MAINE DEPARTMENT OF LABOR

Substance Abuse Testing Report, 2006

*An Annual Report
March 2007*

By: Theodore Bradstreet

MAINE
DEPARTMENT OF
LABOR
Labor Standards

2006 Substance Abuse Testing Highlights

Substance Abuse Testing Report 2006 is produced as a requirement of the Maine Substance Abuse Testing Law of 1989. All companies with approved Substance Abuse Testing Policies (exclusive of any federally mandated testing) are required to provide information for this report.

There was an increase of 4.8% in the number of employers who have approved policies to conduct tests, from 310 in 2005 to 325 in 2006.

- ✓ Two employers are approved to do probable cause testing only (see Section III, page 2).
- ✓ 323 are approved to applicant testing.
 - Of those, 37 are additionally approved to do both probable cause and random or arbitrary testing (see Section III, page 2).
 - 25 are additionally approved to do employee probable cause testing only.
 - 3 are additionally approved to do random or arbitrary testing only.

The reported number of job applicants tested increased 2.9% from 16,876 in 2005 to 17,364 in 2006.

- ✓ The number of applicant positive tests increased from 706 (4.2%) in 2005 to 824 (4.7%) in 2006.

18 employees were given tests for probable cause.

- ✓ 2 (11.1%) positive results were obtained

730 employees were given random or arbitrary tests.

- ✓ 27 (3.7%) positive results were obtained

Industry breakout of employers with approved substance abuse testing policies.

This is not exactly comparable to breakouts for previous years, since it is based on the North American Industry Classification System (NAICS), whereas the Standard Industrial Classification (SIC) system has been used in the past. The higher ranking of the Services industry with regard to previous years is at least partly due to reclassification of employers under the NAICS system.

- | | |
|--------------------------------------------------------|---------------|
| ✓ Manufacturing (NAICS Sectors 31-33) | 100 employers |
| ✓ Services (NAICS Sectors 51-81, 92) | 98 employers |
| ✓ Trade (Wholesale & Retail, NAICS Sectors 42-45) | 60 employers |
| ✓ Construction (NAICS Sector 23) | 42 employers |
| ✓ Transportation & Utilities (NAICS Sectors 22, 48-49) | 21 employers |
| ✓ Other | 4 employers |

The most commonly abused substances identified from all tests were cannabinoids (80.3%), cocaine (9.4%), amphetamines (3.2%), opiates (2.6%), and benzodiazepines (1.5%).

SECTION I

Background

The Maine Department of Labor (MDOL) is submitting this report to the Joint Standing Committee on Labor in accordance with the Maine Substance Abuse Testing Law, Title 26 M.R.S.A. §690. This report pertains only to employer testing activities under Maine law. **It is not a comprehensive study of workplace substance abuse testing because it does not include individuals who are tested under federal testing programs.**

The Maine Substance Abuse Testing Law is intended to protect the privacy rights of employees, yet allow an employer to administer testing; to ensure proper testing procedures; to ensure that an employee with a substance abuse problem receives an opportunity for rehabilitation and treatment; and to eliminate drug abuse in the workplace. Regulation of testing for use of controlled substances has been in effect under Maine law since September 30, 1989.

The administration of this law is a collaborative effort of the following agencies:

❖ **Maine Department of Labor, Bureau of Labor Standards (BLS)**

- Reviews and approves substance abuse testing policies.
- Conducts the annual survey of substance abuse testing.
- Analyzes testing data and publishes the annual report.

Model Policies

Model policies developed by the Maine Department of Labor help employers develop substance abuse policies for their workplaces and make it easier for the MDOL to review company policies. (See Appendix 5 for model applicant policy.) The model applicant policy, model applicant with point of collection policy, and model employee testing policy are on the MDOL website:

<http://www.maine.gov/labor/bls/publications/substanceabuse/modelpolicy.htm>

❖ **Department of Health and Human Services, Health and Environmental Testing Laboratory**

Licensure of Testing Laboratories

The Department of Health and Human Services (DHHS) Health and Environmental Testing Laboratory is responsible for the licensure of laboratories that Maine employers can use for testing of controlled substances. There are 15 laboratories licensed by the State of Maine to do the substance abuse tests for Maine employers with approved testing policies. Of the 15 substance abuse testing laboratory licenses that were due for renewal in 2006, all were renewed, one lab having changed ownership. (See Appendix 3).

