SUMMARY
This bill would have established substantial regulation of "jet-skis" or personal watercraft. The tremendous increase in recreational boating and the use of jet-skis has led to conflicts both offshore and onshore. This bill was modeled after the legislation for ATV's. Minors were required to complete a training and education program and jet-skis were to be licensed.

Maine already has a boating law that includes jet-skis and they are now registered. The bill was withdrawn with the understanding that some of these issues will be dealt with as part of LD 2446 which establishes a commission to investigate Maine's boating laws.
