committee members are appointed by the Governor.

### **PROGRAM:**

1. Visitations to Maine Youth Center.
2. Meeting with appropriate members of the staff as well as residents.
3. Written reports, including observations and recommendations, to the Commissioner and Superintendent.
4. Meetings to review observations and recommendations with the Commissioner, Chief Advocate, and various other representatives of the Department and/or institutions.

The Board of Visitors has conducted monthly meetings at the Maine Youth Center, which have included visits with both staff and residents and also regularly include the Superintendent. In the last fiscal year, the Board oversaw a review of the Maine Youth Center which was conducted by an independent consultant. The consultant found that, while the Department had plans for improvements to the Center, the implementation of these plans was lagging. The consultant made a number of specific recommendations which the Department has adopted. The Board will be monitoring the implementation of these recommendations over the next year.

*Reference:* Policy Area: 05 ; Umbrella: 92 Unit: 453 ; Citation: T0012 M.R.S.A., Sect. 000007367

**PURPOSE:**

The Committee advises the Commissioner of Inland Fisheries and Wildlife in establishing and reviewing safety requirements for whitewater trips, develop a safety information program and review the safety records of whitewater guides and outfitters. The Committee submits a written report annually on each outfitter's safety record to the Commissioner of Inland Fisheries and Wildlife.

**ORGANIZATION:**

The Whitewater Safety Committee was established by the First Regular Session of the 111th Legislature in 1983. It is composed of 8 members: 2 members of the whitewater guides board designated by the board; 2 commercial whitewater outfitters and 2 whitewater guides designated by the Governor; and 2 members from the general public, one designated by the President of the Senate and one designated by the Speaker of the House of Representatives. Terms are staggered so that the term of one member in each category expires each year.

**PROGRAM:**

The Committee discusses such matters as the review of safety records of the various companies in the industry, possible regulation changes that would be aimed at public safety, and preparation of the annual safety report to the Commissioner.

**PUBLICATIONS:**

The Committee prepares an annual report (Whitewater Safety Committee Report) to the Commissioner summarizing and analyzing accidents and recommending changes in statutes, regulations, and policies concerning whitewater safety.

*Telephone:* (207) 287-2724

*M.R.S.A., Sect.* 000000401

*Legislative Count:* 9.00

**PURPOSE:**

The Maine Arts Commission was established by the Legislature to "take such steps as may be necessary and appropriate to encourage and stimulate public interest and participation in the cultural heritage and programs of our state and to expand the state's cultural resources...and to encourage and assist freedom of artistic expression and the well being of the arts." In the long range plan adopted by the Maine Arts Commission in 1993, the Commission saw its role as supporting the arts primarily through artists working in a community context. Far from abandoning this concept for the period covered by this report, the Commission has concluded, through experience gained in the first three years of the plan, that support for artists at the local level is more critical than ever

**ORGANIZATION:**

The Maine Arts Commission, an independent state agency, is governed by a Board appointed by the Governor for their interest in the arts and related fields. The commission's programs and services are administered by the Agency's professional staff. Advisory panels review grant applications and artists programs and make recommendations to the Commission, regarding the arts in Maine.

The Maine Arts Commission is guided by the following principles:

- . value artistic quality and cultural diversity, which may be represented in many forms and achieved in many ways;
- . recognize and honor premier artists and arts institutions;
- . engage the public widely and deeply, recognizing that broad access to the arts and impact of the kind that changes lives are both immediate and long-term goals;
- . act locally, because it is at the local level that access and impact are most readily achieved and sustained;
- . work collaboratively and promote collaboration in order to increase the effect of the Commission's resources, and to foster relationships and commitments that build infrastructure beyond the Commission's involvement;
- . be flexible and adaptive in the way the agency functions in order to take advantage of opportunities, to respond to needs more effectively, and to incorporate what it learns from its experience; and
- . demonstrate leadership in its conduct as a state agency.

In acting on these principles, the Commission looks for evidence that the public is a clear beneficiary; that available resources (including but not limited to money) are being used efficiently; that additional resources are being leveraged to ensure success, sustainability and commitment; and that the local capacity to carry on the work begun becomes greater as a result of these efforts.

**PROGRAM:**

Statewide Leadership Initiatives:

**Purpose:** To respond to needs and opportunities by strategically intervening with projects and funding directed at long-term capacity building at the state and local levels. The following projects are consistent with this purpose:

Cultural Tourism; Traditional and Ethnic Arts.

Audience and Constituency Development:

**Purpose:** To provide for the long-term development of educated and appreciative audiences and capable artists. The following are examples of programs consistent with this purpose:

Arts in Education; Percent for Art; Advocacy.

## INDEPENDENT AGENCIES - OTHER

Development of Cultural Communities through the Arts:

**Purpose:** To enhance the growth of geographic and cultural communities through assessment, planning and development of cultural resources at the local level. The following are examples of projects consistent with this purpose: Community Cultural Planning; Technical Assistance; Traditional Arts Apprenticeships.

Information and Communications:

**Purpose:** To develop and disseminate cultural information through the use of accessible communications technology, for use by the arts field and the general public. The following are examples of projects consistent with this purpose: Maine Artists Roster; Maine Arts Commission World Wide Web page; Conferences and Consulting.

### **PUBLICATIONS:**

**Newsletter:** A summary of the important issues facing the arts in Maine, a quarterly publication.

**Maine Touring Artists Program** a booklet which provides a qualitative list of the performing, visual and literary artists that have been approved for participation in the program.

### **PURPOSE:**

The Atlantic Salmon Authority replaced the Atlantic Sea Run Salmon Commission which had been in existence from 1947-1995. The Authority has sole authority and responsibility to manage the Atlantic salmon in all waters of the state, including the authority to stock salmon into Maine waters and to limit or prohibit the talking of salmon, issue licenses, and regulating the method, time, place, and manner of Atlantic salmon fishing in all waters of the State.

## INDEPENDENT AGENCIES - OTHER

### ORGANIZATION:

The Authority is governed by the Atlantic Salmon Board which consist of the following 9 members: the Commissioner of the Department of Inland Fish and Wildlife, The Commissioner of the Department of Marine Resources, one member of the Passamaquoddy tribe, one member of the Penobscot Nation, and 5 members representing various river drainages (North, East, Central and Southern Maine and one member at large) throughout the state. The board annually elects a chair from its members, except that neither appointed commissioner may serve as chair. The chair directs the administrative and financial matters of the Authority.

A trilateral Cooperative Agreement among the Atlantic Salmon Authority, the U.S. Fish and Wildlife Service and the National Marine Fisheries Service was signed in 1998. The duties and responsibilities of the three signatories were delineated and a Technical Advisory Committee was established. The Technical Advisory Committee is composed of 5 members assigned by the Authority, 3 members assigned by the U.S. Fish and Wildlife Service, and 2 members assigned by the National Marine Fisheries Service. The purpose of the committee is to advise the cooperators on technical matters relative to the Atlantic salmon restoration program in Maine, to review and comment on proposals for cooperative research, and to provide assistance in developing and updating salmon restoration plans.

In June 1999, the 119th Maine Legislature abolished the Atlantic Salmon Authority and established the Atlantic Salmon Commission (12 MRSA, ss 9901). The Atlantic Salmon Commission is governed by a Salmon Board composed of the Commissioners of Inland Fisheries and Wildlife and Marine Resources and a Public Member to be appointed by the Governor. The 3-member Salmon Board will appoint a full-time Executive Director to manage the administrative and financial matters of the Commission and to execute the directives of the Commission. Additionally, on December 31, 1999 administrative responsibility for the "Atlantic Salmon Conservation Plan for Seven Maine Rivers" will be transferred from the State Planning Office to the Atlantic Salmon Commission.

### PROGRAM:

The Authority continued an intensive research program funded by a grant from the National Marine Fisheries Service (NMFS) on the Atlantic salmon population and habitat of the Narraguagus River and adult salmon returns to the Penobscot River. This program involves enumerating adult salmon returns annually, enumerating and tagging wild salmon parr, and detailed salmon habitat and water quality monitoring studies. The Authority received federal funding through the USFWS-Endangered Species Program to carry out monitoring and assessment studies of Maine's native Atlantic salmon runs. The magnitude and scope of these studies was delineated in a Prelisting Recovery Plan which was prepared in 1992. Much of the ongoing assessment activities involve providing historical and current Maine Atlantic salmon habitat and population data to the two federal agencies which rejected (in December 1997) a petition to list the Atlantic salmon in 7 Maine rivers as Threatened under the Endangered Species Act.

### LICENSES:

Resident and non-resident licenses authorized under MRSA, Title 12, Chapter 585. A license is required to fish for Atlantic salmon in all inland and tidal waters of the state. Atlantic Salmon License-resident and non-resident.

### PURPOSE:

The Baxter State Park Authority was established to operate and maintain Baxter State Park for the use and enjoyment of the people of Maine in accordance with the wishes of its donor, former Governor Percival P. Baxter, that this park "...shall forever be retained and used for state forest, public park and public recreational purposes...shall forever be kept and remain in the natural wild state...shall forever be kept and remain as a sanctuary for beasts and birds."

The primary responsibilities of the Authority are to protect the wildlife, wildlife, fauna and flora within the Park for the enjoyment of present and future generations; to operate and maintain various hiking trails, campgrounds, campsites and rustic log cabins within the 204,733 acre Park; to conduct exemplary forest management operations on the 29,537 acre Scientific Forest Management Area; to receive and expend monies from the trusts and other income for maintenance and operation of the park; to acquire additional land for the park as authorized by law; to establish rules and regulations as necessary for the protection and safety of the public; and to exercise police supervision over the park.

### ORGANIZATION:

Baxter State Park is the result of a dream of former Governor Percival P. Baxter who donated the first parcel of land in 1931 and over the years added various parcels until his final acquisition in 1962 brought the Park's area to 201,018 acres. Since then, the Authority has purchased additional acreage to bring the Park to its current size of 204,733 acres. A trust fund left by Percival BaxterThe purchase of additional lands is make possible by a trust fund left by Percival Baxter provide funds for the purchase of additional lands to be used for scientific forestry, recreation, and scenic value and as a sanctuary for wildlife. In addition to the various gifts of land, Governor Baxter also left two sizable trust funds to carry out the operation and maintenance of the park without the need of state funding, the only exception being road maintenance by the Department of Transportation from funds collected through gasoline taxes.

**WILD BLUEBERRY COMMISSION OF MAINE**

**GARY WILLEY, CHAIRPERSON**

*Reference:* Policy Area: 01 ; Umbrella: 94 Unit: 294 ; Citation: T0036 M.R.S.A., Sect. 000004312C

**PURPOSE:**

In 1945, the blueberry industry of the state requested the Legislature to establish an industry tax to generate dedicated revenue to be used for the purpose of research and extension programs relating to the production and marketing of blueberries. Over the years, this tax has been increased for the purpose of advertising and promoting the use of blueberries. The Wild Blueberry Commission has the responsibility for the allocation and administration of blueberry tax funds. Currently the tax is at the rate of 1/2 cent per pound from growers and 1/2 cent per pound from processors or shippers for a total of 1 cent per pound of wild blueberries produced in the state.

**ORGANIZATION:**

Legislation passed in 1984 provided that the Wild Blueberry Commission of Maine consist of eight members appointed by the Commissioner of Agriculture, Food, and Rural Resources. The Commission elects a chair and vice chair person from among its members and employs an executive director to handle the administrative responsibilities of the blueberry tax programs.

The legislation also provides for a Wild Blueberry Advisory Committee of seven members who are appointed by the Wild Blueberry Commission. The Advisory Committee works with the University of Maine to develop research and extension programs to serve the interests of the blueberry industry.

**PROGRAM:**

1997 legislation provides that blueberry tax revenue be allocated to promotion and advertising, research and extension educational programs, administration, and other activities related to the economic viability of the Maine wild blueberry industry. Most of the research and all of the extension activities are programmed through the Maine Agricultural Experiment Station and the Cooperative Extension at the University of Maine. The Experiment Station maintains a research farm known as Blueberry Hill in the town of Jonesboro. In recent years, and largely due to new technology generated through the Agricultural Experiment Station, the production of blueberries in Maine has approximately tripled from a 5-year average of 19 million pounds prior to 1981 to a 5-year average of 64 million pounds in 1998. The wild blueberry industry in Maine contributed approximately \$100 million to Maine's economy.

Market development and promotion activities are carried out primarily through the allocation of funds to trade organizations such as The Wild Blueberry Association of North America (WBANA). These organizations conduct blueberry promotions for the export market as well as national promotion for the domestic markets. Special emphasis is given to major processors, the food service trade such as restaurants, bakeries, lunch programs, and more recently export markets.

Other activities funded by the Commission include exhibits at trade shows, fairs and participation at Eastern States Exposition in West Springfield, Massachusetts, the seventh largest agricultural exposition in the world. Some activities are carried out in cooperation with the Department of Agriculture, Food, and Rural Resources.

#### PURPOSE:

The Blueberry Advisory Committee was originally constituted in 1945 when the Blueberry Tax program was initiated for the purpose of providing supplemental funds for research and extension programs at the University of Maine.

The function of the Advisory Committee was to work with the Director of the Maine Agricultural Experiment Station and the Director of the Cooperative Extension Service in an advisory capacity. While the function of the Committee remains essentially the same, legislation enacted in 1984 changed the status of the Committee by having the committee members appointed by the Wild Blueberry Commission instead of the University of Maine. In essence the Wild Blueberry Advisory Committee is a standing Committee of the Blueberry Commission and reports to the Commission.

#### ORGANIZATION:

The University of Maine System Wild Blueberry Advisory Committee consists of seven members who serve successive terms of four years. Members of the Advisory Committee may not be reappointed for successive terms. Committee members elect their own chairperson and vice chairperson. Meetings are scheduled in conjunction with the Directors of the Maine Agricultural Experiment Station, researchers and the Cooperative Extension. The Wild Blueberry Commission has also designated the Executive Director of the Commission to act as an ex-officio member of the Advisory Committee.

#### PROGRAM:

Activities and programs are included with the report of the Wild Blueberry Commission of Maine.

## MAINE COMMISSION ON COMMUNITY SERVICE

### MARYALICE CROFTON, EXECUTIVE DIRECTOR

*Central Office:* 184 STATE STREET, AUGUSTA, ME, 04330

*Mail Address:* 38 STATE HOUSE STATION, AUGUSTA, ME, 04333-0038

*Established:* 1995

*Reference:* Policy Area: 00 ; Umbrella: 94 Unit: 578 ; Citation: T0005 M.R.S.A., Sect. 000007501

### PURPOSE:

The Maine Commission for Community Service was established by Executive Order 6 FY 93/94 to link the Corporation for National Service to the State of Maine. The Commission purpose and duties were codified in state statute one year later, broadening the responsibilities beyond merely responding to federal initiatives. The Commission's statutory mission is to foster community service and volunteerism to meet human and environmental needs in Maine. Among the fourteen assigned duties are these: identifying the priority needs to be met by service, developing a comprehensive plan for community service in Maine, providing technical assistance and training to national service programs in the State, and increasing collaboration among public and private sector community and volunteer service organizations.

