SUMMARY

This carryover bill from the First Session would have authorized Husson College to confer a Bachelor of Science degree. The need for this bill was eliminated by enactment of PL 1987, chapter 395 (the 1987 Audit and Program Review bill) which amended the law governing the offering of additional degrees by educational institutions. As amended, state law now permits institutions which have been initially authorized by the Legislature to confer certain degrees to offer additional degrees with the approval of the State Board of Education. Legislative change to the institution's charter is no longer required.

SUMMARY

This carryover bill would have increased the state share of subsidizable educational costs from its current level of 55% to 60% in 1988-89 and to 65% in 1991-92. The bill was substantially amended and became the committee's majority report on school funding.

The committee amendment would have incorporated the elements of LD 2201 except that the 2 year old operating and program costs must be adjusted by at least the average of the last 2 years increase in costs and that implementation of the hold harmless provisions would have been delayed to 1989-90. In addition, the committee amendment provided for a minimum state share of educational costs of 58% in 1988-89, clarified the determination and reporting of the local share percentage and the state share percentage of a unit's subsidizable costs, and created a special study commission to examine the school finance and property tax laws.
