LISNIKCOMMITTEE REPORTAMENDMENTS ADOPTEDSUMMARY

This bill would direct the Department of Human Services to increase the Medicaid payment rate to long-term care facilities to reflect the facilities' actual costs, measured on January 1, 1989, for wages and benefits. If a facility can demonstrate that its costs for wages and benefits on January 1, 1989, does not accurately reflect market conditions, the department is authorized to provide additional increases.

This bill would also require that the department and each long-term care facility share equally any costs for wages and benefits in excess of the amount of reimbursement for wages and benefits. In addition, it would direct the department to remove the optional Medicare cap on a facility's routine service costs.