The Commission makes sub-grants in accordance with provisions of the federal National and Community Service Trust Act of 1993 (USC 42, Section 12502 et seq.) and recommends State priorities regarding programs that receive direct federal financial assistance under the Domestic Volunteer Act of 1973. In addition to administering State AmeriCorps, the Commission coordinates its activities with the other two government agencies that distribute federal national service funds: the Maine Department of Education, which handles school-based Learn & Serve America, and the regional office of the Corporation for National Service, which handles Volunteers in Service to America (VISTA), Senior Companions, Foster Grandparents, and Retired Senior Volunteer Programs (RSVP). Together the three agencies oversaw just over \$4.1 million of Corporation for National Service funds invested in Maine's local community service activities.

### ORGANIZATION:

The Commission is comprised of no fewer than 15 and no more than 25 voting-members appointed by the Governor. Representation is directed by Statute.

## INDEPENDENT AGENCIES - OTHER

Members are appointed to serve in three year staggered terms. Voting members of the Commission elect a chair for one year from their ranks. Ex-officio members are the Commissioner of Education or his/her designee and the State Director for the Corporation for National Service. The Commission is directed to report annually to the Governor and the Joint Standing Committee of State and Local Government. The Executive Director of the Commission is a staff member of the State Planning Office.

### PROGRAM:

The Commission's statutes directs it to develop a three-year comprehensive state plan for community service and National Service programs. In March of 1998, the Commission and its partners adopted the Maine Unified State Plan for Service. It was the result of a year-long planning effort by all Maine entities that administer Corporation for National Service program funds. The Maine Commission staff has partnered with the Corporation for National Service and a private firm to develop the Web-Based Reporting System (WBRS). WBRS uses the Internet to transact business and transfer information among AmeriCorps program sponsors, sites, State Commissions, the Corporation, and the National service Trust. In July 1998, the Maine version of WBRS was selected as the prototype to "roll out" to all State Service Commissions interacting with the Corporation for National Service.

Sixty-nine Maine High School Seniors received \$1,000 scholarships for outstanding community service through the National Service Scholars Program. The opportunity was possible due to a partnership between the Corporation for National Service (CNS), the Finance Authority of Maine (FAME), and the Maine Commission for Community Service. Maine's Partners for Community Service is a grant program created in 1997 through a national challenge grant from the Ford Foundation and the Points of Light Foundation. The grant-making is administered by the Maine Commission for Community Service. The Maine Development Foundation serves as the fiscal agent. The grant's purpose is to build capacity of local organizations in two areas related to sustainability of service programs: volunteer management and fundraising. The first grants totalling \$45,000 were awarded in 1998.

In July 1996, the Maine Commission for Community entered into a partnership with the Children's Cabinet and Communities for Children. This year, through its participation on the Implementation Team for Communities for Children, the Commission identified several sources of National Service help for Local Leadership Councils. The Commission also targeted some of AmeriCorps grant funds towards development of resources local councils had sought. By far, the largest and most complex project with Communities for Children was the Governor's Service Institutes. A full report on the Institutes, their evolution into the Maine Promise Network and the development of the Maine Promise Book is available in the Commission's annual report. Development of the Maine Service Exchange (MSE) began in earnest in late 1998. MSE will be a statewide training network in which trainers volunteer to provide expert training services as part of their community service.

**PURPOSE:**

The Maine Economic Growth Council was established to develop, maintain and evaluate a long term economic plan for the state. The Council's responsibilities include the development of a long range plan, goals, benchmarks and alternative strategies for a sustainable state economy. Additionally, the Council will monitor progress in accomplishing the State's goals and benchmarks, recommend changes in the Plan to reflect the dynamics of the international, national and state economy.

**ORGANIZATION:**

The Council is composed of 19 members, appointed for 3-year terms. The Commissioner of the Department of Economic & Community Development is a permanent member. The remaining 18 members are jointly appointed by the Governor, President of the Senate and Speaker of the House of Representatives. Fourteen members are appointed from the public to represent a broad range of expertise in areas including labor, environment, business and education; also appointed to the Council are four members of the Legislature having a

demonstrated interest in economic development.

The Council is staffed by the Maine Development Foundation, and is currently co-chaired by Senator Rochelle Pingree and Kevin Gildart, Bath Iron Works Corporation.

### PROGRAM:

In FY'95, the Council issued its first report entitled Goals for Growth, Progress 95; the Council proposed to monitor progress in six key goal areas: Innovative Businesses; Productive Workers/Rewarding Employment; Vital Communities; Healthy Natural Resources; Efficient Government; and State of the Art Infrastructure. The report outlines specific measures and benchmarks to track and compare Maine's performance. To date, the Council has distributed reports and has constructed briefings for state-wide organizations and agencies. The Council has been compiling baseline data for the benchmarks and conducts annual state-wide surveys of Maine businesses and citizens. In 1997, the Growth Council published Measures of Growth 97, which identified 57 benchmarks in the six goal areas. In 1998 the Growth Council published Measures of Growth 98, which reported on performance against benchmarks established in 1997. The report will continue to be updated annually, with weekly detailed reports on each measure.

*Reference:* Policy Area: 02 ; Umbrella: 94 Unit: 434 ; Citation: T0020A M.R.S.A., Sect. 000011414

### PURPOSE:

The Maine Educational Loan Authority (MELA) was established to assist students and their families to achieve their goals in the area of higher education.

### ORGANIZATION:

The Maine Educational Loan Authority is a public body, corporate and politic, and an instrumentality of the State. Established in 1988, it functions as an administratively independent authority within the current organizational structure of the State government, but receives no appropriation from the Legislature for its operation.

### PROGRAM:

Immediately after being created by the 113th Legislature in late Spring of 1988, the Maine Educational Loan Authority undertook to implement its initial program. This is a supplemental educational loan program which was funded by \$35,000,000 worth of tax exempt bonds issued in July of 1988. These funds are from a private source and use no state monies. In May of 1992, the Authority refunded its initial offering and issued \$60,000,000 worth of tax exempt bonds in order to continue its loan program. An additional \$12.5 million, \$10 million and \$14 million of tax exempt bonds were issued in June of 1996, July of 1997 and January 1999, respectively.

The MELA Loan Program makes loans in amounts up to the full cost of education, less other financial aid, annually, and is available to eligible students. These loans are for Maine residents going to school in or out of the State of Maine and Canada or out-of-state residents attending Maine institutions of higher education. These loans are available to students and parents based solely on the credit worthiness of the applicant. Interest rates are both set or variable and repayment may be "interest only" while the student is in school.

Borrowers may take up to 20 years to repay the loan. Undergraduate and graduate students are both eligible.

**PURPOSE:**

To help persons with disabilities become more independent and more productive members of the community. This is accomplished with the help of an innovative lending program that was financed with proceeds from a general obligation bond approved by Maine voters in 1988. The program makes available direct loans to borrowers at rates and terms that are specifically tailored to meet the financial needs of individual borrowers.

Business entities may also borrow from the Adaptive Equipment Loan Fund to help make businesses accessible to disabled individuals and more suitable for employing individuals with disabilities.

**ORGANIZATION:**

The Adaptive Equipment Loan Board consists of nine (9) members. Seven (7) members are appointed by the Governor and confirmed by the Maine State Legislature. Of these, one member must be a commercial lender, one member must be a certified public accountant, and the remaining five must have a range of disabilities. The remaining two members are Member of the Bureau of Rehabilitation or the Commissioner's designee and the Treasurer of the State or the Treasurer's designee.

The Adaptive Equipment Loan Board contracts with Alpha One, a non-profit community based organization offering services to persons with disabilities, to provide initial assistance to program applicants and a determination of the appropriateness of the equipment to be purchased. The Adaptive Equipment Loan Board contracts with the Finance Authority of Maine to provide administrative assistance, financial analysis and management, and legal counsel.

**PROGRAM:**

The Adaptive Equipment Loan Board provides low interest loans to assist disabled persons in becoming more productive members of the community. Businesses may also borrow from the Adaptive Equipment Loan Fund to make their facilities more accessible to physically challenged individuals. Proceeds from Adaptive Equipment Loans may also be used to enable a business to make physical and structural changes necessary to allow a business to hire disabled workers. Loans under the Adaptive Equipment Loan Fund may be for up to \$100,000 for a term, of up to twenty (20) years. The interest rate on these loans varies from 0% to the prime rate and is determined based upon the borrower's ability to repay the loan.

PAUL DOUGLAS AND ROBERT C. BYRD SCHOLARSHIP PROGRAMS. The Maine Education Assistance Division administers two small federal programs with limited funding, one a loan for students training to become teachers and the other is a scholarship program for exceptional students in their freshman year of college.

EDUCATORS FOR MAINE PROGRAM. This program is a state-funded program for Graduating high school seniors and college students who want to pursue a teaching career. In addition, teachers and post baccalaureate students pursuing graduate studies in education are eligible to apply. Full time students are eligible to receive \$3,000 per academic year.

THE MEDICAL EDUCATION & RECRUITMENT PROGRAM. This program secures seats for Maine residents at four schools of medicine. Entering seats are reserved through capitation payments made by FAME. The program also provides loans for medical students based on financial need, and provides incentives for physicians to practice in under served areas.

NEXT GENERATION INVESTING PLAN. This program allows parents and grandparents to save and invest for higher education expenses. As a qualified plan under

federal law, income earned on deposits accumulates tax deferred until funds are withdrawn for college. Income is exempt from Maine taxation. Accounts are managed and invested by Merrill Lynch under the oversight of FAME and the State Treasurer.

*Average Count--All Positions:* 5.000

*Legislative Count:* 5.00

### **PURPOSE:**

The Commission on Governmental Ethics and Election Practices is an independent Commission established to guard against corruption or undue influencing of the election process and against acts or the appearance of misconduct by Legislators.

The general duties of the Commission are to investigate and make advisory recommendations to the appropriate body of the Legislature of any apparent violations of the ethical standards set by the Legislature; to issue advisory opinions and guidelines on problems or questions involving possible conflict of interest in matters under consideration by, or pertaining to the Legislature; and to administer the sources of income disclosure law.

Additional responsibilities of the Commission are to administer and investigate any violations of the requirements for campaign reports and campaign financing, including the provisions of the Maine Clean Election Act and Fund; to conduct biennially, in conjunction with the Attorney General and the Chair of the Legislative Council, an ethics seminar for Legislators; to administer the lobbyist disclosure law; to administer and ensure effective implementation of the Maine Clean Election Act and Fund according to Title 21-A, chapter 14; to provide for enhanced monitoring and enforcement of election practices; and to institute electronic submission of reports and computerized tracking of campaign, election and lobbying information under the Commission's jurisdiction.

### **ORGANIZATION:**

The Commission on Governmental Ethics and Election Practices established by Title 5 Section 12004-G, subsection 33, consists of five members appointed by the Governor. Members of the public, groups and organizations may nominate qualified individuals to the Governor for appointment to the Commission during the nomination period jointly established by the Governor, the President of the Senate, the Senate Minority Leader, the Speaker of the House, and the House Minority Leader. Appointments are subject to review by the joint standing committee of the Legislature having jurisdiction over legal affairs and confirmation by the Legislature.

No more than two members may be enrolled in the same political party. Each member serves a four-year term. A person may not be appointed to the Commission who is a member of the Legislature or who was a member of the previous Legislature, or who was a declared candidate for an elective county, state or federal office within two years prior to the appointment, or who holds an elective county, state or federal office, or who is an officer of a political committee, party committee or political action committee.

## INDEPENDENT AGENCIES - OTHER

Pursuant to 1 M.R.S.A. Section 1006, the Commission may call for the aid or assistance in the performance of its duties from the Attorney General, Secretary of State, Department of Audit or any law enforcement agency in Maine.

### **PROGRAM:**

Advisory Opinions, Notices, Report Audits. During FY 1999, the Commission held 12 meetings, issued 6 informal advisory opinions, and its staff rendered oral advice regarding the interpretation of the statutes administered by the Commission. The staff distributed filing notices to all candidates in the primary and general elections, processing filings before and after each election submitted by candidates and registered political action committees. Additionally, the staff conducted limited audits on the reports of hundreds of candidates and political action committees. The Commission conducted formal rulemaking procedures and adopted rules effective November 1, 1998, to implement the Maine Clean Election Act that becomes operative for candidates for State Senator and State Representative in the year 2000.

Complaints, Late Filings, Penalties. During FY 1999, 13 complaints were filed with the Commission which resulted in Commission determinations. Of those complaints, 12 concerned candidate campaigns, 3 concerned political action committees, and 1 concerned legislative ethics. The Commission also ruled on the lateness of the filings of 9 candidates, 7 political action committees, 10 party committees, and 20 lobbyists. The Commission referred 15 candidates to the Attorney General for appropriate action regarding failure to pay penalties for delinquent filing of reports. Lobbyist registration and docket fees for the lobbyist registration year ending November 30, 1998, brought a total of \$191,796.10 in revenue. Of that total, \$90,300 was credited to the Commission's dedicated fund and the balance was credited to the State General Fund.

Lobbyist Registrations and docket fees for the lobbyist registration year ending November 30, 1998, brought a total of \$191,796.10 in revenue. Of that total \$90,300 was credited to the Commission's dedicated fund and the balance was credited to the State General Fund.

### **PUBLICATIONS:**

The Commission distributes copies of the governmental and legislative ethics laws, lobbyist disclosure procedures, the campaign reports and finance laws for candidates, the law governing political action committees (PACs), the Maine code of Fair Campaign Practices, and the Maine Clean Election Act. #### PURPOSE:

The Maine Education Assistance Board was established as an advisory board to the Finance Authority of Maine to provide policy and administrative recommendations for the administration of a comprehensive, consolidated program of financial assistance to Maine students pursuing education beyond high school.

In addition to administering a variety of grant, loan and scholarship programs to assist students and parents with the costs of higher education, the Finance Authority of Maine and the Maine Education Assistance Board are responsible for establishing and overseeing a counseling and outreach program that is designed to encourage students to pursue education beyond high school.

#### ORGANIZATION:

The Maine Education Assistance Board consists of seven members including: the Commissioner of Education or the Commissioner's designee and six members appointed by the Governor and confirmed by the Maine State Legislature. The members must include a trustee, director, officer or employee of an institution of higher education in the State; a member of a statewide organization representing the chief executive officers of public and private post-secondary institutions; a student financial aid administrator, a high school guidance counselor; a representative of a state financial institution that is active in student lending; and a member who represents the interests of the consumers of the programs.

#### PROGRAM:

FAME maintains and administers the following programs:

**FEDERAL FAMILY EDUCATION LOAN PROGRAM.** This program includes the Stafford Loan Programs, the Supplemental Loan for Students Program (SLS) and the Supplemental Loan for Parents Program (PLUS). These programs provide loans to students and parents based on financial need. The loans are guaranteed by the FAME and the federal government. After graduation these loans are deferred until after the student has been out of school for six months.

**MAINE STUDENT INCENTIVE SCHOLARSHIP PROGRAM.** Through this program, grants are available to Maine residents based on financial need as determined by financial

information provided by students and parents on the Free Application for Federal Student Aid (FAFSA). Grants are awarded to students attending both public and private institutions. For the school year that begins in September 1999, the FAME will award grants totaling more than \$11,000,000 to students.

**ROBERT C. BYRD SCHOLARSHIP PROGRAM.** The Maine Education Assistance Division administers this small federal program which is a scholarship program for exceptional students in their freshman year of college.

