AMENDMENTS ADOPTED

SUMMARY

This bill sought to establish a 7-member committee of experts which would examine medical technologies and treatments not yet offered in Maine and make recommendations regarding its introduction into Maine. The Maine Health Care Finance Commission would be required to increase the hospital's gross patient revenue limit to account for the increased costs attributable to the new technology or treatment where placement is consistent with committee decisions. Once the desired number of locations is reached, no automatic adjustments to a hospital's revenue limit would take place.
