Amendments Adopted:
H-261 COMMITTEE

SUMMARY: There is currently a state law which forbids the sale of beverage containers which are held together by a multi-pac device made of plastic or any other non-biodegradable material. Although the wording is ambiguous it has been held that the term non-biodegradable refers to plastic as well as other materials.

This bill seeks to broaden the scope of this law to include virtually any type of plastic container regardless of the product that it contains and regardless of its degree of degradability.

Committee Amendment A: This amendment allows the use of plastic connecting devices if the plastic is degradable by any of several means.
