LD An Act to Assure Adequate Housing for the People of Maine LV/WD
2526

<u>SPONSOR(S)</u>	<u>COMMITTEE REPORT</u>	<u>AMENDMENTS ADOPTED</u>
BUSTIN DUFFY CLARK M	LV/WD	

SUMMARY

LD 2526 proposed to require a developer who, in the process of constructing housing, displaced low or moderate income households, to construct or find housing for these displaced tenants. The serious shortage of affordable housing for low and moderate income households is intensified by the conversion of low and moderate income rental housing to condominiums and upper income housing.

LD 2526 was withdrawn by the sponsor and sent to the Governor's Task Force on Affordable Housing for task force consideration.

LD An Act to Ensure that a Certain Percentage of Public Housing PUBLIC
2558 is Handicapped Accessible 730

<u>SPONSOR(S)</u>	<u>COMMITTEE REPORT</u>	<u>AMENDMENTS ADOPTED</u>
JALBERT HOLLOWAY BUSTIN		S-388 ANDREWS

SUMMARY

New Draft Of LD 2048

The original bill proposed that public housing (constructed with state or federal monies and housing a minimum of 10 family units) meet an additional standard whenever construction, remodeling, or enlargement costing more than \$75,000 is undertaken after October 1, 1988. Following this date, 20% of all ground level units and 10% of all upper level units connected by an elevator would be required to be handicapped accessible.

The new draft provides with respect to public housing construction beginning after October 1, 1988, that 10% of all ground units and 10% of all upper story units of public housing connected by an elevator be handicapped accessible. In addition, the Commissioner of Human Services is required to establish a central clearinghouse of information concerning handicapped accessible housing standards and costs, and the location and type of handicapped housing throughout the State for which there is a need.

The committee found that there is a serious lack of information relating to handicapped housing availability and housing needs of handicapped persons throughout Maine. In addition, the cost of new construction of handicapped housing requires roughly an additional 1/2 of 1 percent of total construction costs for conventional housing.
