OTP-ND-NT	Ought to Pass in New Draft, New Title

AMENDMENTS ADOPTED

H-330

SUMMARY

The bill amended Maine potato licensing laws to provide for disclosure to the potato growers of the potato dealers' final selling price.

The committee amendment replaced the original bill by adding disclosure of price per unit at final destination to the information that must be provided by a dealer in order to hold a producer to a contract guarantee when the producer has a shipment of potatoes inspected prior to shipment. The amendment also made it a civil violation for a dealer to attempt to hold a producer liable for an inspected shipment without providing certain information on the record of transaction. Finally, a dealer of potatoes who attempts to prevent a shipment of potatoes from being inspected commits a civil violation with a fine up to \$1,000 for the first offense and up to \$2,000 for subsequent offenses.

AMENDMENTS ADOPTED

H-440

SUMMARY

The bill required that any amounts included in the Class I and Class II prices established by the Maine Milk Commission to reflect the higher costs of production in Maine be pooled, since those higher costs must be borne by producers on both the Maine and the Boston markets.

The committee amendment ensures that any cost of production change to the minimum price for milk will occur only after notice of rulemaking and a public hearing.