❖ **Department of Health and Human Services, Office of Substance Abuse**

- Reviews and approves employee assistance programs for employers who do probable cause or random and arbitrary testing.

Approval of Employee Assistance Programs (EAP)

Any employer with more than 20 full-time employees must have a functioning EAP prior to testing their employees as stated in Title 26 M.R.S.A. §683, 1. The EAP must be certified by DHHS and certification must be renewed every two years. Thirty-eight required EAPs are currently certified. Some EAPs are certified for parent companies and cover multiple locations that may be listed separately. (See Appendix 2).

SECTION II

Substance Abuse Testing Policy Review and Approval

In 2006, the Maine Department of Labor (MDOL) received 51 individual substance abuse testing policy submissions for review. MDOL staff completed 47 reviews. There were 4 policies with reviews pending as of December 31, 2006 (See Table 1).

Any employer desiring to do substance abuse testing, other than federally regulated testing, must submit a substance abuse testing policy to the Maine Department of Labor. An employer may not commence testing until the MDOL has notified the employer that the policy has been approved and the employer has given proper notice to its employees. Title 26 M.R.S.A. §689 addresses the penalties that can be assessed if an employer conducts substance abuse testing without an approved testing policy.

Table 1

Substance Abuse Testing Applications Reviewed Maine, 2006

Reviews Completed	47
Policies/Amendments Approved	30
Policies/Amendments Denied	17
Reviews Pending	4

SECTION III

Types of Testing

Drug testing policies may be approved for one or all of the following types of testing:

- ◆ job applicant testing
- ◆ employee testing
 - probable cause testing – where reasonable grounds exist to believe that an employee may be under the influence of a substance of abuse.
 - random/arbitrary testing – a method of selecting people to be tested where all potential testees have an equal chance of selection by chance or where testing is based on criteria unrelated to substance abuse such as date of hire anniversary.

SECTION IV

Survey Results

Each employer with a policy approved by the Maine Department of Labor must participate in an annual survey. Information gathered in the survey includes the number of tests by type (applicant, probable cause or random/arbitrary), the substances tested for, and the number of positive tests for each substance.

Job Applicant Testing

The reported number (17,364) of job applicant tests conducted in 2006 increased by 2.9% from 2005. In 2006, 4.7% of the job applicant tests conducted had positive results, compared to 4.2% in 2005. Cannabinoids (80.6%), cocaine (9.1%), and amphetamines (3.2%) were the most frequently identified substances. Other identified substances included opiates (2.5%), benzodiazepines (1.6%) and methadone (1.1%). Alcohol, barbiturates and phencyclidine were each identified in less than 1% of the tests. (See Table 2). See Appendix 6 for controlled substances and drug names.

Table 2

**Results of Job Applicant Tests
Under Approved Policies
Maine, 2006**

	<u>Tests</u>	<u>As Percent of All Tests</u>	<u>As Percent of Positive Tests</u>
Total Job Applicant Tests	17,364	100.0	
Positive Results	824	4.7	100.0
Cannabinoids	664	3.8	80.6
Cocaine	75	0.4	9.1

Methadone	9	0.1	1.1
Alcohol	7	.-	0.8
Barbiturates	5	.-	0.6
Phencyclidine	4	.-	0.5

.- Indicates a value of less than 0.05 percent.

The following graph shows the number of job applicants tested for controlled substances for the years 1997 to 2006.

Figure 1

The graph below indicates the number of positive tests for job applicants from 1997 to 2006.

Figure 2

The following graph shows the percentage of positive tests for job applicants each year from 1997 to 2006.

Figure 3

Employee Testing

A total of 748 employee tests were conducted in 2006 with 29 positive results. Eighteen of the tests were for probable cause. Of these, there were two confirmed positives (11.1%), one for alcohol and one for cannabinoids. The following graph illustrates the number of probable cause tests done and the number of positives for the years 1997 through 2006.

