Committee Amendment A (H-569) changes the use of grant money to deal with potato culls from a grant related to a specific use to funding a program for determining a use. It also adds a 1991 sunset provision to the bill and an allocation section to allocate the grant funds from the Potato Marketing Improvement Fund.

SUMMARY

The purpose of this bill is to provide equal representation for growers and processors on the Maine Blueberry Commission.

Committee Amendment A (S-405), the majority report, which was adopted sets up a subcommittee of the Joint Standing Committee on Agriculture to study the organization of the Commission.

Committee Amendment B (S-406), the minority report, which was not adopted, would have added a representative from the Department of Agriculture, Food and Rural Resources to provide an uneven number of board members. It keeps the requirement of the original bill that the commission membership be split equally between processors and nonprocessors. Membership currently is weighted in favor of processors. This amendment also requires replacement of a member who no longer works in the section of the industry that he was appointed to represent.

The Senate Amendment (S-530) changes the status of the study from one authorized by law to one authorized by the Legislative Council.
