AMENDMENTS ADOPTED

H-360

SUMMARY

This bill amends the laws relating to underground storage tank installers in 2 important ways. First, it requires applicants for certification as underground storage tank installers to undergo an apprenticeship requirement before being certified as an installer. An apprenticeship consists of the apprentice assisting in 6 or more actual tank installations. The current on-site installation examination requirement is dropped. The certification for installers also is modified to consist of 3 categories of increasing difficulty.

The 2nd major change contained in the committee amendment (H-360) is the creation of a separate certification process for persons only involved in underground gasoline storage tank removal.