**EDUCATORS FOR MAINE PROGRAM.** This program is a state-funded program for Graduating high school seniors and college students who want to pursue a teaching career. In addition, teachers and post baccalaureate students pursuing graduate studies in education are eligible to apply. Full time students are eligible to receive \$3,000 per academic year.

**THE MEDICAL EDUCATION & RECRUITMENT PROGRAM.** This program secures seats for Maine residents at four schools of medicine. Entering seats are reserved through capitation payments made by FAME. The program also provides loans for medical students based on financial need, and provides incentives for physicians to practice in under served areas.

**NEXT GENERATION INVESTING PLAN.** This program allows parents and grandparents to save and invest for higher education expenses. As a qualified plan under federal law, income earned on deposits accumulates tax deferred until funds are withdrawn for college. Income is exempt from Maine taxation. Accounts are managed and invested by Merrill Lynch under the oversight of FAME and the State Treasurer.

#### PURPOSE:

The Finance Authority of Maine (FAME), an independent state agency, is Maine's business and higher education finance agency. The Authority was initially established in 1983 as Maine's business finance agency. In that role, the Authority was charged with supporting the start up, expansion and growth plans of Maine's business community by working with Maine's banking community to improve access to capital.

In April of 1990, FAME'S mission was significantly expanded when the Authority assumed responsibility for administering the State's higher education finance programs. Through loans, grants and other scholarship programs, FAME helps students and their families to meet the costs associated with higher education. The Authority also oversees an extensive outreach and counseling program that is designed to encourage young people to aspire to and pursue higher education.

## INDEPENDENT AGENCIES - OTHER

The Authority accomplishes this important charge by working closely with the State's higher education, banking, economic development and business communities in the formulation and implementation of financial services and programs that will help fill gaps that exist in the State's capital delivery system.

### ORGANIZATION:

The Finance Authority of Maine is overseen by a fifteen member Board of Directors that has the following makeup;

- two members with experience in natural resource based enterprises
- two veterans
- two members from the Maine Education Assistance Board
- one Certified Public Accountant
- one commercial lender
- one attorney
- three members-at-large
- three state members to include the Commissioner of the Department of Economic and Community Development, a natural resource commissioner and the State Treasurer.

Members of the FAME Board are appointed by the Governor and are subject to review and confirmation by the State Legislature. Each member, other than the State members, serves for a term of four years. A Chief Executive Officer is appointed by the Governor, subject to review and confirmation by the Maine State Legislature, to supervise and direct the administrative and technical activities of the Authority on a day-to-day basis.

As organized, FAME consists of three broad divisions; Business Development, Natural Resources Financing and Marketing, and the Maine Education Assistance Division. These divisions are supported by a Division of External Affairs, and Division of Finance and Office of General Council.

### PROGRAM:

**BUSINESS DEVELOPMENT DIVISION:** This statutorily established division maintains and administers several programs which are utilized individually, or in combination with other financing mechanisms, to assist business development in Maine. These programs include:

- Small Business and Veterans' Small Business Loan Insurance Program
- Commercial Loan Insurance Program
- Working Capital Loan Insurance Program
- Economic Recovery Loan Program
- Occupational Safety Loan Program
- Underground Oil Storage Tank Removal & Replacement Program
- Overboard Discharge Replacement Program
- Waste Reduction and Recycling Loan Program
- Waste Oil Furnace Loan Program
- Revenue Obligation Securities Program
- Electric Rate Stabilization Program
- Regional Economic Development Revolving Loan Program
- SMART-E Bond Program
- SMART Bond Program

**NATURAL RESOURCES DIVISION:** This statutorily established division maintains and administers several programs which are utilized individually, or in combination with other financing mechanisms, to assist business development in Maine. These programs include:

- Agricultural Operating Loan Insurance Program
- Natural Resources Capital Investment Program
- Potato Marketing Improvement Fund Program
- Linked Investment Program for Agriculture and Small Business
- Export Financing Services
- Maine Seed Capital Tax Credit Program

Authority.

### PROGRAM:

Bonds, notes or any other obligations of the Authority while utilizing the moral obligation reserve fund make up of the State do not constitute an obligation of the State of Maine or any political subdivision within the State. Each bond issue of the Authority is secured solely by revenues derived from the project financed by the proceeds of said issue. Bonds of the Authority may be secured by a gross pledge of the revenues derived from the project. In addition, the Authority may take title to the project and lease it back to the hospital, nursing or boarding home, or institution for higher education or may take a mortgage on the project. Each health-care facility or institution for higher education agrees, among other things, to pay the Authority sufficient monies at all times to pay principal and interest on outstanding bonds.

The Authority does not receive any appropriation from the State. It derives its revenue from fees charged participating eligible borrowers using its financing capabilities. The Authority charged origination and loan servicing fees based on type of loan, financing, and borrower.

During FY99, the Authority issued \$229,510,000 in bonds on behalf of 14 hospitals, 3 community mental health facilities, 4 nursing and boarding home, and 5 institutions of higher education.

### PURPOSE:

The purpose of the Maine Historic Preservation Commission is to administer the National Historic Preservation Act of 1966 to identify and protect significant architectural and archaeological resources. The Commission is charged with development of a comprehensive plan, conducting surveys statewide, and nominating all significant buildings, sites and districts to the National Register of Historic Places. In addition, the Commission reviews all federally-funded and federally-licensed projects for their effect upon historic resources.

### ORGANIZATION:

The Commission was created by the 105th Legislature in 1971 as an independent State commission. In 1973, the Commission was placed in the Department of Educational and Cultural Services for administrative purposes, and in 1979 it became a bureau of the Department. In 1990 the 114th Legislature established the Commission as an independent agency.

The Commission consists of 11 members made up as follows: Commissioner or representative of the Department of Transportation, Commissioner or representative of the Department of Conservation, and 9 representatives from among citizens of Maine, one of whom shall be elected chairman. Among the public members, all of whom are appointed by the Governor, there must be at least one prehistoric archaeologist, one historic archaeologist, one historian, one architectural historian, and one architect.

## INDEPENDENT AGENCIES - OTHER

The term of office of each member is 5 years. Each member serves for the term of his/her appointment and thereafter until his/her successor is appointed, but in any event no more than 2 consecutive terms. All vacancies are filled for the balance of the unexpired term in the same manner as the original appointments.

### PROGRAM:

During FY 99 the Commission expanded the National Register of Historic Places by 12 individual sites and two districts. The Commission sponsored prehistoric archaeological surveys, historic archaeological surveys, and architectural inventories of Maine communities.

The Historic Preservation provision of the Economic Recovery Tax Act of 1981 has required extensive staff time in certifying historic buildings and advising owners on acceptable restoration techniques. As in past years a great deal of staff time has been spent in reviewing federally-funded projects that might have an impact upon the State's historic resources, as well as offering advice and services to countless communities, groups, and individuals with concerns in the area of historic preservation.

### LICENSES:

Under 27 MRSA 374 any party wishing to excavate an archaeological site listed in the National Register of Historic Places which is state-owned or is subject to a preservation agreement between the landowner and the Commission, must apply in writing for an Excavation Permit to the Director of the Commission. If such a permit is granted, it must be co-signed by the Director of the Commission, the Director of the State Museum, and (if involving a state-owned site) the Director of the agency with primary jurisdiction. If a site which is not state-owned is involved, permission to excavate in writing from the landowner must accompany the permit application.

### PUBLICATIONS:

The following booklets are part of a continuing series documenting Maine's historic, architectural and archaeological heritage. *Reference: Policy Area: 00 ; Umbrella: 94 Unit: 409 ; Citation: T0030 M.R.S.A., Sect. 000006212*

### PURPOSE:

The Maine Indian Tribal-State Commission was created as part of the Maine Indian Claims Settlement Act of 1980 to "continually review the effectiveness of this Act and the social, economic, and legal relationship between the Passamaquoddy Tribe and the Penobscot Indian Nation and the State." The Commission also has a number of specific mandates, including the promulgation of fishing regulations on certain bodies of water and making recommendations concerning the acquisition of lands to be placed in trust for the tribes.

The settlement cannot be amended unilaterally by any of the parties.

### ORGANIZATION:

The Commission is an inter-governmental entity. Four of its members are appointed by the Governor of Maine and confirmed by the Legislature; two are appointed by the Passamaquoddy Tribe; two are appointed by the Penobscot Indian Nation; and the ninth, who is the chairperson, is selected by the eight appointees.

The Commission's budget is comprised of tribal dollars and state dollars. The Commission is staffed by a private consultant, who serves as part-time Executive Director.

### PROGRAM:

The Commission's over-riding priorities are to deepen the understanding by Tribal and State leaders of the key concepts and issues underlying both the settlement and on-going Tribal-State relations; to promote a relationship between the State and Tribes that is based on open communications and mutual trust and respect; and to increase the public's understanding and appreciation of the Wababaki People.

To address these over-riding priorities, the Commission sponsors meetings and workshops, presents testimony and proposes legislation, helps to increase access by the Tribes to state and federal resources, and is involved in educational activities.

#### PURPOSE:

The purpose of the Maine State Library is to lead in efforts that will provide, broaden and improve access to information regardless of locations or residency of individual citizens.

The purpose of the Maine Library Commission is to review recommendations of the State Librarian with regard to the policies and operations of the Maine State Library and the State's library program. The Commission also gives advice and makes recommendations with regard to the administration of federal funds.

#### ORGANIZATION:

The Maine State Library includes Administration, Reader and Information Services, Library Development Services, and Special Acquisition.

The Maine Library Commission is broadly representative of the State's libraries and consists of a representative from public, school, academic, special, institutional and handicapped libraries, a trustee representative, one representative from each of the library districts and three representatives from the State at large, of whom one is a representative of the disadvantaged. The directors of the area reference and resource centers are ex-officio members. The Maine Library Commission is a policy-making authority and part of the Maine State Cultural Affairs Council.

#### PROGRAM:

The Program of the Maine State Library is reported by several components. ADMINISTRATION provides leadership for development of library services in Maine; coordinates the work of all staff; prepares and supports necessary legislative action concerning libraries; and provides all necessary fiscal information.

LIBRARY DEVELOPMENT provides leadership and support for library development in all types of libraries throughout the state. Specific programs include Maine Regional Library System, Handicapped Services; Institutional Library Services, Books-By-Mail, Video Services, Instructional Television, School Library/Media Services and the Information Exchange.

READER AND INFORMATION SERVICES provides the delivery of quality information reference and loan services to state agency personnel and the general public. This includes supporting and complementing the collections of all types of libraries throughout the state. Specific programs include Reference, Circulation, Collection Services and Interlibrary Loan.

## INDEPENDENT AGENCIES - OTHER

The Maine Library commission held 6 meetings during FY 99. Areas of special interest included the following: the implementation of the ruling by the PUC to allow up to \$4.0 million of a mandated rate reduction to be used to reduce telecommunications rates and/or provide additional services or equipment to libraries and schools; the development of a statewide information network, (Maine Info Net); the development of a plan to expand Maine's telecommunications and distance learning system; a legislative proposal to create a new statewide policy to promote public access to new telecommunications technologies and information networks; the sharing of resources among libraries; reviewing the allocation of state and federal funds; establishing guidelines regarding eligibility for construction, technology grants; and reviewing statewide interlibrary loan policies. Began implementation of state wide Cultural Community Grants Program.

#### PROGRAM:

Selected advertising in trade publications and representation at key trade shows provide high visibility to buyers on behalf of the entire lobster industry. Maine Lobster Month in August was celebrated for the fourth year. A culinary competition for chefs and a consumer recipe contest culminated the promotion. The MLPC's public relations efforts included media coverage, feature stories, public service announcements, press releases (7,000 disseminated nationwide), hosting an industry tour for Cuisine Magazine, and an enhanced homepage on the Internet. Dispelling the myths and misinformation about lobster is a key role of the MLPC. The MLPC cookbook was featured on QVC. Over 2,500 copies have been sold since its release in 1997. The MLPC continued its airport ad campaign at both Bangor International Airport and Portland International Jetport. Key promotions included New Shell, Maine Lobster Month and Holiday.

In its efforts to increase services to members of the lobster industry, the MLPC seeks sources of outside funding. The MLPC participated in the the Market Access Program (MAP). Funds were allocated to promote lobster in Europe and Asia. The MLPC conducted a reverse trade mission for Japanese buyers and chefs, hotel and restaurant promotions in Japan and Belgium, and participated in international trade shows. An application was developed and submitted to continue and expand export promotional efforts into FY 00 (funding was approved). A proposal to advance the processing sector of the industry was funded by the Maine Fishing Industry Development Center (MFIDC).

The MLPC initiated meetings with Zone Councils to share the activities of the Council with its constituents. Meeting with lobster industry associations, attending the Fisherman's Forum, and monthly communications with each industry organization help keep industry groups informed. A business breakfast for lobster dealers and retail seafood merchandisers was also held. Strengthening industry communications is a critical part of the efforts of the MLPC. The MLPC responded to requests for information as follows: 492 SASE's, and over 1,200 requests for general information.

*Reference:* Policy Area: 00 ; Umbrella: 94 Unit: 591 ; Citation: 29A M.R.S.A., Sect. 000000558

#### PURPOSE:

The Motor Carrier Review Board was created by PL 1995 Chapter 376 to review the records of motor carriers with histories of significant and repeated carrier violations in Maine.

The Board is charged with making recommendations to the Secretary of State for possible suspension of a carrier's privilege to operate commercial vehicles in Maine. To make these determinations, the Board looks at a number of data sources including adjudicated violations, MSP Commercial Vehicle Enforcement Unit data, and federal Office of Motor Carrier Safety reviews and ratings.

The Motor Carrier Review Board's principal data source is adjudicated violations. In 1996, the Board developed and adopted its rules for conducting carrier review. The Board conducted approximately 100 carrier reviews in FY98.

#### ORGANIZATION:

The Board consists of seven members appointed by the Governor. The members represent the motor carrier industry, professional drivers, the commercial insurance industry, and the public.

The Board is staffed by the Bureau of Motor Vehicle's Motor Carrier Services.

**MAINE MUNICIPAL BOND BANK**

**ROBERT O. LENNA, EXEC DIR**

*Central Office:* PO BOX 2268, AUGUSTA, ME,

*Mail Address:* PO BOX 2268, AUGUSTA, ME, 04338

*Established:* 1972

*FAX:* (207) 623-5359

*Telephone:* (207) 622-9386

*Reference:* Policy Area: 00 ; Umbrella: 94 Unit: 376 ; Citation: T0030A.M.R.S.A., Sect. 000005951

**PURPOSE:**

The Maine Municipal Bond Bank was established to reduce overall long-term borrowing costs of governmental units within the State for capital improvement projects through lower interest rates and reduced processing costs of bond issues. The Bond Bank is empowered to issue bonds and notes in its own name and to use the proceeds therefrom to directly purchase the bonds or notes of governmental units. The result is to combine a number of smaller bond issues into a single attractive package which the Maine Municipal Bond Bank then offers to the national market.

**ORGANIZATION:**

The Maine Municipal Bond Bank, established in 1972, consists of a five-member Board of Commissioners, including the Treasurer of State and the Superintendent of Banks and Banking, ex officio, and three Commissioners appointed by the Governor, for terms of three years. The Board elects one of its members as chairman and appoints an Executive Director who also serves as both secretary and treasurer.

