S U M M A R Y

In 1987 Maine had a fall enrollment of 207,316 enrolled in 728 public schools (599 elementary, 89 secondary and 40 combined elementary and secondary). This count does not include vocational centers or regions, although some of the 207,316 students also attend vocational centers or regions. These students were taught by 13,731 teachers. A total of 14,045 students were enrolled in 103 private schools (63 elementary, 20 secondary and 20 combined elementary and secondary). These students were taught by 913 teachers.

Maine's 494 towns and cities are now divided into 73 school administrative districts with 276 towns, 39 cities and towns under individual supervision, 23 towns under district superintendents and agents of the commissioner, 13 community school districts with 39 towns, leaving 117 towns in 35 unions.

The cost of public education continues to rise. The cost per pupil, excluding transportation, capital outlay and debt service, was \$2,133 per elementary and \$2,832 per secondary.

Much has been done to encourage young people to complete their secondary education and advance, into post-secondary education. Of the 15,519 high school graduates, (13,692 public and 1,827 private) in 1987 53.9% of the public high school graduates and 77.0% of the private high school graduates continued their education--a combined percentage of 56.6%. Approximately 62.1% of these are continuing their education in Maine institutions.

Of the public secondary schools, 119 reported with 66,166 total enrollment, there were 2,600 dropouts which gave Maine a 3.9% dropout rate for the 1986-87 school year.

Included in this issue of "**Maine Educational Facts**" is a compilation of most of the reports printed by the Division of Management Information. The information is compiled from the following reports:

Fall School Statistical Report (EF-M-40)

This report collects total enrollment by school as of October 1. Also what type of school, such as elementary; secondary; senior high; or elementary-secondary combined, etc. In addition, last year's graduates and number of graduates who intend to or are enrolled full/part time in post-secondary education are collected.

Resident Enrollment Report (EF-M-11)

This report is submitted by each local educational unit as of October 1. The report includes all students educated within the school system.

Report of Public School System (EF-M-35)

This report is as of the last day of school. It provides statistics for pupils attending schools operated by the administrative unit to include net registration, average daily attendance, aggregate attendance, aggregate membership; average daily membership, dropouts, expulsions, retentions and number of pupils conveyed at public expense. Also included is information on number of schools discontinued during or at the close of the school year.

Year-end Report of Private Secondary Schools (EF-M-37)

This report provides statistical information from private secondary schools. These schools are required to report pupil registration and attendance data at the close of school each year.

These reports are filled in by school administrators, public and private, and are audited and verified as much as possible. These figures are primarily statewide, with the exception of selected data which is provided on a county level or school administrative unit level detail.

DISTRIBUTION OF LOCAL EDUCATIONAL AGENCIES IN MAINE

CITIES OR TOWNS WITH INDIVIDUAL SUPERVISION

(39 Systems with 39 Towns)

A city or town with individual school supervision is a single municipality of comparatively large size for Maine (generally 75 or more teachers). A school committee administers the education of all grades in the city or town through a superintendent of schools. The city or town charter usually determines the method of budget approval. In many cities and towns, the City Council or Town Council has final budget approval. Since it is a single municipality, cost sharing is not a factor.

SCHOOL ADMINISTRATIVE DISTRICTS

(73 Systems with 276 Towns)

A school administrative district (S.A.D.) is a combination of two or more municipalities who pool all their educational resources to educate all students. One school committee (comprised of representatives from each of the municipalities) administers the education of grades K-12 through a superintendent of schools. Budget approval is by majority vote of those present and voting at a district budget meeting. The member municipalities share the S.A.D. costs based on a formula which includes state valuation and/or number of pupils.

COMMUNITY SCHOOL DISTRICTS

(13 Systems with 39 towns)

A community school district (C.S.D.) is a combination of two or more municipalities formed to build, maintain, and operate a school building or buildings to educate any or all grades. For example, a C.S.D. may be formed to build and operate a grade 7-12 school for all towns in the C.S.D. These same towns will maintain individual control (or belong to a union) for the education of their K-6 students. A community school district may also include education of all grades K-12.

The C.S.D. school committee is comprised of members of each town's local school committee if one exists. C.S.D. school committees are apportioned according to the one person-one vote principle. The member municipalities share the S.A.D. costs, based on a formula including number of pupils in each town and/or state valuation or any combination of each. Community School District budgets are approved by majority vote of voters present and voting at a district budget meeting.

UNIONS OF TOWNS

(34 Systems with 114 Towns)

A Union is a combination of two or more school administrative units joined together for the purpose of sharing the costs of a superintendent and the superintendent's office. Each member school administrative unit maintains its own budget, has its own school board, and operated in every way as a separate unit except for the sharing of superintendent services.

