SUMMARY
 This bill will expand and enhance the loan review subcommittee of the Potato Marketing Improvement Committee, set the interest rate for state loans at 2% below the rate for general obligation bonds of the State, clarify eligibility for a loan through the Potato Marketing Improvement Fund and facilitate use of the funds by requiring the Department of Agriculture, Food and Rural Resources to maintain an office for use in providing information and encouragement concerning the Potato Marketing Improvement Fund.

Committee Amendment A (H-639) eliminates the section which would have added farmers to the fund's loan review committee. It clarifies the intention of the Act to allow the use of the Potato Marketing Improvement Fund for the design, construction and operation of storage, packing and marketing facilities. It also clarifies that Potato Marketing Improvement Fund mortgages are assumable. Lastly, it requires that department rules be developed covering the purchase of existing structures, particularly rules that will ensure that such purchases are consistent with the purpose of the original legislation, which created the fund and its financing.

This amendment sets the interest rate for all loans, including current loans, at 5%.

The amendment strengthens the section regarding the requirement for an office in Aroostook County to service the fund. It requires that, if staffing of the office is contracted for, the contract be made by the managing agency, which is currently the Finance Authority of Maine.

Finally, the amendment removes the appropriation from the bill. The Aroostook County office is to be funded from money currently allocated from the Potato Marketing Improvement Fund.