No State appropriations are allocated to the Maine Municipal Bond Bank's General Bond Resolution program. The Bank pays all costs of issuance on behalf of local governmental units using the Bank's General Bond Resolution, except for local bond counsel, a pro-rated share of underwriters' sales commission and any negative arbitrage on the moral obligation reserve fund. Operating expenses are covered by bond premiums and income from investment of reserve and operating funds.

**PROGRAM:**

In October, 1998 the Bond Bank issued \$13,890,000 which assisted 13 governmental units to finance their capital needs. This issuance was rated Aa3/A+ by Moody's and Standard & Poor's and insured by FSA. In May of 1999 a second bond offering was issued in the amount of \$62,860,000 which helped 18 governmental units finance their capital projects. This issuance was rated Aa3 by Moody's and A+ by Standard & Poor's and was insured by MBIA. Concurrently with the bond issues, the Maine Municipal Bond Bank assists municipal entities, particularly the smaller entities, with their long-term financial plans and debt management issues.

In 1998, the Maine Legislature established the Maine School Revolving Renovation Fund to promote efficient capital financing activities for the construction, renovation and maintenance of school facilities. The Bond Bank administers this Fund. The Bond Bank received two allocations from the State for the Fund within this fiscal year that totaled \$19,575,000. The Bond Bank deposited \$783,140 into the Fund obtained in savings achieved by refunding other outstanding school loans. This money is to be used to fund projects that receive eligibility certificates from the Department of Education.

The Bond Bank established a lease purchase program in 1998 to provide a means to effectively and quickly finance real and personal property transactions. During this fiscal year, the Bond Bank assisted governmental entities with \$1,310,000 in lease purchase transactions.

The State of Maine designated the Bond Bank to serve as the administrator and financial manager of the Drinking Water and Clean Water State Revolving Loan Fund programs. Loans are funded through a combination of tax exempt revenue bond dollars, federal funds and state matching funds to create an interest rate 2% below the Bond Bank's cost of funds. In fiscal year 1999, the Clean Water State Revolving Loan Fund program provided fifteen loans totaling \$20.5 million to finance wastewater construction projects. The Drinking Water State Revolving Loan Fund program provided twenty-one loans totaling \$13.5 million to public water systems.

### PURPOSE:

The mission of the Maine State Museum is to collect, preserve, and research objects of Maine's natural and cultural history for the purpose of educating and inspiring Maine's people and visitors, in order to promote an understanding of and respect for the past, which is essential for Maine's future. (Adopted 12-7-98)

The Maine State Museum Commission was established in 1966 to formulate policies and exercise general supervision over the State Museum; to make recommendations to the Legislature to improve the functions of the Museum; and to delegate powers to a Museum Director for administration of the Museum.

The Maine State Museum and its collections are a unique source of information on Maine's natural and cultural history. Collections are exhibited in the Museum, State House, and Blaine House as well as loaned to other Maine museums for special displays.

### ORGANIZATION:

The basic concept of a State Museum was approved and funded by the Legislature in 1836 and the first exhibition established in 1837. Without a clear mandate or consistent governance the fledgling museum was subject to the availability of display space in the State House and the willingness of various State departments to assume unpaid curatorial functions.

The Maine State Museum became an independent, professionally staffed agency with the creation of the Maine State Museum Commission in 1966. The Commission consists of fifteen members, appointed by successive Governors to terms of six years. The Commission meets regularly to formulate policies and to exercise general supervision of Museum activities. These activities have been expanded to include care and interpretation of the State House Historical Collection, Blaine House Historical Collection, and management of state owned archaeological resources including historic ship wrecks.

In 1990, the Maine State Cultural Affairs Council was established to coordinate the resources, programs and projects of the Maine State Museum and other cultural agencies with state-wide responsibilities. This Council has a chairman appointed by the Governor, and voting members from each agency.

### PROGRAM:

EDUCATION: the Museum is open all but four days each year. In Fiscal Year 1999 Museum exhibits attracted 94,448 visitors, of whom 31,412 came in 1,016 school and camp groups from 276 Maine communities. Museum educators provided

## INDEPENDENT AGENCIES - OTHER

live demonstrations and hands-on gallery programs. A Sunday afternoon program series; a Spring film premier-reception; archaeology field schools in Brooklin, Maine and at the 1607 Popham Colony Site in Popham, Maine were all well attended.

**EXHIBITS:** "The Colors of Glory: the 20th Maine Regiment at Gettysburg" displayed Maine's most famous Civil War flag, carried by Joshua Chamberlain's men at Little Round Top. "Maine Earthenware" was opened within the large "Made-in-Maine" exhibition and tells the story of the State's early pottery making families. "What Can We Learn From Bones?" was developed to show how archaeologists learn about the animals, birds, and fish eaten by people in the past.

**COLLECTIONS:** the Museum acquired 116 groups of historic artifacts and scientific specimens consisting of 2,226 objects. Artifacts from five archaeological sites were also accessioned. These primarily constitute direct donations, combined with purchases assisted by financial gifts and generous bequests. Examples include: a suit worn by Hannibal Hamlin, tailored in Bangor; original arts and crafts style furnishings and door built by Maine State Penitentiary prisoners for their warden's summer home; a 271-piece collection of late-nineteenth and early-twentieth century Maine souvenir china; a dream catcher beaded with the Maine State Seal which was presented to Gov. King by the four tribes resident in Maine.

**OUTREACH:** The exhibit "Out of the Woods: 200 Years of Maine Furniture" closed in this period and half of the pieces were then loaned to the Brick Store Museum in Kennebunk as the core of a locally developed exhibit using the same name. Museum artifacts were also on loan to 55 other museums.

**DEVELOPMENT:** The non-profit support group Friends of the Maine State Museum raised over \$220,000 for the Museum's first permanent endowment. "The Maine State Museum Heritage Fund" will be used to purchase important Maine artifacts in danger of being sold out of state.

Earned income and visitor convenience were both enhanced by an enlargement of the Museum Store this year. Lighting and air quality were both improved by the new design which doubled the retail floor space.

### **LICENSES:**

Any person, agency or institution desiring to excavate an archaeological site on State-controlled land (including submerged lands beneath the ocean up to three miles off shore, beneath navigable rivers, lakes, and great ponds) shall submit a written application for a permit to the Maine State Museum, the Maine Historic Preservation Commission and to the agency controlling the property. (27 MRSA s371-378 inclusive). Also any person, agency or institution desiring to use the image, design, or dimensions of any object in the Museum's collection for commercial or non-commercial purposes shall submit a written application to the Director.

#### **PURPOSE:**

The Maine State Retirement System administers the Legislative Retirement System, the Judicial Retirement System, the system that covers both public school teachers and state employees, and the separate retirement plans covering various political subdivisions that choose to participate in the MSRS as Participating Local Districts (PLDS). The retirement plans of the PLDS include the PLD Consolidated Plan, which was fully implemented as of July 1, 1996, and covers 223 PLDs, and the separate plans for the remaining non-consolidated PLDs that continue to function as districts for their remaining employee-members and retirees. The MSRS is also responsible for the payment of benefits from the Governor's Retirement Fund.

In addition to administering these public pension systems, the MSRS is also responsible for administering the Group Life Insurance Program. This program provides life insurance benefits for both active and retired State employees and public school teachers, for many PLD employees, and for members and retirees of the Legislative and Judicial Retirement Systems.

#### **ORGANIZATION:**

The responsibility for the operation of the MSRS is held by the MSRS Board of Trustees, which is composed of eight members. State law specifies the Board's composition. The State Treasurer is an ex-officio member with voting privileges. The seven other voting positions include three that are to be filled by MSRS members. One of these is to be a teacher member elected by the Maine Education Association; the second is to be a State employee elected by the Maine State Employees' Association; the third is to be a PLD member appointed by the Maine Municipal Association. The remaining four voting members are all appointed by the Governor. Two of them are to have training or experience in investments, accounting, banking, or insurance, or as actuaries; one is to be chosen from nominees submitted by the Maine Retired Teachers' Association; and one is to be an MSRS retiree, chosen from nominees of State and PLD retirees. All prospective trustees are subject to legislative confirmation.

As of June 30, 1999, the Board contracted with for Milliman and Robertson for actuarial services including preparation of annual valuations of the assets and liabilities of each system. For the State employee and teacher system, the PLD Consolidated Plan, and the Judicial and Legislative Systems, the actuary also provides information and recommendations to the board as to sound and appropriate actuarial assumptions, which are used with valuation information to determine these systems' funding requirements. The Board's management of MSRS investments is governed by its detailed investment policy, which states the Board's underlying investment philosophy and goals, and establishes guidelines and criteria for choice of investment types, for asset allocation among investment types, for investment manager selection and evaluation, and for allotment of investment funds to investment managers. The Board employs the firm of Ennis Knupp to assist in development and implementation of investment policy.

The Board is the final administrative decision-maker in matters involving the rights, credits, and benefits of members. It has established an administrative appeals process for the making of such decisions, through which the relevant factual information and legal requirements are identified and analyzed. In decisions on disability retirement appeals, statutorily created Medical Boards provide recommendations as to the medical aspects of disability. The Board of Trustees appoints the Executive Director of the MSRS, who is responsible for the work of the MSRS staff, including the Information Systems, Finance and Accounting, Human Resources and Payroll Administration, and Member, Employer, and Retiree Services Divisions. The Executive Director also oversees the System's investments and its investment manager and consultant, and

## INDEPENDENT AGENCIES - OTHER

coordinates actuarial work with the System's consulting actuary.

### PROGRAM:

Membership in the MSRS includes both active and inactive members. Active members are those who are currently working for an MSRS participating employer and who are, therefore, contributing to the MSRS. As of June 30, 1999, there are approximately 49,862 active members in the MSRS. Inactive members are those who have contributed in the past and whose contributions remain with the System but who are not contributing presently because they are not working for an MSRS participating employer. As of June 30, 1999, there are approximately 55,050 inactive members in the MSRS.

The MSRS benefits payroll has increased in recent years. At June 30, 1999, a total of 27,472 people received benefits either as service retirees, beneficiaries, or disability retirees. The total monthly benefits payroll as of June 30, 1999, was \$26,778,687.06.

Those looking for more details concerning the membership, finances, or benefits of the MSRS are invited to contact the System for information.

## SACO RIVER CORRIDOR COMMISSION

### DENNIS FINN, EXECUTIVE DIRECTOR

WATS: ( ) -

M.R.S.A., Sect. 000000954

### PURPOSE:

The purpose of the Saco River Corridor Commission is best described by the Act which created both the Commission and the Saco River Corridor. The Act states that "In view of the dangers of intensive and poorly planned development, it is the purpose of this Act to preserve existing water quality, prevent the diminution of water supplies, to control erosion, to protect fish and wildlife populations, to prevent undue extremes of floods and drought, to limit the loss of life and damage to property from periodic floods; to preserve the scenic, rural and unspoiled character of the lands adjacent to these rivers; to prevent obstructions to navigation; to prevent overcrowding; to avoid the mixture of incompatible uses; to protect those areas of exceptional scenic, historic, archaeological, scientific and educational importance; and to protect the public health, safety and general welfare by establishing the Saco River Corridor and by regulating the use of the land and water within this area."

## INDEPENDENT AGENCIES - OTHER

The Corridor area, totalling approximately 300 miles of river front, includes the Saco River from Saco Bay to the New Hampshire border, the Ossipee River from its confluence with the Saco River to the New Hampshire border, and the Little Ossipee River from its confluence with the Saco River to the New Hampshire border at Balch Pond.

The Saco River Corridor Commission is, then, essentially a regionally administered regulatory agency with responsibility for enforcing the land use provisions of the Saco River Corridor Act. It is a function of this Commission to review applications for permits and variances filed under provisions of this Act and to ensure the continuing land and water quality of the Saco River Corridor.

### ORGANIZATION:

The Saco River Corridor Commission is a single-unit agency consisting of one regular and one alternate member from each of the twenty municipalities in the three counties whose jurisdiction includes lands or bodies of water encompassed by the Saco River Corridor. These forty members are appointed for a staggered three year term to serve on the Commission by the various elected officials within the municipalities with lands in the Corridor. The Commission members are the decision making body of the organization, while the staff, presently consisting of an Executive Director and an Administrative Assistant, and an Environmental Compliance Evaluator provides support services to the Commission, to applicants, and to various municipal officials concerned with the Saco River Corridor Act, with the river, or with other state-related matters.

### PROGRAM:

In order to promote orderly growth within the Corridor, the "Saco River Corridor Act" established a permit procedure for development activities within the statutorily defined corridor. With available resources, the Commission staff provides assistance to applicants both in working out a reasonable and acceptable site plan and in completing the necessary permit application forms. During this fiscal year, the Commission conducted 5 public hearings and 11 regular meetings. Members considered a total of 78 applications for permits or variances for development activities within the Corridor and also considered 29 amendments to permits previously granted. Commission staff traveled 5,160 miles in performing site inspections and other Commission business.

The development proposals reviewed by the Commission continue to reflect a diversity of uses for the river and its adjacent lands, and the Commission's discussions and decisions regarding various applications are, in part, a reflection of a major purpose of the Saco River Corridor Act: the assurance that diversity of use is balanced by the avoidance of the mixture of incompatible uses.

The Commission continues to coordinate any enforcement efforts with the Office of the Attorney General. Although the Commission's primary function is regulatory, it also continues its historic role as an advocate for the river and its surrounding environment.

### LICENSES:

#### Permits:

Building - within the statutorily defined corridor

Filling or excavating - within the statutorily defined corridor

#### Amendments:

Changes in activity proposed in original permit

Extension of deadline for completion of construction

#### Certificates of Compliance:

(where required by conditions of the permit or variance)

## MAINE SARDINE COUNCIL

### JEFFREY H KAEIN, EXECUTIVE DIRECTOR

*Central Office:* 141 MAIN ROAD, WINTERPORT, ME, 04496

*Mail Address:* P O BOX 440, WINTERPORT, ME, 04496

*Established:* 1951

*FAX:* (207) 223-9900

*Telephone:* (207) 223-9013

*Reference: Policy Area: 01 ; Umbrella: 94 Unit: 414 ; Citation: T0032 M.R.S.A., Sect. 000004167*

#### PURPOSE:

The Maine Sardine Council was established in 1951 by the Maine Legislature, in cooperation with the industry, to promote, develop and stabilize the Maine sardine industry. Over the years, its primary responsibilities have been to foster and promote better methods of production, packing and merchandising in the industry through publicity, sales promotion, quality control, export market expansion, market and technical research and development, and cooperation and joint projects with state and federal agencies and national and international trade and service organizations. In addition to pursuing other related activities, the Council staffs and maintains headquarters, purchases necessary supplies and equipment and employs contractors for various services as deemed prudent. Rather than employ a sizable staff, it has been the policy of the Council to engage contractors for all but routine activities.

