REPORT OF THE MAINE STATE RETIREMENT SYSTEM
FOR THE BIENNIUM ENDED JUNE 30, 1962

In accordance with the provisions of the Revised Statutes, the report of the Maine State Retirement System for the biennium ended June 30, 1962, is hereby submitted.

The Maine State Retirement System Law was first enacted by a special session of the Legislature in 1942 and became effective as of July 1 that year. The System is administered under the law by a Board of Trustees--seven in number: the State Bank Commissioner, the State Controller, the State Treasurer, and the Chairman of the Personnel Board ex officio; one Member elected by the Maine Teachers Association; one Member elected by the State Employees Association; and one Member appointed by the Governor.

Since this is, for all practical purposes, a part-time Board, the actual day-by-day administration is conducted by the Executive Secretary and his staff. A Consulting Actuary is employed, under the provisions of the law, whose duty it is to make all computations required with respect to allocation of benefits provided for under the law and to determine what appropriation requests shall be made of the Legislature to keep the System operating in a solvent manner. A Medical Board consisting of three non-member positions is also provided for under the law. The precise duty of this Board is to make determinations with respect to disability retirement cases.

In addition to administering the basic Retirement Law, our department is also charged with administering the Group Life Insurance Plan, the Survivor Benefit Plan, and under the provisions of Chapter 65 of the Revised Statutes we are also responsible for administering the Social Security Plan so far as its applications to political subdivisions of the State are concerned.

At its inception the Retirement System covered only State employees and employees of such political subdivisions of the State as might elect to join the System. As a result of amendments to the law made over the years, the coverage is now extended to all public school teachers, and the growth in the membership over-all has reached a point where we are now handling some over 30,000 open accounts on our books.

The initial appropriation made by the Legislature to institute the plan was \$500,000.00. The appropriation requests for the current biennium will approximate \$5,000,000.00 for each year of the biennium.

As of the close of the last fiscal year the total assets of the System amounted to approximately \$67,000,000.00 and as of this present date closely approximate \$70,000,000.00.

The funds of the System are invested in such securities as are legal for savings banks in the State of Maine. These include highly rated Bonds, FHA guaranteed mortgages, and equities purchased under the "Prudent Man" rule.

Our current retirement pay rolls are running close to \$5,000,000.00 a year and the average monthly benefit being paid to all retirants as of the end of June 1962 was approximately \$94.00

The number of retirants on the pay roll as of that date was somewhat in excess of 4,000.

The Group Life Insurance Plan is available to all State employees and public school teachers and as of the end of the last fiscal year the total number of persons covered under the plan was approximately 16,850.

Total benefits paid to the beneficiaries of insured persons under the plan as of the last fiscal year amounted to some over \$565,000.00 and the total benefits paid to all beneficiaries since the inception of the plan in 1955 amounted at that time to approximately \$3,200,000.00.

The Survivor Benefit Plan paid, during the fiscal year ended June 30, 1962, an amount of approximately \$218,000.00.

Our only function with respect to the Social Security Program is to enter into Agreements with political subdivisions of the State of Maine and collect the amount of taxes involved. We are presently under agreement for this purpose with some 475 reporting units consisting of counties, cities, towns and other quasi-municipal agencies. We have nothing whatever to do with the benefit side of the program. This is handled entirely by the Social Security Administration.

The cost of administering these various plans, so far as local entities are concerned, is prorated and charged back to and collected from the units involved.

Tabulations and schedules included in this Report reflect the financial status of the System and give other information which we trust will be of interest to all participants in the various programs administered by this department, as well as to the Legislature and the general public.

The 19th Annual Valuation Report of the Consulting Actuary of the System is also included.

Gentlemen:

I submit herein the nineteenth valuation report of the actual and prospective Assets and Liabilities of the Maine State Retirement System as of June 30, 1962. Also a valuation of the Survivor Benefits provision.

The valuation covered 20,855 active and 3,626 retired employees and teachers.

Valuations for the Participating Local Districts have been done separately and are not included in this report.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Alfred W. Perkins".

Summary of Data for Calculations

The actuarial calculations presented herein were based upon the following general statistics:

*Active Employees

<u>Classification</u>	<u>Number</u>	<u>Annual Payroll</u>
State Employees	9,592	\$38,512,200
Teachers MTRA	10,022	42,932,794

Total Teachers	<u>11,263</u>	<u>48,143,559</u>
Grand Total	20,855	\$86,655,759

*Any member who has left his contributions with the State, for purposes of enumeration, has been classified as active.

Retired Employees

<u>Classification</u>	<u>Number</u>	<u>Annual Allowance</u>
State Employees	1,591	\$1,720,028
Teachers MTRA	175	181,675
Teachers 1913	1,860	2,075,258
Total Teachers	<u>2,035</u>	<u>2,256,933</u>
Total Employees	3,626	\$3,976,961

Normal Contribution (Membership)

For each year of the biennium the following contributions will be required for current service:

<u>Classification</u>	<u>Salaries</u>	<u>Rate</u>	<u>Cost</u>
General Fund	\$22,273,013	3.79%	\$844,147*
Other Revenue Funds	<u>16,239,187</u>	<u>3.79%</u>	<u>615,470</u>
Total State Employees	\$38,512,200	3.79%	\$1,459,617
MTRA	\$42,932,794	3.79%	\$1,627,153
1913 Teachers	<u>5,210,765</u>	<u>3.79%</u>	<u>197,488</u>
Total Teachers	\$48,143,559	3.79%	\$1,824,641
Grand Total	\$86,655,759	3.79%	\$3,284,258

*In addition, during the fiscal year 1963 the State needs to pay \$12,672 for Military leave.

Accrued Liability (Prior Service)

In general the Accrued Liability contribution rate is 3.74% of Annual Salaries for fiscal 1963-64 and 3.85% for fiscal 1964-65.

In addition, it is important to start amortizing the increased pension load that will be experienced during the next 20 years due to retirements under the noncontributory teachers system.

Last year pensions in this group increased at the rate of about \$267,000 per year. Our first step should be to offset any additional increase by direct additional appropriations. This has been done through a yearly contribution of \$267,000.

The table below shows the Accrued Liability contribution for each year of the biennium.

<u>Classification</u>	<u>Accrued Liability</u>	
	<u>1963-64</u>	<u>1964-65</u>

Excess Interest

During the last biennium the Trust Funds earned more than 3%.
The earned interest rate for 1960-61 was 4.005% and for 1961-62 was 4.158%.

The amount of interest in excess of 3% is shown in the following tables:

<u>Fiscal Year</u>	<u>Earned Interest Rate</u>	<u>Interest Earned</u>	<u>Interest Required</u>	<u>Excess Interest</u>
1960	4.005%	\$1,848,583.64	\$1,392,814.37	\$455,769.27
1961	4.158%	<u>2,186,307.47</u>	<u>1,587,787.19</u>	<u>598,520.28</u>
		\$4,034,891.11	\$2,980,601.56	\$1,054,289.55

The split of excess interest by general categories follows:

<u>Departments</u>	<u>Excess Interest</u>		
	<u>1960-61</u>	<u>1961-62</u>	<u>Total</u>
State Employees	\$225,352.92	\$298,973.46	\$524,326.38

The above valuation does not take into consideration the rate of remarriage. Such rate will definitely affect the liabilities stated above. Until such time as we have compiled the experience of remarriage, valuations will be based on the assumption that there will be no remarriages.

This presumption will mean that the liabilities are overstated and must be taken into consideration in determining whether or not the plan is actually in a solvent condition.