Figure 4

Employee Probable Cause Testing

--◆-- Tests Given —■— Positive Tests

Random or arbitrary testing accounted for 730 of the employee tests. Of these, 27 (3.7%) were confirmed positive; 20 (74.1%) for cannabinoids, five (18.5%) for cocaine, and one each (3.7%) for amphetamines and opiates. The following graph shows the trend for random and arbitrary tests for the years 1997 through 2006.

Figure 5

Employee Random or Arbitrary Testing

--◆-- Tests Given —■— Positive Tests

*Range of positive test results is from 2 to 35.

SECTION V

Analysis of All Results (Applicants & Employees)

A total of 18,112 tests were conducted in 2006. The manufacturing industry had the most substance abuse testing policies and conducted 4,208 tests, with 5.0% positive. The wholesale and retail trade industry conducted 5,983 tests, with 3.6% positive. The services industry conducted 5,454 tests, with 5.0% positive. Transportation and public utilities conducted 517 tests with 4.1% positive tests. The construction industry conducted 1,825 tests, with 6.5% positive. (See Table 3).

Table 3

**Results of All Tests Under
Approved Policies, by Industry
Maine, 2006**

<u>Industry</u>	<u>Number of Policies</u>	<u>Number of Tests</u>	<u>Number of Positives</u>	<u>Percent Positive</u>

Other Services	76	3,822	238	6.2
Other	4	125	17	13.6

A drug-testing panel consists of the list of substances for which the employer will test as specified in the employer's policy. Although there are variations in the drug testing panels used by different employers, nearly all employers test for cannabinoids, cocaine and amphetamines. Among those tested, cannabinoids remain the substance with the highest percentage of positive tests, followed by cocaine. The substance least tested for is alcohol. Only 70 of the 250 companies who reported testing in 2006 included alcohol in their drug-testing panel. Of all the tests conducted during 2006, 4.7% were

positive. The highest percentage of positives for an individual substance was 3.8%, for cannabinoids, which accounted for 80.3% of all positives. (See Table 4).

Table 4

Alcohol	70	4,435	8	0.2	0.9

**Percent positives of all tests conducted.*

***67 companies with approved policies did no testing in 2006 and 8 failed to report in time to be included in this report.*

.- Indicates a value of less than 0.05 percent.

The following table shows the trend of drug testing from 1997 through 2006. The number of employers with approved policies has increased from 147 in 1997 to 325 in 2006. The total number of tests given has decreased 12.6% since the peak of 20,725 in 1999 but has been increasing since 2002. The percentage of positive tests has fluctuated, with the lowest (2.4%) in 1995 and the highest (4.9%) in 2002. Positive results for job applicant testing were lowest (2.4%) in 1995 and highest (5.0%) in 2002. The percentage of positive random tests was lowest (0.9%) in 1995 and highest (4.5%) in 1999.

Figure 6

Employers With Approved Substance Abuse Testing Policies 1997-2006

Table 6 shows the cumulative total of tests and positives for job applicants and employees from 1997 through 2006. It also shows the percentage positive for each substance as it relates to the total number of tests and to the total number of positives. The data shows that of the controlled substances tested for, cannabinoids had the highest percentage of positives by a full order magnitude.

SECTION VI

Summary

During 2006, the Maine Department of Labor reviewed 47 substance abuse testing applications. Of the 47 reviewed, 30 new policies or amendments were approved, 17 were denied, and 4 were pending at year's end. Ten policies became inactive because the employer went out of business, ceased operation in Maine, or reported to the Department that it no longer intended to do substance abuse testing and asked to be placed on inactive status.

As of December 31, 2006, a total of 325 approved policies were in force.

The Department of Labor surveys all employers with approved policies for this report. Eight employers failed to report. The 2006 survey reported that 17,364 job applicants had been tested, with 824 (4.7%) confirmed positive tests. There were 18 employee probable cause tests, with 2 (11.1%) reported as positive and 730 employee random or arbitrary tests, with 27 (3.7%) positives reported.

Quest Diagnostics	10101 Renner Blvd. Lenexa, KS 66219	07/27/07
Quest Diagnostics	400 Egypt Rd. Norristown, PA 19403	06/24/07

* Licensed for initial screening tests only. ** Renewal overdue

Appendix 4

Policy Submission Instructions

These instructions are to assist you in submitting the paperwork for your Substance Abuse Testing Policy approval.