#### ORGANIZATION:

In 1951, Maine sardine packers asked the Maine Legislature to tax them at a rate of 25 cents a standard case (100 cans) to provide the industry - made up mostly of small firms - with much needed marketing, quality control, and government relations services which could be financed only on a cooperative basis. The Maine Sardine Council, seven active packers appointed by the Commissioner of Sea and Shore Fisheries (now Marine Resources), to serve five-year terms, was then established. The Council was charged with responsibility for administering various industry development programs and allocating excise tax funds in conformance with general State fiscal regulations. An office was established in Augusta and, in 1955, a rented Quality Control and Research Laboratory was organized in Bangor. In 1963, a building was purchased in Brewer to house this activity and in 1976 the office and laboratory were consolidated to this space. The building was sold in 1997, and office space is now rented.

In 1981 the sardine tax was increased to 30 cents per case to help make up part of the budgetary shortfall that was a result of the low volume of sardine production in recent years. The 113th Legislature changed the number of packers making up the Council to no fewer than five since only six companies were producing sardines in Maine at that time. The 114th Legislature reduced that number to no fewer than three since the number of companies operating in the state had been reduced to five. At that time, the appointment of alternate members was authorized to make it easier for the Council to establish a quorum at their business meetings. During 1993, after one sardine company suspended production, the number of sardine companies was reduced to four. Since 1996, three companies have operated five sardine processing facilities. In 1991, the 115th Legislature increased the sardine tax to 35 cents per case and broadened it to include other canned herring products, a 15 cents per case.

## INDEPENDENT AGENCIES - OTHER

In 1994, the 116th Legislature agreed to reorganize the Maine Sardine Council as an incorporated public instrumentality and transferred to the Council all of its property, land and buildings. In 1995, the sardine tax was reduced to 30 cents per case and the tax on other canned herring products was reduced to 10 cents per case. In 1996, the 117th Legislature clarified that the value of the Council's assets could be transferred back to the companies comprising the Council if the Council were to dissolve in the future. With this change, a requirement was established that the Council report annually to the Legislature's Marine Resources Committee its finances and activities. In 1998 the 118th Legislature clarified that the employees of the Maine Sardine Council continued to be eligible for state employee benefits even though they had not been state employees since 1994. At that time, the tax was reduced to 15 cents per case on sardines and 10 cents per case on other canned herring products.

### PROGRAM:

The activities of the Maine Sardine Council were pursued during FY 99 with varying degrees of emphasis as required. Since 1957, a major item of expense has been financing and operation of the industry's Quality Control and Research Laboratory. During FY 98, with the support of the 118th Legislature, the industry eliminated this program as it prepared for the December 1997 implementation of a new FDA, mandatory seafood inspection program in its processing facilities. The maintenance of programs to meet state and federal requirements for pollution control, plant sanitation and safety, and food inspection and labeling standards continue. Programs that support the development of additional fisheries research, in order to provide better information about the Atlantic herring resource which the industry depends upon, are also being actively pursued. Materials promoting the industry and its products continue to be regularly distributed to consumers and educators.

**FISHERIES CONSERVATION AND MANAGEMENT:** Since the enactment of the Fisheries Conservation and Management Act in 1977, much staff time has been devoted to representing the Maine sardine industry at various New England Fishery Management Council meetings. In recent years, additional emphasis has been placed on the coastal state management of the region's herring resource and, accordingly, significant staff activity has been devoted to the Atlantic States Marine Fisheries Commission's coordination of the management of the herring resource. Since 1987, the Maine and New Brunswick sardine industries have cooperated through the U.S./Canada Sardine Industry Working Group, to better understand and manage the transboundary herring stocks from which both countries realize significant economic benefits. Current activities continue to support these goals.

**SARDINE INDUSTRY PRODUCTION:** During the 1998 season, ending January 1, 1999, the industry's production of sardines decreased to 463,000 cases from the 663,000 cases packed in 1997. Steak, kipper, and other canned herring production during 1998 decreased to 209,000 cases from 228,000 cases packed in 1997. This decrease in production was attributable to the scarcity of herring in the Gulf of Maine, although resource scientists estimate herring stocks to be abundant. Additional demand for the industry's products continues to be developed in export markets. According to a 1998 study by the University of Maine, the economic value of the Maine sardine industry exceeded \$60 million during the 1997 season, making the sardine industry one of the most significant value-added natural resource industries in the state.

**PURPOSE:**

The Maine Science and Technology Foundation is a state-chartered, non-profit organization that stimulates economic growth in Maine through the application of science and technology. In support of this mission, the Foundation works to ensure a healthy flow of knowledge, ideas and innovation in the areas of education, research, development, commercialization and productivity resulting in new companies, new products, new markets and new jobs.

**ORGANIZATION:**

The Foundation is governed by a board of directors representing industry, research, education, and government. The board consists of a minimum of 12 directors from the private sector, a maximum of 10 directors from the public and educational sectors, and one director from labor. In addition, the board includes two members from the joint standing committee having jurisdiction over economic development matters who are appointed by the President of the Senate and the Speaker of the House of Representatives.

# WELLS NATIONAL ESTUARINE RESEARCH RESERVE MANAGEMENT AUTHORITY

## J. KENT KIRKPATRICK, RESERVE DIRECTOR

*Central Office:* LAUDHOLM FARM, WELLS, ME, 04090

*Mail Address:* 342 LAUDHOLM FARM ROAD, WELLS, ME, 04090

*Established:* 1986

*Reference:* Policy Area: 05 ; Umbrella: 94 Unit: 335 ; Citation: S1989 M.R.S.A., Sect. 000000108

*Telephone:* (207) 646-1555

### PURPOSE:

The Wells National Estuarine Research Reserve was established in 1986 pursuant to Section 315 of the Federal Coastal Zone Management Act of 1972, as amended. The objective of the Act is protection and management of estuarine resources. Wells Reserve addresses this mission through environmental education, research, and resource management programs. The Wells National Estuarine Research Reserve Management Authority was established in 1990 by Private and Special Law 108. As an instrumentality of the State, the Authority supports and promotes the interests of Wells Reserve through managing and sustaining the coastal lands and other resources within the reserve; furthering coordination and cooperation among state agencies, the Town of Wells and the U.S. Fish and Wildlife Service, and the Laudholm Trust; developing and implementing programs for estuarine research and education; and providing public access.

### ORGANIZATION:

The Wells National Estuarine Research Reserve Management Authority was established by the State Legislature in 1990. The Authority is governed by a board of Directors composed of the Commissioner of Conservation, or the Commissioner's designee; the Regional Director of Region 5 of the United States Fish and Wildlife Service or the director's designee; a representative of the town of Wells, as designated by the town's board of selectmen; a representative of the Laudholm Trust, as designated by the Board of Trustees; and a public member with an established reputation in the field of marine or estuarine research, appointed by the Governor for a term of 3 years. In addition, the following members are ex officio nonvoting members: The Director of the State Planning Office or the director's designee and the Director of the Office of Coastal Resource Management, National Oceanic and Atmospheric Administration or the director's designee.

A Reserve Manager serves as chief executive to the Authority. He supervises staff with program responsibility in the areas of research and education. Committees to the Authority assist the staff in program administration.

Partial program funding is provided by the Estuarine Reserves Division/Office of Coastal Resource Management/National Ocean Service/National Oceanic and Atmospheric Administration. Laudholm Trust, a public charity with 2,700 members, provides match funds for federal grants and further program funding.

### PROGRAM:

**OPERATIONS AND MANAGEMENT.** Headquarters and a visitor center are located at historic Laudholm Farm. Visiting hours are 10:00 a.m. to 4:00 p.m. Monday through Saturday, and 12:00 noon to 4:00 P.M. on Sunday year-round. Parking is available 7 days a week all year from 8:00 a.m. to 5:00 p.m. There are seven miles of interpretive trails open year round. Annual visitation is approximately 35,000. Reserve staff and volunteers post and patrol nesting habitat for endangered piping plovers and least terns on Laudholm Beach. The frontal dune at the Reserve's public access to Laudholm Beach following failure of experimental material employed several years ago in an attempt to stabilize the dune. Town personnel rebuilt the frontal dune at the Reserve's ocean access to protect the Drakes Island seawall adjacent to the south.

**RESEARCH AND MONITORING.** Staff collected continuous data on water quality in the Webhannet River and measured dissolved oxygen, salinity and temperature profiles in the Little River; organized volunteer water quality monitoring projects. A sanitary survey by Reserve staff led to resumption of recreational clamming on 80 acres of Webhannet River tidal flats that had been closed from pollution for 9 years.

## INDEPENDENT AGENCIES - OTHER

EDUCATION. DEPTHS is a K-8th grade science curriculum focusing on the theme of estuarine ecology. Several schools participated in the DEPTHS program this year. The Reserve sponsored 2 individuals from the Maine Research Internship for Teachers and Students program. They conducted a survey of wading birds in the Little and Webhannet rivers, and led 50 students in one 2-week and two one-week Junior Researcher sessions. Staff and volunteers conducted on-site programs for over 1,200 third to fifth grade pupils. Staff-trained volunteer docents conducted tours for nearly 6,000 visitors. Assisted in planning educational field trips for 800 school children of varying ages.

**FINANCES, FISCAL YEAR 1999:** The Bureau of the Budget does not maintain comprehensive fiscal data relative to this unit

**ATLANTIC STATES MARINE FISHERIES COMMISSION**

**JOHN H DUNNIGAN, EXECUTIVE DIRECTOR**

*Central Office:* 1444 EYE ST NW 6TH FLOOR, WASHINGTON, DC, 20005

*Mail Address:* 21 STATE HOUSE STATION, AUGUSTA, ME, 04333

*Established:* 1942

*Telephone:* (202) 289-6400

*Reference: Policy Area:* 05 ; *Umbrella:* 98 *Unit:* 290 ; *Citation:* T0012 *M.R.S.A., Sect.* 000004603

**PURPOSE:**

The Commission's main focus is to provide for better utilization of the fisheries - marine, shell and anadromous - through an interstate compact of the 15 Atlantic coastal states.

Although the states determine all policy in their respective jurisdictions, the Commission provides a forum for discussion and resolution of common problems and assists the states in developing joint programs. In addition, the Commission participates in the Interstate Fisheries Management Program, whose goal is uniform management and protection of the nation's fisheries resources and viable commercial and recreational fishing industries.

**ORGANIZATION:**

The Atlantic States Marine Fisheries Commission (ASMFC) was established by a compact entered into by the various Atlantic coastal states beginning in 1941.

The Congressional Consent Act was signed by the President on May 5, 1942, and the Commission met and organized in New York on June 5, 1942.

The participating states are Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, and Florida. Each is represented by a member of the administrative agency in charge of marine fisheries, a Legislative member appointed by its Committee or Commission on Interstate Cooperation, and a person appointed by the Governor. Maine's three Commission members are the Commissioner of the Department of Marine Resources, a member from the Legislature, and a member from industry. The Commission is supported by appropriations from the member states based on the value of their respective commercial and recreational catches.

ASMFC operates through boards and committees comprised of groups of states.

The National Marine Fisheries Service (NMFS) of the Department of Commerce is designated as the primary research agency of the Commission, cooperating with the research agencies of each state and the U.S. Fish and Wildlife Service for that purpose.

**PROGRAM:**

To keep abreast of the major activities in Congress, the headquarters for the NMFS and fisheries organizations in Washington, D.C., close liaison is maintained with Congressional Committees and other important organizations. Through its executive office, ASMFC maintains active liaison with all Washington-based fisheries organizations of professional or industry status, including the American Fisheries Society, the International Association of Fish and Wildlife Agencies, the American Sportfishing Association, the National Fisheries Institute, the Shellfish Institute of North America, the National Fish Meal and Oil Association, the Fisheries Products Division of the National Food Processors Association, as well as other resource, environmental, conservation and user groups.

Contract funds from NMFS and USWFS, as well as Congressional appropriations, are used to reimburse travel expenses for state biologists, law enforcement, managers, and administrators who participate in the various committees that have been established to develop regional management programs for interstate Atlantic coast species. Lobster, shrimp, striped bass, bluefish, Atlantic sturgeon, Atlantic sea herring, winter flounder, American shad and river herring programs are of special concern to Maine. The northern shrimp fishery in the Gulf of Maine continues to be managed by the commission through its Amendment One Authority.

The Commission has continued its cooperative agreement with the NMFS to administer the Interjurisdictional Fisheries Management Program. This "Interstate Fisheries Management Program" includes state/federal projects involving Northern Shrimp, Shad, and River Herring, Sciaenids, Northern Lobster, Atlantic Menhaden, Striped Bass, Atlantic Sturgeon, Bluefish, Summer Flounder,

Coeoprative Statistics Program, and related activities such as interstate shellfish transportation and fish/shellfish disease control. The major focus of the Commission's interstate program has expanded to implement P.L. 103-206, the Atlantic Coastal Fisheries Cooperative Management Act. The act establishes affirmative obligations on the states to implement the Commission's Fishery Management Plans or be subject to a federal moratorium on all fishing for the species at issue within the offending state until that state achieves compliance with the plan.

### PURPOSE:

Since education in the United States is primarily a state and local responsibility, the Education Commission of the States (ECS)-a nonprofit organization-was formed by inter-state compact in 1966 to further working relationships among governors, state legislators and educators for the improvement of educaiton at all levels. Forty-nine states, Puerto Rico, American Samoa, and the Virgin Islands are members of ECS. In its work with the states, the commission serves as a forum, a resource and a catalyst. It provides information on state-related education activities and, when appropriate, suggests options and alternatives to meet specific state needs. The commission also serves as a liaison between the states and the federal government. ECS conducts policy research, surveys and special studies; maintains an information clearinghouse; organizes state, regional and national forums; provides technical assistance to states; and fosters nationwide leadership and cooperation in education.

### ORGANIZATION:

The Legislature of each ECS member jurisdiction adopts the Compact for Education, an agreement between the states and an enabling act, the instrument by which each member puts the agreement into effect. Seven representatives from each state constitute the operating body of the commission. These commissioners include the governor, two members of the state legislature selected by the respective houses and four persons selected by the governor who are active in education. All ECS commissioners meet annually. One commissioner from each member-state serves on the ECS Steering Committee, which is responsible for policy decisions between annual meetings.

## INDEPENDENT AGENCIES - INTERSTATE COMPACT

Based in Denver, Colorado, the commission has a staff of about 55 persons.

### PROGRAM:

ESC implements its program through five departments. Policy and Program Studies, Re:Learning, State Relations and Clearinghouse, Communications and Administration. The four primary vehicles ESC uses to influence policy change and public opinion to carry out their mission of promoting a quality education for all students are: 1) Constituent Contacts, running the gamut from parents and teachers to governors and federal representatives; 2) Commissioners, 371 in the nation network, including all the governors, more than 130 state legislators, school board members, college presidents, educators, and other education leaders; 3) Networks, include five formal networks of education and political leaders, featuring state policy-makers, professional associations, legislators, governors; 4) Technical Assistance to States, on various education issues.

*Reference: Policy Area:* 05 ; *Umbrella:* 98 *Unit:* 327 ; *Citation:* S1949 *M.R.S.A., Sect.* 000000075

### PURPOSE:

The Northeastern Interstate Forest Fire Protection Commission was established to promote effective prevention and control of forest fires in the Northeastern Region of the United States and adjacent areas in Canada. The primary functions of the Commission are to provide mutual aid; to coordinate forest fire protection plans; to consult and advise on prevention and control of forest fires; to provide centralized training in uniform forest fire protection methods; and to request research assistance from the U.S. Forest Service.

