Re: Legislative Districts Education Report 2009

Enclosed you will find a copy of the Legislative Districts Education Report 2009. In contrast to previous editions, we have only produced a limited number of hard copies because this report can now be accessed on the MEPRI web site at www2.umaine.edu/mepri.

Both the hard copy and the on-line versions contain the same information about schools and municipalities.

School data include:

Resident enrollment	Special Ed prevalence
Average teacher salaries	State valuation 2006/2007
Per-pupil valuation 2006/2007	Per-pupil expense 2006-2007
Per-pupil expense rank 2006/2007	Adjusted state allocation 2008-2009
% of state allocation with adjustment 2008-2009	Name of each school and town
Grade configuration	Attending enrollment 2006-2008
Percent change in enrollment	Number of teachers
Student teacher ratio	Number of teachers with graduate degrees
Percent free and reduced lunch	Dropout rate
Completion rate	MEA scores
SAT scores	

Municipal data include:

Town name	2000 population
Median household income	State valuation 2006/2007
Percent change in State valuation	Mills raised 2007-2008
2006 Full value tax rate	

By the end of June, the MEPRI web site will activate a "Custom Report Generator" that will allow users of the Legislative Districts Education Report to apply school and municipal data to a map of Maine for useful visual displays of data.

I hope you will find both the hard copy and web site useful tools in your important work on the Committee.

Legislative Districts Education Report

A Member of the University of Maine System

January 5, 2009

Dear Maine Citizen,

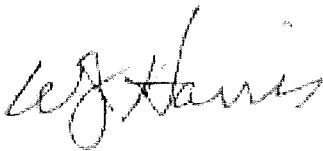

The Maine Education Policy Research Institute is pleased to present the tenth edition of the Legislative Districts Education Report. This edition of the Report differs from previous years' editions which were spiral bound, heavy, hard-copy reference documents. This new on-line edition contains the same information in a more portable and accessible format and soon will be a tool that can be used to answer a variety of questions about schools and communities. There are two main components to the new edition, the first is complete and the second is under development.

- 1) ***School District Profiles:*** You can extract pdf profiles for any Maine school district. These profiles include demographic, financial, and educational data for each school district and the member towns within the district.
- 2) ***Custom Report Generator:*** You will soon be able to create custom reports. In addition to selecting specific data elements such as attending enrollment, percent free/reduced lunch or dropout rate, you will be able to apply filters to include particular subsets of towns, school districts, or schools and generate reports that are sorted by the data element(s) of your choice. This feature will be functional in the late spring of 2009.

You will also find two companion documents on the opening web page: 1) a Key that links the school district, senate district, and house district for each town as well as a listing of the member towns for all MSADs and CSDs and, 2) a brief description of each data element and its source. Below are links to the profiles, custom report generator, and companion documents.

The preparation of these data would not have been possible without the technical expertise of students in the Information Science and Engineering capstone course at the University of Maine and the assistance of personnel in the Maine Department of Education.

Sincerely,

Walter J. Harris, Co-Director
Maine Education Policy Research Institute

LEGISLATIVE DISTRICTS EDUCATION REPORT

2009

Table of Contents

Please note that the contents are organized in three separate sections.

- ◆ Cities or Towns with Individual Supervision (listed alphabetically)
- ◆ Community School Districts (listed alphabetically)
- ◆ Maine School Administrative Districts (listed numerically)