- ✓ You must submit **two (2) copies** of your policy and accompanying forms/certificates.
- ✓ You must have a **signed cover letter** stating that the **policy complies with all applicable statutes and regulations.**
- ✓ Copies of any forms used should be attached, as well as a copy of the Department of **Health and Human Services certification of an Employee Assistance Program** if the policy is for employee testing.
- ✓ If this is an employee policy, you must provide a description of the method used to consult with the employees as to the development of the policy. This should include how input was received from employees, such as employee meetings or written comments. A written description of how employee input may have been used in the development of the policy should also be included. If the description is not a part of the policy, it should be included in the cover letter.
- ✓ If this is an employee policy, you must also describe the method used to notify the employees of the submission of the plan to the Maine Department of Labor (MDOL), to include the manner in which and time limit that the employees have to comment on the policy to MDOL, and you must also provide the employees with the MDOL address.
- ✓ It is important that the policy be written in such a manner that it is likely to be understood by a large majority of the employees.

If you follow these instructions and the appropriate Model Policy, the review and approval of your policy will be expedited.

Appendix 5

The following is a Model Substance Abuse Testing Policy for applicant testing. There are also Model Substance Abuse Testing Policies for Applicant with Point of Collection Testing and another for employee testing. All of the model substance abuse testing policies can be viewed on the web at <http://www.maine.gov/labor/bls/publications/substanceabuse/modelpolicy.htm>.

Location(s) Covered: [List Location(s) Covered]

This policy complies with the Maine Substance Abuse Testing Law (26 M.R.S.A. Sec. 681-690) and the Maine Department of Labor Rules relating to Substance Abuse Testing (adopted October 27, 1989).

Applicants will be notified at the time of initial application that they may be tested for Substance Abuse and will be advised where they may review the policy and statute.

Prior to testing, an applicant as defined in this policy shall be provided with a copy of the policy and statute.

B. SCOPE OF TESTING

Appendix 5, Continued

Model Substance Abuse Testing Policy, Job Applicants

Only individuals who are "applicants" as defined by this program and state law will be tested as "applicants". For the purpose of this program, an "applicant" will not be any person separated from employment by this employer while receiving a mandated benefit from or on account of this employer, including but not limited to Workers' Compensation, Unemployment Compensation and Family Medical Leave and for a period of 30 days beyond the termination of the benefit, nor will an "applicant" be any person separated from employment by this employer while receiving a non-mandated benefit from or on account of this employer for a period of 30 days beyond the separation.

1. Substances to be tested for

a. test procedure to be used and cut off limit for positive screening test.

(1) Screening will be the Emit (Enzyme Multiplied Immunoassay Test) methodology

(2) Substances	Screening Concentration <u>Cut Off (In Urine)</u>
Alcohol	0.02 G/100 ML
Amphetamine/Methamphetamine	1000 NG/ML
Barbiturates	300 NG/ML
Benzodiazepines	300 NG/ML
Cannabinoids	50 NG/ML
Cocaine and/or Metabolites	300 NG/ML
Methadone	300 NG/ML
Methaqualone	300 NG/ML
Opiates	2000 NG/ML
Phencyclidine	25 NG/ML

Appendix 5, Continued

Model Substance Abuse Testing Policy, Job Applicants

b. test procedure to be used and cut off limit for positive confirmation test.

(1) Confirmation test will be by GC/MS (Gas Chromatography/Mass Spectrometry) methodology

(2) Substances Confirmation Concentration

Cut Off (In Urine)

6-acetyl morphine (only if morphine>2000) 10 NG/ML

Alcohol 0.02 G/100ML

Amphetamine/Methamphetamine 500 NG/ML

Barbiturates 300 NG/ML

Benzodiazepines 200 NG/ML

Cannabinoids 15 NG/ML

Cocaine and/or Metabolites 150 NG/ML

Methadone 300 NG/ML

Methaqualone 300 NG/ML

Opiates (Morphine, codeine) 2000 NG/ML

Phencyclidine 25 NG/ML

2. Testing of Applicants

Classifications or position titles to be tested:

[List classifications or positions to be tested (may be "All")]

Substance abuse tests will be administered only to those applicants who are in the above classification or position titles who (1) have been offered employment with the Company or who

Appendix 5, Continued

Model Substance Abuse Testing Policy, Job Applicants
have been offered a position by the Company on a roster of eligibility from which applicants
shall be selected for employment.

