PREFACE

This report is an appendix to the summative data collection report published under separate cover. For reasons of economy, this report does not receive the wide dissemination accorded the summative report. It is, however, generously distributed to all persons who request it. As a minimum, the appendix is distributed to each agency listed on the prefatory page of the summative report.

The appendix lists data collected for each school system in Maine pursuant to public law contained in the Bilingual Education Act, Section 732(b) and Section 34 (§548.10) of the regulations. The data on the incidence of language minorities is reported thus:

- A. grade level student enrollments
- B.* grade level return rates of Lau parent surveys by number and percentage
- C. the number by grade level of students who are natively bilingual
- D. the number by grade level of students who have been identified as limited English proficient
- E. the methods(s) by which students have been identified as limited English proficient
- F. a determination about the SEA's knowledge of the existence of a Lau plan - one which assures that limited English proficient children are receiving an appropriate educational plan

*Return rates for Lau surveys by a school district are determined thus:

1. Full return (all K-12 surveys have been returned to the SEA - 90 percent or better for each grade level).
2. Partial return (some grade levels did not return Lau surveys as required and/or the return rate any one grade level was less than 11 percent.
3. Delinquent (no Lau surveys were returned as required.)