### ORGANIZATION:

The Northeastern Interstate Forest Fire Protection Commission was established under the Northeastern Interstate Forest Fire Protection Compact of which the State of Maine became a contracting state in 1949. Maine's representation on the Commission consists of three members, including, ex officio, the Director of the Bureau of Forestry or designee; a legislator appointed by the Governor and a citizen appointed by the Governor for a term of three years.

### PROGRAM:

The activities of the Northeastern Interstate Forest Fire Protection Commission during FY 99 included the annual Commission meeting in Portsmouth, New Hampshire, a technology meeting in January, and training for all member states. Plans for a 5000 acre prescribed burn in Fredrickton, New Brunswick were formulated and will be implemented in August of 1999. A full assessment of all compact member states and provinces was completed with a full report of findings and recommendations to be made at the August 1999 commissioner's meeting.

**PURPOSE:**

The New England Board of Higher Education is a congressionally authorized regional, non-profit agency that seeks to encourage cooperation and efficient use of educational resources among the region's six states and 260 public and private colleges and universities. Basic funding comes from the six states, private foundations and New England corporations. The board seeks to increase New England educational opportunities and services; promote regional coordination and cooperation among New England state governments and public and private institutions of higher education; analyze and publish regional information related to higher education; and sponsor studies and forums on regional public policy.

## INDEPENDENT AGENCIES - INTERSTATE COMPACT

### ORGANIZATION:

Of the 8 members who represent the State of Maine, two are ex officio, the Chancellor of the University of Maine and the Commissioner of Education. Four others are named by the Governor for 2-year terms, one is a member of the Senate appointed by the President of the Senate and another is a member of the House of Representatives appointed by the President of the Senate and another is a member of the House of Representatives appointed by the Speaker of the House. All members receive their actual expenses incurred in the performance of their official duties.

### PROGRAM:

The New England Board of Higher Education (NEBHE) sees the following as primary in achieving its purpose: to provide a facility and staff capable of continuous research and evaluation relevant to higher education in New England; to serve as a center for the collection and dissemination of information pertinent to the institutions and agencies concerned with higher education; to serve as an administrative and fiscal agent for higher educational contracts and agreements among the institutions and governments in New England; to provide consultative services on educational topics of major regional significance to the institutions, agencies and governments of New England; and to serve as a vehicle for the regional implementation of federally and privately financed programs related to higher education.

Although programmatic directions are flexible in response to changing educational needs, the Board anticipated that the following basic programs will continue to be included among NEBHE's services to the region: New England Commission on Academic Health Centers and the Economy of New England, Task Force on Minority Student Enrollment and Retention, Commission on Legal Studies and Practice in New England, International Education and the Economy of New England, research and compilation of enrollment, program, tuition and cost data at institutions of higher education in the region. Recent initiatives include the New England: Public Policy Collaborative, Excellence Through Diversity Program, Technology Partnership, Environmental Internship Program, Environmental Education Research Program, and Telecommunications and Distance Learning Program.

Each state is represented on the Board by members of academic, professional, governmental and citizen groups appointed by the Governor and Legislature of each state. Each state delegation annually elects a chairman who serves on the Board's Executive Committee. The Maine Delegation to the New England Board of Higher Education for FY '99 is as follows: Senator Mary R. Cathcart, Vice-Chair of the NEBHE Board, Chairperson of the Maine Delegation, Orono; Representative Christina Baker, Joint Committee on Education and Cultural Affairs, Bangor; John Fitzsimmons, President, Maine Technical College System; Edward A. Fox, Retired Dean, The Amos Tuck School of Business Administration, Dartmouth College, Harborside; Bennett Katz, NEBHE Treasurer, Trustee Maine Public Broadcasting Corp., Augusta; Terrence J. ### ST. CROIX INTERNATIONAL WATERWAY COMMISSION

#### LEE SOCHASKY, EXECUTIVE DIRECTOR

*Central Office:* ST. STEPHEN, NB, CANADA, ,

*Mail Address:* PO BOX 610, CALAIS, ME, 04619

*Established:* 1987

*Telephone:* (506) 466-7550

*Reference:* Policy Area: 05 ; Umbrella: 98 Unit: 497 ; Citation: T0038 M.R.S.A., Sect. 000000994

#### PURPOSE:

The Commission was established by the State of Maine and New Brunswick to ensure delivery of a cooperative resource, recreation and development plan for the St. Croix boundary waters and shores. This area includes two of the state's largest lakes and a 30-mile Outstanding River segment.

Maine and New Brunswick have agreed to jointly manage the resources of the St. Croix boundary corridor in order to preserve a shared heritage and increase public benefits.

#### ORGANIZATION:

The Commission is an independent, international body with eight members, four of which represent the State of Maine and four the Province of New Brunswick. State and provincial Liaisons and federal Observers also serve on the Commission.

The Commission maintains a staff of one, expanding this as warranted through project staff and working groups of government, user and resident interests. The majority of its programs are funded by solicited grants.

#### PROGRAM:

A Maine/New Brunswick management plan for the St. Croix International Waterway, accepted in 1994, identifies natural, cultural, recreational and economic goals. The Commission's actions toward these in FY 1998 include:

**RESOURCE AND RECREATION MANAGEMENT:** International planning with agencies and major landowners for protection and management of a 45-mile backcountry water corridor; Management of the state's eight remote campsites on the river; Delivery of the Atlantic salmon restoration program for the St. Croix, the state's second leading salmon river.

**ECONOMIC DEVELOPMENT:** Technical input to utility and bridge projects crossing the St. Croix; Active involvement in a steering committee developing a regional heritage center at Calis.

**WATER MANAGEMENT.** Comprehensive water testing on three major lakes; Coordination of the state's lake volunteer monitoring program for the St. Croix watershed; Water quality testing and improvement activities toward the re-opening of 1800 acres of tidal clam flats.

**HERITAGE DEVELOPMENT.** Organizational support for the development of the 400th anniversary celebration of the French settlement of St. Croix Island (1604 - 2004); Distribution of a St. Croix heritage brochure.

**INFORMATION & EDUCATION.** Response to more than 900 technical and general inquiries about the St. Croix system; Support for the classroom Fish Friends program and for development of a data-based beach and woodlot curriculum for local schools; Public presentations and articles on a variety of St. Croix topics.

Further information on the Commission's activities is given in its annual report.

## NEW ENGLAND INTERSTATE WATER POLLUTION CONTROL COMMISSION

### MARTHA G. KIRKPATRICK, COMMISSIONER

*Central Office:* AMHI RAY BLDG, AUGUSTA, ME,

*Mail Address:* 17 STATEHOUSE STATION, AUGUSTA, ME, 04333

*Established:* 1947

*Telephone:* (207) 287-1212

*Reference:* Policy Area: 05 ; Umbrella: 98 Unit: 428 ; Citation: T0038 M.R.S.A., Sect. 000000532

#### PURPOSE:

The New England Interstate Water Pollution Control Commission has three broad functions: (1) the coordination of interstate water pollution control efforts of the New England States and that part of New York affecting New England waters; (2) the education and training of personnel pursuing careers in water pollution control, and (3) public information.

#### ORGANIZATION:

The 80th U.S. Congress, in 1947, passed legislation allowing for the formation of interstate water pollution control agencies. The New England States responded at once. In that same year, Connecticut, Rhode Island, and Massachusetts formed the New England Interstate Water Pollution Control Commission. Shortly after, Vermont, Maine, New Hampshire and New York (because of interstate waterways connecting it with the New England States) joined by signing the Commission's new Compact Agreement.

#### PROGRAM:

Maine benefits more than any other member State from one of the key functions of the NEIWPCC, the training of wastewater treatment plant operators. The Commission's New England Regional Wastewater Institute, founded in 1969, is housed on the campus of Southern Maine Technical College in South Portland. Thus, the school benefits Maine's economy by its presence, insures a skilled workforce for the numerous municipal and industrial wastewater treatment plants now operating in this state, and lists more Maine residents among its graduates than residents from any other state.

The Commission's primary task is to coordinate the activities of its member states in their fight against water pollution. It encourages personal communication and information exchange through quarterly meetings, and its professional staff provides a variety of services to member states.

**PURPOSE:**

The Maine Children's Trust, Inc. is established to provide a mechanism for voluntary contributions by individuals and groups for annual and long-term funding of prevention programs related to child abuse and neglect. Sources of funds include the State of Maine's Income Tax Check-off, Federal funding, and donated funds from the corporate, individual and foundations sectors. Funds are allocated to Maine's Healthy/Start program and other interested parties who respond to an annual request for proposal.

**ORGANIZATION:**

Established on July 1, 1994, the Board is comprised of 17 members, appointed as follows: 1 Maine State Senator, 1 Maine State Representative, 4 members of the Maine Association of Child Abuse and Neglect Councils, 2 representatives from the Department of Human Services, 3 members appointed by the Governor, 3 appointed by the Maine Chamber of Commerce and Industry, and 3 by majority vote of the Board.

MCTI is a non-profit corporation held to be an essential governmental function.

**PROGRAM:**

Responsibilities and concerns include:

- a) Through a joint venture with the Maine Association of Child Abuse and Neglect Councils, we take a leadership and collaborative position in managing our State's Healthy Families Initiative also known as healthy start.
- b) Create public awareness in both the public and private sectors regarding prevention programs and prevention policies.
- c) Encourage active financial and in-kind participation from the public and private sectors carrying out our purposes.
- d) Develop, initiate, propose or recommend ideas or innovations in rules, laws, policies, and programs concerning child abuse and neglect to the Governor, Legislature, agencies, the business community, and other groups.
- e) Publicize criteria and review applications for grants and award grants to recipients that best address reduction of child abuse and neglect through prevention.

*Reference:* Policy Area: 06 ; Umbrella: 99 Unit: 238 ; Citation: T0006 M.R.S.A., Sect. 000000301

**PURPOSE:**

The Civil Air Patrol (CAP) provides an organization to aid United States citizens through voluntary contribution of their efforts, services and resources for the maintenance of aerospace education and to assist in meeting local, state and national emergencies, particularly air search and rescue, and disaster relief.

To accomplish the purposes for which it was chartered CAP: (1) Conducts a nationwide internal and external program of aerospace education, including coordination of workshops conducted at local schools and communities. (2) Conducts a comprehensive cadet program, including an international Air Cadet Exchange, special activities, and supervision of cadet encampments. (3) Maintains an emergency services capability to meet the requests of the Air Force and state and local officials for search & rescue, disaster relief, and other support missions. (4) Conducts a comprehensive Senior Training Program to provide qualified personnel at all levels of CAP. (5) Assists local, state, and other Federal agencies in emergency operations. (6) Conducts a flight management program for assigned aircrew members and manages an aircraft maintenance program for corporate owned aircraft. (7) Maintains a nationwide communications capability to support emergency services operations and conduct official CAP business.

**ORGANIZATION:**

The Civil Air Patrol (CAP) is the official auxiliary of the U.S. Air Force, and is a nonprofit corporation which functions in accordance with its constitution, bylaws, regulations, and other directives issued by its National Headquarters. It was formed on December 1, 1941, and incorporated by the United States Congress on July 1, 1946. On May 26, 1948, the Civil Air Patrol became an auxiliary of the United States Air Force. The Secretary of the Air Force has been given authority to furnish assistance to the CAP and to accept and utilize the services in the fulfillment of noncombat missions of the Air Force.

The organization consists of the National Headquarters at Maxwell Air Force Base in Alabama; eight regional headquarters - Northeast, Middle East, Great Lakes, Southeast, North Central, Southwest, Rocky Mountain, and Pacific; and fifty-two wings - one for each state, the District of Columbia, and Puerto Rico. A wing is composed of a wing headquarters unit and all subordinate units within geographical boundaries of a state. Wing Commanders are appointed by the National Headquarters and have command authority over all CAP units and members thereof, within their respective wings. The squadron is the community level organization of the CAP, and includes three types: Senior Squadrons, composed of senior members only; Cadet Squadrons, composed primarily of cadets with a minimum of three seniors to meet supervisory, administrative and training requirements; and Composite Squadrons, composed of both senior and cadet members conducting both senior and cadet programs.

**PROGRAM:**

One of the primary missions of CAP is to save lives and relieve human suffering while protecting the lives and equipment of those involved in providing these services. The Emergency Services Mission includes search and rescue; civil defense and disaster relief operations (in support of local, state, federal and other emergency services organizations). Mutual support relationships exist with the National Association for Search and Rescue (NASAR); U.S. Coast Guard Auxiliary (USCGA); the Federal Emergency Management Agency (FEMA); Federal Aviation Administration (FAA); U.S. Army Forces Command (FORSCOM); various Army, Navy, Coast Guard, and other DOD agencies; the Maine Emergency Management Agency (MEMA); The Maine National Guard; American National Red Cross; Salvation Army; Volunteers of America (VOA); and other humanitarian organizations.

## INDEPENDENT AGENCIES - NOT PART OF STATE GOVERNMENT

The Cadet Program provides opportunities for learning, maturing and accepting leadership to young Americans from 13 to 21 years of age. With advice and assistance from the United States Air Force, the Air Force Reserve, and CAP senior members at the national, regional, state, and local levels, cadets are exposed to a structured program of aerospace education leadership, physical fitness, and moral and ethical values in group and individual activities. As a cadet progresses through this structured program, he or she accomplishes a series of 15 achievements, each involving study and performance in the five program areas. Upon completion of each achievement, the cadet earns increased cadet rank, decorations, awards, eligibility for national special activities, and an opportunity for both flight and academic scholarships.

Civil Air Patrol has an internal and external aerospace education program. The internal program is designed to provide aerospace education to the CAP membership, both senior and cadet. The external program provides the general public with the aerospace education necessary to ensure the development of aerospace and the maintenance of aerospace supremacy. The Aerospace Education Program provides all American citizens with an understanding of, and an appreciation for, the importance of aviation and space exploration to our society and to our national security.

### **PURPOSE:**

The Maine Dairy and Nutrition Council, an affiliate of the National Dairy Council, is a nonprofit nutrition and research organization whose mission is to provide resources and training to assure that nutrition education programs in the State of Maine are based on the concept of a balanced diet including dairy foods in accordance with current scientific recommendations.

### **ORGANIZATION:**

The Maine Dairy and Nutrition Council was established in 1949 as the Maine Milk Advisory Committee, renamed the Maine Dairy and Nutrition Council in 1975 and became an unincorporated instrumentality of the state in 1996. The law provides for Council appointments along marketing lines and limits number of consecutive terms of service.

The Council is funded by the National Dairy Promotion and Research Order assessment paid by Maine dairy farmers and by the dealer fee paid by companies selling milk in the Maine market.

### **PROGRAM:**

The Maine Dairy and Nutrition Council uses sequential nutrition education programs for children developed by the National Dairy Council. The early childhood nutrition education curriculum called CHEF COMBO is used by Headstart, daycare centers and day care providers. Pyramid Cafe and Pyramid Explorations, the elementary nutrition curriculum, was developed for second and fourth grades. Other educational programs include: Milk from Cow to You, Eat the Five Food Group Way! TASTE...YOUR CHOICE, Crash Course on Calcium.