In addition, a union school committee exists, comprised of representatives of each member unit school committee and conducts the business of the union. All votes of the union committee are cast on a weighted basis in proportion to the population of the towns involved.

MAINE INDIAN EDUCATION

(1 System, 3 Reservations)

There are three reservations of Indian children in Maine. These three reservations are organized exactly as a union of towns described above.

EDUCATION IN UNORGANIZED TERRITORIES

(7 Schools)

Education in unorganized territories (E.U.T.) in Maine is a responsibility of the State. The education of territory children is accomplished by the state operating schools which are in unorganized territories and by the assignment of agent superintendents to assure that each child in an unorganized territory receives education. These agents are assigned by the Commissioner of Education through the Division of School Operations.

UNITS UNDER DISTRICT SUPERINTENDENTS AND AGENTS OF THE COMMISSIONER (23 Systems, 23 Towns)

A unit assigned to a district superintendent or an agent of the commissioner, generally is a relatively small unit requiring less than full-time administration. Units under district superintendents procure services of superintendents on their own by negotiating with a nearby superintendent and school board. Agents are appointed by the commissioner on a temporary basis if the local unit is unable to local a superintendent on its own.

UNITS THAT DO NOT OPERATE SCHOOLS

There are 51 school administrative units in Maine that do not operate schools, but tuition all students to surrounding school systems. These tuitioning school administrative units, are described below.

All these units must have a school board or a superintendent. However the superintendent is usually a school agent appointed by the commissioner, or the school unit is a member of a union.

ONE-ROOM SCHOOLS IN MAINE

FALL 1987

At the close of school in 1949, Maine had a total of 676 one-room schools. Now 39 years later there are still six one-room schools in operation. All but one of these schools are located on islands along the coast of Maine.

- As reported on the Report of Public School System (EF-M-35) for Year Ending June 30, 1987. The breakdown of Secondary Special Education and Post Graduates count have been separated as of 1986. Prior to 1986 these counts were combined.

* Graduates: These are the students that completed the requirements for issuance of their diploma at the end of the school year only.

** Population and birth figures are acquired from the Office of Data Research and Vital Statistics, Maine Department of Human Services.

1986-87 NET ENROLLMENT

Net Registration means a student not previously enrolled during the school year in any other school within or outside the state. Reporting net enrollment provides an unduplicated student count for the national statistical reports published by the Center for Education Statistics.

4-Year Olds Program	240
Early Kindergarten	1,220
Kindergarten	16,765
Transitional Grade 1	971
Grade One	16,585
Grade Two	15,675
Grade Three	15,204
Grade Four	14,684
Grade Five	14,450
Grade Six	14,954
Grade Seven	15,168
Grade Eight	15,724
Ungraded/Special Education	1,675
TOTAL K-8	143,314
Grade Nine	16,631

Grade Eleven	15,186
Grade Twelve	14,331
Ungraded/Special Education	519
Post Graduates	30
TOTAL 9-12	63,223
TOTAL K-12	206,537

AVERAGE DAILY ATTENDANCE (A.D.A.)

The average daily attendance is the aggregate days of attendance divided by the number of days the school is actually in session.

Elementary K-8	136,131.84
Secondary 9-12	57,228.97
	<hr/>
TOTAL K-12	193,360.81

AVERAGE DAILY MEMBERSHIP (A.D.M.)

The average daily membership for a school years is the aggregate number of pupils "belonging," whether present or absent, each day divided by the number of days the school is actually in session.

Elementary K-8	142,931.30
Secondary 9-12	61,914.14
	<hr/>
TOTAL K-12	204.845.44

HIGH SCHOOL GRADUATES

S T A T I S T I C A L D A T A

PUBLIC AND PRIVATE

1986 - 1987

Graduate information is for all students who graduated during the regular school year plus those receiving their diploma during the summer session.

1986 G.E.D. STATISTICAL REPORT

During 1986; 3,261 people took the General Equivalency Development (G.E.D.) exam. As a result of testing 2,934 individuals received the High School equivalency certificate. Thus 91.5% of those taking the G.E.D. in Maine passed it, while the National rate is 72.3%.

Below is a summary of other data on 1986 G.E.D. graduates in the State of Maine compared with National figures:

Percent Tested by Age Group

	17	18-19	20-24	25-29	30-34	35-39	40-49	50-59	60+	Average Age
Maine	6.0	21.0	21.4	13.9	10.8	8.3	11.9	5.3	1.4	28.8
USA	9.2	23.8	26.2	14.8	9.5	6.2	6.6	2.8	.08	25.9

Highest Grade Completed by People Passing G.E.D.

	6th	7th	8th	9th	10th	11th	12th	Average Highest Grade
Maine	1.3	3.5	15.9	22.2	28.8	24.7	3.6	9.6
USA	1.3	2.3	9.3	20.3	30.4	31.7	4.6	9.9
