RE: LIST OF NON-CONFORMING UNDERGROUND STORAGE TANKS

.....
Attached is the requested list of non-conforming underground storage tanks, organized alphabetically by town. The town appears in bold print in, roughly, the center column of the sheet.

This list contains 362 tanks which were in the database at the time the report was run on January 19th. Obviously, as tanks are removed and as previously unregistered tanks are occasionally discovered, the number of tanks in the database changes. The majority of the 362 tanks are residential, with the remainder a mix of commercial or public facilities.

Please feel free to contact me at 287-7872 or by E-MAIL if you have any questions.