## INDEPENDENT AGENCIES - NOT PART OF STATE GOVERNMENT

The Maine Dairy and Nutrition Council provides consumer nutrition education programs and public service messages to the media through a series of timely and current nutrition topics. Additionally, the Maine Dairy and Nutrition Council provides nutrition education materials, exhibits at conferences and offers a free video library service. Materials and programs used by the Maine Dairy and Nutrition Council have been developed by National Dairy Council in Rosemont, IL and have been reviewed and/or endorsed by such organizations as the American Dental Association, American Academy of Pediatrics, National Education Association and the American Federation of Teachers. As an affiliated unit of National Dairy Council, the Maine Dairy and Nutrition Council has at its disposal current nutrition resources and research information. It uses this information to contribute to the optimal health and wellbeing of the citizens of Maine.

### PURPOSE:

The Maine Dairy Promotion Board was established to promote the consumption of dairy products by conducting public relations, education, advertising and research programs. Programs to promote the Maine dairy industry are conducted.

### ORGANIZATION:

The Board was established in 1953, as the Maine Milk Tax Committee, later renamed the Maine Dairy Promotion Board as part of the Department of Agriculture and in 1996 became an unincorporated public instrumentality of the state. The law provides for appointments along marketing lines and limits the number of consecutive terms of service.

The Board is funded by the National Dairy Promotion and Research Order assessment paid by Maine dairy farmers.

### PROGRAM:

The Maine Dairy Promotion Board is an affiliated member of the United Dairy Industry Association, a federation of state/regional dairy product promotion groups and affiliated Dairy Council units throughout the United States.

Television is considered the most effective communication vehicle for promoting the use of milk by consumers. The major part of the promotion budget is devoted to television advertising supplemented by special promotions designed to call attention to the dairy industry and to encourage the consumption of milk and dairy products. Promotion events include shopping mall displays, conference exhibits, trade shows and school cafeteria programs. Print advertising and corporate sponsorships supplement television and public relations programs.

#### PURPOSE:

The Maine Development Foundation (MDF) is a nonprofit economic development corporation created by the Maine legislature in 1977 to capitalize on the interests, resources, and efforts of the public and private sectors.

MDF champions sustainable, long-term growth for Maine. The Foundation is a catalyst for new ideas and provides common ground for solving problems and advancing issues.

#### ORGANIZATION:

Enabling legislation (10 M.R.S.A. Sec. 915-928) for the Maine Development Foundation was passed by the 108th Legislature and took effect in October, 1977.

The foundation has the power of a private corporation, which allows the board of directors the freedom to establish and change the activities of the foundation as it sees fit, and act decisively to take advantage of economic development opportunities. All but two of the foundation's board of directors are elected by contributors to the foundation. The board includes both public and private members. This is designed to encourage active participation of private business and local development interests, and establish the public/private partnership at the board level. This partnership has improved the foundation's access to the private sector's ability to generate new business activity and has helped organize public and private resources to stimulate additional business activity in Maine.

The board of directors consists of fifteen people: twelve elected by the corporators and two appointed by the Governor. Of these fourteen, seven must come from the public sector corporators and seven from among the private sector corporators. The president is appointed by the other directors and is the fifteenth member.

The foundation is financed equally by membership dues, fee for service, contracts, and grants. Corporations, counties, cities, towns, and other organizations can become corporators by contributing to the foundation.

#### PROGRAM:

LEADERSHIP MAINE is a one year, eleven day training program for CEO's and senior level managers from business, government, education, and the non-profit sector. The program is experiential and helps participants gain new awareness about issues facing Maine's economic future, new skill needed for effective leadership, and networks with others throughout the state.

THE MAINE ECONOMIC GROWTH COUNCIL is a permanent, 19 member council

appointed by the Governor, the Speaker of the House, and the President of the Senate to establish and maintain a long range economic development plan for the state. The Council's work includes preparing a vision for Maine's economic future, goals to achieve that vision, performance measures and benchmarks to determine the extent to which Maine is achieving its goals, and alternate strategies. Created in 1993, the Council is administered by the Foundation.

The NAINE SCHOOL LEADERSHIP NETWORK builds the leadership capacity of teachers, principals and school-based educators to increase student learning. The goal is to ensure that all Maine children achieve the guiding principles of the Learning Results.

THE POLICY LEADERS ACADEMY helps prepare Maine legislators to lead in an increasingly dynamic environment through learning experiences which result in: greater knowledge about the economy, using the work of the Maine Economic Growth Council as a template, and broader leadership skills to ensure their effectiveness.

increased participation in racing and wagering.

### ORGANIZATION:

The make up of the Board includes members throughout the industry, one representing each commercial track, one representing agricultural fairs, one representing the horsemen's association, two representing the Maine Standardbred Breeders and Owners Association, two representing the public and one member of the Maine State Harness Racing Commission. The Appointments are to be approved by the Maine State Harness Racing Commission. The Monies accruing from the handle are to be deposited in an account that will not lapse. A report of the Board's activities is to be prepared and incorporated in the Annual Report of the Commission.

1997 Public Law Chapter 528 changed the make up of the Board and removed the oversight from the Department of Agriculture, Food and Rural Resources to the Joint Standing Committee having jurisdiction of harness racing matters, the Legal and Veteran Affairs Committee. The Board was also permitted to hire an Executive Director to over see the day to day operations and carry out the policies and programs of the Board. The Board now consists of one representative from each commercial track, one representing agricultural fairs, one representing the off track betting facilities, two representing the Maine Standardbred Breeders and Owners Association, two representing the general public and one representing the horsemen's association. The members are appointed by the Commissioner of the Department of Agriculture, Food and Rural Resources.

### PROGRAM:

The Board has implemented various promotional activities to enhance the sport and encourage participation from the general public. One of the more favorite activities is the introduction of "Winnie" the horse that greets and visits with young and old alike. The Board and Miller's restaurant have sponsored a race at the Meadowlands for the past two years. The Board has funded giveaway promotions, wagering pamphlets, advertising, and added purse money at the various live racing venues. The Board has also participated in providing trips to various racing venues south of Maine to those who were proven to be better handicappers, and the those who just attended racing activities.

*Reference: Policy Area:* 02 ; *Umbrella:* 99 *Unit:* 176 ; *Citation:* S1822 *M.R.S.A., Sect.* 000000118

### PURPOSE:

Incorporated by the State of Maine in 1822, the Maine Historical Society is a charitable, educational, non-profit corporation. It devotes its resources to the discovery, identification, collection, preservation and interpretation of materials which document the history of Maine and its people. The Society is organized into three major areas: Library Services, Museum Services, and Administrative and Development Services. The MHS collections, educational programs, and publications support the study and teaching of state and community history. A Board of Trustees and twelve standing committees advise and support the Society staff of nine full-time and eight part-time, in its work.

### ORGANIZATION:

Just two years after Maine achieved statehood, the Legislature passed a bill in 1822 incorporating the Maine Historical Society, charging it to collect and preserve the history of the new State. Governor Albion K. Parris presided over the first meeting in Maine's first State House in Portland. During its first 100 years, the Society maintained a close relationship with Bowdoin College, housing its collections at the College until 1881 and conducting its Annual Meetings at commencement time until the early 20th century.

Throughout the 19th century, special State appropriations supported a variety of publication projects, including the "Documentary History of Maine." Since 1940, the Society has received an annual appropriation in support of the Society's historical and educational endeavors. Through the efforts of civic leader, philanthropist, and scholar James Phinney Baxter, the Society moved its collections and many of its programs to Portland in 1881. Baxter provided space in the new Portland Public Library built in 1889. In 1901 the Society opened the Wadsworth-Longfellow House, left to the Society through the bequest of Anne Longfellow Pierce. The House, childhood home of famed poet Henry Wadsworth Longfellow, was Maine's first historic site museum. In 1907, the Society opened its Library at 485 Congress Street, adjacent to the Wadsworth-Longfellow House.

In 1992, the Society purchased 489 Congress Street and began plans to expand exhibition and program space, and provide additional storage for collections. In 1994, it initiated a capital campaign for the expansion of programs and services, creating the Center for Maine History. As of July 1998

the Campaign had met its \$3.1 million goal. In 1999, the Society built its 115-seat Earle G. Shettleworth, Jr. Lecture Hall. Its Editorial Office for the "Quarterly" is at the University of Maine at Orono. Staff members participate in collaborative efforts in the State and New England region, including the Maine Archives and Museums Association, the Maine Library Association, Maine Historical Records Advisory Board, New England Archivists, the American and New England Studies Program at the USM, the Academic and Cultural Collaborative of Maine, and New England Museum Association.

### PROGRAM:

**LIBRARY SERVICES.** The Society maintains a research library, 100,000 books and 2 million archival items spanning the 15th to 20th centuries. All aspects of Maine's social, economic, political, and cultural history are documented. Of particular note are the personal papers of Maine's civic and business leaders, early proprietary and town records, shipping and maritime records, account books and business records, and genealogical research collections, cartographic and land surveys, architectural and engineering drawings, photographs, prints and broadsides. **LIBRARY COLLECTIONS USE.** The Library was open six days per week and served over 10,000 researchers.

**MUSEUM SERVICES.** The Society maintains the Wadsworth-Longfellow House, built in 1785-86, and later, childhood home of poet, Henry Wadsworth Longfellow. In addition to 1,000 artifacts and works of art original to the three generations who lived in the House from 1786 to 1901, the Museum collections also include 8,200 artifacts and works of art documenting Maine's material culture from colonial to modern times. 1999 interpretive exhibits at the Maine History Gallery include: "First Light: The Dawn of Photography in Maine." The MHS exhibition, *The Way Life Should Be: Tourism, Romance and Reality in Early Modern Maine* traveled to several museums in Maine. Approximately 12,000 visitors and 3,000 school children toured the Wadsworth-Longfellow House historic site and Maine History Gallery. The House was open for guided tours June through October and a holiday open house. The Maine History Gallery is open year-round.

**OTHER EDUCATIONAL SERVICES.** In 1999 educational services included: on site and outreach programs for students, "Cruising Casco Bay: Lectures on the History of the Harbor," and a poetry reading for children in celebration of Henry Wadsworth Longfellow's birthday. The 177th Annual Meeting was held in the Society's new lecture hall. Printed material included "Maine People, American Identities" a document package for schools and guide for teachers. Similar resource packages have been developed for "Rum, Riot, and Reform," maps illustrating the history of Portland, and the Longfellow Garden. Information about MHS is available at our web site: <http://www.mainehistory.org>.

#### PURPOSE:

The Maine Hospice Council exists to ensure the continued development of Hospice and Palliative Care in Maine. The Council provides education and technical assistance regarding end-of-life care, as well as advocacy for terminally ill and bereaved persons throughout the state regarding quality-of-life issues.

#### ORGANIZATION:

The Maine Hospice Council was incorporated in 1984. Funding for the Council office was made possible by state government in 1989. The Council is overseen by a volunteer Board of Directors comprised of 13 members.

The full council is represented by members of all 27 Hospices and the Board of Directors as well as an Advisory Committee. The Council is routinely staffed by one full-time director and one part-time administrative assistant. Two additional part-time project directors and a full time administrative assistant have been made possible due to a three year Robert Wood Johnson grant.

#### PROGRAM:

The Maine Hospice Council remains focused on education and program development. Examples of education are: Technical workshops; inservices for Hospices and other health care organizations; collaborative, statewide educational programs; ITV classes at academic institutions; legislative hearings; annual events, such as the Blaine House Tea and Annual Pain Symposium; National Cancer Pain Initiative conference; television interviews; involvement with the Bioethics Network, as well as other academic presentations and grant writing. The Council has taken a leadership role in social policy issues and continues to offer internships for both graduate and undergraduate students. Universal access to Hospice remains a priority.

**DEVELOPMENT:** In September 1994, the Maine Cancer Pain Initiative became a committee of the Council. The Executive Director participates on the National Hospice Organization (NHO) Legislative Committee and NHO Task Force on Access to Hospice Care by Minorities which continues to give Maine a national voice regarding care for the terminally ill. The Executive Director also was elected to the Board of the American Alliance for Cancer Pain Initiatives.

**SUPPORT:** Technical support continues for programs seeking Hospice Medicare Certification and licensure. In 1997, the Council partnered with over 30 other organizations to form the Maine Consortium for Palliative Care and Hospice (MCPCCH). Resource materials and public education are ongoing services.

#### LICENSES:

"Certificate of Participation" (for Volunteer Trainees and/or education session participants)

"LD 1821- An Act to Develop Standards for the Licensure of Hospice Programs", enacted April 15, 1994, Chapter 692 of Public Law.

Reference: Policy Area: 03 ; Umbrella: 99 Unit: 346 ; Citation: T0030A.M.R.S.A., Sect. 000004722

### PURPOSE:

The Maine State Housing Authority was established to help Maine residents secure housing that is decent, safe, and affordable, with particular emphasis on helping first-time home buyers; low income homeowners; renters needing assistance; people with special needs; and people who are homeless. The agency's mission is to assist Maine people to obtain and maintain decent, safe, affordable housing and services suitable to their unique housing needs. In carrying out this mission, the agency provides leadership, maximizes resources, and promotes partnerships to develop and implement sound housing policy.

### ORGANIZATION:

The Maine State Housing Authority "is a public body, corporate and politic and an instrumentality of the State." Established in October 1969, it functions as an administratively independent authority within the current organizational structure of the State government, but receives no general fund appropriations from the Legislature for its operations. The Authority has 7 commissioners, 5 of whom are appointed by the Governor and confirmed by the Legislature. The 6th Commissioner, the director of the State Authority, is the chairman. The Director is appointed by the Governor and confirmed by the Legislature. The 7th commissioner is the State Treasurer.

The Housing Authority finances homes and apartments in Maine primarily through the sale of its housing bonds. These bonds are tax-exempt. The bonds are debts of MSHA, not the state of Maine, and are not repaid by taxpayers. The agency sells its bonds and uses the bond proceeds to make reduced interest rate

## INDEPENDENT AGENCIES - NOT PART OF STATE GOVERNMENT

housing loans. The mortgage repayments that MSHA receives from the loans are used to repay the bond holders. The difference between the two rates also provides MSHA with its operating revenue. The agency receives no state funds to pay for its staff. MSHA receives some housing funds from the state and federal government that are used, usually in conjunction with the bonds, to reduce interest rates or to finance special programs.

### PROGRAM:

During FY98 the Maine State Housing Authority continued its position as one of the leading housing lenders in Maine. It financed an estimated 20% of all home purchases in Maine during the year by providing \$137 million in mortgages to help 2,018 Maine families purchase their first home. During the year it also financed home repairs for nearly 1,200 low income home owners, financed the development of nearly 700 rental units for low income renters, and 176 units of housing for Maine people with special housing needs, such as mental health consumers. MSHA provided funds to help Maine's homeless shelters operate and assist more than 14,000 clients. The agency in 1998 secured more than \$15 million in federal funds for weatherization and fuel assistance to help low income Maine citizens.

The Housing Authority has participated in HUD's Section 8 program since 1974. In calendar year 1998 the agency received \$54 million from HUD to provide rental assistance to tenants living in about 5,000 Section 8 units developed with Housing Authority financing, plus another 3,000 units of existing privately owned apartments. MSHA has financed more than 2,000 affordable rental units under various other rental housing programs. The Housing Authority oversees the management in about 13,000 units of rental housing it has financed.