C. ACTIONS TO BE TAKEN

Action to be taken for refusal to submit to a test: Applicant will not be hired

Action to be taken between a test and receipt of test results: Applicant will not be hired

*Action to be taken based on a confirmed positive result from a test of an applicant:
Applicant will not be hired*

D. TESTING PROCEDURES:

1. Identify sample collection facility or facilities

[List name and address of sample collection facility or facilities]

2. Method of sample collection

a. Procedure to segregate a portion of the sample at applicant's request:

At the request of the applicant, at the time the test sample is taken, a portion of the sample collected, sealed, and labeled according to State regulations and these procedures, will be segregated for that person's own testing. This sample will be stored by the laboratory and chain of custody shall be maintained as provided in this policy. Within 5 days after notice of the test result is given to the applicant, the applicant shall notify the employer and the facility of the testing laboratory selected for that person's own testing. The laboratory so selected must be licensed by the Maine Department of Health and Human Services. The employer's laboratory shall promptly send the segregated portion of the specimen to the selected laboratory, subject to the same chain of custody and security requirements as observed for the employer's specimen.

The applicant will be required to pay for the segregation of a second sample as well as the expense of said additional testing only if and when the applicant notifies the employer that the applicant actually wishes the test to be made and the applicant notifies the employer of the choice of laboratory to which the second sample is to be sent.

b. Procedure to collect:

Appendix 5, Continued

Model Substance Abuse Testing Policy, Job Applicants

The employer will not require an applicant to remove any clothing for the purpose of collecting a urine sample, except that the employer will require that an applicant leave any personal belongings other than clothing and any unnecessary coat, jacket or similar outer garments outside the collection area.

No applicant may be required to provide a urine sample while being observed, directly or indirectly, by another individual.

(If employer's policy calls for specimen assessment) *Each urine specimen will be assessed by the person in charge of collection, in the presence of the applicant by measuring:*

A. The temperature of the specimen within three (3) minutes of voiding - must be between 97-99 degrees F. (unless the applicant's temperature is higher than 99 degrees or lower than 97 degrees F.)

B. The PH of the specimen - must be between 5-8.

and by evaluating the odor and color of the specimen for other signs of contamination. If the specimen does not meet any of these assessment standards, the specimen will be rejected and the applicant will be given an opportunity to provide a second specimen. The applicant will remain under observation at the medical facility and may be given liquids until the second specimen is provided. If the second specimen fails to meet any assessment standard, the employer may deny employment to the applicant and neither specimen will be tested for substances of abuse.

3. Storage of Sample

A. At collection point:

Samples will be collected in new, clean containers manufactured for the purpose of urine collection. Immediately after assessment, the container will be sealed with tamper-proof tape and labeled in the presence of the applicant. The seal will cover the cap and extend over the sides of the container. The label will contain the date and time of collection, and the identifying number of the applicant. All information on the label will be written clearly and with indelible ink. Samples will be transported or shipped promptly to the testing laboratory in a secure fashion, so as to prevent tampering. If shipment or transport is not feasible, the specimen shall be refrigerated within one hour, at less than 6 C for no more than three days, or frozen at -20 C or less, for no more than two weeks before shipment.

B. At laboratory:

Appendix 5, Continued

Model Substance Abuse Testing Policy, Job Applicants

All positive specimens will be retained by the laboratory in the original containers in secure storage at freezing temperatures (-20 C or less) for at least 6 months. Should legal challenge occur, the specimen will be retained throughout the period of resolution of the challenge.

4. Chain of Custody

A. Labeling and Packaging:

Immediately upon collection of each sample, a chain of custody record will be established for that sample, indicating the identity of each person having control over the sample, and the times and dates of all transfers or other actions pertaining to the sample.

