To: Members of the Inland Fisheries & Wildlife Committee -
127th Maine Legislature

From: Chandler Woodcock, Commissioner -
Maine Department of Inland Fisheries and Wildlife (MDIFW)

Report on Maine's State Heritage Fish Waters List

In 2005, the Maine legislature enacted in P.L. 2005 c. 180, "An Act to Recognize and Protect the Native Eastern Brook Trout as Maine's Heritage Fish." This law named the eastern brook trout as a State Heritage Fish. Outlined in Title 12, §12461, "A List" waters are brook trout lakes and ponds that have never been stocked with brook trout according to any reliable records. Under this statute, 1) the commissioner may not stock or issue a permit to stock fish in a lake or pond listed as a State Heritage Fish water, and 2) a person may not use live fish as bait or possess live fish to be used as bait on a lake or pond listed as a state heritage fish water. Any person who violates this statute commits a Class E crime. In September 2005, the A List contained 305 ponds. In 2007, the Maine legislature enacted P.L. 2007 c. 21, "An Act to Designate the Arctic Charr as a State Heritage Fish;" §12461 was amended to read that State Heritage Fish waters are "composed of lake and ponds that contain State Heritage Fish and have never been stocked according to any reliable records." Since then, 35 additional ponds had been added to the original A List, which in February 2014 totaled 340 ponds.

Public Law c. 180 also directed the MDIFW to review wild (i.e. historically stocked and now self-sustaining) brook trout waters for possible inclusion on the A List. In its 2006 report to the Joint Standing Committee on Inland Fisheries and Wildlife (*Managing Maine's Wild Brook Trout Fisheries in Lakes and Ponds*), MDIFW stated that "the primary intent for managing wild brook trout in lakes and ponds shall be the protection and conservation of these self-sustaining fisheries, in so far as possible, without resorting to stocking brook trout." The MDIFW concluded that these specific wild brook trout waters had not been entirely isolated from the potential impacts of stocking, but concluded nonetheless that these populations were an important resource. These waters were organized under a "B List" and were defined as waters that:

- 1) Have not been directly stocked with brook trout in at least 25 years;
- 2) Have self-sustaining brook trout populations; and
- 3) Have brook trout that are sufficiently abundant to be considered a principal brook trout fishery.

In 2014, the Legislature established Maine's State Heritage Fish Waters List (SHFW; 12 MRSA § 12461 subsection 8) which totaled 550 waters. The following restrictions apply to SHFW:

1. **Stocking.** The Commissioner may not stock or issue a permit to stock fish in a lake or pond listed as a State Heritage Fish water.
2. **Restrictions.** A person may not use live fish as bait or possess live fish to be used as bait on a lake or pond listed as a State Heritage Fish water. This may include an "artificial lures only" or "fly fishing only" restriction.

The Department initiated the public rule making process on June 13, 2015 to change the regulations on four newly surveyed waters (Cedar Pond (T3 R5 BKP WKR), Stony Brook Pond (Lower Enchanted Twp), Eighth Debsconeag Lake (Rainbow Twp), Unknown Pond (Gorham Gore) to Closed to Ice Fishing (CI) and No Live Fish as Bait (S-4) for Cedar Pond, Eighth Debsconeag and Unknown Pond. Stony Brook Pond regulations will change to Closed to Ice Fishing (CI), No Live Fish as Bait (S-4) and S-19, daily limit on trout 2 fish. The Department's Advisory Council voted on September 16, 2015 to adopt these regulation changes and to add those four waters to the existing SHFW list effective January 1, 2016.

The updated list of 558 SHFW can be obtained by contacting the Maine Department of Inland Fisheries and Wildlife.

State Heritage Fish Waters

*Note: BKT = Brook Trout; CHR = Arctic Charr; NRS = No record of stocking
