Amendments Adopted:
H-38 COMMITTEE

SUMMARY: This bill defines 2 terms dealing with manufactured housing with the objective of limiting a municipality's ability to enact restrictive ordinances dealing with the issues concerning these terms. The first concerns permanent foundations and the second the pitch of the roof. With regard to the second, the bill states that some municipalities are requiring a sharper pitch than federal standards permit.

A bill similar to this was passed on a divided report by Local and County Government last year but was indefinitely postponed in the House.

The definitions in last year's bill were somewhat different from those in this bill. This year's bill calls for a pitch of 2 or more vertical units for every 12 horizontal. While last year's bill allowed somewhat steeper requirements.

The differences between the foundation definitions are technical.

The Committee amendment removes unmortared masonry frostwalls from the types of permanent foundations for which municipalities are allowed to establish design criteria.
