AN ACT TO AMEND THE POTATO MARKETING
IMPROVEMENT FUND LAW.

PL 1987
c. 319

Sponsor: MAHANY, Lisnik, Pines, Theriault
Committee Report: OTP-A
Amendments Adopted:
H-222 COMMITTEE

SUMMARY: The intent of this bill is to provide wider access to the potato marketing improvement fund which was originally established in 1981 and funded by a \$5,000,000 General Fund bond issue. This program lends money to farmers to modernize existing potato storage and packing facilities and to construct new facilities. Two changes are made in the program to offer farmers more opportunity to participate. First, since some farmers' production volume is too low to justify individual investment in a new storage facility, cooperative projects costing more than \$50,000 are encouraged because the bill raises the fund participation limit in such projects to 50% while lowering the farmers' own investment requirement to a minimum of 5%. Second, in order to encourage retrofits of existing facilities, which are generally less expensive projects, the fund participation limit is raised to 55% and no investment of farmer funds is required. In addition, this bill makes it clear that no administrative charge is to be assessed for these smaller projects.
