COMMITTEE REPORT
OTP-AM

AMENDMENTS ADOPTED
H-479

SUMMARY

This resolve would have created a special commission to study several issues related to the effective use of instructional time in schools, including length of the school day and year.

A broadly representative membership was provided for the commission; and the commission was to present its findings, together with any recommended legislation, to the Second Regular Session of the 114th Legislature by November 30, 1989.

The committee amendment provided for input during the study from the State Board of Education and increased the number of members on the commission, the number of public meetings of the commission and the appropriations by the amount necessary for these additional requirements.

This resolve was not funded on the Appropriations Table. A Legislative Council study was approved on the same topic to be conducted by a 5 member subcommittee of the Education Committee.