B. Transport:

Samples will be picked up from the facility within 24 hours of collecting the sample and will be transported in a secure fashion, so as to avoid tampering. Each person who takes custody of the sample in the course of transport will record on the chain of custody log the date, time, transporter's name and employer's name, origin and destination of the sample.

C. At Lab:

When a sample arrives at the lab, the person receiving the sample shall record the time of receipt and the location of each sample in the lab's storage system. Any technician or other person who removes the sample from storage or opens the sample shall record the date, time, their name and purpose for removal or opening of the sample.

5. Identify testing laboratory:

NAME: [Name and address of testing laboratory or laboratories]

ADDRESS:

6. Procedure for notifying applicant of the result

The applicant will be notified by personal telephone call and confirmed by mail unless the applicant otherwise instructs.

Appendix 5, Continued

Model Substance Abuse Testing Policy, Job Applicants

All laboratory reports, including the screening, confirmation and quality control data shall be reviewed by the *[title of employer representative to receive report]* as accurate. The report will identify the name of the laboratory, the drugs and metabolites tested for, whether the test results were negative or confirmed positive, and the cutoff levels for each substance. The report will include any available information concerning the margin of accuracy and precision of the test methods employed.

A. Unless agreed upon by the applicant, no report will show the quantity of substance detected, but only the presence or absence of that substance relative to the cutoff level.

B. No report will show that a substance was detected in a screening test, unless the presence of the substance was confirmed in the confirmatory test. Test results will be randomly delayed from 2 to 5 days so that the employer cannot gauge screening test results from the time results are reported. In addition, all testing will be billed to the employer at a single rate per sample tested (which may be periodically adjusted by the laboratory).

C. No substance may be reported as present if the employer did not request analysis for that substance.

D. Reports of samples segregated at the applicant's request, for testing by the applicant's choice of laboratory, will be provided to the applicant and to the employer. Unless the applicant consents, all test results and any information acquired by the employer in the testing process is confidential and may not be released to anyone except the applicant tested. This requirement applies to the personnel of all laboratories involved and to the employer. However, this does not prevent the disclosure of results or information if:

1. Release of information is required or permitted by state and federal law including release under 26 M.R.S.A. Sec. 683 (8) (D), or
2. The use of this information is part of any grievance procedure, administrative hearing or civil action relating to the imposition of the test or the use of test results.

The results of any test may not be required, requested or suggested by the employer to be used in any criminal proceeding as provided by 26 M.R.S.A. Sec. 685 (3) (B).

E. The laboratory shall retain records of confirmed positive results in a numerical or quantitative form for at least two years.

Appendix 5, Continued

Model Substance Abuse Testing Policy, Job Applicants

7. Procedure for an applicant to appeal and contest the accuracy of a confirmed positive result.

If the applicant chose to segregate a portion of their sample and elects to submit that sample to a laboratory of their choice, the results of the second test will be controlling. To appeal the results of a confirmed positive result in lieu of testing the segregated sample, the applicant must fill out and sign the attached "Substance Abuse Test Appeal" form submitting information explaining or contesting the results, within five (5) working days after notice of a confirmed positive test result. The appeal process will be conducted without cost to the applicant. The applicant will then be scheduled to meet within 14 days with *[list title(s) of person(s) who will review the appeal]*. The applicant will explain the basis for the appeal and may be asked questions. After the meeting concludes, a written report of findings and conclusions will be prepared and a copy sent to the applicant.

Appendix 6

Controlled Substances, Drug Names, and Classifications

This is a list of some common drug names; it is not meant to be all-inclusive.

Controlled Substances and Drug Names*:

Cannabinoids*:

- Hashish
- Marijuana
- Tetrahydrocannabinol (THC)

Depressants:

- Barbiturates*
- Benzodiazepines*
- Glutethimide
- Methaqualone*

Hallucinogens:

- Amphetamine Variants*
- LSD
- Mescaline and Peyote
- Phencyclidine (PCP, angel dust)*
- Phencyclidine Analogs

Narcotics:

- Codeine
- Heroin*
- Hydromorphone
- Meperidine (Pethidine)
- Methadone*
- Morphine*
- Opium*

Stimulants:

- Amphetamines*
- Cocaine*
- Methylphenidate
- Phenmetrazine

* Substances currently approved for drug testing under Maine law.
