Joint Standing Committee on State and Local Government
100 State House Station
Augusta, Maine 04333

Dear Senator Lachowicz and Representative Graham:

Pursuant to 5 M.R.S.A. § 7036, attached is a series of reports prepared regarding the operation of the State's Civil Service System. Each of the reports required under the statute are listed below, with reference to coinciding attachments. Note that the statute requires data covering the period July 1, 2012 - June 30, 2013.

Attachment 1. Class-Unclass Turnover Report FY2013 - The turnover rate in the state employee labor force for the classified and the unclassified services for the previous fiscal year.

Turnover rate is calculated by dividing the total number of terminations by the total number of jobs. Given the limitations of the current HR data system this report tracks only actual terminations from state employment and not job changes within the executive branch such as promotions, demotions, and transfers.

Attachment 2. Job Class Turnover Report FY 2013 - The turnover rate for each job classification for the previous fiscal year.

Turnover rate is calculated by dividing the total number of terminations in a particular classification by the total number of positions in that same classification. Given the limitations of the current HR data system this report tracks only actual terminations from state employment and not job changes within the executive branch such as promotions, demotions, and transfers.

Attachment 3. Reclassification Report FY2013 - The total number and disposition of job reclassification requests, which shall also indicate the period of time for a final decision for each request.

Attachment 4. Time to Fill Vacancies Report FY2013 - The number of vacancies occurring in the previous fiscal year which required recruitment of personnel and the length of time required to fill each vacancy. The time period shall be measured from the time of notice of

MAY 30 2017

departure, transfer or promotion of the previous incumbent to the successor's assumption of the position .

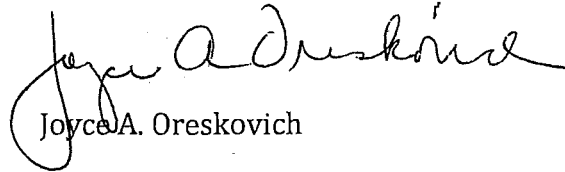

Attachment 5. Termination Reasons Report FY2013 - The reason for the occurrence of each vacancy that occurred in the previous fiscal year to include job promotion, problems with management and any other causes for the vacancies .

The HR system in place at that time only captured "reason for leaving" on actual terminations from state employment and not on job changes within the executive branch such as promotions, demotions or transfers.

- I am pleased to report to the Committee that the Bureau of Human Resources has developed, designed and implemented a new online exit survey effective July 1, 2013. The survey is used by all departments in the executive branch and it provides a more comprehensive examination of the reasons for turnover, including turnover that results from promotions, demotions and transfers within state government. An analysis of the statistics gathered to date is attached to illustrate its capacity.

Attachment 6. HR Programs Unit - The training programs instituted by the bureau and the number of persons completing these programs in the previous fiscal year .

Sincerely,

Joyce A. Oreskovich
