AMENDMENTS ADOPTED

SUMMARY

Currently, state employees, which includes teachers, and local district employees, may transfer their service for retirement purposes from one type of employment to another, state to local. However, unless the new employer elects differently, the rate of retirement compensation paid for the earlier employment period will be based on the highest salary during that employment, not during the entire period of the person's employment.

This bill requires that persons who transfer from state employment to local district employment shall have their state service retirement credit computed at the highest salary paid during their total employment with any group participating in the Maine State Retirement System.

SUMMARY

In 1950, the United States Social Security Act was amended to permit states to cover employees of states and political subdivisions who were not covered by a retirement plan. The Legislature enacted the required legislation in 1951 to provide coverage for employees of political subdivisions.

The bill enacted by the Legislature in 1951 provided that the Maine State Retirement System would be the state agency responsible for the administration of social security for political subdivisions in Maine. "State agency" is the unit of State Government which works with the Social Security Administration in administering the federal social security program for employees of the state and political
