The committee amendment raises the cap to three times the secondary foundation per pupil operation rate and limits its application to room and board and tuition costs.

The Senate amendment delays implementation of the bill until 1989-90, adds language to phase in provisions of the bill by prorating available funds and adds a fiscal note.

An entry was added to the second errors bill (LD 2657) to correct a cross reference and other language in the Senate amendment.

SUMMARY

This bill was introduced to implement the recommendations of the Task Force on School Funding. It provided for: (1) maintaining the State share of operating costs in future years at no less than the 1988-89 percentage, (2) updating 2 year old operating and program costs in a more realistic manner, (3) guaranteeing that each unit will receive at least 75% of what it received for operating costs in the previous year and that some "at risk" units will receive 90%, and (4) guaranteeing that each unit will receive at least 5% of its operating costs in State aid each year. In amended form, this bill served as the committee's minority report on school funding.

The committee amendment would have required that, except in unusual circumstances, the 2 year old base year costs be adjusted by at least the average increase in education costs over the last two years. The amendment also would have provided for any additional funds, up to \$11 million, available for education subsidy to be distributed through the updating adjustment.