At the end of calendar year 1998 the Housing Authority had combined assets of \$1,548,987,000 and fund balances of \$177,105,000. The agency's financial strength has been recognized by the nation's two leading bond rating agencies, Moody's and Standard & Poor's, both of whom upgraded their ratings of MSHA's bonds during the year.

#### PURPOSE:

The Maine International Trade Center (the "Trade Center") was established to enhance the competitive advantage of state businesses desiring to compete in the international market. The Trade Center provides a source of leadership, coordination and a shared vision for international trade development in the State. The purpose of the Trade Center, through its private and public board, is to refine, revise and implement the State's international strategic plan by providing and enhancing services in coordination with the economic development activities of the private sector, community and regional activities of the private sector, community and regional agencies and State government from its offices in Portland and Bangor.

#### ORGANIZATION:

The Trade Center operates at two full-service locations in Portland and Bangor. The staff is comprised of three Senior Trade Advisors, a Director of Operations, and three International Trade Specialists, as well as an Administrative Staff person working under the direction of the Trade Center President, who is employed by the Maine Department of Economic and Community Development. Organized as a 501(1)(3) non-profit corporation, the Center links the private sector with government efforts to grow Maine's economy through international commerce.

#### PROGRAM:

The Trade Center encourages and assists the growth of the State's international economic activities in the following ways:

The Trade Center provides a forum for the exchange of expertise, ideas and innovations between the public and private sectors.

The Trade Center offers quality education and technical services to businesses in the State that compete or seek to compete in worldwide markets.

The Trade Center acts as a catalyst in the development and coordination of international programs.

The Trade Center underscores the importance of international trade as a priority of public policy and enhances public appreciation of the relevance of the international economy.

The Trade Center provides information necessary to transact international businesses and makes effective decisions concerning international trade and policy.

The Trade Center supports the development and availability of an overall infrastructure conducive to international business.

The Trade Center promotes dissemination of education, training and technical assistance programs.

The Trade Center identifies market opportunities and potential contracts in foreign countries that match the technologies and expertise available in the State and coordinates and submits appropriate proposal responses.

The Trade Center maintains an international commerce data base to assist in making program decisions.

*Reference:* Policy Area: 03 ; Umbrella: 99 Unit: 479 ; Citation: P1983 M.R.S.A., Sect. 000000477B

#### **PURPOSE:**

Founded in 1967, Pine Tree Legal Assistance, Inc. is a Maine not-for-profit corporation incorporated to provide free legal assistance to low income persons with civil legal problems.

#### **ORGANIZATION:**

PTLA is governed by a 36 member Board of Directors composed of attorneys appointed by the Maine State Bar Association and of eligible clients appointed by low income organizations. The program is administered by an Executive Director and Assistant Executive Director located in a Central Office in Portland and additionally maintains local service offices in Augusta, (622-4731), Bangor, (942-8241), Portland, (774-8211), Presque Isle (764-4349), Farmworker and Native American units in Bangor (942-0673); Lewiston Outreach (784-1558) and Machias Outreach (255-8656). PTLA is co-sponsor of the Volunteer Lawyers Project (VLP) with the Maine Bar Foundation. The VLP has a toll free number, (800) 442-4293.

#### **PROGRAM:**

Pine Tree Legal Assistance, Inc. receives its funding, expected to be about \$2.5 million in calendar 1999, from a number of governmental and private sources. The Program's primary funding source is the Legal Services Corporation, which distributes federal funds to legal services programs nationwide. Additional funding comes from the State of Maine, United Way, the Maine Bar Foundation's IOLTA Program, and other private sources. Pine Tree provides free legal assistance to Maine citizens and groups at or below 125% of the Federal poverty level and estimates a client eligible population of 230,000 persons or 19% of the state's population.

PTLA provides direct legal services to eligible clients throughout the state. In 1998 its area offices and special units (including Volunteer Lawyers Project) closed 15,826 legal matters for eligible clients. Through the basic field offices, Farmworker Unit, Native American Unit, and other programs, 7,408 eligible clients received legal assessment or simple advice, printed informational materials, referral to another source of help or brief service by PTLA staff. In addition, substantial legal representation was provided in 1225 cases, including representation before the Maine District Court, the Maine Superior Court, the Maine Supreme Judicial Court and before local and state administrative agencies. The Volunteer Lawyers Project handled 8,860 calls; of those calls, 1,136 cases were referred to volunteer lawyers for representation. A total of 7,193 cases were closed by the VLP in 1998.

Because staffing shortages prevent PTLA from representing all eligible clients with legal needs, PTLA accepts cases based on a case acceptance priority plan. Cases involving termination or denial of government benefits and cases involving landlord/tenant and other housing problems generally receive the highest priority. Of all cases closed by PTLA's local service offices in 1998,

## INDEPENDENT AGENCIES - NOT PART OF STATE GOVERNMENT

36% were in the housing area; 12% were in the government benefits area; 34% were in the family law area; 7% were in the consumer law area; and the remaining 11% in the areas of employment, health, education, individual rights, juvenile, and other miscellaneous areas. The case priorities for the Volunteer Lawyers Project complement those of PTLA. Of all cases closed by the VLP in 1998, 53% were in the family law area; 21% were in the consumer law area; 10% were in the housing area and the remaining 16% were in the areas of education, government benefits, individual rights, employment and other legal problems.

### PUBLICATIONS:

Pine Tree maintains client education materials, which are available at no charge to income eligible callers in several substantive areas of the law including consumer, family, housing, education, employment, government benefits and health care. The general public may access this information by downloading it from Pine Tree's web page at <http://www.ptla.org>. These brochures may be obtained by calling any of Pine Tree's local service offices or by calling the Volunteer Lawyers Project at (800) 442-4293. The most popular brochures cover landlord-tenant and family law issues.

### PURPOSE:

The Maine Potato Board was established as a public instrumentality of the state to provide for the advancement of the Maine potato industry in the public interest and for the public good, under the auspices of a state agency. Under the Board, all elements of the Maine potato industry are represented and work together under the leadership of a unified, public board to solve the problems facing the industry.

### ORGANIZATION:

The Board is an eleven-member group, serving two-year terms, representing grower, processor and shipper elements of the industry. The Board selects a president, vice-president, treasurer and secretary from its members, and appoints an Executive Director to administer programs and policies established by the Board.

### PROGRAM:

Potato tax revenue for the twelve-month period ending June 30, 1999 was \$763,052. Maine growers harvested 64,500 acres, producing 18 million hundredweight of potatoes. The planted acreage was composed of 50% processing varieties, 25% table stock varieties and 25% seed varieties.. Approximately 16,335 acres were entered for seed certification.

The tax revenues of the Maine Potato Board in 1998-99 were used as follows: 22% for Administration (Board), 38% Advertising/Marketing, 19% Research, 21% Other. The Board was represented with exhibits at trade shows.

## INDEPENDENT AGENCIES - NOT PART OF STATE GOVERNMENT

The Maine Potato Board financed research through the Maine Agricultural Experiment Station and the Cooperative Extension. Other projects including educational, also benefited from the Maine Potato Board grants.

Reference: Policy Area: 01 ; Umbrella: 99 Unit: 304 ; Citation: T0007 M.R.S.A., Sect. 000001033

### PURPOSE:

The Maine Potato Quality Control Board's purpose is to improve the quality of Maine potatoes; recommend grades for potatoes and identification to be used on consumer packs of potatoes packed in Maine bags; to hear and resolve grievances regarding inspections; and to recommend a fee schedule for inspection of potatoes packed in Maine bags.

### ORGANIZATION:

The Board consists of eleven members: one a representative of the Department, one appointed by the Governor to represent consumers, and an additional seven members are elected by the Maine Potato Board, one each from Districts No. 1, 2, 3, 4, 5, 6, 7, and two from the dealers assembly. Members serve for 2 year terms.

### PROGRAM:

The Board and the Commissioner of Agriculture shall jointly prepare grade standards for potatoes packed in bags readily identifiable as originating in Maine ("Maine Bags"). Those grades are superior to the standard U.S. No. 1. The Board also adopts rules adopting the State of Maine Quality Trademark as its official logo to be used on "Maine Bags". Additionally, in conjunction with the Maine Potato Board, it is promoting that package to the trade.

One objective of Quality Control Board activities is to increase the quality of Maine potatoes. The Board recommended that the Commissioner establish inspection fees for potatoes in the Federal-State Inspection program at a reduced rate for participants in the Maine Bag Program.

The mission of Maine Public Broadcasting is to engage the minds and enrich the lives of people in our community.

**ORGANIZATION:**

The Maine Public Broadcasting Corporation is made up of: Maine PBS Television and Maine Public Radio. Producing stations and administrative offices are located in Lewiston, Bangor and Portland.

**PROGRAM:**

Maine Public Broadcasting completed its seventh fiscal year as Maine's unified public broadcasting entity in a strong financial position and with over 42,000 members of Maine Public Television and more than 20,000 members of Maine Public Radio. Maine PBS was chosen by almost 240,000 households each week. Public radio use increased to 124,000 listeners per week with both Portland and Bangor stations ranking in the top five stations in their market size.

The year's activities and programs designed to better serve the people of Maine included: public affairs coverage of local issues on both Maine PBS and Maine Public Radio. All Maine PBS offerings included an emphasis on education and a new documentary series, HOME, THE STORY OF MAINE premiered as the first TV series ever to be devoted to Maine history. Again, Maine PBS had full participation in the national education initiative, READY TO LEARN. Maine Public Radio continued its own locally produced classical music programming, adding more live performances while "Maine Things Considered" received numerous state and national awards.

**PURPOSE:**

The mission of the Greater Portland Public Development Commission is to contribute to the creation and maintenance of employment opportunities in the cities of Portland and South Portland by providing assistance to private and public enterprises when conventional resources are not available. This may be accomplished through direct loans, loan guarantees, acquisition and leasing of facilities and grants to non-profit agencies to further the mission of the Commission.

**ORGANIZATION:**

The Commission was created by Special Act of the Legislature and is managed by five Commissioners appointed by the Governor upon consultation with the City Councils of Portland and South Portland.

**PROGRAM:**

In the past year, the Commission has made an investment in Morpheus Technologies and has provided a guaranty of a bank loan to that entity; has provided a grant to a job fair in Portland sponsored by ALANA (non-profit organization furthering the economic opportunities for African, Latino and Native Americans in Maine); provided a short term bridge loan to Brims Ness, Inc.; provided a loan to Executive Pass; provided other contingent commitments to area businesses. The Commission continues to monitor its investments in the Center for Environmental Enterprise, the Narrow Gauge Railroad, North Atlantic Venture Fund II, CAD/CAM Associates and Lionel Plante Associates.

The energy Testing Laboratory of Maine, (ETLM) was created in 1976 to safety test heating equipment for the Maine Oil and Solid Fuel Licensing Board. That program, which evolved from the heating and air conditioning program at SMTC, led to expanded activities, including the testing of radiant stoves, chimney liners and waste oil heaters, as well as central heating appliances. Over the years ETLM worked for hundreds of companies in the U.S. as well as in foreign countries.

**ORGANIZATION:**

ETLM is a stand alone lab with the authority to conduct tests, list products, supply labels, provide consultation services, conduct educational programs, perform factory inspections, and provide services consistent with the overall goals and objectives of ETLM.

The goals and objectives of ETLM are to provide those services which, among others, will meet the safety needs of the industry and the public regarding the quality of construction and safe operation of products tested by ETLM, the maintenance of high testing standards, and the provision of educational and

other consultant services, which merge with the educational goals and objectives of SMTC.

In recent years, the ETLM has ceased to serve an educational role for the college. For that reason, the 118th Maine Legislature passed Public Law, chapter 607, which removed ETLM's association from SMTC, effective June 18, 1998.

#### PURPOSE:

The Board of Trustees of the Maine Technical College System was established in 1985 by Public Law, Chapter 695 to be the policy making authority of the system, to develop and adopt policies for the operation of the system; establish the administrative council; and approve programs and policies recommended by the system president and the administrative council; to prepare and adopt a biennial line-category, operating budget; and to develop and adopt personnel policies and procedures.

#### ORGANIZATION:

The Board of Trustees of the Maine Technical College System, consists of 16 members. Twelve are from the fields of business, industry, labor, education, and the general public, and one is a student from one of the technical colleges.

The Commissioner of Education, the Commissioner of Economic and Community Development, and the Commissioner of Labor serve ex officio. P.L. 1985 Chapter 695, "An Act to Establish the Maine Vocational-Technical Institute System" was signed into law on April 16, 1986, setting in motion the reorganization of the statewide network of vocational-technical institutes (up until then operated as subsidiaries of the Maine Department of Education, Bureau of Vocational Education under the governance of the State Board of Education) into the Maine Vocational-Technical Institute System, an autonomous postsecondary educational institution governed by an independent Board of Trustees.

In 1989 the 114th Legislature enacted Public Law, Chapter 443, "An Act to Enhance the Status of Vocational-Technical Education in Maine," which officially changed the name of the Maine Vocational-Technical Institute System to the Maine Technical College System, and clearly defined the system's role in postsecondary education. The Maine Technical College System (MTCS) constitutes a "public instrumentality of the state" but not a "line" State agency included in or attached to a cabinet department; its status vis-a-vis State government is similar to that of the Maine Maritime Academy and the University of Maine System.

Maine law defines the basic mission of the Maine Technical College System in the following terms: "To provide associate degree, diploma, and certificate programs directed at the educational, occupational, and technical needs of the state's citizens and the work force needs of the state's employers." The law

## INDEPENDENT AGENCIES - NOT PART OF STATE GOVERNMENT

further defines the primary goals of postsecondary vocational education and MTCS as follows: "to create an educated, skilled, and adaptable labor force which is responsive to the changing needs of the economy of the state, and promote local, regional, and statewide economic development." The first institute was established after World War II to provide vocational and technical training to returning veterans. The seventh and most recent college, York County Technical College, was established by the 116th Legislature in 1994.

### PROGRAM:

The MTCS offers nearly 170 certificate, diploma, and associate degree programs in the following program areas - allied health and nursing, business, computers, graphic design & printing, hospitality, marine & natural resources, public & occupational safety, automotive and mechanical technologies, architectural engineering & construction, electrical & electronics, heating, plumbing, air conditioning, refrigeration, metals fabrication, bioscience, video, early childhood education and others.

The MTCS Office, set up by legislation to provide statewide coordination and leadership to the seven colleges, operates at 323 State Street, Augusta. The seven-college system consists of Central Maine Technical College in Auburn, Eastern Maine Technical College in Bangor, Kennebec Valley Technical College in Fairfield, Northern Maine Technical College in Presque Isle, Southern Maine Technical College in South Portland, Washington County Technical College in Calais and Eastport, and York County Technical College in Wells.

The Maine Technical College System operates two state-wide programs geared toward meeting the workforce needs of Maine employers. The Maine Quality Centers Program, established by the Legislature in 1994, is an economic development incentive that provides new or expanding Maine firms with customized education and training, free of charge to the employers and trainees. Maine Career Advantage (formerly the Maine Youth Apprenticeship Program) was established by the Legislature in 1992 as a school-to-work transition program for high school students. Operated statewide through the seven technical colleges, the program integrates school-based learning and real work experience and includes a year at a technical college.
