Finally, Secretary Laurette Knox, Legal Assistant Carolyn Chick, and Research Assistant Robert Dunn had special responsibilities in the preparation of the overall document.

SUMMARY

This bill was presented for the Legislative Task Force on Railroads to address the state cost-sharing program for maintenance of railroad crossings. It changes the basis of reimbursement to reflect a railroad company's actual average costs as reported the previous year up to a specific annual dollar amount of \$1,500 for crossings and \$2,500 for bridges. Present law bases the reimbursement on an estimate the 1983 average maintenance cost adjusted by the Consumer Price Index. The bill adds a provision allowing the department to make reimbursement contingent on railroad compliance with specific requests of the department and adds a provision allowing the department to contract with other entities to assure that necessary crossing maintenance is done.

SUMMARY

This bill was presented for the Legislative Task Force on Railroads. It requires DOT to collect and analyze data on overweight trucks annually and to make recommendations to the Legislature on how to reduce the number of violations. Any person who weighs and keeps a record of the vehicle before or after unloading would have to keep those records for 30 days, for inspection by any law enforcement officer but only for purposes of preparing the "overweight report".
