SUMMARY:

This bill would allow counties, municipalities and other political subdivisions to participate in deferred compensation programs now offered by insurance companies, investment firms and financial institutions licensed to do business in this State. Presently, these firms may sell these programs to private groups or individuals but not to political subdivisions. Only insurance companies and investment firms may provide deferred compensation plans to public employees. The state deferred compensation program remains unchanged.

The committee amendment (H-166) adds a section in the banking code authorizing financial institutions to offer deferred compensation plans subject to the institutions complying with the Bureau of Banking's rules on registration and training of employees.
